

# Junior Rodeo plans shaping up; directors meeting set for tonight

Annual event is to be Aug. 3-6

Plans for the 13th annual southwestern championship rodeo to be unreeled here Aug. 3 and 4, will be made at directors' meeting tonight in Community Room of the First National Bank.

The agenda for tonight's meeting, which is scheduled to begin at 7:30 o'clock, are such as committee appointments, plans of parade and queen coronation, etc.

Plans in advance of tonight's meeting—plans are shaping for the opening day parade, queen coronation, the Appaloosa Show to be held on the final day of the rodeo, and rodeo attractions.

**DE PLANS MADE**

C. R. Wilson, parade chairman, announced that this year's parade will be on the "Youth"—as, in fact, the entire rodeo, which is for contestants 19 years of age and under.

Parade chairman asks that any local business firms and organizations as possible be represented in the parade. It isn't necessary that any firm spend a lot of money on

**QUEEN CONTEST**  
The queen contest plans made at a meeting yesterday afternoon. This year's winner will be determined on the basis of rodeo admission ticket sales. Girls 19 years of age and under are eligible to enter. They register for the contest with Mrs. Nichols at his office at southwest corner of Main and Broadway and pick up their tickets at the same time.

Decorate float unless they feel like so," Mrs. Wilson said. "The main thing we're interested in having as many units in the parade as possible—floats, riders, decorated cars, and bands."

Parade chairman suggested that firms employing young people be urged to participate in the parade to help carry out the theme.

**PRIZES TO BE GIVEN**

First, second and third prizes will be awarded the best riding groups and that second and third place prizes will be offered winners in decorated car division. The time and route of the parade and the amount of cash prizes

**Bratton funeral held at Snyder**

Funeral services for Mrs. Ora Bratton, 74, wife of the Rev. W. Bratton, pastor of the Baptist Church in the Close City community, were conducted at 3 p. m. in the First Baptist Church at Snyder.

Bratton died Friday morning at Garza Memorial Hospital. She was formerly lived in the county.

Walter Mitchell, pastor of the Snyder church, officiated at the funeral services, assisted by Rev. George Dale of

Funeral services were held in Hillside Memorial Gardens at Snyder under the direction of Bolger Funeral Home. Mrs. Bratton was survived by three daughters, Mrs. Warden of Fort Worth, Mrs. Marshall Boyd of Dallas, and Mrs. T. L. Martin of Snyder. Surviving also are Alton Bratton of Dallas and Austin Bratton of Santa, Calif.

**Juveniles caught in stolen auto**

Lubbock juveniles, one 14 and another 13, didn't get very far Friday after stealing an auto here.

The 14-year-old was arrested just over the border in Kent County after the car owned by Miss Sue Bratton was spotted shortly after noon. The juveniles were brought to the Garza County jail and taken to the Lubbock County Jail here Tuesday by officers from Lubbock. They were also wanted.

**BASEBALL GAME SUNDAY**

Bob Woud - Be baseball team will play the Lubbock Red Sox at 3 p. m. Sunday at the Ruth League Park, just west of Little League Park. There will be admission charges of 25 cents.

to be awarded float winners will be announced following tonight's meeting.

Again this year, the winner of the queen contest will be decided by rodeo admission ticket sales. Queen contest chairmen are Sue Stephens, Kelly Jo Myers and Judy McCullough.

Rodeo officials have announced that in addition to cash prizes in the various events, two handmade saddles will be awarded — one to the rodeo's best all-around cowboy and the other to the best all-around cowgirl. To qualify for the

cowboy saddle, contestants must enter at least three rodeo events, one of which must be a bucking event. To be eligible for the cowgirl's saddle, contestants are required to enter three rodeo events of their choice.

**WINNERS' BUCKLES**

Champions in each major rodeo event will receive a trophy buckle.

Again this year, Roland Reed of Fort Worth will be the show's producer.

The rodeo events will include bareback bronc riding, calf roping, ribbon roping, open cutting

horse contest, barrel race (three age divisions), kid flag race for contestants 12 years old and under, bull riding, flag race for contestants 13 through 15 years old, and pole bending (three age divisions).

This year's rodeo is approved by the American Junior Rodeo Association, which means that points scored here by the contestants will count in the AJRA championship cowboy and cowgirl standings.

**DAVIS TO ANNOUNCE**

Alvin G. Davis, of Brownfield, who originated the rodeo here in

1948 while a resident of Post, will be the announcer. He is one of the founders of the American Junior Rodeo Association.

Dances will be held at the rodeo grounds after each night's performance, with music to be furnished by a "name" band, rodeo directors have announced.

The Appaloosa Horse Show to be staged in conjunction with the rodeo will be held at the arena, with judging beginning at 11 a. m. Saturday, Aug. 6. Riley Miller of Justiceburg is in charge of the event.

## Board employs new principal, teachers

A Rotarian down in Baytown, Texas, is doing his level best as a good Rotarian to promote international goodwill and understanding by finding pen pals for young people. In a letter we received this week as secretary of Post Rotarians, Seth M. Bailey sent along a list of 38 young people, ranging in age from 14 through 26, from Ireland, New Zealand, Australia, West Germany, India, and Transvaal, South Africa, who want pen pals.

Seth asked us to see what could be done about finding some pen pals for these right here in Post. Some of the youngsters—most of them are girls—want boy pen pals and some want girls. The list is broken down by age and sex preference. All correspondence sought would be in the English language.

We mailed Seth's very interesting letter to T. C. Clark, Post's new high school principal, with the expressed hope that as soon as the fall term started he try to interest some local high schoolers in writing pen pal letters. But in case some of you young folks don't want to wait until fall you could probably drop by the high school office and pick out a pen pal from the big list today. It would be very interesting for all of you as well as the youngsters in foreign countries. Nothing beats promotion of international understanding on a person-to-person basis.

Seth Bailey of Baytown is really putting his heart into his "pen pal project" to promote international understanding. Since he wrote his first letter March 4, 1948, he has written over 13,915 letters to foreign countries alone in the interest of his "pen pal project." He has received 3,042 replies, which is a 21 per cent response, and has heard from every district and country in the Rotary World except British Guiana. All told—up to last month that is—he has found pen pals for 6,922 young people from 84 different countries. Any local youngsters who want on his list can write him at 902 East Lindenwood Drive in Baytown and be sure to include name, address, age, country in which pen pal preferred, and language in which you wish to conduct your correspondence. Seth is doing real international service with his project. (See POSTINGS, page 8)

The board of trustees of Post Independent School District Monday night accepted three faculty resignations, employed two new elementary teachers, voted to purchase 12 new band uniforms, and discussed parking areas and sidewalks at the new high school building.

The action came at the board's regular July meeting. In a special meeting June 23, of which The Dispatch did not learn anything until Monday night, the trustees employed a new grade school principal, voted to raise the tuition rate for transfer students, to pay for football equipment and to purchase a new lawn mower and three IBM typewriters.

Resignations accepted Monday night were those of Mrs. Almon Martin, John Blocker and Billy E. Wood.

**MOVING TO CISCO**

Mrs. Martin, who has taught in the lower grades for seven and a half years, is moving to Cisco, where her husband has accepted a call as pastor of the First Christian Church.

Blocker, who was an assistant football, basketball and track coach here during the 1959-60 school year, has accepted the head coach position at Hart High School, near Olton.

Wood, who was employed after school was out as girls' basketball

coach, told the board in his letter of resignation that he is accepting the head coach job at Cotton Center, in Hale County.

Mr. and Mrs. Leon Barnes of Electra were elected to teach in the elementary school, and Miss Waanda Sue Sandlin, a spring graduate of Wayland Baptist College, was elected to the faculty, subject to placement.

**BAND TO GROW**

The trustees voted to purchase the 12 new band uniforms after being told by Supt. R. T. Smith that they will be needed because of the increased size of next year's high school band.

Smith said Band Director Robert Meisch told him that his band personnel losses through

**Bowen candidate for graduation**

FORT WORTH — Oscar K. Bowen, son of O. K. Bowen of Brownwood, formerly of Post, is a candidate for graduation at Southwestern Baptist Theological Seminary during summer graduation exercises at 10 a. m. Friday in Truett Auditorium.

Bowen is a graduate of Hardin-Simmons University with the bachelor of arts and master of arts degrees in 1953 and 1958. He is scheduled to receive the bachelor of divinity.

Dr. Nane Starnes, pastor of the West Asheville Baptist Church in North Carolina for the past 24 years, will deliver the commencement address.

Degrees and diplomas will be conferred and awarded to 128 students—83 in the School of Theology, 47 in the School of Religious Education and eight in the School of Church Music.

Students in this graduating class represent 22 states, Mexico, and Australia.

**FFA delegates to attend meet**

Eight members of vocational agriculture classes at Post High School will leave about 4 a. m. Monday for Houston to attend the state Future Farmers of America convention to be held in the Municipal Auditorium there.

The group will stop at Austin to visit the State Capitol, and in San Antonio to visit the Dorothy Griffin Ranch, the Alamo and other missions before going on to the convention, which is to be held Wednesday, Thursday and Friday.

After the convention, the group will go to Galveston for some deep sea fishing and will return to Post late Saturday night.

Only boys who have had one or more years of vocational agriculture and will take the subject next year are eligible to attend the convention, according to D. H. Koeninger, vocational ag instructor. Also, all students making the trip must have passed three of their five solid subjects last year in school.

A complete list of the boys attending the convention from here was not available today, but Jimmy Hodges will be the voting delegate from the Post FFA chapter.

graduation and for other reasons will total seven, but that he expects to move 30 students from the junior high band into the high school band.

The board decided, after discussion, to recess the curbing on the east and west sides of the new high school building to allow for parking of teachers' automobiles. The tentative plans are to recess the curbing for two blocks on the east side of the first wing of the building and for one block on the west side of the first wing.

**NEW WALK SLATED**

The trustees also authorized the construction of a walk from the second wing of the high school building to the gymnasium, and authorized the superintendent to confer with engineers for installation of a water pipe system at the new school for lawn watering purposes.

Noel Clements of Hereford is the new grade school principal elected at the special meeting on June 23. A graduate of West Texas State College, he has been assistant principal at Hereford for two years. He is married and has two children, one of whom will be in the fifth grade next year and the other in the sixth grade.

**ON TEACHER PACTS**

The board also voted at the special meeting for all teacher contracts to be signed and returned by the end of the school term, adding that if the contracts are not returned by that time it will be assumed that they are rejected.

The new school year charge for (See SCHOOL BOARD, page 8)

**Personal damage suit filed here**

An \$8,400 personal damages suit has been filed in 106th Judicial District Court by Larry Brummett of Taylor County against John L. Claborn of Post.

The suit is the outgrowth of an automobile accident March 5 between cars driven by Brummett and Claborn about six miles north-west of Post on U. S. Highway 84.

The petition filed by Brummett's attorneys alleges eight items of negligence against Claborn.

The plaintiff is seeking \$7,500 for physical and mental pain and suffering, \$300 for medical expenses and \$600 for damages to his automobile.

**3 more building permits issued**

Several new home starts are expected this weekend in Westgate Terrace, Post's new building addition, but only three permits totaling \$3,200 have been issued in the last two weeks.

Largest of the three was for \$2,000 to Maxine Durrett for remodeling of Maxine's, local fashion jewelry and gift shop. J. W. Putman secured a permit for \$1,000 for a 18 by 26 foot addition to his residence at 362 South Avenue N. J. L. West secured a \$200 permit for construction of a fence at 712 West 12th.

The new permits bring the 1960 construction total here to \$569,265.

