

Only Soil But Keepers Of The Soil Should Be Protected

only of the soil, but also of the KEEPERS of the soil." Ottinger further observed that Duck Creek Soil Conservation District cooperators can go forward in their safety work assured that farm accidents can be lowered. The Soil Conservation Service, by keeping before its employees the need for safety, has reduced lost time accidents from 28 per million man hours to less than five, he explained.

President Harry S. Truman, in his proclamation designating National Farm Safety Week, urged that every farm family to accept responsibility for eliminating at

least one possible source of farm accidents during the week, which ends July 31, and he also requested all organizations and persons to join in the attack on the menaces which cost the lives of some 18,000 farm residents annually.

Commenting on the President's message, Ottinger suggested that a study of farm safety should be made by each family not during one week a year but during 52 weeks a year.

Examples of the advantages of such constant study, he said could be seen in the safety records of two local public service companies.

In the office of the Community Public Service Company here, there is a sign which reads: "Award for No Lost Time Accident." The first award was received in 1934. There is also an award received for each succeeding year including 1947.

In a National Fleet Safety Contest, which has been going on during the past ten months, the local fleet of the Southwestern Public Service Company ranks fifth out of the 48 fleets. The accident rate is one for every 333,000 miles driven, Ottinger quotes Manager Ted Hibbs as saying.

According to records of the

National Safety Council, motor vehicles kill more farm people than any other type of accident. Other accident causes include: Unsafe drivers, faulty stairways, loose boards with nails in them, rubbish in the yard, weeds, brush and old lumber around buildings, unpainted gasoline containers, loaded guns, loose-fitting clothes, defective hand tools, rotten planks in porches, uncovered cisterns and cesspools, oil saturated on paint tags, loose matches, incorrect electrical fuses (pennies), small rugs at stairs, improperly stored tools, improper hitching to

School Consolidation Election Is Ordered

An election to be held August 21 in four Garza County school districts for the purpose of determining whether or not three of the districts shall be consolidated with the Post Independent School District was called this week by County Judge J. Lee Bowen.

The three districts which might be consolidated with the local districts are Cross Roads Common School District No. 5, Hartford Common School District No. 15 and Barnum Springs Common School District No. 17.

The election was called as a result of petitions signed by residents of the above four districts asking for the consolidation.

For several years the Cross Roads, Hartford and Barnum Springs pupils have been attending the Post Schools as those communities are small and have

no schools of their own. The residents, according to their petitions, and the board of the Post Independent School District feel that it will be of mutual advantage for the local district and the three outlying districts to consolidate so that the school funds of the four districts may be pooled for a bigger, more progressive district.

Post School Supt. G. R. Day said yesterday that the proposed consolidation would not contribute to the overcrowded condition of the local schools, because the local schools will take the children, as they have been doing, whether or not the election carries. The consolidation would, however, result in more funds that can be used to offset the expense of the situation.

The official election order is published elsewhere in today's issue.

The Duck Creek Soil Conservation District reported that on July 23 and 24 two inches were registered at Calgary, .17 was registered at Pleasant Valley, .53 was registered at Graham and .57 was registered at Justiceburg.

Fathers of the boys also may attend, for the same fee. All boys and fathers expecting to attend should pay their fees to Gibson by Saturday, August 7 so that arrangements for transportation and other details can be completed. Gibson is expecting at least 20 boys from Garza County to go, he said.

The \$5.25 fee takes care of all food and other expenses of the three-day encampment, but boys should bring extra money for patronizing the concessions in the park and on the fair grounds. Each person attending also should bring sheets, pillowcases, bathing trunks, a blanket if desired and a change of clothing.

Committee Named To Find Builder Of Theatre Here

A group of Post citizens met this week to discuss the possibility of acquiring a modern theatre in Post.

As Theatre Enterprises, Inc., made no response to a petition signed by a group of Post business men and sent to them several months ago and as no answers to letters on the subject have been received, the group assumed that the corporation does not intend to build a new theatre here.

A committee was appointed to contact other sources that have indicated interest in building a modern theatre in Post, said Sherrill Boyd, Post Chamber of Commerce secretary.

Last year Theatre Enterprises, Inc., announced plans for building a theatre here as soon as building restrictions were lifted. After the restrictions were lifted early this year and attention was called to it in a Post Dispatch article, the corporation wrote a letter to the local Garza Theatre manager, John Hopkins, indicating that lack of materials might delay the project.

