By CHARLES DIDWAY

IF YOU BELIEVE in the old Indian legend still handed down here that the way the wind blows on the first day of Spring indicates the kind of crop year we'll have, then you probably also hold stock in the legend of the groundhog and his shadow.

HE SAW HIS shadow Saturday, but he had to stay out of his hole until nearly noon to do so. All of which means that there is going to be six more weeks of winter weather, most of which we hope is soaking wet.

MARSHALL TITO of Yugoslavia has cancelled plans for his visit to America. Now there's a fellow who doesn't believe in going where he isn't wanted.

COAXING THE GROUNDHOG back out of his hole, did you read about the one in Milwaukee which flunked his first try at weather forecasting? Hauled from his cage at Washington Park Zoo, the indignant little beast didn't even look for his shadow; just bit the thumb off Tait Clifford, president of Milwaukee's Groundhog Club No. 1, and scuttled back into the cage.

WE HEARD THE mayor's talk at the Jan. 29 Rotary Club luncheon, and about the brightest (no pun intended) comment he made was that the City and Southwestern Public Service Company have a project under way for more street lights in certain sections of the city. The project can't be developed too soon to suit most of us.

THE ONLY MIRACLE pill our forefathers had for nervous tension was 14 hours of work a day, 6 days a week.

OUR CHAMBER OF COMMERCE is now mapping plans for the rest of the year, and got off to a good start at last Thursday's breakfast for committeemen. Like seeds set in soil in the Spring, it's the vision, initiative, and enterpriseness now that yield better communities. And all good citizens must help the effort.

OUR CHAMBER OF COMMERCE needs—for our financial support, communitarianism, and ideas. We can and should help sparkplug the efforts being made for a better community. We'll get the satisfaction that can only come from living in a town that's going places and the knowledge that we are helping it along.

THE REASON THAT some people get lost in thought is that it is unfamiliar territory to them.

NEXT THURSDAY IS Valentine Day, and had you noticed that the heart-shaped boxes of candy get more elaborate each year? It used to be that all the Valentine candy came in red boxes, but now there's most any color you'd want. We always thought the red ones were about as attractive as they could be, but then we suppose we're a bit old-fashioned about it. We're the same way about ice cream. Until we were practically grown, we didn't know any flavor except vanilla existed, but that always seemed so doggone good that we never thought they'd be able to improve on it. Now there are

Roger W. Babson Writes This Week:

## Longer-Term Outlook For Nation's Farmers Changing For Better, Developments Show

BABSON PARK, Mass.—Recent Developments in American agriculture lead me to believe that the longer-term outlook for our farmers is beginning to change for the better. While I see nothing really dramatic in the shifting picture, I do forecast that the years immediately ahead will be somewhat happier ones for the "folks down on the farm."

**Years Of Mounting Surpluses**  
The farmers', as well as the government's, present agricultural problem stems from years of mounting surpluses, particularly of cotton, wheat, and corn. War emergency measures were adopted by the government to stimulate farm production, and to safeguard farmers from price drops resulting from any excessive output. Finally these measures became such an integral part of the whole economic (and political) system that they were continued during the postwar years. By intensive cultivation, farmers have been producing bumper crops year after year, even on reduced acreage in some instances, with the surplus being siphoned into government loans.

As of last June 30, Uncle Sam had around \$3,300,000,000 of the taxpayers' money tied up in loans on farm surpluses. Huge quantities of cotton and wheat have been piled up in recent years. Total carryover stocks of the white staple at the beginning of the current crop year last August 1 amounted to a record high of 14,500,000 bales—more than enough to cover a year's domestic consumption and exports at the 1956 rate of disappearance. Most of this mountainous reserve was in government hands. A similar situation prevails in wheat. The carryover last July 1 amounted to around 1,030,000,000 bushels,—also mostly government held.

**Recent Remedial Measures**  
The various acreage controls applied to some important crops in recent years have been stymied by sharp increases in per-acre yields. Thus, surpluses have continued to mount. The Soil Bank program, however, which was first applied in a more or less limited way last year, may well prove to be a major means of checking the build-up of farm surpluses in government hands over the next several years. Under this program, the government compensates growers for acreage of basic crops taken out of production. The

## THE LANGUAGE BARRIER . . .

Bridging the language barrier has always been a socio-economic problem in any land. In Texas, where there are so many Spanish speaking citizens, it has been a particularly difficult one. The child who finds himself constantly unable to understand the language spoken around him fails to get full advantage of facilities that are intended to make his living better.