**SENIOR DIVISION DRESS REVUE WINNER**  
Linda Payton (left), daughter of Mr. and Mrs. Carl Payton of the Pleasant Valley community, is being presented a blue ribbon by Mrs. Leta Smith, home demonstration agent, for winning first place in the senior dress division of the annual Garza County 4-H Dress Revue here Monday. Miss Payton, shown in the dress which won her the blue ribbon, will represent the county at the District Two 4-H Dress Revue in Lubbock July 30.—(Staff Photo)

## Youth must pay for damages to jail and truck

Commitment to a state reformatory until he is 21 years old was suspended for a 16-year-old Post boy following a hearing yesterday morning before County Judge J. E. Parker, sitting as a juvenile judge, in which the boy was declared delinquent.

The commitment was suspended upon certain conditions and restrictions laid down by the court. Among these are that he repay the owner of a pick-up truck \$228 for damage to the truck and equipment, which officers said he drove off June 24 without the owner's permission.

He was also ordered to pay \$122.35 to the county for damage to jail fixtures which occurred when the youth burned a mattress, jerked a lavatory off the wall and broke out a window.

The juvenile was placed in the custody of his father and must not be on the streets, except with his parents, between the hours of 9 p. m. and 7 a. m.

He is required by the court to attend church regularly and to report to this attendance to the court, as well as a full report in writing each week of his previous week's work and activities.

The court also ruled that the youth must continue living here and continue in gainful employment for the length of time imposed by the suspended commitment.

Slides on artifact discoveries in this area by the Garza County chapter of the South Plains Archaeological Society were shown at Tuesday night's meeting of the Post Lions Club.

Present to show the slides and discuss the work of the chapter were J. M. Baylis, John Bullard and Danny Cockrum.

**47 are coming to Post**

Transfer applications to the Post schools have been filed for 47 students living outside the Post Independent School District, according to records at the office of County Supt. Dean A. Robinson.

Transfer applications have been filed for 22 white and seven Negroes from the Close City school district, for nine Negroes from the Southland school district and for nine white students from the Justiceburg district.

The county superintendent's records also disclose that applications have been filed for the transfer of two white students from the

## Petition denied for county road

The Garza County commissioners' court, in session Monday and Tuesday, denied a petition signed by 10 residents of the Justiceburg area asking that a new county road be opened to connect with a proposed new public road in neighboring Kent County.

The commissioners also accepted bids for purchase of a new motor grader and a new one-half ton pick-up truck, voted to pay O. G. Hamilton \$75 monthly rent for new quarters for the county attorney, voted for Precinct 7 to redeem five \$1,000 precinct road bonds, and for the county treasurer to transfer \$4,000 from the jury fund to the general fund and \$5,000 from the general fund to the salary fund.

In turning down the petition for the new county road, the commissioners' court pointed out that there already is a county-maintained road serving the same persons and same territory that

would be affected by the new road, and that it would be impractical to change the location of this road.

**WOULD GO TO KENT**

The Precinct 4 road asked for in the petition would begin north and slightly east of the present residence of Novis Rodgers, continue north and east and terminate at the beginning point of a public road in Kent County.

The road cited by the commissioners as serving the same persons and the same territory as the proposed new road runs from U. S. Highway 84 north to the Kent County line.

The bid of Plains Machinery Co., one of two submitted, was accepted for the purchase of the new motor grader. The successful bid was \$21,406 minus \$7,406 trade-in for the county's old grader, making the cost to the county \$14,000. The county will pay \$5,000 cash and the remaining amount in October or November of this year.

**ONE OTHER BIDDER**

The other bid was from Texas Machinery & Equipment Co., quoting a price of \$20,350, offering \$4,850 trade-in for the old grader and making the net difference \$15,500.

The bid of Tom Power, Inc., Ford dealer, was accepted for the purchase of the new pick-up. The bid was \$2,201, less \$733 trade-in on an old pick-up, for a net cost to the county of \$1,468.

Other bidders on the pick-up were Post Auto Supply and Caprock Chevrolet Co.

The \$75 monthly rent to be paid Hamilton is for the county attorney's new offices in the former ASC building at 113 West Main. There is no available space in the courthouse for the county attorney's offices.

**Garbage hauling okay now after mud is dry**

City Superintendent Henry Tate said local garbage collections are getting along fairly well on schedule this week—now the alley mud has dried from the big rains of last week.

The truck had to be pulled out of the mud five times in one day last week.

**Slides shown Lions by archaeologists**

Slides on artifact discoveries in this area by the Garza County chapter of the South Plains Archaeological Society were shown at Tuesday night's meeting of the Post Lions Club.

Present to show the slides and discuss the work of the chapter were J. M. Baylis, John Bullard and Danny Cockrum.

Transfer applications have been filed for 22 white and seven Negroes from the Close City school district, for nine Negroes from the Southland school district and for nine white students from the Justiceburg district.

The county superintendent's records also disclose that applications have been filed for the transfer of two white students from the

Post to the Wilson school district, for nine Negroes from Post to the Slaton High School and for three Negroes from Southland to the Slaton High School.

The Post school board recently set the tuition fee for transfer students at \$189.42 per pupil. The tuition will be paid by the districts for students transferring from districts in which their grades are not taught. On transfers whose grades are taught in the district from which they are transferring, the tuition charge is paid by the parents.

## Post Rotarians hear Jimmy Wood

Jimmy Wood of Odessa, who is preaching on "The Kingdom of Christ as Taught in the Parables of Christ" at the summer meeting of the Post Church of Christ this week, was the speaker before Post Rotarians at their Tuesday luncheon in City Hall.

His subject was Christian ethics. In a Rotary directors session following the club meeting, directors elected Jim Cornish as club secretary for a second year as George Booher, previously named, resigned the office because his business interests kept him from regular enough club attendance.

The directors also voted to meet monthly from 1 to 2 p. m. on the first Tuesday of each month, at the request of President Ronnie Parker.

## These two go hand-in-hand

It's something of a coincidence that Farm Safety Week, July 24-30, comes along while the Texas Department of Safety still is reminding cattle owners that a new law went into effect July 1 aimed at controlling livestock on designated U. S. and state highways.

The new law makes it illegal for a person knowingly to permit his domestic livestock to roam at large and unattended on state and federal highways. It applies whether or not the highway right-of-way is fenced. Maximum fine for such violation is \$200, and each day the violation occurs may be considered a separate offense.

We'd say that definitely comes under the heading of farm safety.

Farm-to-market roads are excepted from the law, but livestock owners, in the interest of their own safety, as well as that of other motorists, would do well to see that their stock doesn't stray onto farm-to-market roads.

The new law also gives law enforcement officers the authority to have such livestock pick-

ed up, when unable to locate the owner, and turned over to the sheriff or constable in the county.

The law does not prohibit the driving or herding of livestock across or along the highways.

Col. Homer Garrison Jr., director of the Texas Department of Public Safety, warns that state patrolmen will enforce provisions of the law in an effort to reduce the traffic hazard caused by animals on U. S. and state highways. He said that during the year 1959 a total of 1,460 rural traffic accidents occurred in Texas involving animals of all types. In these accidents, 216 persons were injured and four persons were killed.

When you observe Farm Safety Week July 24-30—and the year around, we hope—also remember this new state law. It not only might help cut down on the highway accident toll, but also might help keep some stock owners out of trouble with the law.—CD.

## 'The Rugged Individual'

It seems a young man lived with his parents in a public housing development. He attended public school, rode the free school bus, and participated in the free lunch program. He entered the Army and upon discharge kept his national life insurance. He then enrolled in the State University, working part time in the State capital to supplement his GI check.

Upon graduation, he married a public health nurse and bought a farm with an FHA loan and then obtained a Small Business Administration loan to go into business. A baby was born in the county hospital. He bought a ranch with the aid of a GI loan and obtained emergency feed from the Government.

Later he put part of his land in the soil bank and the payments helped pay off his debt. His parents lived comfortably on the ranch with their social security and old-age assistance checks. REA lines supplied electricity. The Government helped clear the land. The county agent showed him how to terrace it, then the Government paid part of the cost of a pond and stocked it with fish. The Government guaranteed him a sale

for his farm products.

Books from the public library were delivered to his door. He banked money which a Government agency insured. His children grew up, entered public schools, ate free lunches, rode free busses, played in public parks and swam in public pools. The man owned an automobile so he favored the Federal-aid highway program.

He signed a petition seeking Federal assistance in developing an industrial project to help the economy of his area. He was a leader in obtaining the new Federal building and a new post office and went to Washington with a group to ask Congress to build a great dam costing millions so that the area could get "cheap electricity."

Then, one day, he wrote to his Congressman: "I wish to protest excessive Government spending and high taxes. I believe in rugged individualism. I think people should stand on their own two feet without expecting Government handouts. I am opposed to all socialistic trends and I demand a return to the principles of our Constitution."—Reprinted from Rotary Magazine.

## City Hall renovation progresses

Remodeling and expansion of the old City Hall is coming along nicely.

City Supt. Henry Tate and his office force have to keep moving around to find working space while the big interior remodeling goes on—and it's a mite noisy in there.

But possibly by mid-August the whole project will be completed and City Hall not only will have a "face lifting" with an attractive modern front, but inside for the first time the office force will have enough space to take care of the customers.

The drive-in window of course will be an extra.

Air-conditioning of course is also included.

A large and comfortable room for the City Council sessions also will add both convenience and dignity to the meetings of that body. What's more there will be a private entrance for the

council chambers.

It's a job which has needed doing for a long time and the councilmen are to be congratulated for getting it done.

Now that the City Hall renovation is moving along so well, the council is turning its attention to solving the "housing problem" of the fire department.

Tentative plans have been drawn by an architect for enlarging the fire department quarters to provide adequate space both for the firemen and the trucks. This will cost an estimated \$8,000 to \$12,000.

The fire department's problem has been just as bad as City Hall's—and for as long a time.

It is to be hoped that the council finds the will—and the means—to finish up the remodeling and expansion job by solving the fire department's housing needs, too.—JC.

## Yes, Virginia, people still read books

Those whose main argument against a public library for Garza County is that "people don't read much any more," are invited to look at this fact—last year, Americans spent \$715,000,000 or roughly \$4.25 per capita on new books.

The above figure is exclusive of sales to libraries, schools and other similar institutions.

When television reached its maturity, educators and book publishers simultaneously shuddered, dolefully forecasting that the art of reading had been dealt a deathblow. Children, they predicted, would lay aside their books and such classics as "Heidi," "Alice in Wonderland" and "Huckleberry Finn" would pass into history. But whatever has happened, it has not been this.

Book publishers responded to last year's big reading demand by issuing 14,348 new titles, an increase from the previous year of more than 1,000 titles. These included works of fiction, general literature and criticism, poetry and drama, fine arts and technical works.

America seems more avid than ever to read.

On the same subject, there are enough private libraries in homes here to establish and maintain as good a library as any county could want, if the books contained in those private libraries could be reconvered into their original cost. Such, of course, would be impractical, but we bring it up merely to show that the people of Garza County do realize and appreciate the value of good books and that a free public library would be a cultural asset, as well as a useful one.

The county already has been promised a big stock of books from the state if it goes along with the Texas State Library's proposal for a county library. In addition, many of the books in private libraries here more than likely would be generously donated to help fill the shelves.

It appears to us—in view of the original cost and year-to-year expense quoted the county by state library officials—that the county is denying its citizens a distinct cultural advantage by not availing itself of the opportunity of establishing and maintaining a county library.—CD.

## What our contemporaries are saying

When the grass looks greener on the other side of the fence, it just might be they take better care of it over there.—Marvin Tunme in The Rails Banner.

As any married woman will tell you, there is no perfect husband, which leads one to wonder what happens to the perfect sons mothers are always describing.—James Roberts in The Andrews County News.

