In the above picture are the skeletons found at a multiple burial site on McDonald Creek, east of Post, by members of the Garza chapter of the South Plains Archaeological Society. Searchers find four skeletons

Four prehistoric skeletons have been dug up from a multiple burial site on the banks of McDonald Creek by members of the Garza chapter of the South Plains Archaeological Society.

Frank Runkles, camp ranger at C. W. Post Boy Scout Camp and president of the South Plains Archaeological Society, calls it one of the most important archaeological finds ever made in Garza County. The skeletons, which may be anywhere from 1,000 to 3,000 years old, are those of a young woman and three children from two to five years of age.

The burial site was discovered by Dan E. Cockrum and John Bullard, members of the archaeological society, just off the Spur FM Road on the Monroe Lane ranch.

The skeletons were buried under loose sandstone slabs. One was uncovered at a depth of about nine inches, another at 15 inches and the other two at 19 inches. All four skeletons were lying on their right side in a tightly flexed position.

It was the largest multiple burial site ever found in this area, Runkles said. The only other where more than one person had been buried yielded the bodies of two small children.

"The burials definitely are prehistoric," Runkles said. (See SKELETONS, Page 8)

Probably most public interest at the March session of the Garza County commissioners court Monday will concern possible action on liquor election dates—but to our way of thinking, the commissioners will make even bigger news (from the community worth standpoint) by naming a citizens study committee or commission on the proposed county library.

A lot of interest has been displayed in a county library in recent weeks. It's important to keep impetus going on the project by naming a study group—if that is the court's desire—as quickly as possible, as the committee or commission would have to study the problem for several months before coming up with its recommendations.

S. C. Storie Jr. and Dudley Brown can hardly wait for next Thursday to arrive—that's the "debut date" for Storie Motor Company's new compact car—the Ford Motor Company's Comet. The local agency has four models—two sedans and two station wagons—for display and are already talking about the added style to this new economy car as well as the low price. Take a peek at the stylish lines in their ad on page 9.

Bill Edwards will open a boat and motor sale at his Edwards Boats & Motors tomorrow and for details on how to buy a new boat outfit at considerable savings turn to page 9 as well. Bill's explanation for the sale should cause a bit of comment.

A \$500 savings bond is going to be the top door prize for the Sunday afternoon, March 20, open house of the First National Bank in its new bank home. The bank's invitation for everyone to come tour the new building—and maybe win that savings bond will be found on page 11.

Club stock show to be Saturday

The annual Garza County Junior Livestock Show will be held Saturday afternoon, March 12, at the 4-H show barn in the city-county park.

This year's show is being jointly sponsored by the Post Chamber of Commerce and the Graham Co-op Gin.

The show is open to all 4-H Club and Future Farmers of America members in Garza County.

Show classes will include gifts, all breeds; light and heavy barrows, crossbred sheep and fat steers.

Showmanship awards will be presented in each of the three classes.

Cash prizes, ribbons and other awards totaling \$100 will be presented entrants by John N. Hopkins, manager of the Chamber of Commerce, and Judy Morris, Post FFA sweetheart.

Precinct 4 petition already filed and certified

Liquor election petition is issued for circulation in county's Pct. 3

A petition requesting the Garza County commissioners' court to call a local option liquor election in Commissioner Precinct 3 for "the legal sale of all alcoholic beverages" was circulated last week, but had not been filed with the county clerk Thursday morning.

The petition is the second to be circulated in the county requesting liquor elections. The first, calling for a vote on "legal sale of all alcoholic beverages for off-premises consumption only," was circulated in Commissioner Precinct 4 and filed Feb. 22 with County Clerk Carl Cederholm.

Both petitions — providing the second one is filed with the county clerk — are expected to be presented to the commissioners' court at its March meeting, which begins Monday morning.

The petition circulated in Precinct 3, which includes the "flats" here, was issued by the county clerk March 1. Fourteen names were signed to the application requesting the county clerk to issue the petition.

The Precinct 4 petition was certified by the clerk and is ready for submission to the commissioners' court.

In commissioner precincts or other subdivisions requesting local option elections, the law requires that at least 25 per cent of the total vote cast for governor at the last general election be represented by the signers.

