New members of the Garza County sheriff's department are shown in the top picture at Sunday morning's swearing-in ceremony for new county officials. At the right is Sheriff Fay Claborn, with Deputy Elton Corley in the center and Deputy Oscar Gray at the left. In the picture at the left, Jack Myers, left, is being welcomed as the new Precinct 1 member of the commissioner's court by Ozell Williams, who was re-elected Precinct 3 commissioner.—(Staff Photos.)

### Sheriff, deputies, other officers are sworn in Sunday

A new sheriff and two new deputy sheriffs were among the Garza County officials taking their oaths of office Sunday morning at a ceremony in the district courtroom here.

Fay Claborn, with five years' deputy experience under three different sheriffs behind him, was sworn in as the county's new sheriff. Also taking their oaths of office were his deputies, Elton Corley and Oscar Gray.

The only other new member of the official courthouse "family" sworn in was Jack Myers as county commissioner, Precinct 1.

Incumbents taking their oaths of office for new terms were T. H. Tipton, tax assessor-collector; Carleton P. Webb, county attorney; Ozell Williams, county commissioner of Precinct 3, and J. A. Johnson, Precinct 1 constable.

Mrs. Gladys Pennell and Mrs. Ruth Reno were sworn in as deputies in the tax office.

County Judge J. E. Parker presided at the ceremony and the oaths of office were administered by County Clerk Carl Cederholm.

After being sworn in as the new county sheriff, Claborn reiterated to The Dispatch his policy of "fair and impartial" law enforcement.

He said members of his department will cooperate at all times with city law enforcement officers, highway patrolmen, state liquor board agents, Texas Rangers, and all others engaged in keeping law and order.

Claborn also announced "around the clock" police radio service at the sheriff's office. He named W. L. (Walter) Crider, Derwood Mayberry, Dr. C. J. Lewis and Albert Thomas as radio dispatchers.

Crider, formerly in the insurance business here, will work the 8 a. m. to 5 p. m. shift, Mayberry the 5 p. m. to 12:30 a. m. shift, and Dr. Lewis, a chiropractor here, the 12:30 a. m. to 8 a. m. shift. (See SWEARING-IN, page 8)

## Verbena to hold MOD box supper

The 1961 March of Dimes in Garza County will get under way Saturday night with a box supper at the Community Center in the Verbena community.

The box supper, all proceeds of which will go to the March of Dimes, will begin at about 7:30 o'clock, according to Harold Lucas, county MOD chairman.

David Tyler and Walton McQueen have been named by the drive chairman as MOD chairmen in the Verbena community.

Other community chairmen announced this week by Lucas include B. J. and Russell Wilks Jr. of Garza County.

### New auto tags expected soon

The arrival of Garza County's shipment of 1960 motor vehicle license tags is expected soon, County Tax Assessor-Collector T. H. Tipton said today.

The tax office has already received the invoice on the more than 4,000 tags being shipped to Garza County.

Of the total, 2,600 will be passenger automobile license plates. This year's tags, black on white—reverse of the 1960 white on black—will start at BK 2950 for Garza County and go through BK 5549, the invoice shows. Last year's prefix for the county was BJ.

The number of other tags shipped to Garza County are: truck, 715; farm truck, 500; tractor, 55; farm truck-tractor, 4; trailers, 225; house trailers, 35; motorcycles, 30; dealers, 12.

The new license plates will go on sale Feb. 1.

and speaker for the annual membership banquet.

Scarborough, who is able to be up and around some after being seriously injured in an automobile accident in November, is the present vice president of the organization.

Walter Lee Johnson, manager of Forrest Lumber Co., was elected vice president yesterday and will serve as president until Scarborough is able to assume full duties as Chamber president.

The directors set Feb. 16 as the date of the annual banquet and named Dr. C. L. Kay, vice president in a row, reveal that the biggest single permit last year was for the Post Bowling Center at \$82,-

Seven members were nominated for director posts with five to be elected. Ballots will be mailed next week, according to Mrs. Joan Stewart, Chamber secretary. Members are asked to mark their ballots and return them not later than Jan. 21.

Nominees for the five directors' posts are Arnold Parrish, Giles C. McCrary, J. B. Potts, Dewitt Caylor, Don Dunbar, King Ardis and George Tillman.

Directors whose terms are expiring are A. Lee Ward, outgoing president; Wallace Simpson, L. W. Duncan, Paul Jones and Claud Collier Jr.

### Dog ordinance is to be enforced

The Post city council decided to put "teeth" into its dog ordinance at its regular January meeting Monday night.

The council voted to advise people via The Dispatch of the ordinance calling for anti-rabies vaccination and city licensing of dogs and then to start picking up and destroying canines whose owners have not complied with the ordinance.

After being vaccinated against rabies, dogs can be licensed at the City Hall for \$1 each.

The council also heard an application, but took no action, from Paul Capps that he be granted a city taxicab permit.

A resolution calling for a letter of sympathy to Mrs. Lois Williams on the death of her husband, Dr. D. C. Williams, was adopted by the council. Dr. Williams had served as city and county health officer for 44 years.

# Railroad crossing crash here injures two, one critically

Two persons were injured, one critically, shortly after midnight Monday when their pick-up truck struck the lead diesel engine of a northbound freight train at the

Main Street crossing here. Joyce K. Hildebrand, about 35, driver of the pick-up, suffered a severe head injury when he was thrown from the vehicle and drag-

ged some 25 or 30 feet. He had not regained consciousness late yesterday at Garza Memorial Hospital. Hildebrand's wife, the only other

occupant of the pick-up, is hospitalized with injuries to both legs. She was not thrown from the pick-up. City Marshal Otis G. Shepherd

Jr., who with Deputy City Marshal Sam Price investigated the accident, said the Hildebrands' pick-up was spun around by the impact and thrown across the east tracks.

The 1960 Chevrolet pick-up was said by the officers to have struck the engine just under the cab door. The hood of the pick-up was torn off and carried 400 or 500 yards down the track by the train.

The officers set the time of the accident as 12:55 a. m. Tuesday. The pick-up was approaching the crossing from the east on East Main (U. S. Highway 380).

Trainmen estimated that the 117-car freight train was traveling at 35 miles an hour at the time of the accident.

P. C. Brasfield of Slaton was the engineer on the train and J. H. Shelby, also of Slaton, was the conductor.

The train was delayed one hour and five minutes for the investigation which followed the accident.

The full extent of Hildebrand's injuries had not been determined late yesterday. In addition to the head injury, he received severe facial cuts.

The Hildebrands, residents of (See TRAIN CRASH, page 8)

### Youth injured in car-cycle crash

Jim Baker, 19, of 309 West 13th, suffered a broken bone and a deep gash in his right leg about 6 p. m. Saturday when his motorcycle was struck by an automobile at the intersection of East Main and the Ralls road.

Frank E. Cisneros, driver of the car which struck Baker's motorcycle, was arrested Saturday night. City Marshal Otis G. Shepherd Jr., one of the investigating officers, said Cisneros did not stop at the scene of the accident.

Records yesterday in the county sheriff's office disclosed that Cisneros was booked for driving while intoxicated.

The youth's right leg was pinned beneath the motorcycle after it was knocked over by the automobile. Shepherd said the motorcycle was traveling east and the automobile west on the highway at the time of the accident.

The city marshal said an eyewitness told him the automobile turned in front of the motorcycle. Young Baker was still in the hospital yesterday, where doctors were waiting until the gash in his leg healed more before putting on a cast.

The youth is the son of Mrs. Mary Baker.

### 1961 marriages to

## Cost more

Couples contemplating the matrimonial plunge this year are advised that it will cost more in Garza County.

County Clerk Carl Cederholm said today that Garza County has joined neighboring counties in deciding to charge the maximum total fee of \$4.50 for issuance of marriage licenses.

That is \$1.50 more than the \$3 total that has been charged in the county.

Cederholm said the legal maximum of \$4.50 is broken down as follows: \$3 for license and recording of same; 25 cents for filing of each medical certificate; \$1 certification fee.

The increase in the marriage license fee became effective Jan. 1, the county clerk said.

### For one of best crops

## County ginnings nearing 25,000

Ginnings from Garza County's 1960 cotton crop were hovering at the 25,000-bale mark yesterday in the first week of the new year.

With six of seven gins contacted reporting they were "just about through," it appeared doubtful that the county total will hit the 30,000-bale mark, but as it stands now, it is one of the best cotton crop yields in the county's history.

The Dispatch was unable to contact the Planters Gin in Post, where the last-reported total, on Dec. 21, was 3,242 bales.

By now, the total at the Planters Gin probably would be in the neighborhood of 3,500 bales. That, with the totals reported yesterday by six other gins, would place Garza ginnings to date at 24,989 bales.

The Hackberry Gin had turned out 5,324 bales, half of that number estimated to have been ginned from cotton grown in Garza County. It was estimated there that from 75 to 100 bales remain to be ginned.

## Postal receipts, bank deposits set records

New record highs for both bank deposits and postal receipts here at year's end give real cause for optimism for Post's business outlook for New Year 1961.

Irby G. Metcalf Jr., president of the First National Bank, reports bank deposits as of Dec. 31, 1960, at a record high of \$7,885,945.

This compares with the previous year-end high set in 1959 of \$7,505,570.76.

Metcalf also reported the bank's capital surplus, undivided profits and reserves as standing at \$694,096 at year's end—another high.

Postmaster Harold Voss had more good news to report in postal receipts.

The gross 1960 receipts here climbed to \$47,048, the highest ever. Just as in bank deposits the previous high came the previous year. In 1959 postal receipts locally totaled \$45,532.

Bank deposits and postal receipts are regarded as two of the best possible community business barometers.

With gins reporting the second biggest cotton crop on record for the fall harvest of 1960 and the county harvesting a bumper milo crop as well, farmers appear to be in good shape for the new year.

An analysis of Post's 1960 construction figures, which topped a million dollars for the second year in a row, reveal that the biggest single permit last year was for the Post Bowling Center at \$82,-

### Clothing stolen from auto here

A corduroy coat, a pair of shark-skin trousers, a reversible type jacket and a shirt were stolen from the automobile of R. G. (Wilke) Wilkerson sometime Friday night while the car was parked in front of the Wilson Supply Co. store, of which Wilkerson is manager.

In his report to the sheriff's office, Wilkerson said that the articles of clothing were stolen while he and James Black, an employee, were in the store taking inventory.

Wilkerson said he usually locks his automobile at all times, but that this time he had left it unlocked.

### Lisa Lou wins Dispatch contest

## 'First Baby' is Cowdreys

Lisa Lou Cowdrey was born at 7:03 p. m. yesterday to Mr. and Mrs. Bobby Cowdrey at Garza Memorial Hospital to win The Post Dispatch's 1961 Garza County Baby Derby.

Lisa Lou weighed eight pounds and three ounces at birth. She is the third of three daughters for the Bobby Cowdreys. The other two are five-year-old Ella Sue and two-year-old Amy Lenora.

Little Miss 1961's parents are lifelong residents of Garza County. The father, who is engaged in general transportation and hot oil work, is the son of Mr. and Mrs. Delmer Cowdrey of the Graham community. The mother is the former Miss Jennie Lou Redman, daughter of Mrs. Ethel Redman of Post.

This year's winner of The Dis-

patch's first baby contest arrived five days earlier than last year's winner—Karia Kay Peppers—born at 11:22 p. m. Jan. 3, 1960, to Mr. and Mrs. Wade Peppers.

The Cowdreys will receive gifts worth \$140 or more from the hospital, 12 local merchants and The Dispatch for Lisa Lou.

The hospital for the third year is giving free hospital care for mother and baby up to five days.

Merchants giving awards listed last week are Maxine's, Her-ring's, Bryan Williams & Son, Duxlap's, Ideal Laundry, Bob Collier Druggist, Wachter's, West-ern Auto, E. J.'s Furniture, First National Bank, The Lavello Shop, and Jackson Brothers Food Lock-ers.

The burglars gained entrance to the store by prying the lock and hopped off the back door. Minor said the store's office was left in a mess, with desk drawers pulled out, and a small amount of money missing from a postage stamp money box.

The manager said the intruders left the back doors wide open, indicating that they left in a hurry.