We have asked a number of Democrats who they preferred as the party's Presidential nominee, and without exception they have chosen Lyndon Johnson. And most of them have added: "He's the only man that can put Texas back in the Democratic column." — Bill Billingslea in The Hamilton Herald-News.

Elderly men who wear brightly colored and frequently youthful attire, deserve reasonable toleration. They are dragging their feet in protest

to the speed of life's steep toboggan.—Douglas Meador in Matador Tribune.

If a middle-aged man could only sell his experience for half of what it cost him, he could retire in luxury.—Harold Hudson in The Ochiltree County Herald.

If fathers would be fathers, there would be fewer occasions to use the time-worn phrase, "boys will be boys."—Buford F. Davenport in Abernathy Weekly Review.

Understand one of the better ways to deal with city speeders—even more effective than radar—is to set up "water traps" over the city. During current rains, it has become evident that it is very difficult to break city speed limits while plowing through surface lakes which cover streets and highways in some places.—Orlin Brewer in The Hockley County Herald.

## THURSDAY to THURSDAY

By CHARLES DIDWAY

AS LONG AS the United States Army has personnel that can bundle and bind things like some of the packages and crates I've seen in the last few weeks, I have no fear of Russia getting the upper hand.

It all started about three weeks before our oldest son was separated from the Army... with the arrival of two formidable appearing crates containing some of his personal belongings. Then, after he got home, here came three more of the crates, securely bound and with "U. S. Army" stamped all over them.

JUST OUT OF the Army, our boy had other things on his mind besides opening crates, but hinted that if I got the chance I might open one or two of them for him, particularly the one containing some of his hi-fi records I wanted to hear.

It wasn't hard to figure out the crate with the hi-fi records, but getting into it was by no means as easy. The men in the Army's shipping department not only build wooden frames securely around the things they ship, but they also bind them with one-half inch metal strips that are tougher than the proverbial boot.

I STARTED OUT trying to open the crate with a claw hammer, but soon threw the hammer aside and started searching for the pliers, which you never can find around our house unless you are looking for something else. Finding the pliers, however, wasn't as hard as getting into the crate.

That leaves four crates for someone besides me to open, but I wouldn't take for the new confidence I have in our Army since opening that one crate.

TIME FLIES SO fast that it's hard to realize that the first half of 1960 was over with the coming of July 1. With the last half of the year under way, it isn't too long until 1961. And, whatever else the future may hold for 1961, it be the last time for 4,048 years that the date can be turned upside down and read just the same way. A letter in the London Times from reader Isobel M. Bosanquet said it won't happen again until 6009, and then again in 6999, 6889, 6996, 9008, and so on—if you're interested in pursuing it further.

The man up the street says with history being made all the time, every day now seems to be the anniversary of something awful.

INSURANCE MAN Jim Sexton has furnished me with facts and figures on something I'd suspected all along, but just didn't have the "lowdown" on—working women.

Jim's set of statistics contain the following information on this facet of American life: More than 22,900,000 women work away from home.

An increase of 3,000,000 working women in the next five years is estimated.

Women collect \$42 billion of income per year (more than the TOTAL income in 1938).

They own 79 per cent of the nation's wealth.

They own 65 per cent of the savings accounts and 40 per cent of the homes in America.

They do 85 per cent of the consumer buying.

38 per cent of all income is paid to women.

52 per cent of all the stockholders of American corporations are women.

42 per cent of all income tax reports are filed by women.

Women receive 71 per cent of estates left by men and 64 per cent of estates left by other women.

More than 40 per cent of employed women have dependents of some kind, and more than 45 million women are now heads of families with young children.

Today 60 per cent of all death benefits go to widows, about 1½ billion dollars annually.

By 1975 the number of women over 65 will be over 12.6 millions, outnumbering men by about 2½ million.

They're taking over, brother, they're taking over.

The Esso Baltimore, Humble Oil and Refining Company's new tanker, is taller than a five-story building and more than two city blocks long.

The 44-story Humble Oil & Refining Company home office building, which is scheduled to be finished in Houston in 1962, will have about a million square feet of usable space.

Accounting for almost one out of every nine automobiles in the United States, California tops all other states in gasoline consumption.

It would take a train of 440 railroad tank cars with a capacity of 9,000 gallons each to hold the 394,000 barrels of fuel oil used every day by the nation's steel mills.

### Five years ago

Lowell Short, E. S. (Buddy) Stewart, and Russell Wilks Jr. were reappointed to two-year terms on the board of the Garza Memorial Hospital at a meeting this week. Mrs. Gerald Marable, who recently moved here from Dallas, was named honor guest at the home of Mrs. John F. Lott Saturday. George "Scotty" Samson of Post will be general agriculture superintendent of the Panhandle South Plains Fair again this year; one of Post's newest business enterprises is Duckworth & Weakley Insurance & Investments, whose proprietors recently retired from positions at the First National Bank after a combined total of almost 75 years; Miss Glenda Jane Askins and Pvt. Raymond Lee Gilstrap of the U. S. Marine Corps were married June 29 at the First Methodist Church in Yuma, Ariz.; the family of Mr. and Mrs. C. P. Jones met here July 6 for the first reunion in 20 years.

new business enterprise has been added to the growing list of new firms in Post with the opening of Paul's Kaiser-Frazer Motor Company; Mr. and Mrs. George Barker were hosts for an annual family reunion of the children of Mrs. Clara Hunton Sunday in their home; David Pennington won a trophy awarded by Herring's Department store in a model airplane contest conducted during June.

### Fifteen years ago

Rev. Guy Cement of Clarendon has been selected as pastor of the First Christian Church of Post; Mrs. Alice Parsons was named commissioner of Precinct 2 to fill the unexpired term of her late husband, D. W. Parsons; rehearsals are underway for "Pep Parade," a womanless play being sponsored and presented by Post Lions Club members; long overdue rains hit Garza County Sunday night; Benny Joe Clary celebrated his fifth birthday, July 7, when his mother, Mrs. Iven Clary, entertained with a birthday party; Mrs. Opal Carmichael was complimented with a bridal shower on June 29; Hundley's Cleaning Plant has just installed a new steam press this week; Mr. and Mrs. R. Smith, Doris Ritchie and Lenora P. Tomlinson were honored with a shower last week given by their friends. The Tomlinsons suffered the loss of all their household goods when their house burned recently.

### Ten years ago

S. B. Bardwell announced today that the C. W. Post estate was contributing \$10,000 to the South Plains Council of Boy Scouts; three Garza County girls, Sybil Smith, Doris Ritchie and Lenora P. Tomlinson were honored with a shower last week given by their friends. The Tomlinsons suffered the loss of all their household goods when their house burned recently.

Jim's set of statistics contain the following information on this facet of American life: More than 22,900,000 women work away from home. An increase of 3,000,000 working women in the next five years is estimated. Women collect \$42 billion of income per year (more than the TOTAL income in 1938). They own 79 per cent of the nation's wealth. They own 65 per cent of the savings accounts and 40 per cent of the homes in America. They do 85 per cent of the consumer buying. 38 per cent of all income is paid to women. 52 per cent of all the stockholders of American corporations are women. 42 per cent of all income tax reports are filed by women. Women receive 71 per cent of estates left by men and 64 per cent of estates left by other women. More than 40 per cent of employed women have dependents of some kind, and more than 45 million women are now heads of families with young children. Today 60 per cent of all death benefits go to widows, about 1½ billion dollars annually. By 1975 the number of women over 65 will be over 12.6 millions, outnumbering men by about 2½ million.

# Farm Safety Week to be July 24-30

COLLEGE STATION—Gov. Price in his proclamation has designated the week of July 24-30 as National Farm Safety Week in Texas. This year's National Farm Safety Week has also been designated as National Farm Safety Week by the President of the United States.

In his proclamation, Governor Price said: "The Nation's economic well-being is dependent upon the continued progress of our agricultural population. Accidents from farm work cause needless suffering, distress and loss of life each year among our rural families."

## Raymie' coming to Tower Theatre

Fresh from his recent dramatic triumph in "Dog of Flanders," Donald Ladd, youthful Hollywood star, is to even eclipse his portrayal of the Dutch boy in that picture in his newest film, "Raymie," showing at the Tower Theatre Friday and Saturday.

The film provides human interest drama packed with entertainment for every member of the family.

The story tells of a small boy, the son of a widowed mother, who lives in a Pacific Coast fishing village and believes in the reality of Moe, a legendary giant baron and seeks a chance to prove its reality. The climax comes unexpectedly when Old Moe makes a sudden appearance near the fishing pier.

Sharing starring honors with Donald Ladd are John Agar, Julie Adams, Charles Winninger and Richard Arlen.

my is dependent upon the continued progress of our agricultural population. Accidents from farm work cause needless suffering, distress and loss of life each year among our rural families.

"By directing the attention of our rural residents to safety education, such worthwhile programs now being conducted can greatly reduce accidents. I urge all Texas farm families to increase their vigilance against needless accidents and further encourage interested organizations and individuals to participate in this program."

The Texas Farm and Ranch Safety Council points out that the purpose of the special week is to focus attention on the year-round need for reducing the number of farm accidents, and to cause those who can do something about the problem, to act. The farmer and his family, says the Council, must carry safety into their everyday lives. Nationally, they add, farm accidents cost one and a quarter billion dollars annually, a sizable sum any way you take it.

The ever-tightening cost-price squeeze faced by agriculturists makes accident prevention even more important, says the Council, because a single costly accident can just about squeeze out the profits from most farm enterprises.

The Council joins Governor Daniel in urging rural residents and organizations to make safety their number one project for the months ahead.

A cast iron cannon, which had been imported by the citizens of Centerville, for the purpose of "doing" the Fourth of July, burst on the 26th ult., and a good sized chunk was blown a distance of two hundred and fifty yards, falling through the roof of a drug store. The Times regards it as a lucky thing that it did not last until the Fourth.

RICHMOND—A public meeting most numerous attended was held yesterday the ratification of the people of this city and neighborhood, on the recent event in Baltimore. The course of the seceding delegates was approved, and the nomination of Breckenridge and Lane was received unanimously and enthusiastically.

ST. LOUIS — By the pony express we have advices from Carson Valley to the 8th inst. Vast preparations are being made in the neighborhood of Carson Valley for a campaign against the wild Indians, who daily commit depredations upon the white settlers. A sufficient force is already in the field to subdue the Indians, or to drive them beyond the mining limits. An army messenger reports that the Indians have fled to the mountains without having fought with the U. S. troops.

The Huntsville Item tells of a woman who poisoned her mistress about twelve miles north of Centerville, Leon County. The poison was arsenic, and was administered in milk, of which, fortunately,

the lady drank sparingly, and escaped death. The woman, strange to say, was not handed over to the law, but will probably be sold, to furnish, at some other time, the particulars of a "horrible affair."

THE NEW GOLD MINES  
The San Antonio Ledger of the 28th ult., says that Messrs. Bell Brothers, silversmiths of that city, had assayed a small bag of dust from the newly discovered mines in the neighborhood of Santa Rita, and pronounced it in quality equal to that of the best of California gold.

BUILDING PERMITS  
TAHOKA — City building permits issued here through the first six months of the year were for construction costing a total of \$330,800. The June total was \$40,500.

HOME FROM TRIP  
Mr. and Mrs. Bobby Blacklock, Belinda and Buddy, spent last weekend in the home of her sister and family, Mrs. Peggy Williams, in Florian, La.

PLAN VACATION  
Mr. and Mrs. Lee Ward and children left on Monday on a two-weeks vacation. They plan to spend several days in California, where they will take the children to Disneyland. Ward is superintendent at Postex Mills.