Commissioner Precincts 3 and 4 are the smallest in the county population-wise.

Service station is burglarized

One Sunday night break-in and two attempted break-ins have been reported at the sheriff's office.

Burglars who entered Keith Kemp's Phillips Quick Service Station on North Broadway after breaking the glass in a door stole an undetermined amount of money from two coin machines.

Door glasses were reported broken at Parrish Grocery & Market and Broadway Radio & TV Service, but apparently no entry was made.

The names of Bob Poole and Mrs. Charles Didway were filed Saturday to bring the field of candidates to 10. Mrs. Didway, who is employed at Hamilton's Drug Store, is the third woman to enter the race. Poole is assistant manager at Piggly Wiggly.

Terms expiring on the City Council are those of L. A. Pressen, who is not a candidate for re-election, W. S. Duckworth and C. R. "Si" Thaxton. Duckworth is serving out the unexpired term of Powell Shytles, who was elected mayor last April.

Councilmen start ball rolling on

City Hall expansion plans

The City Council decided Monday night to confer with an architect from the Cantrell & Burns firm in Lubbock on remodeling and expansion of the city hall.

The council's action came at its regular monthly meeting after Mayor Powell Shytles reported that a representative of the firm was here Monday afternoon to look at the property and talk over the proposed expansion.

The discussion on the expansion of the city hall brought out that the city recently acquired the service station on the corner just west and will expand to Broadway. This will afford needed room for the water department and enable remodeling of the present city hall to afford more room for other

departments of city government and the fire station.

The remodeling, as proposed, would include renovation of the front of the present building housing the city hall. Little, if any remodeling, is planned for the upstairs, which is used as a meeting place for clubs and other organizations and for other affairs.

The mayor said remodeling of the present city hall would be paid (See CITY COUNCIL, Page 8)

Running for office isn't easy

The rush of candidates to file for city and school district boards the past couple of weeks is a good indication of public interest in local government.

And that is all to the good. The same thing had manifest itself earlier in the county races for sheriff and county commissioner posts.

It shows that people are taking more interest in local affairs and local problems. For the community, that is a welcome sign.

An interested, alert community is usually the progressive get-it-done type of town.

Running for public office isn't easy for most folks. Everybody hates to lose and in political races there have to be losers. This negative aspect deters many would-be candidates.

The Post Ministerial Alliance and the Amity Study Club have indicated that they are going to give each candidate ample opportunity to tell the public where he or she stands on the local problems concerning the office to which he or she aspires.

This also is a very healthy condition. In selecting officeholders, the public needs to select the person most qualified for the job. It isn't—or at least it should be—a popularity contest.

The public needs to know the thinking of their candidates and see how candidates come to grips with problems they would be called upon to face in office.

If somebody is to represent us, he or she must represent the community thinking on the problems at hand.

In the weeks ahead, here is one suggestion for the voter. Psychologically, we all are too inclined to vote against something or somebody, rather than to vote for something or somebody.

If we want our candidates to stand for things, we must vote for—and not against. If we vote only against things, the candidate who says the least and takes no stands has the best chance, because in doing nothing he infuriates no voters.

To put it simple, if we are to ask the best of our candidates we also must ask the best from ourselves.—JG.

Ball rolling on city hall building

Early plans for improvement of the city hall building and other municipal quarters are taking shape, an account of which will be found elsewhere in this issue of The Dispatch.

The latest development in these preliminary plans was the visit of an architect the first of the week to look over the present city hall, fire station and the expansion property purchased by the city just west of the city hall.

City officials have estimated that for a maximum of some \$20,000 the present city hall can be renovated, with incorporation of the new property into the present structure included. This renovation would include a larger fire department, a larger city hall, more room for the water department and a general remodeling.

The above figure—and plans are, of course, purely tentative pending an architectural con-

tract calling in experts on the expansion and improvement job.

In view of the city's growth and the crying need for more room and more attractive surroundings in which to carry on the important business of municipal government, it is to be hoped that the city council does everything that needs to be done in the proposed renovation. There is the matter of financing, of course, and councilmen have made it clear that they do not want to have to float a bond issue to pay for the project. Some day, of course, Post is going to need an out-and-out new city hall and other municipal buildings, including a fire station. That day, it appears, and the means of financing such a project are some years away. In the meantime, however, any renovation and remodeling project should be made a good one and not something on which just to get by for a few years.—CD.

