

MERRY CHRISTMAS

\$364,800 in road projects come as Christmas gift for county

The Texas Highway Commission today approved the expenditure of \$364,800 for highway safety and betterment in Garza County during 1961, announced District Highway Engineer O. L. Crain of Lubbock.

He said a total of 37.4 highway miles in the county will be involved. The work will be under the

supervision of H. Bruce Bryan, district maintenance engineer.

The "big" project for 1961 will be reconstruction, grading, structures and surfacing on FM 651 from Crosby County line to Post, a distance of 17.8 miles, at a cost of \$45,000.

This work is part of two statewide "highway housekeeping" pro-

grams revealed today by the Texas Highway Department. Totalling \$40 million, the programs are keyed to safety features and proper upkeep of the State's highway systems.

The two safety-and-betterment programs will be evenly divided financially throughout the State with \$20 million to be spent on the

U. S. and State Highway System and \$20 million earmarked for the Farm and Ranch-to-Market road system.

The 1,075 items involved in the two programs, covering a total of 224 counties, will all be done during the next calendar year. A total of 2,799 miles of U. S. and State Highways and 3,686 miles of farm-

to-market roads are included in the work list. Highways are due for improvements such as surface widening, bridge widening and replacement, base strengthening, and paving of shoulders.

The district engineer said a total of 434.4 miles in this highway district would be involved, at a total cost of \$1,994,000.

These other projects will take place in this county:

FM 122 from 12th Street in Post to U. S. 380, 0.2 of a mile of seal coat, \$200.

FM 1313 from U. S. 380 to FM 669, 3.0 miles of seal coat, \$2,600.

FM 2282 from Lynn County line to U. S. 84, 5.0 miles of seal coat, \$4,400.

FM 2008 from U. S. 380 north, 4.5 miles of seal coat, \$4,000.

FM 2106 from U. S. 84 at Southland south, 4.9 miles of seal coat, \$4,300.

Loop 45 in Southland from U. S. 84 east, 0.5 of a mile of seal coat, \$700.

U. S. 84 in Post from 13th Street to Third Street, 1 mile of seal coat, \$3,100.

Loop 46 from U. S. 380 in Post south, 0.4 of a mile of seal coat, \$500.

Farm homes, Southland firms hit by burglars

Rural burglars were busy over the weekend, hitting three farm places. But the biggest haul came Monday night at the Southland grocery and filling station of Herbert and M. A. Dunn, where several hundred dollars worth of merchandise was stolen.

Sheriff Carl Rains said the "most unusual theft" of the year occurred at the Jim Graves farm, northeast of Post. Graves, after reporting 50 chickens stolen from his place sometime Sunday night, called again Tuesday to explain that the chicken thief apparently had had a "change of heart" and returned the chickens sometime Monday night.

Burglars broke into the north window of the grocery at Southland and hauled off five new tires of various sizes, 61 cartons of cigarettes, an adding machine, 20 pairs of khaki pants, a half-dozen bath towels, five quarts of motor oil, an electric razor, several fuel pumps and miscellaneous other car parts. Sheriff Rains reported, "Burglars looted the home of W. C. (Mutt) Graves, six miles north-

east of Post, sometime during broad daylight Sunday while nobody was at home and stole three guns and an expensive camera.

The third rural loss was reported by Floy Richardson, who lives six miles northwest of Post. He

stole Sheriff Rains that someone had taken a Maddox saddle and pair of spurs from the barn on his place sometime during the last week or ten days. Two other saddles and miscellaneous gear were not touched.

No leads develop in package store 'grab'

The sheriff's office reported yesterday that no new leads had been found on the identity of three Negro men believed to have snatched \$536 from a cash register at the Caprock Liquor Store here last Thursday night.

Slaton officers nabbed three suspects a short time after the theft, but they were released Friday after being questioned by Post law

enforcement officers.

The theft was reported at 8:15 p. m.

According to Mike Mitchell, owner of the store, the theft apparently was perpetrated with some fast action by one or more of the suspects, who took currency, mostly in \$10 and \$20 bills.

Two employees were on duty at the time and a cigarette machine operator also was there checking a vending machine.

Mitchell said Henry Jackson, a Negro employe, had gone to the back of the store to get some merchandise, and Mrs. Jean White, cashier, momentarily turned away from the cash register, when the theft took place.

Mitchell said three Negro men were in the store at the time and bought some beer. Neither of the employes nor the cigarette machine operator saw the act, they said.

The theft was noticed quickly by Mrs. White, who was making change for the cigarette machine operator, according to Mitchell.

Birthday 'open house' scheduled for patient

H. F. Stevens, longtime resident of Post, will be host to friends and acquaintances on his 82nd birthday Tuesday, Dec. 27.

The fact that Mr. Stevens is in Garza Memorial Hospital isn't stopping his birthday plans. He'll hold his birthday "open house" right in his hospital room.

Friends and acquaintances of Mr. Stevens are invited to call on him between 2 and 4 o'clock Tuesday afternoon to help him celebrate his birthday.

If you want to top off your Christmas with that warm glow from within, call County Judge J. E. Parker's office and select one of the real needy families from his "community Christmas list". Judge Parker's secretary can provide details and you can get a Christmas box out to a family who won't have much of a Christmas without you.

So many of you responded to this column's recent item on the High School Library Club looking for clothing and other donations for a needy family for Christmas that a sizeable amount of items were donated and taken by the youngsters to the county judge's office where they were distributed this week.

Also in the line of Christmas giving, anyone wanting to contribute to the C. J. Huffman family's Christmas are asked to call either The Dispatch office or the City Hall. Mrs. Huffman and her children will spend Christmas in Snyder but will be in Post Friday. Any gifts of food, clothing, etc. will be appreciated. A group of good Post City folks, including many merchants, have contributed generously to help support the family through Huffman's final illness.

Our Christmas edition is always the "newest" and "most readable" paper of the year. Not because it is usually loaded with any more than usual big supply of news items, but because it is the paper in which we print all the youngsters' letters to Santa. In this edition, by our careful count, (See POSTINGS, page 8)

Post and Garza County set sights toward Yule holiday

Last week's snow long since melted and gone, prospects for a "Christmas" in Garza County are dim today, but otherwise the season appeared set for the

of the Christmas parties, dances, lodges, clubs and groups either had been held yesterday or were scheduled for

no later than Friday.

