

# Ruling of appeals court dims Garza 'drys' case

## District court's decision 'nixed'

Appeals court's decision today of the district court's decision against the Garza suit against the County Commissioners' Court to nullify the April 9 Precinct 3 election null and void.

The Seventh Court of Civil Appeals in Amarillo Monday reversed a district court decision and ruled in favor of the "wets" in the long-awaited Castro County case.

The drys based half of their suit on the Castro case arguments.

The other half of the suit apparently was tossed out of court last week by District Judge Truett who ruled in favor of the "wets" on six out of nine exceptions taken to the plaintiffs' pleadings in the suit.

Judge Smith in a letter this week to all attorneys involved—after hearing arguments on the exceptions June 10—ruled in effect that none of the pleadings of the plaintiffs were legally sufficient in their contention that the election was "illegally and fraudulently conducted."

The district judge said the plaintiffs may now amend their pleadings, but by his rulings if they do they must show by name the voters who were illegally influenced in the election by the wets and in sufficient number as to change the outcome of the election.

There appears little likelihood of amendments.

The only exceptions that the district judge ruled in favor of the "wets" were two involving constitutional questions and one general exception.

The Castro County drys have

announced they may appeal the Seventh Court of Civil Appeals' decision to the Texas Supreme Court.

But there is some likelihood that the Supreme Court will refuse to hear the case.

The highest state court did not hear the wet-dry case last year which led to the opening up of local option elections down to the precinct level. The court opinion came when it was asked to clarify its views expressed on refusing to

hear that wet-dry issue.

In Amarillo, the appeals court ruled that a 1935 constitutional amendment allows a justice precinct, city or town in any county to vote wet. Dry forces had been upheld by the Castro district court in their contention that the amendment applied only in counties which had voted dry since the amendment was adopted.

The appeals court based its opinion partially on a state supreme court ruling of last summer in a

case from Dimmit County, which was the first to open the way for local option elections in political subdivisions smaller than a county.

Written by Justice Alton B. Chapman, the decision said: "We believe the clear mandate of the Myers vs. Martinez case (the Dimmit County case) by both appellate courts, as does the specific wording of the 1935 constitutional amendment and the statute named, requires us to hold that Precinct 4 of Castro County has the legal right to an election in that precinct to determine the local option status of that precinct and that the trial court was in error in its judgment holding the contrary."

**OF NOTION TO APPEAL**

Attorney Roy Bass of Lubbock, representing the drys both in the Castro County case and in the Precinct 3 suit here in Garza County, said his clients "are of the notion to appeal to the supreme court."

The Dispatch was unsuccessful yesterday in efforts to reach Bass for comment.

The suit here in Garza County probably will await any final supreme court decision on the issue involved before it is disposed of.

**FIRST IN APPEARANCE**

The Post Dispatch won first place in appearance at the Texas Press Association convention held last weekend at Houston. Proudly displaying the first place plaque is the newest addition to The Dispatch staff, Miss Rhea Peel, a 1960 graduate of Post High School.—(Staff Photo).

## Four permits to build are issued

Four building permits, including one for a 120x24-foot addition to the Wally Supermarket, have been issued at the city hall.

The four permits are for construction estimated at a total of \$100 and increase the 1960 construction total through June 22 to \$1.11.

The store addition permit, issued to Tidmore Construction Co., 500 N. 10th St., calls for a 120x24-foot extension costing \$100. It will be used as a utility room for frozen food vaults and storage, and is to be built on the southeast corner of the building.

L. Dunlap was issued a permit for a 10x24-foot addition of frame construction to his residence at 207 West 13th. The estimated cost is \$2,400.

A permit went to Herman F. Smith for a carport and fence at his residence at 609 West 10th, costing \$400.

George M. Willson received a permit for the addition of a utility room to his residence at 908 West 10th, costing \$150.

## Post's youth program growing, club is told

County Judge J. E. Parker and Mayor Powell Shytles cited the success of this community's expanding youth program before Rotarians at their Tuesday luncheon, but added that more additions are needed.

Judge Parker stressed the co-operation being given by schools, churches, 4-H groups, scouting, summer baseball leagues for boys, and parents in the program.

He told Rotarians that few local young people are now coming before him as county judge because they have gotten into trouble.

"It's up to us," he declared, "whether we have any trouble with our young people."

**ATTEND CONFERENCES**

He pointed out that a seven-member delegation attended the governor's youth conference in Austin a few months ago and that Ronnie Parker attended the White House youth conference in Washington.

He urged club members to "boost our kids." Judge Parker said he thought if "we get away

## Tahoka rites are held for victim of auto accident

Last rites for Ernest Paul Ray, 78-year-old retired ranch worker, who was killed instantly Friday afternoon when the car in which he was riding overturned a few miles west of Post on U. S. Highway 380, were conducted at 2:30 p. m. Sunday in the First Methodist Church at Tahoka.

Highway patrolman James Johns of Lubbock said Ray's head was caught between the door and the car in the wreck, which occurred while Ray and Alfred Johnson, 73, also of Tahoka and driver of the car, were en route back to Tahoka from Post.

Johnson was dismissed after being examined at Garza Memorial Hospital here. He told the highway patrolman that he was traveling west on the highway when the car overturned once.

The car, according to the investigating officer, ran off the highway on the north side, traveled across the road and then back to the north side of the roadway, where it overturned. The car came to rest in a narrow ditch, the officer said.

Ray, a native of San Saba, had lived in Lynn County since 1905.

## Makes like cricket

Herbie Hays, son of Mr. and Mrs. Jim Hays, didn't think it was a cricket he heard in the front yard of the family home at 505 South Avenue H Monday night when he came home from a movie.

So he turned on the front porch light to take a look. It wasn't a cricket either.

Rather it was a near four-foot-long rattlesnake coiled in the front yard and "singing".

Hays killed the snake with a yard rake and shovel which were handy.

## Rattlesnake killed here

Referring to the governor's youth conference which he attended with the local delegation, the mayor said "they are numerous things we learned at Austin we can do for our youth besides athletic programs."

Rotarians first were presented the district-winning 4-H Club demonstration on lighting by Linda Payton and Lewis Horton III. The demonstration recently placed 11th among 24 entries in the state contest.

County Agent Lewis Herron introduced the young demonstration team, Mrs. Bob Smith, Garza's HDU agent, also was a guest for the program.

## Former resident buried Sunday

Funeral services were held Sunday for Mrs. Joy Lynn Dosier, 30, of Jacksboro, formerly of Post. Services were held at the Southwest Baptist Church of Jacksboro at 4 p. m.

Mrs. Dosier, daughter of Mrs. Venette Day of Post, died Friday following an illness of several months.

She is survived by her husband, Joe Dosier of Jacksboro, three sons, Benny, 12, Bobby Joe, 10, and Bernie Earl, 8, and one daughter, Von Kay, 5, of the home; her mother; one sister, Mrs. Lyd Horton of Slaton, and her grandparents, Mr. and Mrs. J. P. Day of Clifton.

**BURLINGTON OFFICIALS VISIT POSTEX COTTON MILLS**

Four Burlington Industries officials from Greenville, S. C., and Greensboro, N. C., toured Postex Cotton Mills, a Burlington Industries firm, last Thursday. They are shown above, with four Postex officials, in the weaving department. From left to right are R. J. (Rube) Jennings, Warren Stockton and Chant D. Lee, all of Postex; Jimmy Williams of Greensboro, industrial relations; Ben Campbell of Greenville, personnel; Sam Jenkins of Greenville and Jim King of Greensboro, industrial engineering, and A. Lee Ward of Postex.—(Staff Photo).

By JIM CORNISH

Down at Houston for the Texas Press Association convention last weekend we found the natives were suffering from a "drought." It hadn't rained in three whole weeks but it was so muggy that women were fainting on the street waiting for their buses.

Here at The Dispatch everybody is mighty proud of the first place trophy this newspaper won in statewide competition among all weeklies in towns up to 6,000 population for the best appearance. Editor Charlie Didway deserves most of the credit for this one as he is mighty careful with the appearance of The Dispatch in each and every issue. We're a bit prone to "get to press," but Charlie insists on taking the time to do it right even when we are behind schedule.