A Saturday night or early Sunday morning burglary at John Smith's restaurant in the colored section of town was investigated by Deputy Sheriffs Elton Corley and Oscar Gray, who had been sworn into office only a few hours earlier.

The officers said about \$8 was stolen from two coin vending machines in the restaurant.

There was a total of \$54,500 in construction along "Bourbon Street" in taverns, liquor stores, liquor store move-ins and remodelings, and liquor warehousing, from the April wet vote in Precinct 3 until the end of the year.

Not all of such construction was within the city limits and thus not all was counted in city construction—only the \$54,500 listed.

A total of 58 permits also were issued for remodeling, repairs, additions, new roofs, new garages. (See '60 CONSTRUCTION, page 8)

### Machine trips burglar alarm

A transistor burglar alarm in a check-writing machine is believed to have cut down on Mason & Co. furniture store's loss to burglars late Friday night or early Saturday morning.

James Minor, store manager said the check-writing machine with the built-in burglar alarm was found in the back of the store and had been covered up, indicating that the burglars had tried to muffle the alarm.

Minor said they at first thought that the check-writing machine, which they keep in the office, had been stolen, but that they later found it in the back of the store.

The burglars did carry off two transistor radios, however.

Minor said today that a check is continuing to determine if anything besides the radios was stolen.

The burglars gained entrance to the store by prying the lock and hopped off the back door. Minor said the store's office was left in a mess, with desk drawers pulled out, and a small amount of money missing from a postage stamp money box.

The manager said the intruders left the back doors wide open, indicating that they left in a hurry.

## What are our expectations?

With the Post Chamber of Commerce getting ready for a new club year—election of directors, election of officers and annual membership banquet—now is a good time to take a few minutes and give serious thought or consideration to the question—what do we expect from our Chamber of Commerce?

If we haven't already, it is time that we spent that few minutes and gave this subject our thoughtful meditation. We, our business and our community are no better than we make our Chamber.

If our Chamber of Commerce is neglected, if it is apathetic, if it is ineffective, then it is the reflection of the attitude of the business interests in the community.

Any organization of business men, whether it be termed a Chamber of Commerce, a Board of Development or a Business Men's Association, has as its primary objective the promotion of business in the community. Secondly, it has responsibilities for the advancement of the civic and cultural interests in the area, but basically, these secondary functions are important because they have an indirect effect on the primary function.

Now, after we have made a detailed list of the things we expect the Chamber to accomplish, then let us immediately opposite this list record the activities in which each of us has personally engaged to assist in the accomplishment of these objectives.

Then let's compare the list and see which is the shorter. In many cases, the list of expectations will be long and the list of activities will be non-existent.

This analysis adds up to only one proposition and that is that no Chamber of Commerce can accomplish any more, achieve any greater results or rise to the heights which most busi-

nessmen desire, than the personal efforts of its membership.

Basically, no organization of this nature can become effective unless it enjoys the support of the entire community.

Membership alone, however, is not enough. That membership must be active, cooperative, enthusiastic and willing. We may feel that our business needs all our time. Whose doesn't? Yet, one business—no matter how well managed—cannot carry the load. It is only if the business on each side of us is doing as good a job as we are that the combined efforts of everyone will develop the traffic, the interest and the buying spirit that will make for a successful business community. That is where our Chamber of Commerce comes in—to coordinate these good-business efforts for the common good of the community.

Willingness and individual effort to make one's community grow and prosper must be consolidated, must be encouraged and, most of all, MUST BE LED.

No one individual, no one group can give that leadership. Only the Chamber of Commerce is designed for that purpose and, with the overall membership mentioned heretofore, is capable of giving and providing that leadership.

The real question to ask yourself is, "Do I want a Chamber that means something to the community, or am I willing to let it slide?" Our decision may be all-important, because if we are not sufficiently interested to take an interest in our own business and business organization to put forth the effort necessary to support it, we'll find that our customers will be imbued with the same spirit and will go where the businessmen are more interested and where the Chamber of Commerce, accordingly, is more effective.—JC and CD.

## THURSDAY to THURSDAY

By CHARLES DIDWAY

A QUICK LOOK at the new 1961 calendar, which will be nearly five days old by the time this appears in print, shows that the New Year starts on a Sunday and ends on a Sunday.

The calendar also shows that we start right off the first month with a Friday the 13th, which will be one week from tomorrow. The only other Friday the 13th this year will be in October.

SOMETHING ELSE I didn't know until I hung the new calendar was that Easter Sunday will be April 2—15 days earlier than last year—and that July Fourth falls on a Sunday.

By the way, it is not too late to make your New Year's resolutions if you forgot to make yours on the first of the year. Just start compiling your list of resolutions now, and then do your resolving on any of the following New Year's days: Chinese, Feb. 18; Persian, March 21; Siamese, April 1; Mohammedan, April 26; Alexandrine, Aug. 29.

THE MAN UP the street says an efficiency expert is a man who is smart enough to tell you how to run your business, and too dumb to start one of his own.

The Fisher County Sheriff's posse, which probably has won more first place trophies in Post rodeo parades than any other riding group, will appear in the parade at the inauguration of President John F. Kennedy. If the Fisher County riders have as big a time as did the Hockley County Sheriff's posse eight years ago in the President Eisenhower inaugural parade, it will be an event for them to remember. I lived in Levelland when the Hockley County riding group received its invitation to the parade, and the preparations and the trip to Washington turned out to be one of the year's big news events there.

IF YOU ARE an average American you consumed an estimated 1,488 pounds of food this year.

The Agriculture Department today broke that down this way:

- 414 pounds of dairy products, except butter.
- 409 pounds of fruits and vegetables.
- 108 pounds of potatoes.
- 178 pounds of meat, fish and poultry.
- 148 pounds of flour and cereal.
- 108 pounds of sugar and syrup.
- 67 pounds of butter, fats and oils.
- 41 pounds of eggs.
- 17 pounds of coffee, tea and cocoa.

Congratulations to former Postite Perry Parsons upon his election as president of the Olton Chamber of Commerce and Agriculture. The Olton organization is a live-wire group and Perry, now an Olton businessman after nearly a life-long residence in Post, will make it a good president.

YOU CAN'T EVER tell—without being able to look into the future—who is going to sit down in the chair next to your desk and engage you in conversation. So it's a mighty good rule to be nice to everybody who drops in for a visit. Last summer, when Sen. Lyndon B. Johnson was a candidate for the presidential nomination, a dapper fellow came in one day, sat down at our desk and introduced himself as John B. Connally of Fort Worth, commander of the LBJ organizations in Texas. We talked about Johnson's campaign for about half an hour, during which Connally made notes on a pad he had with him. He thanked me for the time I gave him, then left. Last week, President-elect Kennedy named Connally as Secretary of the Navy. It just goes to show that nowadays you can't tell when a future cabinet member is going to drop in on you.

Parting Thought: Nature gives everyone five senses: touch, taste, sight, smell and hearing. Everyone needs two more—horse and common.

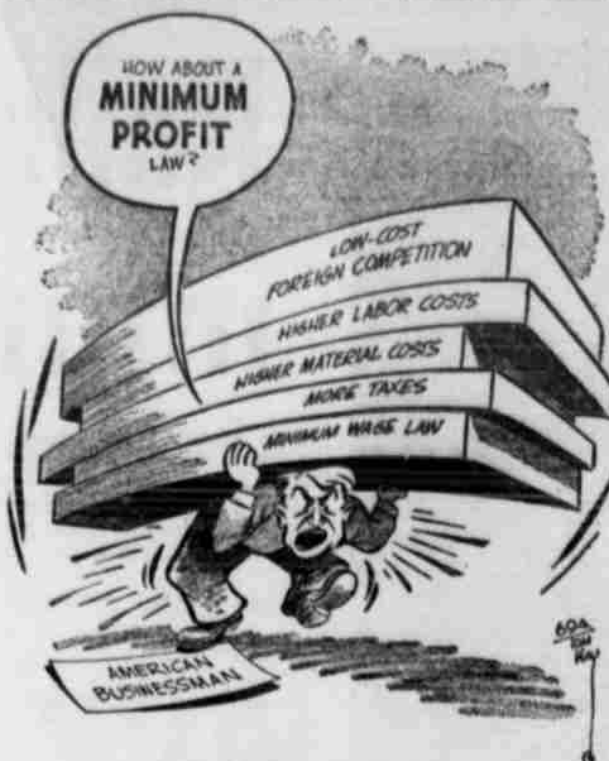

### RECORDS IMPORTANT

The central processing of records is perhaps the most significant development that has taken place in the Dairy Herd Improvement program since the first association formed in 1906, says J. W. Davis, extension dairy specialist. He suggests that every dairyman give serious consideration to enrolling in the record keeping system. The best, he says, so far as completeness and accuracy are concerned.

### NEW RECORD SET

The number of farm and urban families, homemakers and youth receiving assistance from the Cooperative Extension Service of the USDA and Land-Grant Colleges and Universities last year set a new record. More than 13 million people took advantage of the agency's "out-of-school" educational program to help solve farm, home and community problems—an increase of 7 per cent over the previous year.

## Come on in, the water's fine!

The Dispatch takes this opportunity to help welcome "into the fold" at the Garza County courthouse two new officials and two new deputies who took their oaths of office Sunday.

The two new members of the county's "official family" are Sheriff Fay Claborn and Precinct 1 Commissioner Jack Myers. The two new deputies are Deputy Sheriffs Elton Corley and Oscar Gray.

Fay Claborn, who was given an overwhelming vote of confidence in defeating four opponents in the first Democratic primary election last spring, is no stranger to the courthouse and certainly is no stranger to the important job of law enforcement. He has had previous experience as a deputy sheriff. Not only is he thoroughly familiar with the duties of the sheriff's office through experience, but he also has availed himself of the opportunity of attending state-

sponsored law enforcement schools since his nomination.

The Dispatch is of the opinion that it is getting four valuable additions to the courthouse "force" in the persons of the three sheriff's department men and the new Precinct 1 commissioner.

We also welcome back as members of the official courthouse family County Attorney Carlson P. Webb, Tax Assessor-Collector T. H. Tipton and his two deputies, Mrs. Gladys Pennell and Mrs. Ruth Reno, Precinct 3 Commissioner Ozell Williams and Precinct 1 Constable J. A. (Julius) Johnson. The fact that they were re-elected to office is proof enough that they have done good jobs in their respective offices and an indication that they will continue to serve in a manner to merit the confidence shown in them by the voters.—CD.

## Sees bigger home-building year

One local builder told us the other day that he read The Dispatch's editorial prediction that Post couldn't really expect another "million dollar building year" for 1961.

Not so, he declared. He forecast construction of more new homes here in 1961 than ever before.

Behind his prediction was the reasoning that the FHA financing of home construction is due for quick liberalization under the new Kennedy administration, that it may soon be possible to receive 40 year FHA loans instead of 30, and that this will bring three-bedroom brick homes within ownership range of the \$60 a month rental group.

Certainly FHA financing is the biggest boon to local residential construction to come down the pike. It has only been in the last couple of years that it has been easily obtainable for Post. Such financing is much more difficult for

small towns to obtain than the large cities because any sudden population shift, loss of industry, etc., could literally wipe out residential property values in a small town overnight.

But Post has such a bright future, at least in the eyes of the trained real estate appraisers of FHA, that FHA loans are now readily obtainable here.

FHA is so important, because the initial down payment is the big problem. While there is plenty of savings money these days, it is not concentrated in the hands of the younger families who need and want homes.

Other builders may not agree with this prediction. We are no expert in the field ourselves.

But we point this out because FHA financing, finally brought to Post by the energetic efforts of some local business folks who wanted to see the town grow bigger and better, does today and will even more in the future mean a great deal to all of us.—JC.

## Tuition hike proposal hit

The \$190 a year tuition at the 19 state supported colleges is high enough, the Texas Legislature apparently believes.

An Associated Press survey turned up a 3-1 ratio against an increase although about one-third refused to take a position on the question.

There is a chance, however, that mounting pressure for new revenue sources may revise thinking in the waning days of the 57th Legislature.

The Texas Commission on Higher Education has recommended a raise in tuition from \$180 to \$190 for nine months. The commission estimates

this will bring in about \$5 million a year in new revenue.