We salute the nation's 4-H Clubs

This week—March 5 to 12—is being observed as 4-H Club Week in Garza County and throughout the nation. The week is set aside for the purpose of giving special recognition to this vital work among the young people of our country.

The great agricultural effort of providing food, feed, and fibre, not only for our own citizens, but also for many millions throughout the world, have made our country great and have caused it to be looked upon as a friendly and most welcome neighbor by many peoples.

Responsible for the greatness to a large extent are the young people who have been trained in 4-H Club work throughout the years and have grown up to be the successful farmers of today.

An active 4-H Club program has been carried on for years in Garza County through the efforts of devoted agricultural and home demonstration agents as well as local adult leaders. Their efforts are paying off through the fine records being made by farmers and housewives of this area today.

We join in saluting 4-H members, leaders, and parents. They are to be commended for the fine job that is being done in training the youth of today along the same lines, guiding them on the paths to success in their future endeavors, be they agricultural, homemaking, or even in the business or professional world.—CD.

Burglary victim has suggestion

One local business man whose place was recently burglarized of an adding machine and 30 cartons of cigarettes suggests that rewards posted by merchants might put a crimp in break-ins here.

This business man's theory is that since most everything else has been tried, it wouldn't hurt to give the reward plan a fair trial. He says it wouldn't cost local business firms much to chip in on a reward fund—considerably less, in fact, than many of them stand to lose from burglaries.

He suggests that a nominal reward be paid "for information leading to the arrest and con-

vicition" of burglars. "A few solid convictions," he said, "would do more than anything else to halt our outbreaks of burglaries and petty thievery."

It stands to reason that in most of our break-ins someone not directly involved knows who did it. There is a good chance of such a person coming across with some pertinent information if there is a promise of a reward.

We're always glad to "air" the suggestions of any law-abiding citizen who thinks he might have an answer to our law enforcement problem—particularly a citizen who has himself been the victim of lawlessness.—CD.

Good spelling on tap Friday

Believers in good spelling—and there isn't too much of it going around nowadays—will, if they can spare the time, enjoy themselves at the 8th annual Garza County Spelling Bee Friday afternoon of this week in the district courtroom.

Since we work with words and believe that they should be spelled right, it always does our heart good to attend the spelling bee and listen to the "cream of the crop" in their respective schools as they vie for the trip to Lubbock and the regional spelling bee.

Good spellers among school students are the exception rather than the rule, and the main reason the National Spelling Bee, of which the Garza County Bee is a part, was inaugurated was to encourage better spelling among our future citizens. Someone, it seems, saw that the trend was to poorer spelling and set the Bee in motion to improve the situation.

So, if you have some spare time early Friday afternoon, go up to the district courtroom and listen to the youngsters spell—or misspell—the words from the official Spelling Bee book.—CD.

What our contemporaries are saying

Texas' downstate lakes are subject to a tremendous loss of water from evaporation, the amount of which in acre feet almost passes imagination. On the high plains, also, our wet weather lakes lose more water to evaporation than goes into the ground. A simple, relatively inexpensive way to control evaporation is pointed to in recent experiments. Water in the lakes would last much longer and the water could be used as needed for recharge or to pump out on the crops to great advantage if evaporation could be controlled.—The Floyd County Hesperian.

Truth is stranger than fiction, probably because fewer people have been introduced to it.—Marvin Tomms in The Falls Banner.

C. M. Eder, a pioneer Levelland Chamber of Commerce manager back in Hockley County board of development days, took one look at the stamps he had purchased at the Post Office and hit the ceiling.

What had put the gray-haired and mild-man-

nered little gentleman in a mood for gymnastics? The U. S. stamps bore the image of the mayor of West Berlin, admittedly an ally in the current cold war with the Soviet Union, but certainly nothing more.

"Since when," Eder wanted to know, "did we run out of men with stature enough to put on our postage stamps?"

He felt incensed enough about it to dial this department, where he found a willing listener. Eder avowed maybe there might be a few million American men who should rate a postage stamp portrait before the mayor of Berlin. His recommendation for a more appropriate choice: the mayor of Whiteface.