Bryan Williams reports the magnolia tree at the new bank is blooming. We know a lot of folks will want to stop for a closer look.

Cliff and Charlotte at Levi's Restaurant are pushing hard to get their plush new dining room, the 9K Bar, open as soon as possible. The restaurant is expanding into quarters formerly occupied by the Post Bakery. The name—9K Bar—is the restaurant's brand. We'll tell you all about the improvements they're making when they get ready to open which is going to be mighty soon.

Mr. and Mrs. Al Norris are hopeful of announcing the opening of their new Rocket Cafeteria on North Broadway by next week. Their new building is virtually complete.

**NEW C-C MEMBERS**

The Post Chamber of Commerce has gained three new members, Mrs. Joan Stewart, secretary, announce. They are: Pete's Grocery & Beer, Ducky's Drive-in, and Billy L. Hamilton.

## Hot weather adds to water shortage threat

Post came dangerously close to running out of water the first two days of this week, according to City Supt. Henry Tate.

"If it hadn't thundered Tuesday evening, we might have been out of water by the middle of the week," Tate said.

A near-record 1,309,000 gallons of water were used Monday, which was one of the hottest days of the year. Tuesday's consumption dropped to 1,160,000 gallons with cooler weather and the threat of rain changing some people's minds about watering their grass.

**RESERVOIR DROPS**

After having dropped to as low as 10 feet, the city reservoir was less than half full Wednesday morning, Tate said.

"Cooler weather may get us over the hump, but it is also going to take cooperation by the people in conserving water," the city superintendent added.

Mayor Powell Shytles yesterday seconded Tate's appeal for voluntary conservation measures on the part of the public.

**HOT WEATHER BLAMED**

"Hotter weather has boosted consumption to alarming figures," the mayor said. "We only hope we can keep up with the demand."

The mayor warned that if the city isn't able to catch up with water usage within the next week, certain restrictions on its use may have to be imposed.

Adding to the water department's woes was the knocking out of electric pumping facilities by lightning during Saturday night's brief electrical storm. Most of the damage was on REA lines servicing the pumps, Tate said.

Workmen were busy Saturday night, most of Sunday and Sunday night getting the pumping power back on, the city superintendent said.

**PRESSURE PROBLEMS**

Meanwhile, the city and water lease owners are seeking to work out engineering — mainly pumping — problems, the solution of which will increase the flow of water to the reservoir.

Mayor Shytles said an engineer is coming to Post this week to help overcome pressure problems.

The 100-degree plus weather of the last few days has been responsible for the surge of water consumption.

## Postex Cotton Mills shuts vacation period

Postex Cotton Mills will observe a week of July 2-11 as a vacation week, it was announced today by A. Lee Ward, superintendent.

The plant will close down at the end of operations on Saturday, July 1, at 7 a. m., and will resume operations on Monday, July 4, at 7 a. m.

Ward said that all eligible employees are to receive vacation pay based on length of service.

## Cotton acreage being measured

Measuring of cotton acreage on Garza County farms got under way this week after a three-day tour at the county ASC office by reporters and other field workers.

The purpose of the measuring is to determine if any farms are over-planted and whether farmers are over-planting will keep acreage acreage or plow it up to comply with their quota, according to Emmarha I. Hartel, ASC office manager.

The measuring will take from this week to complete, Mrs. Hartel said. Farmers are

asked to be present to assist the reporters when they came to measure their acreage.

The school on cotton measuring was conducted by Mrs. Hartel and Don Tatum, performance supervisor.

Tatum is in charge of a field crew of reporters composed of Vernon Alexander, John T. Brown, Ronnie Dunn, Victor Hudson Jr., Sidney Hart, Billy Thomas Ramage, Bowen Stephens and Noel White.

Leon Miller is assistant performance supervisor and is assisting in the field. Another assistant is Jerry Stone.

## 28 housing sites being considered

The regional office of the Public Housing Agency at Fort Worth is considering sites proposed here for 28 Public Housing units.

Two federal inspectors were here last weekend to look over sites proposed by the Post Public Housing Authority, a five-man board appointed last year by the city council.

According to Lee Ward, secretary of the housing authority here, the inspectors okayed two of the sites and are forwarding their recommendations to the Fort Worth office.

If approved there, surveyors will be sent here to check the property and see if it can be purchased.

The site tentatively approved for 16 units for Mexican and Negro families is reported to be off Avenue F in the southeast portion of block 52.

Two separate groups of units for white families, totaling 12 altogether, would be located in the vicinity of Third Street and Avenue F.

## W. R. McGuire dies here early today

William Ramsey McGuire, 74, former Postex Cotton Mills employee who has been bedfast since suffering a stroke Dec. 6, 1958, died at his home, 720 North Broadway, early today.

He was born Jan. 12, 1886, in Bell County and moved to Post with his family 15 years ago this September from Throckmorton. He was a farmer before moving here and working for the mill for 10 years.

Mr. McGuire was married to Miss Ena Grimes at Paducah, Tex. June 30, 1912. They would have celebrated their 48th wedding anniversary next Thursday.

He was a member of the First Methodist Church.

Mr. McGuire is survived by his wife of the home; three sons, Willie McGuire of Snyder, Robert McGuire of Midland, and Charlie Lee McGuire of Abilene; one daughter, Mrs. J. W. Clead of Murray, Tex.; 12 grandchildren, and one sister, Mrs. Ruby Lee of Pomona, Calif.

Funeral arrangements had not been completed at Dispatch press-time this morning, but the rites probably will be conducted Friday afternoon in the First Methodist Church here.

Hudman Funeral Home is in charge of arrangements.

## Early start on bad checks

Sheriff Carl Rains is justified in asking that his office not be made a collecting agency for bad checks.

Last week, the sheriff had a sizeable stack of bad checks on his desk which had been turned over to him for collection or prosecution of the check passers.

Cold checks, hot checks and forged checks come under the heading of law enforcement, of course, but it is one of those cases where an ounce of prevention not only is worth a pound of cure, but also enables the sheriff to devote his time to other law enforcement duties.

The best way to handle the bad check situation, the sheriff says, is for merchants and other businessmen to require positive identifica-

tion before cashing a check given by someone not known to them, and to use common sense in cashing checks given by people whom they know or suspect of being hot or cold check artists.

The sheriff isn't the only county or city official troubled by the periodical rash of bad checks. The county attorney and city law enforcement officers also "catch it."

This year, the bad check outbreak seems to be starting a few months earlier than usual. That may mean a heavier-than-usual outbreak during the harvest months.

Caution on the part of businessmen won't stop it altogether, of course, but it'll certainly help to slow it down.—CD.

## Hard work going by boards

We've seen it here in Post and it is evident everywhere—in these days and times we see fewer and fewer young people dedicated to a schedule of hard work. The reason is simple—we have more money or mom and pop have more.

As a result, many young people today work a five-day week (what they consider work) or maybe a five-and-a-half day week, without ever hurrying too much or worrying about the ser-

vice they are giving, or the dollars they might be missing, etc. . . .

Nothing can or will be done to harden the routine of the "post-war darlings" as of now. Money and jobs are plentiful. But we are soft, and the people of Russia are hardened and hungry and harder working. Throughout history the hungrier people have sooner or later taken over from the complacent, soft and self-satisfied. There is a lesson here, very plain to see.

## Let's hope it doesn't happen

Take it from a country boy—one far removed from the international hotspots, but who tries to keep up with what is going on—the next global war isn't going to be child's play, not by any means. Let's hope it doesn't happen.

It takes a hopelessly naive person to indoctrinate himself with the idea that the next war will be fought along the same lines as the last one. There'll be no resemblance.

Before you jump to the conclusion that we've been watching too many science-fiction plays on TV, let us assure you that we have not, but that

we've seen one or two superbly presented dramas having to do with the next war and its aftermath that every person would have done well to watch—and heed. We'll grant you that these plays were far-fetched in spots, but basically they presented a warning—whether intentional or not—that we'd do well to heed.

This is the atomic age, remember, and the next global war isn't going to be fought by horse and buggy methods, nor even by Model T nor Model A methods. It is going to be one that staggers the imagination even trying to think what it will be like.—CD.

