

Marvin Hudman is new Rotary head

Marvin Hudman, co-owner of Hudman Furniture Company, was elected president of the Post Rotary Club at the club's October directors meeting Tuesday.

He will succeed Ronnie Parker, arch of Christ minister, who is resigning from the club effective next week prior to his late October departure from Post for an evangelistic post in Copenhagen, Denmark.

Hudman's term as president will be completed July 1, 1961.

The local furniture man has one of the best current attendance records in the local club. He and his wife attended the Rotary International convention this last summer at Miami, Fla.

Hudman will be installed at the luncheon next Tuesday.

City of Post's \$439,682 budget is record-breaker

The biggest budget in the City of Post's history—\$439,682.15—is under consideration by the city council preparatory to adoption for the fiscal year of July 1, 1960, to June 30, 1961.

The proposed new budget is an increase of \$79,316.73 over the previous year's budget.

The new budget is based on an assessed valuation of \$5,977,907, which is an increase of \$2,592,970 over the previous year's valuation.

The more than two and a half-million dollar increase in valuation came from the expansion of

the city limits one-half mile in all directions, with the new property valuations going on the tax rolls for the first time this year.

The tax rate of \$1.50 per \$100 valuation, which is the same as last year's tax rate, will result in a levy of \$89,668 in city taxes.

The proposed budget lists total receipts from the general fund as \$108,798.

CITY HALL EXPENSE

Total city hall expense, listed at \$42,170 in the proposed new budget, is an increase of some \$28,000 over last year's actual expenses of

\$13,954.52, with \$25,000 in permanent improvements accounting for the bulk of the increase. The city hall remodeling brought the bulk of the increase.

The city hall expense figures also includes mayor and councilmen salaries totaling \$3,000, city secretary salary of \$3,050, and other salaries of \$2,530.

For the police department in the new budget, \$18,703 has been set up, as compared with \$6,129.86 in last year's budget. Additional law enforcement personnel plus the city's part in paying for police

radio operations accounts for much of the increase, with a new police car also included.

The fire department has been budgeted \$13,750 as compared with \$6,879.05 last year.

STREET DEPARTMENT

The budget figure for the street department is up to \$32,450 over last year's actual expenditures of \$20,472.80.

Total miscellaneous expenses in the proposed budget are listed at \$5,800 as compared with last year's expenditures of \$10,312.

The Post Dispatch

Thirty-Fourth Year Post, Garza County, Texas, Thursday, October 6, 1960 Number 19

New post office bids are being requested here

Advertisement for bids for Post's new post office building were posted here this week by Postmaster Harold Voss.

The bids will be in the form of the cost to the post office department to lease a building built to post office department specifications on the northwest corner of the intersection of West Main and North Avenue K for a ten-year period with four consecutive five-year renewal options.

The bid advertisement form explains that the postmaster general holds an assignable option to purchase 11,200 square feet of land at the above location for \$11,000.

The low lease bidder would purchase the land and build the building.

The successful bidder will be required to furnish a 100 per cent performance bond in the amount of \$81,000 and a labor and materials payment bond in the amount of 50 per cent of the performance bond.

The west wall is to be a party wall.

The First National Bank, which now owns the site, is reported planning at some possible future time to build a building between the present bank building and the new postoffice building using the present bank building and the postoffice building walls.

It is reported that architecture of the postoffice building calls for construction which will be in with the present First National Bank building and the proposed building between the bank and the postoffice.

The new post office building would contain 4,640 square feet of space, with a driveway, parking and maneuvering area of 5,502 square feet in the area, 254 square feet of platform space and 2,334 square feet of space to be landscaped.

Bids are to be submitted to V. E. Bell, real estate office, at P. O. Box 1386, Lubbock, no later than 2 p. m. Dec. 5, 1960.

Welding course is being scheduled

Welding specialist C. B. Edwards from the Texas Education Service has again been scheduled to teach a course in Post, according to D. H. Koeninger, Post High School vocational agriculture teacher.

Edwards will conduct a course in arch welding or in oxygen-acetylene welding, whichever seems to be in the greater demand, Koeninger said.

The fee for the arch welding short course would be \$5 and for the oxygen-acetylene course, \$12. These fees, Koeninger explained, are used to pay for materials.

The oxygen-acetylene short course would cover cutting, brazing, welding and hard facing.

Any farmer interested in taking either of these short courses is urged to see Koeninger as soon as possible. Dates of the short course this year will be Dec. 12-16. The maximum number for the course is 12, the minimum eight.

Last year, the welding school was cancelled because of the harvest in November.

50 stars

The first 50-star American flag in Post was unfurled Tuesday in City Hall by the Post Rotary Club.

The club, which meets regularly in the City Hall, voted last month to purchase the new American flag after the city had completed its complete redecoration of the hall.

In a brief ceremony Rotary President Ronnie Parker presented the flag for the city's use to City Councilmen C. R. (Si) Thaxton and Harold Lucas, in the absence of Mayor Powell Shytles.

The two councilmen and Shytles are all Rotarians.

The program at the Tuesday luncheon was presented by Ted Hibbs. It was the showing of a new, sound film on the rescue washing technique, the best method of artificial respiration, at the Horn of Lubbock, Southwest Texas Public Service Co. engineer, operated the projector.

Hibbs said the film is available on 30-day notice to his utility firm for showing by local organizations and groups. It already has been shown to Postex employees here and to many local school students.

Mrs. Iris Power, program chairman of the Post P-TA, was hostess of Hibbs for the film's showing.

Hearing to be Tuesday on new Garza SCS District

A hearing on the formation of the proposed new Garza Soil Conservation District will be held by the State Soil Conservation Board in the district courtroom here at 7:30 p. m. Tuesday, Oct. 11.

Garza County is now a part of the Duck Creek Soil Conservation District, which is composed of Garza, Dickens and Kent counties and a portion of Stonewall County.

The board that will conduct the hearing is composed of five members who come from all three counties. If enough people are present at Tuesday's hearing to express their views as to the need for having a Soil Conservation District in Garza County, the state board will call an election on it, with voting to be in Garza County only.

A Soil Conservation District in Garza County would be composed of five farmers and ranchers of the county, with the board members being elected for five-year terms.

Chamber event is Saturday

Final plans for Saturday's Farmer-Merchant Barbecue were made yesterday afternoon at a meeting of directors of the Post Chamber of Commerce, which is sponsoring the event for the second year.

Chamber directors emphasized that everyone is invited to attend the barbecue and that no tickets will be required. The barbecue will be held Saturday evening at the Garza County 4-H Building.

The plans for the barbecue were completed by the Chamber's agricultural committee, headed by George (Scotty) Samson.

Matt Steiler has volunteered as "head chef" for this year's barbecue after having served in the same capacity last year.

Members of the serving committee are Irby G. Metcalf Jr., Tom Power, James Minor, C. R. "Si" Thaxton, Charley Luttrell, Max Gordon, R. T. Smith, Bill Edwards and Jim Cornish.

The barbecue was inaugurated last year as a replacement event for the Chamber's first bales of cotton awards.

Permits to build nearing \$900,000

Three building permits issued this week at City Hall were for \$2,000 and edged the building mark to date to \$889,305.

Largest of the three permits went to Mrs. Gertrude Hodges for a 6 by 20-foot addition to her residence at 110 North Avenue H, estimated cost \$1,200.

Dr. Harry A. Tubbs was issued a permit for roof and repairs at his home at 413 North Avenue M, estimated to cost \$500.

A permit was issued S. G. Byrd for addition of a bedroom, estimated to cost \$300, at his home at 401 North Avenue H.

Billy Donaldson is baby contest winner

Billy Donaldson, almost two-year-old son of Mr. and Mrs. R. L. Donaldson, is the winner of the Piggly Wiggly baby picture contest here.

The youngster, whose picture you will find in the Piggly Wiggly ad this week on page 26, will be two in October. His prizes include a large oil painting of his own picture and a clock radio.

R. L. (Bob) Donaldson, assistant manager at Dunlap's store here, lives with his family at 602 North Avenue 9.

Dr. Tubbs is named Texas academy director

Dr. Harry A. Tubbs was elected a director of the Texas Academy of General Practice for a three year term at the meeting of the Academy in Dallas this week.

Dr. and Mrs. Tubbs, and Dr. and Mrs. John Carter attended the sessions which began Sunday. They were scheduled to return to Post either late Wednesday night or Thursday morning.

Alcoholics Anonymous to hold open meeting

The public is invited to attend an open meeting of Alcoholics Anonymous at 8 o'clock tonight in the Presbyterian Church annex.

Speakers from out of town will be on the program, local AA members have announced.

Barbecue plans completed here

Final plans for Saturday's Farmer-Merchant Barbecue were made yesterday afternoon at a meeting of directors of the Post Chamber of Commerce, which is sponsoring the event for the second year.

Chamber directors emphasized that everyone is invited to attend the barbecue and that no tickets will be required. The barbecue will be held Saturday evening at the Garza County 4-H Building.

The plans for the barbecue were completed by the Chamber's agricultural committee, headed by George (Scotty) Samson.

Matt Steiler has volunteered as "head chef" for this year's barbecue after having served in the same capacity last year.

Members of the serving committee are Irby G. Metcalf Jr., Tom Power, James Minor, C. R. "Si" Thaxton, Charley Luttrell, Max Gordon, R. T. Smith, Bill Edwards and Jim Cornish.

The barbecue was inaugurated last year as a replacement event for the Chamber's first bales of cotton awards.

Murder suspect returned here

Robert Brandon, indicted for murder with malice by the Garza County grand jury last week in connection with the slaying of Raymond Jefferson here Aug. 21, was returned to Post from Pratt, Kan., yesterday by County Sheriff Carl Rains.

Brandon was apprehended in Pratt, where he had been reported living since released here after questioning following the slaying.

Bennie James Porter, the other indicted for Jefferson's murder, was apprehended at the scene of the shooting and later released on bond.

Jefferson was slain in an altercation outside an unlicensed dance hall in the colored section of town. All three are Negroes.

ASC Committee re-elected here

Garza County's committee for the Agricultural Stabilization and Conservation Service has been re-elected at a convention of ASC community committeemen, Emmarhe I. Hartel, county office manager, announced.

The only new member is Bandy S. Cash, second alternate member, who was elected to fill a vacancy created by the resignation of Walter Boren.

Those re-elected were Avery Moore Jr., chairman; Hansell Hallman, vice chairman; Walton McQueen, regular member, and Wade W. Terry, first alternate member.

May come in November

A determined Slaton bid for the hefty Lubbock liquor business Post is now getting appears a virtual certainty next month.

Petitions calling for a liquor election in the city of Slaton for package store sales only were filed yesterday afternoon by Slaton "wets" with the Lubbock County commissioners' court in Lubbock.

A total of 289 signatures were reported on the petitions. Signatures of 234 eligible voters are required to force an election on the issue.

The petitions will be presented to the Lubbock commissioners' court at its October session in Lubbock Monday.

According to reports from Slaton a Nov. 5 election date on the liquor issue will be sought Monday if the petition is accepted as qualified.

Slaton sources view the upcoming city liquor election there in the "toss-up category."

The situation is complicated by the fact that there are two "wet groups" instead of just one.

One group, headed by the president (see LIQUOR VOTE, page 8)

POST JUNIOR HIGH CHEERLEADERS

These five Post Junior High cheerleaders have cheered the 7th and 8th grade football teams on to victories in their last few games. From left to right are Beverly Duncan and Ceretha Jones, 7th grade; Linda Hays, 6th grade; and Shirley Isaacs and Vivian McWhirt, 8th grade. —(Staff Photo.)

Postings

By JIM CORNISH

This Dispatch might appropriately be called the 1961 Grand Opening Edition, or the Blue Flame Home Edition. Actually it is all three—rolled into the biggest regular edition of The Dispatch since we came to town—20 ad-crowded pages. Maybe the Lubbock Avalanche-Journal is right—the economic dip for the South Plains is over. (That paper based its predictions this week on the prospects for the second largest cotton crop in history and a whopper of a milo harvest as well.)

Let's take a peek at the big news in The Dispatch's advertising columns this week. First off, over on page 19 you'll find a full-page spread for the Grand Opening Sale for the new and expanded Dunlap's store. Mrs. Eleanor Cooke, Dunlap manager, and her cohorts, got the big "move down the block" completed last Friday night and were open for business Saturday morning. The new store is a beauty. It's hard to figure the old Double U Building could be remodeled and "re-fronted" with such eye-catching appeal. But it has and the Dunlap's store now has more space in which to handle a much bigger stock of merchandise for folks of this trade area. To get you to come in for a look, Dunlap's has a page-full of Grand Opening bargains for your selection. We want to congratulate the Dunlap organization for helping Post to grow with a bigger and better store. We said at the start of the year that this was going to be Main Street's "building year" and the big Dunlap improvement is a major stride forward in making that prediction become profitable reality.

Now for the 1961 Car Edition. Both the Caprock Chevrolet-Glads Co. and the Storie Motor Company are uncorking three day premieres of their new cars today—four lines at Caprock and two at Storie's and both firms have adequate drawing cards to attract the lookers.

Claud Collier Jr., over on page 13, invites you all to stop in at Caprock and see the 1961 Chevrolets, Corvairs, Oldsmobiles, and new P-85, the new Oldsmobile compact. He has an ad on each of these fine cars on pages 8 and 7 and 9 and 11, besides his invitation ad on page 13. A door prize of a \$100 U. S. Savings bond will make it well worth anyone's while to stop in when they get time for a look at this fine lineup of 1961 beauties.

Dudley Brown has a really good thing "going" at the Storie Motor Company during his three-day premiere. The Mercury-Comet Sweepstakes this year include the giving away of 25 new Mercurys and 25 new Comets to lookers who sign up during premiere showings in the Mercury showrooms across the country. Post folks won't be forgetting that D. H. Hawkins down at the mill received a FREE new Comet this spring as one of the winners of the 1960 Comet Sweepstakes. Details on the Mercury-Comet Sweepstakes will be found in the Storie invitation ad on page 13. —(See POSTINGS, page 8)

Fire station to be built

The city council decided Monday night to accept the architects' plans and advertise for bids on construction of a new fire station.

The action came at the council's regular monthly meeting after Mayor Powell Shytles and the councilmen had looked over and discussed the plans submitted by the architects, Cantrell & Burns, of Lubbock.

Mayor Shytles said today that there are only a few minor details to be worked out between the council and the architects before the call for bids is made.

The new fire station will be a one-story structure of approximately 40 by 50 feet and will adjoin the City Hall building on the south. The building will be of stucco construction.

The new building will house only the fire engines and other fire-fighting equipment, with plans calling for remodeling of the firemen's present quarters in the City Hall to provide more meeting room.

The front of the building will face west, opening on Broadway, and there will be a paved driveway from the building onto the street. There will be three overhead metal doors, each 12 feet wide, on the west side.

The new building will be equipped with ceiling heaters, according to the plans.

Fire Chief Robert Cato said the new station will provide a multiple space for the present two trucks and will also have room for additional equipment as it is added.

Retired railroad worker is buried

Funeral services for Claud Willis Terry, 78, a resident of Post for 20 years, who died at 12:30 a. m. Sunday in Garza Memorial Hospital, were conducted at 10 a. m. Tuesday at the First Baptist Church.

Mr. Terry, who retired in April, 1949, as section foreman here for the Panhandle & Santa Fe Railway Co., died following a sudden illness. He had been in the hospital only a little more than 12 hours.

He was born Nov. 24, 1881, in Fannin County, and was married March 23, 1916, at Snyder. The family moved to Post from Canyon, where Mr. Terry was employed by the Santa Fe.

He is survived by his wife, Mrs. Anna Viola Terry; three daughters, Mrs. Ahlene Divens of Slaton, Mrs. Lee Brown of Canyon and Mrs. Frances Weatherstone of Floydada; two sisters, Mrs. B. I. A. Roberts of Sedonia, Ark., and Mrs. Laura Higgins of Hereford; two brothers, Hiram Terry of Coosa Bay, Ore., and Douglas Terry of Jacksonville, Ore.; and five grandchildren.

Mr. Terry was a member of the Baptist Church.

The funeral services were conducted by the Rev. C. B. Hogue, interment was in Terrace Cemetery under the direction of Hudman Funeral Home.

Pallbearers were Bob West, W. H. Childs, Glenn Norman, Preston Mathis, Robert Cox, Jud Thomas, Hearn Pettigrew and Odean Cummings.

Johnny Johnson still at large

Johnny Johnson, local Negro charged with the slaying of Stella Mae Young here Sept. 28, is still at large eight days after the slaying.

County law enforcement officers said they are still running down leads as to his whereabouts.

Weldon Swanger first to pay 1961 poll tax

Weldon Swanger, Parcel Post deliveryman here, was the first Garza County man to purchase his 1961 poll tax.