SIGN FOR PAVING  
TAHOKA — Property owners here have signed up for 24 blocks of new paving out of a probable total of 37 or more blocks, according to J. M. Uzzle, city secretary.

## I Give You Texas . . .

By BOYCE HOUSE

It was a drizzling, gloomy day and a windshield, smudged with mud whenever another car passed, made driving a task. As I pulled into a service station, the thought arose: Here is a man who is sheltered from the weather and safe from the hazards of the highway. The proprietor, as he filled the gas tank, asked, "Do you drive around over the State a good deal in your work?"

"Yes," I replied.

He continued, "I just stay here by the road and watch others go by. You have a job that is real living."

People who don't make speeches think that it is a simple matter for an experienced speaker to make one.

How mistaken this idea is! In the space of 11 months, this chronicler has made eight addresses in the Lower Rio Grande Valley. On an average, I use 20 jokes in a speech—that's about one per minute. For fear that someone at one of the meetings will be present at a later one,

eight completely different speeches were made. This required about 160 stories and that is about equal, in words, to one-third of the book, "I Give You Texas."

And it's not as simple even as that. You can't use just any stories; they have to have a purpose, an idea to emphasize and they must be fitted into a pattern; so, with the planning, the selection of material, going through it to get it in hand and the physical and mental effort of actual delivery—besides the worry as to whether the remarks will flop—this all adds up to a serious undertaking, even if it is a humorous speech.

Waco has a "midget market." Sappy Sam says, "I didn't think Waco would have enough midgets to support a market."

A sign on a little store in Austin, "Yep, we're open."

## Scout event is to have TV star as honor guest

LUBBOCK — Ten-year-old Jon Provost, who stars as "Timmy Martin" on the television series "Lassie", will be honored guest at the South Plains Council's Golden Jubilee Boy Scout Camp-oree campfire ceremonies at Mackenzie State Park, Saturday night, July 23, according to John Clardy, assistant scout executive of the South Plains Council.

Young Jon will be accompanied to Lubbock by his mother, Mrs. Bion Provost. They will bring with them one of "Lassie's" three-month-old puppies which will be given to some Boy Scout camper at the Camp-oree.

Now in his third year on the "Lassie" series, Jon is a veteran motion picture actor. He starred with Jane Wyman in "So Big"; he appeared with Grace Kelly and Bing Crosby in "Country Girl" and with Teresa Wright in "Escape in Japan".

## DOLLAR VALUE— PLUS

In an emergency the value of medicine can hardly be reckoned in dollars. Medicine is priceless when needed.

Yet it is an interesting fact that nationally the average cost of a pharmaceutical prescription is about \$2.50—and more than half of all prescriptions cost less than \$2.00. Although higher than 20 years ago, the increase in the cost of medicine lags far behind that of other, and less essential, commodities.

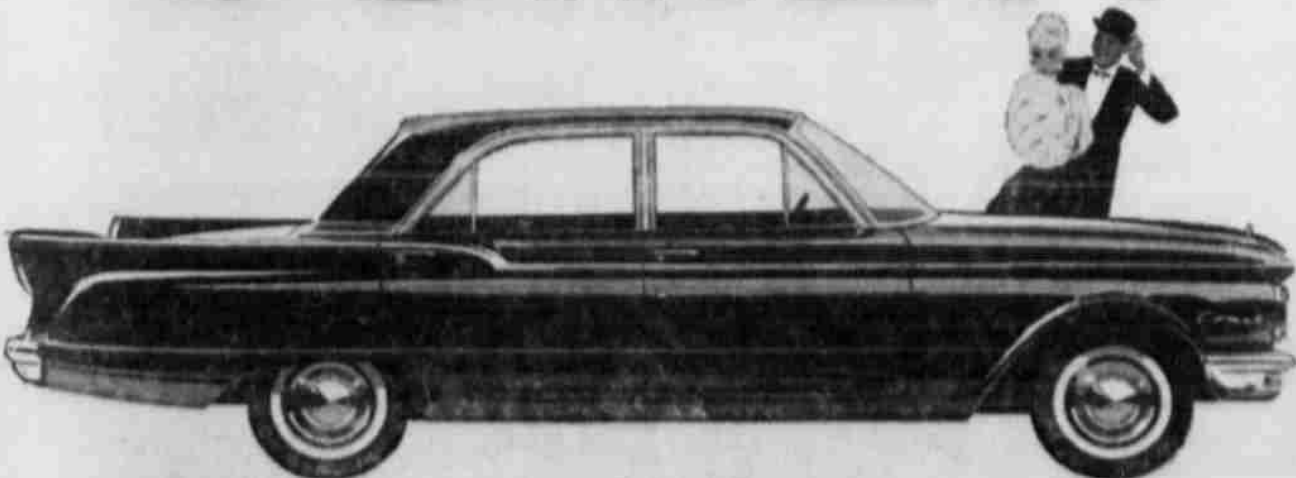

When you purchase a prescription you are sharing in the fruits of scientific research. You are getting today's best buy.

## Sweet Adelines to hold meet tonight

Mrs. Lorrye Lou McAlister has been appointed temporary secretary of Post's newly organized Sweet Adelines, Inc.

Georgette Doss of Corpus Christi, regent of the organization, met with interested persons in Post July 1 for an organizational meeting, explaining procedures, requirements, etc., for setting up a local chapter. Since that time 17 women have joined together for a Post chapter.

The Sweet Adelines, Inc., is an international organization, formed as a woman's "barbershop harmony" group, similar to the renowned barbershop quartets of yesterday. It was first organized in Tulsa, Okla., when all women interested in singing barbershop harmony were invited from all parts of the country for a quartet contest and to set up a national organization. Over 10,000 women are listed today on the international roster.

The Post group will meet tonight at the home of Mrs. J. L. Ballentine, 310 South Avenue F, and all interested women are invited to attend. Time for the meeting is 7:30 o'clock.

### Irrigation and soil management aid productivity

COLLEGE STATION—Since soil is one of the most valuable assets a farmer possesses, its care and management should be a primary concern.

Much of the land in Texas is irrigated, and this poses additional problems and considerations for the farmer. To be able to manage this irrigated land correctly, he must understand the processes of soil formation, the texture and structure of the soil, the physical condition and organic content, the relationship between soil and water, the use of fertilizer on irrigated soils, the development of plants, and the sources of plant nutrients. These factors must also be taken into consideration by the farmer who is trying to decide whether or not to irrigate.

John Box, assistant extension agronomist, and William F. Bennett, extension soil chemist for the Texas A&M College System, have written an informative and comprehensive publication on the irrigation and management of Texas soils. They discuss the many aspects of irrigation, and the publication should be helpful to anyone who is considering irrigation or who already operates an irrigated farm. The bulletin may be obtained from the local county agent or by writing the Agricultural Information Office, College Station, Texas. Ask for B-941.

Prompt, satisfactory payment of insurance claims is the kind of service we take pride in rendering. It's also the kind of service we know you need when an accident occurs. Maybe we don't have the check in hand before the car is towed away, as the cartoon indicates, but we do emphasize prompt and fair payment of all claims.

# Bring A Friend To Church

★  
**Growing...**

Reaching new heights... each week growing a little more in stature. Each day increasing in knowledge. Each year growing a little closer to manhood. All because he has been provided proper nourishment, training, and guidance.

Help him to grow in knowledge and stature with the Lord. Take him to church each Sunday so that he may have a well-rounded and full life.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

# More machines used in gathering cotton

STATION — Increasing mechanization marked the cotton harvest in Texas. Working with the national machine stripping and picking for 44 per cent of the upland cotton harvest earlier, it was 35 per cent, still predominated.

Survey by the Agricultural Service, in cooperation with growers, compressmen and ginsmen, shows that 42 per cent of the state's 4,371,000 bales was hand snapped, and 14 per cent, compared to 16 per cent, respectively, in 1959. Machine picking increased from 31 per cent.

In comparison, the 1959-60 average was 39 per cent hand picked, 18 per cent, hand snapped, 31 per cent, machine picked (a new high); and 12 per cent machine stripped. A year earlier, growers harvested 44 per cent by hand picking; 22 per cent hand snapping; 21 per cent machine picking; and 13 per cent by machine strippers. Texas, Oklahoma and New Mexico, 48, 34 and 5 per cent, respectively, were the only states to employ machine stripping. South Carolina led in hand-picked cotton, 67 per cent. California was first in machine picking with 83 per cent. AMS survey also reveals Texas growers paid an average of \$5.94 for ginning and wrapping each 500-pound gross-weight bale. A year earlier it was \$15.40. Charges for bagging and ties, alone, averaged \$4.34 a bale, 8 cents more than in 1958-59. The national average last season was \$15.02, total charges, and \$4.29 for bagging and ties only.

## Woman answers rattle request

HAMLIN—Mrs. Jack Russell of Hamlin, who was the only double prize winner in the Sweetwater Chamber of Commerce's recent Rattlesnake Round-up, has received a request from a Kingsport, Tenn., man for a snake rattle.

Jacob W. Carter wrote Mrs. Russell that he is a retired paper maker and collects bells and such things as a hobby.

"I would like to have one of those snake rattles to put in my fiddle as I've always heard they make a fiddle sound better," Carter wrote.

Mrs. Russell has sent Carter several rattles.

Splinters on the ladder of success are much sharper on the way down.

PORTRAITS FOR 'HALL OF FAME'

Dmitri Vail, famous portrait painter, is shown here with his portraits of Shirley Jones and Maurice Chevalier, which are being placed in the State Fair Music Hall in Dallas, as part of the permanent collection in the "State Fair Music Hall of Fame," on display during the State Fair Musical's 19th summer season, which runs through Sept. 4. Other Dmitri Vail portraits, all painted from life, to be seen in the "Hall of Fame" are Anna Maria Alberghetti, Jack Benny, Jeanette McDonald, Liberace, Peter Wolf, Hyman Charinsky, and Lehman Engel. Two more stars are to be painted by Vail in 1960 for the collection.

### THEY'RE FOR EVERYONE'S PROTECTION

## Cheating on traffic laws can be deadly, reminds safety official

"Traffic laws are, basically, for the protection of all citizens and the efficient movement of traffic. Cheating on traffic laws, then, will not only disrupt traffic, but will eventually lead to a tragic, needless death or crippling injury."

This warning was issued today by J. O. Musick, general manager of the Texas Safety Association, in connection with TSA's Summer Slow Down and Live Campaign.

"Some people think you can violate traffic laws freely . . . just so long as you don't get caught," he said. "Nowhere is this more evident or more fatal than in traffic."

"Persons who hire attorneys to ascertain their legal rights and obligations in business and property matters think nothing of risking their lives by driving without a good knowledge and a respect for

traffic laws."

"Even if you have no regard for your personal safety, consider these consequences:

"When you drive faster than the speed limit, make wrong turns, go through stop signs or red lights or pass improperly, you run these risks: A traffic fine; damage to your vehicle that may amount to hundreds of dollars; medical expenses; time and income lost from your job; damage suits; possible loss of your driver's license; lawyer's fees; and, you create anxiety for your family.

"Add to these the many indirect costs such as higher insurance rates and increased taxes, plus the suffering and anguish even a minor traffic accident could cause, and you have a real case for safer driving," Musick said.

Commenting on the role of law enforcement agencies, he said the Highway Patrolman or policeman on the corner, can only be as effective as the public will permit him to be.

"Once the public is convinced that they have a personal responsibility for traffic safety," Musick said, "we can make further inroads into the shocking traffic accident record which last year killed 2,453 persons on Texas streets and highways, and injured 139,846.

# It's the Law in Texas . . .

## TREASON

The history of liberty often shows that a would-be tyrant likes to accuse his opponents of treason. So, to safeguard our liberty the constitution itself sets out the kind of proof we need to find someone guilty of treason.

