## April Rainfall Boosts County's Crop Prospects

### Month's 5.35 Ups Total To 9 Inches

With May apparently picking up where an unusually wet April left off, skies still held promise of more rain late Wednesday afternoon, with hopes already the highest they've been in several years for bumper crops.

At 1:30 p. m. Wednesday, .15 of an inch of rain had fallen in Post to start the new month of May off on late April's pattern, which saw 5.35 inches deposited here.

Unlike the rains of April 20, those of Saturday, Sunday and Monday were general, with the

LIONS QUEEN AND RUNNERS-UP—Leslie Nichols (front row center) will represent the Post Lions Club Friday in the queen's contest at the District 21-1 convention of Lions International in Lubbock. Miss Nichols and Linda Davis (front row left) tied in the contest, but Miss Nichols won on the toss of a coin, with Miss Davis receiving the consolation title of "Lions Sweetheart." Four of the other contestants were Jerry Beth Ruins (front row right), and from left to right back row, Frances Byrd, Louise Gerner and Linda Lusby. Not present when the picture was made were contestants Barbara Wheatley and Linda Livingston.—(Staff Photo).

INVITATIONS GOING OUT—S. E. Camp and his secretary, Miss Fay Taylor, are shown preparing invitations to be sent area riding groups to participate in the parade opening the Post Stampede Rodeo on May 15. In addition to 30 posse invitations, Camp and Miss Taylor mailed more than 200 sets of rules, regulations and entry blanks to rodeo and cutting horse contestants.—(Staff Photo).

### Officers Are Chosen By Garza Teachers

Mrs. Mary Lee Wristen, Post Junior High School teacher, was elected president of the Garza County unit of the Texas State Teachers Association at election of officers following a dinner at 7:30 Monday in the school lunchroom.

Other officers elected were: Mrs. Dixie Roberts of Southland, vice president; Mrs. Mary Raphael of Post, secretary, and C. W. Denison of Justiceburg, treasurer.

Outgoing officers are: Glenn Whittenberg, president; Mrs. Jean Gandy, vice president; Mrs. Bob Lusk of Graham, secretary, and Mrs. Rowena Pierce, treasurer.

"Trails West" was the theme of the dinner, with a western dinner theme being carried out in the decorations. Gold nuggets were place cards, covered wagons were used as place mats and cacti and beargrass decorated the tables.

The tables were arranged in a horseshoe shape around a campfire and the only lighting was from candles in bottles which had been frosted with candlewax. Buffalo and cow skulls and ranch brands added to the setting. On the main table was a chalk figurine of a western sheriff, and the cacti on that table was gold-colored. The onion holder was a 100-year-old holster used by Garza County's first sheriff.

The menu consisted of barbecued chicken, beans, tossed salad, apple dumplings, stuffed celery, deviled eggs, a salad plate and tea and coffee. Mrs. Sid Cross was chairman of the food committee.

The April total of 5.35 inches is .36 of an inch more than Post received during the entire year of 1956. The April rainfall, which didn't begin until the month was two-thirds gone, brings the 1957 total through the first four months to an even nine inches. Rainfall up to 1:30 p. m. Wednesday had boosted the total to 9.15 inches.

The county agent's rain gauge, which sets on the courthouse lawn, registered 1.15 inches Saturday, 1.03 inches Sunday, .25 of an inch Monday and .36 of an inch Tuesday.

The excessive rainfall is allowing irrigation farmers to save water, and City Supt. R. H. Tate says this will have a beneficial effect on Post's rapidly deteriorating underground supply. With the exception of making more water conservation possible, however, that's about the only way the rains can help the city's water supply, the superintendent said.

Most farmers are of the opinion that for best planting results, steady rains for the rest of the week and a drying-up period after that are needed. Then, good rains after the cotton comes up should assure the county its best crop in several years.

Of the county's 41,499 allotted cotton acres, about 3,970 have gone into the Soil Bank's acreage reserve program, leaving about 37,500 for this year's crop. Approximately 10,000 acres are irrigated, according to the county agent.

The agent said around 60,000 acres probably will be planted in grain sorghums. Sufficient planting moisture, enabling farmers to wait until the latter part of June to sow grain, will make for better maturity, he said.

Not only is this year's four-month rainfall mark of 9.15 well ahead of the record dry year's 4.99 total, but it is also .33 of an inch above the previous dry-year record of 8.82 in 1951—and there still are eight months of this year to go.

### CLOSE CITY SECOND, JUSTICEBURG THIRD

## Graham School Is Play Day Winner

Graham, the host school, scored 490 points Friday to take top honors in the annual Garza County Rural School Play Day event. Close City was second with 400 points and Justiceburg was third with 155 points.

Graham scored 200 points in the literary events and 290 points in the track and field events. Close City's score was 185, literary, and 235, track and field. Justiceburg scored 130 points in literary events and 25 in track and field.

### Pony League Needs More To Register

Twenty-two boys, 18 short of the number required, registered Monday night for Post's two Pony League teams, which are to begin workouts at 4 p. m. Tuesday, May 7, on the junior high school grounds.

Leo M. Acker, league official, said nearly all those registering Monday night were 13-year-olds, most of whom played Little League ball last season. Any Garza County boy who is 13 or 14 years old is eligible for Little League play, with the exception of 14-year-olds who will be 15 before Aug. 1 of this year.

Boys who did not register Monday night may obtain a registration card from Shelley Camp at the Texas Company office across the street from the Tower Theatre.

## 10 Top Seniors Named As Graduation Nears

Howard Jones, son of Mr. and Mrs. Paul Jones, and Kenneth Mills, son of Mr. and Mrs. Ellis M. Mills, have been named as valedictorian and salutatorian, respectively, of this year's graduating class at Post High School.

Names of the 10 top students in this year's graduating class were announced Monday by Principal Glenn Whittenberg.

Howard's grade average was 96.67 and Kenneth's was 95.86.

Howard and Kenneth were also valedictorian and salutatorian of the eighth grade graduating class in 1953.

Third high student is Lexa Acker, son of Mr. and Mrs. Leo M. Acker, with a grade average of 95.77. Lexa also ranked third when he was graduated from the eighth grade in 1953.

The other seven of the top 10 students and their grade averages are: Dixie Davis, 92.90; Orabeth Maxey, 92.60; Barbara Wheatley, 92.54; Leslie Nichols, 92.20; B. A. Ford, 91.84; Rexene Welch, 91.52, and Andy Schmidt, 91.

### Senior Trip Fund Supper Scheduled

A benefit chicken supper to help raise funds for their annual trip will be held by the senior class of Post High School from 5:30 to 8:30 p. m. Monday in the school cafeteria.

Tickets for the supper are being sold in advance by the class members and will also be on sale at the door Monday. The ticket prices are \$1 for adults and 50 cents for children under 12.

The senior trip is scheduled to begin Wednesday, May 8, and end Sunday, May 12. The class will go to New Braunfels, visiting the Longhorn Cavern at Burnet en route.

The seniors, their sponsor and other adults making the trip will stay at the Mission Valley Dude Ranch at New Braunfels. On Thursday, they will visit the state capitol building, state university and other points of interest in Austin. They will return to New Braunfels that night, visiting points of interest in San Marcos en route.