This scribe is only a stamp-ticker, not a philatelist. Who or what appears on stamps which bear the U. S. mail hasn't been of much concern. But what you find there might well be a symptom of the times. When Khrushchev or his successor starts carrying the mail, these Plains won't be safe even for Flatlanders. It'll be time then to start heading for the hills.—Orlin Brewer in The Hockley County Herald.

THURSDAY to

THURSDAY

By CHARLES DIDWAY

NEITHER THIS year's elections, developments on the cold war front, major league baseball races nor what Elvis Presley does with his time out of the Army is likely to cause as much conversation as the weather we've had here the last few weeks.

It's really been something to talk about . . . and may not be over yet. But, as I overheard one local optimist remark, "it's been better than no weather at all."

JUST TO GIVE you an example of how severe the weather has been, it was indirectly responsible last week for the postponement of a rodeo meeting. And when anything interferes with a rodeo meeting in Post, it's got to be something out of the ordinary.

THE MAN UP the street says civilization can pretty well be measured by the degree of helplessness when the electricity goes off.

It's always nice to keep posted, and that's why I didn't throw this information away when it arrived the other day in a plain envelope, with no name signed: In the presidential election of 1952, Garza County cast 1,539 votes, and in the presidential election of 1956, it cast 1,414 votes. In 1952, the county went for Stevenson over Eisenhower by a vote of 797 to 742, and in 1956 favored Adlai over Ike by a vote of 786 to 628.

NEWSPAPERMEN like to keep posted on such things since they're usually too busy or too lazy to look them up. Now, if someone will just send me another little piece of paper with what the vote is going to be next November and for whom, we'll pass that along to our readers, too.

Sign on a church: "Trespassers will be forgiven."

THIS WEEK'S advice: To keep your teeth in excellent condition—see your dentist twice a year—and mind your own business!

The average husband remembers when and where he got married—but what escapes him is why.

Webster defines archaeology as "the science of antiquities; the study of prehistoric remains, or the relics of the early races of mankind." Within that definition, members of the Garza chapter of the South Plains Archaeological Society have discovered that their county is proving one of the most fertile in Texas in yielding Indian artifacts.

Sunday afternoon, I attended a meeting of the Garza chapter, at which members of the mother society—the SPAS—were guests and at which they learned about the Garza chapter's discoveries last year in excavating an ancient hunting party's campsite on the big U Lazy S Ranch.

The story of the site's discovery, the excavation and the discoveries was told concisely by Chief Runkles, who is president of the SPAS; Emmett Shedd, president of the Garza chapter; Dan E. Cokrum, secretary of the chapter, and Jim Word of Floydada, SPAS vice president.

Telling the story even more graphically, however, was the display—shown for the first time—of the 274 artifacts and the more than 10,000 flakes of flint uncovered at the site. Since work on only about one-eighth of the site was completed, there's no telling how many more relics would have been found if it had been possible to excavate the entire work area.

Bible Thoughts "THE PARADOX OF THE CROSS"

By Ronnie Parker

A paradox is an assertion or sentiment seemingly contradictory, or opposed to common sense, but yet true in fact.

The cross of Christ was the most tragic event in the history of the world, yet the most wonderful thing that ever happened. It was the saddest spectacle man ever beheld, yet out of it came the greatest joy. The cross was Satan's greatest victory and Christ's most humiliating defeat, yet it was the most stunning defeat Satan ever suffered and the most glorious victory Christ ever won. Christ won by losing. He conquered by surrender.

The cross was the greatest exhibition of divine justice in condemning sin, yet the most wonderful demonstration of divine mercy in pardoning sin. It was God's greatest manifestation of hatred for sin yet his supreme proof of love for the sinner. The cross was the darkest hour in history, yet it was the time of greatest light. Though the sun refused to shine and God hid his face from Christ, the cross was the means by which Christ really became the "light of the world." In the cross we see man's hatred for Christ, yet we see Christ's love for man.

The theme of our lectures this week at the Church of Christ is "Christ suffered for us." You are invited to attend every one of the last few lectures. A warm welcome awaits you.