Poll tax sales opened Saturday morning at the County Tax Assessor-Collector T. H. Tipton's office Swanger was there bright and early.

Tipton reported 43 poll taxes had been paid for 1961 up to yesterday. The 1960 sale of 1,933 was the largest on record in the county.

Also shortage of pullers

Cotton harvest is hit by weather

Garza County's cotton crop, slowed by damp weather over the weekend, began to move again this week with the county's six gins reporting a total of 736 bales ginned up to about Tuesday noon.

Besides the weather, a shortage of pullers was slowing the crop in some sections of the county. Managers at every gin reported "not enough" pullers in their areas.

Tuesday's 736-bale ginning total was up nearly 400 bales over the 350-bale total of Tuesday of last week.

This week's reports by gins are as follows: Graham Coop, 51; Planters, 20; Close City Coop, 183; Storie, 195; Basinger, Southland, 212; Pleasant Valley, 245.

With the peak of the cotton harvest still several weeks away, gins were running 10 hours a day or less.

Grades were running from strict middling to extra good.

Thursday, Oct. 6, 1960

Industrial growth begins at home

House Speaker Waggoner Carr of Lubbock hit the nail squarely on the head in a talk before the Amarillo Kiwanis Club the other day.

Pointing out that the Twenty-first Century is only 39 years and three months away, Carr declared that "over that span of years no section of the United States ought to grow—or can grow—more rapidly or more dramatically" than this Southwestern region. He said the "greatest potential here is not simply agricultural—but is industrial."

He said that with the combination of mineral resources, native supply of low-cost fuel, vast areas of unused land, the important opportunity for dispersal of industry against enemy attack, and many other advantages the region has "extraordinarily high promise for use as the seat of America's new industrial might in the age of space."

Then he picked up the hammer and belted the nail squarely on the head.

He said the U. S. interior can grow and prosper abundantly if (1) we have in Washington policies sympathetic toward encouraging growth of domestic enterprise in young sections of the nation, (2) there is intelligent foresight and vision in the planning and execution of state policies, particularly those which most directly affect the incentives for industrial expansion, and (3) local governments in Texas—the cities, counties, school district and others—offer the same responsible public policies which we demand from the state and the nation.

It is upon this "third if" that we wish to place editorial emphasis.

Too many Texans, Carr said, neglect the fact

that local taxing and spending policies very often are more decisive than state policies in determining the location of an industrial plant.

Industrial growth, like charity, begins at home.

Local people, local decisions, and local policies—both here in Post and in other Texas cities and regions—will determine whether we flourish or flounder.

State policies can help local areas to grow only if those local areas help themselves.

While Post goes about its present job of converting this community from a "small town" to a "progressive small city status" we must keep this fact uppermost in our minds.

We must progress steadily, but not at the expense of discouraging fiscal burdens. It is no easy problem, but it is a problem to consider both in long range objectives and short-term gains.

It would appear to be best capable of solution through a coordinated development in community growth of all the several local units of government. How such a development can best be secured is something else again—unless leaders can together map an overall program of progress which takes into account the community needs in the various governmental areas of the community and the governing bodies of these units of government will work closely together to see that they are achieved.

Progress we must have, but at a scheduled cost and time best fitting this community's ability to pay. This is community planning at the highest and most rewarding level.—JC.

We're all for scholastic awards

Something new at Post High School this year isn't receiving much fanfare. It isn't even mentioned in the Student Handbook for 1960-61. It is the new scholastic awards program that will result in top-ranking students receiving jackets or sweater awards similar to those bestowed on athletes and band members.

The idea of sweater awards for outstanding grades was originated by the Parent-Teacher Association and then adopted by the school board. It is a program deserving of praise, considering that today's teenagers are accused of having a world of their own soft values.

In this teen-ager world, the most glory goes to athletes and lady killers among boys and the most popular among girls. A brilliant student, on the other hand, may be resented by his classmates because his good scholastic performance

makes it tougher on those who don't want to study.

These deductions are not ours. They come from Dr. James Coleman, associate professor of social relations at Johns Hopkins University, who surveyed 8,900 boys and girls in 10 Midwestern high schools.

To the question, "What specifically is spoiling youth these days," Dr. Coleman says: "Automobiles and undue emphasis on athletics. And, thirdly, the tendency to look upon a scholar as one who is out for himself and puts others at a disadvantage."

Hardly the way to build adult responsibility, but more scholastic awards programs such as the one going into effect at Post High School will, in time, put a different face on surveys such as the one conducted by Professor Coleman.—CD.

It's tax paying time again

For all Texans, a new area of privilege opened up Saturday.

It is the opportunity to pay state and county taxes for this year.

The taxes are due as of Jan. 1, but Texas law was changed to authorize, and encourage, payment between Oct. 1 and Jan. 1. The encouragement is in the form of a three per cent discount in October, two per cent in November and one per cent in December. After Jan. 31, penalty and interest are added.

And along with the payment of county-state property taxes, there is the opportunity to qualify for voting in 1961 by paying the \$1.75 poll tax. No discount applies on early payment of that levy, but at least one can save two trips to the courthouse.

For those who pay property taxes on homes during the discount period, there is the reminder

that each year they must sign the claim for the homestead tax exemption, and this cannot be executed until January. There is an exemption of all state and county taxes on the first \$3,000 assessed valuation of resident homesteads.

Usually, after a presidential election year, the payment of poll taxes falls off sharply for the next year; but there will be elections in 1961 of importance to the people of Post and Garza County, and Texas may have a highly important statewide election early in the year.

There will be a Post City Council election for sure, and also school trustee elections. If the Democratic national ticket wins, Texas voters will be called on to vote in one, and probably two statewide elections in February, March or April to elect a United States senator to succeed the then Vice-President Lyndon B. Johnson.

No doubt about it, the ability to vote in 1961 will be important.—CD.

Half-time telegram service

In all the hurly-burly last week which always accompanies the new car announcements in the newspaper field, we made a sorrowful discovery of which we had not been previously aware.

Post doesn't have Western Union service after 1:45 p. m. each day until the following morning.

This community is too big a town to be only "half serviced" by Western Union.

The Western Union service here is worked through the Santa Fe railroad station, whose telegrapher goes off duty at 1:45 p. m. He does an excellent job from very early in the morning until 1:45 p. m. We've never received better service anywhere at a Western Union office than we and others receive daily here in Post when the office is open for service.

The only trouble is that it isn't open long

enough. The only way for a Western Union message to reach a Post destination after 1:45 p. m. is to be telephoned in from Lubbock. The only way to send such a message after 1:45 p. m. is for the sender to telephone Lubbock at his or her own expense after 1:45 o'clock in the afternoon.

Western Union needs to get busy with its local situation and correct this shortcoming. Otherwise it will lose more and more business to the long distance telephone service.

The Dispatch is calling this to the attention of Western Union and the community in the interests of the community.

Perhaps there is no other answer. But we refuse to "buy" that kind of a negative solution.—JC.

What our contemporaries are saying

What has happened to the house-to-house salesman? During the summer they were as thick as hair on a dog's back, but now that fall is upon us, they have disappeared. Is it just tradition, or is it easier to pound a hot pavement than to brave a cold wind? Although they are a pest, taking money out of towns and often selling a downright gyp, you can't help but admire the old boy making a living by ringing strange doorbells. This takes a lot of perseverance and fortitude. We'd starve to death at it.—Harold Hudson in Ochiltree County Herald.

There's another town heard from besides Stanton on how to cope with the rank growth of weeds on vacant lots. That town is Hobbs, N. M. That city has warned property owners they must clear their vacant lots of rank weed growth as part of a campaign to rid the city of the health

and safety hazards.

A letter from the Hobbs sanitation officer has been approved by the city commission, which calls for the lots to be cleared within 15 days in compliance with a city ordinance. The ordinance carries penalties of up to \$100 in fines, up to 30 days in jail, or both.—James E. Kelly in The Stanton Reporter.

The public can depend on it that the papers and the airways will not skip the news on Fidel Castro and Nikita Khrushchev during their stay at the United Nations. The two need to be contained, Mr. Khrushchev being especially dangerous, but the more people are given a chance to see their phony show the better their real aims will be seen. If the two men are as wrong as they seem to us to be, the more they occupy the stage the sooner they'll be found out.—The Floyd County Hesperian.

THURSDAY to THURSDAY

By CHARLES DIDWAY

ONLY 32 MORE thinking days until the General Election!

Steady skywatchers who haven't tired of watching the Echo I satellite go across the skies will have to find something else to do with their spare time at night. The National Aeronautics and Space Administration said that the satellite became invisible Saturday and will not be visible in Texas until Friday. NASA also said the huge balloon will be visible only occasionally in the northern hemisphere in the next few months.

I SAW A Kennedy-Johnson automobile sticker the other day with Johnson's name scratched off. It would be interesting to know the story behind that sticker!

All these announcement stories and pictures on the new 1961 automobiles in this week's issue of The Dispatch have more news value than one might think. Some years ago, I mailed a copy packed with new-car stories to a serviceman in Korea and he later told me he enjoyed that copy of the paper more than any other he received. He said if it hadn't been for the pictures and stories on the new cars that he wouldn't have been able to tell one make of automobile from another when he got back to the States.

TO THOSE OF us who like colorful names, Post's new dial telephone system, with nothing but numbers, won't hold much interest outside of the purpose for which it was intended. Some of the most colorful names are dial system prefixes, but there was bound to have come a time when just about all the prefixes were used up. Floydada's numbers, for instance, have the prefix, "Yukon," and there are all sorts of others, such as Mohawk, Sherwood, Wyandotte, etc.

The fall season brings new TV shows, but most of the time one has to look real close to see much improvement over the summer programs.

WHAT IS BELIEVED to be Post's first 50-star flag (someone correct me if I'm wrong) was unfurled at Tuesday's Rotary Club luncheon. With the upstairs City Hall, where the Rotarians meet for their weekly luncheons, having undergone a face-lifting in the new remodeling program, the old flag just didn't fit in. Besides, it has only 48 stars.

Postmaster Harold Voss said the post office has one of the new 50-star flags on order, and County Judge J. E. Parker said the county is going to order one probably before the week is out.

IN THE SAME connection, some national organization has come up with the following lists of occasions for use of the flag: Veterans Day, Election Day, New Year's Day, Lincoln's Birthday, Washington's Birthday, Armed Forces Day, Independence Day, Memorial Day, Thanksgiving, Flag Day, Citizenship Day and Labor Day.

My friend up the street wants to know if the moon isn't made of green cheese, how come there is such a rat race to see who gets to it first.

THE LATEST CLASS of underprivileged children are those whose parents own two cars but no speedboat.

Now that school is under way again, funny stories start cropping up. I heard one just the other day about a youngster who must have played Little League baseball during the summer.

Teacher asked the pupils to list the nine greatest Americans and all but Johnny submitted their lists.

"Have you finished yet, Johnny?" she asked.

"Not yet," he replied, "I can't decide on the catcher."

PARTING THOUGHT: Our days are like identical suitcases; all the same size, but some people can pack more into them than others.

White people in Africa are seldom disturbed by natives—except, perhaps, in poor sections of larger cities.

People who hurry on the highways sometimes arrive at their destinations 40 or 50 years ahead of their time.

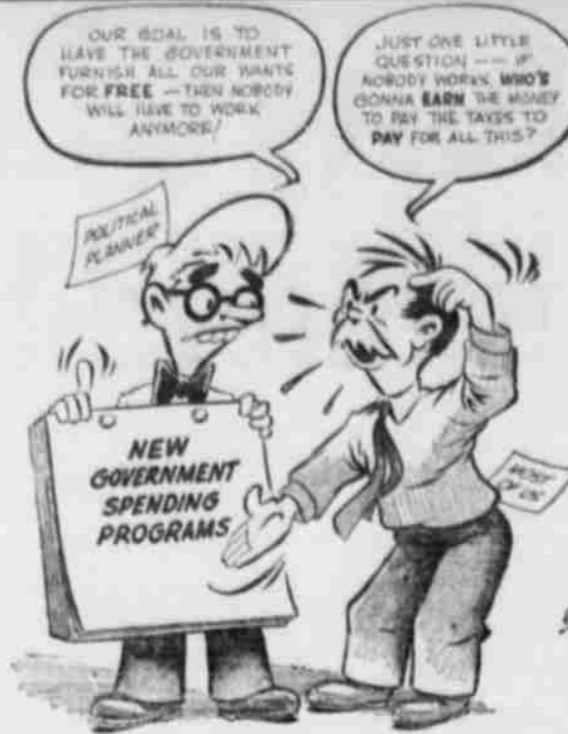

Few things deflate a person's ego more than coming back from an expensive vacation and finding your neighbors didn't even know you were gone.

These vibrating couches seem to serve the same purpose as the Tin Lizzies did back during the Roaring Twenties.

266 men were killed in the explosion of the Maine in Havana Harbor, Feb. 15, 1898.

Ever notice? When sailors are on a ship, all they talk about is women; when on land, ships.

THE AMERICAN WAY

Let's Hear Him Answer That!

Remembering yesteryears...

Five years ago

The annual Garza County Fair is set to open Friday; a yard improvement tour, sponsored by the Home Demonstration Council, will be held Friday; funeral services for Mrs. Minnie Pennington, 80, were conducted at the First Baptist Church Sunday; Pat N. Walker has been appointed County Judge to complete the unexpired term of the late Oscar Graham; Mr. and Mrs. L. E. (Fay) Claborn were the first Garza countians to pay their 1960 poll tax; Miss Carolyn Pangle became the bride of Albert Long Saturday; Kenneth and Patsy Thompson were honored on their 15th and 13th birthdays with a party at the home of their parents, Mr. and Mrs. Dillard Thompson, in the Graham community; Mrs. James Aten, the former Miss Laverne Furr, was honored at a bridal shower in the home of Mrs. P. E. Stephens; the Post Antelopes are to play Rotan here Friday night; Mrs. W. J. Tubbs of Kingsport, Tenn., is visiting in the home of Dr. and Mrs. Harry A. Tubbs.

Ten years ago

Mrs. Vernon Ray was hired by the county board of education and approved by the state as the county health nurse. Dean A. Robinson county superintendent of schools announces; Miss Joyce Hunter of Santa Anna has replaced Eric Dove as field worker in the local welfare office; funeral

services for Curtis Clyde Redman were conducted at 2:30 Wednesday afternoon in the First Methodist Church; The Dunlap Company, with headquarters in Lubbock, yesterday bought out Haws Department Store and will open a Dunlap store here; Post High School chapter of the Future Farmers of America won second place and a 50 dollar award with their booth on rat control in the vocational agriculture division of the South Plains Fair; Tom McLaughlin, advance representative of the Cole and Walters Circus, announced the coming of the first big circus since the war, to Post, Oct. 14.

Fifteen years ago

W. E. Dent and T. A. Loyd of the Community Public Service Company have received certificates of competency from the State Board of Health; Elton Nance, prominent Garza County rancher, was taken to a Lubbock hospital Monday morning suffering painful injuries which resulted from an accident that occurred Sunday about midnight at his ranch west of Justiceburg; Rev. Guy Ament has announced that he has accepted full-time pastorate of the Snyder Christian Church; Joy Lavelle Howell, youngest daughter of Mr. and Mrs. Nathan Howell of the Cross Roads community was made honor guest of an after-school party on her 10th birthday; the Barnum Springs Home Demonstration Club met in the home of Mrs. Eulene West for an all-day meeting.

'Wake Me When It's Over' coming attraction at Tower Theatre here

The king-sized comedy sensation of the year, Mervyn LeRoy's Cinemascope Deluxe color production, "Wake Me When It's Over," a twentieth Century-Fox release starring Ernie Kovacs, Dick Van Dyke, Margo Moore, Jack Warden and Nobu McCarthy, will be at the Tower Theatre Sunday, Monday and Tuesday.

It is no fun making fun for other people, for the actual creation of comedy is extremely hard work. Mervyn LeRoy has often pointed out, "An onion can make you cry," said the veteran producer, "but there isn't any vegetable that can make them

laugh."
There may not be a vegetable that will send people into gales of laughter but "Wake Me When It's Over" will more than do the job.
"Wake Me When It's Over" tells the madcap tale of Gus Brubaker (Dick Shawn) a Manhattan bar-keep and World War II vet who through a mix-up in Air Force serial numbers is re-drafted and shipped to a radar base on Shima, a tiny speck of an island in the Pacific.

On arrival he learns from the base medical officer (Jack Warden) that the CO is Charles Stark (Ernie Kovacs), an old sidekick of Gus' from WW II. Gus meets Ume (Nobu McCarthy) a native of the island and she tells him of the hot springs that are on the island. Immediately an idea light bulb goes on in Gus' mind and he presents his plan to Kovacs and the rest of the men at the outpost. The plan is presented and though Kovacs dissents at first the scheme finally gets the go-ahead. And go ahead it does.

