Vacations are sure wonderful. Our family returned Sunday afternoon from an 11-day swing to the West Coast via Las Vegas with news tidbits from the entertainment world.

Out on the M-G-M lot in Hollywood we saw them erecting the "set" for the return of Tarzan to the screen. The new Tarzan is the good-looking ex-basketballer from UCLA. On the same lot we saw them filming a new TV show which will bring back memories to a lot of the older folks—McGee and Molly. That's all, they'll be on the video screen in fall.

For the youngsters this is to report that Disneyland is getting better and better than ever. They are getting ready to add a fifth entrance to Disneyland to go with the four now in operation. It's in the U.S.A. and will include many other things a real tented area. At Disneyland they have mountain climbers going up and swinging every hour in the tented area. As for attendance, Disneyland is averaging 30,000 youngsters a day with peak coming last July 4th when 40,000 were admitted and several hundred more turned away because the huge parking lot was full.

The "news" from Las Vegas—fabulous new "show land"—that the Tropicana has signed a contract to bring the Folies Bergere from Paris to Las Vegas at enormous cost and "oldtimers" predicting that the show may last two full years as the biggest attraction on "the strip". It will be a "Christmas present" opening in December.

Of course we were happy to find our return home that Editor "Dibway" hadn't returned yet—handed over the weekend to the West Texas Press Association's summer convention at Spring. On our hooped-desk a beautiful silver tray as the Dispatch's latest addition to display—first place trophies in West Texas this year.

DISPATCH EDITORIALS WIN PRIZE

Helen Cornish, wife of Publisher Jim Cornish of the Post Dispatch, is admiring the silver tray the newspaper received for placing first in editorial writing in the annual West Texas Newspaper Association contests in Big Spring. Farm-Business Barbecue set

The Farmers and Business Men's Barbecue—at which all farmers their families of the Post trade area are to be guests—is expected to draw between 1,500 and 2,000 to the 4-H building and grounds Saturday night, Sept. 19.

The new affair, which replaces the first bale of cotton awards, is sponsored by the Post Chamber of Commerce.

Initial plans for the big barbecue were made last Wednesday by the Chamber's board of directors and some of the working committees for the event were named Wednesday morning at a Chamber breakfast at City Hall.

George Samson and his Chamber agricultural committee are in charge of plans for the event.

All farmers and their families in the trade area are invited, and The Dispatch is being used as one media for getting the invitation out to everyone.

"It's too big a territory to get personal invitations to everybody," one Chamber director explained, "but we'll try to reach as many farm folks as possible."

The serving will start at 6 p. m. and continue "until everyone is full."

The menu is to be barbecued beef and all the trimmings — with no speaking on the program, just eating and visiting.

Matt Stetler has been named chief cook for the barbecue.

Committees named at the Wednesday planning breakfast included:

Food Committee: Leo Acker, chairman; Chant Lee, Shellee Camp, Max Gordon, Malcolm Bull, Claud Collier, Jim Cornish, Lynn Duncan, Wallace Simpson and Paul Jones.

Retail Merchants Committee: Bryan J. Williams, chairman; Dan Cockrum, Jess Michael, Irby Metcalf, Walter Johnson, Will Scarborough, R. J. Blacklock, Robert Cox, J. B. Potts, Harold Lucas, and Earl Rogers.

Wood and Cleanup: R. H. Tate, chairman; Ted Hibbs, Keith Kemp, and Dick Woods.

Pit Digging: Al Norris and D. C. Hill, Jr.

Welcome Committee: Tom Bouchier, chairman; James Minor, George Samson, Lewis Herron, and Powell Shytle.

Entertainment: John Hopkins and R. B. McAllister.

County asks extension of commodity program

Garza County Commissioners voted this week to extend the county's contract with the U. S. Department of Agriculture for surplus commodities for an additional 12 months.

The action came at the commissioners' regular August session, which opened Monday. They also set the county tax rate at 95 cents—the same as last year—raised the

County's first case of encephalitis reported

Garza County's first encephalitis case of 1959 has been reported to Dr. D. C. Williams, county health officer.

Charlie Scott, prominent farmer of the Pleasant Valley community, was transferred from Garza Memorial Hospital to Methodist Hospital in Lubbock and his illness diagnosed as encephalitis, or sleeping sickness.

Mr. Scott was reported today to be getting along satisfactorily.