## How will it finally work out

If the new Texas Election Law hadn't changed things, right now the political candidates would be heading down the home stretch toward the first primary election. As it is, both the first and second primaries have been held and it is nearly five months until the general election in November.

We've heard arguments from both sides as to whether or not setting up the primary elections by something like two and a half months was a wise thing to do. In the final analysis, it'll more than likely turn out that it was.

For one thing, the change got the primary elections out of way before the heat of mid-summer. It also affords party leaders throughout the state more time to marshal forces for the up-

coming national conventions and presidential campaigns, which, however, come along only once every four years.

The earlier primary election dates cut down considerably on the size of the absentee vote, which saved county clerks and election officials throughout the state considerable time. When the primaries were held in July and August, many voters were away on vacation trips, and most school teachers also found it necessary to vote absentee.

We'll probably have to wait until well after the general election and then take a backward look at how things turned out before being able to say whether it was better to hold the primaries in May and June, as this year, or in July and August, as in the past.—CD.

## Let's guard against rabies

Skunks are obnoxious in any form, but when they're rabid they're not only obnoxious, but endanger human lives.

Last week, an apparently rabid skunk was killed by members of the John Cook family, right up in the residential district.

Skunks probably carry rabies more than any other animal, but they're not as likely to transmit it to humans as are dogs and other domes-

tic animals. But when a rabid skunk invades the residential district there is a likelihood of its biting and infecting a household pet.

All of which brings up the importance of everyone having their pets vaccinated against rabies. It is fast approaching that time of year—often referred to as "dog days"—when the horrible disease of rabies poses a threat to a community. Let's guard against it.—CD.

## What our contemporaries are saying

Splinters on the ladder of success are much sharper on the way down.—James Roberts in The Andrews County News.

Now and then somebody ventures the remark that television has replaced reading. If you'll study their features closely, you will generally discover they're the same persons who, before television was invented, said they didn't have time to read. They're generally harmless, gentle souls who can't understand why any fool would struggle through "Dr. Zhivago" or "Bonjour tristesse" when he could prop himself up in front of the one-eyed monster and sit hypnotized through the adventures of Johnny Ringo or Huckleberry Hound.—Pat Bennett in The Crosbyton Review.

By the thinnest of margins, the county library proposal squeaked by in Saturday's referendum vote. The idea of a county library, or perhaps a tax to finance a library, is apparently offensive to quite a few citizens. Or maybe it's just that they've already got a book. One alarmed taxpayer said that the proposed 12 cents per \$100 tax would cost someone with \$100,000 property valuation \$120 a year. This is true. However, a check at the tax assessor's office reveals that there is only one \$100,000 valuation in Crosby County—the Santa Fe Railroad's. Most property on the county tax rolls is valued at about a fifth of its actual value, so it taken quite a pile to amount to \$100,000. The idea of a library also is not resisted at Rails, where the proposal was soundly defeated. We have a solution for them, too. Just put libraries at Lorenzo and Crosbyton.

That way, Rails will not be exposed to the nasty thing, and everybody will be happy.—Joe Brown in The Lorenzo Tribune.

Man continues his quest for miracles without fully evaluating the power of the soil that grows a luscious fruit beside a poisonous weed. Both are nourished from the same substance and both receive the same sunlight and rain. Goodness and evil are akin in as much as both must be conceived in the heart before they are shaped into vehicles of destiny.—Douglas Meador in Matador Tribune.

One wonders if Nikita Khrushchev's influence will be felt in the coming presidential election. Will the people of this country want their next President to try to appease the Russian dictator in order to avoid any chances of war or will they want him to stand firm and resolute against the Communists' tactics? Mr. Khrushchev has already expressed his displeasure with the current President and belittled the Vice-President. Will the average voter look favorably upon the man who appears to get along with the Communists or will Khrushchev's bluntness and vilification turn the voters in favor of those whom he curses? It is altogether possible that the Russian dictator may have some influence in the presidential race and it may be that this was his aim from the start. We are glad to see that our own Lyndon B. Johnson has taken a firm, resolute stand against appeasement of the Russians in any form, and that he is not trying to make a political football of the U2 incident.—Edgar Hays in The Lockney Beacon.

## THURSDAY to THURSDAY

By CHARLES DIDWAY

ALL THE FLAGS were out here on Flag Day last week, but the 48-star banners alighted our two newest states — Alaska and Hawaii. It was simply a case of none of the new flags having been purchased here, and there was nothing improper about it. There were only two firm rules for display of this 1960 Flag Day—the flag should be in reasonably good condition and without a 50th star.

The 50th star for Hawaii will be added officially July 4. Until then it is improper to display the new flag. The 49th star Alaska became official July 4, 1959.

EVEN AFTER THE 50-star flag becomes official, most agencies of the federal government will continue to display 48-star and 49-star flags so long as they remain in good condition and until present supplies of unused flags are exhausted.

Any way you look at it, the 48-star flags waving here on Flag Day were better than no flags at all—which was the case at most places on Memorial Day.

NEARLY TWO MONTHS remain before the Post Antelope football squad will open drills for the 1960 season, but the newly-elected cheerleaders are already "on the ball." A couple of weeks ago, they had the student football tags printed here at The Dispatch office. The coming season's tags read as follows:

- Skin the Jackrabbits (Ralls).
- Wallop the Wolves (Colorado City).
- Detail the Pups (Spur).
- Beat the Bearcats (Ballinger).
- Whip the Whirlwinds (Floydada).
- De-wing the Hornets (Tulia).
- Baffle the Buffaloes (Stanton).
- Corral the Mustangs (Denver City).
- Butcher the Bulldogs (Tahoka).
- Tease the Tigers (Slaton).

For an Antelope squad that lost heavily by graduation, the above assignments appear next to impossible, but it helps to know that we have such school-spirited cheerleaders.

NOW THAT THE primary elections are over, I've got to get around to the task of getting all this year's candidate cards out from under the glass top of my desk.

Who are we adults to belittle the teen-agers for wanting to ride everywhere they go instead of walk? Every time some new business or public office comes up with the announcement of a drive-in window, we hail it as a real mark of progress. The new bank's drive-in window was one of its most interesting attractions, and many are saying, "Now that's a good idea." After reading that the remodeled city hall will have a drive-in window for the convenience of those paying their water bills. Even some post offices are coming up with a curb service mail window for motorists, and two or three of the package stores here have drive-in windows for the convenience of their customers. Most of the teen-agers who just don't want to do any more walking than is absolutely necessary are merely following the example being set by their elders.

AS MY FRIEND up the street says, making a great sacrifice these days means doing without things our parents never had.

It's full - fledged family reunion time now that summer has arrived. Many of them are being held here every weekend, and many Post folks are going out of town for some of those held elsewhere. It's nice to have that family tie and meet annually. The reunions remind me of that old saying, "If you and your folks love me and my folks love me and my folks love you and your folks, there never were folks since folks were folks that love folks like me and my folks love you and your folks."

WOULDN'T IT BE nice if nations got along like that?

The Independent telephone industry was composed of 3,360 companies serving 10,760 exchanges at the end of 1959.

There were 70,885,000 telephones in the U. S. served by the Independent and Bell Telephones at the end of 1959.

The country's population increased 36 per cent from 1935 to 1959, while the number of telephones served by the Independent telephone companies soared 239 per cent, from 3,185,000 to 10,765,000.

Independent (non-Bell) telephone companies employed 400,000 persons at the end of 1959.

The first dial telephone exchange was established at La Porte, Ind., in 1892.

Switzerland officially uses four languages: German, French, Italian and Romansh. The latter is an Alpine dialect.

### THE LAMP IN THE WINDOW

Symbolic of the earlier days of American pharmacy was the lighted lamp in the drugstore window. All through the night it glowed, a beacon of hope, a symbol of unselfish service. Although the historic lamp is now practically extinct, the fundamentals of pharmaceutical practice have changed but little. The responsibilities of the pharmacist are greater today than ever before — he is a vital factor in medical care. Your patronage is invited.

## Andrews to vote on liquor July 9

ANDREWS — Andrews County commissioners' court has set July 9 as the date of a local option liquor election here. A petition signed by 341 residents was presented to County Clerk Sam M. Smith.