The GI's of the island form a corporation and erect the wackiest resort hotel ever conceived, a swanky hostelry made of cast off Air Force odds and ends that would never make a feature spread in "Holiday," but served the men of Shima as the craziest money maker ever dreamed up by the ingenious men of our armed forces.

Brother of Post woman is buried

Funeral services for Kirby Ray Dunlap, 43, of Slaton, brother of Mrs. George Tillman of Post, were conducted at 3 p. m. Sunday in the Slaton Church of Christ, with burial in Englewood Cemetery, Slaton.

Mr. Dunlap, who had been a resident of the Slaton area since 1929, died about 12:30 a. m. Saturday in Mercy Hospital. He had suffered a heart attack on Wednesday.

He was a veteran of World War II and lived in Petersburg for several years before moving to Slaton.

Besides the sister of Post, Mr. Dunlap is survived by his widow; two daughters, Harriet and Brenda Kay, and a son, Hiram, all of the home; his mother, Mrs. Emma Dunlap of Slaton, and another sister, Mrs. Ralph Kahlick of Plainview.

Those attending the funeral from here included Mr. and Mrs. Tillman, Mr. and Mrs. L. H. Ingram, Mr. and Mrs. Ronnie Parker, Mrs. Jessie Lee Lancaster and Mr. and Mrs. Sexton Huntley.

WEEKEND GUESTS

Guests in the home of Mr. and Mrs. M. A. McDaniel this week were his aunt and uncle of San Antonio, Mr. and Mrs. T. L. Barnett, Mr. and Mrs. Barnett's son and daughter-in-law, Mr. and Mrs. Shortie Barnett of Lubbock met them here. Another guest was McDaniel's aunt and uncle, Mr. and Mrs. Albert Cantrell of Whittier, Calif.

OKLAHOMA TRIP

Mr. and Mrs. Warren Hayes visited in Duncan, Okla., over the weekend with his mother, Mrs. Blackwood, and his sister, Mrs. Alva Brookshire.

VISITS PARENTS

Connie Martin was home over the weekend visiting with his parents, Mr. and Mrs. Barney Martin. He is enrolled in college in Pueblo, Colo.

COMET POPULAR IN COMPACT FIELD

For 1961, Comet continues the styling which has made it one of the most sought-after compacts in the market. A new grille and modest ornamental changes identify the 1961 models of the two and four-door sedans and the two and four-door station wagons. In addition to the standard 85-horsepower economy engine, the 1961 Comet offers an optional 101-horsepower six.

1961 Comets go on display here today at Storie Motor Company

The 1961 Comet, which went on display here today at Storie Motor Co., continues the styling which has made it one of the most sought-after compacts in the market.

The new Comet also offers a higher performance optional engine, pointed out Dudley Brown, Storie Motor Co. manager.

"The Comet's styling, economy, quality and riding features have been firmly established with the public," said Ben D. Mills, Ford Motor Company vice president and general manager of Lincoln-Mercury Division. "To meet the demand, we are planning to produce more Comets for 1961 and will assemble the new models at plants in San Jose, Calif., Kansas City, Mo., and Lorain, Ohio."

Mills also pointed out that Comet prices will remain competitive with the lower-priced compacts.

Two engines will be available for the 1961 Comet. The standard 85-horsepower economy engine, offering excellent gasoline mileage, will be continued. In addition, a 101-horsepower engine will be offered in the new model Comet for the first time at a modest extra cost. The new engine has displacement of 170 cubic inches and develops its maximum torque, 156 foot-pounds, at 2400 rpm.

The Comet continues with four models for 1961: A two-door sedan, four-door sedan, two-door station wagon and four-door station wagon. All are available with either the standard or the optional engine and

Post minister speaks at meeting in Ralls

RALLS—Ronnie Parker, president of the Post Rotary Club and minister of the Church of Christ, was the speaker at the regular Ralls Rotary Club meeting last Thursday night.

Parker, who was appointed by Gov. Price Daniel to the White House Conference on World Youth, discussed the conference.

STUDENT HOME

Billy Bob Carpenter, son of Mrs. N. D. Brownning, was home this weekend from Pueblo, Colo., where he is attending the Telegraph and Teletype College.

FRIDAY IN LUBBOCK

Mr. and Mrs. Charley Williams spent Friday night in Lubbock with their daughter and son-in-law, Mr. and Mrs. L. W. Evans. They attended the Post-Floydada football game that night at Floydada.

Eddie's Cab — Phone 733

Foot trouble also plagues livestock

COLLEGE STATION—During the cold, wet weather ahead, farmers and ranchers should be on the lookout for limping cattle. Dr. C. M. Patterson, extension veterinarian, says that limping is one of the first signs of foot rot, a livestock disease that often develops during fall and winter.

The disease, which causes a raw condition similar to "athlete's foot," can spread rapidly through a herd. Footrot is caused by an organism which gets its start when the feet of cattle become softened and damaged in wet, muddy lots and pastures, Dr. Patterson continues.

If treatment is begun early, the problem can usually be cleared up. The veterinarian will usually have to trim away the infected tissue before he can apply medication.

Farmers can help prevent the disease by keeping livestock away from pools of stagnant water and water-logged lots. Areas around water and feed troughs should also be kept clean and dry, Dr. Patterson concludes.

ARIZONA GUEST

Visiting in the home of Mrs. Gladys Price this week was her son, Elwood Wright and wife, Marilee of Wickenburg, Ariz.

ROTAN GUEST

Mrs. R. H. Barnes of Rotan visited in the home of her sister and family, Mr. and Mrs. Isaac Brown, over the weekend.

BROTHER VISITS HERE

Visiting in the home of Mr. and Mrs. Ernest Bostick over the weekend was her brother, Billy Cooper of Carlsbad, N. M.

LIMPING CATTLE

During the cold, wet weather ahead, farmers and ranchmen should be on the alert for limping cattle. It could be the first signs of foot rot, advises Dr. C. M. Patterson, extension veterinarian. He suggests that lots and areas around feed and water troughs be kept clean, well-drained and as dry as possible.

AN OPEN BOOK

When the medical profession approves a new remedy, it is made public so that everybody may benefit from it. Poliomyelitis vaccine is a good example. Should you read or hear about a "secret remedy" for the cure of some serious disease, be on guard. Shun it by all means, because its use could be disastrous. Consult your physician. Ask his views on "mystery remedies." He will give you a candid evaluation. There is nothing hush-hush about medical research and its discoveries. Medicine is an open book — for all the world to see.

The only compact with fine-car styling A spirited sense of proportion gives Comet the most successful styling in the compact-car field. New rustproof aluminum grille, exquisite new interior fabrics, new fine-car appointments everywhere.

The first family-size compact Comet's 114" wheelbase (longer than any other compact's) provides spacious comfort over compact's sacrifice. There's generous room in a Comet, even for six grownups. And there's trunk space for a family-size load of luggage besides... over 20 cubic feet.

Big-car ride—small-car handling The refined suspension (plus the 114" wheelbase) makes Comet's ride steadier and smoother than many standard cars. And you'll find that Comet turns, parks and handles almost as easily as a baby carriage.

Priced with or below the other compacts For all its new fine-car flair, family-size comfort, big-car ride and extra-value features, Comet is priced with or below the other compacts.

New Thrift-Power 170 engine for '61 Comet now offers two economy engines—the standard Thrift-Power Six plus the new optional Thrift-Power 170, for 11% faster highway passing, 22% better acceleration on hills.

One-year or 12,000-mile warranty Your Comet dealer is extending his warranty on 1961 Comets to 12,000 miles or one full year, whichever comes first. See him to obtain full information. He will be glad to show you a copy of his new warranty.

MEMBERS BREAK GROUND FOR NEW CHURCH BUILDING

Lee Duckworth is shown congratulating Mrs. Eva Bailey following ground-breaking ceremonies of the First Christian Church Monday at their new building site on West 13th. Mrs. Bailey is the oldest charter member of the church and turned the first shovel in the Sunday ceremonies. Also pictured, left to right, are Thomas Gambelin, master of ceremonies; W. Byron Haynie, Sunday school superintendent; Mrs. Bailey, Duckworth, Miss Nora Stevens, charter member, and Mrs. W. Byron Haynie, superintendent of the junior department.—(Photo courtesy Casteel Studio.)

Southland youth elected head of college rodeo club

Mrs. JESSE A. WARD and Gary Simpson, vice president, in a recent election of the Ross State College Rodeo Club at Alpine, Fred, son of Mr. Jack Myers, and Gary Myers here over the weekend to ride their horses back. They arrived Saturday night at Crosbyton and Gary's parents.

Mrs. B. H. Jones suffered a heart attack last Sunday evening at the home of her sister and brother-in-law, Mr. and Mrs. W. Anthony in Lubbock. She was given medical aid in Lubbock and taken to Slaton Mercy Hospital. Mrs. Jones is making satisfactory improvement, friends report.

Mrs. Jack Ham and her son of Big Lake spent the weekend with her parents, Mr. and Mrs. Tom Sims, and her sister and family, Mr. and Mrs. J. B. Basinger.

COMING SET
The Southland homecoming activities have been set for Saturday, Oct. 15. Registration is to be held from 3:30 p. m. and a supper will be held from 5:30 until 7 p. m. Business will be conducted at 6:30 o'clock. Reservations for the supper are to be made by Oct. 10. The football game between Southland and Union is set for 7:30.

Robert Carroll and her son, Joe Allard, of Cooper are visiting her daughters and family. Mr. and Mrs. R. B. Lain and son in Slaton and Mr. and Mrs. Jay Gats and family.

Mr. Hitt, Carl Chilcoat and pastor, Rev. Elton Brian, all of Pleasant Valley Baptist Church, attended the brotherhood meeting held in the First Baptist Church on Tuesday of last week.

HER HOSTESS
Sam Ellis was hostess for the shower at her home Monday afternoon honoring Mrs. Ruth Calloway. Co-hostesses were Misses Jack Myers, Hubert and Kenneth Davies.

Mr. and Mrs. Bill Myers of Girard spent Sunday with his brother-in-law, Mr. and Mrs. Myers.

Mr. and Mrs. J. B. Robinson and her parents, Mr. and Mrs. Elton Hitt, spent Sunday with the son's daughter and son-in-law, Mr. and Mrs. Jerry Dixon of Slaton.

Mr. and Mrs. W. L. Worthington and Marcos recently visited his brother-in-law, Mr. and Mrs. L. Anderson, Mrs. Anderson accompanied them home for a visit and Anderson visited his family in Bangs. They

Calvary Baptist organizes YWA

A Young Women's Auxiliary was organized at the Calvary Baptist Church Tuesday night, under the leadership of Mrs. J. C. Putman and Mrs. W. C. Kiker. Estelle Nowell was elected president of the organization. Other officers elected were Ann Long, secretary and song leader; Elaine Mitchell, treasurer and stewardship chairman; Barbara Shumard, program chairman; Martha Ella Goode, social chairman and mission study chairman and Mary Alice Hall, community mission chairman and prayer chairman.

The auxiliary voted to meet each Tuesday evening from 6 until 7 o'clock at the church. Mrs. Putman will be counselor for the YWA.

Mmes. Bowen, Pearce have Sunday guests

Sunday guests in the home of Mrs. B. K. Bowen and Mrs. Mell Pearce, 405 West 13th, were: Mr. and Mrs. G. W. Ely of California, Mr. and Mrs. Lee Bowen, Mrs. W. W. Stephens, Mr. and Mrs. Mansell Richardson of Lubbock, Bowen Stephens and Miss Shelia Smith of Plains, Mr. and Mrs. Charles Bowen and children of Snyder, Mrs. E. A. Ensminger and Kathy of Lovington, N. M., Merle Harper of Lubbock, and Mr. and Mrs. Luther Harper.

returned home the first of the week.

VISIT IN LITTLEFIELD
Mr. and Mrs. Eimer Hitt spent Monday of last week in the Lonnie Campbell home in Littlefield. Hitt's sister and brother-in-law, Mr. and Mrs. Alfred Fratley of California are visiting the Campbells as Mr. Campbell is seriously ill.

Mr. and Mrs. Ned Myers, Miss Linda Davis and Don Thornhill attended the steer roping at Aspermont Sunday.

Mr. and Mrs. Don Brestrap and children of Littlefield spent Sunday with her sister and family, Mr. and Mrs. Buddy Hall and Billy Joe.

Mrs. D. H. Hatchett of Lubbock spent Sunday with her sister and brother-in-law, Mr. and Mrs. Ed Milliken. The Millikens' son, Bryon of Lake View, visited here Monday.

Mrs. Nellie Mathis and granddaughters, Carolyn Sue Kaysinger and Marie Mathis, visited Carolyn Sue's parents, Mr. and Mrs. Tom Kaysinger and family at Anson Sunday. Mrs. Mathis' son and Marie's father, Mr. and Mrs. Dick Mathis and family of Spur were in Southland Sunday.

Mr. and Mrs. Herman Burkett of Lamesa, Mrs. Hattie Burkett of Lubbock and Mr. and Mrs. Jack Burkett and children, Jan and Jackie, spent Thursday of last week with Mrs. Thelma Burkett.

Spending Sunday with Mr. and Mrs. A. R. Robinson was their son, Roy Robinson of Lubbock and his sister, Mrs. D. C. Roberts of Post.

Japanese theme used Monday at Beta Sigma Phi pledge party

Japanese lanterns were hung at vantage points throughout City Hall when Texas Mu Alpha chapter of Beta Sigma Phi held their annual pledge party Monday night.

Other decorations carried out the Japanese theme and pledges and sorority members came attired in Japanese dress. Dinner courses came from a Japanese menu.

Guests for the evening were the pledges, Mmes. Don Rose, Charley Luttrell, Warren Stockton, and transferee, Mrs. Noel Clemmons. Other guests included Xi Delta Rho sorority members, Mrs. John Hopkins, Mrs. Wallace Simpson, Mrs. Mason Justice, and Mrs. Burney Francis. Texas Mu Alpha members present were:

Mrs. Gerald Loyd, Mrs. Roy Teaff, Mrs. W. B. Holland, Mrs. Darrell Eckols, Mrs. J. L. Durbin, Mrs. Jimmy Moore, Mrs. Tom Gamblin, Mrs. M. L. Pierce, Mrs. Jim Boren;

Also, Mrs. Dennis Eubank, Mrs. Burton Hill, Mrs. Royce Josey, Mrs. Tommy Markham, Mrs. Douglas Hill, Mrs. Rex King, Mrs. John May, Mrs. Bob Smith, Mrs. Mike Mitchell, Mrs. Ella Ryder, and the director, Mrs. W. M. Kirkpatrick.

The club will meet with Mrs. Darrell Eckols on Oct. 14.

The seeds of the California Redwood, one of the largest of trees, are among the smallest—about 122,000 per pound.

Mrs. W. Kirkpatrick has CWF program

The Christian Women's Fellowship of the First Christian Church met Monday afternoon at 2:30 o'clock in the church sanctuary.

Mrs. Jack Burress was worship leader. The program on "Awareness of Prayer in Others" was presented under the direction of Mrs. Willard Kirkpatrick.

Mrs. Lee Davis, president, presided for the business session. Sixteen members were present.

Amity Club begins new study on 'Alaska' at recent meet

The Amity Study Club began their course of study on "Time Will Tell" for the 1960-61 club year when they met recently at the home of Mrs. Ronnie Parker, with Mrs. Billy J. Carlisle as co-hostess. The study course is planned around the new states in the United States, Hawaii and Alaska, on "The International Family". Meditation was by Mrs. Russell Wilks Jr., and roll call was answered with unusual statistics on Alaska.

Program topic for the evening meeting was "Alaska—The last frontier of the US".

Mrs. Jim Shipley hostess for club

Mrs. Jim Shipley entertained members of the Mystic Sewing Club last Friday afternoon at her home, 514 West Main.

Twelve members and one visitor were present for the afternoon session. The meeting was spent visiting and sewing.

Mrs. Shipley served refreshments of chicken salad, olives, potato chips, pumpkin pie with whipped cream, and punch.

Attending were:

Mrs. Ella West, Mrs. Marvin Hudman, Mrs. Darrell Eckols, Mrs. Eva Bailey, Miss Henrietta Nichols, Mrs. R. E. Shedd, Mrs. Lester Nichols, Mrs. Frank Runkles, Mrs. Winnie Henderson, Mrs. E. E. Pierce, Mrs. Lowell Short and Mrs. Barker.

The club will meet with Mrs. Darrell Eckols on Oct. 14.

The seeds of the California Redwood, one of the largest of trees, are among the smallest—about 122,000 per pound.

Charlene Haynie worship leader at Fellowship Guild

Mrs. Charlene Haynie was in charge of the worship when the Fellowship Guild of the First Christian Church met Tuesday evening at the church annex.

The guild met at 7 o'clock, singing prayer and Rowena Pierce read the scripture from the 13th chapter of Matthews.