They will spend Friday and Saturday night in San Antonio and Sunday night in Corpus Christi, returning to Post Sunday.

Accompanying the seniors will be their class sponsors, Mrs. Carolyn Sawyers and Burt McCoy, and Principal Glenn Whittenberg, in addition to some of the seniors' parents.

## Post Scouter Receives Silver Antelope Award

John F. Lott, Post rancher and businessman, received the Silver Antelope award, the highest regional award given to scouters, at the annual meeting of Boy Scout Region 9 at Tulsa, Okla., last Saturday night.

The presentation was made at a banquet which concluded the two-day meeting for the training of officers and district committee personnel.

The Post man became the second member of the South Plains Council to receive the Silver Antelope award. The other award is held by Kennedy N. Clapp of Lubbock. Thirty-nine persons in the region have received the award.

Lott, who is also active in church and civic affairs, has served locally as cubmaster, scoutmaster and squadron advisor; as a member of the executive board of the South Plains Council; chairman of its camp development and training committees; as a member of the National Council, Boy Scouts of America; member of the National Committee on Volunteer Training, and as a member of the Phillips Properties Committee.

He was scoutmaster of a National Jamboree troop in 1950, member of a section staff incident to the 1955 Jamboree, and assistant scoutmaster during the 1956 International Jamboree in Canada. As deputy camp chief, member of the International Training Team, he has served as course director for

### Fenstermaker Quits Coaching Position

Leroy Fenstermaker, head football coach at Post High School, has resigned effective at the end of this term, Supt. R. K. Green announced Tuesday.

Green said Fenstermaker had accepted a coaching position at Bloomington, which is near Victoria, in southeastern Texas.

The coach's wife, Tommie Fenstermaker, also has submitted her resignation as eighth grade language arts teacher.

Fenstermaker, a graduate of Rice Institute, came here last summer from Llano, where he had served as head football coach. His Post Antelope team won six games and lost four.

Supt. Green said the school board is to meet tonight to consider a replacement for Fenstermaker. He indicated that the possibility of making the replacement from the present high school coaching staff will be explored before any other applications are accepted.

### Warning Is Issued Reckless Drivers

Sheriff Carl Rains today issued a warning that he is going to begin a crack-down on wild drivers by issuing tickets for every violation called to his attention.

"We've warned and pleaded long enough with reckless drivers," the sheriff said. "From now on we're going to put some teeth in our traffic laws."

He asked the help of the public in taking license plate numbers of automobiles whose drivers are violating traffic rules.

"We're not asking you to be informers," Sheriff Rains said. "We're merely asking your help in overcoming a dangerous practice that is becoming worse every day."

### Cemetery Rates Were Due, Payable April 1

Owners of Terrace Cemetery lots are reminded that annual rates for watering and care were due on April 1, payable to City Secretary Kate Lowrie at the City Hall.

The rates on one-half lot are \$4 a year for water only and \$6 a year for water and care. On one lot, the rates are \$6 for water only and \$10 for water and care.

Mayor James Minor said that since the City of Post has recently spent more than \$200 in cemetery improvements, all lot owners are urged to pay their dues in order that the lots and grounds may be kept up.

### AT STATE VOLLEYBALL TOURNAMENT IN ABILENE

## Girls Win Consolation Title

The Post High School girls' volleyball team won the state consolation championship at Abilene Saturday by edging past Ballinger, 27-25.

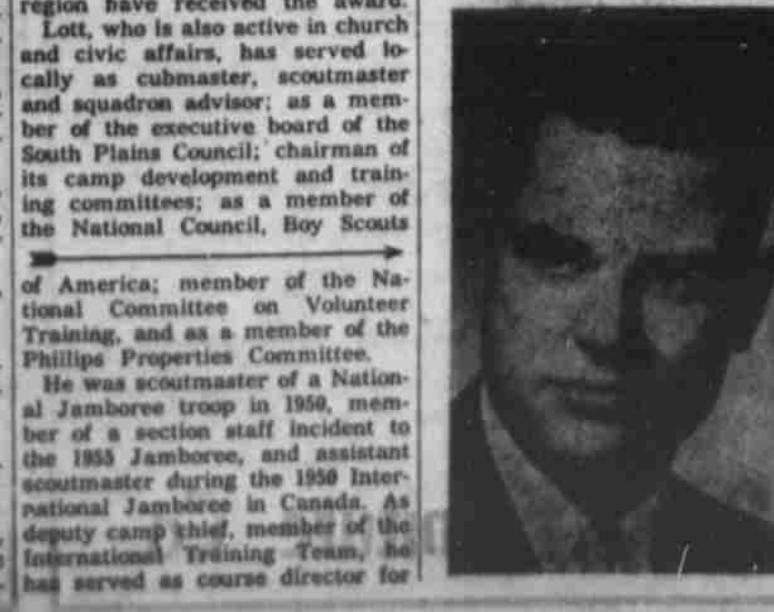

Coach N. R. "Jiggs" King's team lost its first round game Friday afternoon to Fort Stockton, 36-9. Fort Stockton went on to win the championship by defeating Cypress-Fairbanks, 17-10.

Post was scheduled to play Anson in its first consolation game, but advanced to the finals against Ballinger when Anson forfeited. Other championship game results in the tournament, which was sponsored by Hardin-Simmons University, were: Class AAAA, Big Spring over Irving; Class AAA, Phillips over Sweetwater; Class A, Simms over Waller, 23-20, in overtime; Class B, Imperial over Happy.

Coach King said he was well pleased with the showing made by the Post team against the toughest Class AA competition in Texas. They brought home an attractive trophy to add to the high school's trophy case collection.

Players making the trip to the tournament were: Barbara Whitley, Louise Gerner, Marie Howard, Kay Martin, Janet Stephens, Glenda Whittenberg, Doris Ramsey, Gwen Coppel, Orabeth Maxey, Patsey Ethridge and Leslie Nichols. Accompanying the team were managers Linda Lusby and Jerry Beth Ruins.

Lost by graduation from this year's team, which also won the district championship, will be Misses Wheatley, Gerner, Howard, Ramsey, Maxey and Nichols.

Thursday To Thursday

By CHARLES DIDWAY

JUST AS WE WERE beginning to get the weather straightened out, along came daylight saving time.

IT MESSED US UP on Sunday evening's TV programs, but that's about all.

TURNING BACK THE calendar is more or less a figure of speech, but turning back the clock really means something in sections of the country where daylight saving time is observed.

IT DOESN'T MEAN much here, but it at least gave us something with which to start off this column.

CONGRATULATIONS TO Post High School's girls volleyball team on winning the Class AA consolation championship in the state tournament at Abilene.

WE KNEW THE girls had won something because they were making so much noise when their bus came rolling in early Sunday afternoon.

ON OUR WAY home from a trip uptown, we drove up close behind the bus and a couple of the girls held up their trophy for us to see.

IT MADE US FEEL real proud of them, especially since we had "front-paged" the story about them going to the tournament.

ALONG WITH SEVERAL dozen other people, we were also real proud of the Girl Scouts and the splendid way their pet show came off Sunday afternoon.

THE AFTERNOON WAS cold and blustery, but that didn't seem to dampen the enthusiasm of those attending the pet show.