Issue in the election is the legal sale of all alcoholic beverages on off-premise consumption only. An earlier petition failed in late March.

The petitions have stipulated that the election be called in Precinct 4, which after redistricting this year, now contains 99 per cent of county voters.

IN CHINA, IT'S TEA AND PHILOSOPHY.  
IN JAPAN, IT'S TEA AND SUKIYAKI.  
WHILE LONG AGO, ORIENTAL PHILOSOPHERS DRIBBED TEA THE "CRINK OF SERENITY," IN COLONIAL AMERICA IT WAS TEA AND TAXES THAT PRECIPITATED A WAR FOR INDEPENDENCE...

...BUT IN MODERN AMERICA, TEA IS BEING REDISCOVERED AS A MARVELOUSLY REFRESHING DRINK MADE IN THE MODERN WAY WITH 100% PURE INSTANT TEA. JUST STIR A ROUNDUP TEASPOON OF INSTANT TEA INTO A GLASS OF COLD TAP WATER, ADD ICE, LEMON AND SUGAR... A COOLING AMBER-CLEAR ICED TEA IS READY TO DRINK!

## Intensive farming on fewer acres sometimes leads to more profits

COLLEGE STATION — Texans take pride in the size of their farming operations. Sometimes they overlook the fact that large operations also may be inefficient — that more profit often can be obtained by more intensive farming methods practiced on fewer acres.

This is particularly true with vegetable crops, says Dr. H. C. Mohr, associate professor of horticulture, Texas A & M College System. For example, cabbage, when grown in twin rows on the bed, gives yields about double those of single rows on the bed. Very little additional fertilizer and irrigation are required. Cultivation is the same and labor for thinning and harvesting is much more efficient than on the single row. Thus the yield is doubled at much less than double the production cost. The difference, Mohr points out, is additional profit.

Failure of more efficient methods (or of improved hybrids or varieties)

to make more money for growers has been related to failure to adjust acreage. Vegetables are very responsive to the supply-demand situation. If more efficient practices are used, without proportionate adjustment of acreage, excessive supplies usually result in severe price declines, and the grower may make less than he did before he used the new practices (or varieties).  
When a new practice is undertaken, the grower should try to produce the same quantity of the crop as before, but on fewer acres, Mohr emphasizes. In this way the market will not be glutted, and the grower can realize additional profit from his improved efficiency. Of course he will then have to decide how to use the acres he no longer needs for a particular crop.

Spending for hospital services during 1960 is expected to total some \$6 billion, according to the Health Insurance Institute.

## Excessive speed cause of most rural accidents

AUSTIN — "Excessive speed was the principal cause-factor in 53 per cent of every rural fatal traffic accident in Texas during 1959."

J. O. Musick, general manager of the Texas Safety Association, stated this fact today as he sought public support for the Slow Down and Live program being conducted throughout the state between now and Labor Day.  
"Excessive speed does not necessarily mean violating a speed law," Musick said. "But, is driving at any speed which is too fast for conditions—such as may exist because of heavy traffic, rain storms, a mechanically poor car, etc."

The safety expert said that one of the objectives of the Slow Down and Live campaign is to encourage people to maintain an even and prudent speed that will reduce congestion and danger by an even flow of traffic.

He said that this calls for the elimination of any speed—too fast or too slow—that disrupts the orderly movement of traffic.  
"It is important the public realize the dangers of improper speed, understand the speed laws, the meaning of speed signs and, above all, how to adjust their speeds to conditions of driver, vehicle, weather and roadway," Musick said. "A bit of common sense goes a long way in traffic safety. Every driver on the road must accept his responsibility and remember to drive safely."

The number of telephones in the U. S. served by the Independent (non-Bell) telephone companies increased 600,200 during 1959, bringing the total Independent telephones in the U. S. to 10,785,000.

Car and truck drivers in the United States currently travel about 700 billion miles annually, according to the Automobile Manufacturers Association.

The Haitian Government, in Port-au-Prince, made it clear that it will create a monopoly on all vegetable oils.

# Mr. and Mrs. Preston Mathis celebrate silver anniversary

Decorations depicted a white and pink theme for the silver wedding anniversary open house Sunday afternoon in honor of Mr. and Mrs. Preston Mathis, at their home at 613 West 10th Street. Arrangements of pink and white rosebuds and pink gladioli were used throughout the entertaining.

Receiving guests were Mr. and Mrs. Mathis, their daughter and son-in-law, Mr. and Mrs. Tom Leake of Tulsa, Okla., and her sister, Mrs. L. S. McCrary of Amarillo. Mrs. Mathis and Mrs. Leake wore brown orchid corsages and Mrs. McCrary wore a pink corsage.

Miss Becky Richardson, niece of Mrs. Mathis, registered 94 guests during the calling hours of 2 until 4 o'clock. Guests signed a silver book accented with streamers and wedding bells and set on a table decorated in pink lace and white rosebuds.

The serving table was laid in pink net over pink cotton and was caught up in tiers with tiny rosebuds, silver wedding rings and streamers. Silver wedding rings with the couple's names "Faye and Preston" extended from the centerpiece of white and pink roses and pink gladioli. Crystal appointments were used. Mrs. L. J. Richardson of Brownfield, and Mrs. Giles Dalby of Lubbock served the three-tier cake and punch.

Special guests for the 25th anniversary were Mr. and Mrs. W. H. Kenley of Tahoka, who were the couple's attendants at their wedding.

Members of the house party were Mrs. Don Curl, Mrs. C. W. Terry, Mrs. Robert Cox, Mrs. Guy Floyd, Mrs. Reese Bivens, Mrs. Giles Dalby of Lubbock, Mrs. Jack Harless, Mrs. Joe Gibson of Stanton, Mrs. W. H. Kenley of Tahoka, Mrs. L. J. Richardson of Brownfield, Miss Willie Vaughan, Miss Sue Stephens and Miss Becky Richardson of Brownfield. They wore corsages of pink and white

Assisting with hospitalities were Floy Richardson, brother of Mrs. Mathis, W. H. Kenley and Robert Cox. They wore white boutonnières.

Present for the event were Mrs. Willie Richardson and Mrs. E. B. Mathis, mothers of the couple.

Recorded organ selections were

played during the calling hours. Guests called from Lubbock, Brownfield, Staton, Tahoka, Amarillo and Post.

"The Lord shall be to thee an everlasting light"

The flash bulb is bright, but gone in an instant... the photo flood light may serve brightly for 6 hours, and the house light may work for weeks or months. Light bulbs of all kinds... have their limitations on wattage and hours to serve... But the Lord's light is forever. Attend Church Sunday and let God... "bring forth thy righteousness as the light."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

"The Lord is my light and my salvation." Psalm 27:1

# I Give You Texas . . .

By **BOYCE HOUSE**

William Jennings Bryan, in his presidential race of 1896, was depicted for his advocacy of "free silver" but, oddly enough, his opponent was little different from which his successful opponent, William McKinley, had held long before.

McKinley's reversal is amusingly depicted in Oscar Ameringer's "If You Don't Weaken" (Hennrich and Company). As a member of the band which welcomed delegations who came to Canton, Ohio, to pledge their support for the Republican candidate, Ameringer heard the speeches which McKinley made in his "front porch" campaign.

On each occasion, the advocate of the gold standard would propose a silver dollar from his pocket and say, "My fellow citizens, the opposition will tell you that this silver dollar represents 100 cents of American currency. Yet the same amount of silver contained in this dollar I can put in my hand and will only purchase fifty-three cents' worth of goods in our sister republic."

Retired teacher and brother are moving

Mrs. Marjorie Lackey and her husband, Mr. L. H. Mullins, left last week to make their new home in Fort Worth.

Lackey retired from teaching this year. She had been a member of the Post school faculty several years. Their present home will be 1000 West Hammett street, and their plans include building a new home in the future.

## MAKES STRICKEN DAUGHTER'S LIFE BRIGHTER

### Father of young polio victim named Baptist Father of Year

A San Antonio Baptist leader who has invented an array of mechanical devices to brighten a paralyzed daughter's life has been named 1960 Texas Baptist Father of the Year.