Meanwhile, Christmas shopping remained brisk in downtown Post and was expected to continue that way through Christmas Eve, with all stores scheduled to stay open late to accommodate last-minute shoppers.

Schools were to be dismissed at 2:30 p. m. today for the Christmas

holidays, with classwork to be resumed Tuesday morning, Jan. 3. This gives students and teachers a one-day longer holiday than they had expected, since it originally was announced that schools would take up again on Jan. 2. The change in dates was announced yesterday by T. C. Clark, high school principal.

College students already were arriving home for the holidays late yesterday.

Nearly all the city's churches plan special programs for Sunday, which is Christmas Day. Many already have held pageants, trees and other observances in keeping with the Christmas season.

Following the closing of the stores Saturday night, the town will observe a two-day holiday, with business generally scheduled to be resumed as normal on Tuesday morning.

Monday has been declared an official holiday by the Post Chamber of Commerce, Manager John N. Hopkins said today.

Sheriff-elect announces names of his deputies

Fay Claiborn, who will take office as Garza County sheriff the first of the year, announced yesterday the names of the two men he has employed as deputy sheriffs.

Ellon Corley will move here from Tatum, N. M., as chief deputy, and the other deputy will be Oscar Gray of Post, the sheriff-elect said.

BANK CLOSING SET

The First National Bank will be closed from Friday evening until Tuesday morning for the Christmas holiday period, it was announced today.

Fire station boosts construction totals

Construction got under way yesterday on Post's new \$100,000 fire station, behind city hall on Ohio Broadway, to boost community's building permits to a reach of the \$1,000,000 mark for 1960.

The new fire station, and other permits taken out during the week, Post's building to the year with another week

to run stood at \$985,238 today.

The fire station is being built by Knox & Gately Construction Co. of Lubbock, the same firm which did the city hall's recent remodeling project.

The other two permits went to J. M. Hutchins for a new roof and other hail damage repairs to a residence on Lots 4 and 5 of block 88 for an estimated cost of \$475, and to Mrs. J. W. Bird, for a \$2,061.09 addition to present residence on lots 14, 15, and 16 of block 33. The addition will be 8 by 20 feet in size and includes a shingled roof.

City Supt. Henry Tate promised an official total for the building permits next week—and that total is expected to top the \$1,000,000 mark for the second straight year. Three new starts are reported in Westgate Terrace for which building permits will be taken out within a few days. This ought to put it over the million dollar mark. Then the new home of Mr. and Mrs. Bill Edwards, the biggest new residence ever to be built here originally went into the permit total at an estimated value of only "\$1 plus."

GETS SCHOLARSHIP

Robert N. Cato Jr. of Post, son of Mr. and Mrs. Robert N. Cato, is one of five Texas Tech engineering freshmen awarded \$300 D. D. Harrington Scholarships. The scholarships are awarded each year to outstanding high school graduates who desire to study engineering at Tech. The awards are made on the basis of scholastic records, character, and financial need. The Post student is majoring in engineering physics.

'Wet' sales open in Lubbock County

With the opening of legal liquor sales in southern Lubbock County this week in time for the Christmas rush, local store owners are sticking to their "wait and see" policy as to the future of their operations here.

Only one local liquor store this week announced it was closing. Its doors will be locked Saturday night although its lease won't be up until April.

Although Ralph Lowe had one of the first two stores to get open just south of Lubbock Tuesday, he plans to continue operations here for the present, as do Pinkie's, Cecil's, and Caprock Liquor store—although owners of all of these are securing Lubbock locations.

Carlos' Little Mexico Cafe will continue its operations here, its owner has announced.

Work is to start in new addition

Contractor Horace Henley announced today that construction on the first homes in the new Fred Robinson addition will begin shortly after the first of the year.

Arrangements have been made with the city for sewer and water to 47 home sites and the paving contract for this residential area is expected to be let this week, Henley said.

First FHA commitments for new homes are now being applied for and will require approximately 30 days to secure, Henley said.

The former Lubbock contractor, who moved to Post this fall, hopes to have a "show home" ready by late January or early February. FHA financing will be available, Henley added.

MILL EMPLOYE IS HONORED

Vachel Anderson, right, an employe of Postex Mills, was honored Monday on the occasion of his 31st anniversary with the firm. Anderson, currently employed in the sewing room, was presented a set of sheets from the first 1960 bale of cotton by A. Lee Ward, mill superintendent, while sewing room employes looked on.—(Staff Photo.)

Garza County's ginnings climb toward 25,000

Garza County ginnings were nearing the 25,000-bale mark yesterday for the biggest yield in the county in at least 20 years.

The fine weather of the last 10 days or so has seen the harvest resumed but few of the gins were back in operation.

The Hackberry Gin, which is just over the Garza County line reports 3,373 bales ginned, and from 40 to 45 per cent of the turnout has been Garza cotton. They expect about 200 more bales before the end of the ginning season.

Planters Gin in Post had turned out 3,242 bales up to Wednesday noon.

The total at the Graham Co-op Gin was 5,575 bales, with the gin manager saying they won't know how near through they are until the fields dry up.

The Pleasant Valley Gin reported 3,090 bales turned out, but reports there were that no work has been done since the snow.

The same situation prevails at the Close City Co-op Gin, where 3,515 bales were reported. It was estimated there that there probably would be from 100 to 150 bales yet to go.

At the Storie Gin, it is estimated that about 300 bales are yet to be ginned. The total up to yesterday was 2,233 bales.

The Basinger Gin at Southland had turned out 4,340 bales, with operations resumed Wednesday. The report there was that some 400 bales were yet to be ginned.

Friday at courthouse

Yule sing

Everyone is invited to the first Community Christmas Sing, which will be held at 7:30 p. m. Friday night on the south lawn of the courthouse. The program will last 45 minutes.

The program will feature the children's choir of the First Methodist Church and solos by Vernon Scott, Lex Roby and Mr. and Mrs. J. T. Crawford.