OF ALL THE PETS represented, the dogs were very much in the majority and seemed so enthusiastic about the proceedings that they'd probably have taken complete charge of things if they hadn't been on leashes.

WE OVERHEARD ONE spectator say that a well trained dog is like religion: it sets the deerskin at their ease and is a terror to evil-doers.

HERE'S SOMETHING ELSE we heard, but not at the pet show: A speaker was talking to a group of teen-agers about the early West. He said that Billy the Kid had killed 21 men when he was 21 years old. A little blonde that had been listening open-mouthed, asked, "What make of car did he drive?"

TIME MARCHES ON. Until lately we could only hear static. TV has made it possible to see it.

IT'S BEEN ALMOST a year since we suggested in this column that someone make a map showing the location of every storm cellar in Post. We don't think our suggestion has been followed, but for some reason or another it seems like a better idea now than it did a year ago.

THE DIFFERENCE BETWEEN a pessimist and an optimist is that if you fall in a

Roger W. Babson Writes this Week:

Those Hoping to Get Something for Nothing Are Advised Not to Settle Down In Florida

BABSON PARK, Fla.—Nearly every day I get letters from people asking if I would recommend locating in Florida. As I leave for the North tomorrow, I will try to answer these questions in this week's column. My answer is "No," if you are hoping to get something for nothing; but "Yes," if you are "retiring" and receive a pension check from the North each month or have sufficient income of your own.

Mild Climate Lures Thousands Although lacking in a number of important natural resources, Florida has an abundance of sunshine, plenty of water, large amounts of phosphate, and sufficient limestone for cement. It can compete with California and other sections as a mecca for tourists, vacationists, and retired folk. I am told that more than 2,000 people come into Florida each week intending to settle here. Many live on pensions or annuities or income from investments, and therefore have no need to seek employment. Others do need jobs, but not all can find them today.

In my observation, it is rather difficult to get a job in Florida unless you have special skills which the state's few industries can use. However, efforts to get natural gas by pipeline from Texas are now on the verge of succeeding. I predict that parts of the state will have natural gas by the summer of 1958. When the supply of this fuel is assured, industry should come into Florida at a very rapid pace.

New Boom In Real Estate Mild climate has always been an attraction to prospective buyers of land for homes or businesses. Now that atomic energy is to be an added attraction, I forecast an even further boom in Florida real estate. The present boom will be far different from the "boom and bust" of the 1920's when sellers and buyers alike went just plain crazy. Sharp real estate operators, whose methods are questionable, cannot be eliminated entirely, but Florida does attempt to curb land and stock frauds.

I am bullish on well-located Florida homes which are already built. I do not hesitate to advise those interested to buy a house, or a lot, in an already settled community. However, I urge prospective settlers in Florida or those anxious to buy land there for investment or specula-

LATER MAY BE TOO LATE . . .

Apathy of the general public toward cooperation with the Civil Defense Administration in installation of disaster warning systems, two-way police radio systems and other devices isn't confined to the larger cities. It is also a shortcoming of many smaller cities, such as Post.

Over a year ago, the Civil Defense Administration offered to match all funds spent here in the installation of a two-way police radio system, but the proposed project failed to reach first base. Fortunately, there has been no dire need of such a system here, but who can tell when there will be?

Cost of such equipment in a city the size of Post wouldn't be "too high" when one stops to consider the good it would do. More effective law enforcement isn't the only improvement such a system would bring about. In times of disaster it might well be the means of saving many lives.

Granted, we don't need warning systems, etc., on the same scale as the larger cities, but our needs of systems to fit our size are just as urgent. The fact that the federal government will match all funds in the cost of such installations rates the consideration of the county commissioners' court, city council and other groups concerned. Let's not pass up a good thing and then wake up some day to find out it's too late to do something about it.

In the American system of government by law, no principle is more essential to the protection of our way of life than the principle of equality under the law. Labor unions should be required to submit to this principle, like all other American institutions. If the policy of this country is to outlaw monopoly and monopolistic practices, there is no ground for granting unions—the most powerful of our concentrations of economic power—special rights and dispensations—Reynoldsville, Pa., Star.

I believe that the "grass roots" editors of the nations have a tremendous responsibility. Newspapers are among the leaders of opinion making, along with the home, school and church . . . I would like to see editors throughout the nation take the lead in fighting big spending, government in business, big government, subsidies, and deficit financing, and come out firmly for self-reliance, private enterprise, state's rights, and constitutional government.—Newport, Calif., Harbor Ensign.

hole, an optimist will pull you out, but the pessimist will get in with you.

SPEAKING OF FALLING in holes, wonder how like is getting along on his proposed budget cuts.

WEDNESDAY WAS THE first day of May, and it's a busy month that has been ushered in.

THEY'RE WRAPPING UP the 1956-57 school year, with Friday night's junior-senior banquet as one of the upcoming events.

OTHER MAY EVENTS will be high school and junior high commencement exercises; Mother's Day; the Golden Jubilee Post Stampede Rodeo, and Memorial Day—just to mention a few.

PARTING THOUGHT: There are a few things that never go out of style and a feminine woman is one of them.

Getting Out On The Limb

By EDDIE the editor

SUDDEN THOUGHT: During early April of this year, springtime in the Rockies must have been pretty rocky.

An East Texas newspaper reports that several pigs broke into an illegal still and got drunk, which is a real switch—pigs making people of themselves.

"Washington bureaucrats are asking for \$328,000,000 to air condition their offices."—Press report. This news will not set well with many a taxpayer who can scarcely afford a 10-inch electric fan.

PUBLICITY RECEIVED in connection with National Dairy Month says there's only one famous cow in history. I quote:

"For some 350 years now cows have been part of the American economy, nurturing generation after generation of people. But there is only one really famous cow in history, and that cow is famous for her infamy."

"It was back in 1871 that a cow, very likely a scrub cow at that, kicked over a lantern carelessly left in the barn of one Mrs. O'Leary in Chicago and started a fire that almost eliminated that city."

"But forgetting this tragedy, which wasn't the cow's fault anyway, if ever an animal deserved a monument, the cow does, for she has done as much for mankind as any beast ever found anywhere."

"History records that the first cows arrived in North America with the Vikings and the Spanish, but the dairy cow became a permanent part of our history when a group of Englishmen founded the Jamestown colony in 1607. The early settlers of Jamestown and other colonies learned in a hurry that cows were important to their survival, and they didn't waste much time in getting their first cows over here."

"During June Dairy Month this year the dairy industry is commemorating its 350th anniversary. An industry which started out with a few cows at Jamestown, today reaches into every part of the nation and is a part of our everyday life . . ."

THE WOMEN, bless 'em: Sale of a new book are boosted if there's a pretty girl on the jacket and no jacket on the girl.

Even if the taxpayer had a barrel of money, as our various governments seem to assume, if they continue to take increasingly larger amounts away from him, before very long he'd have to wear the barrel.

THE HIGHER Education number of "West Texas Today" has just reached my desk, and a glance through the magazine convinces me that West Texans are blessed with an abundance of institutions of higher learning. There are articles on each of the colleges and some of these articles bring to light some little-known facts about area schools.

For instance, the article on Texas Tech includes the information this 31-year-old state-supported college expects an enrollment of 15,000 by 1965, which would be almost double its present enrollment. Much needed in the future, according to Tech officials, are increased facilities and more classroom space.