We hope the majority of the legislators stick by their guns in opposing any move to increase the burden on the students. True enough, the average tuition in Texas is 18 per cent below the national level, but, at the same time, the per capita income is 11 per cent below the national average. That makes it just about balance out.

What do the students think of it? At the University of Texas, hundreds of students already have signed two petitions opposing the tuition raise.—CD.

## What our contemporaries are saying

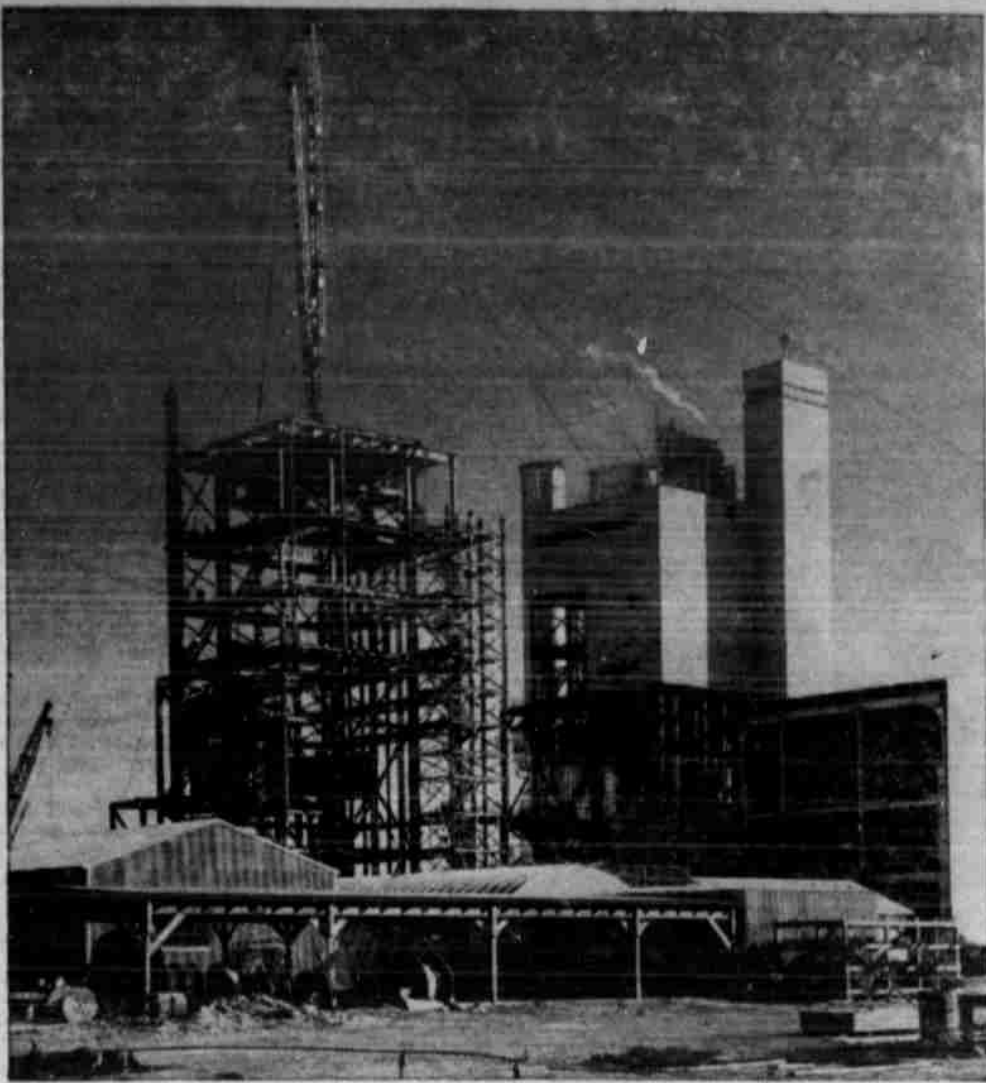

As a dedicated drug store coffee drinker and loafer, I believe that Slaton could be one of the biggest and best operated towns in the world if some of the good advice could be put into operation that is spilled around the coffee tables down town. Having gotten over my enthusiastic days, I almost got thrown out of one of the establishments last week when I stated that it might be a good thing if Slaton does not grow too fast and too big because it won't be long before some space might be of value around here. "Let's fight off the encroachment of Lubbock and its high taxes, highpackers and speed traps," was my suggestion, "and live slow and easy." One of our most fervent city boosters heard my plans and it was all I could do to keep from being mugged. It was my feeble appearance and dumb

expression that saved me.—A. M. Jackson in The Slaton Slatonite.

Convenience and economy have their places in our way of life, with one exception. That is with a range chuck wagon where a cook fries steak on a portable butane range inside a comfortable tent and cowboys carry transistor radios to keep up with the ball games. This is the kind of thing that leads to practically nowhere in trying to keep fresh flowers at the crypt of a long-deceased industry.—Douglas Meador in Matador Tribune.

It's the little things that bother us. We can sit on a mountain but not on a tack.—Beris in The Denver City Press.

ONE PROJECT IN BIG IMPROVEMENT PROGRAM

One project in Southwestern Public Service Company's \$22,000,000 improvement program for 1961 will be continued work on Nichols Station, northeast of Amarillo. The generating capability of the plant is being doubled.

## '61 construction set at \$22 million for SWPS

To keep electrically ahead of the continuing growth of its 45,000 square mile service area, Southwestern Public Service Company will invest more than \$22,000,000 in construction and new equipment

in 1961, it has been announced by A. R. Watson, executive vice president and general manager of the electric light and power company.

Watson added that the company's five year construction and improvement budget anticipates a new equipment investment of \$117,000,000 between now and 1965. He also pointed out that the \$117,000,000 expansion figure equals the total amount that the company had invested in plant and equipment less than 10 years ago, and adds up to more than 45 per cent of the present day investment in plant and equipment of nearly \$260,000,000.

Looking at the national picture in the electric light and power industry, Watson pointed out that, contrary to a number of "scare" rumors that were prevalent during 1960, the United States had added more electric generating capability this last year than had Russia.

"We frequently heard during 1960, usually from advocates of socialized government power, that Russia was overtaking the United States in the generation of electric power. The fact of the matter is that the United States has more than 2 1/2 times as much generating capability as Russia, and we increased our lead in 1960," he said.

Electric service took another giant stride in 1960 to bulwark its claim as the biggest bargain in the family budget. Southwestern's average rate for a residential kilowatt-hour dropped to 2.96 cents in 1960, as compared to 3.05 cents in 1959. The reduction in the last 10 years in the average cost of a residential kilowatt-hour to a Southwestern customer is 21.49 per cent. Only 1.3 cents of each dollar spent by American families goes for electric service, less than the ladies spend for cosmetics.

"Our customers naturally find with delinquents and to help prevent development of delinquency; 5. Testing and guidance programs to spot problem children before they become delinquents; 6. More job opportunities for youngsters to keep them out of trouble.

their bills for electric service higher than they were 10 years ago, because they are using, on the average, 117 per cent more electric service than they did in 1951. A major factor in this increased use, in addition to the many services electricity performs, has been the fact that the unit cost has lowered in the face of increasing prices for everything else, including the things we must use to make the power", Watson pointed out.

Southwestern, along with 10 other investor-owned electric companies in Texas, continues its research activities in atomic energy, through the program of the Texas Atomic Energy Research Foundation.

"Present day atomic plants don't come close to the economy of the modern fuel-powered generating stations we are using in our area. What's more, we have the advantage of a plentiful, although not inexhaustible, natural gas fuel supply. This gives us the opportunity for fusion research in atomic power which offers the possibility that ordinary sea water, which is certainly inexhaustible, would provide the fuel for electric generation", Watson said.

The nation's investor-owned electric companies paid nearly 2 1/2 billion dollars in federal, state and local taxes in 1960. In Southwestern's case, more than 24 cents of every dollar taken in is paid out in taxes.

"It is fortunate that the electric industry continued to grow in 1960, especially in the face of slow-downs in other business fields. The increased tax payments by the electric industry — they were 160-million dollars more than in 1959 — helped strengthen our nation's defenses and contribute to other governmental services," Watson concluded.

Manufacturing plants and laboratories of General Telephone & Electronics Corporation are located in 45 communities in the U. S.

## Former Post man wins promotion in Arizona bank

Bobby R. Pennington, a 1950 graduate of Post High School, has been promoted to assistant vice president of the Southern Arizona Bank of Tucson.

The promotion was announced by Louis J. Felix, president of the bank, and Lewis W. Douglas, chairman.

Pennington is the son of Mrs. Lala Pennington of Post and the late Marvin Pennington. His wife, the former Miss Sue Gillham, is the daughter of the Rev. T. M. Gillham, who at one time was pastor of the First Baptist Church of Post.

Following his graduation from high school, Pennington attended Texas Tech. He had been assistant cashier of the Tucson bank since June of 1959. As an assistant vice president, he will remain manager of the head office install-

ment credit loan department. Pennington has been active in the American Institute of Banking activities and is a deacon and treasurer of the Calvary Baptist Church. He lives at 6858 New Hampshire Dr. with his wife and son.

### Youth Council urges Legislature to enact new 6-point program

AUSTIN—Texas Youth Council urges the next Legislature to enact a six-point program to cut down on the number of youngsters who "turn out bad".

Goals are: 1. Adequate funds to operate the state training schools and orphan homes; 2. A juvenile parole system to provide supervision for youngsters released from training schools; 3. A state home for dependent and neglected Negro children;

4. Local youth councils to work

PICTURE OF A LADY ADJUSTING HER BRAKES  
Back up! Put your foot down! Presto! Your brakes are adjusted if they need it!

1961 FORD SUNLINER CONVERTIBLE

The '61 Ford is so beautifully built that it even takes care of its own brakes! Another example of the sensationally sensible engineering beneath the Classic Ford Look for '61

One of the world's most expensive imported cars has this self-adjusting brake feature and so does Ford! Just one of many new take-care-of-itself improvements! Here's another surprise—you can normally drive 30,000 miles before your Ford needs chassis lubrication. Then a quick, inexpensive, Ford Dealer lube job will get you set for another 30,000 miles.

And the '61 Ford has a new optional 390-cu. in. Thunderbird Special V-8 waiting for you to test-drive. You can't get that in any other car in Ford's price class.

Now can you get the Classic Ford Look in any other car. The Straight-Line design of the '61 Ford steps out in front and stays there. But, seeing is believing, so pay us a visit. See for yourself that the 1961 Ford is...

Beautifully proportioned to the Classic Ford Look!

We are very proud of this model, presented by the International Fashion Authority, Centre for L'Alte Moda Italiana, to the 1961 Ford for functional expression of classic beauty.

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF

**Lubricates Itself.** You normally go 30,000 miles between chassis lubrications. Then a Ford Dealer lube job (which costs about \$4.00\*) will get you set for another 30,000 miles.

**Covers Its Own Oil.** You'll go 4,000 miles between oil changes with Ford's Fast-Flow oil filter.

**Guards Its Own Muffler.** Ford mufflers are double-wrapped and silenced—normally will last three times as long as ordinary mufflers.

**Adjusts Its Own Brakes.** New Truck Size brakes adjust themselves automatically for the life of the lining.

**Protects Its Own Body.** All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing body panels beneath the doors.

**Takes Care of Its Own Finish.** New Diamond Lustre Finish never needs wax.

## Double ring vows pledged by Dolores Basinger, Ronnie Dunn

Double ring wedding vows were pledged by Miss Dolores Ann Basinger and Ronnie Douglas Dunn Sunday afternoon at the First Baptist Church in Slaton. The Rev. Ross Dunn, brother of the bridegroom, officiated for the 3 o'clock ceremony.

The bride is the daughter of Mr. and Mrs. T. H. Basinger and Mr. and Mrs. Dillard Dunn of Route 1 are parents of the bridegroom.