Chair members of various church choirs will form the nucleus of the singing group for the carols. Choir members who plan to participate are asked to meet at 7 p. m. at the First Baptist Church for song books and instruction.

Lex Roby, minister of music of the Baptist Church, will direct the carol sing with Georgie M. Willson at the organ.

The community sing is being sponsored by the Post Ministerial Alliance. It will be followed by several caroling parties for the young people of several of the local churches.

Some Christmas Thoughts

The very nicest thing about Christmas this year is that it will come on Sunday and Christmas morning services will be held at every local church.

We urge all our readers, wherever they may be this Christmas morning, either in Post or visiting elsewhere with families, to attend the church of your choice and hear again the beautiful story of that first Christmas when Jesus was born in Bethlehem.

Keeping Christ in Christmas is a tremendous goal for all of us. It is all too easy to forget the true meaning of Christmas in the holiday rush, the many festivities planned with friends and relatives, and with the extra hours at our places of business to keep abreast of the season's demands.

Christmas is the birthday of our Christian religion—not an American holiday like Thanksgiving, a direction in which we are sad to report Christmas appears to be heading.

Christmas is a joyful holiday, but one too on which to think deeply of its spiritual meaning and to rededicate ourselves to better Christian living.

The joy of Christmas is in the giving—not the getting. Christmas warms the heart of those who give, especially those who look around them as the holiday approaches to help somebody less fortunate and thus brighten their lives.

It is a strange thing that on this birthday of Jesus we Christians recognize the joy of the golden rule—of doing for others as we would have them do unto us.

We term it strange because the Christmas spirit quickly fades with the coming of a new year, its tax payments, and its problems. We are too inclined to "put Christmas away" from our hearts just as we are to store our Christmas ornaments once again on the top shelf of the closet—not to be gotten out for another year.

Can you not wonder what this world of ours would be like if the joy of Christmas would continue 365 days around the calendar?

It would offer us so many benefits—more happiness, less rushing to achieve materialistic goals not at all essential to a wonderful and fruitful life.

An American, filled with the true spirit of Christmas, would not have to worry about its future. The Red materialistic world would not long survive against a Christian world led by a nation with a truly Christian heart.

We come so close in our national aspirations to such Christian leadership, but we fall short of it because we ourselves are not Christian enough.

Think of what could be accomplished on this earth if all the wealth now spent upon armaments were spent on Christian progress.

It is a goal to which we can aspire if we will but believe in it strongly enough and make our own contributions toward its achievement—a rich Christian life stripped of our own materialism.

Each Christmas issue of The Dispatch we devote a portion of our weekly editorial column to what we call "Christmas Thoughts."

It is our hope that some day we find the inspiration to fill the entire column with "Some Christmas Thoughts."

And better still, we hope to receive contributions from readers about Christmas which could be reprinted here. Any contributions will be welcome, beginning tomorrow, for next year's Christmas editorial column. Pass them along.

In closing, The Dispatch and its staff wishes to take this opportunity to wish you and yours the joys of Christmas.—JC.

PEACE ON EARTH, good will toward men—men of a certain color, that is.

Post school officials have shorted the 1960-61 basketball schedule by "blowing the whistle" on home-and-home games with Littlefield, because of the fact that Littlefield has two or three Negro boys on its squad.

I DIDN'T GET that information from Post school officials. Like a number of other things, it wasn't "called to our attention." I got it first-hand from the Littlefield basketball coach during the weekend tournament here after I had asked him how come he had only six men on his traveling squad.

The Littlefield coach assured me that he had not been pressured by Post school officials as far as the tournament itself was concerned, but that he had left at least one squad member at home because of the "color line" drawn by Post in cancelling the scheduled games.

DEAR READER, your opinion may differ from mine, but in my opinion, that is NO GOOD.

Post is going to play Dimmitt in an opening round game of the Caprock Holiday Tournament at Lubbock. Dimmitt has one of the state's outstanding high school athletes on its team in the person of Junior Coffee, who happens to be a Negro. Is it going to "contaminate" the Post basketball team any more to play against a Negro at Lubbock than it would have to play against one here? It didn't last year—when Post was one of the few teams to score a victory against Dimmitt and Junior Coffee.

I ATTENDED THE Littlefield game here last year, in which no Negroes played on their varsity, but in which there were three on their "B" team. I made it a point to listen, and I didn't hear anything from the spectators that would lead me to believe that the Negro players created an explosive situation.

Tulia is one of the few schools that has seen the handwriting on the wall and integrated. What are we going to do about our home football game with them next year if they bring a Negro or two along. Are we going to cancel it? Or is there a "color line" difference between basketball and football?

IT MAY BE looking too far into the future, but what is Post and some of the other die-hard schools on integration going to do when the trend goes against them? Are they going to do away with inter-scholastic sports or are they going to "go against the grain" and schedule games with schools that have Negroes on the squad.

I doubt if there is a sports fan among us that doesn't sit in front of his TV set over weekends and watch Negro athletes perform in baseball, basketball, football, track, etc. Is there a whole lot of difference in this and in letting them play in our new gymnasium?

BUT, I'LL LEAVE it where I started it. Peace on earth good will toward men—men of a certain color that is.

Nita Wilson, this year's Junior Rodeo queen, got an "early" Christmas gift in one way—a "late" one in another—last week when she received her hand-made cowgirl boots from Willie Lusk's Boot Shop in Lubbock. Hand-made boots have been the top prize for the Junior Rodeo queen every year since the queen contest was started.

ONE REASON Americans won't go Communist is that when they hear the shout, "Workers Arise," they think it's time for the coffee break.

The man up the street says sometimes it is hard to decide whether to put his small son in the bathtub or the soil bank.

MERRY CHRISTMAS to all and to all a good night!

Rural phone project merits success

The commendable efforts of residents of eastern and northeastern Garza County to get rural extended telephone service out of Post is a sign of the times, and the project merits success.

Nowadays, there shouldn't be any reason for rural residents to be without as efficient telephone service as that enjoyed by the urban dwellers. Good roads have been built into even the most remote sections of rural areas, and it stands to reason that telephone service should be on a par with the roads and with other improvements.