For this reason America has had relatively few cases of treason. Not so in early English and Roman law. "Treasonous acts" covered many things, in fact, anything that seemed to threaten the community safety.

In the fourteenth century the English tried to define treason: Since every subject owed allegiance to the King, trivial breaches of a private nature became "petite (small) treason." But a subject disloyal enough as to attack or plot against the king himself was guilty of "high" treason. The kings liked this: For one to imagine the king's death became treason subject to death.

The broadened treason widened further to include crimes against persons. Later even the king himself was not exempt: In 1649 they indicted, convicted, and beheaded King Charles I for treason.

King Henry VII made it high treason to slander Queen Anne or her children. Failure to take an oath not to slander the queen itself became treason.

Under Elizabeth I it became treason for anyone to hold a religion which did not conform to the crown's.

Conviction of treason was easy. In some cases you needed no witnesses. Trials were short and the accused could not have defense counsel.

In conflicts for power, the losing politicians often became "traitors" as they do in many countries to this day. Our early settlers lived in troubled times with the coming revolution creating new factions. For them treason was also a frequent accusation.

But after the revolution the founding fathers and the people had had enough.

They decided to limit "treason" and faced these problems: Should the new executive put down rebellious and define treasons himself? Should the Congress during "troubled times" have power to define treason?

No. The new Constitution took treason out of politics. It said treason "shall consist only of levying war against the United States or in giving aid and comfort to the enemy."

## O'Donnell to get dial telephones

O'DONNELL — O'Donnell is to get dial telephones, with the change-over scheduled for completion in January.

The change-over to dial was announced by Mrs. Bill Davis, owner of the O'Donnell telephone system at a recent called meeting of the city council.

A new brick telephone building is to be constructed on lots just

south of the Assembly of God Church, with construction scheduled to begin in the near future.

## Two Post girls attend annual Youth Assembly

ABILENE—Two students from Post registered for the Northwest Texas Methodist Youth Assembly, held on the McMurry College campus, July 4-8. Featured speaker was the Rev. Glen Mingledorff of Smyrna, Tenn.

Rev. Mingledorff is now a Methodist pastor at Smyrna, and for five years was with the Methodist Church's Youth Department in Nashville. He is known as one of the outstanding youth workers in Methodism.

Director of the assembly is the Rev. Charles Lutrick of Lubbock, executive secretary of the board of education of the Northwest Texas Conference.

Other featured speakers and teachers included Allene Ford of New York City, secretary of youth work for the Women's Division of Christian Service and former director of Christian education at Bethany Methodist Church, Houston.

The week's activities provided training for the 414 high schoolers in Bible, worship, singing, recreation and program planning.

Attending from Post were Beverly Young and Helen Long.

## "From 3 to 13 My Dishes Get Clean.. Automatically."

says Mrs. Don Winter, 1401 W. Beaver, Guymon, Okla.

Here's an enthusiastic homemaker who fully utilizes her electric dishwasher, whether it's just the family three for breakfast or a friendly dinner group of thirteen. In either situation, Mrs. Winter merely "pushes the button" for sanitary, clean dishes. Incidentally, all the dishes used by the thirteen people in the actual dinner party pictured easily went into Mrs. Winter's electric dishwasher with plenty of room for proper washing.

"OUR ELECTRIC BILL IS THE BIGGEST BARGAIN WE HAVE"

It's the man of the house who usually pays the bills and Mr. Winter is no exception. Despite unlimited use of electric service in the Winter home, Mr. Winter is happy with the low cost of his electric service. No wonder he says, "Our electric bill is the biggest bargain we have."

# State Capital NEWS

By Vern Sanford

AUSTIN — Things are rather quiet around the State Capitol these days.

For one thing, it's the "off season," the hiatus that regularly occurs between state elections and the convening of a new Legislature.

For another, it's vacation time with a part of almost every agency staff off to forget it all for a time.

But mostly, for this week, the Austin lid stems from most people's suspensive interest in the activity of Texans in Los Angeles. Gov. Price Daniel, vice chairman of the Texas delegation to the National Democratic Convention, and numerous others have been away for several weeks working in behalf of Sen. Lyndon Johnson's nomination for the presidency.

Despite these distractions, state government goes on. Studies are under way on many subjects, on budgets, tax plans and other future legislation. It's important work, but quiet, during this digging and analyzing stage. It'll break into the news next fall as reports are made and trial balloons are run up on bills to be introduced in January.

Surest indication that state government is still on the job is that even now it's hard to find a parking place near the Capitol or the adjoining state office buildings.

During the summer a dozen or so parking slots by the Capitol's east entrance are set aside for tourists. As a rule, tourists don't keep them filled, and Capitol guards are regularly beset by the persuasiveness of local people who need a place "just for a minute."

**NO TURNING BACK**  
Child adoption procedures, under Texas law, are about as final as a thing can be—more so than marriage or divorce.

Texas Supreme Court underlined this in a recent decision that denied the right to change her mind to a mother who had given written permission for her children to be adopted.

In the case at issue, the mother, a widow, gave written permission for her two children to be adopted. Two months later, having remarried, she sought to regain the children.

Lower courts held in favor of the natural mother, but the Supreme Court ruled that only fraud could be a basis for revoking of adoption consent.

Said the court opinion of the adoption laws: "The Legislature had the safety, education, care and protection of the children uppermost in mind and not primarily the contentment or welfare of either the natural or adoptive parents."

**NO MISUNDERSTANDING**  
In another ruling involving adoption, the Supreme Court held that an adopted child could not inherit a trust set up for a direct descendant.

As a result, a four-year-old boy lost the chance to claim \$630,000.

In the case originating in Dallas, lower courts had upheld the child's claim to the money from his late grandfather's estate.

In his will, the grandfather had instructed that the \$820,000 trust be set up if "any child of my son is born after my death." High court ruled that this made it highly unlikely that the maker of the will intended the money to go to a child born to persons other than his son and daughter-in-law.

**ROAD CLOSED**  
If Texas truck licensing law had a loophole you could drive a truck through the State Supreme Court has, in effect, halted the traffic.

High court ruled that a motor freight line cannot register and pay license fees on its trucks in Texas and use Mississippi licenses on its trailers. Texas fee for a truck trailer is \$228, compared to \$10 in Mississippi.

High court ruled that if the truck line is resident in Texas, it must pay the Texas fee for the trailers, even if it pays in Mississippi, too. Result: \$20,000 more taxes owed by the line in license fees to the State Highway Department.

**OIL ON THE HIGHWAYS?**  
On the heels of a U. S. Supreme Court decision that Texas owns its tidelands 10 1/2 miles out comes a ruling that the state also owns the right-of-way along public roads.

Atty. Gen. Will Wilson ruled that the state, not the county, owns the road right-of-way and that the counties cannot lease the land for mineral development.

Whether the state should exercise its right and lease right-of-way lands for oil and gas exploration probably will not be decided until the Legislature sets a policy.

Involved is some 1,200,000 acres of land on 328,000 miles of public roads, some of it across areas with oil-bearing strata.

**READING, WRITING, DRIVING**  
State Board of Education took a jaundiced view of a proposal of state-supported driver education in public schools. Plea for driver education, one of the main planks in Governor Daniel's program for increased traffic safety, was presented by Brad Smith, director of the governor's Highway Safety Commission.

"Driver education in the schools is the only way to reduce the flow of uneducated drivers into the stream of traffic," Smith declared. A statewide driver training program has been the goal of the huge Texas Federation of Women's Clubs for some years.

Board members said they felt the matter did not properly belong in a school curriculum. They declined to make a recommendation to the Legislature.

**LEGAL TEST PROBABLE**  
Board of Education decided to consider again in September the dilemma of school districts which stand to lose their state aid money under terms of a 1957 law governing school integration.

Under this law, districts which integrate without approval in a local election automatically lose state aid.

Dallas and Houston schools are under federal court order to integrate this fall. Houston voters turned down integration. Dallas election is set for Aug. 5.

State Education Commissioner J. W. Edgar said he had written Houston and Dallas school authorities telling them their state aid would have to be cut off if they integrated without a voter mandate.

Board discussed seeking an attorney general's opinion on the problem, probably in September after the Dallas election.

As one high school student in Philadelphia wrote: "This certainly is a painless way to learn geography, spelling, English, history, and most of all to understand the people different from the next door neighbors. As for me personally I have gained better school records."

We got a big chuckle out of Editor Pat Bennett's front-page column, "Realities," in last week's *Crosbyton Review*. It seems the Review ran a big "house ad" in its July 4th issue extolling the beneficial powers of information in keeping a democracy healthy. In big type, the messed-up sentence was supposed to read: "The Review staff makes a conscientious effort to keep its readers abreast of events in county, precinct and state affairs as well as making editorial comment." The way it came out was: "The Review staff makes a conscientious effort to keep its readers as well as making editorial comment." Shucks, Pat, what paper doesn't?

The Review, in the same issue, also reported that Crosby sheriff's officers had made quite a haul during the week, nabbing some five or six Lubbock bootleggers making runs into the big city from Post—referred to as that "nasty to the South." One pair of Mexicans was nabbed twice with carloads in three days.

The Dispatch's advertising columns today carry a lot of bargain specials for the thrifty shopper. You'll find July clearance sale ads for Wacker's, Lavelle's, R. ## Capt. John E. May is at Fort Bliss

FORT BLISS—Capt. John E. May of Post will reach the mid-way point of two weeks' summer training with the 413th Civil Affairs Company, South Plains Army Reserve unit, here Saturday.

During the week the 413th participated in a field training exercise, Operation Dry Run, The 413th, along with the 321st Civil Affairs Group of Albuquerque and the 490th Company of Abilene, worked problems connected with the occupation of the mythical nation of Aggressiva.

Inspecting the units at their bivouac areas were Lt. Gov. Ed V. Mead of New Mexico, Maj. Gen. C. Stanton Babcock, commanding the VII Army Corps; Maj. Gen. John P. Jolly, New Mexico's adjutant general; and Col. Joseph C. Sandlin, representing the Office of Civil Affairs, Washington, D. C.

Site of the exercise was the desert maneuver area east of the main post. Next week the 413th will train on the post and go to the range for firing.

Maj. C. R. Hutchison of Lubbock, unit executive officer, is serving as commander in the absence of the newly-named commanding officer, Lt. Col. William M. Pearce of Lubbock.

At the conclusion of Monday night's meeting, the superintendent told the board that the next regular meeting, which will be the second week in August, will be held in the new high school building.

Those present at Monday night's meeting were Supt. Smith, Trustees E. R. (Buster) Moreland, Russell Wilks Jr., Burney Francis and Malcolm T. Bull.

## 5 charges filed by tavern man

Nine complaints were filed in Justice of the Peace J. C. Roberts court here during the past week—five of them on charges of disturbing the peace in one of the local taverns.

The disturbing the peace complaints, all brought by Johnny Cline, were for difficulties at one of the taverns last Friday night. Fines and costs assessed in each case are noted: Norman Sherman, \$24.65; Richard G. Bourn, \$24.65; Robert V. Smith, \$24.65; W. E. Silva, \$24.65; and Raymond C. Hahn, \$24.65.

Gary Boyd Robinson was booked Friday by Deputy City Marshal Buford Finchum on three vehicle charges, speeding, reckless driving, and loud and excessive muffler.

Other complaints filed included: Crescencio Espinoza, no driver's license; Joe E. Findley, speeding, July 11; Tom Alan Drake, speeding, July 11.

## Sundown liquor election is set

LEVELLAND — The Hockley County commissioners' court has set Aug. 6 as the date of an election at Sundown on the question of legalizing the sale of alcoholic beverages for off-premises consumption.