AMERICAS
LOWEST-PRICED
6-PASSENGER
STATION WAGONS

The new Ford and Ford Falcon Wagons—both and seventh wonders of the Ford wagon world

America's station wagon specialists complete the world's largest wagon family with TWO NEW-SIZE wagons. They're Falcons in size and savings—and full-fledged Ford wagon wonders when it comes to work! With 2 feet less car to manage, you're a genius at solving traffic problems—a past master at parking.

Falcon Wagons are priced up to \$154 less than other 6-passenger compact wagons. The 2-door model is America's lowest-priced 6-passenger wagon.*

Falcon gives the best gas mileage of any American-built wagon, on regular fuel. You can go up to 30 miles on a gallon of gasoline! You get other Falcon savings, too. Repairs cost less. Change oil only once in 4,000 miles. And the Falcon's aluminum muffler normally lasts twice as long as the ordinary kind.

Longest load floor in the compact field is yours in a Falcon. It's over 7 ft. long, with cargo space totaling more than 76 cubic feet!

Full-six-passenger room, too, because Falcon Wagons are built for people. There's room for hats, hips and legs. Come see these newest wonders from the Ford wagon world! Road division, Ford Motor Company.

Pattern books and travel folders will make favored reading for many members of the Woman's Culture Club in the next few days.

It has been announced the club's plans to enter the 3rd Annual Fashion-Sewing Contest sponsored by the General Federation of Women's Clubs and Vogue Pattern Service, in cooperation with the Woman's Club Service Bureau of New York City. First prize in this national contest is a trip to Europe, with other awards including trips to the Federation's annual convention in Washington, D. C., this spring.

All contestants are required to make and model an outfit which they consider the "Ideal Costume for the Clubwoman's Wardrobe." The winning entry will be selected on the basis of adaptability for various club occasions, over-all fashion effect, becomingness to wearer, and workmanship. Judging of entries from the local club is scheduled for March 16. The winner of this judging will be eligible to compete in the Federation's District judging in April, which will be in Lubbock this year. The winner there will be eligible to compete in the State Federation judging.

New labeling act to assist homemakers in clothing buys

By LETA SMITH

The new labeling act came into effect March 3, 1960. The purpose of the act is to protect the manufacturer as well as the consumer. All textiles which include ready-made garments and yardage material should have on the label, the following:

1. The fiber or fibers which are in the material and their percentage.
2. The manufacturer's name.
3. The country if the product is imported.

Since homemakers are the ones who will be affected by this act, because they have to care for the family clothing, they will have to become acquainted with the names of new fibers and their family name. This will aid her in washing, drying, and ironing the family clothes.

The natural fibers with which you are probably now familiar with are still called cotton, silk,

wool and linen. But the man-made fibers are the ones to learn in order to give textiles the proper care.

I am sure you have at one time bought a beautiful garment or piece of fabric that looked sad after the first laundering. Much of the success or failure in laundering synthetics lies in following the directions given on the labels. So read and follow the directions carefully. Look for a good descriptive label when you buy.

Come by the county extension office and pick up the bulletin on the new fibers and a chart on proper care.

CIRCLE TO MEET

Circle I of the United Presbyterian Women will meet Monday at 2 o'clock at the home of Mrs. I. N. McCrary, 915 West Main. Mrs. T. W. Hagood will be in charge of the program.

Just Texas and a little bit more—that's Gladiola Land. Here live the best home bakers in America—known far and wide for their biscuits, cakes and pies.

Naturally, when it comes to flour, these ladies are hard to please. We have to make Gladiola Flour their way—or else. It keeps us on our toes, but it's worth it. Every day, every year, Gladiola outsells every other brand.

Folks in Sharpeye, O., have to be satisfied with something less, but you don't. Gladiola quality is your best bargain in flour. Remember—snow-white Gladiola costs, the average family, only about 1/5¢ a day more than the cheapest flour at your store.

"Teach me thy way, O LORD, and
LEAD ME IN A PLAIN PATH..."

How beautiful are the paths and wagon trails. The gate is open and the pathway clearly marked. Many such trails are rapidly becoming memories as super highways take their place. It is good to know that God's way is still the same and will never change... for "God's word will endure forever." His love is clearly defined and his ways are well marked. Depend on the Lord to direct you each day. Attend church each Sunday and worship the Lord in his holy temple.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

"Hold up my goings in thy paths, that my footsteps slip not."