Rain was spotted

Field crops are burning

Only the northeastern and eastern parts of Garza County received enough moisture from last Saturday morning's rain to realize any benefits, with the result that feed and cotton crops are continuing to burn.

Saturday morning's rains was the first since July 11. It measured between two and three inches in the Venbena community and from one and one-half to two and one-half inches in the vicinity of Calgary. Elsewhere, it was scant.

Post rain gauges showed .09 of an inch, and the rain amounted to no more or less on the caprock and in the south part of the county.

Feed and cotton crops are badly in need of rain, with some of the feed already too far gone to be helped, County Agent Lewis C. Herron said today.

The agent said cotton is holding up surprisingly well, considering the lack of moisture, and has a good fruit set.

"But we need a good rain to hold it," the agent said.

Stock water and range water continue in fair shape, although the grass is losing heavily with each continued day of dry weather.

Cafe raids result in liquor charges

Albert and Jimmy Long have been charged in county court with liquor law violations following raids Friday and Saturday on a cafe just south of Justiceburg on U. S. Highway 84.

Jimmy Long faces two charges of sale of beer, with a bond of \$750 set in each case. Albert Long has been charged twice with unlawful possession of beer for purpose of sale, with his bonds also set at \$750 on each charge.

The cafe was raided Friday by four Liquor Board agents, accompanied by Sheriff Carl Rains, Deputy Red Floyd and City Marshal Otis G. Shepherd Jr.

Three cases of beer were confiscated by the officers in Friday's raid.

On Saturday, the sheriff, his deputy and the city marshal raided the cafe a second time. The two charges against Jimmy Long were (See CAFE RAIDS on page 8)

Weather 'break' also contributes

Public response helps ease water shortage

Post's most serious water shortage threat in six years has eased—thanks to the good cooperation of local citizens and a break in the searing heat wave.

City Supt. Henry Tate reported Wednesday that the reservoir was full again at midweek and at least for the present the real threat of running out of water has passed.

But Tate pointed out that another severe heat wave and the easing of water restrictions by residents could bring on another threat in short order.

When Dispatch readers last week picked up their papers and read of the water shortage threat and the city's plea for water restrictions, they cooperated.

Daily water consumption dropped from 1,310,000 gallons last Wednesday to 1,286,000 on Thursday and down to 1,002,000 gallons Friday.

The early Saturday morning shower broke the heat wave—at

least temporarily—and water consumption dipped to 601,000 Saturday and 650,000 Sunday.

But consumption was climbing again this week. Monday water consumption was 1,041,000. Tuesday was 1,187,000. Wednesday 1,154,000 gallons were used.

Tate expressed his sincere appreciation for the cooperation of local residents in last week's water emergency.

"When the city asks citizens

here to cooperate in restricting water they always respond," he said, "just as they did last week."

He urged Dispatch readers to watch the paper each week to check on daily water consumption in case another crisis should develop.

Tate explained it is possible to put only a maximum of 1,250,000 gallons of water each 24 hours into the reservoir. When more water is being used than this a day—as it was last week—the excess water has to come from the reservoir.

The reservoir when full is 14 feet deep. In mid-week last week it was down to only six feet deep when the emergency was announced and the water restriction plea made.

Pistol Whipping case on court docket Aug. 24

The \$30,800 damage suit brought by P. E. Romo, 49-year-old farm laborer, against E. E. Wallace, area rancher, is one of seven jury civil cases on the docket for a term of 106th Judicial District civil court opening here Monday, Aug. 24.

Romo's suit, filed Jan. 10, 1959, alleges that he was pistol whipped and a head cut in an automobile collision about 9 o'clock Monday night at the intersection of Avenue N and West Main Street.

The case was on the docket for the last term of district civil court, but the court session ended before it came up for hearing.

The other suits on the docket for the coming term, all compensation cases, are as follows:

Fred Lambert vs. The Travelers Insurance Co.

Curtis Garrett vs. American Motorists Insurance Co.

Newell M. Taylor vs. Texas Employers Insurance Association.

Zula Mae Bounds vs. Liberty National Insurance Co.

John C. Harris vs. Travelers Insurance Co.

Woman is injured in auto collision

Mrs. E. M. Pettigrew was reported in satisfactory condition today in Garza Memorial Hospital after receiving three broken ribs and a head cut in an automobile collision about 9 o'clock Monday night at the intersection of Avenue N and West Main Street.

