

# School board ruling aims at more decorous student dress

The days of blue jeans, slacks, pedal pushers, beltless levis, exposed shirt-tails and odd-ball haircuts are over at Post High School, the school board ruled Monday night.

The board took action after being told by Supt. R. T. Smith that "There isn't any question in the minds of the administrators of this school that the wearing of this type of apparel is a demoralizing factor in our school and is

not conducive to good learning." The proposal, as outlined on the agenda furnished the trustees at the opening of the session, took into consideration only "the wearing of blue jeans, slacks or pedal pushers by the high school girls," but the board members' subsequent discussion broadened it to include also the wearing of levis worn by the boys and the practice of wearing shirt-tails outside their trousers, and coming

to school with "improper" haircuts.

As finally passed by the board—six votes for and one against—the motion carried the provision that it would be permissible for the boys to wear their shirt-tails outside their trousers if the shirt was made to be worn in that manner.

During the discussion, the superintendent told the trustees that he believes the Post school to be

the only one in the West Texas Study Council—which Post joined last year—that still permits the mode of school attire at which the ruling is aimed.

The motion passed by the board applies only to the high school. The trustees agreed with the superintendent that the new policy of more decorous school dress for the high school students would automatically "catch on" with the junior high students.

Saturday is the day just about everybody who likes to bowl here has been waiting for — the day when the new 12 bowling lanes at the Post Bowling Center will be open for play. If you haven't been out to the bowling center yet you're going to be in for a pleasant surprise at the fine recreational facility which has been built for this community. It's big, new, air-conditioned and equipped with all the best that modern bowling has to offer. Post is lucky indeed to have such a bowling center. Be sure to get acquainted with Billy Miller, the bowling manager. He's not only a top notch bowler—though he claims he's gotten out of practice lately—but he's a fine fellow as well.

Scotty Samson has been one of Post's earliest water seekers—and he has been deeply interested in the White River project as the only real solution to our water problem from the very start. We like Scotty's capsule sum-up of the White River water project for the voters. "I just tell them if you want a drink of water vote for it. If you don't don't."

City Supt. Henry Tate is another who won't argue with folks about how they should vote. "I won't tell anybody how I think they should vote on the White River project or anything else," says Henry. "But if everybody looked at our water situation as I see it there wouldn't be any question of how the White River water contract election will come out Aug. 20."

The White River project's financial side is a complicated one. We urge every one of our readers to take the time to read the Chamber of Commerce series of ads in The Dispatch. They are a carefully-written and very fair presentation of our water problem. The presentation on page 3 today will give you a lot of facts on our present water situation as well as more details about the White River project. Be an informed voter. Study the problem. Take your position. Then go to the polls and vote that conviction Aug. 20 in the special city water contract election.

**GUEST SPEAKER**  
Phil Crenshaw, owner of KUKO Radio Station, will be the speaker at the 11 a. m. service at the First Baptist Church Sunday morning, in the absence of the pastor, Rev. Bill Hogue.

### Board to inspect new high school

The board of trustees of Post Independent School District will meet at 1 o'clock Monday afternoon to officially inspect the new \$338,000 high school building, they decided at Monday night's regular board meeting.

Also at Monday afternoon's special meeting, the board will set a time and make plans for a public open house at the new school building.

The trustees indicated Monday night that the open house will be held before the new school term begins on Sept. 1. It is believed that the new gymnasium will be completed before then, with the possible exception of the roll-away bleachers, and both buildings can be visited by the patrons at the

### Water situation temporarily eases as voting date nears

Good citizen cooperation and a damp cool front which moved into the area Tuesday afternoon halted Post's water situation short of the critical stage as the Saturday, Aug. 20, date neared when Post citizens will go to the polls to vote their wishes on the White River water contract.

City Supt. Henry Tate said that after The Dispatch came out last Thursday with the city's appeal for water conservation there was a quick and noticeable drop in water usage here.

"The water level in the reservoir actually went up both Friday and Saturday as the folks responded, as they always have, to our pleas to conserve water," Tate declared.

The weekend enabled the city to get the reservoir full again for what shaped up as another torrid August week when the cool front moved in with scattered moisture Tuesday night and stayed throughout Wednesday.

### Boost in water rates accepted by Postex Mills

The Postex Cotton Mills this week accepted a water rate boost, effective Sept. 1, as proposed by the City of Post that would require the mill to pay the same rate for water as any residential user after the monthly minimum.

The new Postex Mills rate will be 40 cents per thousand gallons for all water used over the 4,000 gallon monthly minimum.

This is exactly the same rate as to all residential water users. It removes, in effect, the city's commercial water rate to its major user. Postex is now paying 30 cents per thousand gallons for all over 4,000 gallons.

Postex uses approximately 37 per cent of the entire city water supply in its extensive manufacturing operations.

Mayor Powell Shytles in a letter to R. J. (Rube) Jennings, president of Postex, declared that "the city now feels that its pro-

The presentation points out how Post now pumping 36 water wells is obtaining less water today than it did pumping only 10 wells but seven years ago.

Proposed White River water rates of all four member cities are published for the first time today in the full-page presentation, although Post's rates had been released several weeks ago.

**\$250,000 recreation project**

### 12-lane bowling alley to open here Saturday

The Post Bowling Center, this community's new \$250,000 recreation project on the west edge of Post on the Tahoka highway, will open for play Saturday.

Billy Miller, crack bowler from Roswell, N. M., who recently moved to Post to manage the 12-lane center, said bowling would get under way at 9 a. m. with play continuing throughout the day and night "until the last bowler goes home."

Everything is complete and ready for play in the big air-conditioned center, Post's first bowling project, Miller told The Dispatch.

A full-page announcement on the center's opening appears on page 11 of today's Dispatch.

**HOURS ANNOUNCED**

The bowling center will open at noon Sunday, Miller said, and continue open for play that night as long as there are bowlers. Week-day hours, beginning Monday, will be from 10 a. m. daily, Monday through Friday, Miller announced.

Lanes may be reserved for play in advance by individuals or groups by phoning in reservations to the center.

Free bowling instruction for all who are interested will begin

### Scattered rains fall in county

The first rains since the early July downpours fell in Garza County early Tuesday evening and late Tuesday night, but they were spotted.

The heaviest fall reported yesterday was in parts of the Graham community. The Jess Propst and Ray McClellan farms got around 1.50 inches, and rains ranging up to almost that were reported from other farms in that area.

Measurements in the Grassland, Pleasant Valley and Southland areas averaged about .50 of an inch.

In Post, the rain gauge at County Agent Lewis Herron's home registered .20 of an inch, but a gauge farther east in Post showed .60 of an inch.

Spur, Crosbyton and Rails will be held the same day—Aug. 20. The contracts must carry in each of the four towns to make financing feasible.

Approval of the water contracts is the last major step to the receiving of \$4,000,000 in federal and state loans for construction of the dam and pipelines to the four communities.

Only residents living within the city limits as constituted on Oct. 27, 1956, when the Texas legislature created the White River water

### First Shop Night scheduled Friday

Post will inaugurate its new Chamber of Commerce-sponsored Shop Nights tomorrow night with many stores remaining open until 10 p. m. for the convenience of their customers.

Furniture stores, auto agencies, drug stores, variety stores, and some clothing stores will be among the businesses who will join the "open one night a week" effort.

Backers hope to attract area shoppers to town in family groups for the occasion.

**FOR SCHOOL BUYING**

With back to school merchandising now moving to the center of the Main Street stage—school being but little more than two weeks away—the Shop Nights will offer customers a chance to make their buying expedition a full family affair tomorrow night.

Most merchants don't pretend to know how much response the Shop

**Band rehearsal set for Tuesday night**

A full band rehearsal for students who will play in the 1960-61 Post High School band will be held at 7:30 p. m. Tuesday at the band hall, Band Director Bob Melsch has announced.

This year's eighth grade students who will play in the band are expected to attend the rehearsal.

**TIME OUT FOR A PICTURE**  
Nita Wilson, this year's Junior Rodeo queen, poses with film and TV star George Montgomery during a full in activities at Friday afternoon's special rodeo performance. Montgomery is holding the movie camera with which he shot considerable rodeo footage for a Chevy Show Spectacular. Nita, who is 13, is the daughter of Mr. and Mrs. C. R. Wilson.—[Staff Photo.]

### New Mexico pair are winners here of rodeo saddles

Two New Mexico youngsters have been named as winners of the saddles given to the best all-around cowboy and cowgirl in the 12th annual Southwestern Championship Junior Rodeo, which closed Saturday night after a four night run.

The saddle winners are 18-year-old Nancy Bain of Columbus, N. M., and 11-year-old Paul Petska of Carlsbad.

A highlight of the rodeo was the appearance of George Montgomery screen and television star, who filmed much of the action of a Chevy Show Spectacular to be released next fall or winter.

**AFTERNOON SHOW**

An afternoon performance, mainly events in which the youngest contestants performed, was held Friday afternoon so it could be

### Horse Show is Saturday

Approximately 150 horses, many of them from out-of-state, will be shown here Saturday in the 12th annual Quarter Horse Show, sponsored by the Garza County Quarter Horse Assn., Mrs. Ruth Ann Young, secretary, has announced.

The show, for which no admission charge will be made, is to

**\$400 voted for student loan fund**

Rotarians voted Tuesday at their weekly luncheon in City Hall to transfer \$400 from club funds to the Community Student Loan Fund to be used to help finance a Post student at college this year.

The club also voted to continue participation in the student loan program after hearing an explanation of the program from Leo Acker, who is chairman of the Community Student Loan Fund Committee.

At a special directors meeting following the luncheon, Rotary directors voted for the club to hold a banquet in late October honoring local teachers.

Lee Ward spoke at the luncheon on the 1960 Little League and Babe Ruth league baseball program which covered some 250 boys.