National Honor Society members enjoy skating

By Rhea Peel

Thursday night, the members of the National Honor Society of Post High School went to Lubbock for a skating party.

A lot of skating talent was revealed, especially by our sponsor, Mr. Tittle.

About 15 members attended and had a great time.

PLAINVIEW GUESTS

Guests of Miss Kate Lowrie during the weekend were her niece and family, Mr. and Mrs. O. E. McClendon and Mike of Plainview.

High school principal writes of trip to Portland, Ore., meeting

(Editor's Note: Glenn Whittenberg, Post High School principal, has written the following account of his trip to the annual convention of the National Association of Secondary School Principals in Portland, Ore.)

We went by plane, leaving Lubbock at 7:45 a. m. Friday and flew to Dallas, Los Angeles, San Francisco and Portland, and arrived there at 5 p. m. This was the fastest traveling I have ever done.

We registered for the convention at 8 o'clock Friday evening and then spent some time looking at exhibits of educational materials.

The theme of the convention was "Quality Education — Today's Priority." We were privileged to hear a number of outstanding speakers on education. Among them were Dr. Conart, director, Study of American High Schools; Dr. Frank B. Bennett, president of Oregon State College; Dr. Hubert Alyea, director of the College of Chemistry in Princeton University, and J. Keith Funston, president of the New York State Exchange.

We visited Reynolds, Ore., High

School Monday morning and were given information on their curriculum, salary schedule, etc.

We flew down to San Francisco Wednesday afternoon and spent several hours sight-seeing in the city.

We flew to Dallas non-stop from San Francisco in two hours and 40 minutes and got back to Lubbock about 10:30 Friday morning.

It was a very worthwhile and enjoyable trip and I certainly appreciate the fact that the school board and Mr. Smith made it possible for me to attend.

It will be truly an evening of enchantment, an evening of honest relaxation, an evening that will give folks something to talk about. And, we do need something that will take us away from the cares of the work-a-day world in which we live.

Glamorous costumes, intricate stage settings, unusual displays and routines will capture the fancy and grip the attention of those who see this captivating revue.

Special arrangements are being made so that boys and girls of school age will have the opportunity to attend a special school matinee at 2:30 p. m. Officials of the senior class believe this attraction to be so outstanding that they want to make it possible for every boy and girl to enjoy this stage production.

Few stage shows are on the road today. And, it is truly unusual when one of this calibre is available in this area.

Some of the highlights include exotic oriental productions, the European flower garden sensation, a

historical guillotine illusion and Prince Zogi in person.

At state university last week the Zogi Revue was acclaimed one of the stellar attractions of the year by student and faculty managers. A full baggage car of equipment and scenery is used in this production.

'Better Breakfast' is work project of FHA chapter

By Sammie K. Caffey

The first and fourth period homemaking classes had their unit FHA meetings Thursday, Feb. 25. We decided to work on the state project, "Better Breakfast."

We decided to run a survey to find out how many students of high school age eat breakfast. We compared this with the 6th grade students. Posters were made to emphasize a good breakfast.

The results of the survey were: 183 high school age students ate breakfast; 43 didn't eat, and 20 ate sometimes. In the 6th grade, 55 ate breakfast, three didn't eat at all and one ate sometimes.

The four main foods were eggs, toast, milk and bacon. The reasons given for not eating breakfast were getting up too late, not hungry, and not wanting to eat.

The girls who worked on this project were: Dorothy Carter, Dorothy Horton, Barbarie Ivie, Norma Julian, Shirley Masters, Ann Pennington, Reba Shepherd, Elaine Wheatley, Kay Ballentine, Gloria Blacklock, Sharon Blackwell, Joan Chilcoat, Sammie Caffey, Earlene Holly, Vonda Howell, Sharon Isaacs, Daisy Mae Martinez, Judy Morris, Janice Moreman, Edna Redman, Margaret Ritchie, Marsha Smith, Ann Taylor, Beverly Young and Mary Willis.

A glass eye was left on a Belfast bus.

Skeletons--

(Continued from page 1) Columbian, apparently by several hundred years," Runkles said.