REA Line Is Going Up In Verbena Community

Long-awaited rural electrification is on its way to the Verbena Community and plans and specifications have been approved by the Rural Electrification Administration for REA electric service in the Grassburn and Canyon Valley Communities.

The Post Dispatch editor, wrote the Dickens County Electric Cooperative, Inc., at Spur and received the following answer:

"The portion of the present construction to serve Post territory will put the electric service into Kalagary as far down as the Verbena Community. Construction is progressing according to schedule, and electric service should reach those communities this year, subject to delivery of the conductor.

"To date there has been no construction bottleneck due to right-of-way conflicts. However, from time to time some landowner who has been misinformed, or who has not been informed at all, is hesitant to grant permission for the construction of line on his land. It is not the intention of our engineers to inconvenience anyone by placing poles or guy wires in such a manner as to cause them to be a nuisance.

Still, it is utterly impossible to build a line and not have at least a few poles and guys in fields or along roads next to fields which are not fenced.

"To those who own considerable land where it seems that they are having to bear the major portion of the line on their property: In all probability, the

Undo That Hazard On Your Farm For Sake Of Safety

National Farm Safety Week is nearly over. But it isn't too late to straighten out an "accident about to happen." You still have plenty of time to "undo" a hazard on your farm. You have 51 other weeks. But to avoid serious injury or possible death, now is the time to do it, according to Robert H. Gibson, Garza County agricultural agent.

The National Safety Council has a Safe Farm Test made up of questions about machinery and equipment, buildings and the farmyard, tires, animals, electricity and the farm home. These are only a few of the many things to check on, especially during Farm Safety Week while it is still fresh on your mind.

Six thousand people were killed in farm home accidents last year. Another 43 hundred were killed while working on farm jobs. That means more people were killed around the house than out near the machinery and the barns.

What did it? Gibson gives a few answers: Standing in the bathtub and turning on the light. Or starting fires in wood stoves with kerosene. Or just falling from a box on top of a chair, or on a "throw" rug on a waxed floor. Loaded guns in the house are killers, too, especially in the hands of children. Many children have been scalded when they reached up and pulled a pan of boiling water or chocolate syrup down on themselves.

National Farm Safety Week is this week through July 31. But farm safety is one of the biggest year-round jobs there is. Every day in the year people are being killed and injured, so it stands to reason that every day people should be on the lookout for worn-out or broken equipment, broken ladders, frayed electric wires and loose boards with nails.

Be alert today and be alive tomorrow.

Four People Claim Airport Saved Them

Four people, involved in two forced plane landings last Friday morning, are crediting the Post Airport with having saved their lives.

The first plane to land was a Piper Vagabond carrying a pilot and his wife and small son from Sweetwater en route to Friona. They left Sweetwater in good weather but became lost in the overcast sky and mist in this area and had to land.

For the same reason a Cessna carrying only a pilot was forced to land here the same morning. The plane was en route from San Angelo to Denver.

There were 13 men at the Last Supper.

PROPOSED AMENDMENTS TO THE STATE CONSTITUTION TO BE VOTED ON BY THE PEOPLE OF TEXAS ON NOVEMBER 2, 1948:

S. J. R. No. 2
 BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:
 Section 1. That Article III of the Constitution of the State of Texas, providing for a Board for the State into senatorial and representative districts in the event the Legislature fails to make such apportionment, be amended as follows: providing for the necessary proclamation and publication by the Governor; and an appropriation.
 Section 2. The Legislature shall provide for the issuance of the necessary proclamation and publication by the Governor.
 Section 3. If, at the time the Legislature shall canvass the election returns for the offices of Governor and Lieutenant Governor, the person receiving the highest number of votes for the office of Governor, as declared by the Speaker, has died, then the person having the highest number of votes for the office of Lieutenant Governor shall act as Governor until after the next general election. It is further provided that in the event the person with the highest number of votes for the office of Governor, as declared by the Speaker, shall become disabled, or fail to qualify, then the Lieutenant Governor shall act as Governor until a person has qualified for the office of Governor, or until after the next general election. Any succession to the Governorship not otherwise provided for in this Constitution, may be provided for by law; provided, however, that any person succeeding to the office of Governor shall be qualified as otherwise provided in this Constitution, and shall, during the entire term to which he may succeed, be under all the restrictions and inhibitions imposed in this Constitution on the Governor.
 Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of this State at a General Election to be held throughout this State on the date provided by law in the month of November, A. D. 1948, at which election all ballots shall have printed thereon:
 "FOR the Constitutional Amendment providing for gubernatorial succession in the event the Governor-elect dies, or becomes disabled, before qualifying and for such succession in other contingencies."
 "AGAINST the Constitutional Amendment providing for gubernatorial succession in the event the Governor-elect dies, or becomes disabled, before qualifying and for such succession in other contingencies."
 Each voter at such election shall mark out one of such clauses on the ballot, leaving the clause expressing his vote on the proposed amendment.
 Section 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution and Laws of this State.
 H. J. R. No. 13
 HOUSE JOINT RESOLUTION
 amending Section 15 of Article XVI of the Constitution of the State of Texas, by adding thereto a provision that the husband and wife from time to time may in writing partition between themselves in severalty or into undivided interests all or any part of their community property, whereupon without prejudice to the right of existing creditors the portion or interest set aside to each spouse shall be and constitute a part of the separate property of such spouse; further providing that such Constitutional Amendment if adopted shall be self-operative and self-executing; providing for the submission of this Amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof.
 BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:
 Section 1. That Section 15 of Article XVI of the Constitution of the State of Texas be amended as follows:
 "Section 15. All property, both real and personal, of the wife, owned or claimed by her before marriage, and that acquired afterward by gift, devise or descent, shall be the separate property of the wife; and laws shall be passed more clearly defining the rights of the wife, in relation as well to her separate property as that held in common with her husband; provided that husband and wife, without prejudice to pre-existing creditors, may from time to time by written instrument as if the wife were a feme sole partition between themselves in severalty or into equal undivided interests all or any part of their existing community property, or exchange between themselves the community interest of one spouse in any property for the community interest of the other spouse in other community property, whereupon the portion or interest set aside to each spouse shall be and constitute a part of the separate property of such spouse.
 This Amendment is self-operative, but laws may be passed

prescribing requirements as to the form and manner of execution of such instruments, and providing for their recordation, and for such other reasonable requirements not inconsistent herewith as the Legislature may from time to time consider proper with relation to the subject of this Amendment. Should the Legislature pass an act dealing with the subject of this Amendment and prescribing requirements as to the form and manner of the execution of such instruments and providing for their recordation and other reasonable requirements not inconsistent herewith and anticipatory hereto, such Act shall not be invalid by reason of its anticipatory character and shall take effect just as though this Constitutional Amendment was in effect when the Act was passed."

City Softball League Tonight Goes Into Championship Play Between Two Teams

Managers of the five softball teams which are entered in the City Softball League met Saturday afternoon with League President Polly Duren and decided that, since several of the football boys who are playing these teams want to take a vacation before going into football training under Coach Bingham August 15, the Softball League would end this week, with the Postex Millers and Storie Motor teams playing the best two out of three games in the playoff.

First playoff game will be tonight. The second game will be tomorrow night and then, if another game is necessary, the final game will be played Monday night with the winner becoming champions of the 1948 City Softball League in Post.

Going on the mound for the Postex Millers probably will be Bo James, a smart well-respected little pitcher with lots of speed and control. Behind the bat will be Fritz Hester or Jerry Odom with Williams, Hester, Ingram and Hays playing infield and Malouf, Hester and Faulkner in the outfield.

Storie Motor probably will enter the playoff using the same line-up which brought them a long all season: Phil Brock pitching; Billberry catching; Lockke playing infield with Peel, Gibson, Sport, Compton and Simpson in the outfield.

The public is invited to come out and see these final games, which Duren believes should prove to be fast and interesting since each team will be trying hard to win the championship.

L. E. (Fay) Claborn, Jr., started to work this week in Floyd's Service Station.

Storie Motor To Play Wolfforth Here On Sunday

The Storie Motor Hardball Team, which suffered its first defeat at Wolfforth last Sunday, will meet the Wolfforth nine again at 3 o'clock Sunday afternoon in the Postex Park.

Manager Jerry Queen announced the tentative line-up as follows:

Mills, second base; Cash, center field; Roy Williams, first base; Shepherd, shortstop; Ingram, third base; Bo James, catcher; Junior Malouf, left field; Buddy Hays, right field, and Wade and Ramage, pitchers. Jerry Odom and Jackie Hays will be substitutes.

The public is invited to attend. Proceeds from the admission fees of 25 and 50 cents will go toward upkeep of the park and toward paying the softball light bill.