Four young people, occupants of the other automobile involved in the collision, were shaken up, but not seriously injured. They are Sue Tracey, driver of the automobile; Janet Carpenter, Wayne Hair and Scotty Pierce.

Deputy Red Floyd, one of three officers who investigated the accident, said Mrs. Pettigrew was driving north and the young people west when the collision occurred. Both automobiles were heavily damaged, the deputy said.

The other investigating officers were Sheriff Carl Rains and City Marshal Otis G. Shepherd Jr.

B&PW Club, City sponsors of clean-up at cemetery

Clean-up Week at the Terrace Cemetery, sponsored by the Business and Professional Women's Club, with the City of Post cooperating, begins today and continues through Friday, Aug. 21.

Each person is urged to join in the general clean-up campaign by

cleaning their own property at the cemetery and as much other property as possible.

"There is a great need for a permanent project of this type and the City of Post is working on such a program," said a spokesman for the B&PW Club.

The club members urge everyone to cooperate with the city in instituting a year-around clean-up program at the cemetery.

"Right now," said a club member, "the pressing need is for a general clean-up that can be followed by an organized program."

The B&PW Club is offering its assistance by furnishing transportation to and from the cemetery for volunteer workers, also by furnishing laborers and by making arrangements for future clean-up days.

Arrangements for these services, including transportation, may be made by telephoning the City Hall or B&PW Club member Willie Scarborough at phone number 487-1 or 3.

The club said the City of Post has agreed to use its equipment in cleaning roads and alleys at the cemetery and property owned by people not living here now.

"We owe it to our departed loved ones and to our community to concern ourselves with the care and upkeep of our cemetery," the club spokesman said.

The B&PW Club plans to adopt as one of its community projects the beautification of the cemetery grounds.

Miss Larn expressed her appreciation for the friendly way she has been welcomed to Post.

Bible Thoughts "WANTING MORE"

by RONNIE PARKER

In Luke 12:15 Jesus says "Take heed, and beware of covetousness; for a man's life consisteth not in the abundance of the things which he possesseth." The word covetousness as used here literally means to have a desire for more. Jesus is teaching that one should guard against a heart that is set and fixed upon the gaining of things he doesn't have.

A man's life does not depend upon the abundance of his possessions. However much you may obtain, it will not prolong your life. Jesus proved his point by giving the Parable of the Rich Fool. A fool he was because he felt that he had much goods laid up for many years and that now he could eat, drink, and be merry. This man felt that now he was ready to live; but comes the sentence "this night thy soul shall be required of thee."

Our generation needs to see the truth of this verse. Many spend their lives in quest of things they don't have, to the forgetfulness of God and Man. In a desire for more and more, men forget about eternity til the time that their goods and their lives are both taken away. Jesus says "Beware."

Q. Who is supposed to apply for War Orphans schooling, the prospective student or his living parent?
A. If the prospective student is under legal age, his parent or guardian must apply in his behalf. If he is of age, and has no known legal disability, he may apply on his own.
Q. I will be taking on-the-job training under the Korean GI Bill this fall. Is there any limit on my training wages?
A. There is no limit on how much you may earn. However, when your earnings plus your GI allowance exceed \$310 a month, VA is required by law to scale down your training allowance to bring the total within the \$310 ceiling.
Q. A friend of mine tells me that on his private company life insurance policy changing beneficiaries may require the consent of a person already named as beneficiary. Is that necessary with GI insurance?
A. No. If you wish to change the beneficiaries of your GI insurance policy, the present beneficiaries need not be notified.

other." Seriously, Henry says few complaints have been received and far more folks are complimentary of the city's efforts to clean up the town. Henry reports he has a truck, blade, loader and three-man crew out now picking up and cleaning up all stacks of grass trimmings stacked in the alleys. He asks folks with big piles of grass to call in to the city office giving their addresses and they will be picked up.
As for the conversion to covered garbage cans from the barrels, Henry hopes residents will get around to this as soon as possible. A lot of conversion still has to be done. In answer to the question of why emptied barrels are being left upside down by the garbage crew this is to keep flies out of them, as a health safety measure. Tate says if you want to keep your barrel or barrels after getting the cans, please move them back from the alley so the blade can be used to get the alleys cleaner. And if you want the cans disposed of, just phone the city office and they will be picked up and carted off.
In an effort to keep the business district cleaner, Tate has scheduled a weekly 5 p. m. Saturday last trash collection through the business district, so papers and boxes put out during the day Saturday won't be left to blow until Monday morning. He asks business men not to dump trash Saturday after 5 p. m.
Another fly spraying is planned, says Henry, and folks with bad mosquito problems should phone the city offices so that another dusting can be planned when needed.

