Uranium Exploring Begins Anew Here

New uranium explorations are now under way in this area as the Garza Mining Company has shut down its mining operations on uranium to await more favorable weather.

Ticket Sale Under Way For Banquet

sales within the next few days schedule such production. Chamber of Commerce banquet to tion is being carried out and the at Judy's Cafe. the school cafeteria.

The banquet tickets, on sale by the next few days.

Disclosure that new uranium explorations are being made came today from C. L. (Brownie) Brownlow, engineer in charge of Garza

Mining Company's operation here. Brownlow said the explorations now are being conducted both by plane and vehicle all along the Caprock's edge. He did not pinpoint the territory but said it extended beyond Garza County.

The uranium engineer naturally was reluctant to say "too much at this time about our future plans", but he told The Dispatch that "we hope to make some announcement in the near future.'

That the announcement would be good news, not bad, was indicated by Brownlow's comment that we "definitely are going on with our uranium mining in this area."

The engineer revealed for the first time that a satisfactory freight rate agreement has been reached with the Santa Fe railroad for shipping uranium ore by rail to the nearest government mills at

Grants, N. M. has been employing a large trailer truck to haul ore the 450 miles by highway to Grants. by highway to Grants.

As for the new explorations, Brownlow said "we are working on two or three new projects." He explained that the company

NewVenture Announcement of good - sized potentials from two deep discovery wells on the sprawling Slaught-

er Ranch this week gave added significance to Garza County's prosspective oil boom. The potentials filed were on Shell Oil's headline - making No.

1-C Slaughter, and T. M. Evans of Midland No. 1 Slaughter, three miles south of the Shell strike. Shell's No. 1-C Slaughter has a calculated daily potential of 522 barrels of oil and 85 barrels of basic sediment from the Pennsyl-

vanian through perforations from 8,069 to 8,127 feet. Shell's multipay strike is located three-quarters of a mile northeast of the Texas Spraberry pool and three and one-half miles south

of the Teas Strawn sector. Potential of the No. 1-C Slaughter was based on an actual 81/2hour flow of 215 barrels of oil, 14 per cent with basic sediment, through 6-64 inch choke, after 830 gallons of acid. Neither the gasoil ratio nor gravity of the oil were reported.

Shell, which is expected to launch a real drilling race through the next four years to drill out its huge 60,000 acre Slaughter ranch lease, anticipates a dual completion for its now-famous well from the Ellenberger, now shut in.

Testing to clean out and dually complete from the Ellenburger in open hole at 8,295 to 8,694 is already under way.

Tested four hours, the Ellenburger responded with a flow of 18 barrels of fluid, 90 per cent load oil and 10 per cent basic sediment,

Later the project flowed 15 barrels of mud-cut oil into pits in an unreported length of time and died. Swabbing was resumed.

In addition to the Pennsylvanian and Ellenburger, the discovery See OIL STRIKES, Page 8

City Soon To Have **Fourth Physician**

Post soon will have a fourth physician in practice here. Dr. Bob W. Williams of Lubbock

announced this week he has leased the medical clinic building across the street from Garza County Memorial Hospital and will open his practice here in about four

He expects to move here in about two weeks and begin to get ac-quainted. The Williams-he is married with a three-year-old son -have rented a home at 610 West Fourth. Dr. Williams has been associat-

ed for the last year in practice with Dr. J. T. Krueger, well known Post Stampede Rodeo arena West Texas surgeon.

will be the scene Saturday after-It will require about a month noon of a cutting horse contest for delivery of equipment now on sponsored by the West Texas order for the clinic building.

A coffee was held at the city Approximately 50 horses are ex- hall last Thursday afternoons for pected to be entered in the event, Dr. and Mrs. Williams with a numwhich is set for 2 o'clock. There ber of local business men and com-

munity leaders meeting them and A barbecue luncheon will pre- talking with them over the need for more physicians here.

C. of C. Off To Running Start

Last week the new board of directors of the of directors who aided, a 1958 Program of Action Post Chamber of Commerce took office, elected energetic Ralph Kirkpatrick as the organization's 1958 president and set about getting ready for what could well prove to be the most eventful year in the Chamber's history.