Tests already are under way by scientists at the Texas Tech Museum to establish the approximate age of the skeletons, according to Runkles.

He said artifacts such as arrow points, pottery tools and flint flakes, which may or may not be in with the burial, have been found on the surface at or near the site of the grave.

A highly polished, perfectly shaped half-moon stone with 32 regular notches on the curved edge was the only object found in the burial place.

Runkles said it was the first object ever found in an ancient burial site in this area and may be the clue to the type of civilization to which the people belonged.

Jones rites--

Citizens who plan to be out of town during the city election, or who are ill and unable to reach the polling place are eligible for absentee ballots.

Walter Crider will be presiding judge for the April 5 election, which is to be held at the City Hall.

City council--

There was a little girl
Who had a little curl
Right in the middle of her forehead
And when she was good
She was very, very good
But when she was bad, she was horrid.

WE HAVE BEEN WONDERING lately.
For years (most of the time) our business has been very, very good
BUT NOW IT'S HORRID.

IS IT BECAUSE THIS IS ELECTION year?
IS IT BECAUSE the weather is bad?
IS IT BECAUSE you need nothing?
IS IT BECAUSE we don't advertise?

IT COULDN'T BE because we don't have it
BECAUSE we have as much or
MORE THAN EVER.

WHATEVER the reason—LET'S START again.

Williams stars in ETS practice tilt

James Williams, top quarterback prospect for the East Texas State Lions next fall, played an outstanding game in a losing cause Saturday night when the ETS Exes drubbed the varsity, 14-6.

Williams, a former Post Antelope and San Angelo College gridder, gained 67 yards rushing and completed five of six passes for 62 yards to lead the varsity in both departments. One of Williams' completions was for 35 yards to end Bill D. Hopkins for the lone var-

sity touchdown.

After the ball changed hands twice in the fourth quarter, the varsity made a last-ditch attempt to get back in the game. Williams faded to pass at the Exes 44, found no one and ran to the 24 as time ran out.

Scottie Pierce is all-state choice

Scottie Pierce, one of the starters on this season's district champion Post Antelope basketball team, received honorable mention on the all-state class AA team selected by sports writers.

Pierce, who set a new school scoring record this season, is a senior and a three-year basketball letterman. At 6-5, he was the tallest man on the Antelope squad.

Two members of teams the Antelopes played this year were all-state first team selections. They were Hal Ratcliff of the Dimmitt Bobcats and Lynn Wilson of the Seminole Indians.

Late field goal eliminates K&K

Post's K&K Food Mart team was eliminated from the Region 6 TAAF basketball tournament in Lubbock Saturday by a field goal in the final three seconds.

The winner was Citizens' Bank of Pampa by a score of 55 to 54. Post Antelope coach Pete Murray scored 30 points in the losing cause. Runner-up for Post in the scoring department was Jimmy Redman with 10.

K&K lost its first round game Friday night to Build 'er Back Motors of Amarillo, 67 to 41. Murray led the Post scoring with 20 points.

SATURDAY IN LUBBOCK
Mrs. Jim Hays, Rheba and Herbie, Mr. and Mrs. Jackie Hays and Miss Pat Ritter visited in Lubbock Saturday with Mrs. Hays' daughter and son-in-law, Mr. and Mrs. Roy Gilmore and daughters.

Post High School's weather-hampered track team is scheduled to compete Saturday in the annual Whirlwind Relays at Floydada but once again the weatherman may have the last say.

The Crosbyton Relays, scheduled for last Saturday, were postponed because of the weather, delaying for another week the Antelopes—as well as practically every other track and field team in this area.

Coach John Blocker said today that he and Coach Harold Teal plan to take their entire squad to the Whirlwind Relays, where Post is expected to be a top contender, along with Olton and Tulla, for the championship in the class AA division. Tulla is defending champion.

Other class AA schools entered include the host Whirlwinds, Tahoka, Slaton, Spur, Abernathy, Lockney, Muleshoe, Childress and Morton.

Among the teams competing in the classes A and B division will be Ralls, Idalou, Crosbyton, Lorenzo, Jayton, Hale Center, Anton, Kress, Silverton, Petersburg, Friendship and Matador.