We had an interesting phone chat yesterday with Clinton Cook, who is here with his wife and one daughter, Evelyn, visiting his parents, Mr. and Mrs. O. R. Cook, west of Post. Clinton is chief of the commodity analysis branch, fruits and vegetables division of the Foreign Agriculture Service of the U. S. Department of Agriculture. That's quite a title. Clinton has been working for the agricultural department for the last 25 years, mostly in Washington, and the family lives in Leesburg, Va. The Cooks arrived last Thursday and will leave for home tomorrow. Clinton spent six weeks in Italy last fall making a study of the Italian apple, pear and peach market, which included a detailed analysis of both production and marketing. The department furnishes trading information to U. S. exporters of fruits and vegetables and studies the major competing areas every three or four years. The Cooks' other daughter, Charlotte, 16, is due home from Europe next week after a summer trip she won as a travel award scholarship in a written examination which included an essay on NATO. The Dispatch had a story on that back in May.

State Fair slates new horse show

DALLAS—An entirely new horse show, offering a total of \$34,840 in cash premiums and featuring most of the fashionable light horse breeds in the United States, will be inaugurated at the 1959 State Fair of Texas, Oct. 9-25.
The State Fair of Texas Horse Show, as it is officially titled, will present three different series of shows, with judging scheduled almost every day of the fair.
The new attraction will bring together in one show for the first time at the State Fair such breeds as the American Saddle Horse, Tennessee Walking Horse, Thoroughbred, Standardbred and Arabian. The popular Quarter Horses, Palominos and Shetland Ponies which have been featured in previous State Fair shows will also continue to be spotlighted.
The horse show will be presented in the new modern \$2,000,000 State Fair Livestock Coliseum which will seat more than 7,000 spectators. With its adjacent stables and exercise areas, the new Coliseum is considered to be an ideal setting for such an elaborate horse show. The Coliseum will be put into use for the first time during the 1959 State Fair.
The show's opening Series I, Oct. 10-13, will feature 3 and 5-gaited horses, fine harness horses, Futurity of Texas, walking horses, road and parade horses and hunters and jumpers.

Series II, Oct. 14-18, will star the ever-popular Open Cutting Horse Contest and Quarter horse conformation and performance classes.
The third series of the horse show, Oct. 20-25, will present Shetland Ponies and Palomino and Arabian horses in halter and performance classes.
The new show is a member of the American Horse Shows Association Series I and the Arabian show of Series III will be conducted in accordance with AHSA rules.
Ray W. Wilson, the State Fair's livestock manager, is manager of the State Fair of Texas Horse Show. Douglas Mitchell of Fort Worth, longtime State Fair horse show official, will be assistant manager, and J. Glenn Turner, a vice president of the State Fair, is chairman of the Coliseum Horse Show Committee which is planning the attraction.

School will start soon; is your child ready for it?

It is just a little over two weeks before school starts. Have you given any thought to your six year old; whether he is ready for school physically, mentally and emotionally, as well as chronologically?

Mrs. Eloise Johnson, specialist in family life for the Garza County Extension Service, says that a child should not be entered in school unless he can meet certain practical tests to show that he is ready. The following tests are suggested by the White House conference on Child Health and Protection.

First of all, a child needs to know his own name and address well enough to repeat to others if necessary.

Physically, he needs to be fairly independent and well-trained. He should be able to dress and undress himself, take care of toilet needs, and eat wholesome food without assistance. If he is able to run, climb and use his hands easily in simple construction and play, he will be more at ease with other youngsters.

Check on his intellectual readiness. He should talk readily, using sentences, understand and carry out simple directions, and show a healthy curiosity and desire to experiment. It will help if he knows the names and uses of the common objects in his environment.

Health check-ups are very important. Be sure to include eye, ear, nose and throat examinations and dental check. Plan for necessary vaccinations and immunizations. Build up general health with lots of rest and nourishing foods during the short time before school starts.

School will mean a new social situation. The child will be happier if he has learned to play with other children, respects their possessions and assumes some responsibility for his own belongings.

The emotional adjustment to school is difficult for a child who is still very dependent on others, shows marked fears, temper outbursts or moodiness. If he looks forward to school as a happy

experience, and has learned to stay contentedly in another home or school for limited periods, he is ready to go.