The program study on the book of Matthew was presented by Mrs. Lee Davis.

Attending were: Beatrice Dodson, Rose Gamblin, Esther Avant, Edna May Owen, Charlene Haynie, Rowena Pierce, Nita Burress, Marissa Lamb, Estelle Davis and Sally Luttrell. Mrs. Luttrell was in charge of refreshments.

Postscripts

WANTED—Good used clothing in children's sizes. Donations of useable clothing such as coats, caps, sweaters, are needed, to be distributed to children here. Anyone with items for use can take them to the grade school building during school hours. Securing clothing is a project of the Post Parent-Teacher Association and this year is under the direction of Mrs. Elizabeth Shannon.

Plans are nearing completion for the Golden Wedding anniversary open house in honor of Mr. and Mrs. O. H. Hoover. Sons and daughters of Mr. and Mrs. Hoover are hosts for the affair, which will be at the Hoover home, Route 3. Time is from 2 until 5 p. m., Sunday, Oct. 16.

Mr. and Mrs. C. A. Herring will leave today for their home in Los Angeles, Calif., after a visit here in the home of their son and family, the Rev. and Mrs. Ed Herring. Rev. Herring is pastor of the First Presbyterian Church.

Guests this week in the home of School Supt. and Mrs. R. T. Smith and children are her sister and brother-in-law, Mr. and Mrs. Ronald Grey of Brownwood. Grey is advertising manager for the Brownwood Bulletin.

Merrymakers Club has regular meet

The Merrymakers Club met last Tuesday at the home of Mrs. Dave Sims for a regular bi-monthly meeting.

Eleven members were present and one visitor, Mrs. Willingham. On Oct. 11 Mrs. H. F. Wheatley will be hostess for club members.

GRANDMOTHER DIES

Mr. Baxter, one of the science teachers, was absent several days last week due to the death of his grandmother. We were very sorry to hear this and would like to express our deepest sympathy. He would like to thank the senior class and the faculty for their thoughtfulness in sending flowers.

INVITATION EXTENDED

An open invitation is extended to friends and relatives of Mr. and Mrs. O. H. Hoover to attend the open house Oct. 16 in observance of their Golden Wedding anniversary.

The Sunday afternoon event will be held from 2 until 5 o'clock at the Hoover home, 10 miles west and two miles south of Post, on Route 3.

OUTDOORS IN TEXAS

By VERN SANFORD
Ever watch a bunch of ants at work? Man, what a lesson in cooperation they teach!

Try to interrupt their progress and see what happens. They will make a detour quicker than the Texas Highway Department.

Returning from a recent newspapermen's convention in Oklahoma, we stopped for a chat with a long-time friend in the drug store business in Anadarko. His name is Albert Connel.

We became friends when I was business in Anadarko. His name is News. As a lover of the great outdoors, you'll be interested in what he has done.

Albert is not just an ordinary businessman. He likes to live in a small town. He loves the close contact with the people.

He may reside in a small town, but it doesn't mean that he doesn't think big. His thinking is reflected in everything he does. When he buys an ad, he buys a big ad. He buys page ads when most other merchants are thinking in terms of quarter pages or less.

And the success of his business proves the wisdom of his thinking.

CONSERVATION STORY
But this isn't a testimonial on successful advertising. It's a story of soil conservation, water conservation, and outdoor recreation. It concerns cooperation, determination, thinking big.

Albert, as we said, is that kind of a man. He's the type who rides polo ponies and swings a big mallet, while other buddies are content to walk a golf course and push a putter.

If action is needed, in connection with any community project, he'll grab the ball and run with it whenever there's a job to be done. And he doesn't claim credit for any-

thing.
Thanks largely to Albert's efforts and his inborn ability to enlist the aid of many people, he has accomplished great things for the little city of some 7,000 population... a city built around an Indian reservation.

His latest project was to provide a brand new lake for the city. With it came not only abundant water for Anadarko and nearby Fort Cobb, but recreation facilities for the entire area.

Today it's an outdoorsman's paradise—with boating, swimming, skiing, scuba diving, fishing and camping for thousands of people. And this is just the beginning.

NO ARGUMENT
A feature of the new lake, which especially appeals to this writer, is the fact that the upper half is reserved for fishing and the lower half for skiing. No argument there between skiers and fishermen.

It all goes to show what can be done, whether it's ants following a leader or people following a thinker — it's cooperation that makes the impossible possible.

That's why Fort Cobb Reservoir, built upstream from Anadarko, Okla., became a reality. And it's no wonder that people of Anadarko want to designate the \$12,051,500 project as Lake Albert Connel.

There are lots of Albert Connels in Texas, in large towns and small towns. We just hope that his experience will encourage more people to assume the leadership that is necessary in building additional recreation facilities in the Lone Star State.

ONE LURE DOES IT
It sure sounds strange, but there's a fishing lure manufacturer who is trying to convince you that you need only one lure, of only one size and shape.

He's the maker of the new "Keel-fish" lure. His firm is appropriately named A-Lure Inc. It's located in Portland, Ore.

John A. Jeff, owner, does have a fascinating lure and it's made in 12 standard colors.

The "Keel-Fish" gets its name from its metal keel, which acts as a stabilizer and keeps the lure from spinning, no matter how fast it's retrieved.

Included in the lure box are three different sizes of interchangeable treble hooks. Idea is to change hooks rather than carry around many different sizes of lures.

New bulletin is out on freezing poultry
COLLEGE STATION—The popular Texas Agricultural Extension Service bulletin "Freezing Poultry for Home Use" has recently been reprinted for the third time. In addition to listing the equipment needed for preparing poultry for freezing, the bulletin explains and illustrates the different steps in cutting and packaging poultry for efficient and easy use.

As explained in the bulletin by F. Z. Blackburn, poultry marketing specialist and Roy Snyder, meats specialist, poultry used for freezing should be of high quality and prepared ready to cook. Because of this need for preparation, it is advisable to think about the every-day needs of the family and special occasions before preparation of the chicken or turkey starts. Be sure the poultry is ready to be cooked regardless of the form in which it is frozen.

The recommendations given in the bulletin have proven to be reliable in insuring a quality product, but they are not necessarily the only procedures. This bulletin, B-177, may be obtained from local county extension agents.

ONE OF 20 NEW CHEVROLETS

Designers have applied smooth, graceful lines to the '61 Chevrolet Impala, Bel Air and Biscayne passenger car lines. Wings on the rear deck have been smoothed into the body. Rooflines, as noted in the Impala Sport Sedan (above) are freshly contoured and are separately styled for each model.

New '61 models on display here Friday at Caprock Chevrolet Co.

Top seller of 1960 automobiles, Chevrolet promises to solidify its position in 1961 by significantly broadening its range of passenger cars. Claud Collier Jr., manager of Caprock Chevrolet Co., said today.

Scheduled for display at dealer showrooms throughout the country Friday are 20 freshly styled conventional models; nine Corvairs, including new passenger and commercial models, and the spirited two-place Corvette.

Complete new body styling, which provides easier loading for both passengers and baggage and establishes new heights in motorizing comfort and convenience, is featured in the regular line of passenger cars.

The entire body, from floor to roof and grille to rear bumper, is all new. Prime design emphasis has been placed on functionality with thrust.

High on the list of advantages of the all-new body are:

1. Easier entrance to passenger compartments.
2. Large, more accessible luggage space, with the trunk loading level lowered as much as 10.5 inches.
3. Improved chair height and over-the-hood visibility which will increase the ease of parking and add to driving safety.
4. Other safety items include im-

proved brakes, overlap electric windshield wipers, and a new placement for the fuel tank which protects it from road hazards such as hard bumps and flying stones.

Although the conventional cars are shorter, narrower and slightly lower, the interior roominess remains about the same or better than comparable 1960 models. Riding comfort is improved.

From a styling standpoint, the new models feature gentle curves and smooth lines and a generally cleaner and airier appearance from all angles.

The Corvair models to be unveiled Friday also blossom out into a complete line of passenger and commercial vehicles.

FRIDAY! THE GREATEST SIXTY-ONE DERFUL CHEVROLET

Here's the car that reads you loud and clear—the new-size, you-size '61 Chevrolet. We started out by trimming the outside size a bit (to give you extra inches of clearance for parking and maneuvering) but inside we left you a full measure of Chevy comfort. Door openings are as much as 6 inches wider to give feet, knees, and elbows the undisputed right of way. And the new easy-chair seats are as much as 1 1/2" higher—just right for seeing, just right for sitting.

Once you've settled inside you'll have high and wide praises for Chevrolet's spacious new dimensions (in the Sport Coupes, for example, head room has been upped as much as 2 inches, and there's more leg room, too—front and rear). Chevy's new trunk is something else that will please you hugely—what with its deep-well shape and bumper-level loading it holds things you've never been able to get in a trunk before.

Yet, generously endowed as this car is with spaciousness and clean-etched elegance, it holds steadfastly to all the thrifty, dependable virtues Chevrolet buyers have come to take for granted. Your dealer's the man to see for all the details.

There's never been a trunk like it before! The floor's recessed more than half a foot and the loading height is as much as 10 1/2 inches lower.

INTRODUCING THE '61 CHEVY BISCAYNE 6

the lowest priced full-sized Chevy with big-car comfort at small-car prices!

Chevy's new '61 Biscaynes—6 or V8—give you a full measure of Chevrolet quality, roominess and proved performance—yet they're priced down with many cars that give you a lot less! Now you can have economy and comfort, too!

IMPALA 4-DOOR SPORT SEDAN—most of the Impalas that bring you a new measure of elegance from the most elegant Chevies of all.

NOMAD 9-PASSENGER STATION WAGON. You have a choice of six Chevrolet wagons, and with a cave-sized cargo opening nearly 5 feet across.

BEL AIR 2-DOOR SEDAN, like all '61 Chevrolets brings you Body by Fisher newness—more front seat leg room.

Biscayne 4-Door Sedan

See the new Chevrolet cars, Chevy Corvairs and the new Corvette at your local authorized Chevrolet dealer's

WASHINGTON AND
SMALL BUSINESS
By C. WILSON HARDER

The Federal Trade Commission has started a proceeding against the New York unit of the Macy department store chain that could have far-reaching effects.

Undoubtedly prodded by the Senate and House Small Business Committees and a disgust with the headline seeking antics of its chairman, Earl Kinnear, the fearless regulator of C. W. Harder, the FTC has launched an important issue.

In 1953 the Macy store in New York which accounts for about half of the firm's \$430,000,000 a year business, decided to hold a year-long celebration at its 100th anniversary.

And, according to FTC investigators, it was a most unusual way of celebrating. For according to the complaint, Macy approached suppliers and asked them to contribute \$1,000 each to this birthday.

By early 1959 the firm received 482 pledges to pay this sum, and so far the firm has collected \$374,900.

And according to the FTC complaint, even now, two years after the event, suppliers are still paying up to Macy's.

It is interesting, if indeed not shocking, to note, according to the FTC data, how far down the list the outfit went in picking victims for the "voluntary" \$1,000 donations.

For example, the David Kahn company, which sold Macy's a mere \$10,000 worth of pens and pencils "donated" \$1,000, which is equal to 10% of its yearly sales to the store. The Record Corporation of America, which sold the store \$15,841 worth of phonograph records also "operated."

Unfortunately, under present laws, even if FTC wins this case, it can only order Macy's to cease and desist.

Obviously, most of the suppliers are not in a position to make an equal donation to all of their customers, even on a pro rata basis.

There seems to be a fine distinction to be made here between morality and immorality. According to statements made, Macy officials seemingly find nothing immoral in requesting people who have goods on their shelves to kick in with a thousand dollars. Yet it is pretty sure bet that if the policemen holding down the beat around the Macy premises went to these same officials and merely said that if Macy would give them each a thousand dollars they would keep an extra sharp eye on their plate glass windows, there would be high screams of great immorality.

Police officers would not have to say that the windows would be broken unless there was some commotion. It would still be immoral. By the same token, probably no Macy supplier was told they would be thrown out unless they came across. Therefore, this made the situation entirely moral. It often appears of late that the determination of morality is who gets the money.

CHEVY ADDS CORVAIR STATION WAGON

Chevrolet stylists adroitly meshed the requirements of a roomy and versatile vehicle with the crisp, smart design of the Corvair line and came up with this sparkling new Corvair Lakewood Station Wagon. The car with its air-cooled engine in the rear, folding seat and forward luggage compartment is readily adaptable to almost any job... commercial or pleasure.

Chevy adds Corvair Station Wagon; will go on display in Post Friday

Chevrolet's ingenious, rear-powered Corvair blossoms out as a full line of automobiles for 1961.

In addition to the three half-ton commercial cars previously announced, the company disclosed today that station and sports wagons will join the family at showings here Friday at Caprock Chevrolet Co.

Thus, the superior riding and performance qualities which the Corvair pioneered in the small car field a year ago will become available to a majority of all transportation requirements.

Here is the Corvair lineup for 1961:

Passenger cars—Club coupes, four door sedans and a new Lakewood Station Wagon in the "500" and "700" series plus the deluxe Monza Sport Coupe and the new Green-

brier Sports Wagons.

Commercial—Corvan, Rampside and Loadside trucks.

In appearance, the latest Corvair retains its lithe, symmetrical form. New styling touches and beautified interiors clearly distinguish the models as 1961's, but the long, sleek, appealing profile remains unchanged.

Also untouched are the engineering fundamentals which have made the Corvair the most talked-about automobile in America. The flat, air-cooled engine and transmission-axle combination are continued at the rear. Compact body-frame integration lends its special staunchness to all models.

To supplement the primary excellence of the Corvair features, however, several improvements have been adopted. Fuel economy

especially benefits from the lower-numerical axle ratio and the new non-gas burning heater which will improve fuel economy even beyond the excellent miles per gallon now achieved. A hot air heater is now offered as optional equipment. Increased luggage capacity is made possible by moving the spare tire from under the hood to the engine compartment.

NITROGEN 'FACTORIES'

Properly fertilized and inoculated legumes are literally on-the-farm nitrogen factories. But if non-inoculated legumes are planted in soil that contains no nitrogen-fixing bacteria, no nitrogen will be fixed. Make sure, says R. J. Hodges, extension agronomist, the legume seed you plant are inoculated. Most seed and farm supplies have inoculants for sale, but check the container label to be sure it's the type you need.

Eddie's Cab — Phone 739

Letters to the Editor...

INVITE POST FRIENDS

Dear Mr. Cornish: Having lived in Post for several years, we are happy that our schools are playing each other this year in football.

We could not ever get in touch with everyone in person, so we would like to extend this invitation through the Post Dispatch to all our friends and Antelope boosters to come to the Homemaking Cottage for coffee after the game Oct. 7.

The Homemaking Cottage is the first building south of the gym.

Yours truly,
Dan and Billy Altman and children,
Tulla, Texas

Nothing will satisfy a fool. Therefore, many people are perpetually unhappy.

Homecoming is set at Wilson

WILSON — The second annual homecoming, sponsored by the Ex-Student Association of Wilson Public Schools will be held Saturday, Oct. 15.

A barbecue supper will be served in the school cafeteria from 5 until 6:30 p. m., with John W. Wilson of Lubbock, a former Wilson coach, as guest speaker.

Classes being honored at this year's homecoming are those of 1925, 1926 and 1927, as well as the boys' and girls' basketball teams of 1937.

Another homecoming highlight will be the Wilson-Sands football game at 7:30 p. m.

RETURN HOME

Mr. and Mrs. Douglas Shepherd, Ricky and Mike, and Mrs. George Tracy returned home this week from a short stay in Dallas. The Shepherds' baby, Steven Bradley, is doing fine after having surgery white there.

SHOW ON WORTH!

NEW '61 CHEVY CORVAIR

More space . . . more spunk and wagons, too!

The newest car in America: the CORVAIR 700 LAKEWOOD 4-DOOR STATION WAGON.

CORVAIR 700 CLUB COUPE. Like all coupes and sedans, it has a longer range fuel tank.

CORVAIR 700 4-DOOR SEDAN. Provisions for heating ducts are built right into its body by Fisher.

Spare tire is in the rear in coupes and sedans—leaving more luggage space up front.

Even middle-seat passengers sit pretty, thanks to Corvair's practically flat floor.

Now in production—the GREENBRIER SPORTS WAGON with up to twice as much room as ordinary wagons (third seat optional at extra cost).

Here's the new Chevy Corvair for '61 with a complete line of complete thrift cars. To start with, every Corvair has a budget-pleasing price tag. And Corvair goes on from there to save you even more. With extra miles per gallon . . . quicker-than-ever cold-start warmup so you start saving sooner . . . a new extra-cost optional heater that warms everyone evenly. Riding along with this extra economy: more room inside for you, more room up front for your luggage (sedans and coupes have almost 12% more usable trunk space).

