### Thursday to Thursday By CHARLES DIDWAY

THE RAINS CAME TOO late to catch last week's "Thursday to Thursday" column, in which we were still harping on the drouth This week, they seem too far in the past to say much about them, but perhaps we can make connections at some future date and be writing about the rain at the same time we're watching it pour down outside . Speaking of water, is there a car-chasing dog in your family? You may want to try this stunt. Fill a bucker with ice water, really iced too, chunks floating around in it and then take a member of your family with you for a drive. The moment your dog takes out after the car, yipping at the tires or running alongside, let him have the whole bucker of lee water smack in the face or wherever it'll hit him. The cure is

MISS JESSIE PEARCE, county home demonstration agent, announces that plans are continuing apace for the District 2 Texas Home Demonstration Association convention to be held in Post on May 5, it il become of the biggest, if not the biggest conventions ever held in Post, with club delegates and visitors attending from some twenty countries. The convention will be held during National Home Demonstration Week, special theme of which will be "Home-the Cornerstone of Freedom" . You may not care, but a chicken becomes a fowl at the end of one year, and a jack rabbit can run as fast as a good race horse-Often a long-legged sack attains a speed of 45 miles an hour

HAROLD LUCAS, salesman at Caprock Chevrolet, Inc., says he's pretty sure the firm will sponsor a Soup Box Derby this year, along with other Chevrolet dealers over the South Plains Land year, the firm, then Connell Chevrolet Co., announced plans for the derby, but for some reason or another no Post youngsters showed an interest in the affair. This year perhaps, they'll take advantage of the opportunity to take part in "the greatest amateur. racing event in the world. AT SOMETH A parakeet owner do you want to know whe ther you have a pos bird is a girl bird. You can determine the sex by the color of the mostrile. ### CIVIL DEFENSE SET-UP . . .

The setting up of a Civil Defense organ ization in Garza County isn't as useless as it might appear on the surface, it might have been one day but not now.

We recall that several years ago, early in World War II, bomb protection insurance was peddled-and sold-in towns and cities as far inland as the midwestern states, and that purchasers land thermelves wide open, in many instances, to the redicule of their less guillinle fellow men. Nowadays, however, it's an entirely different story.

Back in the carly '40's when bomb protection insurance was being sold far inland, the atomic bomb - fury had not yet been released. and the general public had no inkling of the yet to come Il bomb. Then, perhaps, a fellow living fundicels of miles from the coastlines could be Linghed at for taking such precautionary newsures, but nowadays the footish one is he who insists "it can't happen

If we're to believe what we read and hear of the world situation and of the force of the test bombs being set off by the United States and other world powers, we'd be foolish to make light of such steps as the setting up of a Civil Defense organization. The very fact that no one knows what is coming next in the preparations for war or for the preservation of peace, is proof enough that we should be ready for any emergency-if we wish to surv-

History is little vise than a picture of human crimes and misfortunes -- Voltaire.

the annual Post Stampede Rodeo, Members of the local riding group received cards last weekend wanting to know how they felt about riding in the April 29 parade opening the Texas Tech Intercollegiate Rodeo There'll be a great deal of local interest in the rodeo itself, since two football greats-JACK KIRK-PATRICK of Post and SAMMY BAUGH of Rofarr-will move in in matched repains contest. Incidentally, earth sent out this year from the Stampede Combous "head office" are signed

Down With Competition

One point of view names from the dischples of John Dewey (this of these disciplies, a high school feather, writes that also is "snock. ed" to think that husinessmen "have no nighter Ideals or understanding than that of competition." She pleads that an A agreenment may be only a D achievement for autosmo ensaand that it is much better ber the Peripolitical development in: "work on his ones level and compete with Elmself, waving in pregress on far he can." This reacher wherely says. "A pupil gains confidence only when measured by his own possible growth and not his neighbor's brains," I believe this theory is wicked and unfair to the student who must compereafter graduation with all students on all be-Of course an A schievement is only a D

achievement for someone else! but if am presty sure the D student can excel in something. Let him find that something and move in that direction. That is where we need guidance from a sympathetic teacher. Let no student be discouraged by work that he finds hard or because he cannot make A grades, too This is not preparation for life, because life is not like that. One of America's great husiness leaders today, James F. Lincoln of Cleveland. tells his workers he looks upon them as play ers on a team. He expects them to play to win. and the minute one of the players stacks off. a substitute will be sent in There are only a very few places in this world where one can compete with just oneself. If you doubt it. send to Utopia College, Eureka. Kana. for a free copy of McComb's essay on the crime of present day High Schools.

Teachers Don't Dare A different point of view is presented by another high school teacher, who writes: "We cater to mediocrity. Only lip service is paid to the principle that achievement is the basis for grades. The truth is Righ Schools are con- next business depression when it comes.