The Rev. Cecil A. Ray, superintendent of missions for the San Antonio Baptist Association, will receive the award during a presentation at the San Antonio Pastors' Conference June 20. Dr. E. S. James, editor of the Baptist Standard, state denominational newspaper, will present the award.

Working nights, the 35-year-old minister has built a unique motor chair, three iron lungs, chest respirators, rocking beds, mechanical desks and assorted other chairs and bathing equipment.

His daughter, 12-year-old Susan Ray, deftly drives the Ray-designed motor chair around the house by using sensitive switches at her fingertips and toes. She has been able to move only her hands and toes slightly since a critical polio attack in 1952.

Using a specially designed desk, Susan can write and is now learning to paint. By tilting her head from side to side, Susan touches delicate switches that move the desk before her slingsupported hands.

A committee selected the Rev. Ray for the Texas Baptist Father of the Year award "because of his significant applications of Christian faith in helping his daughter overcome severe handicaps." He was nominated for the honor by San Antonio pastors.

The Father of the Year award is sponsored jointly by the Baptist Standard and the 1½ million-member Baptist General Convention of Texas.

**LAMPASAS REUNION**

Mrs. Maxine Edwards and daughters, Sharon Jennie and Julie, were in Lampasas recently to attend a family get-together of descendants of the late Mrs. R. J. Taylor, who was a resident of Bertram for many years. There were four generations of nephews and nieces of Sallie Taylor Bryson present. Mrs. Jennie Greenfield of Post, Mrs. Bryson's only living sister, was unable to attend the reunion.

The champion golfer at the Naval Ordnance Laboratory, Silver Spring, Md., is not human. A hypervelocity gun in use drives a model of golf ball size at 10,000 feet per second—almost 7,000 miles per hour.

## Two Post girls are to attend twirling school

ABILENE — Two students from Post, Judy Clary and Ruthell Martin, have been accepted for McMurry College's annual summer band and twirling school on the campus, July 10-23.

Dr. Raymond T. Bynum, director of the school and head of McMurry's band program, said he expected an enrollment of 400 or more for the two-week school.

Instruction is offered to junior high, high school and college students in individual instruments, band work, marching and twirling.

Fifteen instructors, plus several assistants, will make up the faculty for this summer's school. They represent 10 Texas cities and are veteran musicians, directing high school or junior high bands in Odessa, Abilene, Snyder, Brownfield, Dallas, Winters, Colorado City, White Deer, Midland and Ropesville.

Out-of-town students are housed in the McMurry dormitories, and a recreational program is provided, in addition to several concerts.

Farm tractors can be killers. If you don't think so, points out the Texas Farm and Ranch Safety Council, watch the reports on farm accidents. The next fatal accident, they warn, could involve you. Don't take chances that could lead to disaster.

## Pioneers of Lynn to hold reunion

TAHOKA — The 17th annual Lynn County Pioneer Reunion is to be held Friday, June 24, beginning at 10 a. m. in the City Park, according to G. R. (Bud) Milliken, president of the organization.

Oldtimers will register at 10 o'clock Friday morning and will be given the opportunity to visit with one another until 12 o'clock noon when a barbecue dinner will be served.

Following the meal, the annual program will be held in the City Legion building. To be honored on the program are the Tahoka businessmen who were in business here 30 years ago and those who have remained in business for the last 30 years.

At 8:30 p. m., a dance will be held in the City Legion building.

### Man accused by woman sought

The sheriff's department is continuing a search today for a man accused by Mrs. Toby Service of forcing her into an automobile by choking and shoving.

The sheriff said the incident occurred Monday in front of a tavern here. The officer said a package store owner who saw the man forcing the woman into his car ran out to try to stop him. When the man pulled a knife on the package store owner, an employee of the package store came out with a shotgun and the man drove away.

The sheriff said the woman told him the man choked her with a belt and shoved her into his car. The officer said the man's name was not learned, but that he had his description and the description and license tag number of his automobile.

### Post Scouter is to take course

Leon Miller, neighborhood commissioner for the Boy Scouts of America here for the last three and a half years, will take a six-week training course at the Schiff Scout Reservation, Mendham, N. J., beginning Aug. 2.

Upon completion of the course, Miller will be placed as a full-time Boy Scout executive somewhere in this area. He is a graduate of Post High School and for the last 17 months has been employed as a salesman at Tom Power Ford, Inc. At present, he is an assistant performance supervisor at the county ASC office and is also assisting with field work in the ASC cotton measuring now under way.

Miller and his wife, the former Miss JoAnn Moreman, have been directors of the Youth Center here since its reorganization a year ago.

### Alert goes out to motorists on July 4 driving

An alert went out to Texas motorists today as the Texas Department of Public Safety predicted 27 motorcades will occur on streets and highways of this state during the three-day Fourth of July weekend.

The period covered by the prediction, during which time the Texas DPS will conduct its Operation Deathwatch, extends from 12:01 a. m. Saturday, July 2 through 11:59 p. m. Monday July 4. The DPS Statistical section keeps the official state records of the holiday death count on the calendar day basis, in contrast to wire service counts using fractional parts of days, and different holiday periods.

The DPS prediction released by Col. Homer Garrison Jr., director, emphasized that 4,000 cars will be damaged requiring garage repairs—some a total loss—during the three-day period. The report said that 1500 persons will receive bodily injury with some persons being crippled for life.

"These are some of the factors on the grim side of the holiday," Garrison said, "but it is necessary to relate them in order to explain the seriousness of the holiday traffic situation to Texas motorists."

"The Fourth of July is a holiday in which Texans go out of doors and do lots of driving. I wish everyone a good time during the July Fourth weekend. At the same time I would like to advise them to be careful."

"Let someone else drive if you drink, watch your food and keep it refrigerated, and don't mar your holiday with personal injury, death, or damage to your automobile. We will have on the highways to help you every available patrolman. You can make their job easier by planning safety into your holiday activities."

**SUNDAY GUESTS**  
Mr. and Mrs. Chas. E. Hipp of Graham visited in the C. R. Wilson home Sunday. They had been to Midland for an appearance there with their female lioness, Blondie, who has "visited" on several occasions in Post. Their daughter, Charlene who had been visiting here, was accompanied home by Mrs. W. E. Howard and Nita Wilson for a visit.

**HEAT LOWERS QUALITY**  
Heat is the worst enemy of egg quality. And during the hot summer months, Dr. John Quisenberry, head of Texas A&M's Poultry Science Department, advises egg producers to follow the best known production practices to keep egg production and quality up. Local county agents, he says, can supply information on the subject.

### Cubs beat Indians, 11 to 8; White Sox win from Braves

The Cubs overcame a six-run lead Friday night to defeat the league-leading Indians, 11 to 8, in a Babe Ruth League game.

In the night's opener, the White Sox scored in every inning to run away from the Braves, 16 to 6, in a game cut to five and a half innings by the 10-run lead ruling.

The Indians hopped on pitcher

John Sepeda for five hits and six runs in the bottom of the first, but the Cub pitcher settled down to hold the Indians to three hits and two runs the rest of the night.

The Cubs shelled pitcher Pat Cornell for five hits and seven runs in the second and third innings to go out in front, 7-5, with Danny Pierce relieving Cornell on

the mound.

**CROSS LEADS ATTACK**

Second baseman Butch Cross, with three hits in five trips, led the Cub batting attack. First baseman Wayne Gamblin smashed out a three-run triple in the second. Outfielder Danny O'Neal, with two for four, also contributed to the Cub onslaught.

Third baseman David Lee's two-run homer in the top of the first got the White Sox off to a big start over the Braves in their 16-6 victory, but the Braves tied it up in the second on four walks and a single by David Perez.

The Sox scored four more in the second and five in the third, shelling Perez from the mound. He was relieved by Daniel Johnson.

The Braves managed three runs in their half of the third and another in the fourth, but couldn't catch up, with the Sox chasing across single runs in the fourth and fifth and three in the sixth.

Teddy Scott, who started for the White Sox, was the winning pitcher, Perez taking the loss. Scott received mound help from Doyle Wells.

### Tigers edge Dodgers in close one, 8 to 7

Brilliant relief pitching by Filemon Vargas sparked the league-leading Tigers to an 8-7 win over the Dodgers Saturday night in a Little League game.