With the inclement weather having called a halt to practice as well as to actual competition, Coaches Blocker and Teal still were uncertain this week just who would enter what.

"If the weather stays clear and warm, we may know by Saturday," Coach Blocker said Tuesday afternoon.

The Whirlwind Relays will be held at Floydada's new track facilities just east of the high school, with Floydada coach Preston Watson as director. Ham Smith will be the starter.

Members of the Antelope squad include Tommy Bouchier, Ronnie Clayton, Curtis Didway, Scottie Pierce, Glendon Washburn, Clarence Ivie, Harold Wayne Mason, DeWayne Capps, Wendell Duncen, Jimmy Minor, Larry Welch, Jimmy Ivie, Kenny Poole Neal Francis and Richard Ray.

Post teacher is named to office

Mrs. Mary Lee Wristen of the Post Junior High School faculty was elected treasurer of the Texas State Teachers Association, District 13, at the annual convention in Lubbock last week.

Mrs. Wristen's election came at a House of Delegates session Thursday night.

In one of Friday's sessions, James West, principal of the Post Elementary School, was a platform guest as president of the Garza County chapter of TSTA.

The Post schools were closed Friday so that faculty members could attend the convention. Although the weather was bad, about 75 per cent of the Post teachers and administrators attended the convention, according to R. T. Smith, superintendent of schools.

Revival is under way at Grassland church

A youth revival is under way at the Grassland Nazarene Church with the Rev. Bobby Ferguson of Floydada as the evangelist.

Mr. and Mrs. Frank Taylor of Floydada are special singers for the revival.

Lack of Boat & Motor Business SALE Starting Friday, March 11

We had the misfortune of starting a boat and motor business at the same time (after waiting for over 50 years) the city commission decided to close South Lake to boats and motors, leaving us with no close place to demonstrate.

This unfortunate circumstance, coupled with the slow moving White River project, has found us with more money invested in this equipment than is healthy for good business—consequently our loss is your gain.

We are not going out of this marine business, but merely reducing stock.

Two victims break hips

Three are injured in falls on ice

Three persons were injured here Sunday morning in falls on ice or snow.

Two of the three—J. F. Brandon and Mrs. F. A. Gilley—were transferred to Lubbock hospitals to receive treatment for broken hips. Brandon, who is 83, underwent surgery Tuesday.

Mrs. Marvin Hudman broke her wrist when she fell at her home at 614 West 10th St. while going out to get the morning paper. She was treated at her home for the injury and her wrist was put in a cast.

Brandon fell on the back steps at his home at 109 Ave. Q while leaving for Sunday school. He was treated at Garza Memorial Hospital before being transferred to Lubbock.

Mrs. Gilley, who lives at 115 South Ave. M, fell while walking to church after deciding that it was too slick to drive her car. She fell just a few feet from her home.

An earlier fall victim, Mrs. Ethel Redman, returned to her home Friday from Garza Memorial Hospital where she was treated for a fractured right ankle. She fell at her home here about 10 days ago.

Officers probe three accidents on slick roads

Four persons escaped serious injury in three separate accidents on slick roads Saturday and Sunday. Tom Keever of Lubbock came out unharmed when his Volkswagen skidded and overturned early Sunday about 10 miles southeast of Post on U. S. Highway 84. The car was almost totally wrecked, according to Deputy Red Floyd, who investigated the accident. Keever was en route to Lubbock from Austin. Eugene Wheeler, driver of a six-wheel truck loaded with cottonseed, escaped injury when his truck jackknifed and turned over in the strip between the divided lanes of U. S. 84 a short distance southeast of Post. Wheeler had just driven the truck over a bridge when the accident occurred. He was driving southeast.

In an accident occurring during Saturday night's fog, an automobile driven by John Claborn sideswiped another car about eight miles northwest of Post on U. S. 84. There were no injuries, according to Deputy Floyd.

Charges filed against two following fracas

Separate charges of aggravated assault and shooting off a firearm in a public place have been filed against two Negroes as the result of a fracas in the "flats" Saturday night. Albert Taylor was charged with aggravated assault, and Tony Thomas, who received a knife wound, was charged with firing a rifle into the floor of a house. Deputy Sheriff Red Floyd, who investigated, said Thomas procured the shotgun after receiving the knife wound.