Given in marriage by her father, the bride wore an original gown of Chantilly lace over satin, designed and made by the bride's mother, an aunt, Mrs. J. F. Winterrowd, and a cousin, Mrs. Harmon Chilcut. The fitted bodice featured an encased bateau neckline and tapered sleeves. The full four-tiered skirt fell to a formal train. Her veil of illusion was held by a crown of pearls. She carried a white orchid and roses atop a white satin Bible. For something old she wore a lavalier belonging to her mother and carried a wedding band of the bridegroom's late grandmother. She placed her borrowed handkerchief under her blue garter and had a penny with the date of her birth in her shoe.

Miss Lena Glasscock of Slaton was maid of honor. Bridesmaids were Misses Patsy Pettigrew, Sue Liles and Harriet Perkins of Slaton, and Janyce Ellis of Southland. They wore identical dresses of royal blue velvet, designed with bateau necklines, three-quarter length sleeves and soft-pleated skirts. They carried white fur muffs topped with white carnations set in nests of blue net. Their head pieces were crowns of white fur and short white veils.

Eddie Nelson of Southland attended the bridegroom as best man. Ushers were John T. Brown and Darrell Jones of Post, Travis Lancaster and J. W. Payton of Southland and James Crawford of Lubbock.

Pam Henry and Patsy Pettigrew of Slaton were candlelighters.

Mrs. M. G. Davis, organist, accompanied Miss Sue Liles as she sang "Oh Promise Me" and "Walk Hand in Hand". The bridesmaids sang "Wedding Prayer" as benediction.

A reception was held in Fellowship Hall immediately following the wedding. Members of the house party were Mmes. H. G. Stokes, Hern Pettigrew, J. W. Henry James Perkins, Herschel Glasscock, Wayne Liles, W. T. Davis, Donald Pennell, J. H. Haire, Jack Myers, Hershel Bevers and C. R. Lancaster. Mrs. Jim Sikes and Miss Peggy Draper registered guests and Don Edwards furnished piano music and accompanied the brides attendants for vocal numbers.

Out-of-town guests were from Tulsa, Okla., Amarillo, Canyon, Meadow, Kingstand, and Lubbock.

For travel the bride wore a royal blue wool suit with white accessories and a white orchid corsage.

Mr. and Mrs. Dunn will be at home in Southland where he is engaged in farming. Mrs. Dunn will

# Postscripts

Following the stroke of midnight Saturday, black-eyed peas and bread were served to guests at a New Year's party hosted by Mr. Mrs. Pat N. Walker and Mr. and Mrs. J. L. Durbin. Approximately 20 guests were present for the occasion, held at the Walker home, 1002 West 10th.

Guests of Mr. and Mrs. Glenn Norman Saturday afternoon were former Baylor University classmates of Mrs. Norman, and her husband. They were Mr. and Mrs. O. B. Trulock of Colorado City, Mr. and Mrs. Curtis Sterling of Brownfield, and Mr. and Mrs. Tucker Lilly of Pasadena, Calif. Sterling is publisher of the Brownfield newspaper.

Miss Jo Fern Taylor returned to Dallas this week to resume her job as a nurse at St. Paul's Hospital. Miss Taylor, a 1955 graduate of Post High School, has spent the last few weeks as special nurse to her father, Joe B. Taylor, who was seriously injured in a recent car accident.

Over 30 friends called last Tuesday at Garza Memorial Hospital to help H. F. (Uncle Frank) Stevens celebrate his 82nd birthday. Birthday cake was served. Mrs. D. C. Hill registered the guests, who called from 2 until 4 o'clock.

Andy Schmidt called his parents, Mr. and Mrs. H. W. Schmidt, 215 North Avenue L, Saturday from Gopengen, Germany, where he is employed at a mental hospital. Andy spent Christmas with Bernice, also of Post and son of Mr. and Mrs. Ralph Welch. Bernice is starting for an electrical company in Munich.

## Sharon Moffitt, Dee Parrish pledge vows in Alamogordo

The First Christian Church in Alamogordo, N. M., was the scene of the marriage of Miss Sharon Moffitt, daughter of Mr. and Mrs. Bill Moffitt of Alamogordo, and Dee Parrish. Wayne E. Sherman read the double ring ceremony.

Mr. and Mrs. A. O. Parrish of the Graham community are parents of the bridegroom. Given in marriage by her father, the bride wore a floor-length gown of satin, styled with an overskirt of white lace. The Sabrina neckline was outlined with lace and iridescent sequins. Her finger-tip veil was of French bridal illusion and she carried an arrangement of gardenias, red roses and greenery.

Miss Marcia Moffitt, sister of the bride, was maid of honor. Her ensemble was styled similar to the bride's gown. It was fashioned with a green velvet bodice and a white silk organza overskirt over taffeta. She carried white carnations and red roses.

Ronnie Parrish of Post, brother of the bridegroom, attended as best man. Billy Moffitt, brother of the bride, and Jimmy Allen, were candle-lighters and ushers.

The bride's parents were hosts for a reception following the ceremony, at their home, 1509 Park Avenue, Alamogordo.

Mrs. Parrish attended Alamogordo High School and her husband attended Post High School before entering the Air Force. He has been stationed at Biggs Air Force Base, El Paso. They will be at home at Cold Lake, Canada.

Attending the wedding from Post were Mr. and Mrs. A. O. Parrish and Ronnie.

Mr. and Mrs. Hub Haire and Johnny and Mrs. Jack Burress visited in Austin with Mr. and Mrs. Ramsay, in Georgetown with Mr. and Mrs. L. I. Ramsay and in Gorman with Mrs. Dave Ramsay over part of the Christmas holidays.

## Dinner party honors wedding party Saturday

Mr. and Mrs. Dillard Dunn were hosts Saturday for a dinner in honor of members of the Basinger-Dunn wedding party following wedding rehearsal that night.

Miss Dolores Ann Basinger and Ronnie Douglas Dunn were married Sunday in Slaton.

Each of the small tables was centered with blue candles with a base of blue bows and white wedding bells. The honor couple's table was centered with a miniature bride and bridegroom, under an archway surrounded with blue and white tapers.

Following the meal, the couple presented members of their wedding party with gifts.

Assisting with the dinner were Mmes. Douglas Livingston, C. R. Lancaster and Jerry Melcher.

**ATTEND WEDDING**  
Mr. and Mrs. A. J. McAllister attended the wedding of Dolores Basinger and Ronnie Dunn in the First Baptist Church of Slaton Sunday.

## County HD Agent advises on 'Choose Your Patterns Wisely'

By LETA B. SMITH  
County Home Demonstration Agent

Do the clothes you make actually "fit" when you have finished with them? If not, perhaps you need to take a good look at your figure and buy a pattern that is right for you. Pattern companies are giving much consideration to the figure type. Figure type is determined by girth and height of the body. The new set of pattern measurements is designed to take care of all figure types. There may be a slight change in the alteration you will make in fitting the new patterns.

Few figures can be described as ideal. Each person should look for designs that make the most of the good points and conceal the defects.

The woman who is large in the bust may choose a pattern with a pleat, dart, tucks or shirring at the shoulderline. A pattern that has either of these features may help to avoid some fitting difficulties.

If the hips are large in proportion to the bust, consider a pattern that emphasizes the upper part of the figure. Avoid skirts that suggest width or heaviness. A skirt too narrow makes the hips look wide.

A design with several gores in the skirt is helpful if much alteration is needed in the hip area. There are available at pattern counters, patterns designed to let you work or play comfortably without straining, ripping, or hampering your movements. The research on these patterns was done by Clarice Scott who is in charge of the United States Department of Agriculture's Research on Clothing Design. Look at the pattern counter for action separates and step-in dresses.

Stop by the County Home Demonstration Agent's office and pick up a bulletin on "Choose Your Patterns Wisely".

# Letters to the Editor...

**CHRISTIAN THOUGHTS**  
Dear Editor:

The curtain of time has been drawn on 1960.

The new year 1961 will bring us 365 days of opportunity.

**RESOLUTIONS:**

1. Let youth be growing in grace and adults be growing old gracefully.
2. Let youth dedicate the morning years of life to God, then the evening will take care of itself.
3. Let each youth resolve to be the nicest and most diligent one in school. It will make your school a marvelous success and your achievements four-fold.
4. Let Christ be your criterion of character, then every deed you do will be as seed sown in the sand of time springing up in other human hearts, making the world a better place to live.
5. Learn life's greatest lesson by learning to love others and to be loved in return.

**DECLARATIONS:**

1. Christ's coming has had the greatest trend on the course of civilization of anything that has ever happened.
2. The church accepts him as a living and glorious reality.

**SUMMATION:**

Men had been born, had lived and died.

Four thousand years had prophesied.

That by a virgin Christ would be born.

It came to pass on Christmas morn.

Mary was tired and did relax.

They had traveled afar to pay their tax.

Because there was no room in the inn.

They slept near the stock on straw in a barn.

Jesus, a descendant of David, and Shem.

Was born that night in Bethlehem.

He loves us now as God loved us then.

And teaches us all to live without sin.

No one such pleasure ever brought.

No one such miracles ever wrought.

No one such lesson ever taught.

But Jesus.

No one e'er walked upon the sea.

No one e'er died upon the tree.

To ransom our soul on Calvary.

But Jesus.

S. D. Lofton.

## Highway policy is re-stated on deals for land

AUSTIN — Highway Department agents seeking to buy land for rights of way cannot "dicker" with landowners over prices.

Commissioner DeWitt C. Greer re-stated this policy in reviewing an instance in which a landowner eventually got in court nearly four times what the Department originally offered for the land.

Though dickering might have saved the state money in this case, highway officials feel that giving more than a thousand different agents authority to "barter" with state money would create many more inequities.

Commission policy is to have an appraisal made and offer the amount indicated by the appraisal. Landowners who do not feel this price is fair can seek a better one in court.

# LIFT A CHILD

...and hold him above you.

You don't expect a child to stand toe to toe with a man. You lift a child . . . and hold him above you.

You don't expect a child to understand fully what is right and wrong.

You don't expect a child to comprehend every spiritual ideal.

You don't expect a child to sense instinctively the constant concern of God in his life.

You lift a child . . . you give him the opportunity in his Church and in his Christian home to gain moral and religious insights.

And you hold him above you . . . dedicating your own time and strength to your Church so that you and your child can find together the spiritual foundation on which men should build their lives.

### THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

## "AN HONEST MAN THE NOBLEST WORK OF GOD"

The Lafayette (Ind.) Courier records the following incident: "A few days since, F. W. Grasmeyer, of La Grange, Texas, traveled to Williamsport, Indiana, distant 1300 miles, to pay a debt of \$500 to the executors of the estate of James Goodwine, sr., deceased."

"During the Mexican and Texas war, Goodwine shipped to Grasmeyer a cargo of flour, which Mr. Grasmeyer lost during the troubles and all his personal property. Goodwine afterwards received a letter from Grasmeyer informing him that the money was ready, which Goodwine gave him, among other orders, instructions to keep the money until his executors should call upon him for it."

"The executors never called upon him, and Mr. Grasmeyer came all the distance to pay the debt, and paid it over to the executors, notwithstanding the debt was barred by the statutes of limitation of Indiana and Texas."

—The Bellville Countryman.

## TEXAS ITEMS

A line of passenger and mail coaches has been established between Fort Davis, Presidio county, and the city of Chihuahua, Mexico. The company also do an express business, governed by the

same regulations as those of similar companies in the United States, and it's success and patronage so far has been beyond the most sanguine expectations of its projectors. The San Antonio Ledger and Texan, referring to the stage enterprise, says:

"To Texas, and more especially to its merchants, the artery of commerce, thus opened, must prove of great benefit. When it is remembered that millions upon millions of dollars worth of precious metals lay embosomed in the fairest country the sun ever shone upon, then it is we begin to appreciate the results which will eventually spring up by even so small a beginning as the running of a regular mail through such a land."

Grand times were anticipated at the military meeting at Salado, Bell county, on the 15th last. A company was to go from Belton accompanied by fifteen young ladies, on horseback, each bearing a flag with the name of a Southern State. Of course, all went merrily as a marriage ball.

The Dallas Herald says that heavy rains have recently fallen in that neighborhood. A large enthusiastic and very harmonious meeting of the citizens of Dallas was held at the Court House on the 1st

inst. It was unanimously resolved that "the people of Dallas county will not submit to an administration of the government by Abraham Lincoln, and we (the citizens of Dallas county) call upon our State to declare its independence, and prepare to defend the liberties of its people, and further, that Abraham Lincoln is a fit president for a community of negroes or their equals, but can never preside over freemen, the descendants of those who burst the bounds of British tyranny and gave freedom to a world."

