

White River contract letting may come as Christmas gift

Site to be new location

of having the White River water pipeline construction contracts "ready for letting" if no delays develop before White River directors at Spur last night by a representative of the district's consulting engineering firm.

Nichols of the Fort Worth engineering firm of Freese and Nichols told directors that the dam site being moved a half-mile from the original site. The engineering studies show that the new dam can be much more economical than the original one. It was too porous to keep from flowing through it and the dam, causing considerable loss.

NR TO POST

The new dam site will be that closer to Post.

The step taken at this session by White River directors was signing of the water contracts on the district and the four cities of Post, Ralls, Crosby and Spur.

These contracts the cities to purchase a previously owned minimum of 50 million gallons of water a year at the rate of 30 cents per acre foot and 20 cents per acre foot of treated water.

Contract signing took approximately 40 minutes with Tomer, chairman of the White River directors, and Robert Work, secretary of the district.

Signing for the water district and the city secretaries for the four municipalities.

Signing was proceeded by unanimous adoption of a resolution by the White River directors authorizing the district to do such contracts.

SENT CITIES

Copy of the resolution and a copy of the water contract went to the member city.

Directors of the district entered through discussion of all the dams, and but "concerning the big water project still to be followed the final vote of the voters of the respective towns 10 days ago.

Directors of the engineering firm will be ahead and answer questions from directors representatives of the cities.

He explained that at the time crews are now in the completing additional core downstream from the dam which are necessary for final the dam. He said this would be completed this

for bringing the pipelines into these cities at the most advantageous points.

Nichols said his engineering firm "is working on plans for the water treatment plant right now."

He explained that the federal Housing and Home Finance Agency's engineering department will have to approve "all we've done" and "we are trying to obtain such approval as we go along so we won't have to go back at the end

and do something over to meet federal specifications."

The engineering representative said that the formal application to the water resources board for the state loan can't be made until final plans and specifications for the project are all completed as a set of these plans and specifications must accompany the application.

A tentative approval for the loan already has been made by the

state agency, it was pointed out.

Nichols also explained that plans for the project also must be approved by the state water board's engineering department. Since this would be the first such application ever made to these engineers Nichols said he didn't know exactly what to expect or how long a time would be needed to obtain necessary approval.

"We're in a position now to move right along on the White

River project," Nichols assured the directors.

He said his firm will need to get with the White River district's land committee as moving the dam site will mean that the shorelines of the lake will be changed and that this will mean some changes in land purchase requirements.

Principal makes challenging talk on Post schools

The schools of this community can become exactly the kind of schools you citizens want. T. C. Clark, new high school principal, told Rotarians at their Tuesday luncheon in the City Hall.

"If you're not interested and don't take part, don't blame others for your schools," Clark declared.

In a challenging talk on education, Clark said "good teachers are the most important factor for good schools." "We have some extremely capable people in our school system," he added.

"Ninety-five per cent of the kids are good kids today," Clark said. "It's the other five per cent that give the 95 per cent a black eye."

He said adults are inclined to give today's youth a "blanket condemnation" because "of the actions of a few."

"Kids today are as good as they ever were and I know they are a whole lot smarter," he added.

Education is the "biggest bargain" you can buy in Post today, Clark said.

He explained that instructional costs in the Post school district system are approximately \$180 a year per pupil or "just about \$1 a day."

Clark went ahead to point out that about two-thirds of this instructional cost is paid by oil, utilities and other outside interests, leaving Garza citizens only about \$52 a year to pay per student for instructional purposes.

Stolen automobile is recovered by police

A 1951 Chevrolet sedan stolen here Saturday night was recovered Monday and returned to its owner, C. W. McCarty of Knox City, the sheriff's department reports.

The car, stolen from its parking place in the northeast part of town was recovered on Avenue I, a few blocks north of Main Street.

To promote baseball, other activities

Foundation formed for youth recreation

The Garza County Youth Foundation was formed Monday night for the promotion of the summer baseball program and for "anything else" pertaining to youth recreation.

An executive committee appointed at a previous meeting included its appointment, named other members and announced plans to enlarge the size of the committee, whose purpose will be to direct youth recreation.

The original members of the executive committee are E. R. "Buster" Moreland, president; M.

L. Pierce, vice president, and L. W. Duncan, secretary.

Named to the committee Monday night were A. Lee Ward and Martin Nichols, who served this summer as presidents of the Little League and Babe Ruth League, respectively.

Other executive committeemen will include representatives from the city council, county commissioners' court, schools, ministerial alliance, Lions Club, Rotary Club, and other organizations.

Right now, the committee is working to obtain a part-time caretaker for the Little League and Babe Ruth League parks, to which water has been made available by the leagues and the City of Post.

The group has conferred with the city, county and the park board in regard to obtaining a part-time caretaker. Temporarily, a city employee is attending to the caretaking.

The newly-organized youth foundation is also proceeding with plans to request participation in the Garza County Community Chest, and has submitted a proposed budget.

Monday night's meeting was held in the Community Room at the First National Bank.

Bond forfeitures for failure to appear were called for in the cases of James Robert Johnson, charged with driving while intoxicated, and Fannie Daugherty, charged with illegal possession.

Cases continued until the next term of court Sept. 19 were: H. Bruce Bryan and G. V. Fulton, hunting quail from auto; Sam Skief, aggravated assault; Curtis Sheddick and Clarence Morgan, unlawful transportation, and Harry Huddin and Louis Harris, unlawful transportation.

The Flores woman was fined \$100 and costs; Garcia, \$50 and costs, sentenced to three days in jail and forbidden to obtain driver's license for six months; Wynn, license \$150 and costs; Bessie James, license \$150 and costs; Mitchell, \$150 and costs, and Champion, \$50 and costs.

BUDGET HEARING

A public hearing on the proposed budget of the Post Independent School District will be held Friday in the board room at the high school building. The proposed budget for the new school year is \$513,935.

A "Coke and record party" for all high school students after the football game with Ralls tomorrow night will inaugurate the fall season of the Garza County Youth Center.

Plans for the party were made Tuesday night at Teen Town by a group of parents attending a preliminary organizational meeting for the new school year.

A complete interior remodeling of the center is being completed this week, David Newby, president of the adult youth center organization, announced. The center is being repainted, curtains cleaned, etc.

Rev. Eugene Matthews, First Methodist Church pastor, volunteered to serve as acting youth director for the Friday night affair.

The youth directorship is now vacant and a new director will be employed as soon as a youth center board can be elected and officers named.

Dancing will be scheduled until midnight.

Six plead guilty to cut court term short

Six pleas of guilty and a number of continuances cut the August term of county court short Monday.

Forfeiture of bonds were ordered by Judge J. E. Parker in two of the cases.

Pleading guilty and the offenses with which they were charged were: Kathy Flores, carrying a pistol; Israel Garcia, driving while intoxicated; Hosie Wynn, unlawful possession of alcoholic beverages; Bessie James, illegal possession; Gaylon Mitchell, illegal possession; Edwardo Champion Jr., driving while intoxicated.

The Flores woman was fined \$100 and costs; Garcia, \$50 and costs, sentenced to three days in jail and forbidden to obtain driver's license for six months; Wynn, license \$150 and costs; Bessie James, license \$150 and costs; Mitchell, \$150 and costs, and Champion, \$50 and costs.

A 25-cent admission per student will be charged with the money going into the record and band fund for the center, as was the policy last year.

Newby named a nominating committee consisting of Mrs. Clint Herring, Mrs. Jim Cornish, and Mrs. Newby to nominate a new slate of directors.

A meeting of all parents interested in the youth center program has been called for 8 p. m. next Tuesday at the youth center to elect the new directors and plan the new year's activities.

A student slate of directors and officers will be selected as quickly as possible after the start of the new school term.

Plans for the activities of the center will be jointly worked out with the student and adult boards.

By JIM CORNISH

Two Post men are launching a new manufacturing operation here, which promises considerable for the future, all because one of the men couldn't purchase a suitable yard swing for his youngster.

The two are Ed Sawyers, proprietor of TV-Appliance Center, and his brother-in-law, Contractor Everett Darby, who recently moved to Post from Colorado.

Their product is "Bucko — the Swinging Horse."

They've formed a company, Dar-Saw Manufacturing. It's composed of the first syllable of each of their last names, Darby and Sawyers.

Bucko is the only horse of its kind now on the market. They have a design patent pending on it.

In case you want to take a look at Bucko, you'll find him in the front window of TV-Appliance Center. He's a horse swing which a youngster from 18 months on up can ride in perfect safety. Bucko comes with an all-steel stand, or can be purchased separately for rigging up on trees or clothesline. Bucko with the steel stand will retail for \$19.95. Without the stand Bucko will cost \$11.95.

Ed and Everett have been showing the horse to major companies and toy distributors for the past few weeks. They've already been assured of an order for 1,000 of the swings and a toy distributor who does business across seven states is dickering for the purchase of another 10,000 for the 1960 Christmas trade. The two developers of the horse swing are hopeful of several other major orders.

What does Bucko mean for Post? The answer of course can be only problematical at this time. But Sawyers and Darby have set up manufacturing operations in a local empty store building as a temporary location and are prepared to turn out 200 Buckos daily with a staff of eight to ten workers.

That's not a big payroll of course, but Bucko may produce much greater things for Post in the future. The firm which is going to purchase the first 1,000 is planning an intensive advertising program in Texas and other states to use Bucko as a premium. The advertising, Ed and Everett figure, should create a demand and bring them in more orders.

"We've been working on Bucko for the last four years," Ed told (See POSTINGS, page 8)

'Back to School' becomes reality

Doors at five schools opened this morning for approximately 1,300 students and 70 faculty members as the 1960-61 term got under way.

After attending classes today and Friday, students will not return to school until Tuesday because of Monday's Labor Day holiday.

Teachers and administrators have been busy since Monday in a three-day in-service training session, which ended at 3 p. m. yesterday.

Principal T. C. Clark said yesterday that 275 high school students were pre-registered last week for the new term. The total was swelled today by a number of high school students who did not get in for pre-registration.

In all five schools, the school day begins at 8:45 a. m., and for most students is over at 3:45 p. m. An exception is at the primary school, where first and second graders will be dismissed at 2:30 p. m. and third graders at 3 p. m. Classes at the elementary school—fourth and fifth graders—will be dismissed at 2:40 p. m., according to Principal Herman F. Rappelt.

The lunch hour for high school and junior high school students will be from 12:10 until 12:50. Principals Clark and Glenn Whittenberg have announced.

At the elementary school, fourth graders will go to lunch at 11:50 and return at 12:25. Fifth graders will go at 11:55 and return at 12:30.

Noel Clemmons, principal at the primary school, announced the following lunch period schedule: First grade, 10:55 to 11:30; second grade, 11:15 to 11:45; and third grade, 11:30 to 12.

Lounge is burglarized; coin machines looted

Officers this week are investigating the Monday night burglary of Valder Lounge, in the northeast part of town.

Sheriff Carl Rains said an undetermined amount of money was taken from coin machines in the lounge by burglars who entered the place through a bathroom window.

Missionary home in Grassland reports

Castro losing much support

Feelings of the Cuban people for Fidel Castro are beginning to change, Mrs. Howard Conrad, member of an American missionary family that has been brought out of that island country because of tensions, said in an interview yesterday afternoon at the home of her parents, Mr. and Mrs. T. J. Murray of Grassland.

Many of the Cuban people now think Castro is mentally unbalanced, Mrs. Conrad said.

Rev. and Mrs. Conrad, who are Church of the Nazarene missionaries, and their two children, David, 4, and Pamela, 2, left Cuba last month and were returned to this country by their church because of the present situation and anti-American feeling in Cuba.

Mrs. Conrad explained that because of the anti-American feelings being whipped up by the Castro government it was hard to be effective in their work.

The family had been in Cuba two years and three months on their first missionary assignment. They will visit with their parents in Grassland until about the first of the year when the church will determine if they can safely return to Cuba and resume their work.

Pointing out that it is now a criminal offense in Cuba to criticize its government, Mrs. Conrad (See CASTRO, page 8)

First load of maize brings owner, cutter \$25 gift certificates

The first maize from the 1960 crop reported to The Dispatch was received by the Caprock Grain Co. last Thursday from Noel White.

Three loads of the maize, which was cut by Dillard Morris, were hauled to the elevator.

Both White and Morris were presented \$25 gift certificates as premiums by Mike Mitchell, co-owner of the elevator.

County Agent Lewis C. Herron said today there is about 58,000 acres of maize in the county.

Rural areas of Garza County

Take Civil Defense steps

Groundwork for the setting up of a Rural Civil Defense program in Garza County was laid last Thursday night at a meeting in the district courtroom.

Representatives from the various communities of the county met, named an advisory committee, made preliminary plans for a mass organizational meeting and heard a talk by Mrs. Ruth Young of Post, who is an officer of the Garza County Civil Defense organization formed a few years ago.

County Judge J. E. Parker, who is county chairman, said a date will be set soon for the mass meeting. A master plan for setting up the organization is to be sent the county by Civil Defense headquarters, and speakers well trained in the work will be heard at the meeting, Judge Parker said.

Meanwhile, Mrs. Leto Smith, county home demonstration agent, will begin preliminary organization of rural women's groups for training in the various phases of rural civil defense and for discussion meetings.

Judge Parker said all service clubs and other organizations in the county will be urged to bring up the project at their meetings and to assist in the organization.

The following community representatives have been named to the advisory committee:

F. W. Callaway, Southland; Neil Crosby, Hackberry; Carl Payton, Pleasant Valley; A. C. Cash, Cross City; Alvin Young, Graham; Dan Robison, Justinburg; Ray Hodges, Crossroads; Hoyt Bland, Barnum Springs; Bill Carlisle, Grassland; Donald McClendon, Verbena; Roy Self, Calgary; Ruth Young, Post.

Thursday, Sept. 1, 1960

This needs to be stopped NOW!

It has been called to our attention by a number of people that the triangular section forming the entrance driveway at Terrace Cemetery has become a popular place for beer drinkers.

It is a condition which, out of all respect to common decency, should be corrected at once.

The area is misused mainly on Sundays, when beer sales are made for off-premise consumption only, and at which time carloads of beer drinkers turn onto the area off U. S. Highway 380 to drink their beer. There has been at least one instance in which peace officers were called to break up a brawl there. The fact that the spot is

right at the entrance to a cemetery apparently made no difference to the offenders.

It raises the question, "Is nothing sacred to some people?"

This newspaper is of the opinion that plainly-worded "keep off" signs should be erected at the spot, and that anyone apprehended using the driveway area for anything except that for which it is intended be dealt with in accordance with the law.

The cemetery driveway entrances and their area were constructed for a purpose and that purpose most certainly was not for the drinking of beer on Sundays—or any other day.—CD.

Bicycle safety important, too

A reader has suggested to us—and wisely, too—that in urging traffic safety measures in the Post school zones we say something about bicycle riders. The reader points out that more students are riding to and from school than ever before and that while bike riding is one of the safest participant activities in the nation, student cyclists are failing to protect themselves from mishaps as fully as possible through the careful observance of simple traffic laws.

Considering that more than 227 million bike owners enjoy cycling, and a total of 55 million riders are in the nation, bike riding is one of the safest participant activities in America.

But, according to a recent survey by the 4-H Club, 32.3 per cent of the low bicycle accident rate figures are directly attributable to the cyclist's failure to observe traffic laws. About 31.6 per cent of the mishaps have been judged as the rider's failure to control the bike properly. Only 1.4 per cent of the accidents are due to mechanical failure of the bike, and 14.7 per cent are the motorists' responsibility.

Children should be taught that the bike is a vehicle. As such, it is subject to all vehicle traffic laws. Riders drive with traffic, on the right-hand side of the road. They are expected to obey all stop, caution and warning signs and give the pedestrian the right-of-way. Each bike should include, as standard equipment, lights, reflectors and warning devices as required by local law, the Bicycle Institute of America has pointed out.

As an additional safeguard all bikes should be inspected and repaired as necessary prior to being used for school transportation.

The inspection should cover lights and signaling equipment, pedals and brakes, tires and wheel alignment, seat post and steering assembly.

Police officials have pointed out that a well maintained bike is a necessity if it is to be dependable as school transportation, and emphasize that cyclists who learn and observe the necessary traffic regulations almost invariably make superior automobile drivers in shorter-than-average periods of time.—CD.

September heralds new season

The month of September, in which summer ends and fall begins, not only is a parader of nature's beauties, but also brings about new activities for young and old alike.

September is a time when fall business gets started after a long vacation period. The first of the hunting season arrives and energetic hunters will be straining at the barriers to get out into the open and get their bag limit of doves.

The start of school marks the beginning of a new nine-month schedule for most homes. Women's clubs that have been inactive during the

summer will resume their regular meetings as new club years begin.

Farmers will begin gathering and county fairs will get busy handling the 1960 cotton crop, and golden grain will begin arriving at the elevators.

Football enters the picture, with five local high school and junior high teams playing on Tuesday, Thursday and Friday nights of each week.

Television programming will get back in the groove after a summer of re-runs.

Ah, September, what beauty and what changes you bring!—CD.

Simpler school administration?

During the current rage over the advisability of federal aid in education there has been overlooked its potential for simplifying the problems of administering schools.

Taking this potential into consideration, however, has been Robert E. Wilson, associate professor of Education Administration at Temple University in Philadelphia.

Professor Wilson says assuming that the federal government shares the major burden of financing schools in the future, and also shares the concomitant responsibility for operating of schools, by the year A. D. 2000 a superintendent of schools could handle these common administrative problems in the following simplified manner:

Parent: I want my child's teacher changed.

Superintendent: I only work here; see your senator.

Citizen: My school taxes are too high.

Superintendent: See your congressman; finance bills originate in the lower house.

Teacher: Our arithmetic books are worn out; can we order new ones?

Superintendent: This is election year; no additional expenses this year.

Citizen: Kids are cutting across my lawn on the way home from school and have damaged my petunias.

Superintendent: Don't bother me. File your list of damages with the United States regional court of claims.

Parent New to the District: What school will my child attend?

Superintendent: The U. S. office of education does not distribute its building and pupil allocation until August.

Janitor: I want a raise.

Superintendent: See your congressman; finance bills originate in the lower house.

High School Student: But why can't we have a pep rally?

Superintendent: This is an election year; White House directive dated Jan. 4 forbids all rallies that might detract from nominating convention rallies.

Parent: How many days do we get for Christmas this year?

Superintendent: Maybe I don't have to answer that question; did you vote in the last national election?

Parent: That teacher kept my child after school just for throwing a paper wad!

Superintendent: Detention for paper-wad throwing upheld by United States Supreme Court, *Althouse vs. Union School District, Ga., 11 T 381, 1978.*

Principal: Why didn't I receive my annual supply of writing paper for the third grade?

Superintendent: Congressional budget committee increased military appropriation this year; education budget reduced.

Parent: How do I get the bus to stop in front of my house?

Superintendent: See senate subcommittee on intrastate communications and transportation.

Parent: My child can't eat that lousy food served in the cafeteria.

Superintendent: Why tell me? Write the secretary of agriculture.

Parent: My little Everett is so smart for his age; why can't you make an exception for him to start first grade even if he won't be six until December?

Superintendent: Is he Republican or Democrat?

THURSDAY to THURSDAY

By CHARLES DIDWAY

OPEN HOUSE AT the new Post High School building Sunday afternoon was a big success, according to R. T. Smith, superintendent of schools, and the members of the board of trustees. Several hundred people, including a number from out of town, visited the new high school building and gymnasium.

All the department heads at the school were proud of their respective departments, but I think one of the proudest was Mrs. Lillie McRee, librarian. The energetic Mrs. McRee, who lives and talks "library" the year around, was getting a lot of enjoyment showing the visitors through the library, which indeed is a credit to the over-all fine school building.

ONLY A LITTLE more than 12 hours after the last open house visitor had left the building, the 1960-61 term opened with a three-day in-service training period for teachers, and this morning the students flocked in. It is the first year in a long time that the freshmen are at equal footing with the upper classmen as far as being familiar with their surroundings are concerned.

While on the subject of schools, I'd like to call attention to the fact that the Post Antelope football squad isn't the only group that has been engaged in pre-season preparedness drills. Director Bob Meisch's Antelope Band also has been doing some preparedness work and many proud parents and other patrons are as eagerly looking forward to seeing the band in action for the first time as they are to seeing the football team take the field for the first time.

MY FRIEND UP the street says if half of your wishes came true, your troubles would probably double.

Then there was the speaker—one after my own heart—who said, "My job is to talk to you, yours, as I understand it, is to listen. If you finish before I do, just hold up your hand."

ONE OF THE most useless forms of vandalism going on here—and about which nothing much has ever been said—is the twisting around of street sign standards in such a way that the signs read just the opposite of what they should. I've seen a number of the signs twisted around in that manner, where, for instance, you'll be driving west on one of the numbered streets, but the sign indicates you're on one of the lettered avenues. If the way I put it is confusing, there is one consolation—it probably isn't half as confusing as the twisted-around street markers must be to some out-of-towner trying to find a street address.

Some folks have been wondering what kind of telephone numbers we'll have in Post after the new dial system goes into operation a few months hence. District Manager Wayne King told me a few weeks ago that the prefixes, such as Muhawk, Gladstone, Gypsy, etc., are being done away with and that the new system calls for three numbers as a prefix—followed by four numbers which will constitute the telephone number itself.

DIALING THE THREE prefix numbers will be the same as dialing the prefix letters under the system already widely in use in dial telephone operations. For instance, if Post's three prefix numbers were "423", dialing them when calling a number would be equivalent to dialing a letter prefix, such as "Gypsy."

That probably sounds as confusing as my explanation of the twisted-around street signs, but there'll be a clarification in plenty of time before the new dial system goes into operation.

QUARTER HORSES that helped make the recent Post show the most successful ever held continue to win honors elsewhere. Dandy Day, which was in the show here Aug. 13, won grand champion stallion honors at the registered Quarter Horse Show held Saturday in Roby. The four-year-old Dandy Day is owned by J. P. Espy of Fort Davis. The reserve champion mare at Roby was Tidy Lu, a two-year-old shown by H. L. Thornton Jr. of Clyde. Tidy Lu also appeared in the Post show.

What our contemporaries are saying

It is impossible for the business of sin to go into bankruptcy because it is a cooperative with each customer owning a share of the stock.—Douglas Meador in *Matador Tribune*.

Heard this week on the street: A rain right now would mean 20,000 bales of cotton and 50,000 tons of maize to Lynn County.—Frank Hill in *The Lynn County News*.

The weed situation is getting out of hand in our end of town. Alleys look like jungle trails in a Tarzan movie. Not far from there, Quincy Hames killed that three and a half foot rattlesnake between the homes of Joe Parks and Stanley Nixon last Friday. Keeping this in mind,

we were warily picking our way through the undergrowth to toss some refuse in the trash can Monday. Suddenly, a jackrabbit jumped up right in front of us and raced away. By George, the state may well proclaim Crosbyton a wildlife refuge if some of us don't get busy with a hoe.—Pat Bennett in *The Crosbyton Review*.

Sir Arthur Conan Doyle used to tell how he sent a telegram to each of 12 friends, all men of great virtue and reputation and of considerable position in society. The message was worded, "Fly at once, all is discovered." Within 24 hours, the story goes, all 12 had left the country.—Don Bynum in *The Brownfield News*.

DALLAS MAN TO SPEAK
 SPUR—John McKee of Dallas will be principal speaker tonight at the Spur Rotary Club's annual Welcome Teachers program. McKee is regional civic and governmental affairs manager for Ford Motor Co.

ATTENDS CONVENTION
 NEW HOME — Mrs. Wilmer Smith of New Home, president of the Texas Home Demonstration Association, is in Madison, Wisc., attending the national Home Demonstration meeting Aug. 28-Sept. 1.

FIRST BALE PREMIUM
 SPUR—A total of \$345.50 in premiums had been donated here up to last Friday for the first bale of cotton ginned from the 1960 crop. The Spur Chamber of Commerce is spearheading the first bale premium project.

MUSIC ADDITION
 PLAINVIEW — Paul G. Newton, St. Petersburg, Fla., has been added to the music department at Wayland Baptist College because of the increasing demand from students for music, according to President A. Hope Owen. This is

Newton's second appointment to the Wayland faculty as he taught from 1956-58 before resigning to do doctoral work at North Texas State College.
 One million matches can be produced from one tree.

TAHOCA WATER USE
 TAHOCA — Tahoka has been using from 800,000 to 1,000,000 gallons of water daily during the current spell of hot, dry weather, Pat Hines, city water superintendent, reports. The city's wells are said to be holding up fairly well, and

there has been no water shortage so far.

Curriculum here is enriched by teacher program

The first three days of this week, the teachers of the Post Public Schools enriched their curriculum in secondary guidance and elementary arithmetic through an in-service education program.

Attendance at the two workshops was nearly 100 per cent on the part of the teachers, according to James West, curriculum coordinator.

High school and junior high teachers were orientated by Dr. Bertie Fallon of Texas Tech as to their responsibilities as classroom teachers in guiding students to better educational opportunities.

Points brought out by Dr. Fallon included that students have to be prepared for different positions in the adult world, and that students themselves are different in their abilities, interests and personality patterns.

In the closing phases, the teachers divided into groups to evaluate the guidance service in the Post schools.

In enriching the arithmetic curriculum, teachers were shown ways of using teaching materials for a more effective program by Dr. Olive Wheeler of Texas Tech. The teachers, after seeing demonstrations, constructed their own teaching devices to use in their classrooms.

It's the Law in Texas...

NO WILL? WHO INHERITS PROPERTY?

What will happen if you should die without executing a legal and proper will? Who will inherit your property? Your husband, wife, mother, father, children, your wife's relatives? The best way you can say who will have it is to provide a will which will protect your rightful beneficiaries and dispose of your property in accordance with your wishes.

When a deceased has no will, or dies "intestate" as the law calls it, the property of that person is distributed according to a detailed formula fixed by law. In some cases this may be the way you yourself would divide it—but in many cases it is not.

The provisions of the law concerning the distribution of the property of a person who dies without a will are rather complicated, and all of the possibilities cannot be covered by a general statement.

There are different rules for real estate and for personal property, for community property and for separate property, for homestead property, and for all of the many possible combinations of surviving relatives. Each situation must be carefully studied to determine the correct distribution of the property.

For example, here is a general idea of how the community property which you and your spouse have accumulated will be divided if you do not make a will prior to your death.

If your husband or wife survives and there are no children, the surviving spouse receives all of the property.

If, in addition, there are surviving children or descendants of deceased children, they would divide one-half of the property, while the surviving spouse would receive the other one-half.

Of course, grandchildren do not share in the estate unless their parent who would inherit is deceased. And when descendants of previously deceased children do inherit, they receive only the portion that the child would have received, regardless of the number of such descendants.

An odd note, perhaps, is that the surviving spouse already owns one-half of the community estate prior to your death, and the law adds nothing to this share where there are children surviving.

When there are only children and their descendants surviving, they divide the entire community estate between them.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Slaton sets study on water needs

SLATON—A survey of present and future water needs and the cost of Canadian River water to local customers as compared with cost of water if an adequate supply is located in the Slaton area is planned by the City of Slaton.

A representative of a Lubbock engineering firm, Parkhill, Smith & Cooper, has been asked by the city commission to prepare a contract for the proposed survey.

POWER

"Isn't it wonderful, what man can do?" But when looking at man's work, we often overlook the Hand of God. Man harnessed the power in this great dam, but God created it. Long before man discovered the turbine or the electric motor, God placed the power at man's disposal.

God is the source of every one of man's inventive and ingenious undertakings. He gives us the natural resources and the intelligence to use them. And He wants us to use them constructively.

Our Christian faith teaches us of God's power and the vastness of its scope. It teaches us the right use of these blessings, so that life may be enriched by them. Go to church and learn God's plan of love for us and our fellowman. It will mean a better world for all of us.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Smith rites are held at Tahoka

Funeral services for Mrs. G. K. Smith, 77, who was married in 1922 to George K. Smith June 12, 1922, were conducted at 2:30 p. m. Friday in the Tahoka First Baptist Church. Interment was in Tahoka Cemetery.

Mrs. Smith died Aug. 24 in a convalescent home in Lubbock. She had been critically ill for three months.

She was born in Belton and moved to Lynn County in 1903 from Bell County.

She is survived by a daughter, Mrs. Belton Hale of Portales, N. M.; a brother, R. A. Carter of Amarillo and three grandsons.

NEW SPUR MINISTER
 SPUR—Vernon Williams of Stratford has assumed his new duties as minister of the Spur Church of Christ. He succeeds Robert Bankhead as minister.

'The Mountain Road' is gripping story of Japs' invasion of China

Producer William Goetz, maker of "Sayonara" and of "Song Without End," the story of Franz Liszt, will soon be represented at the Tower Theatre here by the new James Stewart drama, "The Mountain Road", which shows Sunday, Monday and Tuesday.

The new Goetz production for Columbia Pictures co-stars lovely Chinese actress Lisa Lu, Glenn Corbett and Henry (Harry) Morgan.

Stewart plays an Army major who commands an eight-man demolition team charged with blowing up bridges, roads and villages in the path of the oncoming Japanese in China during World War II. His task is enormously complicated by the desperate refugees fleeing from the invaders, by deserters from the Chinese Army who prey on everyone, and by the panic and indecision that is everywhere.

Convinced that his is a key delaying action, vital to the larger war effort, Stewart proceeds with his lonely task, stripping all emotion from his heart and all physical obstacles from his path.

He blows a vital bridge, scorches the earth and even, in a moment of fury blasts the innocent inhabitants of a village that contains Chinese Army deserters who have killed some of his men.

It remains for Miss Lu to teach him the one lesson he hasn't learned: compassion for the unfortunate on "The Mountain Road."

Appreciation dinner at Slaton Sept. 12 to be unique affair

SLATON — A world-wide "first" may be claimed for this year's annual Farmer-Merchant Appreciation Dinner.

The dinner, sponsored by the Slaton Chamber of Commerce, will be billed as the world's first "drive-in banquet."

The banquet will be held on the high school football field with arrangements made for cars to be driven onto the field and for tables to be set up between the rows of automobiles.

There will be a raised speakers' stand and a clearing in the "car jungle" for fellowship and serving.

The banquet date is tentatively set for Sept. 12, with Sept. 19 designated as an alternate date in case of postponement.

IN TEXAS...

You pay 90¢ tax on 10 gallons of gasoline

Everywhere in Texas, car owners pay 90¢ tax on every 10 gallons of gasoline they buy.

Does a tax this high—on a basic commodity like gasoline—really make sense? Gasoline taxes across the nation amount to a 50% sales tax—and that's five times as high as the tax rate on luxuries like diamonds and mink coats.

How did gasoline taxes get so high? Well, since World War II, there have been three increases in the federal gasoline tax alone. This brought the Federal tax to 4 cents a gallon, in addition to the State tax of 5 cents a gallon.

Looking at it another way, in the last ten years gasoline taxes have skyrocketed 51%—yet the price of gasoline itself has risen only 5.5% during the same period.

\$78 a year for gasoline taxes! Gallon by gallon, these taxes add up to a lot of money. Each year the average motor vehicle owner in this state pays \$78 for gasoline taxes alone. That's just a few dollars less than the average week's pay for most people!

Your gasoline dealer—who must collect these taxes from you—feels that gasoline taxes are much too high. More and more, thinking people are coming to agree. What do you think?

HIGHWAYS AND GASOLINE TAXES

Your gasoline retailer, naturally, favors construction of the roads that the motoring public needs. He believes in fair and reasonable taxation for this purpose but feels that taxes on gasoline have now reached unreasonably high levels. He also believes that all special taxes on the motorist should be used only for highway purposes. Yet last year, out of every automobile tax dollar collected by the Federal Government from highway users, more than 40 cents went for non-highway purposes. If these automotive tax revenues were dedicated for highway purposes, there would be no need for the latest increase in the federal gasoline tax.

Presented in the public interest by the Gasoline Tax Education Committee 575 Lexington Avenue New York, New York

The gasoline you buy... is taxed too HIGH!
 Your Gasoline Dealer

White River--

(Continued from page 1)
said that all information is now ready for proceeding with the securing of pipeline easements.

He promised White River directors his firm "will work with all the diligence we can" to move the project along rapidly.

The water treatment plant will remain on its original site, he added.

Earlier, Ramsom Galloway of Lubbock, representing the White River district's fiscal agents, told directors that before the \$4,000,000 in federal and state loans would be turned over to the district contract letting would be required to assure that the entire project—land purchase, pipeline easements, dam and water treatment plant construction, and water pipeline construction—can be completed within the \$4,000,000 figure.

FEASIBILITY QUESTION

Nichols, representing the engineering firm, was asked as to the "economic feasibility" of the big water project coming within the \$4,000,000 total.

He replied that it "is going to be nip and tuck" but that "in estimating construction costs originally we tried to foresee the cost rises which could be expected in the next several years."

"We feel it will work out okay," he declared.

Nichols went on to explain that the cost of dam construction in the next six to eight months period probably will be bid at a lower figure than would have been possible in the last two or three years because business now is very slack in this construction field and the bidding should be that much more competitive.

Another favorable factor, he reported, is that Texas plants making the type of pipe which will be required for the water pipelines now have very few orders and that most of these plants are now either shut down or are on short shift because of lack of orders.

TELLS NEXT STEP

Speaking for the fiscal agents, Galloway said the "next step" in obtaining the \$4,000,000 in loan money for construction is submitting the formal application to the state water development board. This, as was pointed out, can't be done until final plans and specifications for the big project, are completed by the engineers for submission with the formal application.

In answer to a question, it was pointed out that the new White River municipal water district property tax will be levied for 1961 and will be due in October, 1961.

Marvin McLaughlin, Ralls banker who is chairman of the White River district's land committee, said no contact has been made with the three property owners involved in the land needed for the dam site in the last year as negotiations could not progress until the loan money is obtained.

McLaughlin also reported a very hopeful note in the financial picture for the project.

OIL COMPANY USE

He said he had been recently called by the vice president of an oil company operating in the Post area concerning the purchase of water for water flooding purposes here.

McLaughlin said he was told that "we'll be ready to buy your water for water flooding by the time the dam is built."

Sale of surplus water will help reduce the property taxes levied by the district as the tax will be needed only until the project can stand on its own feet financially from water sales.

Mayor Powell Shytles is Post's member of the land purchase committee of the district. Besides McLaughlin and Shytles, the other members of the committee are Works of Crosbyton and E. B. Blumberg of Spur.

At the start of the meeting Dr. Dale Rhoades of Crosbyton, chairman of the district's publicity committee, praised the publishers of the newspapers in the four member cities for the "fine cooperation" given by the papers in the recent White River water contract elections.

RECREATION PLAN

In a lake recreational development, Dr. A. C. Surman, one of Post's three directors, proposed to the board that citizens of the four member cities will be a priority over all others in the leasing of lake-front lots.

Several members expressed their approval of such a plan. Numerous requests for such leases are being held on file by the recreational committee of the district, but plans for the recreational aspects of the project are still to be formalized and worked out.

As to the interest in the lake-front cottages, it was reported one man who won't retire for another 15 years already is interested in securing a site for his lake-front "retirement cottage."

Attending the White River meeting from Post were Boucher, Dr. Surman, Shytles, City Councilman Harold Lucas, City Supt. Henry Tate, City Secretary Tommie Woods, and Publisher Jim Cornish. White River directors will hold their next monthly session at Crosbyton, Sept. 15.

Term of District Court set Monday

The September term of 100th Judicial District Court will open at 10 a. m. Monday before District Judge Truett Smith with 10 jury cases on the docket.

The cases, as they appear on the docket, are as follows:

John T. Shepherd vs. Texas Employers' Insurance Association.

Mary L. Haire vs. W. M. Taylor Jr., independent executor of the estate of Myrtle H. Roy.

Herman Nunneley vs. Mid-Continent Casualty Co.

Guillermo Perez vs. Michael Jess Cornell and Lee W. Davis.

Some of the outstanding ropers and barrel racers of Texas and New Mexico will be in Post Saturday and Sunday, Sept. 24-25, for steer roping and branding, team roping and jackpot barrel racing at the Post Rodeo Grounds.

The two-day event is being produced by Mack Rosa and Bus Pennell of Post and Mack Winn of Ft. Sumner, N. M., who will furnish the roping stock.

The steer roping will be held Saturday only, beginning at 2 p. m. The team roping and jackpot barrel racing is set for Sunday afternoon, beginning at 2 o'clock.

Three monies will be paid in all matches and trophy buckles will be awarded each first place winner.

Entries for the various events will be accepted until noon Friday, Sept. 23, the producers said.

School announces library schedule

The schedule for the library in the new high school building has been announced by Principal T. C. Clark through Mrs. Lillie McRee, librarian.

The library will open at 8 a. m. every school day and close at 4:30 p. m. but will not be open during the noon hour.

Under this schedule, Mrs. McRee pointed out, the library will be open 45 minutes before school starts in the morning and 45 minutes after it is dismissed in the afternoon.

The library will continue operating as a city-school library, Mrs. McRee said. Adults checking out books will be required to pay a \$2 deposit fee. There is, of course, no charge for students for library use.

Plans for county fair progressing

Plans for the annual Garza County Fair Sept. 17 continue to progress, members of the Post Lions Club, sponsoring organization, announce.

R. G. Wilkerson, the club's fair chairman, said one and a half heaves have been donated for the barbecue and that one and a half more still are needed.

Much of the fair's booth space already has been assigned, according to L. W. Duncan, who is in charge of this department.

Dr. John E. Carter is the club's director for the fair.

Former resident dies in California home

Mrs. Martha Myrtle Womack, 65, a former resident of the Post vicinity, died Aug. 25 in her home in Palo Alto, Calif., from an apparent heart attack.

She was the mother of Mrs. Carl Jones, of Route 2, Post, and of James C. Womack of Tahoka. She is also survived by another daughter, Mrs. Marie W. Reid of Palo Alto, and another son, Harold Womack.

Her husband was John F. Womack, who died before she moved to California 22 years ago.

Funeral services for Mrs. Womack were held at 2 p. m. Monday in Sunnyvale, Calif. Interment was in Alta Mesa Memorial Park.

REFLECTORS STOLEN

Woody Stewart of Dimmitt, formerly of Post, reported to the sheriff's office that both tailight reflectors were stolen from his automobile Saturday night while it was parked at the Post Bowling Center.

YOUTHS PICKED UP

Two Slaton boys, who officers said reportedly had been picking cars off the highway, were picked up by sheriff's officers Monday and released after being reprimanded. The youths were apprehended in their car on U. S. Hwy. 81.

WASHINGTON AND

'SMALL BUSINESS'

By C. WILSON HARDER

It is possible that due to this being an election year, Congress will not complete all the vital projects before adjourning. But there is no doubt, when a tax revision bill is considered, definite consideration will be given on this matter of taxation of cooperatives.

The House Ways and Means Committee, headed by Rep. Wilbur Mills, has already gathered ex-C. W. Harder, legislative testimony on matter.

Basically, if the loopholes in the income tax laws on cooperatives are not plugged, it appears that in due time much of the country's independent business will be forced into cooperative by tax law pressures the same as Kremlin edicts forced Russian business into state owned stores.

Testifying before the committee, George Burger, Washington vice president of the National Federation of Independent Business pointed out that on four different occasions over 90% of the nation's independent businessmen members voted in favor of closing the loopholes.

This is not an attack on simple pure farmer cooperatives which operate for cooperative marketing of farm crops.

But the laws on taxation of cooperatives are so loose that they have opened the gates for promoters to develop all kinds of business in manufacturing, wholesaling, and retailing.

In the fields of chemical, mining, oil production, jet fuel production, printing, food can-

© National Federation of Independent Business

ning, and others, in past ten years cooperatives have become a growing phenomena.

Under the laws as they now stand, a private corporation, wishing to lay aside profits for expansion first has to pay out 32% for income taxes.

But an enterprise qualifying under the present loose law as a cooperative theoretically pays out its profits in the form of patronage dividends.

Theoretically, those who receive the patronage dividends, or refunds, as they are called in cooperative circles, pays an income tax on them.

But, a cooperative can hold these dividends, or refunds, in the business and by giving the patrons certificates, which are tantamount to stock, use the money to finance expansion plans.

In other instances, it has been worked out so that an investor in a cooperative manufacturing venture receives his returns in the form of extra production signed to agents for resale.

The investor then receives on this production his patronage refunds in the same manner as if he had actually used the goods himself, thus giving him a much higher return on his investment than any private company could possibly pay.

There seems to be no question that there is a legal right for cooperative enterprises. The question is should they be able to compete with private industry on a tax basis that makes competition with them all but impossible. At present as alert promoters have discovered, cooperatives are the biggest and the best business tax dodge existing.

Post couple's newest grandchildren twins

Mr. and Mrs. C. L. Cooper's 24th and 25th grandchildren are twin boys, Leo and Leon, born Aug. 17 to Mr. and Mrs. L. A. Enloe of Slaton.

Leo, weighing 8 lbs., 14 oz., was born at 5:55 p. m., and Leon, weighing 7 lbs., 9 1/2 oz., was born 14 minutes later at 6:09 p. m.

The boys are the only twins among the Coopers' 25 grandchildren. Leo and Leon have four brothers and sisters.

Mrs. Enloe is the former Miss Evelyn Cooper of Post.

The C. L. Coopers, who live at 801 South Avenue H, are longtime residents of Post.

County budget approval near

Garza County's proposed budget for 1961, on which a public hearing was held last Thursday, is scheduled to be approved by the county commissioners' court at its September session.

The proposed new budget is \$540,633.75, which is nearly \$35,000 under the previous budget of \$575,436.11.

The county tax rate has been set at the same as last year—85 cents on the \$100 valuation.

The new budget was based on an estimated county valuation of \$15,800,000, but since it was made, the actual valuation has been announced as \$15,553,000—a gain of approximately \$247,000 over last year's valuation.

The county's new tax roll figure is \$196,542.

said that Cuban people among whom they worked cautioned them several times against any public comments.

The Cuban people are beginning to turn back to the church and to Americans again, she said. Missionary work and education are the only hopes for Cuba in Mrs. Conrad's opinion because it is the ignorant people upon whom Castro has his strongest hold and are following him down the road to Communism.

Since Castro inaugurated his collective farming program 60 out of every hundred Cuban workers are now out of jobs. A counter revolution is expected.

Shortages of lard, rice, and beans have been developed in Cuba and the last two are the main dishes of the Cuban people.

The United States curtailment of sugar imports from Cuba has severely hurt the Cuban economy, but Mrs. Conrad says the Cuban people do not blame the U. S. for this action and many wonder how this country put up with Castro's indignities as long as it did.

Mrs. Conrad's viewpoint of Castro's international policies is that his government is trying to keep the Cuban people so completely confused with foreign developments that they won't see what Fidel is doing to them on the domestic front.

SERMON TOPIC TOLD

The Sunday morning services at the Assembly of God Church will be on the sermon topic, "The Only positive Way to Know That You are a Christian," as announced by the pastor, Rev. J. R. Brincefield. Text will be taken from Co. 4-6, "Because Ye are sons, God had sent forth the spirit of His son into your hearts crying, 'Abba, Father.'"

Antelopes to open season here Friday against Ralls

Jackrabbits one up on Post in opener series

ball, the king of high school sports, will make its 1960 debut at 8 o'clock Friday night at the Post Antelopes of District 4-A meet in their annual season opener.

The Antelopes and Jackrabbits opened their seasons against each other for the last four years, the Ralls eleven owning an average of two victories against one and one tie.

In 1956, Post eked out a 6-0 victory at Antelope Stadium, but the Jackrabbits evened it up in 1957 during two second-half touchdowns for a 13-7 win. The teams tied in an 8-8 deadlock in 1958, but last year Ralls went one-up on Antelopes by posting a 20-8 victory on the Jackrabbit gridiron.

More permits for hunting antelope to be issued

STIN—More hunters will be issued to take antelope this year than at any time since they were restored to the list of legal game.

This was the announcement of Capt. E. M. Spratt, director of law enforcement of the Game & Fish Commission.

Some Texas land owners have been given permits to take 2,930 antelope in the Trans-Pecos area. An additional 300 probably will be issued in the Panhandle after the season has been completed.

The Trans-Pecos season will be open, inclusive, after a census by biologists permits were issued for 1649 bucks and 381 does. All other small ranches also will be added to the list to increase the number slightly.

Hunts are conducted by the Game & Fish Commission, generally ranging from \$20 to \$40 per doe and \$40 to \$60 for kills. There have been a few instances where even higher prices have been charged on choice hunting sites.

There will be short seasons in the Panhandle also. In Dallam, DeWitt and Moore counties, and in Garza County north of the Canadian River, shooting will be permitted Oct. 14, 15, and 16. In Garza, Hutchinson, and Potter counties, south of the Canadian River, the season will be Oct. 14, 15, and 20.

Garza draws deep wildcat location

NO. 5 L. G. Thruett will be awarded a 9,100-foot Ellenburger well in Garza County by the Central Oil Co. The venture is located northwest of Post on the south edge of the Threeway (L. G. Thruett, San Andres) field.

There are no nearby deep holes for oil production.

The venture spots 138 feet from the surface and 825 feet from east lines of the southwest quarter of Section 1429, or 1,980 feet from west lines of 1429, or 1,980 feet from south lines of 1429.

The Antelopes, on the other hand, have 11 lettermen back, six of whom were starters last season.

The Jackrabbits have a new head coach this season, Neal Chastain, a Texas Tech graduate, having replaced the veteran Doc Mize. The Ralls assistant coaches are Doug Duncan (Texas Tech) and Bill Williamson (North Texas State).

SHORT ON RESERVES

Coach Vernard Alexander, somewhat pleased with the Antelopes' showing in rugged scrimmage sessions against Crosbyton, strong Idalou and Lockney, points, however, to the sparsity of seasoned reserves on the Antelope squad.

The Antelope outlook has also been dimmed by the word that three promising transfers—Tommy Campbell, Dale Newton and Darrell Haley—will not be eligible for varsity competition this season. Another transfer, 227-pound tackle Larry James, will, however, be eligible.

Coach Alexander commended his charges for the spirit they have shown in practice sessions the last two weeks and in the three intersquad scrimmages. He said the Antelopes started slowly against both Lockney and Idalou in a three-way scrimmage at Idalou Friday night, but that they soon settled down and had given a good account of themselves by the time it was over.

STARTERS NAMED

Probably starters on offense in Friday night's opener will be Harold Wayne Mason and Dwayne Capps, ends; Bobby Hudman and Jimmie Ivie, tackles; Richard Cook and Clarence Ivie, guards; Mike Cornell, center; either Kenneth Williams or Leslie Acker, quarterback; Tommy Boucher and Richard Ray, halfbacks, and Jimmy Minor, fullback.

One of the ends, Mason, lettered last year at tackle. The other wingman, Capps, is up from the 1959 "B" team.

Both tackles, Jimmie Ivie and Bobby Hudman, are lettermen, Hudman lettering at guard last season.

One of the starting guards, Clarence Ivie, lettered at fullback in 1959. Cook, the other starter, is listed on the roster as having had no previous experience.

Cornell, slated to start at center, is a 180-pound two-year letterman and co-captain of this season's team.

Kenneth Williams, listed along with Acker as a probable starter at the man-under spot, lettered at that position last year. Acker, a junior, was a member of the "B" team.

Both halfback starters, Boucher and Ray, are lettermen. Ray is a senior and Boucher a junior. Minor, the starting fullback, has lettered two years at guard. He is the other co-captain of the team.

SMITH IS BACK

The four starters back for Ralls are quarterback Jerry Smith, 155, a senior who has started regularly or part time since his freshman year; guard Charles Edwards, 175-pound junior; end Bill McFadden, 150-pound senior, and center Burley Gray, 145-pound senior.

Other probable starters for the Jackrabbits are Wayne Sanders, end, 165; Andy Payne, 195, and Lauren Huddleston, 175, tackles; Bobby Smith, 150; guard; Danny McDuff, 145, and Rudy Esparza, 130, halfbacks, and Ronnie Morgan, 175, fullback.

Morgan, who won the district 220-yard dash title last spring, Smith and McDuff are good runners and Smith is also a good passer.

'MOST EXCITING BACK'

Robert (Bake) Turner, 6-foot 170-pound junior from Alpine, is billed as Texas Tech's "most exciting player." His knack of coming up with the big play from his split back post has earned him the billing. Last season, he was the Red Raiders' leading pass receiver, punter and punt returner.

Hopkins and Garner

Golfers play in meet's high 16

Post golfers Charles Hopkins and O. C. (Oscar) Garner qualified for the championship flight in the 4th annual Muleshoe Invitational golf tournament, which began last Thursday and ended Sunday.

Grades improving for Red Raiders

LUBBOCK — As Texas Tech's fall roster is compared with last year's lineup, one fact is pleasantly emphasized—the Red Raider scholastic average has improved.

Of all the athletes on the football squad last spring, only one was lost by low grades. Only four fell during the fall semester. This includes freshmen and varsity performers.

Much of the credit for this improvement over previous years goes to Coach Junior Arterburn. He keeps almost daily check on the grades of Tech's athletes and recommends study hall for those needing it. Consequently, the Red Raiders go into their first Southwest Conference schedule stronger numerically than in previous years.

Two-a-day practices began today and will continue until registration interrupts during the week beginning Sept. 12.

Texas Tech opens its schedule against West Texas State in newly-enlarged Jones Stadium Saturday night, Sept. 17.

Post Junior High team opens today against Floydada

Post's junior high football team, composed of 8th graders and freshmen, play their first game at 6 p. m. today at Floydada against the Floydada junior high eleven.

The game will precede a contest between the Post and Floydada "B" teams.

Glenn Gregory and Richard Souther are coaching the Post team.

The tentative starting line-up announced by the coaches for the opening game is as follows:

Danny Pierce and John Sutter, ends; Charlie Brown, Jackie Braddock and Rickey Little, tackles; Danny Odom, Curtis Hudman or Billy Max Gordon, guards; Wendell Johnson, center; Pat Cornell, quarterback; Jackey Fluitt and John Blund, halfbacks; Tom Clark, fullback.

Other members of the Post squad making the Floydada trip will be Steve Casteel, Laylan Bratcher, Gary Hays, Benny Owen, Butch Cross, Danny Stone and Teddy Scott.

G. T. Mason is team manager.

Williams reports for Lion drills

James Williams of Post is one of 17 lettermen who reported this week at East Texas State College, Commerce, for the opening of fall grid drills.

Williams lettered at quarterback for the East Texas Lions last season after transferring from San Angelo Junior College, where he was named Junior College All-America quarterback.

The Lions are defending Lone Star Conference co-champions.

Head Coach J. V. "Siki" Sikes said lettermen are available at every position except center on the Lion squad.

The opening game will be with Abilene Christian College at Abilene Sept. 17. The first home game pits the Lions against Northeast Louisiana State Oct. 1.

In Saturday's consolation play, Bill St. Clair eliminated Garner, 1 up on 19, and Hopkins defeated Skinny Winn, 2 and 1.

Haire progressed in the fifth flight by beating Jess Winn, 3 and 2, and in consolation play, Ellis was eliminated by Earl Richards, 4 and 3.

In Sunday's 18-hole consolation medal play finals, Hopkins was second with a 73. The consolation winner was Bob Croyer of Denver City, who turned in a 69.

Roland Adams won the championship with a score of 144 in the 36-hole medal play finals.

Haire lost to Sam Gholson, 4 and 3, in the fifth flight semifinals.

Next-week start scheduled

League bowling to begin soon

With both men's and women's bowling associations now organized, league play is scheduled to kick off for the fall and winter next week at the Post Bowling Center.

Edsel Stewart was elected president of the men's bowling organization and Patsy Miller president of the women's at association organizational meetings Friday night.

Other officers in the men's league are Bob Sinner, vice president; and Nick Vukad, secretary-treasurer.

The women elected Rhea Hays, vice president; Jane Terry, secretary-treasurer; and Jerry Hester, sergeant at arms.

Billy Miller, manager of the bowling center, announced that two men's leagues are scheduled for play each Tuesday night. The Caprock Men's League will bowl at 6:30 p. m. each Tuesday night, beginning next Tuesday, and the Post City League at 9 p. m. each Tuesday.

The Caprock Women's League will bowl each Monday night and

a second women's league can be organized for a second shift the same night if enough women are interested, Miller said.

Each of these leagues is composed of eight teams with five players to a team. All leagues are of the handicap variety to give all bowlers, no matter what their skill, an equal opportunity, Miller said.

Miller said that Wednesday night is being held open for formation of a Textile League of Postex employees and that a church league is scheduled for Thursday nights.

The church league will be a mixed league with two men and two women on each team.

Friday night will remain open for open bowling throughout the football season, Miller indicated.

The center manager said a housewives' league will be organized for Thursday morning play as soon as school starts.

A teenage league for youngsters ages 12 to 17 is scheduled for Saturday.

Bowlers interested in any of the leagues are asked to sign up individually at the center's information desk for assignment to teams.

Some team sponsors also are needed, Miller indicated.

Winner of five free games for the highest game of the week last week at the center went to Bobby Josey for the women with a 208, and to Joe Lovin for the men with a 244.

'B' gridders are to play Floydada in game tonight

The Post Antelopes' B-man "B" squad will be in Floydada this evening for its season's grid opener against the Floydada Whirlwind "B" team.

Harold Teal and Gerald Loyd are coaching the "B" team.

Tonight's game will help pry the lid off the 1960 football season on the South Plains, with most varsity teams scheduled for action Friday night.

On the Antelope "B" squad making the trip to Floydada are Billy Jackson, Frankie Gary and Darrell Haley, ends; Jerry Nutt, Tommy Campbell and Dale Newton, tackles; Larry Guy, Glen Polk and Royce Chance, guards; Buddy Moreland and Billy Shumard, centers, and Nuel Landreth, Ronnie Henderson, Kent Wheatley and Ken Rankin, backs.

Youth leaders of Post present at San Antonio meet

SAN ANTONIO—Two youth leaders from Post, Christine Cornish and Melinda Newby, were among the 200 delegates who attended the Synod of Texas Youth Planning Conference at Trinity University, San Antonio, Aug. 22-26.

The conference is sponsored by the United Presbyterian Church, U. S. A.

Delegates, meeting for the sixth consecutive year at Trinity, conducted training classes for officers and made plans for next year's program.

The week-long conference included daily worship services, special addresses and group discussions on prayer, personal religion, politics, understanding Christian courtship and marriage, and planning a Westminster Fellowship program.

The two Post girls represented the youth of the First Presbyterian Church of Post. Christine is the daughter of Mr. and Mrs. Jim Cornish, 714 West Fifth St., and Melinda is the daughter of Mr. and Mrs. David Newby, 615 West Seventh St.

During month of July

Lubbock District leads in liquor complaints

The 18 enforcement districts of the Texas Liquor Control Board reported a total of 456 criminal complaints filed during July, with 480 convictions resulting in 35 jail sentences and fines and costs totaling \$60,585.56. The total number of dismissals was 71.

The Lubbock District, with 105 cases filed, led the state, the nearest to it being the Amarillo District, in which 59 cases were filed. There were 64 convictions and 13 jail terms in the Lubbock District, resulting in fines and costs totaling \$17,278.75. There were 27 dismissals and two acquittals.

The report discloses that there were 204 cases filed in wet areas and 145 non-criminal complaints submitted for action by the Administrator.

A total of 257 convictions were obtained in dry areas compared with 223 convictions in wet areas for the month, with 252 criminal complaints being filed in dry areas.

Fees were collected on 663 liquor permits in July and 2,373 beer licenses.

Hearings before the Administrator totaled 483 on complaints against permits and licenses, resulting in 39 cancellations, 259 sus-

pensions, three refusals of applications, 30 dismissals and two reinstatements.

One hundred and fifty permits and licenses were voluntarily cancelled.

Santa Fe Railway joins in piggyback car pool

The Santa Fe Railway has joined the national piggyback car pool of the Trailer Train Company, according to John E. Wightman, general manager of that company, Haverford, Pa.

Trailer Train is owned by 29 railroads and a freight forwarder and leases cars from its pool of 4,639 piggyback flat cars, largest in the country.

E. S. Marsh, Santa Fe president, said the Santa Fe's competitive position would be definitely improved by the availability of additional flat cars, assuring shippers virtually nationwide piggyback service.

More than 66 per cent of the nation's rail network is now included in Trailer Train membership.

The Toledo, Peoria and Western, an important East-West linking railroad announced its connection with Trailer Train at the

Lubbock businessmen

Fair boosters will visit on Sept. 13

Dorens of Lubbock businessmen will participate in the Panhandle-South Plains Fair goodwill booster trips, scheduled to roll into Post Tuesday, Sept. 13.

This year's fair has special meaning to Post and Garza County since two Post men are playing important roles in the show. George Samson, of Post, is general chairman of the entire agricultural exhibit and Garza County Agent Lewis C. Herron Jr., is an assistant superintendent in the waste department.

Price outlook for hogs is brighter

COLLEGE STATION — The price outlook for hogs for the next few months is considerably brighter, John McHaney, extension economist, says that prices received by farmers in the last half of 1960 will be higher than those received in the last half of 1959. He says they will not, however, reach the peak prices of 1958, and the usual fall price decline can be expected.

McHaney explains this forecasted price rise by pointing out that the 1960 spring pig crop was down 16 per cent from the 1959 spring crop. This decrease was brought about mainly because fewer sows farrowed and fewer pigs were produced per sow.

Spring prices in 1961 will be largely determined by the size of the 1960 fall crop, McHaney continues. According to the present crop forecast, the 1960 fall crop should be smaller than the 1959 crop, thus the prices received in the spring of 1961 should be higher than those received this year.

The specialist concludes with a word of warning for swine producers. He says there are indications that this downturn in production may be the shortest on record, and just because prices may be better in the last half of 1960 and in the first few months of 1961 is no reason to believe that prices will bring satisfactory returns to all producers in the last half of 1961.

medical patient. Mr. and Mrs. Pete Haney and Andy of Post visited Sunday evening with her parents, Mr. and Mrs. Harlan Morris and sons.

Rev. R. L. Kirk and Rev. and Mrs. Elbert Nelson were supper guests Sunday in the Theibert McBride home.

Mr. and Mrs. Elmer Doo Jones, Stanley, Darlene, Gary Doo, and Sandy, were in Lubbock Monday for Darlene's medical check-up at Methodist Hospital.

The goodwill boosters, visiting South Plains cities in an effort to build good relations throughout the trade area, leave Lubbock after an early breakfast and distribute a Fair newspaper, placards, balloons and other literature.

On the first day of the tours, the merry-makers will visit Ropesville, Meadow, Brownfield, Wilson, Tahoka, O'Donnell, Lamesa, Gail, Snyder and Post.

The visitors will be in Post on the first trip. A total of five visiting tours are planned, which will take the boosters to more than 45 South Plains cities.

Some of the boosters — seasoned veterans of the group that each year becomes for a few days a goodwill ambassador for Lubbock — have made the trips for several years in succession.

This year, each of the five trips will be sponsored by one or more civic clubs in Lubbock.

The Fair boosters will be laden with souvenirs, free tickets for Kids' Day at the Fair, and literature. The goodwill ambassadors will provide special entertainment in each city they visit.

Spur man first under wire with area Fair entry

LUBBOCK — The first entries in the 43rd annual Panhandle South Plains Fair livestock divisions have been received by the Fair Association, and things are shaping up for what officials predict will be the "best show ever."

The Fair, scheduled in Lubbock Sept. 26 through Oct. 1, is expected to draw a record number of entries in all divisions from throughout the South Plains-Eastern New Mexico area.

Scoring a big first, a Spur man, John Goen, got his entry of four female Hereford cattle in Goen's entry in the livestock division was the first received by the Fair Association.

This year's Fair will be highlighted by the 20th edition of the colorful Ice Canades, scheduled to open in the Fair Park Coliseum the day before the Fair opens, or Sunday, Sept. 25.

Tickets for the Ice Canades and the Panhandle South Plains Fair are available by writing to the Panhandle South Plains Fair Association, Box 561, Lubbock, Texas.

This year's Fair will feature a total cash premium of more than \$30,000.

A Fair catalog, containing entry divisions, has been sent to prospective exhibitors and Chambers of Commerce throughout the South Plains. Catalogs also may be obtained from the Lubbock Chamber.

WEST TEXANS SAY OF P-A-G

MAN... that's sorghum!

The way P. A. G. Sorghum talk in the field makes everybody who sees them exclaim "Man, That's Sorghum!"

P. A. G. has earned the confidence which farmers have in this sorghum. Each seedling variety is researched, tested, and proved before it's offered for sale. Then when you plant P. A. G. you can be confident that not only will it look good in the field, but it will provide top yields. Careful quality control through triple isolation and production pays off in your field when you plant P. A. G. Sorghum. Hundreds of tests have proved it.

Now is the time to book your P. A. G. seed.

That time again! auto inspection stickers ready

LUBBOCK — The new 1961 Motor Vehicle Inspection stickers will be available to Texas motorists at approved inspection stations beginning Sept. 1.
 Capt. Alan Johnson of the Texas Department of Public Safety, recommended that Texans have their vehicles inspected early in the new inspection period which extends from Sept. 1 to April 15, 1961. Vehicles not displaying the new sticker after April 15 will be operating in violation of the law.
 "In the vast majority of cases," Johnson said, "this program has become a very minor inconvenience and expense to the motor vehicle owner—provided he moves early to comply with the law."
 "The more than 4,500 authorized inspection stations over the State are capable of handling the inspection of Texas vehicles without delay if owners will not wait until just a few days before the deadline."
 "With hard summer driving coming to an end, fall is an excellent time to have vehicles safety checked in preparation for the winter months."
 Johnson called attention to the fact that since the beginning of the inspection program vehicles having a defect that was a causative factor in fatal accidents decreased from 11 per cent to 5 per cent last year.

with her niece and family, the O. F. Pennells. She also visited Mr. and Mrs. Wilson D. Williams, Quay and Jim L. Williams, Mr. and Mrs. Weldon Reed of Justiceburg, Mrs. Lucy King of Post and Mr. and Mrs. Novis Pennell.
 Mrs. Ray Hodges, Lois and Carol, were in Lubbock Wednesday. Mr. and Mrs. Tom Henderson visited the Byron Haynies Saturday night.
 Cheryl Pennell spent Wednesday night and Thursday with Becky Sue Ford, who was visiting her grandparents, Mr. and Mrs. H. M. Ford.
 Mr. and Mrs. Joe B. Turner and children of Knox City visited her sister and family, Mr. and Mrs. Bill Long over the weekend.
 Mr. and Mrs. Bill Long visited in Amarillo Monday.

SUNDAY DINNER GUESTS

Bible Thoughts
"CONTRAST"
 By RONNIE PARKER

Every person faces death unless Christ comes before it comes to you. Every responsible person will die either the death of the righteous or of the wicked. The two are alike in some ways but vastly different in others.

The death of the righteous is precious in the sight of God (Ps. 116:16); but the wicked die without God.

The death of the righteous is a "journey" with the Lord—they won't have to cross Jordan alone." The death of the wicked is a "crossing the Jordan" alone; no man can go with him and the Lord will not go with him.

The death of the righteous is a matter of gain (Phil. 1:20). The death of the wicked is a matter of unutterable loss—the loss of everything. (2 Thessalonians 1:7-9.)

The righteous one dies to receive life everlasting—the never ending enjoyment in the courts of glory. (Jn. 14:1-7.) The death of the wicked is unto everlasting punishment. Misery, despair, pain and torment will never end. (Revelation 20:10-15.)

Earl Morris give account of Eastern trip highlights

(Ed. Note: Mr. and Mrs. Earl Morris of the Gordon community recently visited their daughter and son-in-law in New York. Mrs. Morris, a former Southland and Garden correspondent for The Dispatch, has contributed the following account of their trip.)

All our lives we've heard about a big town somewhere called "New York City". But visiting this city was beyond our wildest dreams until a daughter and son-in-law, Mr. and Mrs. C. A. Maeker, moved last June to Long Island, N. Y. Another daughter and family, the W. A. Lyman of Dallas, were going to Massachusetts on their vacation and invited us to go along with them to New York.

We left Dallas on Aug. 3 and drove to Benton, Ark., where we spent the night. Arkansas is a pretty country with its hills and valleys. From Arkansas we drove into Tennessee and stopped for lunch at Centerville and at the restaurant we noticed an elderly lady eating alone and in talking with her learned she was Mrs. Collee, mother of "Minnie Pearl". She told us not to pronounce her name like the Collie dog and then told us quite a bit about her family and the town where they had always lived. She said she is a Methodist and a Democrat, but

not a "dyed-in-the-wool" one. **VISIT COUSIN**

Leaving Centerville, we drove through Nashville, Knoxville, and spent the night near Lenoir City with a cousin and family, the John Browners. You know, we were tempted to spend our vacation here when we saw about 20 Jersey milk cows in the lot and a number of canvassed hams hanging in the smoke house. But we conquered the temptation and went on through the beautiful state of Tennessee, into Virginia.

Virginia, too, is a beautiful state, one we just can't describe. We drove over the Skyline Drive in the Blue Ridge Mountains, and

Outlook is bleak for Tahoka band

TAHOKA — The Tahoka schools may be forced to do away with the school band unless more interest is shown by students.

At a recent meeting of band parents and students it was indicated that there would be only about 25 band students this year.

Otis Spears, superintendent of schools, said the school board may find it necessary to discontinue the band as too expensive for the number of students involved.

had breakfast at the end of the drive. The cool mountain air really made one forget his good intentions to diet.

At Washington, D. C., we drove around and saw the White House, the Capitol buildings, and many other interesting things of our capital city.

ARRIVE IN CITY
We arrived in New York around 4 o'clock in the afternoon and drove under rivers, over railroads, through tunnels, and finally found ourselves across the city and headed for Long Island, about 40 miles south on the Atlantic Coast.

We found our children enjoying the vacation there. Where they live there is a walled-in channel about 10 feet deep between each two rows of houses and everyone has a motor boat or two "parked" at the back.

We visited Oyster Bay, Glen Cove, Great Neck, and went down the beach where the younger ones took a dip in the Atlantic, but we just waded along the shore.

On Sunday morning we attended church and then spent the afternoon viewing New York City from a car. We rode a ferry boat to Staten Island and passed close to the Statue of Liberty. In driving through the city, we saw a number of important buildings and couldn't realize so many people could live there.

BEGIN TRIP HOME

Early Thursday morning, Aug. 18, we bade the folks goodbye and joyfully began our tour back to Texas. We drove over the New Jersey and Pennsylvania Turnpike and spent the night in Columbus, Ohio. Next day we drove through Indiana, Illinois and part of Missouri, staying that night at Leonardwood, Mo. From there we went through the state of Oklahoma, traveling on the Will Rogers Turnpike for some 47 miles, then turned south to Texas.

We went through 14 states, saw lots of beautiful country, interesting places, but nothing can compare with home.

We stayed with the Lynans in Dallas and en route home visited in Rule with a sister and family, Mr. and Mrs. O. G. Lewis. On arriving home Monday morning, we thought we had enough to talk about for sometime.

Our son-in-law, C. A. Maeker, is taking training at Sperry Gyroscopic Corp., and they expect to be sent to another state in the near future.

Great Plains Program aiding conservation

The Great Plains Conservation Program continues to foot much of the bill for conservation work done in this area. Soil Conservation Service technicians here point out.

Operations all over the Great Plains area are taking advantage of this long-range program to apply complete conservation plans on their places.

Cost-share payments under this program still range from 50 to 80 per cent of the cost of various conservation practices.

Probably mesquite spraying is the practice which has shown the most spectacular results as far as immediate improvement is concerned. Aerial spraying has proven very effective in controlling mesquite, and the increased grass yields in sprayed pastures is very noticeable. Mesquite spraying, as well as shinnery spraying on sandy land pastures, continues to

gain in popularity every year.

Benefits of the Great Plains program, however, are not limited to brush control. Cost-share payments are also available for terraces, diversion terraces, land leveling, reorganizing irrigation systems, building cross-fences, ponds for livestock water and other needed conservation practices.

The local SCS office is still accepting applications for assistance under the Great Plains Conservation Program.

New booklet, 'Let's Collect Rocks,' available free from Shell Oil Co.

How much does the earth weigh? Which continents float? What's the most valuable rock in the world? How much gold is there in an average sample of earth? What's the cobaltite and why is it so special? Why is this sentence useful: "The girls can flirt and other queer things can do"?

The answers to these questions—and other interesting information—can be found in a 17-page, illustrated booklet called "Let's Collect Rocks" just published by Shell Oil Company.

The booklet is a general introduction to rock and mineral collecting. Written for beginners, it defines rocks and minerals, tells what fossils are and how they were

formed, has tips on starting a collection, doing field work, displaying samples, identifying specimens, and turning rough gems into jewelry.

"Let's Collect Rocks" is the second "Let's Collect" booklet put out by Shell. The first is "Let's Collect Shells." Written more or less in self-defense—to answer the constant question "How did Shell Oil Company get its name?"—the booklet has been so popular that the company produced the follow-up, "Let's Collect Rocks." The foreword explains how knowledge of rocks is essential to finding oil and tells something about the "rockhounds" that work for Shell. To get a free copy, write: Shell Oil Company, 50 West 50th Street, New York 20, N. Y.

P. S. If you can't wait, here are the answers: 6.6 sextillion tons; all of them; soil; .0000006 per cent; a mineral, found only in meteorites; it's a key to the hardness of minerals.

Post girl initiated into honor society at S. F. Austin State

NACOGDOCHES — Connie Marie King from Post recently was initiated into Kappa Delta Pi, national professional honorary society, at Stephen F. Austin State College.

Miss King received her B. B. A. degree from Stephen F. Austin State College in 1960. While in college she received the Wall Street Journal Award for highest ranking business graduate. She was a member of the Sigma Gamma Social Club, Alpha Chi, and the Student Education Association. Miss King is the granddaughter of Mrs. Alice Parsons.

Dr. Arvie Donner, dean of the school of education of the University of Houston, spoke to the group about "What is the Good Teacher."

Participating in the program were Eli Pool, president of Iota Gamma Chapter; Dean Ernestine Henry, vice-president; Dr. A. L. Long, college sponsor; Dr. Robert McKibben, historian; Mrs. Mary Lou Palmer, secretary, and Dr. A. T. Clarke, treasurer.

Garza bond sale now at \$52.10

"Savings Bonds sales firm, seven months of \$52.10 in Garza County, Metcalf Jr., chairman of the county's Savings Bonds committee today.

"Our county has now 43.4 per cent of its \$100 million goal," Metcalf said. July sales in Garza County were \$3,995.

Sales in Texas for July 1960 were \$12,204,662, which was 4 per cent greater than for the same month in 1959.

"A part of every American's savings should be invested in Savings Bonds, to provide for the future and to add strength to the national economy," the chairman stated.

'Go, Johnny, Go!' coming to Tower

The funniest, most star-studded rock 'n' roller to hit rock tips with the hep crowd is "Go, Johnny, Go!" showing Thursday and Friday of this week at the Tower Theatre.

It combines the talents of five holders of the coveted Gold Record (for sale of over a million individual records) into a package deal hit parade of stars never before assembled in one movie.

The Hal Roach production proves that 50 million fans can't be wrong, and that rock 'n' roll is here to stay. Starring is Alan Freed, the disc jockey maestro responsible for the birth and mass acceptance of the medium around which controversy still rages.

Co-starring with Freed are names that have become household favorites to millions of movie goers and record fans—Jimmy Clanton, Sandy Stewart, Chuck Berry, the late Ritchie Valens, Jackie Wilson and Eddie Cochran.

Officers requested to crack down on traffic violations

County motorists, along with news stories, feature articles and editorials about the upcoming holiday and its traffic problems. Radio and TV stations have carried thousands of safety announcements, special interviews and programs, and again are sponsoring their "Drive Lighted and Live!" campaign, asking drivers to burn their headlights in daylight hours to signal their cooperation with safe and legal driving practices and laws.

Members of the Texas Council of Safety Supervisors, composed of truck fleet safety directors, will be patrolling main highways out of ten North, Central and South Texas cities on their "Holiday Road Patrol" to assist stranded motorists. They will do no police or law enforcement work, but will donate their own time and equipment owned by their employers, companies engaged in the trucking industry in Texas, to help drivers in difficulty.

House extends Library Service Act five years

The House of Representatives has passed legislation extending the Library Service Act for five years, Rep. Homer Thornberry announced today.

Previously passed by the Senate, the bill now goes to President Eisenhower. It authorizes appropriations of \$7.5 million a year to be used as matching funds to improve public library services in communities of 10,000 population or less.

The Texas plan under the Library Service Act, as administered by State Librarian Witt B. Harwell, has extended improved library service to 43 counties, and more than 60 other counties have inquired about receiving the service.

The Texas State Library is now operating five bookmobiles in 17 counties, and a four-county regional library system in the Coastal Bend section of South Texas.