The selection of Kirkpatrick to take over the helm for the next 12 months gives the Chamber a man of seemingly boundless energy and enthuslasm. Both are real assets for the job Ralph

1958 shapes up as an eventful year because of the tremendous accomplishments of the Chamber in 1957 under the capable direction of Bryan

Originating and taking a very prominent part in the highly successful Golden Jubilee celebration would be plenty for most Chambers to handle in a single administration.

The Chamber not only did its part in putting on a wonderful celebration, but it quit looking at the community's historic past the day the Jubilee was over and started allout planning for

Thanks to Williams and those on the board

was mapped for 1958. Then the program was taken to the membership and sold at the always tough dollar level. The annual budget for the organization through the efforts of the outgoing diriectors and Williams was boosted from \$4,500 for 1957 to a whopping \$12,000 for 1958.

This planning and financial campaigning gets the Chamber off to a real running start for 1958 -a year which should see the Chamber become in reality the focal point of community leadership.

A professionally trained manager can be hired with funds available. Properly organized with real working committees the Chamber in 1958 can total up what could be a record string of accomplishments under the heading of community im-

If it does, the credit must be shared with the outgoing president, Bryan J. Williams, and his outgoing directors who made it all possible.

Bryan J. warmly deserves the real appreciation of his community. He has given unstintingly of his time throughout 1957 to do a good solid and much-needed job of Chamber building as well as Chamber doing.-JC

Community Planning Always Important

Community planning is always important. It is doubly important for Post this year because the town is not only constantly growing and expanding but it stands on the verge of a very profitably oil boom growth.

Sizable growth always produces growing pains for any town, but the aches can be kept to a minimum by prudent and wise advance planning.

Post needs to get more rental housing. That of course is not easily said as done. With today's construction costs, few are willing to put new houses into rentals.

One way of course to get more rentals here is to really back and push a home building drive. As local citizens now living in rentals build new homes of their own, the properties they rent then become available for newcomers.

But every possible avenue for new rentals should be explored. It's a problem calling for study by local community leaders working to-

Rental housing is just one phase or part of

the community planning needed. The "high school problem" needs to be tackled in 1958 and proper decisions made. That means again study and planning-not just at the school trustee level but at the community level so the answer to the problem which is most acceptable to the community

There are dozens of community projects which could be furthered by community planning.

is decided upon.

Not many weeks ago, during the district water association meeting held here, local city councilmen were told of a method by which federal assistance is available for scientific community

Post might well stop and think if a good overall look at community needs right now might not be the first step in a drive to take any prospective oil growth in stride.

A Chamber study group, working with the city council, might come up with a project for a real city plan which would be well within our pocket-

Why not at least look into it?-JC

Congressman Gains Stature

Constituents of U. S. Rep. George Mahon are following with interest his comments on the lag in our long-range ballistic missiles program. The 19th District congressman, who is considered one of the top Democratic/lawmakers, has been very much in the public eye for the last few days in speaking out on missile development. Mahon, who is chairman of the defense spend-

ing subcommittee, told newsmen the other day that hind-sight shows the ballistic studies "were not pursued with sufficient energy" after World

Mahon urged that missile development be taken out of politics and commented: "If one is bent on fault finding, there may be enough blame to go around when we look back . . . it is fair to say that during the 12-year period from 1946 to 1958, far less than a perfect job has been done in the ballistic missile field."

It is typical of Congressman Mahon's fair-

mindedness when he comments, "there may be enough blame to go around when we look back." The thousands of 19th Congressional District's citizens who know Mahon for the fine lawmaker he is know that he isn't one to pass the buck and try to place all the blame on one or two pairs of

As one of the most respected and influential lawmakers in Congress, Mahon has reflected nothing but credit on the sprawling 19th Congressional District which he has served for nearly a quarter of a century. His constituents can take heart from his statement. "There is no room for encouragement and hope if we are to follow the practices of 'business as usual'." On the surface, that doesn't sound too heartening, but it becomes so when we realize that our congressman is fully aware of the situation and that he will do all he can to improve upon it.-CD

Hailing The Triumph Over Polio

A new kind of celebration is in full swing in Post and Garza County, as well as elsewhere in the nation. This month thousands of communities in every part of the land are observing the 20th anniversary of the National Foundation leadership and National Foundation money, provided through the annual March of Dimes, that made possible the Salk vaccine and the hope that polio epidemics eventually will be eliminated forever in America.