I also learned from the magazine that Hardin-Simmons University is the oldest college between Fort Worth and California. Enrollment at Cowboyland is on the up-grade, with an enrollment of 3,500 students expected by 1975.

Ranger Junior College has just completed its 30th year, and Arlington State College is ranked in the forefront of the nation's junior colleges.

Amarillo College let out its belt another notch in 1956 to accommodate its continued expansion, and Midwestern University at Wichita Falls is 35 years old.

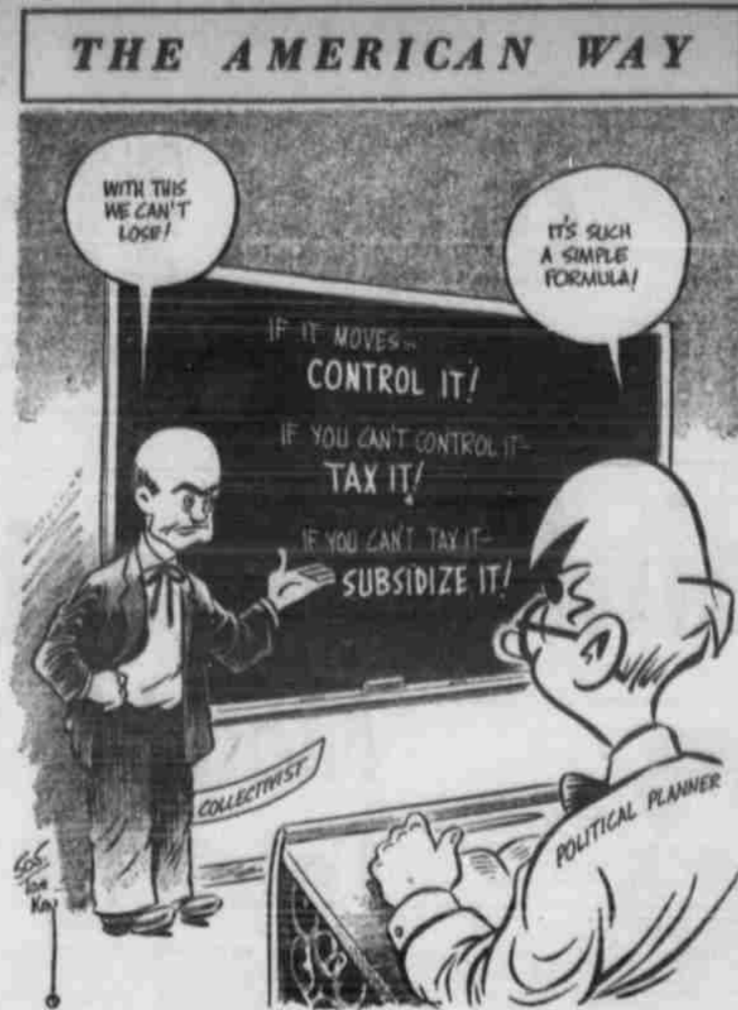

Texas Western College, El Paso, a branch of the University of Texas, will have an enrollment of more than 4,000 students next fall, and Weatherford Junior College is placing particular emphasis on agriculture and engineering.

San Angelo Junior College boasts national sports champions in more than one category, and North Texas State College chalked up a record enrollment of 6,182 last fall.

Texas State College for Women is the largest woman's university in the world, and Clarendon Junior College, established in 1927, is looking to the future.

McMurry College is growing with West Texas, and Decatur Baptist College is the world's oldest junior college fully accredited. Wayland Baptist College's move into senior college ranks gained stature in 1956, and West Texas State College at Canyon is flexing its muscles for greater growth and expansion.

At Sul Ross State College, Alpine, the faculty, students and ex-students are proud of their 40 years of service to the people of West Texas. Texas Christian University will broaden and intensify its work in the areas of the

Formula for Socialism

Our Contemporaries Are Saying . . .

Not To Be Jeered At

We want to apologize to the Legislature. Something good has come out of it, in spite of its concern with approving laws to repeal the constitution of the United States. The House voted to join the nation in observing Thanksgiving on the traditional fourth Thursday. This is probably a private bill in behalf of Texas turkey growers who found that having two Thanksgivings didn't double the number of birds baked but actually so disgusted everybody they just forgot the whole thing. This also marks one of the few times that Texas has joined the United States in doing anything, and this humble beginning shouldn't be jeered at.—"It Sez Here" in The Rails Banner.

Levelling The Land

If you're a beginner in the business of running an irrigated farm, you'd do well to listen to some of those who have been in the game a good many years. The first thing you'd probably be told is that land levelling—not just running a drag over the ground—is about the best money you can spend first. A real leveller will take humps out of the ground you thought were not there. Many a gallon of expensive water that shouldn't be wasted is run out on the ground trying to get the high places, too, and many an irrigation shovel of dirt piled around that should not be. Many a fellow has heart trouble now that didn't know he had a heart until he over-did himself in a field where the water was not under control.—"Views and Comment" in The Floyd County Hesperian.

Problem Of Livestock

The problem of livestock in the physical sciences, the humanities and religion in the next few years. Odessa College has just completed a \$785,000 building program, and Abilene Christian College has launched a \$1,000,000 fund raising campaign to help cope with growing pains. Continued growth and improvement were the main factors at Tarleton State College, Stephenville, this school year.

city limits reared its head again recently when the school board asked the City to grant permission to build livestock pens north of the school for FFA projects. Since there had been complaints, and a city ordinance forbids keeping stock within the city limits, the City refused. Both groups were acting as they should, in what they thought were their best interests. We believe the City acted rightly, not necessarily because the stock pens would have been a nuisance, but because the door would have been left open for other violations. However, there are plenty of nuisances existing now which deserve the City's attention. We cannot agree with the policy of "As long as there are no complaints, it's all right." Sometimes the citizens need protection from themselves.—"Main Street" in The Lorenzo Tribune.

Answers A Question

Over in Odessa the other night in a question and answer period following Governor Lee's talk on doing away with the income tax, some fellow stood up and asked the speaker if he favored raising the cost of a first class stamp from 3 cents to 4 cents or even to 5 cents to get the post office department out of the red. "Neither," thundered the ex-governor. "I believe private industry could take the post office department and within one year reduce the price of a stamp to 2 cents and still operate in the black."—"Drifting Sands" in The Andrews County News.

Ain't That Sumpin'?

The Canadian dollar, says the economic reporting service of the National Editorial Association, is now nearly five cents over the U. S. dollar, with billions of our money going into Canada as capital for their industries.

No tax reductions for the U. S. are in sight for 1957. However, England is reducing taxes by 10 per cent. Ain't that sumpin'?"—"From the Hopper" in The Farwell State Line Tribune.

# Cattle Feeders Day Program Scheduled At Texas Tech College

Cattle Feeders Day has been scheduled at Texas Tech College on May 10, 1957. The event will feature a series of lectures, a field trip to the experimental station, and a barbecue. The program is being conducted by the Texas Academy of Cattle Feeders, Inc., and is open to all interested parties. The cost of the program is \$5.00 per person. For more information, contact the Texas Academy of Cattle Feeders, Inc., at Texas Tech College, Lubbock, Texas.