**On business buildings**

Work began this week on two major Main Street business remodelings and one of the largest new homes ever built in Post.

The second major remodeling is of the former First National Bank building. It has been leased from the bank by Giles McCrary for conversion into offices.

The old bank vault is being removed.

McCrary said office conversion plans won't be completed until after the removal of the old bank vault, a major undertaking in itself.

The new home start this week was for the residence of Mr. and Mrs. Bill Edwards in new Westhaven Addition at 1905 West Tenth Street. Containing two stories and

new partitioning, new floor, new ceiling, new front, all new lighting and refrigerated air-conditioning.

Included in the remodeling will be new partitioning, new floor, new ceiling, new front, all new lighting and refrigerated air-conditioning.

**be held in the Post Stampede Rodeo arena, with judging to begin at 9 a.m.**

Novis N. Rodgers of Snyder will judge the horses, and Ralph Dye of Odessa will be the announcer.

There will be competition in halter and reining classes, an open cutting horse contest with separate classes for juniors and seniors, and a registered cutting horse contest.

Trophies will be awarded grand and reserve champions in the stallion, mare and gelding classes and also in the cutting horse contests.

This year's show is approved by the American Quarter Horse Assn., National Cutting Horse Assn., Quarter Horse Assn. of West Texas, and Golden Spread Quarter Horse Assn.

Trophies will go to all first place winners in the halter class and ribbons will be awarded through sixth place in each class.

**Mrs. M. D. Paine buried in Post**

Mrs. M. D. Paine, 81, former Post resident, who died at 9 p. m. Saturday in Corcoran, Calif., was buried yesterday at Terrace Cemetery following funeral services at 4:30 p. m. at the Calvary Baptist Church, of which she was a member.

Mrs. Paine had been a resident of Post for 33 years before moving to Corcoran eight years ago to make her home with a daughter, Mrs. L. H. Harrison. She died at her daughter's home following an illness of several years.

She was born Jan. 9, 1899, in Montague County and moved to Post in 1919 from Denton County. Her husband died 37 years ago, and she was also preceded in death by a son.

The Rev. Graydon Howell, Calvary Baptist pastor, officiated at the funeral services and burial was under direction of Hadman Funeral Home.

Mrs. Paine is survived by four other daughters, Mrs. C. V. Smith and Mrs. Lyda Odum, both of Post, Mrs. G. E. Cahall of Albuquerque, N. M., and Mrs. E. A. McCrary of Upland, Calif.; one son, Ernest Paine, who lives in California; four sisters, Mrs. Frank Thomas and Mrs. Cara Moore, both of Duncan, Okla., and Mrs. Clemmie Moore and Mrs. L. L. Moore, both of Vallejo, Calif., and two brothers, O. L. Winger of Trup and A. Winger of Victoria.

Palbearers were Bill Williams, Jim Shipley, Dewitt Caylor, Ben Mathis, Pete Walls and Gordon Flowers.

**Two remodeling jobs under way**

Work began this week on two major Main Street business remodelings and one of the largest new homes ever built in Post.

Work also is scheduled to get under way any day on a new 23,000-bushel steel tank elevator for the Caprock Grain Company.

Dunlap's have leased the old Double U building, formerly occupied by Western Auto, from the Post estate with a complete remodeling scheduled for the ground floor plus a new front before the store is moved from its present location into the new quarters sometime this fall.

A building permit for \$15,000 for the remodeling has been issued by the city to W. D. Watson of the Seminoles Construction Co.

Included in the remodeling will

### Alton Taylor receives bank promotion

Alton Taylor has been appointed an assistant vice president at the First National Bank here. He has been an employee since 1955.

The promotion was made by the bank's board of directors. Taylor will be in charge of the bookkeeping and transit departments, and will supervise the personnel of the two departments, according to Irby G. Metcalfe, Jr., president of the bank.

Taylor, son of Mr. and Mrs. O. Taylor, is a graduate of Post High School and served two years in the Army before entering the bank's employ. He was made an assistant cashier in 1957.

### Body of drowning victim is taken to Hebbronville

The body of Jonas Sedillo Hernandez, 19, who was drowned Sunday afternoon in a ranch stock pond 13 miles northeast of Post, was transferred to Hebbronville Monday night by Hadman Funeral Home for funeral services and burial.

Hernandez, whose home was in the Caprock community, south of Post, drowned while he and a companion were swimming in a pond on the Dennis Eubank ranch.

The drowning occurred about 3 p. m. and the body was recovered in 20 feet of water after law enforcement officers and searchers had dived and dragged the pond for four hours.

**WAS POST VISITOR**

Hernandez and three Post youths whom he was visiting had gone to the pond to wash a car.

The other boys were Ruben Gonzales, 15, and his brother, Ray, 18, and their cousin, Manuel Gonzalez.

Hernandez and Manuel Gonzalez decided to go for a swim in the pond, which measures about 150 by 150 feet.

The youths said Hernandez had not suddenly began thrashing about after he was about halfway across the pond.

The boys said Hernandez went under twice, came up and yelled for help and then went under again.

**WANTS TO COME UP**

The other swimmer said he was close enough to grab for Hernandez and that he climbed onto the bank and began searching for a limb to hand his companion.

### County tax rate left unchanged

County commissioners, working on a proposed budget for the coming year, left the county tax rate unchanged at 95 cents on the \$100 valuation at a regular meeting Monday.

County Judge J. E. Parker and the commissioners are working against time to have the proposed budget ready for a public hearing on Aug. 23.

Business, such as approving and paying bills, occupied the rest of the commissioner's time at this week's meeting.

### Rattlesnake invasion continues; two slain

Post residents this week were continuing to keep an eye peeled for rattlesnakes, which probably have been more numerous here this summer than in several years.

A large rattler with nine rattles was killed Friday morning in the front yard of the Lee Thompson home in the mill village.

R. G. Wilkerson killed a three-foot rattler Tuesday at his home on East 14th.

Old-timers say the snakes are coming late town from outlying areas in search of water.

# Dispatch Editorials

## They want the people to know

The Dispatch, unlike many newspapers, does not believe in front page editorials. Our subscribers, we have found, are regular readers of our editorial page and therefore do not have to have an editorial on an important subject put right under their noses on page 1 to get them to read it.

But if we did believe in front page editorials—that's where this one would be to emphasize our all-out support of the White River dam project.

On the next page, the big Chamber of Commerce ad explains the city's present and future position when it comes to water. It all adds up simply to the fact that the White River dam project is our only logical answer and while White River water will cost more than our well water today, White River water within just a few years will be cheaper than well water. That's because well water has been growing more expensive for a number of years and will continue to do so at a rapidly increasing rate in the years ahead.

Post is indeed fortunate that four neighboring communities could realistically combine their interests into one big water project—a project too big for any one of them to afford.

The struggle has been long and hard. But the White River district has been blessed with the finest group of far-sighted and determined men we've ever seen gathered together for a common cause.

We know Post folks could go to the polls to-

morrow and vote "yes" for the White River water contract just on the recommendations of our three White River directors—Tom Bouchier, Dr. A. C. Surman, and Rube Jennings. But they, more than anyone else, don't want us to vote just on their say-so. They want all the facts out on the table top. They want the people to know the proposition and the costs involved.

In covering the White River project over the last three years and in attending dozens of directors' meetings, we have sat through discussions of all kinds on the subject of water. We have always been invited to listen to everything and to cover those meetings as we saw fit.

White River water won't be cheap water, but the project will provide all the water Post will need for at least the remainder of this century and probably much longer. It is the only known solution to the problem of an adequate water supply. Well water is costing more and more each year and its supply is steadily diminishing.

We sincerely hope water rationing doesn't come to Post before the water contract special election Aug. 20, but if it does just stop and think: This is our future with our present water supply—getting no better, only worse.

You will get to cast your ballot for the last time in support of the White River project Saturday, Aug. 20. Let's make it a slam-bang turnout and a tremendous vote in favor of the White River project—and Post's future.—JC.

## Good job of 'carrying the ball'

The Post Chamber of Commerce is to be congratulated for "carrying the ball" like professionals from the minute they got word that screen and TV star George Montgomery was interested in filming the Southwestern Championship Junior Rodeo for a nationwide TV show.

The Chamber got lots of assistance from the Post Junior Rodeo organization, especially the president of its board of adult directors, Nathan Little.

Chamber President A. Lee Ward and Manager John N. Hopkins, with assistants from other officers and members, went all out to get Montgomery here for the filming after he notified them he was interested in the Junior Rodeo.

Montgomery's appearance here called for rearrangement of some of the rodeo schedule, but that was capably taken care of by the Junior Rodeo president, the Chamber's top officers and one or two other citizens in less than an hour

after they greeted Montgomery as he stepped off the plane at the Lubbock airport.

The film and TV star's appearance here is good for the town, but the most good will come in the months ahead after he leaves Post to tell others of the hospitable reception he received here, and then again when the show he is producing hits the airways.

Post, in the last 10 years or so, has been host to an unusually large number of celebrities for a town its size. The fact that they have come here, enjoyed their stay and gone away with good impressions of the community, can be credited to our Chamber of Commerce, to other local civic organizations and to the general public. And, it hasn't taken any "false front" to impress these distinguished visitors. We've done so just by being our natural West Texas selves.—CD.

## Shop Nights program sounds good

With Saturday no longer the day it used to be in towns the size of Post, there is an excellent chance of the Chamber of Commerce's new Shop Nights program, to be inaugurated Friday night, going over big.

An overwhelming majority of the merchants favor the Shop Nights, according to a telephone poll conducted by the chairman of the Chamber's retail committee.

The program should prove profitable and convenient for merchant and customer alike and also to the community at large as a trade stimulator.

Bryan J. Williams, chairman of the Chamber's retail committee, points out that other towns have been successful with staying open

one night each week. "It might fit our needs, too," he said.