—Houston Tri-Weekly Telegraph

## MONTGOMERY COMING TO TEXAS

Just previous to the outbreak in Kansas Territory, the Herald, published there, at Olathe, had the following:

"We have just learned that Capt. Montgomery is now receiving some 300 Sharps rifles, direct from the

East, and that he is organizing a company to proceed to Texas to assist the abolitionists in carrying on the insurrection among the negroes of that state. We think it surely is the duty of the officials of this territory to look at the matter, and put a stop to it in good season."

"We have no objection to Capt. Montgomery's leaving the territory. To this all good citizens will say amen, and thank God that we are free of such lawless bandits. Montgomery has, since John

Brown left the territory, been the acknowledged leader of the lawless and disorderly scamps who roam about from one end of the territory to the other, without having a visible means of support."

"If the Texians should be so lucky as to come in contact with Capt. Montgomery, they will confer a lasting favor and benefit on the citizens of 'Bleeding Kansas' by elevating him to a similar position to that occupied by John Brown at Harper's Ferry."

## Few changes in statehouse as new year enters

AUSTIN—Beginning of an odd-numbered year brought a "changing of the guard" at the statehouse.

Actual number of turnovers this year were few, with Gov. Price Daniel, Lt. Gov. Ben Ramsey and Atty. Gen. Will Wilson continuing in their present offices.

No. 1 change was in the Supreme Court. Chief Justice John E. Hickman, 76, retired after a 30-year legal career, including 34 years of appellate court service.

Judge Hickman was succeeded by Robert W. Calvert, who was an associate justice of the Supreme Court.

Succeeding Calvert was Zollie Steakley, who had served as Secretary of State since 1957.

Court of Civil Appeals got a new judge also. W. T. McDonald of Bryan succeeded Judge Lloyd Davidson, defeated at the polls last summer.

Sworn in as new land commissioner was Jerry Sadler. He defeated the incumbent, Bill Alcorn.

## Vagrancy charges bring three fines

Two men and a woman were assessed fines and costs of \$20.85 each in Justice of the Peace D. C. Roberts' court during the last few days.

The vagrancy charges were against Raymond Lee Routt, Ollie E. Payne and Margaret Arants.

Others booked in JP court, date and amount of fine and costs where paid were as follows:

Dan Rudd, drunkenness and disturbance, Jan. 2.

Jessie Haley, running stop sign, Dec. 27.

R. P. Nickens, no driver's license, \$18.50.

tion man who is a rabid football fan, promised four local high school athletes during the football season that if Post won two games he would take them to the Cotton Bowl game New Year's day. The athletes' hopes on personnel but high in desire, finished with a rush to beat both Slaton and Taboka. Last weekend, Charley made good his promise. He and his wife, Sally, loaded Mike Corns, Jimmy Minor, Donnie Hays, and Harold Wayne Mason into the Luttrell automobile Sunday and headed for Dallas where the six watched Duke squeeze out a victory over Arkansas in a good Cotton Bowl thriller. They drove home after the game. The whole trip was "on Charley" except for the food. All that food for four hungry athletes would be a little too much for anybody's budget. Everybody had a swell time, Charley reported. And that's what we'd call real fan support.

The year-end stories on today's front page all make interesting—and optimistic reading. A whale of a cotton crop, record postal savings, an all-time high in bank deposits, and another banner construction year. Just bring on the White River dam and watch us go!

We hear there's more than the usual interest in the getting those poll taxes paid this year—even if it will be an off year in the national elections. Nobody would be surprised to see a new precinct 3 liquor election here come spring. The front's so quiet that the outlook is now labeled "very likely."

There's another precinct liquor election coming up Saturday at Gail, aiming at draining off the Snyder liquor business from Post and Big Spring if package stores are voted in. See page 12 for details.

## Ginnings--

(Continued from page 1)  
Gin, where the report is "just about through," was 5,489 bales.

The Close City Co-op Gin reported 2,630 bales processed, with "20 or 25" bales yet to go.

The total at the Storie Gin was 2,289 bales, and the prediction was that there were about 150 more bales yet to be ginned out there.

Basinger Gin at Southland reported 4,942 bales, with "probably 150" to go.

The Pleasant Valley Co-op Gin had turned out 3,109 bales, and only about 20 more bales are expected there.

Grades were reported running from middling with light spots to strict middling.

## Letters to the Editor...

Dear Editor: I would appreciate you printing this letter in the Post Dispatch. I make this request in the hope that it will help clear up a misunderstanding about the cancellation of the Post Antelope basketball game with Littlefield.

The Post Antelope basketball game with Littlefield was cancelled this season because of a scheduled conflict. The cancellation was made on my own initiative, with-

direction pattern of 1960, and, although he doesn't foresee a return to any 15-day production schedule in the industry, he is hopeful that the production pattern will climb back to a 19- or 11 day average in 1961.

Postmaster Voss reported that from the post office standpoint 1960 was a good year and he notes a gradual growth in postal receipts here over the last ten years.

Business men are predicting a brisk business here in the next few months after the good fall harvests and the good moisture prospects for 1961.

Heavy goods—the higher cost items such as automobiles, appliances, and furniture—are expected to start moving again at a good rate after a late 1960 slowdown, now that the farmers have converted their cotton and milo into cash.

SELF-SERVICE 'POSTAL STATION'

Shown here is the new self-service rural postal station placed in experimental operation recently at English Lake, Ind. This makes it possible now for a small community to retain its individual mailing identity when its post office must be discontinued for such reasons as declining mail volume. Mail may be addressed to the rural station. Each patron of the community is provided with an individual lock box in this new unit. Postal officials believe this new facility will be in widespread use in small communities, where manned postal units are not warranted, within a few years.

## Payment of poll taxes lagging

The fact that 1961 is an "off" election year is reflected in the number of poll taxes paid to date. County Tax Assessor-Collector T. H. Tipton reported only 454 poll tax receipts issued up to noon yesterday.

Jan. 31 is the deadline for paying a poll tax and qualifying to vote in this year's elections, which will include city council and school board elections and a special election to choose a successor to the U. S. Senate post vacated by Vice President-Elect Lyndon B. Johnson.

Poll taxes paid before last year's deadline set a new record in Garza County, with more than 1,900 poll tax receipts issued.

## 'For Love of Mike' to show at Tower

"For the Love of Mike," a touching story of a young boy and his love for animals, will show at the Tower Theatre here Friday and Saturday.

It is an ingratiating family picture that will capture the hearts of children and oldsters alike. The film stars Richard Basehart, Stu Erwin, Arthur Shields, Rex "Mr. Cowboy" Allen, and introduces Danny Bravo, a brown-eyed charmer, in the title role.

"Mike," a young orphan boy, whose love for animals is surpassed only by his love for his church, lives at the parish with an aging priest. He makes a practice of collecting injured and abandoned animals and under the guidance of the village doctor nursing them back to health.

We are ashamed that such an act of intolerance should represent our town. We feel there are few people in Post who would support this action, and hope you won't consider it as representative of Post citizens.

Would you please convey our apologies to the Littlefield basketball team, coaches, and other school officials?

Sincerely,  
Mr. and Mrs. David Newby

Only two church additions were counted for the year, one for \$400 and one for \$1,500, as the First Christian Church's new church and manse construction permit was taken out in 1959 and figured in totals for that record-sized year.

COUNTY COUPLE'S SON IS HONORED

The Commendation Ribbon is presented Capt. Jack D. Hoover, USAF, right, by Maj. Gen. R. L. Waldron, Commander, Western Transport Air Force (MATC) located at Travis AFB, Calif. The captain is the son of Mr. and Mrs. O. H. Hoover, Rt. 3, Post.

## Moisture total for '60, 22.13 inches

The 1960 precipitation, as measured here by County Agent Lewis C. Herron, totaled 22.13 inches, the county agent said today.

The total was nearly two inches above the Garza County normal of 20.43 inches, but was more than six inches under the 1959 total of 26.55 inches.

The 1960 rainfall by months was as follows:

January, 1.08 inches; February, .59; March, .16; April, trace; May, 3.89; June, 1.10; July, 6.43; August, .22; September, .99; October, 6.33; November, none; December, 1.34.

The agent said the late rains and snow had provided excellent underground moisture for this year's crops.

The captain and his wife reside at 333 Citrus Ave., Vacaville, Calif.

## Guilty plea brings DWI charge penalty

Hubert Kinder was fined \$50 in costs, sentenced to three days jail and his driver's license suspended for six months at the day after he pleaded guilty to a charge of driving while intoxicated.

The fine and costs assessed Kinder by County Judge J. Parker amounted to \$78.25.

On Dec. 16, Orman Ward Tolinson entered a plea of not guilty to a DWI charge. His bond was set at \$500 by Judge Parker.

## New livestock entry records set for show at Fort Worth

FORT WORTH — Cattle, sheep and swine entries in the 1961 Fort Worth Stock Show have soared past last year's figure by 624 head, totaling a hefty 5,394 animals so far set to compete in the Jan. 27-Feb. 3 exposition, assistant manager and livestock superintendent W. A. (Bill) King has announced. Still to come are approximately

## 'From the Terrace' Tower attraction

The film version of John O'Hara's famous novel, "From the Terrace," will be the feature attraction at the Tower Theatre here Sunday, Monday and Tuesday. The first showing of "From the Terrace" will be Sunday night. Since it is primarily an adult movie, a special Sunday matinee, "Gypsy Colt," is being shown for children, according to John N. Hopkins, theatre manager. "From the Terrace" has been seen and is being talked about as one of the best motion pictures in recent years. In the film, you'll see all the men, all the women, all the things that made all the talk. Paul Newman and Joanne Woodward are co-stars in "From the Terrace."

The Seagraves quintet, on the basis of performance thus far this season, is favored to defeat the Post cagers. The Eagles were one of the eight teams in the high school tournament here a few weeks ago. They defeated Muleshoe in a first round game, were eliminated from championship contention by Plains and then came back to whip O'Donnell for third place.

In their last outing, the Seagraves cagers defeated Meadow, 42 to 32. The Eagles pack a torrid scoring punch in Donnie Kinnison, Joe Faulkenberry and Sammy Faulkenberry. Faulkenberry made the all-tournament team in the Post meet. Other teams in the Seagraves tournament are Morton, Littlefield, O'Donnell, Denver City, Plains and Muleshoe. Post and Seagraves are in the bracket with Morton and Littlefield.

The tournament will be the final one of the season for the Antelopes. Following a game here with Ralls on Jan. 13, they open District 3-AA play here Jan. 17 against Slaton, with three games—"A" and "B" boys and girls—scheduled.

## Post Does to host Sundown Jan. 13

Post basketball fans will have the opportunity of seeing one of the South Plains' top girls' teams in action Friday night, Jan. 13, when the Sundown girls play here against Coach Don Watkins' Post Does. The Post-Sundown girls' game will be a preliminary to a game between the Post Antelope and Ralls Jackrabbit boys' teams. A scheduled game between the Post and Morton girls set for Tuesday night at Morton was cancelled.

## Post girls home from tournament

The Post Does, high school girls' basketball team, returned last week from Duncanville, near Dallas, where they competed in the Southwestern AAU high school girls' basketball tournament.

Coach Don Watkins' team lost its first game to East Lamar, 37 to 22, and then was eliminated by Sando, 39 to 30, in a consolation round game. Nita Wilson, with 17 points, led the Post scoring in the Sando game.

Thirty-two girls' teams were entered in the tournament, which was won by Stephenville. The Muleshoe Mulettes won the consolation championship.

## Through first 12 games

# Hays, Acker pace Antelope scoring

Leslie Acker and Donnie Hays are running almost neck-and-neck in scoring for the Post Antelope basketball team through its first 12 games.

Acker, a junior, has racked up 79 points on 28 field goals and 23 free throws for a game average of 6.6.

Hays, a senior, has scored 77 points on 30 field goals and 17 charity tosses for a 6.4 game average.