For years now, the few owners of telephones in the northern and northeastern parts of the county have had to call long distance through Spur, Ralls and Crosbyton to reach telephone numbers in Post—their own county seat town.

Under the proposed plan—and early results are encouraging—Caprock Telephone Company of

Spur would construct the lines serving subscribers in the Verbena, Grassburr, Crossroads and Barnum Springs communities and would also construct a sub-station at the edge of Post.

The project carries with it the provision that General Telephone Company tie in the new lines to its Post exchange so that the new subscribers could call Post without having to pay long distance charges.

The entire project depends, of course, upon the sign-up of subscribers living in those areas where the telephones are wanted, with a goal of 100 subscribers having been set. Sign-ups are coming along at a rapid rate this week, according to members of the project's steering committee. Anyone wanting a telephone and not yet contacted by a member of the steering committee can get his name "in the pot" by getting in touch with L. W. Duncan at the First National Bank.—CD.

'Operation Deathwatch' is upcoming

Speeding Garza drivers and other traffic law violators will run a veritable obstacle course of highway patrol cruisers and radar speed checks during Christmas and New Year holiday trips this year when the Department of Public Safety holds "Operation Deathwatch."

Operation Deathwatch starts throughout Texas at 12:01 a. m. this Friday and runs through 11:59 a. m. Jan. 1, according to Capt. E. L. Posey of Lubbock.

"All members of the Motor Vehicle Inspection, License and Weight Education Services will be added to the regular Highway Patrol staff in a determined effort to apprehend all law violators," Captain Posey said.

Since 1955, traffic deaths in Texas during the Christmas holidays have been less each year than the predicted figures, and it appears that

the DPS is going to try to keep the trend going.

Three simple "rules of the road" for the holiday season listed by Captain Posey are: (1) allow ample time for the trip; (2) stop occasionally for rest breaks, and (3) report unsafe acts of other drivers.

"By allowing plenty of time for the trip, you will not have to speed to get to your destination on time," explained the Highway Patrol captain. "Occasional stops for rest will keep you mentally alert, and by reporting to law enforcement officers the unsafe acts of other drivers, you may save a life."

"And, of course, the most important rule of all is never drive while drinking. The drinking driver is a great hazard and when caught, he will be dealt with severely," the captain concluded.

What our contemporaries are saying

Internal Revenue agents, we hear, have been checking some local farmers. We'll guarantee, if anything is due the government, they'll bleed every drop of blood from the turnip—which is probably right. But what makes us mad is the fact that if this were a movie star, a sports celebrity, or some other noted personality, the government would take what it could and then settle with the purgation. Take Joe Louis and Jack Dempsey as examples. Each made millions, spent the money before the tax agents could get to them. Then, the government "settled off" for a bare fraction of the taxes due, and let them go about their business.—Frank Hill in The Lynn County News.

What I like about Christmas is that you can make people forget the past with the present.—Marvin Tomme in The Ralls Banner.

An acquaintance has delayed the conquest of his ambition. He is waiting for the door of opportunity to be equipped with an electric eye opening device.—Douglas Meador in Matador Tribunes.

There must be something to reincarnation, judging by the way some people come back to life at quitting time.—James Roberts in The Andrews County News.

Ship the better way

No matter what you ship, call your local Santa Fe Agent and let the railroad that is always on the move toward a better way go to work for you.

*I can save about \$18.00 a year on chassis lube jobs alone!
*No more waxing! That's up to another \$20.00 a year!
*4,000 miles between oil changes — that sure cuts my oil bill!
*Sure, and you can save more, too, with Ford's triple-life mufflers!

*Adjusts its own brakes, too!
*Saves all those service calls — I sure like that!
*And you save even on first cost. Look at this price tag!
*I'm your Ford Dealer. Come in and let me show you the facts and figures!

EVEN THE LOWEST-PRICED FORD IS BEAUTIFULLY BUILT TO TAKE CARE OF ITSELF

Ford Fairlane savings start with initial price! It's actually priced lower* than some of the new-name compact cars. Dollar for dollar, you'll find you just can't beat the value you get in a Ford Fairlane. Come in and we'll prove it.

And we'll also prove no other car in its field can save like a Ford. Read about Ford's new built-to-take-care-of-itself features on the right — and start counting your savings.

What's more, the new Mileage Maker Six can save you as much as five cents a gallon because it steps right out ahead of the pack on regular gas. You get a whole bundle of luxury features, too... real built-for-people comfort. Come get the facts today!

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF

Lubrication itself. You'll normally go 30,000 miles between chassis lubrication. Then a Ford Dealer lube job (which costs about \$4.00*) will get you set for another 30,000 miles.

Checks Its Own Oil. You'll go 4,000 miles between oil changes with Ford's Full-Flow oil filter.

Search Its Own Muffler. Ford mufflers are double-wrapped and aluminum — normally will last three times as long as ordinary mufflers.

Adjust Its Own Brakes. New Ford Six brakes adjust themselves automatically for the life of the brake.

Protects Its Own Body. All vital underbody parts are specially processed to resist rust and corrosion, even in galvanizing body panels beneath the deck.

Takes Care of Its Own Finish. New Diamond Luster Finish means more wax.

*Based on a comparison of later models. Excludes optional equipment.

Mr. and Mrs. Wesley Northcutt and grandson, Steve Moriarety, returned late Sunday night from spending seven weeks at Lake Texoma, near Denison.

Double ring vows pledged by Edna Blodgett and Perry Cox

Double wedding ring vows were pledged by Miss Edna May Blodgett and Perry Lewis Cox Saturday evening at 6 o'clock in the First Baptist Church. The Rev. C. B. Hogue, pastor, read the ceremony before baskets of pale blue gladioli and mums, flanked with palm leaves, and candelabra. Parents of the couple are Mr. and Mrs. G. L. Blodgett, 315 North Avenue H, and Mr. and Mrs. Eldon W. Cox, 454 Comal Street, Eagle Pass.