## YOU and YOUR DOCTOR

**EDITOR'S NOTE:** This is the third in a series of articles issued by the Texas Academy of General Practice and being published as a public service through the courtesy of a Post physician.

**Phoning The Doctor**  
When you phone your doctor, do you know how to get the most information and help for yourself or your child? Do you know how to give him the information which he requires quickly, briefly and concisely, so that he can give you the help or information you need? Can you help him to help you?

Your doctor has a limited amount of time to give to phone conversations each day and he must conserve as much of that time as possible; that is why when you call him on a routine matter he will frequently call you back at a time of the day which he has set aside for phone consultation rather than to interrupt a train of thought with a patient in his office at the time. Of course, if you have an emergency, and if you tell his receptionist that you must speak to him on an emergency matter, he will interrupt what he is doing to talk to you if at all possible, but be sure your's is a true emergency, otherwise your call may interrupt a procedure which is vital in importance to the patient who occupies his time at that moment.

When a member of your family is ill, have a pencil and paper handy, be ready to tell the doctor who is ill, his age, the symptoms in a clear and concise manner, whether he has a fever and if so, how much, the physical signs present, such as cough, red throat, a rash, location of pain, etc., and when and how the symptoms started. Further, it will help your doctor to help you if you can tell him the name and phone number of your drug store, and whether the patient is sensitive to any of the commonly used drugs such as sulfas, penicillin, etc.

**LIST NEW STUDENTS**  
The April issue of "Antelope Sentinel," Post Junior High School yearbook, lists the following new students: John Ed Carter, 8th grade, from Odessa; Billy Leroy Shumard, 6th grade, from California; Melvin Dean Thornhill, 6th grade, from McCombs; Tonia Ann Graham, 6th grade, from Morton; Eddie Vaughn, 7th grade, from Lubbock, and Edgar Lee Quinn, 8th grade from California.

**VISIT IN LA FERIA**  
Charles Casey and family visited in La Feria recently with his parents, Mr. and Mrs. Acey Casey, formerly of Post. The Caseys brought their son, Mark, home. Mark had spent the past few months visiting his grandparents.

**PLANTS SET OUT**  
Fifty-eight plants have been set out along the front walls of the Post Junior High School building. Peat moss was used in the planting of three different kinds of plants—japonica, nandina and purple honeysuckle.

**PROGRAM CANCELLED**  
The Texas Highway Commission has canceled a portion of the 1957-58 consolidated highway program in Scurry County on U. S. Highways 84 and 18. Right-of-way was unavailable.

Mr. and Mrs. Lee Byrd visited their son and his wife, Mr. and Mrs. R. S. Byrd, who live in Poolville, Okla. They left Wednesday and returned Friday.

### Applications For Notaries Due Soon

Secretary of State Zollie Steakley has announced that he will reappoint persons now holding notary public commissions, but that such persons must re-qualify by the filing of a new oath and bond with the county clerk of his county between June 1 and June 10, 1957.

Steakley emphasized that notaries public should not send requests for reappointments or for commissions directly to the Secretary of State. The law specifically requires the county clerk to approve notary bonds. Any person not now a notary public who desires appointment should apply to his county clerk between May 1 and May 30, 1957. Application during this period will assure prompt attention before the rush procedure of reappointing present notaries.

Steakley further pointed out that each person applying for a commission must be at least 21 years of age and a resident of the county for which he is appointed. The exact name and permanent address of the applicant must be furnished the county clerk.

**Card of Thanks**

We wish to thank all our friends for their many acts of sympathy and kindness during the illness and at the death of Mrs. Abbie Shaw. May God bless each of you.  
The Shaw Family

May we take this means to say thank you to our neighbors who were so nice to come in last Thursday morning and knife our farm for us. Good neighbors are never appreciated enough until they are needed.  
Mr. and Mrs. M. E. Morris

I wish to thank each one who sent flowers, cards and letters and also those who visited me while I was in Post and Lubbock hospitals. I thank you for each prayer. It meant more than words could express. May God bless each of you.  
Mrs. Theima Kuykendall

I wish to thank those of you who sent cards, flowers, and magazines during my stay in the hospital. I sure want to thank those who came by and helped pass away the time. I also want to thank the nurses, Mrs. Stewart, Buck and Billie for the way I was treated. I can never hope to be treated any nicer, or more efficiently than I was at Garza Memorial Hospital. I would also like to extend a big thanks to Dr. Surman and Dr. Williams for their services.  
Russell Wilks, Jr. and Family

**Suffers Head Gash In Collision Here**

Iven Clary received a severe gash on the back of his head during the noon hour Wednesday when he was jolted from his pickup truck in a collision at the intersection of West Main and Avenue N.  
Linda Lusby and Lucy Trammell, occupants of an automobile which struck Clary's pickup, escaped injury. Sheriff Carl Raines, who investigated the accident, said one of the girls told him his vision was obscured by rain and by water and mud which had been splashed on the windshield of their car by another automobile.  
Linda was driving the automobile, which was traveling north off Avenue N. Clary was driving westward.  
The injured man was taken to Garza Memorial Hospital for emergency treatment.

## H. D. Week Being Observed By Clubs Of Garza County

Post home demonstration club women are joining over 36,000 Texas members in observing National Home Demonstration Week April 28-May 4.

The theme that will serve the six and one-half million homemakers throughout the nation will be "Today's Home Builds Tomorrow's World."

The purposes of National Home Demonstration Week are to acquaint more families, especially young families, with this educational program in homemaking, to encourage families in improving the communities in which they live, and to recognize volunteer local leaders of home demonstration groups.

Home demonstration work is that part of the Agricultural Extension program concerned with the home and family. New research information in all phases of homemaking is brought to homemakers through specialists, home demonstration agents and local leaders. Programs and demonstrations in foods and nutrition, housing and home improvement, home management, health and safety, family life, clothing, consumer buying and public affairs are developed to fit local needs and interests.

Miss Jessie Pearce, Garza County home demonstration agent, says that one of the most interesting projects in local work this year has been the upholstery workshop. Representatives from each of the five Garza County clubs attended this workshop, they were: Mrs. Robert Mock, Pleasant Valley Club; Mrs. Luther Bilberry, 55 Club; Mrs. Floyd Hodges, Sunshine Club; Mrs. Delmer Cowdry of the Graham community and Mrs. W. H. Barton of the Barnum Springs Club. Each lady upholstered a piece of furniture during this workshop and will teach the things they learned to the women in their own clubs.

Miss Pearce states that there is now more local interest in learning of the care of new fabrics and blends of materials than of the actual clothing construction. She says the average club woman is also acutely aware of her house and surroundings and wants help in making them attractive. In connection with this, a living room project is now being carried out. Two years will be spent working on this project and during this time everything from cleaning the room properly to living room accessories will be studied.

Miss Pearce says that the other main project her clubs will cover in the near future is family economics. Other subjects will also be covered, such as the making of hats, more information on local schools, the preparation of variety meats and the latest fashions for children grammar school age.

In the past the clubs have studied such subjects as civil defense and highway safety.

Miss Pearce reports that this adds up to a very busy year but the club women feel that their time is well spent because of the useful information they get and also because of the association with their neighbors.