Think what that means! No more mass imprisonment in iron lungs each summer; no more shriveled arms, legs, hands; no more dread in the hearts of millions of parents each time their children come home with "the symptoms."

The best way to celebrate a blessing like this is to show gratitude. And the best way to be grateful for the Salk vaccine is to think about the blighted lives of those for whom it has come too

late and to do what we can to wipe out or relieve their helplessness. There are, in America, some 160,000 boys and girls, young men and women, who have had polio and who need further re-

These people can benefit, some of them tremendously, if modern techniques of rehabilitation are applied to their disability. It is the purpose of the March of Dimes, now under way here, to finance the care they need. The cost will run to many millions. And the March of Dimes looks to us-to every one of us-to give what we can toward this wonderful objective.

Let's not forget those who were not as lucky as we. Let's remember, as the March of Dimes puts it, that "Survival Is Not Enough." Again this year, Garza countians are opening their hearts and their pocketbooks to the March of Dimes. Let's carry it right on through Friday night's "Mothers' March on Polio." Let's give!

We're Slipping On Poll Taxes

Two years ago, for the 1956 election year, 1,454 poll tax receipts were issued in Garza County for a new record, clipping by five the previous high of 1,449 set in 1952. The first of this week, considerably less than 1,000 poll tax recelpts had been issued-withthe deadline at midnight Friday.

So, it appeared the first of the week that unless an almost-unprecedented surge of payments take place, the number of receipts this year will be less than they were two years ago. For a numher of reasons, that shouldn't be. One reason is

stead of decreased. Another reason is because this year's elections are just as important as were those of two years ago, with the possibility of there being even more important balloting on such things as bond issues,

Whether or not a new poll tax payment record is established-and it appears now that one will be every citizen who hasn't yet paid his \$1.75 for the right to vote in this year's elections should do so before Friday's deadline. It's a mighty inexpensive tax for the right to vote as you please. People in many countries would be glad to pay ten times that price, or more, for a slip of paper because the county's population has increased in- giving them the right to vote as they please.-CD

High School Takes Progressive Step

Institution of a National Honor Society chapter at Post High School can be halled as one of the most progressive steps taken at the school in recent years. In many ways, it is equal to or, perhaps, even excels the winning of a district championship by one of the school's athletic teams -all in the way you look at it, of course.

Mure notoworthy, however, than the granting of a chapter and institution of the chapter is the fact that the high school made application for affiliation in the National Honor Society. That obsess a desire on the part of administrators,

teachers and students to place our high school on a par with others throughout the area.

The requirements for membership in the National Honor Society are a grade average of 85 or above and outstanding qualities of leadership, service and character.

Not all the students can be charter members in the Post High School chapter, but their application to their studies and their attitudes toward their fellow students and teachers they can become members. We'd like to see the new PHS National Honor Society chapter grow into one of the biggest and best.--CD

THURSDAY to **THURSDAY**

By CHARLES DIDWAY

SATURDAY IS THE first day of February, and Sunday is the day on which those who put stock in such things will be watching the ground hog before making any long-range weather forecasts.

February, the shortest month even when it has 29 days, has only 28 again this year-a few them of special significance. After Ground Hog Day, will come Thomas Edison's birthday on the 11th, Abraham Lincoln's on the 12th and George Washington's on the 22nd.

FEBRUARY 8 WILL be the 48th anniversary of the founding of the Boy Scouts of America; the 14th is St. Valentine's Day: the 17th the 61st anniversary of the founding of the Parent-Teacher Assn., and Ash Wednesday falls on the 19th. Feb. 25 marks the 40th anniversary of the opening of the Hudson Tunnel, and the last day of the month is the anniversary of the granting of the first railroad charter.