Check safety training, too. Make certain your child knows the danger of passing automobiles, and how to walk safely on the streets or highways. He needs to realize the danger of sharp instruments, matches, electricity and machinery in motion.

There is only a little over two weeks to go, so check that beginner now and help prepare him for a happy start at school.

Intermediate guests at picnic on Tuesday

Members of the Intermediate Department of the Calvary Baptist Training Union were entertained with a picnic Tuesday evening.

Approximately 25 were present for the affair held at the first river bridge on the Spur Road.

Those taking cars and sponsoring the picnic were Mr. and Mrs. Forrest White, Mrs. Roy James, Rev. and Mrs. Graydon Howell.

The film was produced by Leiland Hayward, and directed by John Sturges from a screenplay by Peter Viertel. Hemingway's story, read by more than 13,000,000 persons in 42 languages, brought him the Nobel and Pulitzer Prizes and new world acclaim as an artist of remarkable compassion and insight into the human heart.

Featured in the cast with Tracy are a 15-year-old Cuban boy, Felipe Pazos, who has never acted before, and veteran stage, screen and television performer, Harry Bellavar.

"TODOS BIENVENIDOS"

(Church located on Northeast side of town on Spur highway)

The Ageless Tree

This mighty oak is a striking symbol to man of the majestic permanence of God's creation. Its long roots are deep within the earth; the wide, strong trunk giving support to the upper limbs and branches. How old this tree is no one can say for certain... the first settlers perhaps rested in its shade during their journey across the land. Scores of years later some man put up the fence, once taut with wire; but now rotten and sagging. The small house is now the pride of a family; but soon it too will crumble and fall. This is the way with all material things that we build. They are but passing features upon the land. The great wealth, the fame and fortune we so desperately strive for, like the fence and the house will soon turn to dust and ashes.

It is only by growing our roots deep in the faith of God that we shall be able to endure as this mighty tree. Begin now to plant the seed that will mean everlasting life. Attend the church of your choice this Sunday... and take your family.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government of society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Archaeology field trip is successful

Members of the Garza chapter of the South Plains Archaeological Society held their annual summer picnic recently, this year's trip covering areas in Cancho and Menard counties.

One of the 7 big bests Chevrolet gives you over any other car in its field

Anyone who's ever taken a Chevy over a choppy country road can tell you how lightly Chevrolet's Full Coil suspension handles rough going—and coil springs never squeak, never need grease! Try this velvet way of going for yourself. Once you do, you'll find your own way of saying what MOTOR TREND magazine puts this way: "... the smoothest, most quiet, softest riding car in its price class." But the happiest part of it all is that this Full Coil ride is just one of seven big bests—all documented by published opinions of experts and on-the-record facts and figures.

the leading low-priced three.

BEST ENGINE

Chevrolet engines have long won expert praise from virtually every automobile magazine, and, just recently, Chevrolet received the NASCAR Outstanding Achievement award for "the creation and continuing development of America's most efficient V-type engines."

BEST ECONOMY

A pair of Chevrolet sixes with Powerglide won their class in this year's Mobilgas Economy Run, topping every other full-sized car. And the winning mileage was a whopping 22.38 m.p.g.

BEST STYLE

It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE magazine, "a new high in daring styling."

BEST TRADE-IN

Any N.A.D.A. Guide Book can give you the figures on Chevy's extra value. You'll find that Chevrolet used car prices last year averaged up to \$128 higher than comparable models of the "other two." Your Chevrolet dealer will be happy to tell you about a whole host of other advantages besides these seven. Why not drop by his showroom?

BEST ROOM

Official dimensions reported to A.M.A.* show that Chevrolet sedans offer more front seat head room than all but one of the high-priced cars—more front seat hip room (by up to 5.9 inches) than the "other two" of

...dishwashing done in half the time - ELECTRICALLY!

Yes, it has been proven - by tests at Ohio State University - that an electric dishwasher does the job in half the time. And they didn't just do the dishes once - but for 30 days.

That's just one reason electric dishwashing makes sense. Some others are the fact that the dishes are out of sight - in the dishwasher - between loads - your hands stay lovelier - and so do your dishes - and the kids want to help with the dishes because the dishwasher makes it all so easy.

So, don't be a dishwasher - buy one.