Saturday still is the big shopping day, but not as many people come to town on Saturdays nowadays as used to. The televised baseball games keep many people at home from around noon until 3 or 4 o'clock, and many of those who stay home to watch the ball game just call it a day and put off shopping until the first of the week.

The Shop Nights program beginning this Friday night is to be on a four-week trial basis to test customer acceptance. With the proper build-up and interest, the program can be made into a real trade stimulator, we believe.—CD.

## Don't miss the Quarter Horse Show

High hopes are being entertained by members of the Garza County Quarter Horse Association that the 15th annual Quarter Horse Show scheduled for Saturday will be the biggest and best one yet—and the show has been growing from year to year.

The success and number of entries in last Saturday's 3rd annual Appaloosa Horse Show, held in conjunction with the Southwestern Championship Junior Rodeo, indicates that Saturday's Quarter Horse Show will also be bigger and better than any of the previous ones.

The horse has played a big role in the history and development of this part of the United States, and still has an important part in it. The

Quarter Horse is almost a breed to itself, and West Texas is one of the Quarter Horse "hot spots" of the United States. Shows are numerous throughout the area each year and attract hundreds of entries and spectators.

The Garza County Quarter Horse Association has gone all out every year to give Post and Garza County an outstanding show, and this year is no exception. Show your appreciation of their efforts by visiting Saturday's event. It is one of the few things left for which no admission is charged, yet it is vastly superior in entertainment to many events that cost you to get in.—CD.

## Newspaper is family historian

The hometown newspaper—like the rising and setting of the sun—is a vital part of our everyday living.

A letter to the editor of the Grundy, Iowa, Register, brings this point home. It said: "You were here over 50 years ago and you will find in the files of your paper a report of my birth. Your paper also had stories when I played football in school, when I graduated and later when I got married. You have reported many anniversaries in our family, the birth of our four children, their activities in school and elsewhere.

And in late years you have reported the arrival of our grandchildren. Why, you and your paper have written and printed a life history of our family. And why shouldn't we look upon you and your paper as a member of our family?"

Yes, the local newspaper is the recorder of the life of a community—business, personal, political and national. Being a constant subscriber is a good habit to acquire because the local paper isn't self-perpetuating as is the sun. It needs your support even as the community needs its service.

## What our contemporaries are saying

Floyd County had no member of the Democratic delegation at the National Convention. Perhaps it is just as well. However, a personal point of view report would have made good listening when he or she got home, had we had a representative there. The convention, one month plains delegate, Judge L. Gribble of Wellington, reports in The Wellington Leader, "was the nearest thing to a riot" he had ever seen. "It was a plain disgrace," he told his hometown

newsmen.—The Floyd County Hesperian.

The Crosbyton Review has a problem: Does a building "burn up" or "burn down"? Recently, the problem became more serious when a dilapidated cellar roof burned, and Publisher Hubert Curry still is wondering whether the cellar burned up or burned down.—Frank P. Hill in The Lynn County News.

## THURSDAY to THURSDAY

By CHARLES DIDWAY

AGAIN THIS YEAR, 25,000 is the "magic number" as far as the Garza County cotton crop is concerned. That is the official estimate for the county, released Saturday by the Lubbock Cotton Exchange and the Plains Cotton Growers, Inc.

For the last few years, Garza's cotton yield has been "pegged" at 25,000 bales in the pre-season estimates, but it has been longer than that since the output hit the 25,000 mark. Maybe this will be the year for our cotton yield to come up to expectations . . . but it is going to take some rain within the next couple of weeks.

LAST SEASON, ON A 25,000-bale estimate, we came up almost 7,000 bales short—with an 18,037 output. Our allotted acreage this year is 39,009, and after the big July rains we stand a better chance of hitting 25,000 bales than in several years. Anyhow, here's hoping.

There are more snake stories in the main news section this week. One observer blames the snake invasion on the fact that the reptiles are coming to town in search of water. If the snakes could read, they could have learned in last week's Dispatch that water is getting about as scarce right here in town as it is in the outlying precincts.

THAT MAN UP the street says experience is something that enables you to recognize a mistake when you make it again.

With New Mexico youngsters taking home most of the championships, this year's Southwestern Championship Junior Rodeo was the biggest in history from the standpoint of number of entries and one of the biggest from the standpoint of attendance.

THE MORE THAN 300 youngsters entered in the rodeo came from all parts of the country, and the record-breaking entry list made for hours and hours of after-show competition and other extra work. Many of the rodeo officers, including President Nathan Little and Secretary Bill Mears, got very little sleep from Wednesday night through Saturday. With most of the rodeo workers, it was a case of the hands and feet keeping on working with the head saying, "It can't be done."

Congratulations to everyone concerned for a real good show!

NOW THAT THE rodeo is over, I'm looking forward to Saturday's Quarter Horse Show. The more I talk to Scotty Samson and some of the other show officials, the more I am convinced that, like the Junior Rodeo, it will be a record-breaker.

Riley Miller and his helpers also did a bang-up job on Saturday's Appaloosa Horse Show, with the entry list the biggest of any of the three Appaloosa shows held here thus far.

SOMETHING ELSE big that is coming up in the near future is open house at the new high school building. With everyone out there so busy, the public open house probably will come some time after after the opening of the new school term late this month. In other words, there'll be a big, big "open house" the day the high school students and teachers throw in for the first day of school, and then another one later on for the public.

While on location for a Western movie picture, a couple of actors were arguing about whether the traditional Indian home was called a wigwam or a tepee. Finally, to settle it, they stopped a Paiute Indian who had a bit part in the film and, pointing to the object of their debate, asked what it was. "A tent," replied the Indian.

"I KURE AM glad I learned to count," said Larry Wayne Brown of Ft. L. Post, when he learned that he had won a pair of skates for himself and a toaster for his mom in the 1959 Billy and Ruth contest. The winner, son of Mr. and Mrs. Terrell Brown, was informed of his good fortune in a letter from the toy children, Billy and Ruth, and told to report to Hoffman Hardware, Slaton, for his prize. The contest, which ran in the Billy and Ruth Book, a toy book distributed by the hardware store, consisted of counting the toys shown in a picture especially taken for the contest. Larry attends Post Grade School, where he is in the fourth grade. Some of his activities are swimming, reading and baseball—a real American boy!

## CONSCIENTIOUSLY YOURS

The prescription your doctor writes may call for numerous ingredients.

These must be compounded precisely—measured, weighed, powdered, sometimes heated, sometimes chilled and ultimately blended into a medicine.

Your pharmacist must be exactly right with his grams, cubic centimeters, percentages and other scientific guideposts.

During the process, to the exclusion of all else, we are in every way—conscientiously your servant.

# WHITE RIVER WATER IS POST'S ONLY ANSWER

## City Officials Predict Well Water Will Cost More, If Can Be Found, Within Few Years

### PRESENT SUPPLY DWINDLING

Today Post is paying more and more to obtain less and less water from its water field west of town. City officials, hoping this water supply will last until the White River project is brought into being, have warned for the last three summers of a probable water rationing and have asked cooperation of all citizens in water conservation.

For a town which used 264,180,000 gallons of water last year, this is not a happy situation.

To best illustrate the town's water field problem, in 1953 the town had 16 water wells. Only ten of them were needed to pump 1,450,000 gallons per day at the peak of the summer demand season.

Now, only seven years later, Post is pumping water from 36 wells—26 more than were needed in 1953—but can manage only 1,250,000 gallons daily from them as a maximum effort.

City wells are simply producing much less today than seven years ago. Future prospects are no better.

Take a single well for example. Put into operation in 1953, it could pump as much as 240 gallons per minute. Four years later in 1957, this well was managing but 80 gallons per minute. Today it is down to 55 gallons per minute.

### IS EXPENSIVE METHOD

The city's water and sewer department today has some \$497,000 in bonds outstanding. An estimated \$400,000 of this is Post's water debt. It is a debt on a system which each year costs more to operate and produces less.

Most of this water debt was contracted when the community purchased its water system in 1948. Each year since, city officials explain, we have spent an ever increasing amount of money in exploration for additional wells, expanding connecting pipelines in the water field system, and more water leases.

It costs between \$3,000 and \$4,000 to drill and case a single water well, install a pump and connect it to the city's gathering system.

City officials predict well water in not too many years will cost Post more than White River water—if enough well water can be obtained for the purpose.

They base this prediction on three reasons. Water wells are being depleted at a rapid rate. Expanding the city's water field in the constant search for additional water sources in-

creases the operating overhead. Finally, the city's water gathering system is now at capacity. It will need a major overhauling to move more water if that water could be found.

### WATER BECOMING HARDER, SALTIER

What's more city well water each year is gaining in mineral content which makes it more expensive in many ways for the user. For example, one well Jan. 20, 1959, had 28 parts per million of chloride, or salt. By Sept. 17 of last year the salt content had jumped to 80 parts per million. On March 31 of this year it had climbed to 95.

In contrast, tests show White River water will run from a low of 20 to a high of 39 parts per million in chloride, or salt, content.

The fluoride content of city well water today is 5.8. Fluoride helps keep teeth strong, but too much of it stains children's teeth for life. The United States Public Health Service recommends no more than 1.5 count of fluoride in water. White River water will have much less than present well water.

### OTHER WATER SOURCES CONSIDERED

In 1956 Post had engineers make a complete water survey of possible sources for study. Four new sources were considered—the Canadian River project, which just now has reached about the stage of the White River project 5 years ago, Lake Thomas, and two dam sites in the county.

Shortly after, the White River project came into being as a cooperative effort of Post, Ralls, Crosbyton and Spur. It has proved to be the quickest, the cheapest, and the most logical.

The White River project will provide Post with enough water to meet all its needs for the next 40 years, taking into account a planned rate of community growth.