The bride, given in marriage by her father, wore an original gown of white Chantilly lace and bridal satin designed with a rounded neckline and petal-point sleeves. The full skirt was ballerina length. Her fingertip veil was of French bridal illusion and she carried a cascade of white carnations.

Miss Lois Hodges attended the bride as maid of honor. Her ensemble was of sheer French l'ame fashioned with a scooped neckline and full skirt. She carried a single long stem gladioli, accented with blue and white streamers.

The bride's sister, Miss Martha Lee Blodgett, was candlelighter. She wore a dress fashioned similar to that of the maid of honor.

Jimmy Johnson of Eagle Pass attended the bridegroom as best man. Larry Reed of Dallas and Wayne Gamblin of Post were ushers.

Miss Yvonne Cox of Austin, sister of the bridegroom, presided at

the bride's book. Wedding music was provided with organ selections by Miss Lyn Alyn Cox, who also accompanied Sherry Carpenter as she sang "Because" and "The Wedding Prayer".

Following the ceremony the bride's parents were hosts for a reception at their home. Decorations carried out the bride's chosen colors of blue and white. After a wedding trip, Mr. and

Mrs. Cox will be at home at 802 West 28½ Street, Austin. The bride is a graduate of Post High School and Jessie's Beauty School of Snyder. Her husband graduated from Eagle Pass High School and attends the University of Texas, Austin.

Out-of-town guests for the wedding included Mr. and Mrs. Tommy Puckett of Frankel City and Mrs. Edna Dillingham of Wichita Falls.

By VERN SANFORD
This is about birds... "screw" birds. Birds you've seen, but seldom read about.

They are called several names... most of them unprintable. Hunting season is a good time to mention them. If you recognize yourself as one of these birds... well and good... especially if you're man enough to change your feathers, or at least change your thinking or your attitude.

All of us have our faults. None of us possesses all these failings... thank goodness. But, if you are one of these birds... maybe you shouldn't go hunting at all. Maybe you should stay home and give some thought to correcting your faults.

On the other hand, maybe you can do something about it. If you can you'll gain the respect of your hunting companions as well as all other men and women in the field and on the stream.

First bird we want to call attention to is the heavy-footed FENCE-HAWK. He rides the fences for all they are worth. He spreads the barbed wire enclosures so wide you could drive a truck through them.

Crawling through one of the openings he makes in a barbed wire fence is a snap. In fact, he is so heavy footed and so strong armed that he pops the staples clear out of the posts.

Then he is wont to say, "They just don't make them staples like they usta!"

SNIPEFLICKER
Another fine-feathered friend is the SNIPEFLICKER.

He's the bird who tosses away cigarette stubs and cigar butts with reckless abandon.

This addleheaded snipeflicker has cost Uncle Sam (that's you and me, Bub) millions of dollars in fire damage to timber and wildlife.

He's not careless in our book. He's just one bird that doesn't give a hoot. If his grandchildren have no place to hunt, it makes no difference to him. What the heck does he care about the future! He won't be here anyway.

This bird's even worse than the MIGRATORY LITTERBIRD. That creature has the same attitude, true enough. Also—the same lack of respect for the property of others. And the same lack of appreciation of what has been made available to him by the farmer,

or the parks board, or the game and fish commission. He's a litterbird wherever he goes.

Often wonder what his home looks like inside... don't you? Betcha there are banana peels everywhere, apple cores all over the house and empty beer cans scattered about every room.

Goodness knows what the messy place really looks like. Sure couldn't be a very tidy spot... inside... judging by the way this bird litters up the outdoors.

There are plenty of other creatures of the woods and waves.

BOOZYBIRD

For example... the REDEYED SWALLOWER... better known as the BOOZYBIRD.

No need for him to wear heavy hunting clothes. He's fired up internally.

Why be a comfortable 98 degrees, body-temperature bird, when you can feather your nest with 100-proof alcohol and feel oh so light-headed?

Actually this bird isn't light-headed, he's empty headed. There are just no brain cells in that ivory-covered skull. Couldn't be, or he wouldn't be out hunting in that condition.

And, anyone who hunts with him better be a ROADRUNNER and in the finest trim. Otherwise he'll never make it back to camp... alive.

This BOOZYBIRD, incidentally... more often than not... is part SNIPEFLICKER and part LITTERBIRD. They seem to team together in the roughest sort of way.

The REDEYED SWALLOWER also has many traits common to the LARGEMOUTH GROUSE... a very loquacious and vociferous animal. Much of his time is allocated to complaints that are reminiscent of the BELL-YACHING BULL-FROG, who's not even a part of the feathery tribe.

While we're at it, let's not overlook the DIMWITTED WOODS-RUFF. He's the hot-tempered animal who clobbers the park fountain if it fails to work. He does so with the park bench and he doesn't care which collapses first, so long as his temper is not restrained.

SNEAKYEYED WOODPECKER

You've seen this bird I know. I'm talking about the SNEAKYEYED WOODPECKER. He transfers shrubbery from the field to his own front yard.

Not to be overlooked is the LARGE-POCKETED CAMPROBBER. He is known to have carried off the grate from the roadside barbecue pits, to appropriate it for his own use. Neither does he think anything of toting all the extra state park firewood home with him.

Then there's the REDHATTED LOON who doesn't know the difference (or care) between a 12-point buck and the farmer's choice Jersey cow. He's the farmer's delight. But only if the cow is heavily insured.

Too, let's not forget the ROOST-ERTAILED WATERTHRASHER. He's the speed demon of the waterways. This gink "wakes up" the fishermen with mammoth man-made waves. He boils them up as close to the angler's boat as the law allows... if not closer.

All these birds are fun-spoilers for everyone else. Evidently all they are out for is a lark.

These birds are not legal game. But more than one hunter thinks they should be. Among those who think so are the farmers whose cows are killed; the landowners whose fences are torn down; and the hunters whose lives are endangered.

Let's not spoil the fun for anyone. As we take to the field for a day of pleasant hunting, let's be more considerate of "the other

PHILLIPS QUICK SERVICE
KEITH KEMP

**March of Dimes Aids Child Polio Victim;
She Dedicates Herself to Helping Blind**

At one despairing point during Mary Jo Phillips' seven-year confinement in a hospital near Boston, and while she was an iron-lung prisoner of polio, a nursing nun read aloud to the frightened little girl these words of the tormented Job:

"I was eyes to the blind."