The Storie team was defeated at Wolfforth last Sunday by a score of 5 to 3.

On Saturday night the local team played a return match with Ward's Help-Your-Self Laundry of Lubbock in the Postex Park, winning by a score of 7 to 3.

Snyder Team Defeats Softballers Tuesday

The Storie Motor Softball Team lost to the Von Roeder Seed Farm Team of Snyder by a score of 6-9 in the Postex Park Tuesday night.

A large crowd was present.

Eight Pitchers See Action In Sunday's Game

Eight pitchers were called to the mound Sunday by the Littlefield Cats and Post Millers when the clubs crossed bats here in a loosely played Oil Belt loop tilt. The Millers started off with Greer, who went three innings before being relieved by Lefty Faulkner. Faulkner kept the mound for four innings before giving over to Locke, who finished the game. The Littlefield crew called up five pitchers.

The Millers gathered 15 hits to win the game, 18 to 13. The Cats garnered 16 hits off the three local pitchers.

Next Sunday the local nine will journey to Denver City for an Oil Belt game.

Crape Myrtle Can Be Kept Blooming For Several Weeks

Would you like to keep your crape myrtle blooming several weeks longer?

Mrs. Jewell H. Strasner, Garza County home demonstration agent, says three things will do the job: Cutting the faded blooms, plenty of moisture and fertile soil. As soon as the blooms begin to fade, cut them off. If seed are formed they will take food from the plant, which otherwise would go into new blooms.

If you did not fertilize your crape myrtle last year, it may need some now. For a large bush two or three cups of 5-10-5 commercial fertilizer. Spread it around the plant in a ten by ten foot square area. Water it right away letting a small stream of water soak into the ground several inches deep around the plant. Water it this way every week or ten days, but be sure the plant is well drained.

Dust the crape myrtle with cotton dusting sulfur if you notice mildew forming on the leaves. Too much shade may keep the crape myrtle from blooming as much as it could. Give them lots of sunshine if you want them to bloom out big. Crape myrtle that was fertilized well last winter or early this spring won't need any more right now. But putting a mulch layer around the plant will help it hold moisture in the soil.

Vitex, like crape myrtle, is another plant that makes more than one crop of blooms. If you want blooms for a longer period of time, don't let the seed form. Treat it like the crape myrtle when giving it lots of water and fertilizer. Another name for vitex is pepper tree, and it is sometimes called lavender tree. Seed are about the size of whole allspice.

Mrs. Strasner adds that zinnias will prolong their blooming periods if the flowers are cut before the seed are formed.

SCRIPTURE: Psalm 95: 6-7

O come, let us worship and bow down: let us kneel before the Lord our maker. For he is our God; and we are the people of his pasture, and the sheep of his hand.

The Lord's Prayer

Our Father, who art in heaven, Hallowed be Thy name. Thy kingdom come. Thy will be done, on earth as it is in heaven. Give us this day our daily bread. And forgive us our trespasses as we forgive those who trespass against us. And lead us not into temptation, but deliver us from evil: For thine is the kingdom, and the power, and the glory, forever and ever. Amen.

ROGER W. BABSON WRITES THIS WEEK:

Buying Flour Mill And Baking Stock Is Recommended

New Boston, N. H.—Returning from the wheat growing states, I must report that with one exception we should have our largest new crop on record, plus a sizeable carry-over. Hence, there is a good reason why the cash price should have dropped at Kansas City from \$3.30 per bushel in 1947 to \$2.26 per bushel now.

Only the present so-called Parity Legislation, passed last month by Congress, holds up present prices. This law enables wheat growers to "borrow" from Uncle Sam an amount nearly equal to present prices. If the price later goes down, then Uncle Sam is stuck because these farmers notes read "without recourse." This means that the government cannot collect the deficiency even if the farmers are millionaires as many now are.

Next year after the Europeans need no more of our wheat, the price should be even lower, in fact were it not for this guaranty it could go back to one dollar per bushel. Of course the big question is what will Uncle Sam do with this wheat which it takes on "loans" from the farmers. Will it sell same to the flour mills at much reduced prices and absorb the loss or will it dump or burn it as it did with millions of bushels of fine potatoes?

Price Of Bread
One of two results are certain to happen during the next few years. Either the price of bread will drop or else the price of bread stocks, on the New York Stock Exchange, will go up. Perhaps both things will happen. Pegging wheat prices is like damming a stream of water. You can stop the flow for a certain time but ultimately the water will flow over the dam or else the dam will break. Neither Republicans or Democrats can fool nature's laws. Both farmers and investors who realize this and act accordingly make money in the end.