### PROPOSED WHITE RIVER RATES

White River water will be delivered treated to each of the four member cities at a price of 30 cents per 1,000 gallons. Each town will pay the same.

The water rates paid by Post water customers of course will have to be higher to pay off Post's \$400,000 current water debt for example and for the operation of Post's water department.

To finance the White River project Post in its water contract will agree to purchase a minimum of 241,999,992 gallons of water annually from the White River district at a cost of 30

cents per thousand gallons or \$72,600. This is the amount of water Post actually pumped two years ago.

Spur in its water contract would agree to purchase 114,999,996 gallons annually at a cost of \$34,500; Ralls would buy 99,999,996 gallons annually for \$30,000; and Crosbyton some 110,325,000 gallons a year for \$33,097.

Proposed water rates for White River water have been worked out by fiscal experts to produce the above annual payments by each of the four member cities and continue their present water financing as it now exists. The councils of the four towns have been permitted to adjust these rates as long as the total amount of money raised was sufficient for proper financing.

Proposed White River water rates for Post would be \$4.20 minimum for the first 3,000 gallons; 75 cents per thousand for the next 7,000 gallons; and 65 cents per thousand for all water each month above 10,000 gallons.

In contrast, Crosbyton proposes a \$5 minimum for the first 3,000 gallons, 80 cents per thousand for the next 7,000 gallons, 75 cents per thousand for next 10,000 gallons, 60 cents per thousand for next 20,000 gallons, and 40 cents per thousand for all water over 40,000 gallons.

Ralls' proposed rates are \$5 minimum for first 4,000 gallons, 80 cents per thousand for next 16,000 gallons, 70 cents per thousand for next 15,000 gallons, and 60 cents per thousand for all water over 35,000.

Spur's proposed rates would be \$4.50 minimum for first 3,000 gallons, 80 cents per thousand for next 7,000 gallons, 75 cents per thousand for next 10,000 gallons, 60 cents per thousand for next 10,000 gallons, and 40 cents per thousand for all over 30,000 gallons.

It is the announced desire of the Post city council to adjust the proposed White River rates for Post as soon as enough experience with use of White River water sources is obtained to make it possible.

### VOTE YES FOR WATER CONTRACT

Post city officials have worked tirelessly from the beginning in support of the White River water project as the only logical solution to this community's rapidly growing needs for more water.

It is so recommended to you today. Go to the polls in the special city water contract election Saturday, Aug. 20, and vote YES for the White River water contract. The future of Post depends upon White River water.

# WT Pioneers, former residents to celebrate Golden Wedding

West Texas Pioneers and former Garza County residents, Mr. and Mrs. John B. Butler of Slaton will observe their Golden Wedding anniversary Sunday. Sons and daughters of the couple will host

the celebration at the Country Club House, 750 West Garza, Slaton, from 3 until 5 o'clock Sunday afternoon. Mr. and Mrs. Butler were both born in Callahan County where

their parents were neighbors. The Butler family moved to Anson in Jones County in 1897.

Mrs. Butler is the daughter of the late Mr. and Mrs. J. R. Blum. They came West in 1909, settling in Stonewall County. Mrs. Butler remembers the move in the covered wagon very well—the chickens, ducks and dog all came along as well as the herd of cattle which the older girls herded on horseback.

In reminiscing, Mr. Butler says a highlight of his life was when he helped move a printing press for Frank White to Crosbyton in the year 1908, using his brother's wagon and horses.

The couple were married Aug. 13, 1910, at Anson in the First Baptist Church parsonage with the Rev. J. H. Edmondson, pastor of the church at that time officiating.

Butler was a natural cowhand and worked on ranches until he married, then bought cattle. Their first home was a small farm and ranch four and one-half miles south of Aspermont. On Jan. 1, 1920, they moved to Post where they bought a farm and small ranch six miles north of Post.

The Butlers lived in Post until 1935, when they moved to Slaton. They are owners and operators of the Butler Monument Works, the first shop built on the South Plains which made monuments from the ground up. It was established in 1943.

Mr. and Mrs. Butler have five children. They are Mrs. J. E. Vanoy of Slaton, Mrs. D. T. Reed of Hereford, J. B. Butler Jr. of Cactus, S. G. Butler (Shug) of Cactus, and Billy Butler of Lamesa; nine grandchildren and one great-grandchild.

# About your health

A poison control center (PCC) is a place which helps family doctors keep patients from becoming statistics.

Each year a hundred or so Texans—mostly children—become statistics by virtue of being accidentally poisoned. In the last four years, State Health Department record keepers have added 364 new names to the grim list of deaths by poisoning. PCC's undoubtedly have kept the list from being much longer.

Fifteen PCC's now operate in Texas under local physicians' guidance. The most recent one was set up in San Antonio July 18. Others are located in Abilene, Austin, Corpus Christi, Dallas, Fort Worth, Galveston, Grand Prairie, Harlingen, Houston, Tyler, Wichita Falls, Odessa, San Angelo and Waco.

Hugh D. McGaw, a State Health Department occupational health engineer who works intimately with them, describes a PCC's round-the-clock operation like this:

"A curious youngster eats some of his mother's cosmetics and it makes him sick. His mother calls the doctor, but he doesn't know what toxic ingredients the cosmetic had in it. So he calls the nearest PCC, reports the brand name. A quick check of an index card file reveals the toxic substance and the antidote."

Twelve of Texas' 15 PCC's are equipped to provide emergency treatment, in addition to supplying detailed information on antidotes on a moment's notice.

McGaw says the PCC's in Texas major cities handle some 150-250 emergency calls every month. And the volume is increasing all the time, with more and more potentially hazardous products being marketed each year.

"Poison control centers are not intended to answer queries directly from the public," says McGaw. "They're set up to serve the physician who serves the patient. This is the way they can be of most benefit."

Even if the ingested product turns out to be harmless, the PCC has still saved the patient the discomfort of having his stomach pumped, McGaw points out.

He and other state health officials would like to see centers in the Panhandle, on the Southwestern border, and in far West Texas so all areas of Texas would be within an economical telephone call of a center.

The Department's division of occupational health supplies a file of information on poisonous materials and their antidotes after the center has been established.

## 20 average attendance for Adventure Week

An average attendance of 20 youths turned out each night for Christian Adventure Week, held at the First Methodist Church last week.

Eighteen members and sponsors enjoyed a campout Friday night at Black River Village and the tour of the Carlsbad Caverns in New Mexico on Saturday.

Mr. and Mrs. George Booher, Mr. and Mrs. John Schmidt, Sandy Westbrook and Sharon Jobe accompanied the group.

When you are eight years old, it is not difficult to transform yourself suddenly into an Indian scout and to see a procession of chiefs, with their brightly colored feathered headdresses, galloping across the horizon astride magnificent stallions.

Children are fired with imagination, just as they are filled with faith. The faith of a child is something so simple and so beautiful that many an adult, viewing it, finds himself crying a little, deep down inside, for his own lost childhood and the touching innocence that was once his.

Yet before God, all men are children, His children, and Faith is there to be accepted, if men will but take it as a gift. The Church has the answer, showing you how to live like a man, while still possessing the heart of a child . . . helping you to get the very most out of life. If you haven't been to church lately . . . why not go this Sunday?

### THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

signed to help teachers keep pace with the fast-changing agriculture of the state. Workshops, lectures and panels are covering subjects of wide variation, but each designed to equip participants for improved instruction in 1960-61.

In addition to educational features of the four-day conference, teachers will participate in several meetings of their own Vocational Agriculture Teachers Association. Association activities included an evening of entertainment on Tuesday, an awards breakfast Wednesday, and the annual membership meeting immediately following the awards breakfast. New officers will be elected and newly elected members of the board of directors installed during one of the several board meetings during the meeting.

Highlighting the first general session will be an address by Dr. Scott Young, representing General Motors Corp., according to George Hurt of Texas Education Agency, who will be in charge of educational features of the entire program. Many additional meetings will be held in smaller groups divided by administrative units or by subject matter preference. Tom Anderson, publisher of Farm and Ranch Magazine, was the principal speaker for the business session of the Association on Wednesday. More than 1,100 teachers and friends are attending the meeting.

## Why "take chances" with a \$1,500 investment?

This load of groceries is just one of the 52 or more carts full which the average family buys each year to the tune of about \$1,500.

An expenditure of this size merits mighty careful treatment when it comes to converting it into the family's meals.

So why risk cooking failures? A completely automatic, "kitchen-engineered" GAS Range—free standing or built-in—is your best assurance of consistent cooking success.

## I Give You Texas...

**By BOYCE HOUSE**  
To seek or not to seek the gold of Pete the Hermit? That was my problem.

Stationed in Fort Worth was a detachment of Texas Rangers and the captain was a friend of mine. So I consulted him and he said, "There's one way to find out if there really is a treasure or if it is a practical joke and that is to go out there. If you want to go, I'll go with you—and if anybody springs anything, we will see who gets surprised."

But I was working that day and then we had a spell of unfavorable weather; then the paper sent me out of town to cover the campaign of a candidate for governor and the whole matter faded from my mind.

About two years later, in clearing out my desk at the office, I came across the bulky envelope with the letter and the map. I had never received a second communication and surely I would have if the story was genuine for

the man in Philadelphia would have grown impatient and would have written to urge me to act or ask when I was going to send him his two-thirds of the \$13,000.

I walked to the city editor's desk in the center of the big news room, the better to view the logical suspects, my colleagues. My eye (actually, both eyes), but that's the way writers write) fell upon a fellow reporter, E. D. Alexander, a solemn-faced individual who was known for his practical jokes. (Incidentally, we worked side-by-side as his desk was next to mine.) Marching to his place where he was pounding away on the typewriter, I slammed the letter down and demanded, "What do you know about this?"

He looked up and said, "So you did get it!"