In the night's opening game, the Yankees outlasted the Westerners, 17-14, in a free-swinging contest in which there was a total of 24 base hits—15 by the Yanks and nine by the Westerners.

The Tigers took an early lead over the Dodgers with three runs in the first and two in the second, but after a scoreless first inning the Dodgers began finding the range against Bobby Dean and scored two in the second and five in the third to go out in front, 7-5.

The Yanks retaliated with two tallies in the fifth and two more in the sixth, while the best the Westerners could do was a single run in the sixth. Rickey Welch and Danny Pierce pounded out home runs for the Yankees.

Rabbit Lockhart, who relieved Michael Horton, was the winning pitcher, with Charles Landtroop finishing up for the Yankees. Jerry Don Sullivan went all the way for the losers.

Funeral services for Miss Ruby Carpenter, 52, of Lubbock, who died at 5:20 p. m. Wednesday of last week in a Lubbock hospital, were conducted at 3:30 p. m. Friday in the Church of Christ here.

Miss Carpenter was a resident of Garza County for more than 35 years before moving to Lubbock three and a half years ago. She moved here in 1921 from Anson. She was born in Abilene and had been a member of the Church of Christ for 25 years.

Officiating at the services were Roger Turner, New Home Church of Christ minister; Ronnie Parker, Post Church of Christ minister, and Newell Booker, elder of the Vandellia Church of Christ, Lubbock.

Burial was in Terrace Cemetery under direction of Mason Funeral Home. Nephews served as pallbearers.

Miss Carpenter is survived by four brothers, Dan L. Carpenter of Route 4, Tahoka; Floyd and George Carpenter of Post and Ed Carpenter of Denton, and one sister, Mrs. P. E. Parr of Lubbock.

### Outpost staked in Koonsman field

Robinson Drilling Co. of Colorado City has staked its No. 1-29-1 Slaughter, in south Garza County, 21 miles south of Post, as a five-eighths of a mile northeast outpost to the lone Garza Spraberry producer in the Koonsman (Strawn and Spraberry) field.

This field has four Spraberry producers and one Strawn producer one and five-eighths miles to the southeast in Borden County.

It is 330 feet from the south and 1,650 feet from the west lines of Section 29, Block 2, T&N0 Survey.

### Called to Lubbock

Mrs. H. C. Thompson was called to Lubbock Monday night to bat in her brother, Matt Exum, who is in critical condition at Methodist Hospital. Accompanying her Monday night were Marvin Williams, Mrs. Stanley Mathis and Mrs. Charley Williams.

### Babe Ruth League

The White Sox broke an 8-8 tie with five runs in the bottom of the sixth inning Tuesday night to down the Indians, 13-12. Indians came back with four runs in the top of the seventh, but relief pitcher Ronnie Reed back out Larry Stewart with the lead to choke off the Indians.

In the night's first game, Chun-Johnson, Braves' pitcher, kept Cub hits well-scattered to post a 4-shoutout. The Braves got only four hits off Cub pitcher John Sepeda, but made them count for runs in the fourth and one in the fifth.

### Sunday in Snyder

Mr. and Mrs. Boy Hart and son, David, spent Sunday in Snyder visiting his mother, Mrs. H. S. Hart, and also Mr. and Mrs. Richard Crenshaw.

## Tigers build up loop lead; Yanks overtake Red Sox '9'

Multiple Well Service Tigers took a tighter grip on first place and Postex Cotton Mills' Yankees moved up into a second place tie with Brown Bros.' Red Sox in Little League action Monday night.

The Yankees won over the First National Bank's Dodgers, 10 to 6, and the Yankees drubbed Western Construction Co.'s Westerners by a score of 16 to 10.

The second place deadlock between the Yankees and the Red Sox will be broken tonight when the two teams clash at Little League Park. In the other game, Caprock Chevrolet's Corvairs will play the Westerners and if they win will pull up into a tie with the latter.

In the Tiger-Westerner game, the Westerners took an early lead. The Tigers picked up a run in the bottom of the first when the Jerry Don Sullivan's triple scored third, but the Westerners regained two runs, and Sullivan scored on the lead in the bottom of the third with four runs on doubles

by Thomas Rivera, Joe Harold Reno, Darrell Odom and Freddie Collazo and singles by Jerry Smith and Leroy Saldivar.

A nine-run fourth inning put the Tigers back out in front to stay. Filemon Vargas' home run was the big clout of the inning.

Rivera, who relieved Collazo, was the losing pitcher, with Bobby Dean picking up the win, although needing help from Vargas.

The Yankees came from behind to gain their 10-6 victory over the Dodgers. Charles Landtroop going the route to get the win. Ramon Luna, who relieved Jimmy Bartlett, was charged with the loss.

The winners scored four runs in the top of the fifth inning to pull up even with the Dodgers at 6-6, and then scored four more in the top of the sixth to gain the victory.

four runs in the bottom of the second on doubles by Larry Johnson and Donnie Cornell and two bases on balls.

Jimmy Bartlett's double helped pick up two runs for the Dodgers in the top of the third, but the Tigers increased their margin in 7-2 when Larry Johnson's two-bagger scored Paul Walker, who had walked.

Filemon Vargas was the winning pitcher, with Bartlett being charged with the loss.

**GRANDDAUGHTERS VISIT**

Mrs. H. J. Dietrich returned from Alvarado last Thursday after visiting several days with her two daughters, Mrs. Arvil McBride and Mrs. Joe Hopper, and families. Her granddaughters, Kathy McBride and Diane Hopper returned to Post with their grandmother to stay until the Fourth of July.

## Corvairs beat Sox for second victory

The Corvairs won their second game in ten starts last Thursday night, defeating the Red Sox, 18 to 12, and knocking the Sox out of a first place tie with the Tigers.

In the night's opening contest, the Tigers had added to their Little League lead by downing the Dodgers, 7 to 4.

An eight-run second inning, in which they shelled starting pitcher Doyle Nichols from the mound, got the Corvairs off to the start they needed in upsetting the Red Sox. Leftfielder Jackie Huff's home run was one of the six hits contributing to the Corvairs' eight runs.

Starting Corvair pitcher Clint Johnson held the Sox to two hits and two runs in two innings before being relieved by Casey Bounds, and Floyd Moreau came on in the fifth to finish up.

**LONG RELIEVES NICHOLS**

Nichols, after the disastrous second inning, was relieved by Roy Long.

The Corvairs kept up the barrage in the third inning with five runs on six hits, added three more in the fifth and two in the sixth. Besides his home run, Huff got a double and two singles.

The Red Sox had a seven-run fifth inning, but it wasn't enough to overtake the upset-minded Corvairs.

A two-run homer by Bobby Dean in the bottom of the first inning got the Tigers off to a good start in their 7-4 triumph over the Dodgers. The Tigers added

# State Capital NEWS

By Vern Sanford

**AUSTIN** — Texas Democrats are starting a fresh page in their history. The era when the party could be split on the basis of who voted for Eisenhower in 1952 is ended.

Only thing which could revive that long-cherished bone of contention would be for the Party to nominate a ticket so distasteful to Texans that the state would again go Republican.

At the state convention Democrats of widely varying views

united behind the Lyndon Johnson banner to bury the extreme loyalists of the DOTC in the most overwhelmingly lopsided vote in party history.

Even seasoned political reporters were caught off balance by the 2,332-to-40 vote by which the DOT proposal was defeated. They used such unaccustomed adjectives as "astounding" to describe the victory.

State Executive Committee proposed a loyalty pledge binding on

state party officials, delegates to Los Angeles and presidential electors.

### INSIST ON PLEDGE

DOT insisted that in addition, a loyalty pledge should be circulated among the county delegations and that no one should be allowed to stay in the state convention hall unless he signed it.

DOT did everything possible to fan the issue. Blurred, hastily printed flyers headed "Who Says Party Loyalty Is a False Issue?" were scattered outside the convention hall. Flyers showed a picture of Gov. Price Daniel introducing Eisenhower at a 1952 campaign rally and reproduced a copy of the ballot by which a majority of Texans split their tickets in '52 and '56 by voting Democratic on the state level and Republican on the national level.