And our new wagons? You'll love them—think they're the greatest thing for families since houses. The Lakewood Station Wagon does a man-sized job with cargo, up to 68 cubic feet of it. The Greenbrier Sports Wagon you're going to have to see—it gives you up to 175.5 cubic feet of space for you and your things.

Corvair's whole thrifty lineup gets its pep from a spunkier 145-cu.-in. air-cooled rear engine. Same rear-engine traction, same smooth 4-wheel independent-suspension ride. See the polished and refined 1961 Corvair first chance you get at your Chevrolet dealer's.

It's Ginning Time Again

The fall harvest season for cotton has returned to the South Plains—and we are prepared to serve you—Mr. Cotton Farmer—in the ginning of your cotton.

We are proud to have ginned the first bale of Garza County cotton 3 weeks ago — and we will go on serving area cotton farmers, around the clock, when necessary, until the last bale is in.

Our gin is ready to tackle the big job of getting your cotton crop in a form so it can be marketed. Our gin is prepared to give you the least amount of waste possible, allowing you a greater margin of profit.

We invite all of our old customers back with your 1960 cotton and urge you who haven't ginned with us before to bring your cotton to us this year.

Ten charged in JP court here

Ten persons were charged in Justice of the Peace D. C. Roberts' court here during the last week, five for drunkenness.

Those charged, date charged, offense, and fine and costs, if paid are as follows.

Elmer D. Russell, Snyder, Oct. 4, failure to yield right of way.
Bobby L. Mason of Midland, Oct. 4, operating truck over load limit.

Earl Row, Oct. 3, drunk, \$16.50.
Cristobal V. Perez Jr., Oct. 3, failure to display motor inspection sticker.

Ernest Valdez, Sept. 30, swindling by worthless check.
Ralph Nickens, Oct. 1, drunk, \$16.50.

G. S. Espinosa, Oct. 3, drunk, \$20.65.
Glen E. Moors, Sept. 30, drunk, \$16.50.

E. L. Stroud, speeding, Sept. 29, \$16.50.
D. D. Duncan, Sept. 28, drunk, \$20.65.

E. F. Cervantes, drunk, Sept. 28, \$20.65.

Liquor vote--

(Continued from page 1)
dent of the Slaton Chamber of Commerce, is seeking a city liquor election for package stores only.

The second group is seeking another precinct election with both package stores and on-premise consumption of wines and beer as Precinct 3 voted here last April.

Whether the two groups of "wets" might cross each other is a possibility, although both disclaim such intentions.

For example if the precinct "wets" voted with the city dries they probably could defeat the city "wets". Then if the city "wets" turned around and voted with the precinct dries, they probably could defeat the precinct "wets".

No matter what the outcome of the Slaton city election on package stores, the precinct "wets" have announced their intentions to call for a precinct liquor election just as soon as the law allows—which would be approximately a week or ten days after the Slaton city liquor election.

If the precinct liquor election is held—and won by the "wets"—liquor stores and taverns would be authorized miles closer to Lubbock, the big sales area, than the city limits of Slaton.

It is reasonable to expect Slaton city "wets" to vote with the dries in such a precinct election to try to "hold" the Lubbock liquor business for Slaton if the Slaton city "wets" won their test at the polls in early November.

"It depends upon how the flats' votes in the city election," an authoritative Slaton source told The Dispatch yesterday. "If the voters there vote against package stores, the city will stay dry. If they vote yes, it should carry. If they don't vote, nobody knows how a city liquor election will come out."

"The Slaton 'flats' want on pre-mise consumption of beer and wines not just off-premise sales by package stores.

The Slaton "dries" held an organization meeting Monday and elected officers. This organization is heavily staffed by Slaton church pastors.

A "hot campaign" is predicted for the Slaton liquor election if called by the Lubbock county commissioners court Monday.

Some predict it will be "even hotter" than the precinct election which included the entire city of Slaton last November when the dries won by a narrow margin of less than 90 votes, and in the city boxes by only 30 votes.

Prospective liquor store operators in Slaton already are getting ready for a "wet victory". Several options for site leases for liquor store locations already are reported purchased on the Lubbock highway as close to the Slaton city limits on the Lubbock side as possible.

A wet victory either in Slaton or the Slaton precinct liquor elections probably would see Garza's Precinct 3 liquor stores cut considerably, as Lubbock business would go to the closer Slaton liquor outlets.

Another "threat" to local liquor sales comes up for decision Saturday at Snyder when voters of the city to Post's southeast will vote on legalizing off premise liquor sales through package stores.

Postings--

(Continued from page 1)
14, and big ads on the 1961 Corvet and 1961 Mercury will be found on pages 3 and 17 respectively.

Besides the new car ads, The Dispatch has stories and news pictures on each of the new models in today's edition.

Now for the Blue Flame Edition. The first Sunday afternoon open house last Sunday afternoon at Contractor James Mason's Blue Flame home (all gas appliances), 120 North Avenue O, drew a good turnout of well over 150 lookers.

The second and final open house is scheduled for this coming Sunday afternoon from 2 to 7:30 p. m. You'll find a full page spread on the Blue Flame Home Open House by Pioneer Natural Gas Co. over on page 16, and a 96-inch 8 column ad on the same home over on page 12. Pioneer is being sure the public is well aware of this first opportunity to point with pride to a Blue Flame Home here in Post with complete gas air conditioning and other gas appliances. If you haven't seen Mason's beautiful 1,500 square foot home (we erred in reporting 1,450 square feet in the column last week), we advise you to stop by the "pennant place" at 120 North Avenue O, see it for yourself, and have the builder and the gas people explain to you the comforts of "gas living".

Another new business for Post. We're always proud to carry such business opening announcements in The Dispatch. This one is for Mrs. George Leggett's new Post Health Center at 413 North Broadway. Read her announcement ad over on page 5—the society page. Mrs. Leggett's scientific mechanical tables are big aids to both men and women in many ways, as she points out in her announcement. Of course one of the biggest inducements of the tables is to get rid of surplus weight without cutting down on the calories at mealtime, and also in concentrating on getting off the excess at the right places. These are the same tables a lot of folks drove up to Slaton to use at Mrs. Winnie Vaughn's beauty salon. Mrs. Leggett hopes to get these "regular customers" back and also hopes to pick up some Slaton business too. Read her announcement with the offer of free demonstrations, evening appointments, and a special 20 per cent discount for the first two weeks.

Next week is Fire Prevention Week and the Volunteer Fire Department is really promoting a "celebration." On page 6 you'll note the firemen are sponsoring the appearance of the Sterling Brothers Circus here Saturday, Oct. 8, featuring Dolly Jacobs and her performing elephants. And over on page 17 you find an announcement of the Great Kandi Shows, a carnival which will open next Wednesday night, Oct. 12, and play here through Sunday, Oct. 16, at the county 4-H building grounds across South Lake, under the firemen's sponsorship. The circus will be in the vacant lot behind Waldman Furniture or across from the Jackson Brothers Food Lockers.

And speaking of Fire Prevention Week next week The Post Dispatch and many local merchants will be honoring the 25-member Post Volunteer Fire Department with pictures, stories, and "appreciation ads" for the excellent work the department is doing. Watch for it.

The following week The Dispatch will come out with its annual Oil Progress Edition telling oil industry's story in all Dispatch readers. We're already hard at work on that one. Although the oil industry is rather "depressed" these days because of a slim number of production days allowed each month, the oil folks represent one of the biggest industries and economic incomes in this community and area.

We'd like to call attention to page 18 where The Dispatch prints its first Want-Ad-Gram for the convenience of its readers who would like to sell some of the "extras" around the house which still have value. Clip the Want-Ad-Gram. It gives full instructions as to how to figure the cost of your Want ads and how you can mail them in with the money and save the trouble of coming down to The Dispatch office. Lots of folks have things of value they would like to sell but never quite "get around to the job of advertising them." The Want-Ad-Gram is for you. You can do it anytime, put it in an envelope with the money and mail it in.

Into The Dispatch office yesterday came a little item from the Lubbock Public Library which helps to point up the fact that a whole lot of folks around the Post area like to do all the library reading they can. The item was to announce that La Rue May, a student at the Post grade school is among those listed on the Lubbock library's Honor Roll of Readers in the Children's Department. As a member of the Lubbock Library's Vacation Reading Club the local youngster read a total of over 20

SPEAKER

Dr. Dudley Strain (above), minister of the First Christian Church of Lubbock, was speaker here Sunday at groundbreaking ceremonies for Post's new \$100,000 First Christian Church, which is to be built in the 800 block on West 13th Street.

Many new books go on shelves at PHS library

The library has received many new books and among these are some very good non-fiction ones which we have been trying to get for a number of years. Since the beginning of school we have shelved 50 new fiction books, and this week we have shelved about 50 of these new non-fiction books.

Some that we think will be most helpful to the students are "The Encyclopedia of American Facts and Dates," "The American Book of Days," and "The Encyclopedia of American History." There are some very interesting authentic histories such as "90 Degrees South" by Siple (a story of the conquest of the South Pole), "Capture of Quebec," and "William Diamond's Drum."

We have different types of books on teenage psychology, some of which are "Psychology for Living" by Sorenson, "Better Ways of Growing Up" by Crawford, and "Adolescent Psychology" by Cole.

The Mechanical Drawing Department has donated a book to the library which is entitled "Mechanical Drawing" by French and Svensen.

There is a big variety in these books and even a bigger variety should be presented as soon as the rest of our new non-fiction books are shelved.

WEDNESDAY GUESTS

Mrs. Lura Hoover of Littlefield and Mrs. Edwards of Tshoka spent last Wednesday afternoon visiting Mrs. O. H. Hoover in the Graham community. Other visitors were Mrs. W. A. Morris and Mrs. Inkiebarger.

books during the past summer. Think how much it would mean to hundreds of local youngsters if they had the opportunity to read the year-around in a Garza County Library—a project dear to the hearts of many people here and one which many hope in the not too distant future to achieve.

The Real McCoy's By HAROLD LUCAS

POST Insurance Agency

Phone 132 Post, Texas

Not just this "renewer" Zeke is talking about, but everybody ought to carry hospitalization and major medical insurance for himself and family to provide coverage in case of injury or illness. Let us explain how little this coverage will cost and how complete it can be for the protection of you and yours.

HAROLD LUCAS

City budget--

(Continued from page 1)

The new budget sets up total expenditures and balance for the sanitation fund at \$32,752.07. Last year, the figure for the same department was \$18,655.97.

Estimated receipts from garbage collection are \$25,000, an increase of nearly \$7,000 over actual receipts last year.

WATER RECEIPTS
Estimated receipts from the water and sewer fund are \$150,000. Actual receipts last year were \$128,729.49. Total available resources from the water and sewer department are listed at \$143,525.84 as compared with the previous year's figure of \$130,435.91.

The proposed budget also lists total production expenses of the water and sewer department during the coming year at \$43,800, which is pretty close to the actual figure of \$43,963.60 for the previous year.

Distributing expenses of the water department are estimated at \$39,900 for the new fiscal year. Actual expenses last year were \$19,282.02.

The budget estimates that sewage expenses will be \$4,400 during the new fiscal year as compared with actual expenses of \$2,198.13 for the preceding year.

GIRLS BASKETBALL

The girls' varsity is now working out in the new gym. Everyone seems to feel more like working now that we are in the gym. Workouts are held each evening from 5 to 7 o'clock.

A recent map lists 13 variations of the word "mountain"—berg, giri, kangri, kilima, kuh, mir, monte, nevado, san, shan, tagh, ula and yama.

Properly fertilized and inoculated legumes farm 'nitrogen factories'

COLLEGE STATION — Properly fertilized and inoculated legumes are literally on-the-farm nitrogen factories, but if non-inoculated legumes are planted in soil that contains no nitrogen-fixing bacteria, no nitrogen will be fixed. R. J. Hodges, extension agronomist, says this situation should not occur because it is an easy matter to get the right kind of inoculant on the legume seed before it is planted.

Above every acre of land surface there is about 35,000 tons of free nitrogen. With the exception of members of the legume family no plants are able to use this free nitrogen. Nature has given legumes the power to take this nitrogen from the air and put it into the soil. This process is carried on by plants through small growths on their roots. These growths, known as nodules, are formed by the nitrogen-fixing bacteria, Hodges explains. Even though legumes have been

grown successfully on the land where they will be planted again this fall, the seed for this year's crop should be inoculated, says Hodges. Be sure to check the container label so the correct type of inoculant will be obtained.

The legume plants must be thrifty and make a good growth if the bacteria are to thrive. For this reason, lime, phosphorus, potash and the trace elements must be supplied if they are lacking.

According to Hodges, fertilizer requirements vary with the different soil-type areas of the state. His general recommendations are that 150 to 250 pounds of 10-20-10 per acre be used on sandy soils, and 100 to 150 pounds of 13-39-0 or 16-48-0 per acre be applied to the heavier soils. Productive soils or soils high in organic matter should receive 200 to 300 pounds of 0-20-0 per acre. To be sure of their fertilizer requirements, farmers should have their soil tested.

Fertilizer may be applied as part of the seeding operation, says Hodges, by using a fertilizer attachment on the grain drill or row crop planter. This joint operation cuts costs and places the fertilizer where it is readily available to the plants.

Hodges points out that the time for planting winter legumes has arrived and the job should be done as soon as possible. Winter legumes, he adds, will give protection to the land during the winter, will provide grazing, can be used for a cash crop or they can be turned under as green manure. Any way you go, he concludes, legumes will contribute to any soil improvement program.

DUAL PURPOSE fallout shelter and carport-patio is shown under construction at the farm of John Holden near Hickory Grove, Mich. The shelter, to be used also for food storage, cost \$1,200. With the carport and patio now being added, the cost totaled \$2,300. Holden's family of three, and eight neighbors, gave the shelter a realistic workout recently when a small tornado struck nearby. An entrance to the shelter is in the foreground. (OCTOBER PHOTO)

in
TEXAS**

EVIDENCE

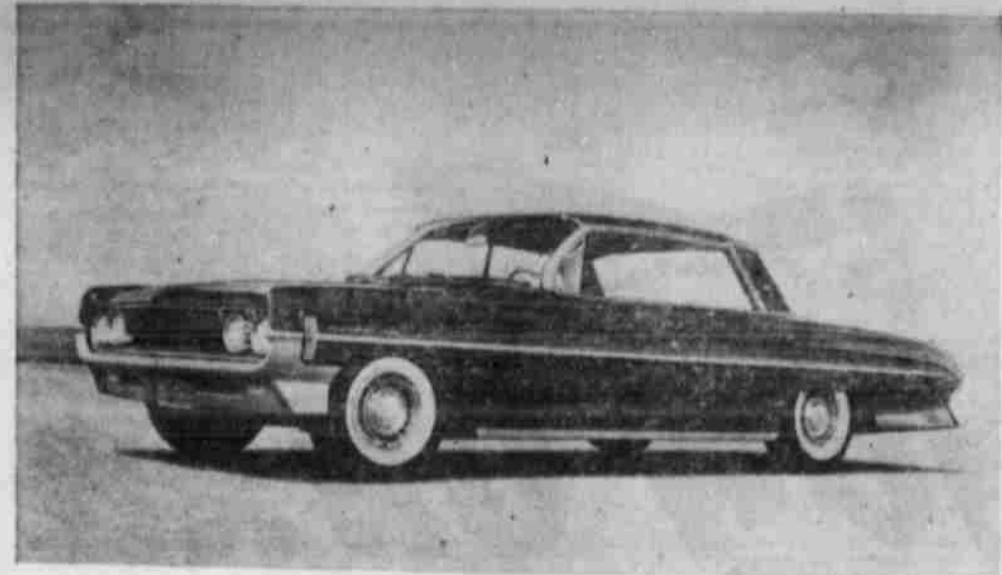

Our modern idea of evidence in science, in daily affairs, in our courtrooms, men did things to "test" truth in trial. Our notion of evidence in law courts is actually on a few centuries old. It entered procedure at about the same time that Galileo and Newton used scientific evidence to upset older ideas of nature.

Then, men talked to prophets, fortune tellers and augurs they acted. These men looked into the sky and find out many and what kind of a flow in from what quarter. Sometimes they looked at the char-acterals of sacrificial animals.

Tests for truth in the Middle Ages were many, but some-dramatic. You might dispute with your neighbor over land. If so, the court would order a test by ordeal. The contestants would walk through water or you might meet your neighbor with sword and shield. Or your agent might fight it with your neighbor on the spot that Providence would not let the unjust win; or, after due to the court might toss you into the water. If you did not sink, you won. Or perhaps you grasped a red hot iron or walked barefoot through hot coals. You came out without blisters, you believed your story.

As you can see, few people would court of their own will. Risks were many, not the kind of choice.