For two years he had wondered whether it had ever been received—but he could not ask without thereby revealing that he was the perpetrator or at least that he knew about it. We had a laugh and I told the others in the office and they were amused, too. But that was not quite the end of the story of the treasure. The office boy ("copy boy" is the newspaper term) asked for the letter and the map as souvenirs. He took them home and one day, while he was at work, an older brother came across the documents. He did not know anything about the story and was so fascinated by the details that he went out to Mary's Creek and dug all day for the \$13,000 in gold (which had never existed), belonging to the late Pete, Ranger's hermit (who had never existed, either). When the "copy boy" told him the facts that night, the man was very mad.

And that is my treasure experience.

## Virgil Stone named to committee of Farmers Home Administration

Appointment of Virgil M. Stone as a member of the Farmers Home Administration county committee was announced this week by Milton F. Wilfong, the agency's county supervisor serving Crosby and Garza counties.

Stone owns and operates a farm. He is an outstanding farmer in his community. Stone is 58 years of age and has a family consisting of wife and four children. All of children at present are married or living away from home.

Two other members make up the three member committee which works with the county supervisor to see that the best possible use is made of the agency's farm credit service program consistent with local farmers' needs. The other two members are Floyd H. Hodges, Post, and Ira Lee Duckworth, Post. Hodges will serve as committee chairman during the next, or 1961, fiscal year.

Each member is appointed for a three year term. Stone succeeds Lonnie H. Peel whose three year term expired this year.

The committee determines the eligibility of individual applicants for all types of loans. It also re-

views borrowers' progress and aids the county supervisor in adapting the agency's loan policies to conditions faced by farmers in this area. Members are selected and appointed so that, so far as possible, different areas or neighborhoods are represented.

The Farmers Home Administration makes annual or intermediate term loans to farmers who need adequate funds to buy equipment and livestock, and longer term loans to build or repair houses and other essential farm buildings, and to purchase or improve land suitable for family-type

### Postex Mills--

(Continued from page 1)  
duction cost has reached the point where we must ask Postex to accept a rate increase with the Sept. 1, 1960, billings. The water rate to the Postex Mills will now be 40 cents per thousand gallons in excess of the first 4,000 gallons.

"Mr. Jennings, I am sure you understand the city's position in regard to this matter," Mayor Shytles wrote, "inasmuch that all production and manufacturing costs have gone up at a very alarming rate and that this rate increase is justified. It is still the city's desire to cooperate with Postex Mills in any way possible in their future development and expansion."

Jennings, who is one of Post's three directors of the White River Municipal Water district and has been from the beginning of the proposed White River project, told The Dispatch that although this will mean a very sizeable increase in operating expense to his company, Postex will accept the rate increase as proposed.

"Postex Mills are well aware of the city's water problem and the rising costs involved in maintaining an adequate water supply in the face of dwindling well water supplies," Jennings said.

Proposed White River water rates for the four towns, as announced for the first time this week, are contained in a page advertisement on Post's present and future water position on page 3 of today's Dispatch.

The presentation also contains the prediction of city officials here that well water in the future will become more expensive than White River water—if enough well water can be found.

Actually, city officials are very concerned over securing enough well water for city consumption here during the time it will take to construct the White River dam and pipelines if the proposition is given the voters' final go-ahead at water contract elections Saturday, Aug. 29, in all of the four member cities.

They see the White River project as the only hope for Post for adequate future water supplies.

### Trio of minors are booked here for possession

Three minors charged with possession of alcoholic beverages are among those booked during the last few days in the office of Justice of the Peace D. C. Roberts.

Fine and costs totaling \$20.50 were assessed each of the youths.

- E. H. Lewis, speeding, Aug. 4; \$16.50.
- John R. Hernandez, drinking in public place, Aug. 6; \$24.05.
- Mattie Jackson, vagrancy, Aug. 6; \$20.50.
- Aubrey Bowdy, vagrancy, Aug. 6; \$20.50.
- Elberto Solis, drinking in public place, Aug. 6.
- J. C. Hernandez, drunk, Aug. 6; \$20.65.
- Salome Saldivar, simple assault, Aug. 6.
- James Husbands, driving over fire hose, Aug. 5.
- D. T. Clardy, drunk, Aug. 4; \$20.65.
- E. F. Kiez, reckless driving, Aug. 1; \$24.65.
- B. C. Apperson, drunk, Aug. 2; \$20.65.
- B. Smith, drunk, Aug. 2.

### Bowling--

(Continued from page 1)  
to install the new automatic pin-setting equipment.

"Installation was virtually complete today.

"We will offer a completely new and modern bowling center for the bowlers of Post and this area," Miller declared.

The center is a 75 by 135 foot building of concrete block construction with a steel-beam supported roof. Construction began here in the spring.

#### STAFF OF FIVE

The center will have a staff of five, including Billy and Patsy Miller, Allen F. Dury Jr., is the pinsetting mechanic and another employe is Jerry Kempf.

"Everybody young and old enjoys the sport of bowling," Miller said. "We want to invite everybody out to see and try our 12 bowling lanes."

Miller plans to organize men's, women's, mixed, adult-children, and children's and teenagers leagues for play through the winter by the end of the month.

With five-player teams men's leagues would have 80 bowlers each. Miller said a teenage league and children's league can be organized for Saturday morning play.

#### RENTAL SERVICE

The center will rent bowling shoes and will sell balls, bags, and shoes to those wanting to purchase their own. A nursery also is provided for small children of those bowling.

Approximately 20 persons living in Lubbock, Dallas, and Levelland own stock in the bowling center corporation. All but one Levelland man are doctors.

Dr. W. P. Evans of Lubbock is president of the corporation, Dr. Charles Nash Jr., of Lubbock, vice president, and Dr. John Beling of Lubbock, secretary.

### Shop night--

(Continued from page 1)  
such a "night open" program is going to take several weeks to establish and evaluate.

One food store plans to remain open until 10 p. m. Others plan to stay open until 8 p. m.

Williams wants to see the program carried through August to give it a fair trial. Some merchants, faced with the problem of rearranging work schedules for store employees, say they will try it "a week or two."

One thing is sure—if the customers want to shop at night and respond tomorrow night—they can have it. It's up to the shoppers.

Among local stores signifying they would be open Friday night are Dunlap's, Wacker's, Collier Drug, Hundley's Men's and Boys' Wear, Hudson Furniture Co., Hamilton Drug, Caprock Chevrolet-Olds, Casteel Studio, Forrest Lumber, Corner Grocery & Market, R. J.'s Furniture Co., TV Appliance Center, Mason's, Edwards Appliance, and Pat's Pontiac, Piggy Wiggly until 8 p. m., and K&K Food Mart until 8 p. m.

district will be eligible to vote in the special election. That means only voters in the old townsite or Westgate addition will be eligible.

Absentee balloting is in full swing at City Hall. Those who will be out of town Aug. 20 are urged to vote via the absentee route.

Question and answer brochures about the White River water contract election have been made available to all at local store counters.

#### LUBBOCK VISITOR

Richard Brown of Lubbock is spending the week with his grandparents, Mr. and Mrs. W. C. Kizer.

**THE CREASE IS MIGHTY IMPORTANT**

George Montgomery (center) is being fitted for a couple of gift hats at Hundley's Men's Store during the screen and TV star's rodeo visit to Post. Jimmy Hundley (left) is putting the right crease in the hat, while John N. Hopkins, Chamber of Commerce manager, looks on. The hat Montgomery is wearing is the one he always wears in his TV show, "Cimarron City." One of the gift hats was from the store and the other from the Chamber of Commerce.—(Staff Photo.)

### Radio manager heard by Lions

A Korean orphan he and his family are sponsoring was the subject of a talk by Phil Crenshaw, KUKO radio manager, at Tuesday night's Lions Club meeting.

The Crenshaws are contributing to the Korean child's livelihood and are helping send her to school in Korea.

Mr. and Mrs. Crenshaw have six children of their own.

Travis Thomas presided at the meeting after moving up to the presidency to replace Jack Alexander, who was inducted into the Army.

R. G. Wilkerson will be the program chairman for next Tuesday's meeting.

### Drowning--

(Continued from page 1)  
pation in an effort to aid him. Hernandez, however, failed to return to the surface again.

Ruben Gonzales drove to the Eubank home about three miles away while the other two boys stayed at the pond. Mrs. Eubank called Sheriff Carl Rains.

A large crowd gathered at the pond, many of them searchers, but most of them onlookers.

A motor boat crew composed of M. T. Rinehart, Lubbock district game warden; Lt. James A. Mason of the highway patrol, and Byron Haynie discovered the body at just about the exact spot Hernandez' companions said he had gone down.

#### THROW HOOKS USED

The searchers found the body with what Rinehart described as "throw hooks," attached to long rods. Assisting in bringing the body up and getting it out of the pond were divers Jerry Hays, Jackie Carpenter and Billy Williams.

Attempts were not made to revive Hernandez because of the length of time the body had been under water, rescuers said.

Members of a Lubbock diving club were en route to the pond and were only a few miles away from the body was recovered.

Hernandez is survived by his parents, three brothers and one sister.

### Truck taken in Denver is recovered in Post

A pick-up truck stolen July 13 in Denver, Colo., has been recovered here by the sheriff's department.

Kenneth Martin of Denver, son of the truck's owner, came after the vehicle Saturday.

Sheriff Carl Rains said the pick-up had been parked on West Main, near the Piggy Wiggly store, for three or four days before being called to the attention of the sheriff's office.

Rains said the truck had no gas or oil in it, but that it had not been damaged nor stripped.

#### TOUR CAVERNS

Mrs. Adrienne Cook and daughters, Adrienne and Nancy Jo, recently toured Carlsbad Caverns in Carlsbad, N. M.

#### SOFTBALL GAME

A Post softball team will play in Lubbock at 7:30 p. m. today in the regional tournament of District 6, according to Jackie Hays. Post's opponent will be the Moss Gardens team, with the game to be played at North Mackenzie park.