## I Give You Texas . . .

### By BOYCE HOUSE

"Why doesn't a book tell the reader something about the man that the author thought enough of to dedicate the book to?" my friend, Dick Hardy of Dallas, once inquired. He had a point too—although in the case of "You Can Always Tell a Texan," the man to whom the book was dedicated is widely known for his achievements and civic services.

C. T. McLaughlin was born in Pennsylvania, came to Texas shortly after World War I service in an aerial squadron in the U. S. Army Signal Corps; was a drilling contractor in Wichita Falls from 1923 to 1948.

In 1936, he acquired the Diamond M Ranch to raise fine cattle and horses but oil wells sprouted and spouted when the famous Canyon Reef strike was made. He has holdings in banking and insurance as well as oil. He is interested in public affairs, having served on the State Democratic Committee for five years and as chairman of the State Democratic finance committee in 1956, as well as being chairman of the State Department of Public Safety.

"Mr. Mc," as his many friends affectionately call him is a philanthropist and is especially interested in helping young people acquire an education. The handsome Snyder Country Club was built under his presidency. He has been repeatedly honored as an outstanding citizen of Snyder and West Texas.

He is a genial and generous host and unless you have attended an annual meeting of the Snyder Chamber of Commerce you have missed one of the phenomena of Texas life. Imagine 2,000 persons present for a dinner and then such a star-studded program as can be provided by silver-tongued Governor Clement of Tennessee; the Irish melody of Phil Regan; the Texas-y music of Slim Willett ("Don't Let the Stars Get in Your Eyes") and his Abilene orchestra. Well, that's just typical of the wonderful array that the quiet-spoken,

modest "Mr. Mc" makes possible for his beloved home city.

A reminiscence about my Uncle Albert:

His favorite piece of chicken was the neck, which happened to be a favorite with me, too. One Sunday, he bit through the bony structure and discovered the windpipe. The sight disturbed him. "I've eaten hundreds of necks," he said, "and I never saw anything like that before." Despite Aunt Rachel's assuring him that a windpipe was standard equipment with all chickens, Uncle Albert never ate another neck—so when I was a guest I always got it, thereafter!

# District basketball teams upping tempo

All District 3AA basketball teams except the Post Antelopes swung back into action Tuesday night, two of them in tournament play.

The Post team had an open date, but will go back into action tonight against Seagraves in the eight-team Seagraves tournament.

In the Slaton tournament, which opened Tuesday night, the Slaton Tigers beat Crosbyton 51-24, and the Stanton Buffaloes lost to Floydada 73-30. Slaton and Stanton are

3AA teams.

Other district quintets playing Tuesday night were the Denver City Mustangs, who walloped Levelland 53-35, and the Tahoka Bulldogs, who staged a last-half comeback to win over Frenship 66-48.

In girls' games Tuesday night involving District 3AA teams, Slaton won over Crosbyton 45-32, and Floydada upset Stanton 54-53 in first round games of the Slaton tournament.

At Tahoka, the Tahoka girls de-

feated Frenship 60-50.

Denver City does not have a girls' team.

Rodney Teague and Charles Christian, with 22 and 14 points, respectively led Floydada to its 54-53 victory over Stanton. Gillespie scored eight points for the losers.

In Slaton's win over Crosbyton, Ronnie Jones had 16 points for the winners and Webber Teffertiller 10 points.

In the Floydada girls' upset victory over Stanton, Frances Graves scored 43 of the losers' 53 points, and Verna Pate led the Floydada attack with 34.

Judy Bishop's 24 points paced the Slaton girls in their victory over Crosbyton, with Judy Dunn chipping in 14.

Dennis King scored 18 points to lead the Denver City boys to their victory over Levelland.

In the Tahoka-Frenship games, Frank Greathouse netted 16 points for the Tahoka boys, while Kay Halamecek's 32 points was high for the girls.

## News From The POST WORK UNIT DUCK CREEK SCD

W. D. Williams, a cooperator of the Duck Creek Soil Conservation District, who farms about three miles southeast of Post, is doing a good job of handling the crop residues on his farm to help reduce water and wind erosion.

Williams manages his residues by combining the grain sorghum to a height of about 18 inches to leave as much of the stalk standing as possible to help control wind

erosion. He also leaves his cotton stalks standing for protection.

Williams then chisels the middles to break up any plow-pan that he might have and also to increase the moisture intake of his soil.

The residues were weighed by Soil Conservation Service personnel in early November and weighed 6,500 pounds per acre at that time.

After about a six-inch snow in December, the residues were weighed again and weighed about 3,500 pounds per acre. This reduction was largely due to a drying out of the residues and decomposition of the grain sorghum stalks.

Research has shown that 1,000 pounds of residue left on the soil surface will control soil blowing on the type of soil that Williams farms, which is a clay type soil. The 3,500 pounds of residue left on the soil surface will be more than adequate to control soil blowing.

Crop residues managed in this manner are the most practical and beneficial way of handling them. When we use tillage instead of residues to control soil-blowing, we are losing the fine particles of the soil, which are the moisture and fertility holding particles of our soil.

## Time change made at Holy Cross Church

The new year 1961 brought a change in time of services at Holy Cross Catholic Church, North Ave. G and East 14th Street.

Beginning last Sunday—New Year's Day—Mass is being held at 10 a. m., with the Rev. James Erickson, pastor of Holy Cross, coming from Slaton to conduct the service.

Father Erickson said he will arrive in time each Sunday to begin hearing confessions at about 9:30 a. m.

Beginning next Sunday, a catechism class will be taught after Mass each Sunday. The teachers will be Mrs. Gladys Grochowsky, Mrs. Eulalia Perez and Miss Mary Perez.

## Southland cagers lose to Lorenzo

Southland boys' and girls' basketball teams lost a District 7-B doubleheader to Lorenzo Tuesday night on the Lorenzo court.

The Southland boys were defeated 54-29 with Glen Coulter scoring 24 points for the winners and John Haire 10 for the losers.

The Southland girls lost by a score of 56-27. Jane Jennings paced the winners with 23 points, while Kathy Smith had 14 for Southland.

## Heavy Outlays for Aid to Polio Victims Cause Drain on March of Dimes Funds

"The National Foundation has the distinction and the honor of having exhausted its March of Dimes funds for patient aid," Basil O'Connor, its president, announced recently.

"Therefore, the March of Dimes has a \$45 million job to do in 1961," he added.

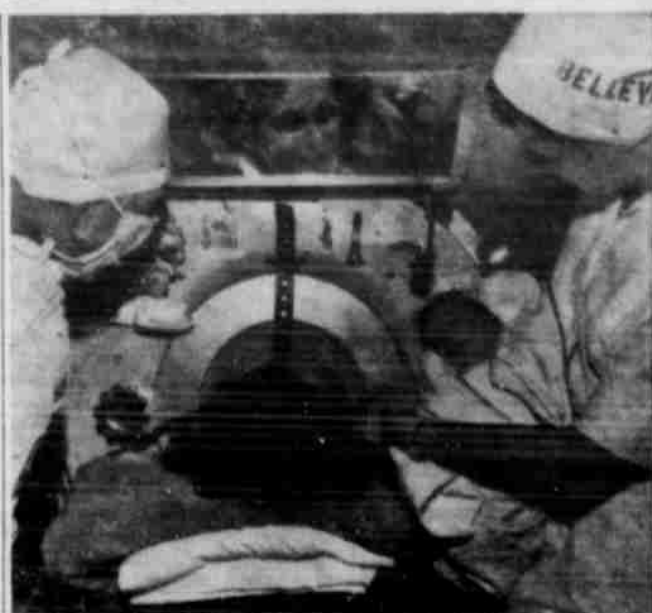

"But we always have had a tremendous job to do and have relied on the American people for financial support through the March of Dimes each January," he said. "At the same time, however, we do not live just from year to year but build broad research, educational and patient-aid programs for much longer periods. Continuation of these programs will require \$45 million in 1961."

Speaking of the "urgent monetary needs of the 1961 New March of Dimes," to be held Jan. 2-31, the leader of the world's largest voluntary health organization explained that in 1960 about one-third of its 3,100 chapters had gone into debt to meet hospital and other bills for aid to polio patients.

"But our chapters are proud that they have not built up bank balances at the expense of human lives," he said.

Since 1938, when The National Foundation (for Infantile Paralysis) was organized, a total of \$325,200,000 has been spent for direct patient aid to polio victims. In 1960, the bill was about \$13,250,000 for some 40,000 of the polio-stricken. Although the Salk vaccine has been available to the public for five years, patient-aid costs remain high chiefly for those stricken before the vaccine was developed, or for those who since 1956 neglected to get inoculated and thus contracted polio.

March of Dimes monetary assistance to individual polio sufferers has sometimes been extremely great. To cite two instances only, patient-aid costs in the case of Mrs. Ingeborg Cully, of New York City, thus far have totaled about \$25,000 and the end is not in sight; while expenditures for Tommy

Examples: \$25,000 was spent on Ingeborg Cully . . .

Davey, six years old, of Boston, have reached \$50,000.

Aside from the enormous financial toll in patient aid, substantial New March of Dimes contributions must also be used for research. Since 1938 The National Foundation has allocated \$64,600,000 on its broad-based international research program which has produced, among other outstanding achievements, the Salk and Sabin polio vaccines and, incidentally, two Nobel prizes. In 1960, research funds are estimated at \$5,000,000 covering the National Foundation's three health areas of birth defects, arthritis and polio.

More than twice that sum, or \$10,400,000, is needed for research in 1961.

March of Dimes contributions have also made possible the largest education program for the training of medical and health experts ever attempted by a voluntary health agency. Since 1939, when The National Foundation launched its program of professional education, outlays in this field have totaled \$34,900,000; in 1960, a total of \$1,500,000 in March of

. . . while another \$50,000 was needed for Tommy Davey.

Dimes public contributions was required for the health organization's professional education activities. In 1961, \$3,900,000 is needed for this part of the program.

## Burlington Industries Foundation is supporting higher education

GREENSBORO, N. C.—"The support of higher education by business and industry is no longer an option but a necessity," according to the chief executive of the nation's largest textile company.

Spencer Love, chairman and president of Burlington Industries, makes the statement in his foreword to a new brochure, "A Program for Aid to Education," just published by the Burlington Industries Foundation. The booklet outlines a comprehensive program for financial support of higher education sponsored by the Foundation.

"The direction our civilization will take is dependent upon the ability of our educational institutions to train young men and women for their responsibilities as tomorrow's leaders," Mr. Love states. "If we are to continue to press the attack on poverty, ignorance and disease, we must use all available means to improve our educational processes."

The Burlington Industries Foundation, established in 1943, set forth a formal Aid to Education program in 1955. It has now been expanded to include eight major phases:

1. Matched Employee Giving — Gifts of employees and directors to educational institutions are matched up to \$2,500 per person per year.

2. Educational Loans — Over 1,000 Burlington employees and their children have received Foundation loans to assist them in obtaining a higher education.

3. Matched Tuition — Unrestricted grants are made each year to the schools selected by Burlington Educational Loan Fund students. These grants are equal to the tuition fees, but do not exceed \$500 per student.

4. Scholarships — Scholarships of \$1,000 each are awarded by 16 institutions to junior and senior

students, payable \$500 annually. The 16 colleges and universities are located in eight states: North Carolina, South Carolina, Tennessee, Virginia, Massachusetts and Alabama. Other scholarships are made in specialized fields, including business administration and nursing.

5. Matched Scholarship Grants — Schools which award unrestricted scholarships also receive an identical amount to use as they wish.

6. Fellowships — J. Spencer Love Fellowships are made available at the Harvard Graduate School of Business Administration to young men from Southeastern educational institutions.

7. Professorships — Several Burlington professorships have been established in the field of business administration, textiles and home economics.

8. Direct Grants — Grants are made to assist a major financial need or to further the cause of education in a field of study or research.

Burlington's Foundation has channeled more than \$3,000,000 into the educational field since it was established.

### November bond sales here total \$3,311

Savings bonds sales in Garza County were \$3,311 during November. Purchases for the first 11 months of 1960 totaled \$67,061 or 55.9 per cent of the yearly goal, Irby Metcalf, chairman of the Garza County Savings Bonds Committee said today.