This problem has made itself felt in the Post Elementary School, where there are a large number of Latin-American pupils. In recent months, some steps have been taken to try to correct the situation, including a kindergarten for Latin-American pre-school children. These steps have received some support from civic clubs and other groups, but the program has not been well enough organized to make appreciable gains.

Now comes good news in the form of an announcement that Felix Tijerina, a Houston business man and current national president of the LULAC organization proposes to teach pre-school children to speak English before they enter school. This will be done by a series of radio lessons prepared by educators who know what the problem is.

It is no wonder that the Health Department and departments of Safety and Welfare are interested in this program too. When a child understands the language of his country he certainly becomes less of a burden both socially and economically.

It's a fine program and should be given the utmost support. Being able to bridge the language barrier will make better pupils of these Latin-American youngsters. Better pupils make better schools and better schools should be the objective of every community. They're one of our most important investments in democracy.

Up to now, railroads have been barred from any combinations. Regulated by government, they have had to struggle along in a tough competitive period without the lift other corporations have had. Recently, however, rumbling started which suggests that key lawmakers in Congress might take a different view and allow the roads some ventures afield, into airlines, trucking, barge lines and even pipelines.—Leesburg, Fla., Daily Commercial.

dozens of different flavors and blends of flavors.

**NOTICE IN A doctor's office:** "Ladies in the waiting room are asked not to exchange symptoms. It gets the doctor hopelessly mixed up."

WE'VE JUST RECEIVED a report from CROP (Christian Rural Overseas Program) on the 1956 Texas Youth Halloween Project. It shows that \$82.73 was raised in Post and \$18.50 at Southland. The state total was \$54,910.04. In case you've forgotten, the project consisted of some of the youngsters collecting funds for CROP instead of tricking or treating.

**HARD WORK IS just the sum total of the easy things you didn't do when you should have.**

CHILDREN ARE GROWING up when they start asking questions parents can answer.

THIS HAS BEEN an enduring peace—never has a peace had to endure so much.

## Getting Out On The Limb

By EDDIE the editor

THE WOMEN, bless 'em: The typical man who complains that his wife doesn't understand him should be thankful that she doesn't. If she understood him, she'd likely quit him or shoot him.

Indirectly, slowly and to a small degree, television is becoming educational—it's driving some people to reading books.

FROM NEW YORK comes word that weekly newspapers today are the fastest growing publications in the U. S. TIME, the weekly newsmagazine, says this in a special report in the Feb. 4 issue.

Metropolitan newsmen who daydream of retiring to a country paper have long viewed weeklies more as a rural retreat than an influential segment of the press," TIME says. "But with the swift growth of suburbs and small towns since World War II, weeklies have largely shed their cracker-barrel ways, developed sophistication and a new sense of mission."

Weekly Newspaper Representatives, Inc., last week reported that 8,478 weeklies in the U. S. in 1956 reached a paid circulation peak of 18,529,199, up 6.5 per cent over 1955. Estimated gain for the 1,700 dailies (total circulation more than 56 million): about 2 per cent. Advertising in weeklies increased 1.2 per cent to a record \$112 million; this includes a 30 per cent jump to \$25 million in national ads since 1954 vs. an estimated 10 per cent gain for dailies.

"The weeklies' resurgence reflects editorial as well as economic vitality," TIME says. "In addition to relaying the back-fence chit-chat on which weeklies have traditionally thrived, the papers are the only interpreters and watchdogs of local government in hundreds of U. S. communities, whose problems, aims and achievements go largely unrecorded in the metropolitan press."

"Most small-town weeklies," says TIME, "have thrown out the smudgy type and bumpy prose that once characterized the weeklies. They now run staff-written stories and editorials instead of the boiler-plate and canned sermons that once crammed country papers. The old-time jack-of-all-trades country editor has been largely supplanted by trained staffs."

AS A WEEKLY newspaper publisher, I enjoyed reading and appreciated TIME's tribute to the small-town press. But we here at The Dispatch modestly feel that we were several years ahead of the trend of which the magazine speaks. To show for it, we have some of the top trophies awarded prize-winning newspapers by the Texas Press Association and other press groups over a period of several years.