Mary Jo, herself tormented after seven operations and three months in an iron lung, never forgot Job's words. At Kennedy Memorial Hospital, Brighton, a nun and physical therapist suggested that since the plight of the blind touched Mary Jo deeply, she might want to try her hand at transcribing Braille.

Nothing interested her more. Mary Jo's fascination with learning to write for the sightless was healthy in two ways. Physically, the manual effort of applying the Braille awl to the fiberboard strengthened her thin arms and fingers once paralyzed by polio. And spiritually, this labor of love for those even more terribly afflicted than she, expressed her gratitude to God at surviving her own ordeal.

The first words Mary Jo wrote in Braille, for the blind to read through their finger tips, were those of the unhappy Job. (The Old Testament patriarch was reminding the Lord of his own succor to those whose eyes had failed.)

Mary Jo, who is 14 and has spent half of those years in hospitals, now is home with her overjoyed parents, Mr. and Mrs. George Phillips of Whitman, Mass. In her wheel chair, the child continues her plucky fight today against the ravages of bulbar polio.

With \$32,000 in March of Dimes contributions, The National Foundation has brought Mary Jo along to the point where she can type slowly, write, paint water colors, dress herself "with just a little help," and even walk a few steps supported by her crutches.

But above all, the little girl is devoted to her labors with Braille. When she completes the "bible" that is never far from her, "Standard English

Using special awl for writing in Braille, Mary Jo Phillips punches out text on fiberboard.

Mary Jo's first line of Braille, written for the blind during her seven-year hospital stay, fighting polio.

Braille in 20 Lessons" (she sleeps with it under her pillow), Mary Jo is planning to transcribe fairy tales and Mother Goose rhymes into the pointed-dot vocabulary of those who live in darkness.

When four years hence her home instructor gives Mary Jo her high school diploma, she plans thereafter to study the teaching of Braille to blind children. That will be Mary Jo's inspiring career, a lifetime of serving selflessly as "eyes to the blind."

Dear Santa,
I am a little girl 2 1/2 years old; and have been a pretty good girl, at least, most of the time. I really want a 2-wheel bicycle, a record player, a doll and some dishes for Christmas—but if you don't happen to have all these things for me; I'll just take anything you choose to leave for me.
I still live in Midland, but I'll probably be in Post for Christmas; so when you leave my Aunt Zelik's presents under the tree, you can just leave mine, too. Okay?
Please remember all other boys and girls, Santa, and especially those who particularly need your help.

Station manager wins new Falcon automobile

L. B. Pate, manager of the Space Gas Station on South Broadway, was winner of the new 1961 Ford Falcon awarded Saturday night by the Tower Theatre through the cooperation of local merchants.

Johnny Hopkins, manager of the Tower Theatre, which has been awarding new automobiles for the last several Christmases, said Pate seemed "mighty happy" at his good luck in winning the new car.

Postings--

(Continued from page 1)
We are printing a total of 250 letters to Santa Claus. If you want to re-establish your faith in the human race just take an hour and read them all. We guarantee the youngsters will put the spirit of Christmas in your heart if it isn't there already.

This Dispatch, crowded into a big extra-special 24 pages, also contains the holiday best wishes of well over 100 local merchants and professional folks. These include a full-page Christmas greetings from the Postex Cotton Mills and their 485 employees all listed under the holiday best wishes—a heart-warming Christmas tradition with the mill that does, in our estimation at least, an excellent job of public relations with the community in which it lives and works. The beautiful greetings ads make this Dispatch the prettiest paper of the year as well.

Neighbor R. G. (Wilke) Wilkerson, next door at Wilson Supply, is an energetic soul who always has something new on display. But his latest tops them all—a toilet van. We won't try to describe just how this Rube Goldberg "apparatus" fires a blank cartridge around the corner to "unstop" the pipe. Wilke does such a fine job of demonstrating we'll leave that to him. Next time you have a moment just drop into Wilson Supply and ask him to show it to you. It'll give you a good chuckle. Wilke ought to offer a prize for the best name for the gun.

Remember Ducky McCaleb, the round-faced young fellow who came to Post last spring to open Ducky's Drive-In, a beer establishment at the far end of "Bourbon Street"? We ran across Ducky (C. L. is the proper initials) the other day and he handed me a copy of the Dec. 11 Paris (Texas) News which had his picture among others on the front page along with a No. 1 story of how Paris "landed the new Roka-Bed manufacturing plant." Ducky is vice president of the concern which manufactures and distributes baby beds, baby bottles, bottle holders, stereophonic public address systems, portable shower cabinets for hospitals and rest homes, home steam bath units and electronically automatic irrigation systems. Other plants are located at Lubbock, Fort Worth and Austin. Ducky invented the electronically automatic rocking baby bed from which the company derived its name and several other products. Production is scheduled to get under way shortly after Feb. 15 in Paris with 50 or more employees for the initial payroll in a 35,000 square foot manufacturing building there. Quite a switch from rocking baby beds. We wish Ducky the best.

Along with our Christmas card mail yesterday arrived a very neat and attractive announcement that Dowe H. Mayfield Jr., formerly of Post has been appointed special representative in Lubbock for Business Men's Assurance Company of America. We thought young Dowe's many friends would be happy to hear of the latest progress of this personable young fellow. Dowe is one who is a staunch supporter of Dispatch advertising. He tells us his small regular ad on the sports page of every Dispatch over the last few months has brought him plenty of inquiries and eventually good customers.

The Dispatch office will be closed Monday, as most Post businesses, to observe the Christmas holiday. But since we only operate Saturday mornings we've decided to close Saturday morning too to give the employees a chance at a real holiday weekend. In our business you have to "get the paper out every Thursday" and sometimes we simply can't observe all the holidays we'd like to—so this weekend Christmas gave us a chance to "make up a little" with the finest newspaper staff, both front and back, any newspaper could have.