Later in England, where we got our law, men had other ways to reach decisions. For example, take the "oath-helpers". Your case was to be tried, and not go into court with

ALL-NEW, DISTINCTIVE STYLING

Oldsmobile's all new and distinctive styling motif for 1961 is exemplified by this Super 88 Holiday Sedan, a four-door hardtop. The new body lines give the car a long, sleek look, but over-all length of the 88's has been reduced three inches. The Super 88 is powered by the high performing 325-hp Skyrocket engine.

Complete restyling marks advances in new Oldsmobile on display here

facts, as today. No, you took with you a fixed number of men called "oath-helpers." Oath-helpers would swear by all that's holy that you were a man of your word. After that, you would swear that your neighbor had wronged you. In turn he would bring his oath helpers and do the same.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

RETURN FROM TRIP

Mr. and Mrs. E. B. Gregg of Post and Mrs. H. E. Huffaker of Grassland returned recently from a nine-day vacation trip to New Mexico and Colorado, including a visit with the Huffakers' daughters in Colorado Springs.

A newly formed Ports Authority of Chile, in Valparaiso, will operate all Chilean ports.

The new line of 1961 Oldsmobiles went on display here today at Caprock Chevrolet-Oldsmobile Co., 111 South Broadway.

The new Oldsmobile Dynamic 88's, Super 88's and 98's in 18 different models incorporate the greatest changes in styling and design to be introduced by the division in many years, it was announced by Claud Collier Jr., manager of the automotive firm.

"In addition to their completely new, fresh and distinctive look, many design changes for passenger comfort have been made to make the 88's and 98's more attractive than ever before," Collier said. "Head room is increased, the cars are much easier to get in and out of, and seating comfort is greatly improved."

"This, together with many mechanical advancements, makes the 88's and 98's the most alert, best performing, most comfortable and

smoothest riding and handling cars in the division's history," he declared.

"Oldsmobile's market has been widened—we are no longer fenced in by price class," Collier said. "88's and 98's will please the many, many people who need, want and are accustomed to the beauty, comfort, utility and prestige of a full-sized Oldsmobile."

"The smaller F-85, Oldsmobile's entry in the low-price field," he continued, "will attract the many, many people who have always wanted an Oldsmobile but never thought they could afford one—up until now."

Highlighting the styling motif, the sculptured sides of the Dynamic 88, Super 88 and 98 sweep back from the distinctive, alert-looking front end, and with the profile tapering at the rear—styling that is unmistakably Oldsmobile. Excluding convertibles, a

Page 9

I Give You Texas . .

By BOYCE HOUSE

When I was a youngster, I associated greatness with winning. Therefore it was a matter of great surprise to me when, one season, the sports writers selected as the league's outstanding manager, Kid Eberfeld. His team was in last place.

What the sports writers were saying was that Eberfeld had almost no material and deserved the honor of "manager-of-the-year" for accomplishing something with little.

If winning were the only test, then the greatest general in history would be a man that most people never heard of—the Duke of Marlborough, of whom it was said that he never besieged a city he did not capture, and never fought a battle he did not win.

But a leader may win because he has superior numbers or heavier guns or because of luck or be-

cause he is opposed by poor generals.

Napoleon is generally considered the greatest military genius of modern times—yet he lost battles and died a prisoner on a rocky island.

Robert E. Lee is considered by many to have been the greatest general of the English-speaking races—(Theodore Roosevelt, for one, thought so)—yet Lee lost battles and the Confederacy, for which he fought, fell.

As one philosopher expressed it, "Success is not in winning—but in playing a poor hand well."

I didn't see "Giant" until I caught it at a second-run theater in Oklahoma City. The musical background is "The Eyes of Texas" and I expected it to be greeted with hoots—but it only reminded the Somers of their numerous victories over the University of Texas football team. (Before 1858 and 1959!)

In another Oklahoma City theater, I saw a frontier movie of settlers and Indians—and when the cavalry was riding to the rescue of the settlers, I was afraid to cheer.

Daniel Webster once found himself the only passenger on a stagecoach. The driver was a villainous-looking individual who kept turning and looking back at Webster.

The passenger decided that the driver was actually a robber and at last said, "Why don't you go ahead and rob me?"

The driver exclaimed, "Rob you? I thought you were a robber."

There was an editorial writer who sometimes didn't feel up to writing an editorial. This usually occurred on a Monday. So he would clip out an editorial from another newspaper and write:

"What does our esteemed contemporary mean by the following?" And then would reproduce the editorial.

However, he did this one time too many and lost his job.

Britain is going in as never before for fruit squashes and other processed drinks.

Friday and Saturday's

Clayton event is to decide roping champ

DENVER—The only Texan on the entry roster, Don McLaughlin, Fort Worth cowboy, heads the 15 high money winners qualifying for the second annual National Finals Rodeo steer roping, a part of the professional sport's "world series" to decide the 1960 world champion, at Clayton, N. M., on Oct. 7-8.

With the closest championship struggle in the event's history looming ahead at Clayton, McLaughlin tops the steer roping ledger for the regular season which ended ten days ago at the Pendleton Roundup, with a \$2,790 total, but holds only a \$6 advantage over John Dalton of Cheyenne, Wyo., the latter with \$2,784.

Official count on the event's 15 high money winning ropers was released today by the Rodeo Cowboys Association following a post-season check of earnings through IBM processing.

The wiry 33-year-old Texan, former five-time calf roping world titlist, earned most of his seasonal dollars at the Cheyenne Frontier Days this year, took dead aim

on the finals which he was forced to miss last year due to a shoulder injury suffered at Madison Square Garden earlier in the fall. He was sixth on the '59 standings ladder at the time.

With Dalton hot on his heels, McLaughlin will, no doubt, be clocking all of the ropers at the finals, for conceivably any of them might win enough of the \$6,500 prize money at Clayton to reach the championship throne. Each man is to rope six steers during the two-day contest.

LIQUOR PETITION SOUGHT
COLORADO CITY—Twelve persons applied to Mitchell County Clerk Gilbert Leach last Thursday for a petition to be circulated calling for an election for the sale of alcoholic beverages for off-premises consumption in the Colorado City limits.

Australia will sell 64 million apples and 140 million pears in Britain in 1960.

About your health

While the national birth rate is steadily declining, the birth rate for Texas has remained fairly stable according to provisional data for the first six months of 1958, 1959 and 1960.

During the first six months of this year there were 110,996 live births in Texas—compared to 110,774 during the same period last year and 106,395 in the first half of 1958.

The birth rates for 1958 and 1959 were identical—23.6 per 1,000 population.

However, during the first six months of 1960 it was only 23.2 per 1,000 which is a slight drop but still above the national average.

Another development indicated in the six months provisional statistical data is the upturn in the death rate for Texans.

For the past 15 years, the Texas death rate has declined steadily year after year, but so far during 1960 there has been an increase.

The death rate for the first six months is 8.3 per 1,000 population. The total deaths were 39,498.

In 1958 there were 36,630 deaths for a rate of 8.0 per 1,000 and in 1959 there were only 36,033 deaths indicating an all-time low of 7.7 deaths per 1,000 population.

If this rate maintains through the year, it is possible that 1960 will have the highest death rate since 1951, when it was 8.2 per 1,000 population.

Very little change was noted in the number of fatal deaths and fatal death ratios during the first six months of the last three years.

Accurately compiling statistical data for analysis by public health authorities is one of the major duties of the Records and Statistics Section of the Texas State Department of Health.

By noting the decline or increase in certain death figures, health authorities can gauge effectiveness of health programs or spot potential health trouble spots.

The Records and Statistics Section keeps all birth and death records for the State of Texas. (A weekly feature from Public Health Education Division, Texas State Department of Health.)

Vet's Forum

Q. I will be going to school this fall under the Korean GI Bill. If I have to take any days off from my classroom studies, will my GI school allowance be reduced?

A. As long as your days off do not exceed the number permitted by your school and the State Approving Agency no deduction will be made. Your allowance check will be for the full amount.

Q. Is there any deadline for applying for compensation for a service-connected disability?

A. No. A veteran with a service-connected disability may apply for compensation at any time. However, if he applies within one year from date of discharge, compensation may be back-dated to his first day as a civilian.

Q. I want to pay my GI insurance premiums once a year instead of once a month. Where can I find out how much the yearly premium will be?

A. Write to the VA District Office where you pay your premiums. Be sure to include your policy number when writing.

Q. I am in my sophomore year in college under the Korean GI Bill and entitled to additional VA allowance because I recently married. What kind of evidence of my marriage must I submit to VA in requesting the additional allowance?

A. Send VA a certified copy of the public record of the church record of your marriage. Either one will do, but you must send one or the other. A certified copy is a true copy which bears the seal and signature of the one who keeps the records, in the church or court.

Q. I am 22, the son of a World War II veteran who died of a service-connected condition, and am now in the Armed Forces myself. I'd like to go to school under the War Orphans Education program when I get out, but then I will be 23 years old. Can an exception to the age limitations for eligibility be made in my case?

A. Yes. War Orphans Education may be continued after age 23, if you were serving in the Armed Forces before that age. You must complete your schooling within five years from discharge. Your discharge must be under conditions other than dishonorable.

FROM NOW ON...

What a strange feeling it gave me, the first time Laura went to school! As I watched her, I realized that these were her first independent steps. From this day forward, she would be increasingly on her own.

I don't think I ever felt my responsibility as a mother as much as I did at that moment. Had I given her the proper foundation to meet the trials, the temptations and frustrations that are an inevitable part of even a school child's life? Had I done enough for her?

Being human, I probably hadn't. But there was one thing I had done. From the beginning, I had made the Church a part of Laura's life.

You can't shelter your children from harsh reality. But you can, through the teachings of the Church, help them face life with strength and faith, giving them the assurance that God is ever-present.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Use of insecticides is best way control insects in household

COLLEGE STATION—It is next to impossible to observe a home and its surroundings without finding some form of insect life. This is strange because insects and other animals constitute the larger number of animals found in the world.

Insects feed on fabrics, contaminate food, attack dwellings, transmit diseases, carry secondary infections and themselves generally obnoxious to the other hand, some insects are very beneficial to man. In general, the control of insects in and around the household is a very real problem, says Garner, extension entomologist.

Certain pests may be found and controlled outside but some live entirely within the home. The only way to control these household pests is to apply insecticides, either sprays or dusts, inside the home, Garner continues. Fumigation is seldom necessary, but in case it is, the homeowner should rely on a professional exterminator.

Chemical control should be supplemented with sanitation and good housekeeping if it is to do its job properly. Insects live in cracks, under bits of wood and other debris, in the walls and beneath the floors of homes, and in almost any dark, quiet place. Hiding places such as these should be cleaned, but even the most spotless may occasionally become infested.

The Texas Agricultural Extension Service has prepared a leaflet, L-311 "Texas Guide for Controlling Household Insects", which contains the latest recommended controls for 24 pests. In addition to the controls, the leaflet contains a section on insecticidal formulation and one on equipment needed for application. A copy of this guide may be obtained from the local county agent.

Another important section of this leaflet is a list of cautions. Garner says that anyone using insecticides should read, learn and observe the do's and don'ts contained in this list.

"Remember," he concludes, "insecticides are poisonous to species other than insects."

General American makes venture

General American Oil Corp. has announced a 2.64 Miller as an oil project in the Gordon (Strawn) Field in Garza County.

The well is 8,350 feet with a depth of 1,400 feet from the surface and 1,100 feet from the well bottom, Section 64, Block 6, Survey.

The project is being completed in the process of being completed by the company.

ALL-NEW, SMALLER OLDSMOBILE

Entering the low-price field this fall is the all-new smaller Oldsmobile, the F-85. This smartly styled new six-passenger car is built on a wheelbase of 112 inches, with over-all length of 188.2 inches. The F-85 is offered as a four-door sedan or four-door station wagon. Shown above is a deluxe version of the F-85 four-door sedan.

New smaller Oldsmobile, the F-85, adds quality to low-price field

The new smaller Oldsmobile—the F-85—went on sale today at Oldsmobile dealer showrooms here and in other showrooms from coast to coast.

"The F-85 brings traditional Oldsmobile quality, performance and styling into the low-price field for the first time," points out Claud Collier Jr., manager of Caprock Chevrolet Co., where the new car is on display here.

"This new addition to Oldsmobile's line of redesigned, restyled and repowered Dynamic 88's, Super 88's and 98's will open up the opportunity of Oldsmobile ownership to a much larger segment of the car-buying public than ever before," Collier said.

"The Oldsmobile F-85," he continued, "is a six-passenger car combining high performance and economy of operation — ideally proportioned for handling ease, attractive styling and eye appeal. It will be offered in two body styles, a four-door sedan and a four-door station wagon, with deluxe versions of each.

"The new smaller Oldsmobile," he added, "is 188.2 inches long overall. Built on a 112-inch wheelbase, it is 71.6 inches wide and 52.6 inches high. Not only does it seat six people comfortably but it also offers a very ample 12.1 cubic feet of luggage space.

"Designed for the buyer who wants the best in a smaller, lower-priced car with economy of operation," the dealer said, "the F-85 offers outstanding economy — 25 per cent more miles to the gallon than many full-size cars—but it never compromises on performance. It has safety power to spare—for passing and smooth merging with traffic on expressways. Its performance is outstanding."

He explained that the F-85's combination of lively performance and excellent fuel economy is due to two things: the car's curb weight of only 2695 pounds, some 1500 pounds less than its full-size brother, the Dynamic 88; and the efficiency of Oldsmobile's new aluminum Rockette V-8 engine.

SURPLUS FOODS

Donations of surplus foods by the U. S. Department of Agriculture at home and overseas totaled almost 2.8 billion pounds in the year ending June 30, 1960. This is down only slightly from the all-time record set the previous year.

Parents' Day at Wayland Oct. 17

PLAINVIEW — Annual Parents' Day at Wayland Baptist College has been set for Oct. 17 with its theme, "Cast Your Ballot for Christian Education," according to Ed S. Billings, chairman of the committee.

Letters of invitation to the parents of Wayland students have gone from President A. Hope Owen, who suggests that parents will like to attend classes, chapel and luncheon with their offspring.

In the afternoon following an "Information Please for Parents Conference" ground will be broken for a 109-unit residence hall for women and an 8-unit apartment for married students. Then two recently completed apartment buildings will be dedicated. Ground will be broken for Allison-Conkright Hall, for which funds are being provided by J. R. Allison, Hereford, a Wayland trustee, and Mrs. Allison and her mother, Mrs. H. G. Conkright, Hereford, a long time benefactor of Wayland.

BULLETIN AVAILABLE

Publication, B-177, "Freezing Poultry For Home Use" has recently been reprinted for the third time by the Texas Agricultural Extension Service. The very popular bulletin written by Extension Specialists F. Z. Beanblossom, poultry marketing, and Roy W. Snyder, meats, is available from the offices of local county extension agents or the Agricultural Information Office, College Station, Texas.

The Texian Editor's Frontier News Flashes

Department of Journalism & Graphic Arts University of Houston

OCTOBER 2-4, 1860

We regret to hear of the death of Col. F. A. Lumsden, of the N. O. Picayune and his family. They were on a steamer on Lake Michigan and came in collision with a schooner; she sank in twenty minutes, burying about 300 passengers in a watery grave. Col. Lumsden and Mr. Kendall were the first founders of the Picayune, they were excellent printers, and by their industry had amassed a respectable fortune.

to engage again in any expedition against the States of Central America, and the Consular Agent of the United States to provide their return passage expenses—Walker and Rutter to be dealt with as the laws of the land and its justice may determine. They have both been shot, probably, before this reaches you, as they were in the Castle, with the understanding such was the fate predetermined for them, on the morning of the 11th inst.

Chief Justice Taney Renounces Squatter Sovereignty—The Philadelphia Pennsylvanian states upon undoubted authority, that the Chief Justice of the Supreme Bench of the United States, who pronounced the opinion in the Dred Scott case, denounces Douglas' Squatter Sovereign doctrine as the worst heresy. The Chief Justice will support Breckenridge and Lane. The Democracy have planted themselves on the Constitution of the country, and have the endorsement of the highest judicial authority of the Union.

Rodeo accident victim gaining

SNYDER—Gene Griffin, 19, is reported doing well at his home here following four weeks in Methodist Memorial Hospital in Lubbock under treatment for injuries received when he was thrown and trampled by a bull in the Fisher County Rodeo and Fair in Roby Aug. 27.

Griffin's neck was broken, apparently when the bull snapped its head against his as he was riding, and he suffered other injuries when it trampled him, going around and around as a horrified audience watched.

The youth will have to wear a neck brace for four to six months longer, but the paralysis of his right arm has lessened to the extent that he is able to feed himself with it, although the fingers are still numb.

Tahoka homecoming slated for Oct. 28

TAHOKA — The Tahoka schools' homecoming will be Oct. 28—the day of the Post-Tahoka football game.

The homecoming program will include a banquet at 6 p. m., preceding the football game, which is to start at 7:30.