## Mrs. Camp Hostess To Church Women

The Presbyterian Women's Organization met in the home of Mrs. Shelley Camp Monday at 2 p. m. Mrs. Oscar Smith had charge of the program which was based on the book, "Christ's Way Every Day." The chapter which was studied at this meeting was, "In Any Place and Any Work." From this chapter, Mrs. D. C. Williams spoke on, "Consider the Duties of a Housewife." Mrs. Walter Boren on "What Does the Christian Faith Offer a Housewife"; and Mrs. J. A. Stallings spoke on "What Is Prayer."

Mrs. M. J. Malouf gave the bible study on "Things Which Were Caesar's."

## Nancy Robinson Weds Jerry Nixon In Home Ceremony

Marriage vows were spoken Friday, April 12, in home rites by Miss Nancy Hope Robinson, daughter of Mr. and Mrs. J. B. Robinson, 2106 West 14th Street, Plainview, and Jerry Neal Dixon, son of Mr. and Mrs. Alton Dixon, Route 4, Plainview.

The bride is the granddaughter of Mrs. B. D. Robinson and Mr. and Mrs. Elmer Hitt of the Pleasant Valley community.

The bride's family formerly lived in Garza County.

The double ring ceremony was read at 8 o'clock in the evening, in the home of the bridegroom's parents, with Rev. John A. Rakestraw, pastor of Trinity Methodist Church, officiating.

Tall candelabra holding white tapers, floor baskets of white gladioli and pink carnations and greenery were arranged as background for the wedding party. The candles were lighted by Lou Ann Dixon, sister of the bridegroom, and Gary Robinson, brother of the bride.

Jerry Hitt of Post played as pre-nuptial piano selections, "Indian Love Call" and "I Love You Truly," and accompanied Miss Brenda Swanner, Plainview, as she sang, "Because," "O Promise Me," and "The Lord's Prayer."

The bride's aunt, Mrs. Wesley Scott of Post was matron of honor, and Larry Masten, Plainview, was best man. Judy Hitt, Post, was flower girl, and Mikie Scott, Post, was ring bearer.

The feminine attendants all wore princess styled dresses of white flecked pink nylon dotted swiss, with accessories. The matron of honor carried a bouquet of pink carnations, the candlelighter wore a wristlet of pink carnations, and the flower girl carried a basket of pink rose petals.

Given in marriage by her father, the bride was attired in a ballerina length dress of white Chantilly lace over satin. Her fingertip illusion veil was attached to a wreath of orange blossoms, and she carried a white Bible topped with gardenias and showered with satin streamers. For something old she wore her great grandmother's strand of pearls, and for something blue, she pinned a blue ribbon to her slip.

Mrs. Robinson wore a navy and white silk dress and the bridegroom's mother wore a dress of charcoal gray. Both had corsages of pink carnations.

Both of the newlyweds are students in Plainview High School, where the bride is a junior and the bridegroom a senior. Both participate actively in school events, the bridegroom is in the National Honor Society, the Lettermans Club FTA and YWA.

The bridegroom is engaged in farming and they will make their home on Route 3, Plainview. They plan to take their honeymoon trip when school is out.

**'THE GREGORIO CORTEZ AFFAIR'**

**Tech Archivist Writes About One Of West's Last Great Gun Fights**

LUBBOCK (Spl.)—Little known details about one of the last great gun battles of the Old West have been uncovered by Roy Sylvan Dunn of Texas Tech.

Dunn, associate archivist of Tech's Southwest Collection, has written a report on "The Gregorio Cortez Affair," a spectacular running gun battle in 1901, covering more than 500 miles of Texas in a span of ten days.

According to Dunn, Cortez—a suspected horse thief—killed the sheriff of Karnes County, while

the sheriff was attempting his capture.

Dunn writes that a 1,000-man posse chased Cortez, who fled upstate from Karnes to Gonzales County before doubling back and heading for the Mexican border. He was captured ten days later, just before crossing into Old Mexico.

"By this time Cortez had become a hero in the eyes of the Mexican people because of the great odds against him. It was a case of championing the underdog," Dunn says.

"Cortez was sentenced first to 30 years in prison, but many of the Karnes County people thought he should have been hanged," Dunn reports.

"Moneyed interests in Mexico raised a great deal of capital to pay court costs to fight Cortez's case still further. So avid, in fact, were the court fights that Cortez almost went free. Finally the people of Karnes County were appeased when they succeeded in getting a life sentence.

"The angered Mexican interests were still not satisfied, however, and eight years later Gov. O. B. Colquitt pardoned Cortez. By this time he was a beaten man, and died a few years later."

Dunn's paper is in keeping with a recent trend in historical writing, with emphasis on local histories.

**Texas Water Resources Are Getting Boost From Hundreds Of Small Dams**

By JOHN C. WHITE  
Commissioner of Agriculture

The state's tremendous land and water resources—ill from many years of neglect—are getting a good "shot in the arm" from the various Soil Conservation districts.

Hundreds of small dams, known as retention reservoirs, have been constructed on upstream tributaries in major Texas watersheds. Many others are planned in conjunction with large downstream reservoirs.

These upstream water retention structures are beginning to dot the countryside. In some areas, they can be seen from the highway. They might appear, at first, to be an exaggerated "Texas-size" stock tank.

The small dam projects have a three-fold purpose: Prevent flash floods, conserve water and stop soil erosion.

Thousands of acres in lowland areas have been made available for crops and pastures because the retention structures have eliminated seasonal flash floods.

SCD cooperators in the area, through proper land treatment on farms surrounding the reservoirs, help preserve every rain drop that falls. They also assist the Soil Conservation Service in obtaining necessary easements for proposed

reservoirs. The dams, when constructed, remain the property of the landowners. Recreational facilities have been set up by many owners. And irrigation has been

applied to small, adjoining crops. The structures are designed to release excessive water downstream at a slow rate, thereby putting into practice the idea to "make water walk, not run." When a flash flood strikes, the reservoirs catch the water and release it very slowly.

**Texas Tech Research May Put Better Sweet Spuds On South Plains Tables**

LUBBOCK (Spl.)—Better sweet potatoes are expected to grace South Plains tables because of Texas Tech research.

In experiments by the horticulture and food and nutrition departments, 15 varieties of sweet potatoes have been grown and cooked for three consecutive years. The improvements are determined by experimental cookery tests made during the study.

Dr. George Elle, professor of horticulture, is studying sweet potato varieties from the produce point-of-view, while Dr. Mina Lamb, food and nutrition department head, checks on qualities of importance to the consumer.

Cooking tests have been made by experimental cookery students, Miss Opal Wood, an instructor in food and nutrition, and Dr. Lamb in an effort to determine which varieties will be most acceptable to local consumer use.

"The first year we cooked sweet potatoes by every conceivable method described in cookbooks; including deep-fat frying, pan frying, sweet potato pies, and casseroles made from stewed and baked sweet potatoes," Dr. Lamb said.

"Experimental cookery students rated stewed and fried sweet potatoes of low acceptability," she added. They considered the cooking quality of sweet potatoes to be entirely visible in the standard

baked version. Consequently, baking has become the standard procedure for judging cooking qualities of the sweet potatoes.