A teen-ager saw an advertisement for "a valuable book, including information every young girl should know before she marries, with full instructions and illustrations." She sent for the volume and received—a cook book.

A University of Missouri speech professor says the most famous American speech was when Eli Whitney said, "Take your cotton-picking hands off my gin!"

MY THANKS TO State Rep. Robert R. Patterson of Snyder for keeping us informed on what they are doing by having the Journal of the daily proceedings in the House of Representatives mailed to The Dispatch.

"I wonder what kind of swim suits the bathing beauties will be wearing in 1960," wonders a columnist who may be assuming too much.

FEBRUARY IS considered the "birthday month," because it is the month of the birthdays of George Washington and Abraham Lincoln. Few days are happier days than birthdays for the young folks. Wonder how birds and animals would look upon birthdays if they knew when they came around! Of all the birds, says the office know-it-all, swans have been known to live three hundred years.

Among animals, whales are entitled to the most birthday candies. Their average life is about one thousand years. In view of this, it may be that the whales which follow the ships in the Atlantic Ocean today also followed the little ships in Columbus' fleet back in 1492.

Elephants, under good conditions, will live four hundred years. It is said that an elephant that fought in the army of Alexander the Great was banded and named "Ajax." The great beast was found 365 years later and still alive.

Tortoises have many birthdays, too. They live considerably over a hundred years.

The average number of birthdays of horses is from 25 to 30; of hogs, bears, and wolves, 20. Of the smaller animals, dogs and cats usually have from 10 to

## Our Contemporaries Are Saying . . .

**The Paramount Question**  
The paramount question before the country today is "How much is the down payment?"—"Around Journal Square" in The La Grange Journal.

**New Reasoning**  
A practical young fellow of our town, who normally spends all he makes and some he can wheedle out of his pappy, has come up with some new reasoning. When told that a big business executive declared that "loneliness is the lot of the person who makes \$100,000 or more a year," he concluded that being lonely would be his own fault. "Why, with that kind of money he could buy a whole lot of loneliness," he averred.—"Popvalve" in The Hamlin Herald.

"More alcoholics are now found among the prosperous than the poor," says an insurance statistician. This should surprise no one—with whiskey selling for around \$25 a gallon and up.

Wes Izzard, Amarillo publisher, says that people who depend on the government for security and prosperity should take a good long look at what it has done to the American Indian.

ye olde Princess of Monaco, nee Grace Kelly, delivered a baby daughter to the 367-acre Empire of Monaco. The whole world has gone wild with joy, and drinks are on the house from the Belgian Congo to Ciro's. You will be pleased to know that the baby was perfectly constituted and born within the time limit dictated by propriety. The couple were married last April 18 and 19 (doubleheader), which is precisely 9 months and 4 days after the ceremony, so you can stop counting on your fingers. You may console yourself that they did "cut the bacon a little thin," if it'll give you any comfort! Anyway, the Republic has been saved. The Monacan yokels won't have to pay taxes or serve in the military forces. It makes us awful jealous, especially when we recall that this country was founded to escape taxes. God Save the King!—"It Sez Here" in The Ralls Banner.

**Buck Up, Girls!**  
Lest this column conclude on a rather sour note, we'd like to say something nice about someone. The logical candidate is the girls' basketball team, whose morale must be pretty low since they've failed to score a win since the mind of man runneth not to the contrary. This is indeed a regrettable situation but we're sure neither the girls nor Coach James want sympathy. In spite of this demoralizing state of affairs, they have tried hard and have conducted themselves in a manner to reflect credit on the team and the school, which isn't always easy when you're losing. Buck up, girls. You can't lose 'em all.—"Main Street" in The Lorenzo Tribune.

# Post Antelopes Roar To 82-49 Win Friday Over Spur Bulldogs

The Post Antelopes won their fifth District 2-AA game against three defeats here Friday night by burying the Spur Bulldogs under an avalanche of 40 field goals and two free throws for an 82-49 victory.

## Slaton Freshmen Surge From Behind To Down Post, Win Own Tournament

A Slaton team that refused to give up defeated the Post freshmen, 48-46, Thursday night to win the championship of its own tournament.