State Capital NEWS

By Vern Stanford

AUSTIN — With all the hoopla over the national elections, many Texans may get to the polls Nov. 8 before they realize they have other important decisions to make that day.

Four proposed amendments to the Texas Constitution will be voted on at the general election. Voting to approve or reject alterations in the state's basic law is one of the most important responsibilities a voter has. It is the average citizen's one and only opportunity to participate directly in the lawmaking process.

Here, in brief, are the proposed amendments (in the order they will appear on the ballot) and what they would do:

AMENDMENT ONE:

Would authorize creation of special hospital districts in Lamar

County, Hidalgo County and Commissioners Precinct No. 4 of Comanche County.

Approval of this amendment would not actually create these hospital districts, but would give local voters authority to do so in a local election.

Amendments such as this one, which apply only to the areas specifically mentioned, usually are passed on the grounds that they give local voters authority to take care of local affairs. Since it is permissive rather than mandatory, local voters can decide for themselves whether they want to carry it through.

Some argue against such amendments on the grounds that such details as this should not be added to an already overly-long Constitution.

Would permit a rate of interest not to exceed 3½ per cent on bonds issued hereafter for the benefit of the Veterans Land Fund. Present constitutional ceiling is 3 per cent.

Veterans Land Board is authorized by law to sell bonds and use the money from those sales to buy land which is re-sold to qualified Texas veterans. Law provided for the sale of \$200,000,000 in bonds, but the Board has not been able to sell the last \$82,500,000 of these bonds because, in today's market, 3 per cent interest does not make them an attractive investment.

Financial experts think that raising the permitted interest rate to 3½ per cent should be sufficient to make the bonds salable again.

AMENDMENT THREE:

Would change the pay scale of members of the Legislature to give them annual salaries of \$4,800 plus \$12 a day for each day in session. It would limit regular sessions to 140 days (present limit is 120 days). Lawmakers would receive \$12 a day for each day of a 140-day regular session plus \$12 a day for each day of a 30-day special session.

At present, legislators receive no annual salary. They get \$25 a day for each day, up to 120 days, of the regular session plus \$25 a day for each day of a 30-day special session. They receive no pay in years the Legislature does not convene (such as 1960). Under this proposal, they would receive \$4,800 a year base pay whether they spent any time in session or not.

Present provisions for travel expenses would not be changed. These provide for the lawmaker to receive \$2.50 for each 25 miles of the round trip between his home and Austin once each session.

This amendment is essentially a compromise between the present arrangement and the constitutional change proposed in 1958. Last time the proposal was for annual salaries of \$7,500 and no per diem. It also provided for annual sessions which, many think, contributed to its defeat.

Proponents of the current plan say that it will make it possible for better qualified people to serve in the Legislature without having to make so much of a personal financial sacrifice to do so.

Opponents argue that it will create "professional legislators".

They contend that it is better for the lawmaker to have another job in private life to keep him closer to the problems of the people.

If the amendment is passed, a Texas legislator would receive for his two-year term of office minimum pay of \$9,600. In other states, the pay for a two-year term ranges from \$200 in New Hampshire to \$15,000 in New York. Average is about \$3,600.

AMENDMENT FOUR:

Would give the Legislature authority to classify loans and lenders, to license and regulate lenders, to define what part of the charge made on loans should be considered interest and to fix the maximum rate of interest which should be charged.

This is generally known as the "anti-loan shark" amendment and is being supported by a blue ribbon committee of citizens from over the state.

At present the Constitution provides that the maximum rate of interest shall be 10 per cent. This is widely, almost universally, violated by the small loan industry, usually through additional charges besides the interest — "handling charges, service charges," etc.

Attorney General's department investigations have turned up cases of flagrant abuses by loan companies, making charges that totaled altogether as much as 300 per cent of the amount loaned. On the other hand, the investigators themselves admit that a loan company making short-term, high-risk personal loans cannot stay in the black on 10 per cent.

If this amendment is passed, it will be up to the Legislature to decide what is a fair charge. Even those legislators who voted for this proposal admit they dread the prospect of having to decide what rates are fair.

HIGHWAY SLOWDOWN DUE

Public highway work in Texas

will be cut back about one-half for the months of November and December, the State Highway Department announces.

This is a seasonal drop, according to State Highway Engineer Dewitt C. Greer. Spring and summer are the "rush season" for highway work because the weather is good. They are also the months when revenue from gasoline taxes runs high.

Sale of license plates next spring will bring the annual bounce-back in money to the Highway Department, and a rise in highway contract lettings is expected about the same time.

Total construction contracts for September and October are expected to hit about \$21,000,000 each month, but will probably drop to half of that for November and December.

SHORT SNORTS

Kenneth I. Kimbro has been named chief clerk under Comptroller Robert S. Calvert. He succeeds the late Gus Farrar . . . A. T. (Moon) Mullins, chief clerk of the General Land Office, has resigned to enter private law practice in Austin. Mullins has been with the Land Office since 1948. . . U. S. Department of Agriculture has predicted this year's Texas cotton crop at 4,425,000 bales, an increase over earlier predictions. Other crop forecasts: sorghum, 276,432,000 bushels, just short of last year's record crop; peanuts, a record yield of 317,125,000 pounds; carrots, up 6 per cent; and pinto beans, 30 per cent increase.

A man who came West from the East to go into the cattle business primarily for the money that was in it, was often referred to as a "boot-black puncher" by the old cowhands.

Post journeys to Tulia or Friday night tilt

Post Antelopes' last chance non-conference victory this week will come Friday night when they engage the Tulia Hornets.

The team will travel to Stanton District 3AA play with the Buffaloes, who last season won in District 6A.

The Post squad, which several ago dropped to some 20 points, won't be any stronger in Friday night's game against Tulia.

Coach Duane Locke said that tackle Dean Johnston admitted to a Lubbock injury for treatment of a recurring injury. Johnston saw the game because of illness. Johnston of the other squad was slowed by bad colds and practice sessions this season.

Coach put much of the blame for the Antelopes' 33-6 defeat at Floydada to "making the same mistakes on defense we've been making all season long."

He said the brightest spot in the Floydada loss probably was the way the Antelope passing picked up—five completions out of 16 attempts for 48 yards, including a 23-yard touchdown play.

HORNETS STRONG

In the Tulia Hornets, the Post eleven will be meeting one of the co-favorites to win the District 3AA championship, Dimmitt being the other.

Tulia opened with one-sided wins over Memphis and Sunray before losing to Lockney, 28 to 6, on what was described by scouts as an "off night" for the Hornets. They have bounced back to score decisive victories over O'Donnell and Abernathy.

One of the assistant coaches at Tulia is Frank Kehut, a former assistant and later head coach here.

Eagles, Pirates to clash Friday

By SUE BRIDGES

The Borden County High School Pirates from Gail will furnish the opposition for the Southland Eagles in an eight-man conference football game Friday night at Southland.

Coach Duane Locke's Eagles will be looking for their first conference victory after dropping their opening district game to the Wellman Wildcats, 42 to 20, Friday night at Wellman.

Quarterback Ronnie Sales scored two of the Eagles' touchdowns in their defeat by Wellman, with Johnny Haire accounting for the other one. Sammy Ellis made the Eagles' two extra points.

Post teams beat Frenship in two

By scores of 22-8 and 20-6

Post's 7th and 8th grade teams continued to look like champions Tuesday night in a double win over teams from Frenship.

The 8th grade team, coached by Lynn Gregg and Richard Souter, won by a score of 22 to 8, and Coach Charles Clark's 7th graders came out on the long end of a 20 to 6 score.

The two teams play Slaton here next Tuesday with the first game scheduled for 7 p. m.

A touchdown by Teddy Scott on a dive play gave Post a first quarter lead in the 8th grade game and Ronald Simpson ran over the extra points.

Simpson scored another touchdown in the third quarter, and quarterback Butch Cross hit paydirt early in the fourth, with Scott adding the extra points.

Frenship's touchdown came in the closing minutes.

Jackie Braddock, Charlie Brown and Bill Mitchell were defensive standouts for Post, although the coaches praised the work of all the boys.

In the 7th grade win, Ronnie Mayberry went 25 yards for the first Post touchdown and other six-pointers were scored by Roger Duvall and Ruben Gonzales.

Richard Scott, a 6th grade student, was one of the defensive standouts for Post. Others turning in good games were Donnie Cornell, Sneed, Wills and Sims.

Frenship scored on a short line play after recovering a fumbled punt near the Post goal line.

Hopkins guest winner in Tahoka tournament

Charles Hopkins of Post teamed with School Supt. Otis Spears of Tahoka to win the invitational low ball tournament Sunday afternoon at Tahoka's T-Bar Country Club.

Hopkins and Spears won with a low-ball score of 60. Another Post golfer, Jimmy Hundley, teamed with C. N. Woods of Tahoka to win fourth place with a 63.

Hopkins' 70 was also the low score of the tournament.

Each T-Bar Club member was asked to invite a guest from some other club to play with him as a partner in the tournament.

Evangelist is named for revival meeting at Assembly of God

A revival meeting will begin Sunday, Oct. 9, at the Assembly of God Church and continue through Oct. 23, with the Rev. Ervin Asiatic as the evangelist.

The meetings will start at 7:30 o'clock each night, according to the Rev. J. R. Brincefield, pastor.

Rev. Asiatic, a native of the United States, is of one-half Filipino descent. Rev. Brincefield said.

He has been in the evangelistic field over two years, is a student at Central Bible Institute and is an accomplished musician.

"The public is invited to hear this man of God preach the Full Gospel," the pastor said.

RETURN FROM HOUSTON

Rev. Graydon Howell and daughter, Mrs. Jerry White of Lubbock, returned home Friday from four days in Houston where they visited Mrs. Graydon Howell.

They were accompanied home by Mrs. Dalton Copple and son, who are visiting this week in the home of her parents, Mr. and Mrs. W. C. Kiker.

Scientists believe that some 5,000 species of animals, land and sea, have become extinct over the past centuries.

Slaton joins winner's circle in 3AA group

The Slaton Tigers rolled to a win over Crosbyton Friday to leave Post as the only District 3AA team that hasn't won a game this season.

Denver City kept its perfect record intact with a 69 to 12 shellacking of Crane, while Post was losing to Floydada, Stanton to Fort Stockton and Tahoka to Ralls.

This week, Denver City faces a tough test at home against Dimmitt, Stanton entertains Crane, Post goes to Tulia, Slaton stays home to battle Lockney and the Tahoka Bulldogs play at Petersburg.

Tarzan picture is coming to Tower

From the heart of the African jungle comes another action-packed drama recounting new adventures of Tarzan, aptly titled "Tarzan the Magnificent."

Showing Friday and Saturday at the Tower Theatre, this latest Paramount release concerning Edgar Rice Burroughs' famous strong man, is a big-screen, big-scale color film starring Gordon Scott as Tarzan, Jock Mahoney and Betta St. John and introducing Gary Cockrell.

Most of the picture was filmed in the British crown colony and protectorate of Kenya in East Africa. Key scenes were filmed at Fourteen Falls, Donya Szouk, at Thika and at the Mount Kenya Safari Club, which should give fans who see the picture some magnificent views of Africa's fascinating jungle country.

The story told in "Tarzan the Magnificent" concerns the perilous journey of Tarzan through the savage wilds to bring a dangerous murderer to justice. He is accompanied by three men and two women, unaccustomed to jungle life. They are pursued and constantly harassed by the criminal's killer father and equally murderous two brothers, who are determined to effect their kinsman's release even if they have to slaughter Tarzan and all his companions to do so. The things that happen on the journey constitute action that should thrill young and old alike.

NIECE VISITS

Mr. and Mrs. G. I. Huffman had as their guest this week her niece and husband, Joe and Junita Hall of Lubbock.

Floydada eases by Post, 33-6

The Post Antelopes passed the halfway mark in their 1960 football season Friday night by absorbing a 33 to 6 defeat at the hands of the Floydada Whirlwinds at Western Field in Floydada.

The defeat left Coach Vernard Alexander's thinly-manned Antelope squad with an 0-5 mark through the first half of the gridiron season and with only 12 points against 153 for the opposition.

Six of those points came Friday night at Floydada when the Antelopes, trailing by 27-0, got on the scoreboard late in the third quarter when quarterback Kenneth Williams shot a 17-yard pass down the middle to halfback Richard Ray, who half-leaped and half-stumbled over a lone Floydada defender to hit paydirt from five yards out.

MINOR INTERCEPTS

The Post touchdown came on their only serious scoring threat of the game after fullback Jimmy Minor had intercepted a Floydada pass and returned it 11 yards to the Whirlwind 19.

The Antelopes held the undefeated Whirlwinds to eight points in the first quarter, but their defense wore down in the second period and they yielded 14 more points to give Floydada a 20-0 halftime lead.

The winners tacked on seven more points in the third period then widened their lead with six points in the final quarter.

The first Floydada touchdown came with 2:20 to go in the quarter when quarterback Rodney Teague faked a shot at the line, then swept around Post's right end for a 32-yard scoring shot down the sideline. Teague passed to end Don Switzer for the extra points.

CHRISTIAN SCORES

Halfback Charles Christian scored the second Whirlwind touchdown from three yards out, but fullback Van Stovall failed in an attempt to run over the extra points.

Only 1:50 remained in the first half when Floydada scored again, this time with halfback Richard Marler going over from the three-yard line to cap a 67-yard drive. A running try for the bonus

points failed after the Whirlwinds had drawn a five-yard penalty for too much time.

After receiving the second half kickoff, Floydada went 70 yards for a touchdown, aided by a 15-yard penalty against Post for roughing the kicker. The scoring play was a 35-yard pass from Teague to Christian, and Teague made it 27-0 by adding the extra point from placement.

Post made two first downs after receiving the kickoff, one coming on a 15-yard personal foul penalty against the Whirlwinds. But the short-lived Antelope drive bogged down on the Floydada 40 and halfback Wendell Duncan's short kick—his only bad one of the night—was whistled dead on the Whirlwind 18.

Floydada lost no time in getting on the scoreboard again after a 15-yard penalty against the Antelopes for not receiving the kickoff late in the third. Marler brought tackle Jimmie Ivie's kickoff back 28 yards to the Whirlwind 48, and the green and white team went 52 yards in six plays, with halfback Teddy Allen diving over from the three-yard line. A running try for the bonus points was stopped short.

About the only consolation for the Antelopes was that they became the second of four teams to score this season against the Whirlwinds, who have yielded only 13 points in their first four contests. If there was any improvement in either the Antelope offense or defense, it didn't stand out.

50 students taking choir

By Carolyn Moore
There are about 50 students taking choir this year. We are very glad to find that there are more boys in choir than we have

7th, 8th grades 'skunk' Lamesa

By Mary Ann Stone
We are all real proud of the way our boys "skunked" Lamesa in both games Tuesday of last week.
The score of the 7th grade game was 46 to 0, and the 8th grade game was 30 to 0.
Benny Owen and Butch Cross scored a touchdown apiece. Danny Pierce scored one and Teddy Scott scored two in the 8th grade game.
We are also proud of the way our cheerleaders and the school backed our teams to victory.
We want to invite each and every one of you to come out each time to watch our boys play a good game.

ever had. No choir can do without a good bass and tenor section.
Everyone is really working hard getting ready for the assembly program we are to give on Nov. 7. The numbers for the program are Negro spirituals and semi-popular selections. We felt that the student body would enjoy and appreciate listening to the lighter side of music.
We think we have a good choir this year. The entire choir hopes it will be able to continue entertaining everyone as well as they have done in the past.

News from classes in mechanical drawing

By Charles Gordon
The Mechanical Drawing II classes were previewing College Engineering last week.
The Mechanical Drawing I classes are learning the basic fundamentals of using the Mechanical Drawing instruments. They are also doing the basic geometric constructions.

Sports spotlight on Richard Ray

By Jerry Ligon and Danny Jones
This week's sports personality is Richard Ray, a Post High School senior and son of Mr. and Mrs. Ted Ray.
Richard, who plays halfback for the Antelopes, was born Sept. 3, 1943, and has lived here for eight years.
Some of Richard's favorites are: Food, lemon chiffon pie; pastime, sleeping; sport, football; subject, Shop II; song, "Save the Last Dance for Me"; pet peeve, people with authority.
Richard plans to go to college after graduation this year.

FFA boys elect new officers

By Gayle Dillard and Bonnie Duncan
The FFA boys held a meeting Sept. 27 at 7:30. They elected new officers for the year. Jerry Stone was elected president; David Lee, vice-president; Melvin Byrd, treasurer; Jerry Bush, reporter and Jerry Thuest was elected as secretary.
The boys also elected candidates for district officers. They elected representative to the FFA Convention at Kansas City this year is Jerry Bush. A group of the boys also volunteered to get ads for their FFA calendar.
A District FFA meeting was held here Friday to elect district officers.