#### PRE-REGISTRATION SEY

CISCO — Pre-registration at Cisco Junior College began Monday and will continue through Sept. 5, according to E. W. Mince, dean of the college.

### July violations in big increase over last year

Proof that things are several times as busy on the law enforcement front here today as they were a year ago is seen in the sheriff's department July report filed by Sheriff Carl Rains.

Eighty-seven cases were handled through the office in July of this year as compared with five cases in the same month last year.

The 87-case total for last month included 61 drunk, 3 fighting, 7 disturbing the peace, 3 thefts, 3 driving while intoxicated, 1 forgery, 5 investigations and 2 juvenile cases.

In addition to the 87 cases handled in July, the sheriff's report shows that 17 "drifters" were moved on after being picked up here for drunkenness and other violations.

The City of Post and Garza County have added enough personnel in recent months—since Precinct 3 legalized liquor—to put on full-time night patrols, which they did not have a year ago, and also to increase police radio operating time.

### Bond set on charge aggravated assault

Sam Skeif, charged with aggravated assault, pleaded not guilty Tuesday when arraigned before County Judge J. E. Parker, and his bond was set at \$500.

Skeif is accused of a knife attack on Leander Richards at Raymond Latson's place in the northeast part of town Sunday.

Richards was not seriously injured.

**REVIVALIST**

The Rev. L. B. Kirk Jr. (above), pastor of the Wesley Methodist Church in Amarillo, will conduct a revival at the Graham Community Methodist Church, beginning Monday, Aug. 22, and continuing through Sunday, Aug. 28. Time for the daily services will be set later. Mrs. Jimmy Hutton will be in charge of the song services. The public is invited to attend.

### Abilene man opens machine shop here

Tommy Duvall, who has moved to Post from Abilene, has opened Tommy's Machine Shop and Engine Repair at 120 West Avenue 1.

He has had 18 years experience in machine shops in Abilene, Louisiana, and Utah.

Duvall plans to move his wife and four children here as soon as he can find living quarters.

### Young to direct bands at Plains

Gene Young, who graduated from McMurry College this spring, has accepted a position as band director at Plains with the Plains school system, beginning Aug. 15.

Young, son of Dr. and Mrs. E. Young, is a 1956 graduate of Post High School. He and Mrs. Young moved this weekend to their new home. She will be associated with the bank in Plains where she started work Monday as secretary to the president.

Mr. and Mrs. Young have lived in Justiceburg the past several weeks while he was employed by Bryan-Hoffman, highway construction company.

### New teacher is hired by board

The school board employed a teacher and accepted the resignations of two others at its regular August meeting Monday night.

Mrs. Floy Leonard, who has taught at Muleshoe for the last three years, was hired by the board as a teacher in the elementary school.

The board accepted the resignations of Jack Alexander, junior high school teacher, and Mrs. Lucille Foster, a fourth grade teacher.

Alexander, who was serving as president of the Post Lions Club, was inducted into the Army Monday. Mrs. Foster is resigning to move to California.

Ismalia, Egypt, will have the first popular housing—352 apartments for government workers.

# Flames destroy Hart residence

The Double U Ranch home of Mrs. J. D. Hart, 23 miles southwest of Post, was completely destroyed by fire early Friday afternoon while the family was in Post attending a special afternoon show of the Southern Championship Junior rodeo.

The fire was discovered by a neighbor who lives about one and a half miles from the Hart residence. Her daughter, after dialing the Hart children, told her that strange, crackling sounds were coming over the phone.

The neighbor picked up the receiver and after hearing the sounds described, went outside and saw the flames and smoke from the burning ranch house. She called the sheriff, but the house was burned to the ground before any attempts could be made to fight the fire.

The Harts had left shortly after 6 o'clock for the Post rodeo, where their four sons were participating in special events for a strip being made by George Montgomery, screen and television star.

The family had no idea how the fire might have started. The cause was a frame structure with

former resident of Post gets degree

UNIVERSITY PARK, N. M.—G. Taylor of Buchanan Dam, formerly of Post, was one of students at New Mexico State University who received masters degrees at NMSU's summer commencement Aug. 8.

Taylor is the son of Mrs. R. R. Thomas of Buchanan Dam. He received a Master of Science in animal husbandry.

In addition to the 35 masters degrees awarded, NMSU granted 33 bachelors degrees, two education degrees, and also the second and third Doctor of Philosophy degrees to be conferred in the history of the institution.

four rooms and bath. The Harts had lived there about 10 years. Friends and acquaintances have rallied to the assistance of the Hart family in its rehabilitation following the fire, in which not only their house, but all of their possessions were lost.

Their church in the Redwine community of Lynn County has raised several hundred dollars for the family. At Friday night's rodeo performance, funds were contributed to help the family, with George Montgomery leading it off with \$100.

## Oscar Oden, 61, former resident, buried Saturday

Oscar Oden, 61, a former Garza County resident, who died early Wednesday of last week in Modesto, Calif., was buried here at 4 p. m. Saturday after graveside rites at Terrace Cemetery.

Mr. Oden, a native of Hammon, Okla., had lived at Patterson, Calif., for about 15 years. He had been ill for the last two months.

He moved to Garza County in 1915 from Abilene and farmed 15 miles west of Post before moving away about 20 years ago. He lived in Levelland a few years before moving to California. He was a former employe of Douglas Aircraft Corp.

Mr. Oden was a member of the Methodist Church.

The Rev. Eugene Matthews, First Methodist pastor, officiated at the graveside services, and burial was under direction of Mason Funeral Home. Pallbearers were Elmer Cowdrey, Delmer Cowdrey, Fred Babb, Grover Mason, Bernard Roberts and Ray McClellan.

Mr. Oden is survived by two daughters and three grandchildren; two brothers, Alfred Oden of Post and Herschel Oden of Levelland, and two sisters, Mrs. Mollie Morris of Post and Mrs. Gertrude Ray of Sudan.

## Horseback riders make Sunday stop

A Roswell, N. M., man and his six-year-old son who are riding horseback 511 miles from their home to Dallas "just for a vacation", stopped here for church Sunday morning.

John Hawk Jr., 34, a vacuum cleaner salesman in Roswell, and his son, John Hawk III, attended the morning services of the Church of the Nazarene before climbing back into their saddles to continue their ride.

They left Roswell Monday, Aug. 1, and figure to travel some 30 miles daily. Hawk says he figures it will take about 20 days to make the trip.

The pair arrived in Lubbock

## Post men attend 14th Methodist Laymen Retreat

Three men—George Booher, W. W. (Bill) Westbrook and Dr. John E. Carter—attended the 14th annual Laymen's Retreat held Friday, Saturday and Sunday at the Northwest Texas Methodist Assembly, Ceta Canyon.

The retreat was under the auspices of the Board of Lay Activities, Northwest Texas Conference.

Those on the program included Methodist Bishop Galloway of San Antonio, Dr. Carl J. Sanders, Richmond, Va., superintendent of the Richmond District, Virginia Conference; R. H. Bond, Dyersburg, Tenn., lay leader of the Memphis Conference; Dr. E. D. Landreth, Amarillo, superintendent of the Amarillo District; Pat Thompson, Bay City, lay leader of the Texas Conference, and Oliver Bush, Abilene, manager of the Book Store at McMurtry College.

Joe T. Salem of Sudan, chairman of the Board of Lay Activities, opened the program at 8 p. m. Friday following a song service.

Saturday noon and started on toward Post after a brief rest. They reached Southland Saturday night, where they reported they slept "under the stars" by the roadside.

Up early Sunday morning, they were here by 9:30 a. m. "We sleep on the ground, but we do our eating in restaurants and cafes," Hawk told The Dispatch.

How is the 6-year-old son taking this, Hawk was asked. "Better than I am," was his reply. "His mother is worried about him. She ought to worry about me instead."

Hawk was apologetic about his appearance and that of his boy's at the church services here. "We look mighty rough," he explained.

What is Hawk doing out on a 500 mile horseback ride with his six-year-old son?

The Dispatch didn't ask him. But Hawk volunteered that he has six daughters at home.

## Kalgary church slates revival

The summer revival of the Watson Baptist Church at Kalgary will begin Sunday, Aug. 14 and continue through Sunday, Aug. 21.

The Rev. L. E. White, pastor of the Pansy Baptist Church will conduct the revival. The pianist and song leader will be secured later.

Morning services will begin at 10. Evening services start with a prayer service and booster band at 7:30 p. m., song service at 8, followed by the preaching service by Rev. White.

Pastor Rev. Shelby Bishop is inviting the public to attend.

# Antelope grid candidates are to open drills Monday

## 11 lettermen returning; opening game Sept. 2

Candidates for the 1960 edition of the Post Antelope football team will report to Coach Vernard Alexander and members of his staff Monday for the opening of grid drills.

The Antelopes' first game will be at home Friday night, Sept. 2, against the Rails Jackrabbits.

Alexander said today that there will be a two-day drills for one week beginning Monday, with one-a-day sessions due to begin the following Monday—Aug. 22.

## Post nine loses in NBC tourney

After a good start with a 5 to 0 win over Seagraves, Post's semi-pro baseball team was eliminated by the Lubbock Rangers, 11 to 0, Friday in the National Baseball Congress tournament at Lubbock.

Ernest Bridgeman Jr. was the winning pitcher in Post's victory over Seagraves.

In their loss to the Rangers, Alton Taylor was the starter and loser for the Post team, which was held to two hits.

In a consolation game Saturday, the Post team was defeated by Sweetwater, 6 to 2.

## Mrs. Atkins' father buried after funeral services in Lubbock

Mrs. Margaret Atkins, her daughter and son-in-law, Mr. and Mrs. E. E. Brown, and Virginia Therrell were in Lubbock last Friday to attend funeral services for Mrs. Atkins' father, William Edgar Foster, 81, who died at his home in Lubbock early Wednesday following a long illness.