Our philosophical friend says all women should learn to work for a living: that most of them will marry someday.

DURING THE LAST six weeks or so we've learned as much or more about Korea then we ever had before. The reason is that our oldest son has been stationed there for about that length of time and has been briefing us in some of his letters.

It never entered our mind when Walter joined the Army that he would be sent to Korea, and from what he writes it never entered his mind either, else he might not have joined. He's enjoying his work, which consists of map reproduction and allied duties, but says that otherwise it's rough, particularly the weather.

HE ADMITS, HOWEVER, that it could be worse. He is stationed only two or three miles from Seoul, whereas many of the soldiers are along the barren, frozen stretches of the 38th Parallel. Personally, we think homesicknessnot hardships-is what Walter is going to have tough out for the next 14 months.

Like other mothers, Walter's mother is all shook up about him being so far from home, but she never fails to agree when we remind her that she isn't the only mother with a son in the service. We doubt if that helps much, though, even if misery does love

SINCE SO MANY of Walter's friends have asked us how he is getting along, we thought the above might tell them better than we otherwise could, since we're usualy on the run when one of them

All you transplanted Arkansaw-

yers want to be sure to hear Chester H. Lauck, better known as "Lum", when he speaks at the banquet Tuesday night. Lum, a part of the world-famous "Lum and Abner" team, was born in Alleen, Ark., and attended grade and high schools in Mena. That's in Polk County, separated only by Scott County from the county in which we were born-Sebastian.

IN CASE YOU'RE not familiar with Arkansas geography, there are a couple of other Arkansawyers here who knows as much or more than we do about Sebastian County. They're L. E. Claborn Sr. and his son, Fay Claborn. We'll bet they're also familiar with Scott County and even Lum's home county of Polk.

We never felt that we'd quite moved from Arkansas until we came to Texas. When we left our native state, we moved only a few miles over into Oklahoma, and wound up by graduating from high school at Talihina, which isn't far from Mena, where Lum was graduated. In fact, it seemed that most of the people living in Talihina had moved there from in or around Mena.

YEARS AGO, WHEN the Lum and Abner team first hit the air waves, their most enthusiastic fans probably were those around their home country and just across the line in the "bow and arrow" state. When Lum and Abner talked they were talking the language most of us down in that neck of the woods understood.

So, all Lum will have to do to make us feel "at home" at Tuesday night's banquet will be lapse into some of his radio patter—such as, "Wani, I'll be a polka-dotted

THERE'S STILL time to pay your poll tax-if you'll hurry.

Something else to remember is Friday night's "Mothers' March on Polio." Leave your perch light on or a light in the window, so the marching mothers will know you want to make a contribution to the March of Dimes.

PARTING THOUGHT: The most ouble is produced by those who n't produce anything else.

THE AMERICAN WAY

Our Contemporaries Are Saying ----

Fred Brown, an ineffectual but talkative worker, spent most of his time complaining that fortune seemed to smile on everyone else, but merely sneered at him. When another employee with less seniority was promotd, his wails of selfpity filled the boss' office.

"It's the same old story," Fred moaned. "Other guys get all the breaks. But how come my ship terprise. never comes in?"

"Perhaps," the boss suggested quietly, "you never discovered that steam has replaced wind."-"Popvalve" in The Hamlin Herald.

Idea That Makes Sense

From the little town of Anthony down in South Texas comes an idea that also makes sense. Hubert F. Heath, an alderman of the town, has written letters to some 800 towns in Texas urging that former mayors or aldermen beelected as state representatives. Besides making good state officials, Mr. Heath believes this is the only way the towns can get their share of tax money paid for road maintenance. These former city officials would pass a law making to give a proportionate share of road and street service inside the towns, based on the percentage of taxes paid. Crosbyton has been fortunate in having a county commissioner willing to furnish his ed all responsibility for teaching equipment and men for city street these "frills," which they are oftwork when possible, but many en called, either they must be towns have not been so lucky. It learned at school or else they will might be a good idea to find out never be learned. It's easy to adhow our own representative stands vocate the abolition of all educaon this matter. - "Trends" in The tional frills, and the return to the Crosbyton Review.

