ATTEND THE CHURCH OF YOUR CHOICE THIS SUNDAY

A NEW BIBLE...

for ME!

She really is delighted because her church is presenting her with a new Bible. She understands and appreciates this gift, because in earning it she has committed many verses to memory, and thus learned to value God's word. The churches desire that all would study and learn to love God. Plan to attend church this Sunday and share in this knowledge and joy.

EVERYONE IN THE CHURCH
THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society as way of life will long persevere and the freedom which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Title to all that stucco residence located partially on the remaining portion of which the above described property was originally a portion, said residence being traversed by the fourth call of the above metes and bounds description, which call enters the southeasterly side of said residence seven (7) feet northeasterly of the southernmost corner of said residence and leaves said residence on the northwesterly one-fourth of Sec. 21, Block Y, (17.2) feet southwesterly of the northernmost corner thereof, with the result that the portion of said residence lying southwesterly of said call would be in such condition that it could not be adequately reconstructed at such location; plus the temporary right to enter upon the property remaining, of which the above described premises were originally a portion, for the sole purpose of removing all of said stucco residence, as is more fully shown by Plaintiffs' Petition on file in this suit.

If this citation is not served within ninety days of the date of its issuance, it shall be returned unserved.

The officer executing this process shall promptly execute the same according to law, and make due return as the laws direct.

Court gave the Legislature until August 1, 1967, to correct the electoral law.

So, this November, voters will select representatives on the basis of the original reapportionment draft.

Texas' four largest counties — Bexar, Dallas, Harris and Tarrant — will gain a total of 16 seats in the House for a total of 51 representatives.

Under the new redistricting plan, 12 out of Texas' 254 counties will have a majority of House votes.

Although their power on paper is enormous, as a practical matter representatives of metropolitan areas seldom if ever vote as a bloc. So rural legislators aren't likely to be ground under the heel of big city lawmakers.

State senatorial reapportionment never was subject to change.

Congressional redistricting was upheld earlier.

their road north from Baileyboro, road 2187, has been wound up with the conclusion of all paper work. The route runs north from the Baileyboro cemetery seven miles, intersection FM 746 running east and west southwest of Muleshoe.

FEA is moving its lines, and telephone lines also are being moved. The route was a dirt road, but when it was approved for a paved road, it became necessary to widen the route 50 feet — 25 feet on each side — to make it a 100-foot right-of-way. And that, of course, involved easements.

The route will parallel SH 214, running four or five miles west of that route leading south from Muleshoe.

Judge Williams said the state will be ready to advertise for bids on the paving project.

The Portales-Muleshoe route was virtually assured this past week after the final condemnation was settled. This route is to be only a dirt route between the end of FM 1760 from the

Mrs. Verney Towns underwent surgery Thursday in a Houston hospital for a kidney ailment. The Rev. Don Murray was in Houston for the surgery.

Mrs. Charles Grow possibly will return to Muleshoe Wednesday from Lubbock Methodist Hospital where she underwent surgery Tuesday. According to the Rev. Charles Grow she is doing fine.

A meeting of Parmer county cattle producers is to be held Wednesday at 7:30 p.m. in the

point when that road turns north. The new route will go west seven or eight miles to the New Mexico state line, opening an entirely new strip of highway. At the New Mexico line the road will join a New Mexico road leading west from the state line to intersect the Clovis-Portales highway, now U. S. 70.

While the new road will not all be paved at the present time, it will offer a dry-weather route to Portales which will whack the distance from 50 miles to 35 or 36 miles. Judge Williams said. Eventually, this may be the route for U. S. 70, it was explained.

Judge Williams said the right-of-way work on this route is complete. "There's a bit of fencing to do and possibly we will have to wait for some moisture before we can actually construct our part of the route. New Mexico has already completed its portion."

Talk of Tax Boost Called 'Premature'

AUSTIN — Gov. John Connally is going along with forecasts that a "substantial amount" of new government spending in the next fiscal period is "almost inevitable."

However, Connally declined to join in predicting specific new taxes. He called such forecasts "premature," although the Committee on State and Local Tax Policy earlier had indicated it agrees with the predictors.

"It's almost inevitable that we are going to be looking at increased expenditures in a substantial amount," Connally told a press conference. "But I don't want to try to estimate the magnitude of a tax program, if any, or the expenditures."

Meanwhile the tax policy committee held its first meeting, ordered Texas Research League studies on impact of sales tax adjustment and an unusual appraisal of how to equalize the widely-varying state property tax.

Rep. Ben Atwell of Dallas, committee chairman, reported that all members of the panel seemed to feel that more revenue will be necessary when the Legislature writes the new budget for Texas government operations next year.

Atwell said the committee will be taking a reading on revenue which could be obtained from raising the sales tax rate (now two per cent) and removing various exemptions.

These exemptions apply to alcoholic beverages, industrial and agricultural fuel and power. Atwell doubts that the legislature will tamper with the food, medicine and farm implements. He expressed a personal preference for a rate hike if new money is mandatory.

Committee also is going to study the likely effect of income taxation and corporation tax formula adjustments.

As a possible method of equalizing the property tax, the committee will evaluate results of assigning each county its equitable share of the ad valorem loan on the basis of es-

timated fair market values. Voters would have to approve such a procedure by Constitutional amendment.

Citizens of some counties now are paying seven times as much tax on property with the same value as do citizens of other counties.

Legal Services — Harold Jones of Wichita Falls is chairman of the newly-chartered Texas Bar Foundation to raise funds for expansion of the State Bar's program of legal services to the poor.