Mrs. Atkins is owner of the Cottage Lounge here.

Mr. Foster had been a resident of Lubbock since 1928 and was in the grocery business before his retirement. He was a member of the Central Baptist Church, where the funeral services were conducted, and a past grand of the Lubbock 100F Lodge No. 689.

Burial was in Resthaven Memorial Park.

Other survivors are his wife, three daughters, two sons, two brothers, 16 grandchildren, 28 great-grandchildren and one great-great-grandchild.

Assisting Alexander with the candidates for the varsity squad will be Harold Teal, in his second year as line coach, and Gerald Loyd, who has been promoted from 7th grade coach to the high school staff. Loyd, also in his second year here, will coach the ends.

Glynn Gregg, who last year coached the 8th grade squad, will work this year with both 8th and 9th graders. He will be assisted by Richard Souter, who has replaced Pete Murray as head basketball coach.

Charles Clark, the newest addition to the coaching staff, will coach the 7th grade griders. He will be assisted by Don Watkins, new girls' basketball coach.

Alexander, Teal, Loyd and Gregg returned last week from the annual Texas Coaching School in Dallas.

The head coach said today that 11 lettermen are expected to be among the boys reporting for practice Monday morning.

The lettermen include Mike Cornell and Jimmy Minor, who have been elected as co-captains of the 1960 Antelope team.

Cornell, a two-year letterman, is being counted on to handle the center chores. Minor, also a two-year letterman, has been shifted from a guard position to the backfield, where he probably will run at fullback, Alexander said.

The other lettermen expected back are Bobby Hudman, guard; Clarence Ivie, shifted from fullback to guard; Dean Johnston, tackle; Jimmie Ivie, tackle; Harold Wayne Mason, end; Bobby Beard, end; Kenneth Williams, quarterback; Richard Ray, halfback; and Tommy Bouchier, halfback.

Also available to the squad will be a large number of boys from last year's freshman team, most of whom saw some varsity action late in the season.

### VISIT IN SNYDER

Mrs. Elva Peel and daughter, Beth, visited in Snyder Monday afternoon with her daughter and family, Mr. and Mrs. Jimmy Byrd and daughter, D'Lynn.

### WEEKEND GUESTS

Melanie and Becky Thompson spent the weekend visiting in the James Stone home with Letta, Kathy, and Mary Ann, while their parents, Mr. and Mrs. Lee Thompson are in Houston.

SOUTHWEST CONFERENCE FOOTBALL PLAY—long a Texas Tech goal—will be attained this fall by the Red Raiders, who again have the school's first All-American, center E. J. Holub, in the lineup.

## Raiders will play six home contests

LUBBOCK — If there's a home stadium advantage in football, Texas Tech's Red Raiders could spoil the Southwest Conference title chances of two teams prominently mentioned for 1960 laurels.

Baylor University, the darkhorse choice of many, will be played in Jones Stadium Oct. 15, and defending co-champion Arkansas will be met here Nov. 19. A third Southwest Conference member, Southern Methodist, is slated for the Red Raiders' homecoming Oct. 22.

## Beware of 'dog days' in August

AUSTIN — Beware of the dog days, is the warning of the director of law enforcement of the Game and Fish Commission. The hottest part of August, the so-called dog days, is on now.

"If you go into the woods or where snakes are likely to be found, be very careful," the director warned. "During these dog days snakes will strike at most anything without warning. Also be careful in handling animals, as there probably will be an increase in the rabies incidence."

Although wardens over the State report catfishing to be fairly good, few good catches of bass are reported. Most of the good fish taken are from deep water, where they move to escape the dog day heat. There also has been a heavy draw-down on most of the lakes, particularly where water is released for irrigation purposes along the coast.

"We need a good rain to fill all the lakes again," the director said. "There have been some fair rains on the range but the run-off hasn't been sufficient to keep lakes and streams filled."

### DAUGHTERS VISIT

Visiting in the home of Mr. and Mrs. J. Lee Bowen last week were their two daughters, Mr. and Mrs. Max Ward and children of Alexandria, La., and Mrs. John Sutton and children of Hobbs, N. M.

**BELLVILLE**  
During last fall and the early part of winter, petitions were in circulation and extensively signed for a new Mail Route from Hempstead to Columbus, to pass through this place. The petitions were forwarded to our Representatives in Congress, Hon. A. J. Hamilton and Hon. J. H. Reagan. What was done with the petitions or the route we are still uninformed. We see, however, by the reported speech of Hon. A. J. Hamilton, at Austin City, that he said that all he and Reagan had been able to do for Texas was to get a few Post Routes established. Wonder if this route was one of them? The people thro' this section would be glad to hear from Mr. H. on the subject.

The last intelligence from Dallas and other points of Northern Texas, informs us that the people there were still on the look-out and apprehensive of an attack from the Lincolnites. They were, however, using every precaution to avert the damage. If the Lincolnites continue to push measures, we may expect, that in time, there will grow up in the minds of the Southern people a greater hatred and detestation of Northern men who are not identified with us, than there is of the Indian savages or the Mexican.

**THE BELLVILLE COUNTRYMAN**  
The Brenham Enquirer of the 28th ult., says:  
The force engaged in grading on the W. W. Railroad is now encamped on Hog Branch, near this place, and will soon have completed the entire grade. The bridge across the Brazos river is being pushed forward with a fair prospect of being completed within six weeks. The iron for the completion of the road, we learn, has been purchased. The Brazos river is lower at this time than it has ever been known by the oldest inhabitants. At Fort Graham the water stands in holes, but has ceased flowing.

**THE LAST OF THE BUNKER HILL HEROES**  
An interesting celebration took place at Milton Mills, N. H., on the 7th instant, it being a birthday anniversary which no other community on the globe, we presume, could have observed, the subject of the commemoration himself being present.  
Ralf Farnham, a veteran of the

leborger.  
Mrs. W. A. Oden accompanied her nephew, Trust Babb of Slaton on a trip to California to visit relatives.  
Mrs. Elmer Dee Jones, Stanley, Darlene, Gary Dee and Sandy, were dinner guests Monday in the Dillard Thompson home. Afternoon visitors were Mrs. Alfred Oden, Debra, Mrs. Clarence Dunn and Janie, Mrs. Burnard Roberts and Mike Hawkins.  
Mrs. Quannah Maxey, Jane and Diane, Mrs. J. D. Green, Mrs. Lewis Sinclair and David of Abernathy were in Lubbock Monday.

Revolution on that day attained the one hundred and fourth year of his age. He is undoubtedly the only one alive of all those who took part in the battle of Bunker Hill, either on this or on the other side of the Atlantic as it is highly improbable, after the lapse of eighty-five years, that any other can be alive.

### Revival under way at Pleasant Valley church

Revival services began Sunday at the Pleasant Valley Baptist Church under the direction of Rev. C. B. Hogue, pastor of the local First Baptist Church.  
Morning services are being held daily at 10:30 o'clock and evening worship begins at 8 o'clock. Lex Roby, music and education director of Oxnard, Calif., is in charge of music.  
The revival will be closed Sunday night.

### VISIT FROM SNYDER

Mr. and Mrs. W. C. Hart and son, Kenny, and Mr. and Mrs. Rufus Hart, all of Snyder, visited with Mr. and Mrs. Boy Hart and family over the weekend and attended the rodeo Friday and Saturday nights.

## Don't Be Mad At Us

We DID NOT agree to remain open on FRIDAY until TEN.

A SHORT WHILE AGO we announced our store hours as "Open at 8:30 A.M. and Close at 5:30 P.M." We had good reason for this as we needed the extra hour for ourselves and believed that it would not necessarily minimize our services to you.

NOW IF WE REMAIN OPEN until 10 we believe we will not only defeat our purpose in having regular closing hours, but we believe also that we will be in better shape to work SATURDAY if we close regularly at 5:30 Friday.

WE DO STAY LATER ON SATURDAY.

WE DO APPRECIATE your business and enjoy filling your needs in HARDWARE from 8:30 to 5:30 each week day—later on Saturday AND

NO ONE HAS EVER BEEN REFUSED emergency service AFTER HOURS—if you will call us on the phone.

In press convention poll

# Newsman foresee Demo difficulty

West Texas publishers foresee a lot of difficulties ahead for the national Democratic ticket of John Kennedy and Lyndon Johnson, even though the vice presi-

Only 14 of the 48 thought the Democratic ticket would carry their hometowns.

Two-thirds of those taking part in the poll declared that religion will be "a major campaign issue" in their hometowns. Kennedy is a Catholic. Twenty-two saw religion as a real campaign issue, 16 did not as far as their hometowns were concerned.

As far editorially supporting the Kennedy-Johnson ticket in their newspapers, only eight of the 48 said they intended to do so.

Thirteen said they would support the Nixon-Lodge ticket, 20 declared they would editorially support neither, and five were undecided at this stage of the race.

Jim Cornish, Dispatch publisher, conducted the balloting. Mr. and Mrs. Cornish returned Saturday night from the two-day press meeting.

Cornish is a director of the association and served as chairman of the resolutions committee. The 1961 summer convention will be held at San Angelo.

**SECOND IN EDITORIALS**

dential candidate is a power in Texas politics.

They say that apparently isn't cutting much of the ice from around Kennedy's candidacy in their hometowns.

At the summer convention of the West Texas Press Association held last weekend in Pecos, 34 out of 48 publishers said in the first straw poll of the 1960 political season that the Democratic ticket of Kennedy and Johnson wouldn't carry their hometowns if the voting were conducted today.

**BENCH LEVELLING PROVES WATER SAVER**

Tommy Markham, who operates the Graham community farm shown above, is a believer in bench leveling for holding both rainfall and irrigation water. The farm is owned by Markham's father-in-law, J. A. Propst. Shown in the field is J. R. Hagin, Post Soil Conservation Service technician, who assisted in laying off the benches.