E and H 1960 sales in Texas amounted to \$139,283,903. This represents 84.2 per cent of the Texas 1960 goal of \$165.5 million.

## TB eradication seen as possible

We can eradicate TB from this country once and for all—if we act now. We know what we have to do—find all the people ill with TB and get them treated.

"It's now or never," Dr. Rene Dubos, of New York's Rockefeller Institute, said at a press conference. "Conditions are at present favorable for the bold and decisive action that could virtually wipe out tuberculosis in this country because the general health of the nation is very good. But we can expect that more and more bacterial resistance to anti-tuberculosis drugs will develop. In twenty years it may be too late."

And that's the problem, the reason for the rush. Drugs that fight disease when they're first used sometimes fail to work after a while because the germs develop defensive tactics. If that happens with the TB germ before the thousands of people with active disease are found and treated, we shall have lost our best opportunity to wipe out this dread disease.

You can do your part. Get a tuberculin skin test to find out if any TB germs are present and, if the test is positive, get a chest X-ray to find out if the germs are doing any lung damage.

### Non-citizens required to report by Jan. 31

Aliens—namely, non-citizens residing in the United States—are required each year to report their address before the end of January.

The only exceptions are those persons in this country in diplomatic status or in the service of the United Nations.

If a citizen knows an alien, it will be an act of courtesy and charity to tell him of this requirement. The procedure is simple, and the penalty for neglecting it is serious—even possible imprisonment and deportation.

The alien may go to any U. S. post office and ask for the Address Report Card, Form 1-53. When he has filled it out, he does not mail it, but hands it to an employe in the post office.

# *A personal New Year's message to* **The housewives of Post**

Don't fool yourselves. It's not the men who build your town and determine what kind of community it is—and can become. Not any more anyway. It's the women who build the modern towns, help them grow into cities, or make the decision that causes them to wither and decay. The power is in your hands because you spend the family dollars.

Any Main street is built by buyers—not sellers. And any town to grow and prosper needs to keep its dollars at home creating new jobs, building new homes, and paying for good schools, and a progressive city government.

## **Just stop and think for a moment...**

What can you do to help your community grow bigger and better? The answer is to trade at home whenever and wherever you can.

Every merchant on your Main street knows where his competition is and who it is... it's the glitter and bustle of a city not so far away which has been built on the hard-earned dollars of dozens of area towns such as ours.

Your hometown merchants offer you convenience of shopping, a good selection of merchandise, and ready service. The more you trade with them the better their selections become.

If we put all our dollars to work for us here in Post our present stores would soon be twice as big, or there would be twice as many stores. You would appreciate that. But only by shopping at home can we help create such a hometown market. Our alternative is to create a bigger city nearby and a smaller, poorer hometown.

We have well priced merchandise here. We could cite dozens of examples of prices being better here on this dress or that piece of furniture than in the city 39 miles up the highway.

We're not scolding. We're just appealing to your desires to see your hometown improved so we all have a better community in which to live.

Togetherness means a lot today in all the small towns of this nation. Together we stand. Post's future is in your hands. Let's give our town a better chance in 1961.

## WASHINGTON AND "SMALL BUSINESS"

Extortion is now legal. At least, it will be legal in these United States of America if all government agrees with a recent decision made by the full commission of the Federal Trade Commission in which the commissioners overruled the ruling of their own hearing examiner.

In short, the F.T.C. found that there was nothing illegal in a big Texas chain of supermarkets accepting sums of money from the Yakima Fruit and Cold Storage Co., Yakima, Washington, for the chain's 1955 and 1956 "anniversary celebrations."

The FTC ruled that there was nothing illegal because in putting the "bee" on this supplier for a donation, it did not promise the supplier any advertising in return for the money.

Now the FTC field examiner apparently decided this pressure from a big retailer for a "donation" from a supplier is really extortion.

But the Commissioners, in what is perhaps their abysmal ignorance of what goes on in the market place, took the stand it is perfectly all right for a retailer to seek cash payments from suppliers for what they term "donations" or "congratulatory goodwill gestures."

Apparently, the FTC did not inquire into why the supplier was willing to bounce cash to make a "congratulatory good-

C. W. Harder

will gesture" to a huge retail operation in Texas. Nor apparently did FTC inquire whether the supplier would also make a cash "congratulatory goodwill gesture" to an independent corner grocer.

Obviously, chain buyers seeking cash "congratulatory goodwill gestures" from suppliers would of course refrain from any such crudity as saying perhaps, "you know how important distribution of your products in our stores is to your operation." And any such buyer would faint with embarrassment before making such a request accompanied by some observation such as "you know, your competitor has been making us interesting offers on our shelf space we have your goods stocked on at present."

Thus FTC Chairman Earl Kintner will go down in history as one of the greatest thinkers ever to serve government. He was the one, it will be recalled, who gained a great deal of personal newspaper headlines publicity by his fearless and undaunted attacks on radio disc jockeys who accepted \$10 neckties at Christmastime from record companies for playing their version of "Boogie-Woogie Blues" on the air. This horrible practice was labeled "payola."

Yet the FTC now rules that there is nothing wrong in a buyer soliciting, and a seller paying cash for "congratulatory goodwill gestures."

Thus, FTC appears to have written a new definition of a moral conduct predicated on the size of things.

Accepting a \$10 necktie is a crime; accepting bundles of cash is highly moral.

## Voting to be Saturday

# Liquor election is slated in Borden

GAIL—An election on the sale of liquor for off-premises consumption will be held Saturday in Borden County's Precinct 1.

The commissioner's precinct involved includes the county seat of Gail and the northeast section of the county.

The election was called by commissioners after a petition with the required number of signatures was filed by D. C. Sharp and Foch Waldon, both of Gail.

There are 1,075 residents in the entire county and most of them reside in Gail. Also included in Precinct 1 is a portion of the shore line of Lake J. B. Thomas.

Borden County has been legally dry since the early 1930's, and this is the first time a local option election has been called since national prohibition was lifted.

Dee and Billie Caylor.

I would like to take this method of thanking everyone for being so kind and thoughtful since my accident. I sincerely appreciate all the flowers and cards I received while in the hospital, also the many phone calls from friends. I would also like to thank the ones who offered to help with any work needed on the farm. Most of all I want to thank the churches and people who prayed for my recovery. I appreciated each and every prayer. Joe B. Taylor.

# It's the Law in Texas...

## IS THAT CHRISTMAS GIFT TAXABLE?

Although it may come as a surprise to some people, the federal government levies a tax which applies to gifts made by one person to another. However the government has no desire to tax ordinary birthday and Christmas gifts. The law therefore excludes from taxable gifts the first \$3,000 given to each individual in each calendar year.

The law also excludes from taxable gifts to the church, community chest, and similar charitable organizations, and allows each giver an exemption of 30,000 - before the tax applies.

The tax applies whether the gift is of money or of property. If it is of property, the tax is computed on the fair market value of the property at the date of the gift.

The purpose of many gifts is to remove the property from the taxable estate of the giver at the time of his death. This may or may not be accomplished. The federal law provides that transfers made within three years before date of death shall be deemed to have been made in contemplation of death and shall be taxable in the estate of the one who dies.

It may be advisable to "look a gift horse in the mouth" for the gift may cost the one who receives the gift in income taxes as well as in the gift taxes.

For income tax purposes the cost basis of property received by gift is the cost to the giver regardless of the fact that the giver may have paid a gift tax on the gift. The other rule is that in case of property received by inheritance, the cost basis is the fair market value at the date of the decedent's death.

An example will show the application of the rules. Suppose a farmer acquired his land in the early days at a cost of \$10,000. This property is now worth \$50,000. The farmer wishes to retire and to escape taxes, so he gives the farm to his daughter.

Although he may pay federal gift taxes totaling several thousand dollars, when the daughter decides to sell the farm for its \$50,000 value she still has to pay income tax on \$40,000 profit (difference between the sales price and her father's cost of \$10,000.)

On the other hand, if the farmer had not given the farm to the daughter, but had left it to her under his will, he would have saved the gift tax. The daughter would have taken the property at a cost basis of \$50,000, so upon the sale she would not have had to pay any income tax.

Of course, there would have been some estate tax and administration expense in the father's estate, but that would have been much less than the taxes which resulted from the gift. However, depending upon individual and particular circumstances, there may be occasions when a gift is advisable. Your lawyer can advise you on this matter.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

# New March of Dimes Funds Help Eric, Birth Defects Victim, Reach Age of 2

Eric Brantner is a frail and appealing little boy who achieved the age of two years the other day in his crossroads home at Palouse, Wash.

On second birthday, which his parents never expected Eric to celebrate, his mother Vonda Brantner holds him aloft.

Held in his mother's arms on that great day, blue-eyed Eric could recognize his birthday well-wishers, among them his dancing hound-dog, Jupiter. But not so long ago, Eric wasn't given much time by most doctors to enjoy Jupiter or other members of the household. He was born three months prematurely and also developed an enlarged head (hydrocephalus) due to excess fluid on the brain. His despairing parents, Gail and Vonda Brantner, did not believe that a second birthday was in the cards for Eric.

Then, as the head grew alarmingly larger on the insubstantial body, members of the Whitman County Chapter of The National Foundation came forward with an offer of March of Dimes funds if they were needed for patient aid.

They were urgently needed. Eric was rushed to Sacred Heart Hospital in Spokane, 65 miles away. There, at the age of 10 months, he underwent surgery for nearly four hours. The surplus fluid was drained away, relieving the pressure on the brain caused by blockage, and a plastic tube was inserted to keep the accumulating fluid flowing from the head to the blood stream near the heart.

Although Eric's appearance today belies his two years—the little boy looks scarcely more than six months old—the doctors' view is that he now has a good chance of survival. He cannot sit up by himself and he is only just learning to toddle uncertainly in a baby walker. But he engages in lively play with his mother and father, who is a section hand for the Great Northern Railway, with his doting brother Mark, three years, and of course with his frisky but gentle four-footed companion, Jupiter.

Eric enjoys the dubious distinction of being one of the first victims of a significant

birth defect to be given patient aid in continental United States under The National Foundation's expanded program, which includes arthritis in addition to continued work in polio. (The first instance of patient aid under this new program occurred last year in Honolulu where the local chapter expanded March of Dimes contributions to care for a Hawaiian infant born with the birth defect of an open spine; the baby today is well along the road to a normal life.)

Otherwise, Eric's plight is not singular. Each year in this country, 250,000 infants are born with significant defects and 34,000 of them are stillborn or die within four weeks. The National Foundation, which helped develop both the Salk and the Sabin polio preventives with March of Dimes funds, moved into the area of birth defects because these congenital malformations comprise the largest unmet childhood medical problem in the nation today.

# Texas is below average on public school expenditures

AUSTIN—Texas is not even average in the amount it spends on public schools, and the Texas State Teachers Association fully expects that the 57th Legislature will do something about it.

And Texas still will fall below average in education expenditures even if the 57th Legislature enacts the full TSTA-Hale-Aikin school program, the association's latest national point out.

Late test national figures show Texas in 35th place among the states in the average spent per child and 34th in average teacher salary.

"Only prompt and decisive action by the Legislature can stem the steady decline in Texas' position," explained TSTA Pres. D. Richard Bowles.

TSTA, relying on what the public said it wanted for school in the Hale-Aikin study more than two years ago, is calling for school improvements estimated to cost \$80 million yearly in State funds.

Major items in the TSTA program are increases in teacher pay, school bus allowances, and maintenance and operation aid. Several other items are included also.

This year Texas will spend an average of \$330 per child in average daily attendance at school, \$60 per child below the national average of \$390, Bowles noted.

The TSTA program would add \$42.50 per child more, bringing the Texas expenditure up to \$372.50 per child, still below the national average.

The governor's finance advisory would increase expenditures by only \$13.50 per child up to \$343.50, leaving Texas far behind the effort of other states.

Average pay for Texas teachers ranked 19th in 1950, just after enactment of the Gilmer-Aikin Minimum Foundation Program, Bowles said. Now, ten years later, Texas ranks 34th, \$725 below the national average.

Just five years ago, in 1955-56, Texas had dropped to 22nd position in average salary. The next year it was 24th. In 1958-59 Texas had slipped to 28th, and last year fell off to 32nd place. Now it has skidded still further to 34th.