Business prospects for early 1961 look good for Post with a lot of the dry land farmers in the area reporting the finest dryland cotton crop they've ever harvested. By the time the gins are through we figure this will be the second biggest cotton crop in the history of the county—the biggest being 20 to 30 years ago when there were no acreage restrictions.

To every one of 5,750 readers we'd like to wish the best and merriest of Christmases. And don't forget to take the time—for your own good—and read all our Santa Claus letters in today's edition.

County purchases 3 new vehicles

Garza County, through action of its commissioners' court, has purchased a new pick-up truck and two new automobiles for county departments.

A new pick-up was purchased for the county agent and two new "police special" cars were bought for the sheriff's department.

The vehicles were purchased from Caprock Chevrolet Co.

There was \$700 difference for the county to pay between trade-in on the old pick-up and the new one, and \$1,800 difference between trade-ins on each of the old police cars for the new ones.

The pick-up traded in was a 1960 model Chevrolet, which went for a 1961 model, and the police automobiles were a Plymouth and a Ford, which went for new Chevrolets.

Since the county paid cash for the new vehicles, it was not necessary to ask for bids on the purchases. The Dispatch was informed.

Holiday time-off set for garbage trucks

Because of the Christmas holidays, there will be no city garbage collections from Saturday noon until Tuesday morning, City Supt. Henry Tate announced today.

The sanitation department's garbage truck will make its usual Monday run on Tuesday and its usual Tuesday run on Wednesday, with the schedule in the residential district returning to normal on Thursday morning.

Mr. and Mrs. George Booher and children plan to spend Christmas Eve night with her parents in Lubbock. They will go to Big Spring to visit his brother on Christmas Day.

Presbyterians in fund drive for new church

A financial campaign for a new Presbyterian church will be "kicked off" at 7:30 p. m. Friday night, Dec. 30, at the church when the Rev. Hoytt Boles, synod executive of the United Presbyterian Church of Texas, will be the principal speaker. He is from Denton.

Arrangements for the membership meeting were made Tuesday night by the stewardship committee of the church.

A tentative starting construction date for a new church unit to cost between \$90,000 and \$100,000 has been set for June, 1962.

It will be constructed on a half-block site already purchased by the church on the north side of West 10th Street between Avenues S and R.

The new church will include a new sanctuary, educational classrooms and fellowship hall. It will feature an iron free-standing cross 35 feet in height.

Building plans for the new church plant will be ready within two weeks. The architect is Henry Steinbommer of San Antonio, widely recognized Texas church architect.

Bryan J. Williams is chairman of the church's building committee and Irby G. Metcalf Jr., is financial chairman of the building fund drive.

COMPLETION NEARS ON PLANS FOR DAM

Final plans and specifications for the long-sought White River dam will be ready shortly after the first of the year. White River directors were told last Thursday night at their December meeting in Spur.

Jim Nichols of the engineering firm drawing the plans said they were almost complete.

A hearing is scheduled in Austin for 10 a. m. Wednesday, Dec. 28, on the White River district's application to the board of water engineers to move the dam site down river from the original location to secure a more favorable and economical site.

R. J. Jennings of Post will be among those attending the hearing.

The board authorized its attorney, Lloyd Wicks of Ralls, to draw up a right-of-way easement for the district's big water pipe lines to the four towns. A special meeting may be called to approve it, so party owners involved can begin in January.

Attending the White River board meeting from Post were Tom Bouchier, board chairman, Jennings, Mayor Powell Shytle, a member of the al-important land committee of the district, and Publisher Jim Cornish.

Former resident buried at Ralls

Funeral services for D. A. (Don) Murray, who was a resident of Post in the town's early days, were held Friday at Ralls.

Mr. Murray, who was 75, died at Houston of a heart attack Tuesday of last week.

After coming to Post, Mr. Murray worked for the C. W. Post interests and later was in the men's clothing business here. He moved away a few years before the first World War.

Mr. Murray was reared at Old Emma, in Crosby County. His father, the late J. W. Murray, was editor of the Crosby County News.

While a resident of Post, Mr. Murray was married to Miss Jennie Price, who was the secretary of C. W. Post, the town's founder.

The funeral services were held in Carter Funeral Home Chapel. Masonic graveside rites at the Ralls Cemetery were conducted by members of the Post Masonic Lodge, of which Mr. Murray was a member.

Mr. and Mrs. O. L. Weakley were among those from Post who attended the funeral.

HOME FROM AUSTIN

A CHRISTMAS THOUGHT—OR TWO

Christmas will have a double meaning this year for movie star Rita Gam. There'll be the usual decorating and gift-buying, with Savings Bonds for family members. But the birthday of Christ should have added significance for her after completing her latest film, "King of Kings." This newest film story on the life of Christ is due for release early next year. Meanwhile, Rita is preparing to enrich her children's Christmas with United States Savings Bonds. "I've always found Savings Bonds ideal gifts for Christmas," she says. "And in the case of my two children, they will have a good supply to help meet their college expenses when they grow up." The 32-year-old actress has been a star of stage, screen and television since her 'teens.

The Greatest Gift

It's wonderful to receive "the world" for Christmas—but think how much more wonderful it would be if we could give Christmas to the world! If the true Christian spirit could permeate the globe, all fear of war, destruction, extermination, would be over.

It is only through the Church that Christian teachings can hope to reach to the darkest corners on earth, bringing enlightenment in their wake. By proclaiming God's eternal message, the Church can bring the hope of peace closer to reality.

But if Christmas is to be given to the world, then all of us must first do our part by living our own individual lives in the Christian way. Start now—by attending regularly the church of your faith.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Brownfield Cubs win cage tournament

Caprock Tournament Monday

Post, Dimmitt open 'firing'

Richard Souter's Post will meet the tournament Dimmitt Bobcats at Monday in the featured game of the annual Caprock Tournament in the Coliseum.

Floydata, Morton Doe cagers

Richard Souter's Post team, however, by defeating Floydata last Thursday night, lost, 37 to 27. Nita Wilson scored 19 points and Ruthell Marston for Post. Verna Pate's team topped the Floydata out-

schools bracket of the tournament. They won their way into the championship game by defeating the Monterey Lancers and then upsetting the Dimmitt Bobcats, who later were Class AA runners-up in the state tournament in Austin.