## Area farmer sold on bench levelling

Tommy Markham, who operates his father-in-law's, J. A. Propst's, farm in the Graham community, southwest of Post, is sold on the merits of bench leveling to save both rainfall and irrigation water.

Technicians of the Soil Conservation Service in Post have helped Markham in laying off the benches

in such a manner that he can work them with regular 4-row equipment.

Markham started working on a conservation irrigation system in 1954 when he installed concrete pipe. Between 1954 and 1957 he installed some 9,000 feet of concrete pipe, then started bench leveling.

The bench leveling not only stops the runoff, but it gives a much better distribution of the irrigation water.

The SCS technicians laid out the borders 32 feet apart and there are eight rows between borders. Before the benches were designed, the technicians took into consideration the intake rate of the soil and the gallons of water per minute available from the farm's irrigation wells. The wells average about 800 gallons a minute, which

will put about one and eight-tenths inches of water on one acre each hour. To equal the 7-inch rain received in July on the 162 acres bench levelled on the farm, each of the pumps on the seven wells would have to run 648 hours, or about 25 days.

The retention of the water through bench leveling makes for

a big saving in electric or fuel bills, depreciation, and other operating costs.  
Markham and his father-in-law plan to bench or field level 446 acres if they can get additional irrigation water.  
The bench leveling project is kind in the Post Work Unit of the Duck Creek Soil Conservation District.

## 450 persons being paid Garza receives \$23,774 month, Social Security

At the end of 1959, as Federal social security was starting its 25th year, old-age, survivors, and disability insurance monthly benefits were being paid in Garza County to 450 persons at the rate of \$23,774 a month, according to John G. Hutton, manager of the Lubbock Social Security District Office.

"This is an increase in number of beneficiaries of about 13 per cent since February, 1959, the last previous date for which Garza County figures are available," Hutton said.

Nationally, about 13 1/2 million persons were receiving old-age, survivors, and disability insurance monthly benefits at the end of 1959 at an annual rate of more than \$10 billion. At the close of 1940—the first year in which monthly benefits were payable—beneficiaries throughout the Nation totaled 200,000. Almost half a million disabled-worker beneficiaries and their dependents receiving benefits at a yearly rate of over \$400 million are included in the figures for 1959.

The number of wives, husbands, and children of disabled-worker beneficiaries receiving monthly benefits increased sharply in 1959. Such benefits were first payable from September, 1958. Nationally, from February to December, 1959, the number of these beneficiaries more than doubled—from 60,000 to 126,000.

Payments to a retired worker with no dependents receiving benefits averaged \$69 a month nationally at the end of last December; to a retired couple, both of whom were receiving benefits, the aver-

age payment was \$121. The average for a widow with two young children was \$169.

By contrast, Hutton recalled that when benefits first became payable in 1940, the average monthly payment to a retired worker with no dependents receiving benefits was \$22, and to a retired couple the average payment was \$35.

As social security celebrates its Silver Anniversary (the original Act was signed into law on Aug. 14, 1935) about 74 million working people are in covered employment or self-employment in the course of a year. They are building old-age, survivors, and disability protection for themselves, their dependents, and their survivors under the social security law.

For the entire State of Texas, old-age, survivors, and disability insurance payments at the end of December, 1959, were being paid to 540,833 beneficiaries at the rate of more than \$350,000,000 per year.

**Proposed CONSTITUTIONAL AMENDMENT NUMBER ONE ON THE BALLOT**

**PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1960.**

**HOUSE JOINT RESOLUTION NO. 23** proposing an amendment to Article IX of the Constitution of the State of Texas by adding thereto new Sections 2 to be known as Sections 4, 7, and 8 to provide that the Legislature may authorize the creation of Hospital Districts co-extensive with Lamar County, Hidalgo County, and County Commissioners Precinct No. 4 of Comanche County, having certain stated powers and duties and subject to certain stated limitations, providing for the making of bonds and warrants of such districts and providing for the necessary proclamation and publication of the same, and that such bonds shall be payable from said territory, five cent (5%) tax on the value of the property within the district, subject to the approval of the district.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**

Section 1. That Article IX of the Constitution of the State of Texas be, and the same is hereby, amended by adding the following Sections which shall read as follows:

"Section 2. The Legislature may by law authorize the creation of a Hospital District co-extensive with Lamar County, Hidalgo County, and County Commissioners Precinct No. 4 of Comanche County, having the powers and duties and subject to the limitations and conditions provided in Article IX, Section 2(a) of the Constitution of Texas, as it appears in the Constitution of the State of Texas, and that the maximum rate of tax that the said Lamar County Hospital District may be authorized to levy shall be twenty-five cents (25¢) per One Hundred Dollar (\$100) valuation of taxable property within the district, subject to district taxation.

"Section 7. The Legislature may by law authorize the creation of a Hospital District co-extensive with Hidalgo County, having the powers and duties and with the limitations provided in Article IX, Section 2(a) of the Constitution of Texas, as it appears in the Constitution of the State of Texas, and that the maximum rate of tax that the said Hidalgo County Hospital District may be authorized to levy shall be ten cents (10¢) per One Hundred Dollar (\$100) valuation of taxable property within the district, subject to district taxation.

"Section 8. The Legislature may by law authorize the creation of a Hospital District to be co-extensive with the County of Comanche, having the powers and duties and with the limitations provided in Article IX, Section 2(a) of the Constitution of Texas, as it appears in the Constitution of the State of Texas, and that the maximum rate of tax that the said County of Comanche Hospital District may be authorized to levy shall be ten cents (10¢) per One Hundred Dollar (\$100) valuation of taxable property within the district, subject to district taxation.

"If such District is created, it may be authorized to levy a tax on the real and personal property (75¢) on the One Hundred Dollar (\$100) valuation of taxable property within the district, subject to the approval of the district, and to provide for the making of bonds and warrants of such districts and providing for the necessary proclamation and publication of the same, and that such bonds shall be payable from said territory, five cent (5%) tax on the value of the property within the district, subject to the approval of the district.

"Section 4. The Legislature may by law authorize the creation of a Hospital District co-extensive with Lamar County, Hidalgo County, and County Commissioners Precinct No. 4 of Comanche County, having the powers and duties and with the limitations provided in Article IX, Section 2(a) of the Constitution of Texas, as it appears in the Constitution of the State of Texas, and that the maximum rate of tax that the said Lamar County Hospital District may be authorized to levy shall be twenty-five cents (25¢) per One Hundred Dollar (\$100) valuation of taxable property within the district, subject to district taxation.

"Section 7. The Legislature may by law authorize the creation of a Hospital District co-extensive with Hidalgo County, having the powers and duties and with the limitations provided in Article IX, Section 2(a) of the Constitution of Texas, as it appears in the Constitution of the State of Texas, and that the maximum rate of tax that the said Hidalgo County Hospital District may be authorized to levy shall be ten cents (10¢) per One Hundred Dollar (\$100) valuation of taxable property within the district, subject to district taxation.

Editor's Note: The following account of a trip to Plattsburgh, N. Y., was written by our long-time Plattsburgh correspondent, Will Teaff.

Back in the 1920's, there was a popular or not, I don't remember—that youngsters played on "talking machines," that something like this.

One day we rode the ferry boat across Lake Champlain over into Vermont and visited many interesting places.

Also we visited—or, rather, we saw—Ausable Chasm, another major attraction for out-of-state tourists.

Plattsburgh is the home of the 820th Air Division. Airmen and their wives and families from all over are stationed on this base.

Before we returned home, we drove over into Canada, took some moving pictures of the Canadian customs station.

We left Plattsburgh at 10:53 a. m. on a Sunday morning and arrived in Abilene at 2 p. m. Tuesday.

We had a wonderful trip and enjoyed our visit with our children, but it was good to be home on the plains, where we can see across the country for miles—Mr. and Mrs. Will Teaff.

McCullough, who has been in the Navy about 18 months, has been stationed on the USS Somers, and recently returned from waters around the Philippines, Japan and China.

He will be here until Aug. 21, after which he will report to San Diego, Calif., for reassignment.

SNYDER—An application seeking an election on a proposal for sale of alcoholic beverages for off-premises consumption only in the City of Snyder has been filed with County Clerk Dan Cotton.

The election will be the first such for Snyder. Scurry County has been dry since 1902.

RETURN FROM PECOS  
Peggy Butler returned home with her parents, Mr. and Mrs. Stanley Butler, over the weekend after spending a week in Pecos with relatives.

Mr. and Mrs. Charles Morris and Mr. and Mrs. Michie Robinson visited Sunday night with Mr. and Mrs. Maurice Fluitt and enjoyed ice cream and watermelon.

Mr. and Mrs. Boy Hart visited in Snyder Monday afternoon with Boy's mother, Mrs. H. S. Hart, who was in the Snyder hospital.

## VISIT TOURIST TOWN

Once we drove 60 miles from Plattsburgh up into the Adirondack Mountains, to a resort for tourists called Frontier Town, which is a full-sized cowboy and pioneer town where scores of people in authentic costumes portray frontier life in action.

Also we visited—or, rather, we saw—Ausable Chasm, another major attraction for out-of-state tourists.

### LIKE PLAINS

was on the last leg of our trip that we saw country that was vastly different from our Texas plains. The train ran alongside Lake Champlain. On one side the Adirondack Mountains of New York State and on the other were the Green Mountains of Vermont.

some places, it seemed one could put out a hand and reach waters of Lake Champlain, and on the other side of the mountain one could touch the mountains.

The scenery was breathtaking. Flower lovers here would be interested to know that some of the flowers we pet and humored to get to grow are growing up there—such as trumpet lilies, bouncing Betty, day lilies, and lilies and fern.