ATTENTION, HUSBANDS

Your wife can spend half the time in the kitchen and be twice as happy with you for just 1/10 a day. That's Reddy's daily wage for electric dishwashing.

a first grade section. Yet to be hired is a homemaking teacher to assist Mrs. Wilma Hill. The school is allowed an extra teacher in the homemaking department for the first time this year.

The trustees accepted the bid of the Borden Company to furnish half-pints of milk to the lunch room at 5.2 cents each, which is the same price the school paid last year. There were three other bidders, each offering to furnish milk at 5.5 cents a half-pint.

William St. John, a high school teacher, was employed as a new bus driver, with still another driver to be hired.

The board voted to drop liability insurance on the school buses after Supt. R. T. Smith said he had received a letter from the Texas Education Agency advising him that it is illegal for a school district to pay for school bus liability insurance.

The board agreed to accept the offer of a driver education car from Storie Motor Co., Mercury dealer, and to rotate the car acceptance each year among the participating dealers, who include Caprock Chevrolet Co. and Tom Power Ford Co.

The trustees also agreed to sell lunches to elementary teachers for \$1 a week in return for their supervision of students using the lunch room. Last year, these teachers were not charged for their lunches. The trustees took the action after Supt. Smith pointed out that the lunch room went in the "red" by about \$1,400 during the 1958-59 school year. Free lunches were furnished about 40 teachers at a cost of \$1.75 a week throughout the school year.

Money no barrier for polio shots

Garza children and adults can get their polio shots, even if they can't afford to pay for them.

Dr. D. C. Williams, county health officer, told The Dispatch that if parents were unable to pay for the shots they had only to tell the physicians as much.

The state has made vaccine available for these cases.

Dr. Williams pointed out it was especially important for youngsters to get their polio shots with the fall term of school about to start.

He said few Garza youngsters have taken all three shots as required for protection, or the booster shot a year later.

Nazarenes name district leader

Rev. Raymond W. Hurn, pastor of the Medford, Ore., Church of the Nazarene, has been appointed superintendent of the Abilene, or Northwest Texas, district of the denomination, and assumed his new duties this week. His appointment was made by the board of five general superintendents and approved by the Abilene district advisory board. It was announced today by Dr. G. B. Williamson, of Kansas City, the general superintendent in jurisdiction. Mr. Hurn and family will move in August to Lubbock where the district parsonage will be located. He succeeds the Rev. Orville W. Jenkins, superintendent since 1950, who accepted a call to pastor the Kansas City First church. The Abilene district is one of 64 districts within the continental U. S. It comprises 23 churches, with a total of 5,300 members and a Sunday school enrollment totaling 8,700. Mr. Hurn was born in Ozark, Mo., and graduated in 1941 from Bethany Nazarene College, Bethany, Okla. He has spent the last 18 years in the Nazarene ministry serving churches at Elbert, Kan., Tulsa and Norman, Okla., Atlantic, Ga., and Medford, Ore. His father, Rev. W. H. Hurn, pastor of the Nazarene Church in Tulsa, Okla., has been a Nazarene since 1920. He has a brother, Rev. Edward Hurn, Fairbanks, Alaska, who has been in the Nazarene ministry 12 years. The new superintendent is married and has two daughters. David at Post, Texas, this 31st day of August, 1959.

At the same time, nine other Texas boys were named to participate in the Santa Fe's grant of \$2,825 to the Texas Education Agency for carrying out FFA work in Texas during 1959. The awards were announced at the Texas FFA convention in Austin in July by L. M. Olson, Santa Fe's general manager at Galveston, after certification to the railroad by George H. Hurt, Texas State FFA advisor. The boys were selected on the basis of individual West Texas winners are Bobby Longan, Clarendon; Teddy Caruth and Jarus Flowers, both of Tulsa; Charles Stenhold, Stamford; Kenneth Smith, Tahoka; and Weidman Tabor, Quanah.

Carl Talley of Route 1, Clarendon, and Carruth, of Tulsa, were named as winners of the two \$350 college scholarships granted by the Santa Fe in Texas each year. Educational awards to FFA boys are a continuing practice of the Santa Fe. All winners receive financial aid from the Texas Education Agency out of the railroad grant.

Crane County limits use of equipment

CRANE — Crane County commissioners have stopped using county equipment for dirt work, grading lots, preparing areas adjacent to streets for paving and trucking dirt to private property. The action was taken after the Crane Construction Association complained that such action placed the county in competition with private businesses.