Rating sheets are used to determine the consumer acceptability of the varieties, which are judged on general appearance, including smoothness of the skin, and the effect of size and shape upon cooking time.

Interior qualities are based upon the looseness of the skin after the potato is baked, the color, moistness, and freedom from strings.

Dr. Lamb says, "In testing for strings, we run a dull knife through the potato crosswise and note the number and length of the strings which cling to the knife." This test can be made by the housewife in her kitchen.

Sweetness, flavor, smoothness of the cooked potato, and aroma are also considered by the cookery class in rating the varieties. Dr. Lamb explains that, "The aroma of a sweet potato should be slight-

ly earthy and the expected color in Texas is a deep rich bronze or yellow."

Results of the three year test are being compiled at present. The detailed results will be presented later for the use of both producers and consumers.

The sweet potato project is being coordinated through Tech's Office of Research, headed by Dr. Sylvan J. Kaplan. The office serves as a center of information on projects at Tech and other colleges and universities throughout the nation.

The office also is available for counsel with Tech researchers on possible projects.

**Post Man Attends Rotary Assembly**

Glenn Whittenberg, president of the Post Rotary Club, was in Plainview last week to attend an assembly program for newly-elected officers of Rotary Clubs in Rotary International's 183rd District.

A service forum and an address by Dr. James P. Cornette, president of West Texas State College, featured the program.

Dr. Cornette spoke on the value of service, taking a text from the Bible, "He who would save his own life must lose it."

The assembly was called to order by Rex Webster of Lubbock, district governor. Rotary literature was discussed by J. Herschel Coffee of Canyon, a past district governor. Club and community service forums were presided over by Charles E. Paxton of Sweetwater and Edd McLaughlin of Ralls, both past district governors.

The afternoon service included an International Service forum led by Lloyd Wicks of Ralls, also a past district governor.

**WE ALL HAVE OUR DREAMS**

Yes, we all have our dreams. Perhaps sometimes, they are mere projections of our selfishness . . . hopes unfair to others . . . ambitions dangerous to ourselves. But often, they are healthy, honest aspirations . . . opportunities which zeal deserves . . . victories which justice demands.

Is it wrong to dream such dreams? Does God frown on honest hope and love? Of course not! Rather, God has given us minds able to dream, and souls courageous enough to seek the difficult—even the impossible.

But the Divine Architect helps man to model his castles in the air, and provides the tools for their building. With faith and the guidance of the Church a man may realize hopes and aims which a cynical world calls futile.

**HOLY BIBLE**

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

You would pay almost twice as much today to buy or build your home as you paid 12 years ago. To put it another way, you can build only half a house in 1957 with the money it took for a whole house in 1945.

How about your fire insurance? Have you enough today — on house and contents — to meet any loss?

We are qualified to help you determine just what insurance, and how much, you need on your home and furnishings. Phone us right now — we'll be glad to discuss your insurance problems with you.

And remember, if you're not fully insured — it's not enough!

Mr. and Mrs. Lloyd Anthony visited in Fort Worth this weekend with her mother, Mrs. Annie Anders, who accompanied them home for an extended visit.

Refreshments served were cranberry freeze in meringue shells and raspberry punch. Pink, white and blue mints were placed on the table. The appointments were of silver and crystal. Mrs. K. Stoker presided at the punch bowl.

The entertaining rooms were decorated with Spring flowers.

Members present were: Mmes. Walter Boren, Don Butler, Connie Caylor, Lee W. Davis, W. L. Davis, J. R. Durrett, R. K. Green, Hudman, T. L. Jones, O. G. Hamilton, Manly, Dowe H. Mayfield, Ellis M. Mills, E. S. Stewart, Stoker, J. F. Storie, and Cecil R. Thaxton.

The next meeting will be a salad luncheon in the home of Mrs. Thaxton on May 8.

Two Candidates In Trustee Campaign

Bill Edwards and J. E. Birdwell, the two candidates whose 184-vote tie for a place on the board of trustees on the Post Consolidated Independent School District made a special election necessary, are the only two candidates in the race for the May 25 voting.

Edwards, a member of the former Post board, and Birdwell tied for seventh place in a field of 14 candidates in the April 2 trustee election.

The May 25 special election date was set April 12 at a special meeting of the school board.

Voting in the special election will be in the Post High School study hall and at the school houses in the Graham and Garnolia communities. Election judges named by the board are: Mrs. Irene Rodgers, Post; James Stone, Graham, and J. W. Young, Garnolia.

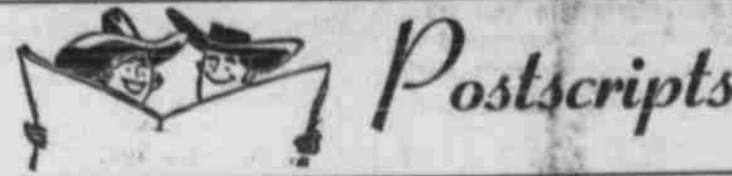

Chest Directors Are To Meet On Monday

Community Chest directors and representatives from all civic and service clubs and other organizations are urged to attend a directors' meeting at 7:30 p. m. Monday, May 6, in the junior high school library.

Contributing members to the Community Chest are also invited to attend, Dean A. Robinson, Chest president, said.

Purpose of the meeting is to elect directors for the new Chest year and amend the constitution.

Houseguests in the home of Mr. and Mrs. Ollie Weakley are his cousins, Mrs. Jack Bruton of Memphis, Tenn., and Mrs. Ann Weakley of Dallas.

Mrs. H. A. Watson of Lubbock brought her granddaughters, Danis and Mindy, to the Girl Scout pet show Sunday. The girls are daughters of Mr. and Mrs. H. A. Watson, Jr., of Lubbock, and nieces of Mr. and Mrs. Clint Herring.

Regular "concert-goers" from Post who attended the Lubbock Symphony Orchestra's Pops Nite Concert in the Lubbock Auditorium Monday night were Mr. and Mrs. Carleton P. Webb. Season tickets of the Warren Yancy's and Giles McCrary's were not wasted when they were unable to go, as they presented them to a group of high school students. The students attending this concert of Cole Porter music were Kenneth Mills, Sara Mills, Andy Schmidt, Lexa Acker, Sharon Jobe and Arlene Barron.

Connie Marie King of Kinder, La., who formerly lived in Post with her grandmother, Mrs. Alice Parsons, and who was an honor student of Post Junior High School, is graduating from the Louisiana school as salutatorian of her class. Her grandmother is in Louisiana with her and her mother, Mrs. W. E. Cox. Her aunt, Miss Jewel Parsons, plans to attend the graduation. Connie Marie and Mrs. Parsons will accompany Miss Parsons home.

### Culture Club Meets In Thompson Home

Mrs. Bess Thompson and Mrs. J. H. Haire were hostesses to the Woman's Culture Club in Mrs. Thompson's home, Wednesday, April 24.

The roll call was answered with current events and a round table discussion was led by Mrs. Victor Hudman. Mrs. J. P. Manly and Mrs. K. Stoker participated in this and later the whole group entered into the discussion.

The refreshment table was covered with a cloth of pink linen edged with white fringe and centered with a Maypole which had a base of pink, white and blue flowers and green fern. The Maypole had streamers of pink and white which led to the corners and edge of the table and were tied in place with small nosegays of Spring flowers.