### Slaton Tigers Outscore Abernathy Five, 52-42

The Slaton Tigers won and the Tigerettes lost Friday night in District 2-AA games at Abernathy.

The score in the boys' contest was 52-42, with Doug Corley leading the Slaton scoring attack with 16 points, two more than Jerry Hogue. Reggie Stephens sank 16 points and Buddy Guinn 12 for Abernathy.

Margie Guinn hit 31 points to pace the Abernathy girls to victory, while Brenda Shipman hit only three less. For Slaton, Linda Smith sank 30 points and Beverly Bland, 22.

It was the Abernathy girls' seventh district win against no defeats.

**GIGGLE, NO GURGLE**  
ADA, Okla.—While the giggle of returning children echoed through Galey school in Pontotoc County, the gurgle of water from the school's well stopped. The water well went dry the first day of school and an emergency supply was being hauled in. Oklahoma's severe drought was blamed.

Bing Crosby's real name is Harry Lillis Crosby. He is also a good song writer. His best known composition: "I Don't Stand a Ghost of a Chance With You."

The Bulldogs, who had held Post to a narrow 55-54 win earlier in the season, trailed from the start in Friday's game. Coach Burl McCoy's team doubled the Spur cagers' score in the first quarter, leading 22-11 when the buzzer sounded. They were ahead, 45-18, at halftime, and 63-27 at the end of the third quarter.

All 13 members of the Antelope squad who were suited out saw action in the game. Spur's Max Gabriel and Robert Beeson, with 17 and 15 points, respectively, were the only serious scoring threats against the Antelopes' tight zone defense.

The Post cagers made only two of 13 free throws, one in the first half and the other in the second half. Spur hit 17 out of 36 from the free throw line.

Daymon Ethridge scored 16 points to pace the Post attack. Others hitting in double figures were Jimmy Short and Jerry Hays, 13 each; Troy Cartmill, 12, and Noel White, 10.

The box score follows:

# Rally Falls Short As Post Girls Loses To Spur, 35 To 33

The Post girls' basketball team staged a spirited rally in the closing minutes against Spur here Friday night, but fell short by two points of closing the gap. Louise Gerner hit a fielder with seconds left to bring Post up to a 33-point total, but Spur finished with 35.

It was a rugged defensive battle, with the guards on both teams showing to advantage in holding down the scoring. Post's cause was hurt when starting guard Barbara Wheatley fouled out, and Linda Lusby also left via the foul route later in the game.

Spur was ahead, 7-4, at the end of the first quarter, but the teams were deadlocked, 14-14, at halftime. Spur led, 24-20, at the end of the third quarter, and were ahead 34-24 late in the fourth when Coach King's girls started their rally. They scored nine points while holding the visitors to a lone free throw, but time ran out to nip the surge.

Charlene Simpson of Spur had 19 points for scoring honors. Marie Howard hit 15 for Post. Other Post scorers were Kay Martin, 6; Janet Stephens, 6; Louise Gerner, 6, and Leslie Nichols, 2. Also seeing brief action at the forward positions were Barbara Gary and Glenda Whittenberg.

# Lockney Cagers Defeat Idalou Wildcats, 59-50

The Lockney Longhorns of District 2-AA defeated the Idalou Wildcats, 59-50, Friday night in a game on the Idalou court. Idalou won the girls' game, 60-49.

The Longhorn boys sank 23 free tosses to only 10 for Idalou to

chalk up their margin of victory. Morris Meriweather, who scored the last-second field goal to beat Post two weeks ago, was high scorer for Lockney, with 16 points. David Frazier had 15.

In the girls' game, Nelda Widener hit 28 for Lockney.

## Women's Part In Mission Center Presented In Fellowship Program

The part women are playing in the development of a three-year-old mission center in Nakhon Pathom, 14 miles from Bangkok, Thailand, was presented in a program Monday afternoon when members of the Christian Women's Fellowship of the First Christian Church met for a regular mission lesson in the home of Mrs. Almon Martin.

The new mission field and told about visiting with the Rev. and Mrs. George Cherryhomes, missionaries to Thailand. Mrs. Cherryhomes prepared the material used on "Women in Southeast Asia" and Rev. Cherryhomes, who is a native Texan from Jacksboro, prepared the background material. The Cherryhomes are now on leave and he has been attending several meetings and giving lectures in Lubbock.