May Be Clincher

The blackeyed peas on our table were burned, but we ate them anyway. No doubt eating burned blackeyed peas will really cinch good luck for us in 1958. - "From the Hopper" in The State Line Tribune, Farwell.

Neck Stuck Out

Unless this scribe misses his guess, Martin County is just about to emerge from behind the "iron curtain" of seven years of drouth. It has its neck stuck out a good way through the veiled curtain and work in an antiquated Mbdel "T" views the future prospects for this truck, was exhibited widely over area with much optimism.- "Snoot- the land as typical of American

Sold On Basketball

reputation as a basketball town, me that many people in America Last year, it will be remembered, have cars!" - "Odds 'n Ends" in the Eagles went right up to the The Monahans News.

at Austin. Evidently, somebody on the school board is sold on the future of basketball here for I notice some new basketball goals have been placed at the city's elementary schools. That may mean that we will have some real good basketball teams in our high school within the next few years.-"It Seems to Me" in The Pecos En-

Get Into Teaching If you're a relative youngster,

get into the teaching profession for more pay, better economic future. Sputnik has scared the wits out of a lot of people in America, and the only way we know in this country to accomplish anything is to spend more money for it. We are going to buy ourselves smart. The fact that there is considerable complaint on the way the teaching profession is spending the funds Texas people are already providing will have no bearing on the outcome. If you are to graduate from college any time in the next two or three years or could now make a change that would not be detrimental otherwise, get into a it mandatory for county officials good school system as quickly as in The Floyd County Hesperian.

Which To Abolish?

Since parents long ago abandon-Three R's-plus nothing more. But when it comes to deciding just which of the frills to abolish, it's about like asking a Republican which of the "New Deal" reforms he wants abolished. - "The Country Editor" in The Tulia Herald.

Can't Fool Him

Movie Producer Mike Todd, who has spent a great deal of time in Russia, says the Communists like to exploit movies depicting Americans in a bad light. The movie "Grapes of Wrath", the story of depression - stricken migratory farm workers who drifted about the country in search of er Knows" in The Stanton Report- life. A Russian, after seeing the movie, confided to Todd that he doubted it was truly representative of this country. Reason for Pecos already has pretty fair his reservations: "You can't tell

Tips In Caring For

By JESSIE PEARCE The question that I am asked

most often by homemakers on clothing care, is, how to launder good-condition copies of The Post the man-made fibers. Listed are Dispatch for the following dates a few tips on caring for these fibin 1957: Jan. 24, Jan. 31, March ers. First, look for laundering in-14, April 25, Aug. 1, Aug. 15. structions that the manufacturer Bring them to The Dispatch of- has included with the garmet. These C. Polk are the youth sponsors. tf are usually found on a hang-tag attached to the garment. If there are any special instructions, it is good to file the tag, with the name of the garment written on it, so that you will have the laundering instructions when you need them.

Rayon is the oldest of the man-The Post Dispatch is authorized made fibers. All rayon garments move moisture, and iron while For Judge 196th Judicial District: still damp with a warm iron on the wrong side of the garment.

Acetate, if the hand-tag so states, may be washed, using warm water and mild soap or synthetic detergent. The garment should be handled carefully to prevent permanent wrinkles. Iron while damp at low setting on wrong side of garment, or use a press cloth.

Acrilan can be washed in warm water with either soap or synthetic detergent. The fiber is quick drying and needs little or no ironing. Stains wipe off with a damp cloth if done immediately. An anti-static agent may be added to the final rinse to prevent static electricity that the fiber accumulates very badly. In sewing acrilan blends make wide seams or overcast to prevent raveling.

Arnel is machine washable, quick drying, requires little or no ironing, may gas fade and is usually found in blends.

Dacron is machine washable if Two men were filed on in Justice the construction of the garment

Collars, cuffs and other badly soiled places will need pre-treatment with soap jelly before being placed in the washer. Avoid wringing the garments by hand. The fiber is quick drying and requires

Nylon may be machine washed. In fact, machine washing is the most effective way of keeping nylons white. White nylons should be washed with white garments only. Use hot water, a heavy duty detergent, a non-precipitating water softener and liquid sodium hypochloride bleach. Use the water softener in both the wash and rinse water. Nylon needs little or no ironing when drip-dried.