Refreshments served were cranberry freeze in meringue shells and raspberry punch. Pink, white and blue mints were placed on the table. The appointments were of silver and crystal. Mrs. K. Stoker presided at the punch bowl.

The entertaining rooms were decorated with Spring flowers.

Purpose of the meeting is to elect directors for the new Chest year and amend the constitution.

### Master Paintings To Be Exhibited

Ellis M. Mills, principal of Post Junior High School, has announced that invitations have been sent to study clubs of Post and county home demonstration clubs, asking them to participate as groups in the art exhibit which is to be May 6-10 at Junior High. Several acceptances have been received to date.

One hundred and fifty full color reproductions of master paintings have been received from the Colonial Arts Company of Oklahoma City. These paintings will be set up in the school gym for the exhibit, which is being held for the purpose of raising money to buy classroom paintings for the building. The paintings that the students help choose will be bought from the Oklahoma City company.

Mills states that if enough acceptances from organizations are received, "living pictures" will be staged in the gym. By "living pictures," it is meant that a replica of a famous painting, matching make-up, costumes, lighting, scenery, and poses, as well as possible, be posed by members of the seventh period speech class.

The tickets, which are 15 cents for all school children and 35 cents for others, will be sold by junior high school students. The class selling the most tickets will be awarded a \$10 picture from this collection.

If any group who cannot attend the exhibit during the day wishes to attend at night, Mills asks that they let him know in advance and he will see that the building is opened at the time they can attend.

## 34 Entries Are Registered At Girl Scouts' Pet Show

Girl Scout Troop V's third annual Pet Show was held Sunday afternoon at the Girl Scout Little House, with 34 entries registered.  
 Despite cold, damp weather, the pet show was considered a success from the standpoint of interest and enthusiasm shown by the Girl Scouts, Mrs. Clint Herring, Troop V leader, said.  
 In addition to the pet show, there was an exhibition of Girl Scout arts and crafts, a dog exhibition directed by H. J. Dietrich, and a flag salute by the Girl Scouts.  
 Winners in the various divisions of the pet show were:  
 Cat—Janith Short, first; Mary Eubanks, second; Melinda Ann Newby, third.  
 Best Dressed Pet — Marianne Jones, first; Shearson Meisch, second; Susie Jo Schmidt, third.  
 Winners in the arts and crafts division of the show were:  
 Brownies—Troop XIII, first, Mrs. John F. Lott, leader; Troop XI, second, Mrs. Harold Lucas, leader; Troop XV, third, Mrs. Robert Meisch, leader.  
 Girl Scouts—Troop V, first, Mrs. Clint Herring, leader; Troop XIV, second, Mrs. Kenneth Mills, leader.  
 Troop V's winning arts and crafts exhibit is on display this week at Herring's Department Store.  
 Judging the pets were George (Scotty) Samson and Lewis C. Herron. Mrs. Victor Hudman judged the arts and crafts and the pet "style show."  
 German Shepherd dogs bred in the Dietrich kennels were shown by Larry Mayo of Floydada, Curtis Didway of Post and Mr. and Mrs. G. R. Brock of Shallowater. Also shown by Pam McCrary was a female German Shepherd recently received from Georgia by Mr. Dietrich.  
 Assisting Mrs. Herring in conducting the show were Mrs. Weaver Moreman, Troop V's assistant leader; Mrs. Katharine Trammell, who conducted the flag salute; Clint Herring, in charge of the public address system; Mr. and Mrs. C. R. Smiley, in charge of concessions; Dr. Harry A. Tubbs and Bill Edwards, in charge of registration; Weaver Moreman; Harold Voss, who presented ribbons to the winners, and Mmes. Tom Power, Fred Taylor, Paul Jones and I. N. McCrary.  
 In addition to the dogs officially entered in the show and the ones exhibited by Mr. Dietrich, there were a few others present on leashes. These included a Pekinese owned by Mr. and Mrs. Ira Greenfield.  
 The Rotary Club is Troop V sponsor and the Rotarians who assisted in the show were Dr. Tubbs, Edwards, Herring and Voss.

## GIRL SCOUT NEWS

By KATHARINE TRAMMELL  
 The Post Adult Girl Scout Committee held its regular meeting at 1:30 p. m. Wednesday at the Girl Scout Little House.  
 Max Gordon of Post Stampede Rodeo, Inc., has asked that the Girl Scouts enter a float in the parade to be held on opening day of the rodeo, Thursday, May 15.  
 Intermediate Scouts who would like to earn their summer badge this summer will be glad to know that Mayor James Minor says the municipal pool will be available to Girl Scouts one morning each week. Miss Linda Lott, a charter member of Troop I and senior Red Cross Life Saver, will be on hand to instruct the girls on their swimming badge.  
 Troop V's annual pet show went off in spite of the cold and drizzle. Quite a contrast with the dry heat and sunshine we experienced last year. The arts and handicraft exhibit, held in conjunction with the pet show, gave a nice review of what the troops have done this year.  
 Spring cage practice  
 Spring training in basketball for the Post Antelopes got under way Wednesday, according to Coach Burl McCoy. A number of lettermen and reserves from the 1956-57 team, which finished second in District 2-AA, are out for practice, in addition to several members of this season's freshman squad.

 CAPROCK GOLF COURSE dues are \$50 per year when paid by the year.  
 The dues are \$60 per year if paid by the month — \$5 a month, which is due and payable each month.  
 Green fees are \$1 and are to be paid before golfer tees off.  
 Whichever system of payment is used by golfer, it should be kept up to date. For instance, those who choose to pay by the month are expected to pay the \$5 a month for 12 months, or until such a time as they choose to pay only green fees.  
 We request golfers to observe these rules in order that we may keep the course on a paying basis and thereby be able to operate it more efficiently.

## Six Division I Ratings Won By Bandsters

Six "superior" ratings were received by Post Antelope band soloists and ensembles at the regional Interscholastic League competition in Brownfield Saturday.  
In addition to the six Division I ratings, Post soloists also won a number of Division II and III ratings.  
The Antelope band, competing in Class AA, was rated Division IV in both sight-reading and concert.  
Director Robert Meisch said

that although the Post band has a large number of inexperienced youngsters among its 50 members, he felt they deserved a higher rating than the one given them by the judges. The Floydada and Abernathy bands were the top ranking ones in the class entered by Post.  
A Division I rating was received by the Post clarinet quartet of Stanna Butler, Janith Short, Alyn Cox and Jan Herring. A saxophone quartet of Frances Dietrich, Bo-

verley Young, Buddy Moreland and Judy Gossett was awarded a Division II rating.  
Frances Dietrich received Division I ratings in student conducting and in saxophone solo. Boyd Dodson was awarded a Division I rating in oboe and a Division II rating in student conducting.  
Stanna Butler and Sandra Martin each received a Division I rating in clarinet solo, and Division II ratings in clarinet went to Peggy Butler, Judy Clary, Janith

Short, Alyn Cox and Jan Herring. Division II ratings also went to Beverley Young, saxophone; Marianne Jones, flute, and Doris Eilenberger, twirling. Receiving Division III ratings were Alton Spinks and Billy Hamilton, cornet, and Sherry Odom, twirling.