Commissioners called the election after determining that 91 signatures were required on a petition asking the vote. A petition bearing 95 signatures was filed earlier and only one of those names was stricken, that on a technicality.

The balloting will be only the second on the liquor issue in Hockley County history. In 1940, voters in the entire county defeated a "wet" proposal, 1,403 to 230.

### COUNTY AGENTS' COLUMN

by Lewis C. Heron  
COUNTY AGRICULTURAL AGENT

#### BAIT MIXTURES FOR GRASSHOPPER CONTROL

Within the last few days we have had requests for information on how to prepare grasshopper baits. Under certain conditions baits may give satisfactory control of grasshoppers. However, now that most of the grasshoppers are in the adult stage, they will be very difficult to control with anything. In some instances, baits may be preferred rather than a spray or they may need to supplement the spray program with baits.

**Preparation of Baits**  
Using Aldrin it takes 2-3 ounces of the active ingredient per 100 lbs. of bran and to get this it would take 1/2 to 2-3 pt. of 2 lb. emulsion concentrate.  
Using Heptachlor it takes 2-3 ounces of the active ingredient per 100 lbs. of bran and to get this it would take 1/2 to 2-3 pt. of 2 lb. emulsion concentrate.  
Using Chlordane it takes 1/2 lb. of the active ingredient per 100 lbs. of bran and it would take 1 pt. of the 4 lb. concentrate or 1/2 pt. of 8 lb. emulsion concentrate.

Using Toxaphene it takes 1 lb. of the active ingredient per 100 lbs. of bran and to get this amount would take 1-1 1/2 pt. of 8 lb. Emulsion concentrate.

To prepare the bait, use emulsifiable concentrate as directed on the label. Do not use more than 100 pounds of bait per acre. Use enough water (about 20 gallons) to make a moist, easily mash. Spread the bait uniformly at the rate of 20 lbs. per acre.

**Precautions**  
Do not use baits for areas of grass being grazed by livestock. Keep bait where livestock cannot reach it. All the insecticides recommended for grasshopper control are poisonous and safety precautions should be employed in applying these materials.

# Three clubs scrap for lead as Little League end nears

Manager Luke Bilberry's Tigers racked up nine runs in the top of the fifth to take a commanding lead over the Corvairs, who were leading 8-6 before the Yankee uprising.

Charles Landtroop's three-run homer in the top of the first helped get the Yankees off to a 4-0 lead, but the Corvairs knotted the count in the bottom of the first by scoring four runs on just one hit.

Those of us who got home from work in time last year to see the major leagues' all-star game played on the West Coast, had no such luck this time. Monday's game was played in Kansas City, and about all of that we had time to see was the introduction of the players. Wednesday's all-star contest, played in New York City, gave us a little more time at the noon hour to see some of the game, but not much. We're in favor of having the all-star games played on legal holidays . . . to give the working man a chance to see them.

District playoffs are coming up for the Little League and Babe Ruth League All-Stars. The Babe Ruthers go to Levelland Monday to open their playoffs, and the Little Leaguers will be at O'Donnell on July 23. The more fans going along to support these youngsters, the better chance they're going to have . . . and we think this season's all-star aggregations rank with the best ever assembled here.

It isn't our fault that on this sports page last week we had the Little League season ending a week too soon. That's the way the Summer Youth Program schedule had it, and no one bothered to tell us otherwise. Too late, we learned that the final three games of the LL schedule were inadvertently left off the program.

Before the season closes, we want to add our word of thanks to all who have helped this summer, especially the umpires. They've done a good job and nearly all the ribbing they've come in for has been of the good-natured type.

The biggest chuckle we got at one of this season's games came one evening when a big German

police dog wandered onto the diamond, and a fan yelled and asked the umpire, "Say, ump, is that your seeing eye dog?" Such things as that, though, umpires have got to expect.

Another good one was when one of the umpires ran into a wild crowd at one of his games and later told his wife he thought it would be better if she would stay away when he was umpiring. He said, "I know it is embarrassing to you when they boo me." "It wasn't so bad," she replied. "I also stood up and booed."

Yankees took the league away from the Tigers by defeating them, 8 to 2, last Thursday night, strengthened their grip on the Corvairs Saturday and went further ahead by defeating the Red Sox 15 to 9, Monday night in a game that has been protested by Tiger manager.

The Tiger and Red Sox protested the game in early innings, but since the Sox won, the Tiger manager's protest takes precedence. Protests are expected to be on within the next few days. Interference with the game led to the protests, according to the official scorebook.

The game went eight innings before the Red Sox exploded for four runs in the bottom of the ninth to break a 9-9 deadlock. Six hits by Mike Owen, Nichols, Johnny Jones, Dick and Pete Morales led to the Tigers' undoing.

Simon Vargas, who had replaced Bobby Dean after five innings was the losing pitcher, with the winner, Owen started the Red Sox, with Roy Long Nichols coming on in relief. The night's opening game, between Bing Bingham's Dodgers and four runs in the first inning held on the rest of the game against Manager Bill Cates' Tigers.

My Bartlett went all the way as winning pitcher, while Lee and the Corvair starter, was led with the loss, Billy Cates and Roy Moreau pitched in relief on Friday night, the Yankees

FIELD WAS DRY, BUT ROAD WASN'T

Following last week's torrential rains, the unpaved road leading to Little League Park was a quagmire. Here is one of the many cars that stuck last Thursday evening and were pulled out by Little League President Lee Ward with his jeep. This week, the road is improved—through the courtesy of the county.—(Staff Photo.)

## John Blocker and Billy Wood

### Two Post coaches resign positions

The Post High School coaching staff is short two members this week following the resignations of John Blocker and Billy E. Wood.

Wood, who had been employed as girls' basketball coach, informed the school board in his letter of resignation that he had accepted the position of head coach at Cotton Center. He coached at the Three-Way School last year.

Blocker, who came here in the summer of 1959 as an assistant on the staff of Athletic Director and Head Coach Vernard Alexander, resigned to accept the head coaching position at the Hart

School. Last year, Blocker coached freshman football and basketball, assisted with varsity football and with the varsity track team.

## Junior High football meeting to be Friday

Boys who will be in the 8th or 9th grade this school year and who plan to play football are asked to meet at the fieldhouse at 5 p. m. Friday.

The call for the meeting was made by Glynn Gregg, who is beginning his second year as a junior high school coach here.

In Babe Ruth League Play

# Sox threaten leading Cubs

Manager Ben Howell's White Sox and Manager Wayne Baldwin's Cubs are to clash Friday night in a Babe Ruth League game that either will give the Cubs the championship or bring the Sox up into a tie and make a play-off game necessary.

The game was scheduled for Tuesday night, but was postponed because of threatening weather.

Meanwhile, preparations are being made for the league All-Stars

to participate in the district Babe Ruth Tournament starting Monday at Levelland.

The Post All-Stars are to meet the Lamesa entry at 6 p. m. Monday in a first round game.

League officials today were checking batting averages to see what changes, if any, would be made in the All-Star roster selected three weeks ago for play in Lubbock's Teen-Age Tournament.

The Indians and Braves, both out of championship contention, also are scheduled to play Friday night. League President Martin Nichols said, however, that if the White Sox beat the Cubs in the first game, the managers of the Indians and Braves might be prevailed on to call off their game so the Sox and Cubs could play a second game the same night to determine the league champion.

In the only game played last Friday night, the Braves surprised the White Sox, 21-10, but had to forfeit the game because of using an ineligible player, league officials said.

For the third consecutive time, Levi's Restaurant Indians, managed by Pat Franklin, had to forfeit a game because of not having enough players. The forfeit was to the Cubs, sponsored by Texas Electric Co. and Cockrum Printing Co.

The Braves' sponsor is Garza Tire Co. and sponsor of the second place White Sox is Edwards Appliances.

Billy Ramage is the Braves' manager.

## Post Would-Bes to take part in baseball meet

Post's baseball club, which has been given the ambitious name of "Would-Bes," will compete in the National Baseball Congress regional playoffs at Lubbock Aug. 4, 5, 6 and 7.

The team has a number of warm-up games scheduled between now and the playoffs. They were scheduled to play the Post Tigers at 5 p. m. today at the Babe Ruth League Park, and then take on the Lubbock Rebels on the same diamond Sunday afternoon.

Walter B. Holland is manager and coach of the Would-Bes, with Emmett Goode assistant manager and coach.

Anyone with baseball ability who wishes to try out for the team is asked to attend afternoon workouts at the Babe Ruth Park.

A number of business firms have donated a total of \$114 for purchase of equipment, insurance and entry fees for the NBC playoffs.

Team officials said they wish to thank the following firms and individuals for their financial support:

Cecil's Liquor Store No. 4, Little Mexico Restaurant, Warehouse Cut Rate No. 5, Racy Robinson, Dzell Williams, The Cottage Lounge, B&B Liquor Store, Ralph Lowe Cut Rate No. 2, Pinkie's, Drew's Drive-in, Larry's Package Store, Barbecue Hut, Post Sales Co., Cattlemen's Bar, Lazy S Package Store, R. M. Ricketson, The Western, Caprock Liquor Store, Hitching Post.

According to County Agent Jones, the association has bought 125 Game Cooperator signs which will be placed on fences of the landowners participating in the program.

Much of the land involved is in the open range country bordering the New Mexico boundary. Approximately 400,000 acres of land is under irrigation in Parmer County, it being one of the principal grain sorghum producing areas of the State.

Programs of this kind are encouraged by the Commission, according to Mr. Cutbirth. Birds are provided at 50 cents each, which is approximately half the production cost at the Tyler Hatchery.

## 'Who Was That Lady?', with Curtis and Martin, coming to theatre here

"Who Was That Lady?", the Ansark - George Sidney comedy starring Tony Curtis, Dean Martin and Janet Leigh, will show at the Tower Theatre on Sunday, Monday and Tuesday.

Co-starred in the Columbia Pictures' release are James Whitmore, John McIntire and Barbara Nichols.

Tony Curtis, so superb a comedian in "Some Like It Hot" and "Operation Petticoat," again steps out in a farcical part as the handsome chemistry prof whose romantic misstep is the reason TV writer Dean Martin dreams up a wildly imaginative explanation.

Martin's fancy alibi has it that he and Curtis really are FBI agents. As a result of Martin's cover-up antics, the two tangle with real agents of the FBI, with foreign agents, and a couple of blonde bombshells.

Whitmore and McIntire are the real FBI men whose patience is sorely tried by the increasingly desperate impostors. The film's climax, wherein Curtis and Martin are trapped in a sub-basement of the Empire State Building and think they are in an enemy submarine, is said to be one of the wildest and funniest in comedy.

**ATTEND GLADIOLI SHOW**  
Mr. and Mrs. V. L. Anderson visited in Lubbock Sunday with Mr. and Mrs. Gaylord Anderson and daughter, Holly. They attended the Gladioli Show Sunday afternoon.

Rain water is not pure since it collects impurities from the air in falling.

## Bible Thoughts

### "JESUS' PARABLES"

By RONNIE PARKER

A parable is a method of speech in which a moral or religious truth is illustrated from the analogy of common experience. One has said that a parable "is a earthly story with a heavenly meaning." An important part of our Lord's teaching was by means of parables. His teachings contain some 39 parables. Jesus clothed the truths of the Kingdom in images in order to make them more intelligible to his hearers and to impress them indelibly on their memory.

Brother Jimmy Wood of Odessa, Texas is speaking at the Church of Christ twice daily this week on the "Kingdom of Christ as Taught in the Parables of Christ." Seven more services remain in the meeting. You are welcomed at every service. The daily services are held at 7:00 a. m. and 8:00 p. m. On Sunday the services are at 10:00 a. m. and 6:30 p. m. Bible Study is at 9:00 a. m.