Following the program, the hostesses served refreshments of spiced tea, honey spice cake and Valentine candies. She was assisted by her daughters, Sandra and Mickie. A brief business session opened the meeting and an inspiring devotional by Mrs. K. Stoker closed the meeting.

## 12 Girl Scouts Earn First Aid Badges

At the beginning of this Scout year, members of Girl Scout Troop 5 started work on their first class badges. Their activities thus far have been confined to three fields of Scouting—sports and games, homemaking and health and safety.

For the past few weeks they have been working on the first aid badge under the instruction of Mrs. Max Gordon, public school health nurse. Among the features of first aid covered were: Treatment for minor ailments, how to improve and use a stretcher, first aid for simple fracture, how to recognize and care for a patient suffering from shock, and new methods of artificial respiration.

Upon completion of the course, the following members received their first aid badges: Janie Carradine, Alyn Cox, Jan Herring, Glenda Hutto, Marianne Jones, Ann Pennington, Janith Short, Charlene Smiley, Janice Moreman, Pam McCrary, Sharon Taylor, Mary Williams.

Mrs. Gordon was assisted by Frankie Sue Howell, associate member, and Mrs. Clint Herring, leader.

## Field Of Medicine Is Culture Club's Topic

The Woman's Culture Club met Wednesday afternoon at 3 o'clock in the basement of the First Methodist Church with Miss Maxine Durrett as hostess.

Roll call was answered with a fact on "New Discoveries in the Field of Medicine." Mrs. Dowe Mayfield presided over a business meeting and a program of "Women in Medicine" was presented by Mrs. J. H. Haire and Mrs. R. K. Green. Mrs. Haire's subject was: "Dr. Elizabeth Blackwell, America's First Woman Doctor of Medicine," and Mrs. Green's was "Florence Sabin, Foremost American Scientist of This Age."

Refreshments of open-faced sandwiches, cake squares and coffee were served to the following members: Meses. Herman Rappelt, J. R. Durrett, Green, Haire, Tillman Jones, Howard Maddera, Mayfield and Ellis M. Mills.

Church of God of Prophecy reports that this church will begin a revival Feb. 17. The Rev. Prince Hartley of Anniston, Ala., will conduct the services. The Rev. Mr. West invites everyone to this revival.

Tuesday night at the Church of God of Prophecy the General Sunday School secretary and her husband, the Revs. Mr. and Mrs. Homer Rye, of Cleveland, Tenn., spoke on their recent trip to Australia and New Zealand where they have been organizing new churches. The Revs. Rye have traveled extensively abroad and in the States and were most interesting to hear.

The Rev. Roy Shaban, pastor of the First Baptist Church says, "Last Lord's Day was a wonderful day at the First Baptist Church. The attendance, especially at the morning service, was exceptionally good. The Spirit of the Lord was present. Four new members were received into the Church by transfer of letters. A large number of visitors were present. It was a good day." He further states, "At the morning service, Sunday, Feb. 10, the pastor speaks on the subject, 'The Valley of Baca.' Psalm 84:5-6. The valley of Baca is not a literal valley, but an experience or experiences on a life's journey. Valley of Baca means weeping, tears, place of sorrow. If you have experienced trouble, sickness, death in the family, reverses of any kind, this message will help you. At the evening service the subject is 'God's Great Salvation—What It Does for Us.' I Pet. 1:18-20; John 3:3; Rom. 5:1; 8:14-17. Find your way to God's House each Lord's Day for spiritual refreshing and strengthening for life's experiences."

A regular business meeting of the Baptist WMS was held in the church Tuesday, 3 p. m. Fifteen members were present.

Solis, pastor of the Baptist Church, is organizing a group of the church members was held.

IF NO ESTIMATE AND PAYMENT FILED BEFORE JAN. 15

### Garza Farmers, Ranchers Reminded Of Feb. 15 Income Tax Deadline

Feb. 15 is the income tax report deadline for farm and ranch families who did not file an estimate and payment before Jan. 15, warns County Agent Lewis C. Herron.