Workshop in reading held here Wednesday

By Elaine Mitchell
Miss Ann Rutherford held a two-hour workshop in reading for all elementary teachers and any others that were interested. The meeting was held in the elementary school library at 2 o'clock Wednesday. Grades one through five were dismissed at 2 o'clock so the teachers could attend this meeting.
Miss Rutherford is a co-worker of Dr. William Sheldon, the author of the elementary basic reading series. Miss Rutherford is representing Allyn and Bacon, Inc.

BAND GOES TO FAIR

The band left from the band hall Monday morning at 8 o'clock, going to Lubbock to march in the big fair parade. After marching in the parade the band went to the fair.

Roving Reporter

By the Staff
We are certainly proud of our 8th grade team this year. Last Tuesday they won the game with Lamesa by a score of 44 to 0. Although two of the Lamesa boys were hurt, none of them were seriously injured.

Junior High turned out at 2:30 for the 7th and 8th grade games with Lamesa. The impressive score for the 7th grade was 46 to 0 in our favor. Several touchdowns were made by Birch Lobban, Ronnie Mayberry and Ruben Solla. The cheerleaders did a wonderful job of cheering our boys to victory, along with the student body yelling also.

Tuesday, the Junior High cheerleaders had their picture taken by Charlie Didway. The girls wore gold puffed sleeved blouses, black corduroy weskits, black skirts and black tights with gold bobby socks. They looked very nice.

School was turned out Monday at 2:30 for the Panhandle South Plains Fair in Lubbock. The band went up that morning and marched in the parade. Everyone came home with empty pockets and dinky prizes.

The 7th and 8th grades have started a teen-age book club. The paperback books cost 25 and 35 cents each.

Antonio Beralis moved to Post last week from Close City. She lived here several weeks when she was in the 4th grade. She is an attractive and smart girl. We are very glad to have her.

Though everyone missed and was sorry that Mrs. Baxter was absent Wednesday and Thursday, I'm sure everyone enjoyed Mrs. Hagood, her substitute.

Everyone was sure sorry to see Carolyn Jackson leave Mrs. Wristen's home room. She is moving to Las Cruces, N. M. Sorry you're leaving, Carolyn.

Dwayne McWhirt, Wesley Williams and Bobby Dean have been working on the bulletin board for Mrs. Wristen about the "Water Supply for Post". Sure looks nice, boys.

We got our new math workbooks this week. Looks like fun, eh.

Math students studying equations, overlapping triangles, fractions

By Martha Goode and Gloria Peoples
Mr. Pollard's Algebra I students are learning to solve equations. Some of the students are having trouble with them, but they are really very easy. His Algebra II students are starting to factor.
In plane geometry, Mr. Tittle has started teaching overlapping triangles. His solid geometry students have just completed the first chapter. Jimmy Minor seems to have learned a lot from the first chapter because he usually takes the whole board to write one problem. The class will next try to tackle the problems concerning prisms, polyhedrons, and cylinders.
In General Math, Mr. Baxter is teaching (or trying to teach) the

freshmen about fractions, but as everyone knows the freshmen take a while in learning.
Most of the students are doing well in mathematics now, although the first three weeks were rather difficult. Several of the students' parents received notes from school on their failing grades. Since these notes were sent out we feel that the students' grades will improve.

Jackey Fluit is fresh president

Jackey Fluit has been elected president of the freshman class of 1960-61.
The election of officers was Sept. 26 at a meeting directed by Mr. Koening, one of the class sponsors.
Others elected by the freshmen were the following:
Richard Hart, vice president; Linda McMahon, secretary; Margie Harrison, treasurer; Carol Dee Hodges, reporter; Susie Jo Schmidt, Student Council representative; Mrs. J. W. McMahon and Mrs. H. W. Schmidt, room mothers; Mr. Koening and Mr. St. John, sponsors.

Spanish Club members go on picnic Saturday

By Patsy Thompson
The Spanish Club went on a picnic from 4 until 6 o'clock Saturday afternoon at Cooper Canyon. Jan Herring, Chris Cornish, Everett Smithey and Jerry Nutt presented a drama, "Va a Llover," which translated means "is it going to rain?"
The group also played a few games planned by a committee headed by Pat Odum.

STUDENT TYPING

If any teacher has some typing they would like for the second year typing students to do, please get it to them not later than Tuesday at the third period.

Equipment, tools arrive for shop

By Ginny Young
All the woodwork equipment and tools have arrived and are in working order. Everyone is invited to visit the shop now that it's completed.
The students have selected their projects and have their materials together. Some of the projects include making equipment for the shop. By the end of this week some of the smaller projects will be completed.
If any of you have a chance to stop in and see the progress being made on these projects, do so. It really is fascinating to watch a small block of wood become a bowl or a long square beam become a table or chair leg—and in an unbelievably short time.

Room mothers named by PHS senior class

By Danny Jones
The senior class had their class meeting Monday the 26th and set the class dues. Our room mothers are Mrs. Chester Jones and Mrs. Thurman Francis. During this year the senior class is planning to have a hayride. The room mothers and their assistants will help.
Our class dues were set at a dollar semester. The dues are for our class parties.

Writer of letter on pep squad thanked

Concerning the letter in the paper about a pep squad organization:
As a project of the Student Council and the administration, a pep squad was organized on Wednesday before the paper came out on Thursday. That was Tuesday, Sept. 14.
The school is very proud of this definite place in school.
Post had a pep squad for three years ago and a cheering section was to take its place. A cheering section was never successful.
We would like to thank the person who wrote the letter for his interest in our school and its organizations.

Mrs. Lee Davis to review book

Mrs. Lee Davis will review a book for the junior and senior English classes sometime next week.
Mrs. King and Mrs. Ryder must be comparing notes, because sophomore and junior English classes are giving book reports now. However, senior classes are still studying Elizabethan characters.

NEW BOOKS RECEIVED

By Billie Hill
We have two new books in the Commercial Department this week. The titles are "Standard Handbook for Secretaries" and "Practical English and Short-hand Dictionary".

COLLEGE BOYS HOME

Horace Smith, Donald York and Curtis Didway, who are attending San Angelo College, returned the weekend with home-lets.

Have You Heard??

We heard Kenneth Williams stepped out on Carolyn Martin Saturday night. How about it, Kenneth?
Sharon Moore finally made that 196 in algebra. Congratulations, Sharon!
What's this about Linda McMahon and Diane Maxey having pickled kool-aid? Sounds mighty tasty, girls!
Margie Harrison, do you make it a habit of breaking the teacher's clock? Mr. Baxter should love you!
We all hope Pat Cornell is doing better now. (Don't we "girls"?)
Wonder why everyone has a headache when they come out of bookkeeping? Just some of that "posting"!
Wendell, did you have to fight for your jacket? Or did you get that black eye in a football game?
Has everyone seen the Antelope painted in the center of the floor of our new gym? Real classy!
Why is everyone saying "Heil Hitler" in fourth period Civics? What about it, Comrade?
Sheila, we heard that your cookies were quiet appetizing for the third period speech class.
Too bad there won't be any more student buses going to games.
The way we hear it—there are a few girls who simply "aren't wanted" in Judy's. Would you know anything about it Shirley S., Margie H., Linda M., Diane M., Nancy B., Carol H., or Marilyn M.?
Girls be careful. Donnie doesn't know how to act when you try to sweep him off his feet!
We heard Gregory is head of the plane geometry class! They say you learn from repetition!
How was South Lake Saturday night, Stanna?
Like we always say Donna, it's a dog's world!
Martha, Patsy and Gayle have just turned 18. Boys watch out! They all hear wedding bells!
What did Janene, Sharon, and Janith do Saturday night while the boys were detained elsewhere?
Frankie, that show Saturday night was only make believe! Must you get so carried away with your

Post Antelopes

Vs.

Tulia Hornets

Friday Night
Oct. 7 - 8 P. M.

at
Tulia

Coach Vernard Alexander's high school Antelopes will journey to Tulia tomorrow night to meet another top Class AA grid power, the Tulia Hornets who sport a 4-1 record for the 1960 season to date.

Tulia is another new grid rivalry for the Antelopes for this season in which the Antelopes take on the hardest schedule in the school's football history. Tulia will be the last non-conference start for the locals before opening district play the following weekend with Stanton at Stanton.

Boost your Antelope squad which never quits trying and is working and playing hard to hit the victory trail. They merit all our support.

From the tiled entry to the beautiful gas-lit patio, graciousness is the keynote to this beautiful Blue Flame Home built by James Mason.

The exterior is of fashionable bark-finish brick with white trim and slate roof.

Entering this gorgeous home, you step into a tiled entry-way, past the large living room with brick planter box and into the spacious den-kitchen combination, highlighted by an array of beautiful, easy to use, dependable, and economical gas appliances.

Two ceramic tiled baths and three bedrooms, two of which are extremely roomy, complete the floor arrangement of the 1700 square foot plus home.

The home invites an easy, relaxed, happy atmosphere which is greatly enhanced by the year-round perfect indoor climate provided by the Arklo-Servel Gas Air Conditioner. All this and economy, too.

Inexpensive-to-operate Gas appliances make living in this elegant home amazingly economical. Here charm, efficiency and economy combine to promise the ultimate in gracious suburban home-life! But stop by and see for yourself during the open house at Post's new all-gas Blue Flame Home. The date: October 9. The hours: 2:00 p. m. to 7:30 p. m. on Sunday.

ENJOY COMPLETE INDOOR COMFORT
WITH ECONOMICAL GAS AIR CONDITIONING

Summer . . . Fall . . . Winter, or Spring . . . the weather's always perfect with wonderful GAS all-year air conditioning by ARKLO-SERVEL. This single, simple unit both cools AND heats with gas.

All new—and here today!

1961 MERCURY METEOR 800

MERCURY METEOR

600 and 800 series

Priced right in the heart of the low-price field

HIGHLIGHTS

Modern new size...trimmer, better proportioned, for easier handling and parking.

7 self-servicing features including chassis that is pre-lubricated for first 30,000 miles.

Even roomier than last year. More rear-seat shoulder room, hip room, and head room. More entrance room. Bigger trunk.

New Super-Economy engines. Up to 15% more gas mileage. Mercury's first "6" plus new V-8's that use regular gas. Up to 10% better pickup than last year's brilliant Mercury.

First low-price car with a fine-car ride. Exclusive Cushion-Link suspension!

1961 MERCURY METEOR 600

1961 MERCURY METEOR 600

1961 MERCURY PRICE COMPARISON CHART

PRICES START HUNDREDS LESS THAN LAST YEAR
Optional equipment and transportation cost far less, too!

1. MERCURY METEOR 600	Priced right in the middle of the low-price field with such cars as Chevrolet Bel Air and Plymouth Belvedere.
2. MERCURY METEOR 800	Priced with the top series in the low-price field with such cars as Chevrolet Impala and Plymouth Fury.
3. MERCURY MONTEREY	Finest, most luxurious of all 1961 Mercurys.

HERE IS A NEW AND BETTER LOW-PRICE CAR — WITH A 12-MONTH OR 12,000-MILE WARRANTY

You're looking at the newest car in the low-price field—the Mercury Meteor. But the resemblance to other low-price cars ends with the price.

COSTS LESS TO DRIVE! You save on upkeep. Your Mercury dealer is extending his warranty on all 1961 Mercurys to one full year or 12,000 miles, whichever comes first. See him for full information. He will be glad to show you a copy of his new warranty.

You save on gas. Mercury's new, wider choice of engines and transmissions lets you tailor your new Meteor to your kind of driving. Choose super economy, super power, or any combination in between. And just think of these 7 other savings:

A new pre-lubricated chassis lets you drive 30,000 miles before it needs another lubrication. A new-type oil filter lets you drive 4,000 miles between oil changes. Mufflers are aluminumized for more than double the life. Brakes are self-adjusting.

New zinc-coated body panels protect your car from rust two or three times as long. Spark plugs are self-cleaning, save gas. A special Super-Enamel finish never needs waxing.

LOOKS BETTER...AND IS! The styling and size are completely new. Trimmer, easier to garage, far more agile. You get a de luxe interior in every model at no extra cost.

FEELS LIKE MORE! Here's the first low-price car to provide a true "fine-car feel." Not just shock absorbers and springs for your riding comfort, but a unique new system of rubber cushioning called Cushion-Link suspension. It is exclusive on all Meteor 800's, Monterays, and Mercury station wagons. No more bumps from tar strips and other road-surface irregularities.

Don't miss the first showing! See your Mercury dealer now. Here, without question, is the newest and smartest buy in the low-price field.

Mr. and Mrs. Bud Schlehuber and Denise visited Mr. and Mrs. Jim Boren and children Thursday evening.

Mr. and Mrs. E. C. Franklin were in Tulsa Saturday.

Mr. and Mrs. E. C. Roper of Moran have been visiting in the home of their son and family, Mr. and Mrs. Buddy Roper, for the past week.

Mrs. Riley Miller and Jenny were in Lubbock Friday.

Mr. and Mrs. E. C. Pettigrew spent the weekend with their son and family, Mr. and Mrs. E. C. Pettigrew Jr. of Borger.

Mr. and Mrs. Ott Nance attended the Keeton Auction sale Monday.

VISIT FROM ANDREWS
Mr. and Mrs. Joe Bruner and sons of Andrews were weekend guests of his brother and family, Mr. and Mrs. Sam Bruner and

MERCURY OFFERS COMPLETELY NEW LINE

Mercury for 1961 offers a completely new line of cars, with two series that are priced squarely into competition in the low-price field. Fourteen models with a wide selection of engine and transmission options are offered, including the first six-cylinder engine in Mercury history. Pictured is the Meteor 600, four-door sedan.

Mercury for 1961 introduces two all new lines in Meteor 600, Meteor 800

Mercury for 1961, which went on display today at Storie Motor Co., substantially increases its coverage of the low-price field by introducing two all new lines—the Meteor 600 and the Meteor 800.

"The dramatically lower price of the new Mercury Meteor places it squarely into competition in the low-price field," it was announced by Ben D. Mills, Ford Motor Company vice president and general manager of the Lincoln-Mercury Division.

"We have completely re-styled and engineered our products to compete in the low-price volume market," Mills said. "We have shortened our cars by 4½ inches and made them 1½ inches narrower, yet we have retained Mercury's interior comfort, riding qualities and luxury styling."

The move down into the low-price field marks a wide departure from Mercury's traditional competition in the medium-price market. The Mercury line for 1961, which consists of 14 models, is identified as the Meteor 600 series, which is priced with the middle series in the low-price field, the Meteor 800 series, priced with the top series of the low-priced field, and the Monterey series, at the top of the line. In addition, there are four Commuter and Colony Park station wagons.

For the first time in its history Mercury will include a six-cylinder engine.

The trim, clean lines of its 1961 models testify to Mercury's continued success in attaining distinctive design. The front end features a sturdy grille with dual headlights which give the appearance of being suspended in the grille.

Two different roof styles are used for sedan models. The Meteor 600 series has a sloping rear glass. All other Mercury sedans and hardtops have a crisply-styled formal type roof with flat rear glass. Both roof designs incorporate a new moderate wrap-around windshield that eliminates the dog-leg protrusion into the front door opening, allowing more entrance room.

While the Mercury is shorter and narrower than 1960 models, there is more head room, shoulder room and hip room in the rear seats, plus additional trunk space.

Monday: Beef and vegetable stew, cabbage cole slaw, corn bread muffins, iced Graham crackers, fruit, one-half pint milk.

Tuesday: Chili beans with salt pork, mixed greens with turnips, onion rings, pickles, corn bread muffins, jello, one-half pint milk.

Wednesday: Fried chicken, gravy, buttered whole kernel corn, congealed salad, rolls, butter, piums one-half pint milk.

Thursday: Hamburger, green beans, lettuce, pickles, onions, potato chips, apple cobbler, one-half pint milk.

Friday: Chili and crackers, celery sticks, whole wheat bread and butter sandwich, canned peaches.

daughters. Mrs. Riley Miller and Jennifer and Mrs. Bud Schlehuber and Denise attended a bridge party at the home of Mrs. Doyle Newton of Fluvanna Thursday afternoon.

Barbara Boren was a weekend guest of her grandparents, Dr. and Mrs. Cockrell of Snyder, recently.

Mrs. Buddy Roper, Pam, Janie and Don, went to the Bar-O-Bar Ranch at Clairemont to Billy Joe Wallace's sixth birthday party Thursday.

Mr. and Mrs. H. Henderson of Amarillo visited Mr. and Mrs. George Duckworth Monday and Tuesday.

Mr. and Mrs. Ott Nance and Mr. and Mrs. Harry Wood were hosts for an outside supper Friday night. Guests were Mr. and Mrs. Haskell Lasater of Slaton and Joe Reed.

LAMESA VISITORS
Guests in the home of Mr. and Mrs. Bobby Terry Tuesday were Mrs. Jackie Kelly and children of Lamesa.