## Rotary lawn mower can be lethal tool

COLLEGE STATION—Did you know a rotary power lawn mower blade travels at speeds up to 150 miles per hour and is capable of throwing sticks, stones, or other objects at comparable speeds? Imagine what would happen if you were hit by one of these fast-flying objects.  
Power lawn mowers are now in the majority both in town and among farm people. Along with their increased use has been a closely related increase in accidents involving both operators and bystanders. Most accidents have been due to carelessness or lack of knowledge on the part of the individual.

W. L. Ulich, extension agricultural engineer, offers these suggestions on how to operate your rotary power lawn mower safely and efficiently.  
Always disconnect spark plug wire before working on the blade.  
A clean sharp blade does a better cutting job and requires less power.  
Never operate mower with safety shields removed.  
Make sure all rocks and debris are removed from the area before close mowing.  
Do not refill the gasoline tank when engine is hot or running.  
Run mower as slow as possible to do good work.  
Keep children and pets away from mowers.  
Always be certain of sure footing when mowing on steep slopes.  
Never leave engine running when mower is unattended.  
Make sure mower is steady and under control before starting engine.  
Always be aware of the hazards involved when you are using a power mower. Don't get caught napping.

### Water development spending lags in Texas, census figures disclose

While Texans have been virtually unanimous on the urgent need for development and conservation of water resources during the past decade, actual State spending for such a program has lagged far behind other Western and Southwestern states.  
Figures compiled by the U. S. Bureau of the Census have placed Texas next-to-last in a list of 18 Western and Southwestern states in its per capita spending on water and soil resources.  
The annual per capita expenditure for developing and conserving water and soil resources in Texas was figured at 11 cents, compared with \$2.34 in California, \$1.36 in New Mexico, \$1.13 in Utah, 92 cents in Montana, 87 cents in Wyoming, 84 cents in Arizona, 55 cents in North Dakota, 54 cents in Nevada, 52 cents in Colorado, 35 cents in Oklahoma, 21 cents in Iowa, 18 cents in Nebraska, 18 cents in Kansas, 14 cents in Washington and South Dakota, and 13 cents in Idaho. The only state be-

low Texas on the list was Oregon, which spends 10 cents a head of its population on water and soil.  
The vast progress exhibited by California in taking the lead in water and soil development is pointed up by a proposal which will be voted on this fall. The proposal is to issue some \$1,750,000,000 in State bonds to pay for the world's largest water distribution system, designed to take care of all California water requirements for agricultural, industrial and municipal use for years to come. It has been noted that such a proposal in Texas would likely be regarded as so fantastic as to merit little if any consideration.  
One of the few steps taken by the State toward extending State help in water programs was the approval by the voters some years ago of a \$100,000,000 revolving bond fund to assist local projects by loans when they could be financed in no other way. This brought about the establishment of the Texas Water Development Board, which has yet to complete and finance its first actual loan.  
Meanwhile, some two-thirds of all land under cultivation in California is irrigated, while the total irrigated area in Texas in June, 1959, was 7,140,443 acres. This 7,140,443 acres was less than one-fourth of the 33,683,800 acres counted as cropland in Texas.  
There has been little expansion of irrigated areas in Texas during the past two years.

### 'Drys' victors in Andrews election

ANDREWS — Legalizing of the sale of alcoholic beverages was voted down here Saturday, 2,075 to 823.  
The margin of 2½-to-1 was on the question of legalizing the sale of all alcoholic beverages for off-premises consumption only. The "drys" defeated the "wets" in every voting precinct.  
Technically, the election here was in Justice Precinct 4, but that includes all of the voters and almost all of the land area of the county.

### Packers, stockyards division established in marketing service

COLLEGE STATION—Secretary of Agriculture Ezra Taft Benson has announced establishment of a Packers and Stockyards Division in the Agricultural Marketing Service of the U. S. Department of Agriculture, effective July 1.  
"The scope of expanding activities resulting from the amended Packers and Stockyards Act, and its importance to livestock producers and the processing and marketing industries serving livestock producers, makes it advisable to concentrate the responsibilities and functions under the Act in a separate division," the Secretary said.  
The Packers and Stockyards Act was amended in 1958 to bring under Department regulation all livestock transactions in interstate commerce. The Act also requires investigation and regulatory functions dealing with unfair, deceptive, discriminatory or monopolistic practices on the part of packers.  
Howard J. Doggett, currently Agricultural attaché in Belgium, will head the new Division.

### Tests on toxicities of insecticides studied at state experiment station

COLLEGE STATION — Tests on the residual toxicities of chlorinated hydrocarbon and organophosphorus insecticides to cotton insects have recently been completed by the Texas Agricultural Experiment Station in cooperation with the Entomology Research Division of the USDA. Chlorinated hydrocarbon insecticides tested were toxaphene, dieldrin, endrin, aldrin, benzene hexachloride and heptachlor. Organophosphorus insecticides tested were parathion, methyl parathion, malathion, Guthion and Phosdrin.  
The residual properties of endrin and Sevin appeared to be quite similar in tests on the boll weevil. Based on residual properties alone, toxaphene and dieldrin ranked with endrin and Sevin, but the initial toxicities of dieldrin and endrin to the boll weevil were appreciably greater than those of toxaphene. The mortality rate among weevils confined on spray residues of these insecticides was reduced by 20 to 30 per cent after the exposure of the residues to simulated wind or rain. This reduction could result in failure to control the boll weevil under field conditions.  
Results obtained in tests on the boll weevil paralleled those obtained in cotton leafworm, salt-marsh caterpillar and garden webworm tests.  
Of the organophosphorus insecticides, Guthion appeared to be the most resistant to weathering. The residual effectiveness of Phosdrin was very limited under all conditions, and the rest of the insecticides fell between Guthion and Phosdrin.  
For both the chlorinated hydrocarbon and the organophosphorus insecticides the residual effectiveness of sprays was less af-

fects by weather than that of dust compounds. All spray materials used were prepared from emulsifiable concentrates, and all dusts were formulated with commercial diluents.  
A Texas Agricultural Experiment Station bulletin, B-951, which contains the results of these tests, has been published. This bulletin may be obtained by writing the

### Drouth-breaking rains make prospects look up in Southland-Gordon sections

By MRS. JESSE A. WARD  
The fine rains that came last week brought smiles to the farmers' faces. Many had already begun irrigation and others were getting ready.

Hazel Bean, student nurse at Methodist Hospital in Lubbock, was a Southland visitor Sunday. She was a visitor at the Methodist Church Sunday morning and attended the wedding of Oma Jane Truelock and Jack Watson of Albuquerque, N. M., at the Baptist Church Sunday afternoon.

Mrs. W. J. Kuykendall has been hospitalized since Wednesday of last week. She is showing satisfactory improvement.

**HAS APPENDECTOMY**  
Jackie Dunn underwent an appendectomy last week and is doing fine.

Mrs. Ella Mae Moore, who lives near Los Angeles, Calif., is visiting her mother, Mrs. J. L. Hall. C. W. Gary, a former Southland resident, underwent surgery for a ruptured disc in his spine Thursday. He is in West Texas Hospital, Lubbock.

Ben Wood of Fort Worth was at Southland last week, looking after farming interests. He spent the night with his brother, Riley Wood.

Mr. and Mrs. R. F. Rackler of Portales, N. M., recently spent the weekend with their nephew and family, the J. B. Racklers. Their son and daughter-in-law, Mr. and Mrs. Robert Lee Rackler and family of Lubbock were Saturday night guests.

**CALIFORNIA VISITORS**  
Mr. and Mrs. Fred Mining of Concord, Calif., Miss Ora Mining of Slaton, and Mr. and Mrs. Lehman Mathis of Garmonia were recent guests of Mrs. J. F. Rackler.

Mrs. T. L. Barnes underwent surgery Friday in Methodist Hospital, Lubbock. Her daughter and son-in-law, Mr. and Mrs. Herb Auburn of Long Beach, Calif., are visiting in the Barnes home and with Mrs. Agnes Rinker.

Mr. and Mrs. Clyde Shelton and children of Phoenix, Ariz., were guests of Mr. and Mrs. Carl Chilcote and Joan last week.

Linda Payton attended the annual District 24-H leadership training camp at the Panhandle South Plains Fair grounds in Lubbock Wednesday and Thursday of last week.

Mr. and Mrs. Billy Lester and sons, Gary and Gregg, spent Wednesday with her sister and brother-in-law, Mr. and Mrs. Jon Kestley in Jayton.

**GUESTS OF RACKLERS**  
Mr. and Mrs. William Mayo and family of Amherst were Sunday

guests of Mr. and Mrs. J. B. Rackler and children. Other guests included Elder and Mrs. Jack Courtney of Lubbock, who were Sunday dinner guests.

Mr. and Mrs. Earl Morris spent Sunday afternoon with his sister and brother-in-law, Mr. and Mrs. B. L. Cogdill in Lubbock.

Mr. and Mrs. Claude Roper, Claude, Curtis and Linda, of Wilson, Nelda Roper and Barbara Worley of Lubbock were Sunday visitors in the home of Mrs. Roper's mother, Mrs. J. F. Rackler.

Mr. and Mrs. W. P. Lester spent Sunday afternoon with their sister-in-law, Mrs. C. H. Lester in Lubbock.

Mr. and Mrs. Martin Edmunds and their sons and daughters and families celebrated the recent Fourth of July holiday with a picnic at Mackenzie State Park in Lubbock. Attending were Merwin Edmunds of Lubbock, Mr. and Mrs. S. A. Walls and daughters of Florien, La., Mr. and Mrs. Glenn Edmunds and daughter of Slaton, Mr. and Mrs. Don Edmunds and family, and Dale Edmunds of the home.

**TOUR CARLSBAD CAVERNS**  
Mr. and Mrs. Robert Lee Hagler and Jean and Jaretta Ingles were in Carlsbad, N. M., Friday where they toured the Carlsbad Caverns and returned home Saturday.

Mr. and Mrs. Spence Bevers and children returned home Sunday from their vacation. They visited in San Antonio, where they saw many points of interest, and in Corpus Christi. They spent Saturday night with Mr. and Mrs. Dub Pearce and children in Kingsburg.

Maurice Morris and two friends, Carey Sanders and Murry Batts, of Houston, spent Saturday night with Maurice's parents, Mr. and Mrs. Earl Morris. The young men were on their vacation and are touring parts of the western states, including New Mexico, Arizona and California.

Mrs. Jack Burkett is home and doing fine after undergoing surgery at West Texas Hospital, Lubbock. After being released from the hospital she and the children spent ten days with her parents, Mr. and Mrs. Bryan Landers, while recuperating.

**HERE FROM LOUISIANA**  
Mr. and Mrs. S. A. Walls and daughters of Florien, La., recently spent several days with her parents, Mr. and Mrs. Martin Edmunds, and other relatives. They returned to their home Tuesday.

While on a recent trip to San

### \$400 scholarships offered in 4-H Home Ec projects

A local 4-H Club Girl who really knows her way around the home may be the lucky winner of a \$400 Montgomery Ward college scholarship this year, according to the National 4-H Service Committee, Chicago.

The young homemaker must be enrolled in the 4-H Home Economics program, have satisfactorily completed at least three years of club work, and be over 14 years old before she can compete for this top honor.

Work in the home economics project includes cooking, food preservation, sewing, meal planning, housekeeping, buying and budgets. Developing exhibits, displays and demonstrations are among the stated objectives of this genuinely useful project directed by the Extension Service and the USDA.