ATENOO shemphred is good for the nating

difficulty by by the life Strate Aerosiae from fitte season to that the "would be popul comes popular by but the tipe appear proper shundards of conduct or academic webless columny today and will be a cause of the Not semalt" belief of some slay somes.

The Standards We Baise

Tenchers tell me that when they insidnom high stamberds and enforce them, they ting Decembe known its "good" brachers. But unpopular." The school paper and the yearbook take-cracks at them. When such teachers question nevious laxities at family meetings; the other teachers smule and refer to them as trouble makers. It is wrong for a principal or achool committee to allow this, but then they

Many good teachers tell me they have coused being a martyr and have at least seen the light. They say that they get promoted faster by being a good fellow, smiling at students who need discipline and passing all. students, whatever their work. This growing habit means much to every reader of this column it explains why these high school graduates do not get and hold better jobs This poor training handicaps your children throughout life it is more than a school probiem. You and your family will always suffer from such lack of school discipline. In fact, this "easing up" may be a basic cause of the

### Recent Rains Expected To Up Acreage Invitations Arrive Of Guar, Blue Panic Grass In Area

ing article is from the Post unit office of the Duck Creek Scil Conservation District.)

acreage of new soil conserving ment and soil improving grops for this

grass These crops, while not Service new to parts of Texas, are relatively new to the Duck Creek Soil Conservation District.

Guar, a tap-rooted summer an uai legume, has proven itself well adapted to arid West Texas as well as to other areas having more rainfall. This crop is very beneficial as a soil improving crop. Its taproots act as many bisels opening up plowpans and tight sub-soils. By opening up the soil mechanically and adding organic matter, which makes soils more porous, water is taken more readily and is retained much longer by reducing evaporation. Further, the soils are enriched by the addition of nitrogen. This is made possible by proper inoculation of the Guar seed before planting with the nitrogen fixing bacteria.

Many farmers have reported good increases in crop yields by using Guar in their crop rotation. legume, seems destined to play culture of West Texas | Like field. luar, it has proven itself able s a perennial drouth and coldsudangrass in its growth habits. Saves Money

Plenty of really hot water at a minimum of cost is yours when you install an automatic gas water heater sized to the needs of your family. The clean blue flame of natural gas heats water three times faster than any other all-automatic fuel. See your plumber or gas appliance dealer and ask him to install an automatic gas water heater in your home. Be sure it's sized to meet the hot water needs of your family. An adequately sized water heater will save you labor . . . it will save you time . . . and if it's run with natural gas it will save you money.

heater features the Permagios tank

# If your car is less than 4000 mi.old

Begin to use Esso Unific right away and continue to use Essa Unific throughout the life of your car.

This is a new type oil for high compression engines. Unific minimizes the deposits that are a principal cause of knocking and preignition ping. Highest viscosity index prevents engase "drag," thus saves gasoline. HD, antiacid, detergent. You get smoother, quieter ening performance ... lower maintenance costs ... improved gasoline mileage. A must for every new\* can

# If your car is over 4000 mi. old

Humble recommends Esso Extra; it will give you outstanding performance.

Economical to buy, Esso Extra Motor Oil gives you more for your money than any other oil in the same price range. HD, antiacid, detergent Lengthens engine life, gives you better lubrication, a better oil seal, a cleaner engine. Premium quality ... outstanding performance.

 Many Texans began to use Esso Uniflo in new 1953 automobiles. If you are one of these, Humble recommends that you continue to use Esso Uniflo, no matter how many miles you have on your car. To make a new car's engine run better and last longer, you should hegin to use Esso Uniflo when the car is less than 4,000 miles old and continue to use Esso Unillo throughout the life of the car.

than a couple of ounces! Then over a friendly glass of beer, they allowed as how maybe they were both right . . . which is how so many arguments should end.

Attorney General John Ben Shepperd called the annual meetng to discuss problems and new methods of prosecutors, judges and peace officers of Texas. The meeting will be jointly

sponsored by the Attorney General's Office and the School of law of Baylor

The Texas statutes authorize the Attorney General to convene law enforcement officials in order to determine law enforcement practices and policies. Over 400 law enforcement of

ficers are expected to attend from every part of the state Included among those present vill be Justices of the Court of riminal Appeals, District and ounty Attorneys, Sheriffs, Police hiefs, Justices of the Peace and lonstables. Last year's meeting held in Austin was attended by 315 delegates.

Attorney General Shepperd explained that the conference has been enlarged this year from Mexico and Colorado have been two to three days of business.

Topics for discussion include state-wide crime report, prison Jones Stadium, with performanand fail problems, control of narcotics, juvenile delinquency, lie light of each performance will detector techniques, hot check be a matched calf-roping conlegislation and trial and appeal test between Sammy Baugh, of criminal cases.

Featured speakers will include William J. Jameson, President of Kirkpatrick. Tech sophomore the American Bar Association from Post and Earle Stanley Gardner, Attorney and Novelist.

Shepperd said that General