Alex Dickey of Denton, one of the DOT spokesmen given equal time to debate the issue before the delegates, proclaimed heatedly that "party loyalty is the issue before this convention."

But his weapon had lost its edge. After the vote, Governor Daniel declared that any group that tries to send a rival delegation to Los Angeles on the basis of 40 votes out of 2,392 "must be out of their minds."

Even drooping DOTers agreed. Dickey refused to bolt, told sympathizers waiting outside they had been beaten fairly.

Reporters, who had tried to beat deadlines by writing "hold for release" stories describing the expected "rump" convention, hastily filed mandatory kill orders.

### UNITY IN DIVERSITY

Events at the State Democratic convention, though it was frequently referred to as the most united, most harmonious in history, demonstrated clearly that it is, as it always has been, only as united as strong personal leadership can keep it.

By its very make-up the Texas Democratic Party is like six tomatoes in a tow sack. Gulf between the very conservative delegation sent to Austin by Harris County and the very liberal delegation from Bexar County is greater than the gulf between Republican and Democrat in many parts of the country.

Convention keynote, Rep. Jim Wright of Fort Worth, took note of this. "Out of our disorganization, our diversity . . . and even our disagreements," said Wright, "comes our strength. We are the party of no one because we are the party of everyone."

Test of this came after Senator Johnson made his triumphant entry to the accompaniment of marching placard-carriers, music and cheers. When the tumult ended and Johnson began to speak, the Harris County delegation, which had voted not to support Johnson, booed at the end of each statement. It was an awkward moment.

Senator Johnson, who was discussing his experiences in the U. S. Senate in working with men of such contrary views as Senator Byrd of Virginia and Senator Morse of Oregon, departed from the text of his speech.

Despite their differences, said Johnson, these senators "always behave in a courteous and gentlemanly manner."

Harris County was heard from no more, and Texas Democrats proceeded with, for Texas, first class harmony.

**EXIT MRS. RANDOLPH**  
Mrs. H. H. Weinert of Seguin will return next month to the post as national Democratic committeewoman from Texas.

Mrs. Weinert was national committeewoman for eight years and was replaced by Mrs. R. D. Randolph of Houston in 1956.

Mrs. Weinert will be officially elected at the national convention beginning July 11 in Los Angeles. But for all practical purposes, Mrs. Randolph already is deposited.

SCARY STAGE SHOW BOOKED

If it's thrills you want, it's thrills you will get when you see the man who brings back the dead, Dr. Evil, in his big "Terrors of the Unknown" stage show playing at the Tower Theatre on Saturday, June 25. Johnny Hopkins, manager of the theatre, says the triple shock stage show will also feature in person, King Kong, the famous Hollywood gorilla, and the Mummy, and that portions of the show are too scary to advertise.

By resolution, the state convention took away from her all authority and privilege she might have between now and retiring. It was retaliation for the war which Mrs. Randolph, as head of the DOT, has waged on Senator Johnson, Governor Daniel, National Committeeman Byron Skelton and almost all other party officials for four years.

As national committeewoman, Mrs. Randolph is entitled to be a delegate to the national convention and cast one-half delegate vote. Convention declared she must be bound by the unit rule and vote with the rest of the delegation. In short, "all the way with LBJ." Also, the convention asked that she have no control over credentials and tickets to the national convention.

### GOP PLANS LAID

Texas Republican leaders are saying, in effect, that they won't fight among themselves but will save their strength to fight Democrats in the general election next fall.

Texas' GOP traditionally has been very harmonious, except in 1952 when newcomers supporting Eisenhower wrested control from the Old Guard.

Texas delegation to the GOP Chicago convention are pledged to support Vice President Nixon for president, Sen. Barry Goldwater of Arizona for vice president. Early talk of supporting Senator Goldwater or New York Gov. Nelson Rockefeller for president ended short of a floor battle.

Most Republican energy at their state convention was used to try to lure Independent and Conservative Democrats to their fold by criticizing Democrats as the party of "give-away programs" and "federal intervention."

### MOVING UP

Preliminary 1960 census figures show Texas, with a population of 9,493,895, ranking sixth among the 50 states—behind New York, California, Illinois, Pennsylvania and Ohio.

## California attractive to job-hunting teachers

AUSTIN — A lot of Texas teachers will be heading for California this week to attend the National Education Association convention in Los Angeles, June 26-July 2.

But some of them may not be coming back to Texas to teach. They may go job-seeking in California, that happy hunting ground for teachers.

The Amarillo school district lost 10 teachers to California last year. And it's no wonder, if the experience of Harold Lee Milam, a teacher in the Austin schools, is typical.

Milam is going to teach next year in San Rafael, Calif., near San Francisco. San Rafael is much smaller than Austin, but Milam's salary there will be \$5,600 next year, compared to \$3,888 in Austin this year. He will be teaching the fifth grade, the same assignment

he had at Wooten Elementary School in Austin. He has five years teaching experience.

In his second year at San Rafael, Milam will pick up a \$300 yearly salary raise, moving him up to \$5,900. That is more than he would receive in Austin 20 years from now at the present salary schedule. He has a wife and two children and feels that he can't afford to wait 20 years.

Latest national rankings show Texas is last in the per cent of increase in average salary for teachers in the last ten years, with a 49.1 per cent gain.

Will living expenses in California eat up Milam's higher salary? A state income tax and general sales tax in that state will take back a little of the \$1,712 salary raise he will receive. But there will be plenty left.

On the other hand, Milam personally compared prices in San Rafael on 50 food and other items his family buys each week. The total cost for these items was less than in Austin, the capital city of Texas. Comparable housing will cost about \$15 a month more in San Rafael.

Milam's principal in Austin summed it up this way: "He is the kind of a fellow we hate to lose."

### State's Four-Square 4-H members named

COLLEGE STATION — Arlos Moore, Ford County and Yvonne Newton, Tarrant County, today were named to receive the 1960 Danforth Leadership Awards. They will attend the American Youth Foundation Leadership Camp, Shelby, Mich., in August as 4-H representatives from Texas.

In making the announcement, the state 4-H Club office, said the camp scholarships would be provided by the Danforth Foundation-Ralston Purina Company and travel funds by United Gas.

Being named the State's most outstanding four-square boy and girl signifies that each has excelled in 4-H leadership, character development, school, church and community activities and as students. Built on the principle of four-fold balance, the American Youth Foundation Camp emphasizes physical, mental, social and religious development.

### VISIT IN OKLAHOMA

Mr. and Mrs. Dudley Brown and daughters returned Sunday night from a trip to Oklahoma. In Ringling, Okla., they visited his parents, Mr. and Mrs. C. W. Brown Sr., and in Seminole they were guests of his brother and family, Mr. and Mrs. C. W. Brown Jr.

An uprooted tree is shown on a World Refugee Year stamp issued by Sweden and Norway.

NEEDS HELP

Dramatic proof of the need for aid for Chilean earthquake victims is evidenced by this Puerto Rican orphan—his only belongings heaped in a string bag—shown waiting a mercy plane trip to a refugee reception center in Santiago. Nations throughout the world are responding to appeals for help. The Red Cross, which is conducting a nationwide fund appeal, made an initial allocation of \$175,000 and provided \$250,000 worth of donated medical and other supplies.

## Turkeys, melons on plentiful line-up

COLLEGE STATION — Looks like a spread for an old-fashioned Fourth of July Picnic!

That's how the Texas Extension Service, College Station, describes the U. S. Department of Agriculture's July plentiful foods list for this area.

There is turkey for the main dish, surrounded by a variety of summer vegetables, with water-melons, cantaloups and peaches for salads and desserts.

Farmers are marketing about 10 percent more turkeys this summer than last. In addition, cold storage stocks are larger than last year and larger than average, says the Agricultural Marketing Service.

Larger crops than last summer are expected for onions, potatoes, lettuce, celery, eggplant, green peppers and cabbage.

Heavy supplies of lemons and limes suggest many cool and refreshing beverages.

Also, USDA July plentiful include ice cream, peanut butter and vegetable fats and oils.

Mikha Singh, Indian Army athlete who ran the 100 meters in 10.4 seconds, may run that distance for India in the Rome Olympics.