The national judging is done on the member's 4-H record book which is compiled during her club career. The comprehensive report contains not only highlights of the home economics projects and other 4-H achievement, but also evidence of leadership, community service, scholastic standing, and personal recommendations from 4-H Club leaders.

Work qualifications are high and competition keen since only six girls will be selected from all 50 states and Puerto Rico where 4-H Clubs are well established. Besides the scholarships, a trip to the National 4-H Club Congress in Chicago is waiting for the highest ranking member in the state.

This is the 38th consecutive year that Montgomery Ward has supported the 4-H program, according to the National 4-H Service Committee which distributes awards through the State Extension office.

### Area ex-students of H-SU slate m. et in Lubbock on July 22

Ex-students of Hardin-Simmons University residing in the six-county area around Post have been invited to an informal backyard meeting at the home of Frank Junell, 4011 Gary St., Lubbock, on July 22 at 7:30 p. m.

Glen Curry of Lubbock, president of the Lubbock area alumni association is in charge of the arrangements for the meeting. Ex-students from Garza, Crosby, Hale, Lubbock, Lynn and Floyd counties will attend.

Approximately 500 Hardin-Simmons ex-students live in the area. Truett Latimer, alumni director for the university, will attend the meeting. He will show a film entitled "Education Is Everybody's Business."

While not dealing specifically with the needs at Hardin-Simmons, the motion picture does relate them to the national program of higher education, Curry said.

The alumni were invited to bring their families to the informal get-together.

In addition to Curry, area alumni officers are Mrs. Lewis Kenley of Lubbock, vice president, and Mrs. Wendell Shelton of Lubbock, secretary.

Antonio, Mr. and Mrs. Weldon McGeehe and family, Linda Robinson, and Clark Cowdrey enjoyed a visit with the Rev. and Mrs. Lyndell Grigsby and baby. Rev. Grigsby is a former Southland pastor. They attended the Sunset Church of Christ, of which Rev. Grigsby is pastor.

In the news last week where Mrs. Hitt, Burkett and Wesley Scott went to Glorieta, N. M., part of the group was not mentioned. They were Mrs. Scott's two sons, Teddy and Mike, and Mrs. J. B. Robinson. Sorry—hope this doesn't happen again.

Carolyn Ward spent last week in Loveland with friends and relatives.

### 400,000 BOYS AND GIRLS ELIGIBLE

### New 4-H auto project is designed to turn out safe teen-age drivers

A new 4-H Automotive program introduced nationally early this year has a potential membership of 400,000 boys and girls. Half this number reaches driving age each year, according to the Co-operative Extension Service which directs the program.

The project is a voluntary undertaking for older 4-H Club members to be carried out over a three-year period. Specialized training will supplement driver education courses given in many high schools, but in some instances will be the only "supervised" instruction available to 4-H'ers in their home communities.

The work assignments will be guided by experienced volunteer adult leaders assisted by state and county highway engineers, police, automotive experts and others qualified to help do the job. One workbook will be used for each year. Unit I covers "The Car and the Highway"; Unit II "Maintenance and Operation"; Unit III "Operating the Car Efficiently".

The Dalai Lama told 2,000 weeping Tibetan refugees at Sarnath, India, that Tibetans will certainly return to their country and regain it.

### Barnum Springs HD Club sees molding plaster demonstration

By LANA HAYNIE  
The Barnum Springs Home Demonstration Club met with Mrs. Wilson D. Williams July 8 for a covered dish luncheon. Mrs. Weldon Reed of Justiceburg gave a demonstration on "Molding Plaster". Members present were Mrs. Avery Moore, Mrs. Bill Long, Mrs. W. H. Barton, Mrs. Wade Ray, Mrs. Pete Pennell and the hostess. The next meeting will be with Mrs. Arda Long July 22.

Visitors in the O. F. Pennell home last week were Mr. and Mrs. Novis Pennell, Mr. and Mrs. Weldon Reed of Justiceburg, Mrs. Dorothy Dugger and grandchildren, Sammie, Debbie and George of Lubbock, Mrs. Carroll Huff, Judy, Mike, Freddie and Morris, Mr. and Mrs. Freeman Clifton, Darrell and Wanda of Spurr, Jim Williams, Mrs. Beulah Pennell and Junior Ross.

Johnny Pennell and Freddie Huff spent Friday night and Saturday with Joe Pennell. Gay Young visited Cheryl Pennell from Tuesday afternoon until Thursday morning.

Mr. and Mrs. Don Long of Lubbock spent the weekend with his parents, Mr. and Mrs. Bill Long, Mr. and Mrs. Tommy Young of Tahoka visited Mr. and Mrs. Bill Long last Monday night.

Mr. and Mrs. Coy Doan and family of Los Angeles, Calif., visited last week with Mr. and Mrs. Rex Weich. Doan is a nephew of Mrs. Weich and a former Post resident.

Mr. and Mrs. Tom Sims returned home Friday after visiting a week with his sister and husband, Mr. and Mrs. Ray Thomas at Buchanan Dam and with his nephew in Longview, Mr. and Mrs. Sims Taylor and family.

Sunday dinner guests of Mr. and Mrs. Bill Norman were Mr. and Mrs. Joe Green, Dannie, David and Rita Jo of Lubbock. Afternoon guests were Mr. and Mrs. Bernard Roberts of Close City and Mr. and Mrs. Cecil Bland, Cecilia and Bill.

Visiting in the Wade Ray home Sunday were Mr. and Mrs. T. B. Mason Sr. and family of Wilson and Mr. and Mrs. T. B. Mason Jr. of Dimmitt and Mr. and Mrs. J. B. Ray of Grassland and the Johnny Rays.

Danny Rose is spending a few days with the Johnny Rays. The Johnny Rays visited the Roland Sullengers in Post Sunday evening.

Mrs. Don Rose and children of Verbena spent Saturday with the Johnny Rays.

Mrs. Johnny Ray, Janet and Danny Rose visited Mrs. Ray's mother, Mrs. W. R. Green in Slaton on Monday.

Pamela Stewart of Graham spent Saturday night and Sunday with Lana Haynie.

Charlotte Covey, Lori and Diana Luttrell of Post visited Janene Haynie Monday afternoon.

### Ag teacher in welding course

D. H. Koeninger, vocational teacher at Post High School, is attending an acetylene welding short course at Texas Tech this week.

The course, which is sponsored by the Texas Education Agency, is being taught by C. B. Edwards of College Station. Edwards is the welding specialist who also teaches the welding short courses in high school adult programs throughout the state.

Before ending at noon Friday, the course will cover the entire field of acetylene welding, which includes cutting, mild steel welding in all positions, cast iron welding, brazing, hard surfacing and aluminum welding.

Previously, Koeninger has taken short courses in electricity and arc welding.

### Former Post woman to attend national convention of GOP

Mrs. Gordon Treadaway of Lubbock, the former Miss Frances Gilley of Post, will attend the Republican National Convention in Chicago next week as Texas state secretary.

Mrs. Treadaway, who is the daughter of Mrs. F. A. Gilley of Post, will be accompanied to Chicago by her husband.

She was named state secretary to the national convention at the state Republican convention held recently in San Antonio.

### SUNDAY IN LUBBOCK

Mr. and Mrs. Donald Ammons and Donna and Mr. and Mrs. Raymond Jenkins and sons spent Sunday in Lubbock.

### Post FFA names voting delegate

At a meeting here Friday night Jimmy Hodges was elected as the Post Future Farmers of America voting delegate to the state FFA convention in Houston next week.

The chapter also decided at the meeting to have a recreation party for any freshmen or sophomore boys who are interested in taking vocational agriculture.

Also discussed was the chapter members' summer trip. David Lee won the \$1 door prize awarded at the meeting.

Refreshments of cold drinks and nuts were served.

### BACK FROM VACATION

Mr. and Mrs. Loyd Mack returned home last week from a vacation trip to Trichham, Graham, Shoals, and Kileen. In Trichham they visited their parents, Mr. and Mrs. O. V. Mitchell.

**Hunting regulations to be set up Friday**

**AUSTIN** — Setting up hunting regulations in counties under regulatory authority will occupy most of the time of the members of the Game and Fish Commission in their mid-summer quarterly meeting here Friday.

Biologists of the Commission will meet in Austin three days in advance, tabulating recommendations following public hearings held in nearly 100 Texas counties during the past two weeks.

Generally, hunting and fishing regulations in those counties will be changed very little, according to Howard Dodgen, executive secretary.

"Biologists are recommending amending the regulations in a number of counties which will make the killing of spike bucks legal," Dodgen said. "Antlerless deer will include the killing of spike bucks as well as doe under the proposal. However, this will be just a recommendation of the field men and the actual administration must be done by the Commission."

Another important question will be liberalizing the dove season because of the increased number of birds apparent this year, he said.

It is possible hunters may get another 10 days of hunting in each zone, or an increase in the daily bag limit.

At a conference in Washington recently it was indicated there is a heavy crop of doves in practically every state. As a result, it was felt the law governing the killing of this migratory bird could be liberalized to permit ex-

**CROSBYTON** — The 13th annual Crosbyton Rodeo, approved by the Southwestern Rodeo Association, is to begin Friday and continue through Saturday, with night performances scheduled.

Roland Reed of Fort Worth is producer of this year's rodeo. The major events will be calf roping, steer riding, double mugging, bareback riding, saddle bronc riding and cowgirl sponsor contest.

Each night's performance will begin at 8 o'clock, with a dance scheduled to follow each rodeo performance.

**Ralls making plans for Golden Jubilee**

**RALLS** — This town has set Aug. 25-27 as dates for its Golden Jubilee celebration.

The event is being sponsored by the Ralls Chamber of Commerce, Lions Club and Old Settlers' Union, with other organizations also volunteering their help.

Tentative plans call for an all-church religious service, an Old Settlers' Day, an agriculture day and the Lions Club Rodeo.

**MOST FREQUENTLY** taught of all non-military defense courses is Radiological Monitoring for Instructors. It is designed to teach technically-qualified adults how to instruct others to detect and measure radioactive fallout which would be spread by wind after a nuclear attack. The training course is stressed because, unlike most other fields, the radiological expert has few counterparts in ordinary civilian life who could be called upon in an emergency. Classes are taught at the Western Instructor Training Center (shown here) in Alameda, Calif.; the Eastern Instructor Training Center at Brooklyn, N. Y., and the Chemical-Biological-Radiological Defense School in Battle Creek, Mich. (OCDM Photos)

## Cub Scouts' Jubilee Field Day scheduled in area for July 23

Approximately 1,000 Cub Scouts, Den Mothers, Cubmasters, and parents of Cub Scouts will participate in the South Plains Council "Cub Scout Jubilee Field Day" on July 23.

Each Cub Scout Pack will plan and carry out its own program on an individual Pack basis. In 1960, the Boy Scouts of America is celebrating its 50th birthday—its Golden Jubilee.

The special "Cub Scout Jubilee Field Day" will be held at the same time 60,000 Boy Scouts and their leaders are attending the National Jamboree at Colorado Springs.

An embroidered emblem will be presented to each Cub Scout by the Cub Pack. The program will consist of games, inter-den competition, and, in many places, water fun events.

### DEFERRED GRAZING

**By Virgil Middleton**  
The recent rains in Garza County have greatly improved prospects for producing a good grass seed crop on native ranges this year. This will make for better range conditions in the future, provided that the operation allows for natural reseeding through moderate use and deferment.

Complete deferment of part of the ranch is worth much more than overall light use, since the seed heads are often the first part of the grass plant to be picked off by the livestock. An effective way to provide for natural reseeding of rangeland is to develop a system whereby one or more pastures are deferred each growing season.

Defering in the late summer and fall is the best way to allow for seed production. Operators

should begin figuring early in the year to set up a deferment program which will fit in with their management operations.