Post girls going to Duncanville

Coach Don Watkins and his Post Doe basketball team will leave by school bus at 8 o'clock Monday morning for Duncanville, near Dallas, and the 24-team Duncanville girls' basketball tournament.

The Post team's first game will be at 9:15 p. m. Tuesday against East Lamar of Pattonville. If the Does win, they will play again at 6:30 p. m. Thursday, and if they lose, they play at 1 p. m. Thursday.

Other area teams entered in the big Duncanville meet include Bala, Sudan, Tulla, Muleshoe and Sanda High School of Ackerly.

Antelopes take seventh place

The Brownfield Cubs, blessed with a height advantage, defeated the Plains Cowboys, 49-31, Saturday night to win the Post basketball tournament, which was shifted here from Denver City when the latter's football season extended through Friday and a state championship.

The Seagraves Eagles won third place with a 67-33 victory over O'Donnell; the Tom S. Lubbock Cowhands captured fifth place.

ALL-TOURNEY TEAM

Post's Donnie Hays was one of the ten players named to the all-tournament team in the basketball tournament here over the weekend. The champion Brownfield Cubs placed Kenny Snider and Teddy Howell on the team, and runner-up Plains placed Jack Meixner and Joe Don Marrow. Others named were Joe Faulkenberry, Seagraves; Wendell White, O'Donnell; Larry Christian, Lubbock "B"; Jerry Koller, Littlefield and Gary King, Muleshoe.

Post's 8th grade girls' basketball team came from behind in the final minutes Saturday to defeat Slaton, 17 to 14, and win the championship of the Slaton Junior High Tournament.

Behind 9 to 3 at halftime, Coach Billy Hahn's girls finally went ahead of the host team with 1:13 remaining.

Post quints lose at Colorado City

The Post Antelopes dropped a twin bill at Colorado City Tuesday night, the regulars going down 58-46 and the "B" team losing the preliminary 33-28.

Colorado City jumped out in front with a 14-point lead by the end of the first period and led all the way with the Antelopes making their best showing with a 20-point final quarter.

Colorado City held a 27-16 halftime advantage and boosted that to 47 to 26 by the end of the third. Bobby Beard and Leo Acker tied for top honors for Post with 10 points apiece, while Compton led Colorado City with a 20-point night.

The Antelopes have no games scheduled this weekend but will practice hard through Saturday for the Caprock Tournament at Lubbock which opens Monday.

Coach Souter said following the tournament that he and other school officials were disappointed over the low attendance figures for the three-day tournament.

"We realize, of course, that we got the tournament on rather short notice, but even at that, attendance should have been much better than what it was," Souter said.

Attendance on the part of the student body was especially disappointing, the school officials said.

Trophies were awarded first, second and third place winners, with individual trophies going to the ten members of the all-tournament team.

At football banquet Monday evening

Antelopes hear Holub

"You can't just sit around and expect to get any place; you've got to put something into it," Texas Tech's All-American E. J. Holub told Post football players, their fathers and other guests here Monday night at a football banquet sponsored by Antelope boosters.

Holub took little personal credit for his success on the gridiron and for the many honors which have come his way during the last two seasons.

"I feel that God gave me the mentality and the physical ability, and I also owe a big part of whatever success I have attained to my parents," Holub said.

Holub was accompanied by his father to the banquet, which was held in the school cafeteria, with approximately 180 persons attending.

The guest speaker and each member of the Post coaching staff was presented a gift on behalf of the Antelope boosters.

The football players—from the 7th grade through the 12th—were introduced by their coaches. Also introduced were the players' fathers who accompanied their sons.

Burton Hill, president of the Antelope Booster Club organized during the 1959 season, presided at the banquet. He pointed out that the club is now inactive, but that he and other members feel it should be reorganized. Agreeing with him in brief talks were Vernard Alexander, athletic director and head football coach, and others.

The meal, served buffet style, was prepared by Tom Williams.

About Your HEALTH

A weekly public service feature from the Texas State Department of Health. HENRY A. WOLFE, D.D.S., Commissioner of Health.

There are more than 100 children's dental clinics located in various Texas cities sharing in the cooperative program maintained by the State Health Department's Dental Health Division.

Sharing is the key word. The local area usually furnishes most of the equipment, lay personnel, professional assistance, and suitable space.

The State Health Department contributes funds for professional dental services in 14 different Texas dental clinics.

The clinics are operated for the benefit of children who need dental care, but whose parents are unable to finance adequate treatment.

Equipment for the clinics is gleaned from many sources including dentists' offices, supply houses, lumber yards, plumbing firms and hospitals as well as local health departments.

In many areas fund-raising campaigns are utilized to accumulate enough money to purchase major items of equipment such as X-ray machines and dental chairs.

To ensure an adequate supply of dentists to the clinics, local dental societies cooperate with volunteer dentists assigned specific dates on a rotational basis to serve a morning's tour.

In many instances dentists work without compensation, contributing any recompense received to special funds maintained for the purchase of special equipment.

To carry the workload forced by the mass of paper work, arrangements, cleaning up, and lay assistance, volunteer agencies or clubs often assign committees to assist the clinics—or even operate it entirely except for professional services.

The scope of the various clinics differs widely, dependent mostly on conditions in particular metropolitan areas. One Texas city maintains 23 dental clinics—most of them on a year-round basis.

Any community—large or small—desiring a dental clinic for indigent children may receive additional information from: Dental Health Division, State Health Department, Austin, Texas.

BOOK REVIEW

Long-lost ruby proves mystery

SEA VIEW SECRET by Elizabeth Kinsey.
 This is an interesting book about a boy and girl, Peter and Jane Bowan, who move from a large city to a suburb called Sea View Gardens. They meet a boy and girl about their age, who live in an old mansion called Sea View. They learn the old building has a history of the last ruby. They hunt the mansion over to find the ruby.
 The group believed that it was taken by a monkey that lived with the family at the time. The ruby was finally found in a miniature ship that was kept on the mantel where the monkey rested. —CHERRI CUMMINGS