Esperanto, the proposed universal language, originated in Poland.

# Why Mercury is the better low-price car!

MORE VALUE. Just look at these Mercury advantages over other low-price cars:

You ride smoother because Mercury has up to 8 inches more wheelbase . . . and is up to 494 pounds heavier. You're more comfortable because of Mercury's extra shoulder room, leg room, and foot room. You feel safer because Mercury's brakes are bigger (up to 26%), and visibility is better (up to 21% more). Mercury has at least two dozen extra values. Why not enjoy them all, and save a little money, too?

PRICES START \$63 TO \$66\* BELOW EVEN THE LOWEST-PRICED V-8 POWERED PLYMOUTH FURY OR CHEVROLET IMPALA.

And we're not talking about a 'stripped' Mercury. This price comparison is based on a deluxe-appointed Monterey with luxurious nylon interior and deep, soft wall-to-wall carpeting.

This amazing price story is the result of Mercury's dramatic 1960 price reductions (as much as \$174 lower than last year, including extras that are now standard equipment).

Every Mercury is lower priced than last year. All Monterey's are now low-price cars. They are priced below, or within a few dollars of, the other deluxe V-8 series in the low-price field. Come in. See for yourself.

\*Based on comparison of manufacturer's suggested 1960 retail base prices for lowest priced V-8 models.

## 'Visit to a Small Planet,' starring Jerry Lewis, opens Sunday at Tower

"Visit to a Small Planet," the new Paramount-Hal Wallis production starring Jerry Lewis, comes to the Tower Theatre here Sunday for a Sunday, Monday and Tuesday showing.

It's all about a beatnik from the atmosphere whose hobby is the Earth and who decides to come take a look at it.

The screen gives the hilarious story, so successfully dramatized on the stage, more of an opportunity to garner laughs than did the show. It takes Jerry, as Kreton, from his own habitat—way out there—and brings him way down here where many mad things happen to him (and the poor people with whom he comes in contact), the full laugh potentials of which could only be realized through the magic of the motion picture camera.

## Bible Thoughts

The Summer Gospel Meeting at the Past Church of Christ is only 2 1/2 weeks away. Jimmy Wood of Odessa, Texas, will be speaking each morning at 7:00 a. m. and each evening at 8:00 p. m. You are invited to attend each meeting and a warm welcome awaits you.

In John 12:32 Jesus is speaking, "And I, if I be lifted up from the earth, will draw all men unto me." Men can be drawn to Jesus when they hear of his great love and power from the gospel story. Christ is the transforming power that enables life to be drawn from the mud of degradation and sin to the sunshine of forgiveness and light and love.

But transformation involves surrender. Through repentance and obedience one agrees to become like Jesus. He promises to help through his abounding love and grace.

Can you truly say, "I am thine, O Lord?" Have you been drawn nearer to the cross where he died?

## A Second Car For the Family—

is growing in demand. Two-car families now comprise about 77% of all families. A recent survey discloses that another 17% want to buy second cars. In some cases, the second car is a used one. The average automobile dealer allocates approximately 72% of his used car advertising budget for newspapers.

### About your health

Both wildlife and domestic animal rabies showed slight declines in May, according to Texas State Health Department animal disease figures.

State Health Department veterinarians attribute the decline to a seasonal drop and the effects of local rabies control programs now active in several Texas areas.

Forty examined heads proved positive during May compared to 88 positive heads examined in March and 45 in April.

The number of heads submitted for examination is also declining. In May 499 heads were prepared for examination—a decrease from 591 heads prepared in March.

Whole heads are sent to the State Health Department laboratory in Austin where the brains are carefully prepared for microscopic examination for presence of "Negri bodies," indicating rabies infection.

#### BREAKDOWN MADE

A breakdown of positive animal heads examined for May shows 10 dogs and three cats. Also there were nine foxes, 15 skunks and three bats.

Statistics show that domestic pet rabies is running only one-third as high as the five-year median while bovine rabies is just half as much as the five-year median figure.

At the same time wildlife rabies is running ahead of the usual incidence level.

The high rate of wildlife rabies makes control measures among domestic animals more important than ever, public health authorities say. They warn against possible outbreaks at any time or place.

#### COULD POSE THREAT

An unprotected domestic animal population—especially dogs—could mean exposure to humans during an unexpected outbreak before emergency controls could be enacted.

Heads submitted for examination to the State Health Department laboratory include almost every species of wildlife—rabbits, rats, squirrels, flying squirrels, mice, raccoons, gophers, and hamsters.

Laboratory technicians ask that heads sent for examination be packed in ice, but separated from ice in a smaller container.

Whole heads should be submitted instead of just brains to avoid accidental infection during removal of the brain by untrained persons.

(A weekly feature from the Public Health Education Division, Texas State Department of Health.)

#### MILK QUALITY IMPORTANT

A. M. Meekma, extension dairy husbandman says it is very important to maintain the quality of milk. He says it should be cooled to 40 degrees or below immediately after milking. That cows should be fed strong-ordered feeds, such as silage, only after milking and that pastures should be kept free of weeds and seeds which can cause objectional flavors in milk.

### Announce program for annual poultry meet

COLLEGE STATION — The 1960 Poultry Conference, to be held July 6-7 at the Texas A&M College Memorial Student Center, will emphasize the breeding, health, feeding and management factors that provide for the maximum returns for the poultryman, reports Ben Wormell, extension poultry husbandman. The program of this conference is designed to be of special interest to hatcherymen, breeders, servicemen, commercial producers and related industry personnel.

Speakers for the conference will be three out-of-state poultry experts, Texas poultry industry leaders and Texas A&M College System personnel. The three out-of-state speakers are: Dr. Ben D. Bohren, professor of poultry breeding and genetics at Purdue University; Dr. Stephen C. King, chief of the poultry research branch of the USDA; and Durrell Davis, southern editor of the Poultry Tribune.

### PLANT PATHOLOGIST'S PREDICTION

### Heavy summer rains will pose problem of cotton root rot

COLLEGE STATION—If rains occur during June, July and August, cotton root rot losses will be high. This prediction comes from Dr. Harlan E. Smith, extension plant pathologist. He bases it on the amount of disease carry-over in the soil from last year, and the late cotton crop. The disease occurs in all areas of the state except the Panhandle, High Plains and sandy soils of East Texas.

It is known that the disease fungus is carried over in the form of seed bodies or sclerotia. A minimum of 25 to 30 of these sclerotia per cubic foot of soil are necessary to cause disease. Due to the large amount of root rot the past two years, a high count of sclerotia are present in all infested soils, according to Smith.

When cotton roots grow close to the sclerotia in moist soil, the seed bodies of the fungus germinate and attack the cotton root. Within a few days large patches of dead cotton appear.

The disease is nearly always more damaging on late than on early cotton. Early cotton is more likely to escape some of the damage.

Smith advises growers to start planning preventive measures immediately for the 1961 cotton crop. Deep plowing, 10 to 14 inches deep, with a mold board or disc type plow is recommended. In a few areas, because of the type of sub-soil, this will not be possible.

However, deep plowing to as great a depth as possible will be helpful in reducing root rot, the following year, he says.

Local county agents can supply copies of the publication MP-361, "Root Rot Losses of Cotton Can Be Reduced," and additional information on practices which will aid in reducing plant disease losses.

The Revival of Whiggery  
(an editorial)

For some months we have had here and there evidences of the breaking out of a new era as it was called, a reawakening of all the Union sentiment in the land, a coming together of the patriots in America for the sake of saving this great and glorious government from Democracy, anarchy and ruin! Well, the "National Union Party" as they call themselves, have come from every State in the Union. Texas had her representatives. We understand that there are several fossil Whigs from other parts of the State as well as two Sam Houston Democrats. Resolutions were passed. No meeting word was spoken. Harry prevailed and John Bell of Tennessee was nominated for the presidency.

See that Norton, the organ of the present State Government of Texas, the chief bugleman of Sam, his Brigadier General headquarters, was much made of at the Baltimore Convention. He was admitted by General C. C. Cabell of Kentucky as follows:— The chair answered that a delegation from Texas had just arrived and was waiting at the door. Delegates entered and were greeted with three cheers. General