TSTA is asking that the State minimum salary schedule, now at \$3,204, be raised to \$4,014. This would put Texas at about the pre-

sent average, but other State Legislatures are meeting this year and no doubt will make further strides ahead of Texas.

All surrounding states except Arkansas are above Texas in average pay, leaving this state vulnerable to "raiding" from its neighbors.

"This story of erosion in the teacher salary scale necessarily is reflected in the classroom," declared the TSTA president.

"Thousands of bright young people educated in Texas-supported schools either choose more remunerative work over teaching, or they go to some other states which offer them more of the coin of the realm," Bowles said.

"This is something to concern every citizen in Texas—not just teachers," Bowles declared.

## Clem funeral is held at Tahoka

Mrs. C. A. Clem, 72, a former resident of Garza County, died Thursday at her home in Tahoka of a heart attack.

She was the wife of Justice of the Peace Charlie Clem of Tahoka and mother of Weir Clem, Tahoka County sheriff.

Mrs. Clem was born in Pocahontas, Ark., and was married to Charlie Clem in 1906 at that town. They moved to this area in 1923 from Hugo, Okla.

Survivors include the husband; three daughters, Mmes. Lela Huntley of Harrison, Ark., Hazel Conroy of Tahoka and Patsy Sherrill of Nowata; five sons, Weir of Levelland, V. A. of Wilson, Cecil and Roland, both of Tahoka, and Vernon Clem of Seagraves; four sisters, 24 grandchildren and 17 great-grandchildren.

Funeral services were held at 2 p. m. Saturday in the Tahoka Church of Christ, with burial in Tahoka Cemetery.

## Area farmers reminded of Social Security tax

This is the time of year for farmers to prepare their social security tax return for reporting their employees for 1960.

Farm wages are reported on a yearly basis. The report covering employees who worked in 1960 must be filed with the Director of Internal Revenue during January, 1961.

The report must be filed for any employee who was paid \$150 or more in cash wages during the year; or any individual who worked on 20 or more days in 1960 for cash wages figured on a time basis (for instance, by the hour, week, etc.) regardless of the total earnings for the year.

It is important that the employee's social security number be shown on the report.

Oil or gas has been found in commercial quantities in 195 of the 254 counties in Texas.

## \$369 spent for each school child in 1960 sets national record

WASHINGTON—Americans spent more public tax money last year on educating their grade and high school children than for anything else but national defense, the Chamber of Commerce of the United States reports. Communities and states liberally poured \$15.5 billion into public school education during the 1959-60 school year.

Amount of money spent for each child, \$369, during that year hit a new record, the National Chamber says. Allowing for inflation, the amount more than doubles that spent per child in the pre-depression year 1929-30.

During the past 30 years, while school enrollments grew 42 per cent, communities and states zoomed their annual education expenditures 571 per cent, the National Chamber says. In the last ten years alone, they tripled expenditures, built more than half a million classrooms, and raised both the number of teachers and their salaries.

### TEXAS WILL BEGIN NEW YEAR WITH 63 "PACKAGED" HOSPITALS ON HAND, READY FOR ALMOST INSTANT USE FOLLOWING ENEMY ACTION OR A MAJOR NATURAL DISASTER. NINETY PER CENT OF THEM ARE LOCATED AT LEAST 15 MILES FROM ASSUMED STRATEGIC TARGET AREAS.

Outgrowths of the mobile army hospitals developed and tested during the Korean War, they can be completely installed by 40 or 50 people in four or five hours. In one test exercise an installation was made in an hour and 10 minutes by experienced personnel.

The hospitals, costing \$21,000 apiece, were provided by the federal Office of Civil and Defense Mobilization as part of a nationwide stockpile program. They are administered in Texas by the state Office of Defense and Disaster Relief, with technical cooperation from the Texas State Department of Health.

Local civil defense organizations in designated locations provide storage and otherwise manage the hospitals and their equipment.

Besides the 63 units presently on hand, 11 others have been allocated to Texas for future delivery. The hospitals are designed to be set up in existing buildings.

Each hospital—already crated for shipment into stricken areas as may be needed—is a complete 200-bed affair with facilities for three operating rooms, a pharmacy, x-ray service, clinical laboratory, sterilizing room, central supply room, and electrical power supply.

Each unit weighs 24,000 pounds and contains 8,000 individual pieces of equipment including a 1,500-gallon water tank and pump for emergency water supplies. There are also complete medical supplies, from surgical caps and gowns to inflammable items such as ether and alcohol which are separately packaged and marked to avoid fire hazards.

Local civil defense authorities provide refrigeration for items such as insulin and blood derivatives. Antibiotics and other materials with expiration dates are labeled "deteriorative" to indicate they must be periodically inspected and rotated.

State civil defense and health authorities estimate that emergency hospitals will have to provide

### AT LEAST HALF THE TOTAL AVAILABLE HOSPITAL BEDS FOLLOWING A MAJOR EMERGENCY, SINCE THE BULK OF EXISTING CONVENTIONAL HOSPITALS ARE LOCATED IN METROPOLITAN CENTERS WHICH MAY BE TARGETS OF ENEMY ACTION.

Doctors and nurses to staff the emergency hospitals will be recruited locally in the community where the unit is installed for service, according to present planning.

## HELP WANTED:

There may be trouble around this corner—waiting for a chance to happen. If it does, the police, the parents, the social workers will each have a theory as to why it happened... a plan to keep it from happening again. Each will be right, to some extent. But it will really have started because someone didn't take the time to help.

It takes strength to rise out of back alleys. Perhaps more strength than a boy has alone. Perhaps a strength that can be found only in Faith.

Those who have Faith should share it. Working through your Church or Synagogue, you can help erase the trouble zones one by one. Goodness takes strength. Strength needs Faith. Faith grows through worship.

# State Capital NEWS

By Vern Stanford

AUSTIN—Forecasters are fond of saying, "That which is going to happen has already begun."

If so, the first year of the new decade, 1960, was strewn with weathervanes to point the course of Texas in the next nine years.

Among major Texas events in the opening year of the sixties were these:

1. PARTY PRIMARIES were held in May and June, two months earlier. New dates ended old traditions, like announcing with the dogwood, campaigning in the heat. For the first time in years, challengers toppled two incumbents from statewide office, a fact that's bound to encourage future activity from young men "waiting in the wings."

2. DEMO CONVENTIONS though tempestuous as always, were held in control by the joint leadership of Gov. Price Daniel and Sen. Lyndon B. Johnson. Johnson won near-unanimous backing for his presidential bid at the June state convention, an event which marked the end of the left-wing DOT. After the national convention in July, dissension arose in the other wing. Many conservative Democrats bucked at supporting standard-bearer John Kennedy and the liberal national platform. Enough became "Texans for Nixon" to make Texas a "doubtful state".

3. 1960 CENSUS reports confirmed predictions that Texas will be a metropolitan state in the sixties. Overall, population grew from 7,711,194 in 1950 to 9,579,677. Sixty per cent of the increase was in the four largest cities. In addition, in every growth area, cities increased their populations at the expense of surrounding rural counties. This did not alter the state total, but changed the make-up of population—now 70 per cent urban, 30 per cent rural. Result will be a strong push for more urban representation in the legislature, more state-level sympathy for city problems.

4. FINANCE PROBLEMS never were out of the news, as both public officials and private citizens

circled the issue that will come to a boil in this year's legislative session. State Finance Advisory Commission, appointed by Governor Daniel in May, worked through the summer and fall. In December it recommended a one per cent payroll tax to raise the more than \$100,000,000 a year the state is expected to need in new money. Meanwhile, meetings were held by practically everybody — teachers, labor and business groups, all with a vital interest in future taxing and spending decisions.

5. AUTO INSURANCE RATES, under a new merit rating plan, have for good or ill stirred more commotion than a back-firing Model-T at a horse auction. Last Legislature turned down flexible rating and instructed Board of Insurance to consider safety incentives and driving records in setting statewide rates. Result was a plan, begun last January 1, basing auto insurance rates on the driver's arrest record for the past three years, including traffic tickets as well as accidents. Drivers whose rates jumped because of minor violations were irate. Those with spotless records got lower rates and were generally happier. A number of lawmakers have promised to look into the matter thoroughly this year.

6. GAS TAX SUIT, begun in early 1960, probably will be in the courts another year. In the past year, gas pipeline companies won rulings that the severance beneficiary tax is unconstitutional in district court and the Court of Civil Appeals. In months ahead, the case will go to the Texas Supreme Court and U. S. Supreme Court. If the tax is upheld, future efforts to raise the rate are certain. If, as in the case of the gas gathering tax in 1953, it is held unconstitutional by the U. S. Supreme Court, it is unlikely that even the most ardent gas tax advocates will try again to raise revenue by this route.

7. RACE FOR SPEAKER of the House, as tight and uncertain as in 1959, brought renewed suggestions that "there ought to be a better way." Whether Rep. Wade Spilman of McAllen or Rep. James

8. TOURIST, NEW INDUSTRY promotion got under way in 1960, despite penny-ante budgets. Highway Department brought out its first tourists' brochure, a 32-page booklet in four colors. This year it will ask the Legislature for \$300,000 to place advertisements in national publications. Texas Industrial Commission also produced a brochure, but says it cannot compete with other states on a \$23-750 a year budget. It will ask the Legislature for \$420,000 a year. Both the tourist and industry seeking agencies contend that Texas cannot achieve its growth potential in the sixties unless it goes in with six-figure budgets comparable to those of competing states.

9. TEXAS TIDELANDS ownership, a paramount issue in the forties and fifties, finally was laid to rest in June, 1960. U. S. Supreme Court, to the surprise of many, ruled that Texas owns the submerged lands 10 1/2 miles out into the Gulf. If the land is as oil-rich as hoped and if there is a market for the oil, tidelands revenue will augment the permanent school fund in the years ahead.

10. SEN. JOHNSON'S ELECTION as vice president opened the door for more lively politicking in 1961 to decide his Senate successor. Field is already crowded with the likelihood of a dozen candidates before the filing deadline passes. Conceivably, someone who already holds an office could be elected, setting off a chain reaction of moves up the political ladder.

FARM PRODUCTION HIGH

Texas farm production in 1960 tied with 1958 for the second highest year in history, the U. S. Department of Agriculture reported. Total production was 138 per cent of the 1946-1956 average. Combined value of the principal crops was \$1,400,000,000. This was three per cent less than last year, largely because of drops in cotton and sorghum grain prices.

Cotton is still the leading crop. Texas farmers produced 4,350,000 bales in 1960 for an income of \$711,000,000. Improved conditions and methods were reflected in the 329 pound average yield per acre, up 79 pounds per acre from the 1958-59 average.

STUDENT VISITS

Peggy Butler visited over the holidays with her parents, Mr. and Mrs. Stanley Butler. Peggy is a student at West Texas State College, Canyon.

Turman of Gober wins in the secret ballot of House members on January 10. It will be several weeks before either can get committees organized and ready for business. To add to the confusion, prospective candidates for Speaker in 1963 already are jockeying for position. Some have suggested a constitutional amendment to permit representatives to elect to meet and elect a presiding officer a month or so before the session's actual opening. Another proposal is to let the people decide by making the post an elective one the same as in the Senate. Advantage besides letting the voters have a choice is the fact that the decision would be reached in November and the House could go to work immediately on the opening day of the session. Also it would eliminate all of the bitterness that is created under the present system.

Follow the leader... In the ever-mounting bustle and turmoil of modern living it is increasingly difficult for many families to set aside even a few minutes each day when they can all be together—conscious of each other as individuals and as a family. We're living in the "pressure decade."

In fact, some growing families facing both busy, diverging schedules and the first stir-

rings of teen-age independence, have discovered unity is almost a forgotten word.

Who sets the pattern in your family? Won't you show the members of your family how to find new time to be with each other? Help them discover the powerful experience of Faith... and the strength and unity that Faith brings. Help them discover the rewards of worship at your Church or Synagogue

Zeke has the right idea in being fully insured out on the farm. On the farm, insurance means so much because the farmer's operations contain an element of real danger and fire protection is much less than in the city. Mr. Farmer, come in tomorrow and be sure you're fully insured. You'll be surprised at the reasonable cost.