Philip Brin of Longview is vice-chairman and Associate Justice T. Gilbert Sharpe, Brownsville, 13th Court of Civil Appeals, is secretary.

Draft Rules Tightened — Young Texans served draft orders no longer can get them cancelled by joining reserve or national guard units, Col. Morris Schwartz, State Selective Service director, announces.

A man still can enlist in regular active-duty force after receiving his draft orders — if he can be signed up before induction date, Schwartz said.

New policy reached Texas draft boards from National Selective Service Headquarters where it was adopted on recommendation of the Assistant Secretary of Defense for manpower.

Candidates Announce — In a press conference at the Capitol, Stanley C. Woods, 43, Houston and State Rep. Bill Hollowell, 37, Grand Saline, announced as team candidates Governor respectively.

Judge Joe Greenhill announced his candidacy for re-election as Associate Justice of the Texas Supreme Court.

Courts Speak — Third Court of Civil Appeals here upheld the State Banking Board in granting a charter to Northline State Bank of Houston, thus reversing the decision of District Judge Tom Bevelly of Austin. Airline National Bank of Houston brought suit claiming there was no public necessity for a new bank.

State Supreme Court declined to give special consideration

to adequacy of legal services. The Nueces County legal office in a suit where they stand to lose their home.

Court of Criminal Appeals sustained the death sentence conviction of Walter Lee Sirois in the rape of a Houston woman.

To South America — Governor Connally is considering a procedure for major South American countries starting February 21 to drum up participation in San Antonio's 1968 HemisFair.

He said he hopes to visit presidents of Venezuela, Brazil and Argentina — and perhaps Chile and Peru — and ask their cooperation in staging HemisFair exhibits. Connally doubles as the commissioner general of the "Fair of the Americas."

"We are running out of time," Connally told a press conference. "The fair is scheduled to open in April of 1968. Exhibits must be built in a little over two years. Once the line is broken, I think they (all the major South American countries) will come in."

Tourist Seminars Set — Texas business men get tips on how they can get a bigger share of \$30 billion a year U. S. vacation market in series of tourist seminars scheduled for 20 Texas communities March 7 — May 13.

University of Texas Department of Distributive Education and Texas Tourist Development Agency will co-sponsor the meetings in places yet to be selected.

Clinics are mainly designed for groups which have direct contact with tourists, including police, hotel, service station and restaurant personnel. Interested communities and groups should correspond with Texas Tourist Development Agency here.

Oil and Gas Arguments — Oil and gas operators in 15 West Texas counties have been given a chance to show why they shouldn't be ordered to stop using open unlined surface pits for salt water disposal.

Texas Railroad Commission set Feb. 24 for hearings on fields in Young and Archer Counties.

A March 10 hearing has been set on fields in Hamphill, Scurry, Andrews, Martin, Bailey, Hale, Cochran, Dawson, Gaines, Hockley-Lynn, Terry and Yoakum Counties.

Hearings are a part of the commission's activity in the water pollution control field.

Chairman Ben Ramsey says such hearings now are consuming 40 per cent of the time of the commission's field inspectors.

Rights May Be Cancelled — At a March 15 meeting in Austin, the Texas Water Rights Commission proposed to cancel water rights for all who fail to exercise them by that date. Only five rights are scheduled to be heard at this time.

This is the first of more than 200 hearings expected to be held in 1966 as the state moves to erase "paper rights" to use stream water. Then the state will be able to show how much water really is available for future use in Texas rivers.

Police Report Complete — Out of almost 900 police agencies employing 3600 officers, less than half have established formalized minimum requirements for employment. So states the Texas Commission on Law Enforcement Officer Standards and Education.

In addition, less than a fourth of agencies require any sort of formal training before officer assignment.

Some Win, Some Lose — Some Texas cities have been adversely affected by the recent closing and reduction of 126 military bases in the nation. But this may turn out to benefit other communities in need of airport equipment.

Texas Aeronautics Commission will act as a go-between for communities seeking surplus property.

Austin and Abilene both had Nike facilities declared excess recently and Bellville and Huntville lost Naval Reserve installations. Towns interested in securing the surplus equipment should contact the Aeronautics Commission.

Interest Earnings Up — Texas state government now has \$228,800,000 in time account deposits.

State Treasurer Jesse James estimated the money will earn \$9,100,000 this year at four per cent interest.

James said the interest will average \$70,832 a month, or more than \$25,000 a day. Total exceeds that of recent years.

Of Law and Love

"I Forgot!"

A motorist, hurt in a collision with a freight train, sued the railroad for damages. But in court, the railroad retorted that the motorist himself was guilty of negligence.

"He crossed those tracks twice a day for months," noted the railroad. "Y et he admits he failed to look out for a train."

"On this particular occasion," explained the motorist, "I just happened to forget about the tracks. But that isn't negligence. Everyone has a lapse of memory once in a while."

However, the court ruled that his excuse was no excuse at all and that he was indeed guilty of negligence.

If you should ever seek damages for an injury, your own conduct is likely to come under careful scrutiny. Were you partly to blame for the accident? If you know that danger lay ahead, is it an excuse to say "I forgot about it?"

The general rule is: No, on the contrary, forgetfulness, if itself is one of the commonest forms of negligence. Said one court:

"Though we may regard with amused tolerance the proverbial abstractions of middle age hunting for the thimble on its finger, and of old age troubled that it cannot find the glasses on its nose, absent mindedness is not a satisfactory standard of care in the modern world."

Nevertheless, the law does not expect you to have instant and total recall of everything you have ever known. Mitigating circumstances may make your forgetfulness forgivable. One such circumstance is the mere passage of time. Thus:
