Both of the champion animals came from the Heep Ranch near Austin. Don is a member of the FFA Chapter. The Grand Champion Junior Angus heifer at the show was owned by Elizabeth Elliott. She was unable to attend because

Other youngsters from Baird were Dickie Greenway, with 2nd place in the Brahman light-weight, and Mitchell Atkinson won 3rd place.

In the Santa Gertrudis division, Andy Vestal took 3rd place honors in the medium-weight class.

David Edwards of Clyde received Grand Champion with his Hereford heifer. David is the son of Mr. and Mrs. Weldon Edwards.

Steve Richards took 1st place with his light-weight Charolais.

AUSTIN — One adverse federal court decision after another fuels the feud between Gov. Preston Smith and Lt. Gov. Ben Barnes.

Smith was quick to blame on Barnes the failure of a 1971 filing fee statute which threatens to force a special legislative session.

While that issue was still raging, another Dallas three-judge court struck down the legislature's congressional redistricting plan. Once more, Smith accused the lieutenant governor of "reluctance" and "inaction" on redistricting.

When a third court frowned on House of Representatives redistricting in major counties as done by a board Barnes served on, Smith once again leveled at the lieutenant governor charges of "immature action" and lack of leadership. Single-member districts were ordered for Bexar and Dallas counties.

Sen. J. P. Word of Meridian, speaking in Barnes' defense, said Smith offered the legislature no leadership himself and reminded that the governor could have vetoed the congressional redistricting measure if he didn't like it.

Meanwhile, Atty. Gen. Crawford Martin succeeded in getting a temporary postponement of the congressional redistricting order. The U. S. Supreme Court agrees to delay the new plan pending appeal.

U. S. Sen. Lloyd Bentsen, who intervened as a friend of the court in support of the stay, said congressional candidates for this year, at least, can run in the districts given them by the legislature.

That would be a relief for Congressman Graham Purcell of Wichita Falls and Omar Burleson of Anson; Jim Wright of Fort Worth and Ray Roberts of McKinney and O. C. Fisher of San Angelo and Abraham Kazen of Laredo, who had been pitted against each other in the federal district court plan.

If he has to call a special session on primary election financing, said Smith, he will expect "those responsible for creating this problem" to come up with "workable alternatives."

GOVERNOR'S POLL TAKEN — Dolph Briscoe won another editor's poll last week at the mid-winter meeting of the Texas Press Association. Editors were asked first who they thought would carry their county - if the vote were taken on that date (January 21). Forty-eight editors responded to the poll with this vote: Briscoe, 18; Preston Smith, 13; Ben Barnes, 12; Barnes-Briscoe tie, 2 and three undecided.

They were asked: "How will you vote in the 1972 Governor's race?" This was the result: Briscoe, 28; Smith, 6; Barnes, 5; Grover I and undecided 2.

CRIME FIGHT PROPOSED — The governor's Criminal Justice Council promises a legislative drive for laws to help stamp out organized crime in the state.

Mafia-type operations have been noted in Texas by the President's Commission on Law Enforcement and Administration of Justice and other investigators, the Council's new 1972 plan points out.

Further, states the Council, many bets on sport events are being taken by bookie shops with national "confederation" affiliation.

This legislation was recommended.

Power for the attorney general to bring suit in criminal cases.

Subpoena power in a statewide grand jury or crime prevention council.

Permission for electronic surveillance (including wire-tapping).

The Council proposes to spend about \$1 of its projected \$25 million 1972 allocations for action against organized crime.

INSURANCE HEARING SET — The State Board of Insurance set a February 15 hearing on insurance premium rates, broader damage coverage, and higher liability limits for coastal and beach areas, under the new Catastrophe Pool Act.

Due for consideration is a deductible on breach dwellings of two per cent of the amount insured, with a minimum deductible of \$250 and elimination of percentage deductible on beach commercial risk substituting a \$500 flat figure. The Board also proposed to consider adoption of building specifications for high risk coastal areas.

The Board will also consider hiking coverage limits to \$1 million on beach dwellings and \$5 million on commercial risks. Under the present pool, wind-storm damage is limited to \$100,000 on a beach home and \$500,000 on a commercial venture such as a marina or hotel.

AG OPINIONS — A county has authority to construct and operate an area or regional waste water collection and treatment system and perform water quality management functions, Attorney General Martin held.

In other recent opinions, Martin concluded: A 25-year mineral lease had been duly extended and was in good standing last October 4 when an application for renewal was made to the School Land Board.

An independent school district lacks authority to give an outright 20-year lease of property to a neighborhood center.

Fees paid erroneously to the Industrial Accident Board and placed in the state treasury may not be refunded in absence of a legislative appropriation.

The State Building Commission has authority to contract with the Texas Parks and Wildlife Department for construction of state parks projects and may contract with the State

Highway Department for roads, trailer loops and parking areas with Board of Control approval.

Parks and Wildlife Commission has authority to control taking of fish from public waters, but it's doubtful any rule imposing restrictions on bass tournament participants that would not apply to other fishermen would be valid.

An applicant for certification as a psychologist must have received the doctoral degree.

Texas Education Agency cannot participate separately in payment of premiums of insurance for its retired employees.

The 1971 rules adopted by the Texas State Board of Dental Examiners are valid.

Dallas Independent School District trustees cannot alter the method of electing members to provide that six be elected by votes of their single districts.

Good Neighbor Commission members are not authorized reimbursement for use of private airplanes on official business out of state.

The Industrial Accident Board has jurisdiction over industrial injuries to employees of the City of Bryan.

A \$5,000 legislative appropriation to Elm Creek Water Control District is valid, and the governor has no authority to veto a portion of an appropriation.

COURTS SPEAK — A candidate for state senator must live

in his district only one year before the date of the general election, the State Supreme Court held.

Overruling the Austin Court of Civil Appeals, the High Court found legal the University of Texas' acquiring 280 acres of its UT-Permian Basin campus site at Odessa through donation of park land acquired with county bond funds.

The Court of Criminal Appeals relaxed rules on admissibility of gory pictures in murder trials, holding, in effect, that use of the photographs is largely up to the trial judge's discretion where it is "competent, material and relevant to the issue on trial."

APPOINTMENTS — James F. Ray of Arlington was selected executive director of the Commission on Intergovernmental Relations.

Governor Smith named 10 more members of the Texas Criminal Justice Council. They are Mrs. Gladys M. Mangum of Clyde, Sidney L. Sadler of Pecos, D. V. Flores of Houston, Jim Lindsey of Del Rio, M. M. Vectors of Brownsville, Joe T. Morrow of Honey Grove, Vernon B. Rucker of Killen, George M. Newman of Waco, Dr. John T. Holbrook of Bryan and Michael G. Rely of Corrigan. Dr. Wallace Larson of San Antonio is the new president of Texas Veterinary Medical Association. Ralph Yarborough designated

Clifton L. Holmes of Kilgore as his assistant statewide campaign manager and director of organization.

POLLUTION HEARINGS SET — Texas Water Quality Board will hold hearings Feb. 7-11 in

Baytown on reduction of municipal and industrial wastes into Houston Ship Channel.

Discharges must be reduced to the level permitted by the U. S. Environmental Protection Agency following a Galveston

Bay shellfish conference. The federal rule requires reduction of oxygen-depleting substances dumped into the channel to 35,000 pounds a day by 1975. About 100,000 pounds daily is the present level.