Orlon washes easily, is quick drying, and needs little or no ironing when drip dried. Hang with the certificates went to eight. shoulders padded, and finger-smooth the seams. Like nylon, keep white orlon garments separate from all colored garments when washing.

These man-made fibers are found With Mrs. Satterwhite most often in blends. In caring for ing of the county unit of Plains remember that the fabric must be ess for a regular meeting of the to 45, last week in a game at Lubcared for as the most delicate Priscilla Club Friday afternoon at bock. calf, one of the present directors, fiber. For instance, in ironing a cotton and acetate blend, the rayon setting on the iron must be used to prevent melting of the acetate

Lunchroom Menu

Post school lunchroom menus for the coming week will be as fol-

Monday: Tuna salad, buttered green beans, one-half pint milk, bread, stewed prunes. Tuesday: Baked ham, glazed car-

rots, buttered peas, one-half pint milk, bread, sliced peaches. Wednesday: Toasted cheese sandwiches, potatoes in jacket, butter,

English peas, pimento salad, onehalf pint milk, bread, cookies. Thursday: Barbecued franks.

buttered lima beans, cabbage slaw, one-half pint milk, bread, devil Friday: Hamburgers on bun

with tomatoes, lettuce, pickles, and mustard, potato chips, one-half pint milk, bread, ice cream cups.

Sorority Program Presented Monday By Mrs. Hundley

pared by Mrs. Max Gordon and presented by Mrs. Jimmy Hundley, composed the program for the Monday night meeting of the Beta Sigma Phi sorority, which was held at 7:30 o'clock in the Justiceburg home of Mrs. Mason Justice. Each member present showed an object of value to them. Included were sewing baskets of two generations, fresh water pearls, a cameo ring, a sugar bowl of five generations, and a complete set of wedding pictures.

During the business session, the group discussed their sorority endowment fund, which sponsors the "Cancer Research", and other medical reearches, and also contributes to scholarships for artists, musicians, and writers in Canada.

A letter was read from Mrs. Lee Davis, concerning the March of Dimes; and concluding the business meeting, the group discussed plans for a Valentine party. A social committee will present final plans at the next meeting.

Refreshments of a salad plate, olives, nuts and a hot tomato drink were enjoyed by those present.

Attending were: Mrs. Jess Cornell, Mrs. Burney Francis, Mrs. Douglas Hill, Mrs. Hundley, Mrs. lack Kirkpatrick, Mrs. Ed Sawyers, Mrs. James Simms, Mrs. Nick Vukad, the hostess, and a guest, Mrs. Bob Garrison of Killeen, a former member of the sorority. Mrs. Jack Kirkpatrick will be hostess for the next meeting, to be

Parents With Right Attitudes Great Help In Solving Juvenile Problems

growing problem of juvenile delinquency by one of Texas' foremost authorities on the subject. District Judge Sarah T. Hughes of Dallas, who has handled more than 25,000 juvenile and family relations cases, along with an even greater number of other civil cases in 22 years on the bench.)

In order to grow into mature, stable men and women, boys and girls need parents with right attitudes, high moral and ethical standards, and religious faith.

A recent article in a national magazine dealt with white collar crimes-ways in which some business and professional men evade the law, cheat just a little, do whatever they can get away with in order to keep from paying as much tax or to make just a little

Such actions are frequently not frowned on by friends or neighbors. The man who gets by may even be considered smart. But with children to raise, the standard of conduct for parents should not be what pleases others but what is good and right.

Children learn more from example than from being told. Do you remember during the war how many people got more gas, coffee, and meat than they were entitled to? And some even bragged about getting around ration limitations. The children were bound to know. And if parents cheated and got away with it, it must be all right to cheat at school, so they reasoned.

And if a child hears his mother tell his father an untruth, then isn't it all right for him to fib just a little if he has to get out of a tight situation?