Farmers and ranchers should not overlook the fact that certain livestock sales made under drought conditions need not be reported in taxable income provided the animals are to be replaced within one year, says Herron. An extension of this 12-month provision may be obtained from the District Director of Internal Revenue if drought conditions continue, he adds.

The agent says all operators with a "net farm profit" of \$400 or more must file a return and pay a 3 per cent social security tax whether any farm income is due or not. Operators with less than \$400 net profit, but over \$600 gross farm income may use two-thirds of their gross income for determining self-employment tax up to \$1,200, says the agent.

Landlords are covered for self-employment benefits this year provided they "materially participate" in the farm's operations, Herron pointed out. He says "material participation" may be deter-

mined either on the basis of actual physical work or through management decisions affecting farm and ranch production.

The Farmer's 1956 Tax Guide Bulletin provides information on tax credits and other deductions allowed farm operators. It is free from your county agent or the Internal Revenue staff. Also ask your county agent about a farm record book designed for income tax and social security purposes.

### Tech President Named To Serve As Texas Heart Fund Chairman For '57

Dr. E. N. Jones, president of Texas Technological College, will serve as chairman of the Texas Heart Fund for 1957.

Announcement of the acceptance of the post by the noted educator was made by Howard Walker of Lubbock, chairman of the board, and Dr. D. D. Warren

which is available for a small charge from the Exchange Store, College Station, Tex.

of Waco, president of the Texas Heart Association. The Texas Heart Association, an affiliate of the American Heart Association, is a member agency of the Garza County Community Chest.

In accepting the chairmanship of the 1957 Texas Heart Fund, Dr. Jones pointed out that "diseases of the heart and circulation constitute the leading health problem of our times and must be

fought with every command." "These diseases for the death of 800,000 persons last year," the Texas continued, "and 1,000,000 Americans are some form of heart disorder." "It is through that every citizen given the opportunity medical science fight against these now are responsible deaths than all combined."

THE MEASURE OF CIVILIZATION

Some folks judge civilization's progress by the kind of houses they live in. Others point toward the giant strides of science or industry—or the striking advance of music, art, and literature. Yet civilization is perhaps best measured by the kind of people it produces.

THE CHURCH FOR ALL... ALL FOR THE CHURCH. The Church is the greatest factor on earth for the building of character and good citizenship.

Come in and take our **"COMFORT TEST"**

any job, from the world's most complete truck line—1/2-ton pickups to 90,000 lb. models.

The real test for driver comfort is how you feel at the end of a full day at the wheel.

That's why we invite you to come in and take our Heavy-Duty V-8 "comfort test." We think it will convince you that the new INTERNATIONAL V-8's are not only the most terrific performers on the road today—but are also easiest on the driver.

Simply take a new INTERNATIONAL V-8 out on the road. Compare it with your present truck for driving comfort, cab roominess, visibility. Note how much less downshifting you have to do—how easy it is to handle on rough roads. When you bring the truck back, see if you don't get out of the cab a lot fresher and less tired than usual!

The proof of the comfort is in the driving. Come see us soon!

**WHAT'S BRUIN?**

When bills are due and they put the "bee" on you for payment, are you stumped?

You'll never have to hibernate at bill-paying time if you have established a credit rating so good that all merchants trust you.

There's good things "brewin'" when you always pay EXACTLY as agreed . . . and YOU'LL feel better, too.

**Here's the bomb THAT BROKE THE "low-price" lineup!**

This big high-stepping Chieftain started a revolution with a carload of "firsts" and an eye-popping price tag!

The low-price field never looked like this before! The handsome husky you see right here has the boat still rocking . . . with more power, more wheelbase, more room—and more sheer pride of ownership—than ever before possible on a well-trained budget! Just look at what they're making room for now in the low-price lineup: a strapping 347 cu. in., 10 to 1 compression ratio Strato-Streak V-8 . . . a whopping, road-hugging 122 inches of wheelbase and an all-new suspension system for a Level-Line Ride that's next best thing to a magic carpet! And this streamlined beauty takes on the field with more than six dozen "firsts", all proved by 100,000 of the roughest, toughest test miles a group of facts-minded engineers could devise! If this sounds like a wonderful buy—it certainly is! Our advice is to stop dreaming and price it! At a cost less than a lot of the low-price jobs, this newcomer is making big-time buyers out of former "all-three" owners!