Just telling a child to be honest, to tell the truth is not enough. Moral-ethical Ideals can't be inculcated by education and religious teaching alone. Little effect will be had on behavior, still less on character, unless right attitudes become a part of the individual-that is, have-been learned through constant example and

Perhaps we need a rededication to the old-fashioned virtues-honesty, truthfulness, industry. I am reminded of a story my pastor told of an engineer who, deep in the Amazon jungle, received word of his wife's serious illness. He began a forced march to the coast. One morning he awoke to find the natives had not yet packed; they were simply sitting. In reply to his question as to why they were not ready to go, the leader replied, "We are waiting for our souls to catch up with our

In this modern day we certain ly need to slow down our bodies so our souls can catch up-our physical progress has outgrown our spiritual development.

In addition to the attitude of parents towards honesty and truthfulness, how do they act towards each other? Are they kind, considerate, loyal, affectionate, or

THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral. and material support. Plan to go to church regularly and read your Bible daily.

(Continued From Front Page) ed to serve the heavy oil field traffic into that area.

Let's say one thing now-and we really mean it. Post today is getting wonderful service from the highway department and Post appreciates it. It's simply a question of not being able to do everything at once, although it all is needed virtually at once.

Now for another highway item of real interest locally. Yesterday afternoon through US-84 traffic was diverted down Main street east from Broadway as a detour. Julian Smith, state highway resident engineer here, told The Dispatch that the highway department well knew the inconvenience this heavy traffic on Main street would cause both local merchants and shoppers, but he promised that the highway department would push the work causing the detour just as rapidly as possible. Given good weather, Smith estimated the traffic could be returned to the original US-84 route in from four to six weeks. The detour is necessary to enable also indicated production from the the approaches to the bridge over the Santa Fe tracks southeast of Mississippian, yielding oil on a the city to be widened and for the drillstem test at 8,151 to 8,232 feet. highway to be widened from the bridge to the city limits-some 2,000 feet-which needs to be fourlaned Traffic is being diverted around by way of Main street out barrels of 37 gravity oil. on the Mill road loop. There's no other choice.

Smith said if traffic conditions Spraberry pool. become too bad on Main street with the addition of the highway inch choke and perforations at through traffic, the state highway epartment would consider asking the city council to do away with oil ratio was 101-1. center street parking for the duration of the highway 84 detour. The location of another deep wildcat engineer said the department hoped this step wouldn't be necessary test southwest of the U Lazy S and was going to wait and see how ranchhouse and five miles west of the No. 1-C Slaughter discovery. things developed.

Uranium-

(Continued From Front Page) contract was not renewed at the

first of the year.

Brownlow indicated the firm wants to figure out whether to "tool up" for a greatly increased, or slightly increased delivery schedule before applying for a new government delivery contract. Due to the nature of the uranium

business, Brownlow said he did not want to make any definite announcements until everything had been satisfactorily worked out.

Announcement of the firm's uranium operations northeast of Post was first made in The Dispatch

The firm holds three uranium leases, comprising some 1,500 acres in Garza County, and through the late fall concentrated most of its efforts in mining ore virtually off the surface of the Bill Long farm. eight miles north of Post on the Ralls highway.

The firm had the only uranium delivery contract in Texas for the last quarter of 1957.

So many things happen in our day to day and week to week business we never know whether we will get a chance to advertise HARDWARE or whether we will have to chase down some mistake we have made during the week-

BUT SO FAR THIS WEEK

We have made so many mistakes, we are just omitting them and telling you about some things we have FOR SALE down on the corner.

DON'T LET A SUNSHINY DAY fool you into buying fishing tackle like we had the past few days—even though we do have a good lot of FISHING EQUIPMENT but it would be better to get lined up for the plowing and getting your yard and garden in shape with a few of our GARDEN TOOLS and too, you might look forward to some fried chicken this spring and get some CHICKEN FEEDERS and WATERERS ready. It will really be good etiquette too if you will take a pair or two of LISTER SHARES or big SWEEPS along for geting the old land in shape for next year's crop.

WE KNOW YOU'LL BE NEEDING HARDWARE and when you do