The price of flour is determined by the price of wheat. The price of bread is determined by the price of flour. As the price of wheat goes up, the profits of the bakers shrink as there is a lag between higher wheat prices and higher bread prices. When, however, wheat prices are going down, the lag is in favor of the bakers who do not reduce their bread prices immediately.

Investments Of Farmers
Farmers can hedge against declining wheat prices by "selling futures," but this is risky at times. A far safer hedge would be to buy flour mill and baking stocks just now. The leading flour and feed company is General Mills; the stock sells on the New York Exchange for about \$49 and pays \$2.37 per year. This is a wonderful company, although there are other good ones.

There are hundreds of good baking companies; but the largest with which I am acquainted are:
(1) Continental Baking Co. common sells about \$17 and pays about \$1 a year.
(2) General Baking Co. common sells about \$11 and pays about \$0.60 per year.
(3) Ward Baking Co. common sells about \$16.50 and pays about \$1.35 per year.
(4) Purity Bakeries Corp. common sells about \$33 and about \$2.25 per year.

Seems like the Yard Beautification Contest is getting results. Even my own wife has been after me to clean up our place. She is reasonably sure we can win one of the cash prizes because just a little bit of work in our own yard will show a great improvement.

The best way to get real enjoyment out of the garden is to put on a wide straw hat, dress in thin loose-fitting clothes, hold a little trowel in one hand and a cool drink in the other, and tell the man where to dig.

THE WOMEN. God love 'em: Show me a garden plot tended by a woman and I will tell you what a sort of a housewife she is. If she plants her bulbs in neat rows you will find her pots and pans arranged carefully in similar order.

A fellow named James Douglas once said: "I do not believe there are any melancholy gardeners. At any rate, I have never met a discontented and disgruntled gardener with a large stock of grumblings and grievances against the world. All the gardeners I have known were happy, simple and euphetic."

Mr. Douglas didn't know me. I am a melancholy gardener. The very sight of my garden makes me discontented and disgruntled. I can spend a whole week-end working in it, then when I try to sit down in the shade and enjoy it, all I can see is how much there remains to be done. Besides that, my wife complains because my garden won't stay out of doors. It comes in when I do in the shape of mud on the carpet, seed catalogues on the radio, twine around the telephone and seed packets on the chaise longue.

And vegetable gardening has another drawback. You work on it, and get the vegetables up nice and pretty and they get ripe and you have to gather them in. I never know what to do with all those vegetables. The Mrs. tries to make me eat them.

I prefer flowers, and they do nicely for me. Do you know why? Because I am a HE-man with them. Flowers don't like to be petted and pampered the way a lot of folks treat them. You can never grow a plant properly as long as you are afraid of it, and you will always be afraid of it until you have a lot of it, and then you won't mind treating it rough and it will thank you for it.

Here's an inside tip on the Yard Beautification Contest: The Chamber of Commerce's judging committee's idea of a garden is that it should be beautiful from end to end, and not set off in the front of the house with fireworks, going off at its farthest limit into sheer sticks.

If there's anything I know more about than raising flowers it's rearing children. You have to get tough with the latter, the same as you do flowers. How times have changed since I was a boy. My father didn't have to get tough with me. He could properly impress me with a single remark: "Nice people don't do that." But nowadays nice people DO do that.

Here's something from the Santa Fe Almanac. It would be well to teach it to all of today's children: "Of all the things you wear, your expression is the most important."

That Santa Fe Almanac is chock full of sad but true expressions, such as: "The men who try to do something and

By EVELYN BOYD
Several eligible voters told me lately that they do not intend to vote in the November election. They say they will not vote against the Democratic Party and they refuse to vote for Truman. The only alternative, as they see it, is to stay away from the polls.

One young business man, who seems bright in every other respect, told me that all of his grandfathers for four or five generations back would spin in their graves if he were to vote for a Republican Presidential candidate.

If this is true, I'll bet those old-time Democratic ancestors are spinning right now over what has happened to their original Democratic Party.

More shocking than seeing a grandson vote for a good Republican is the fact that today's Democrats have abandoned completely the principles on which my friend's grandparents founded the party and to which the party adhered for more than 100 years.

Actually the Democratic Party abandoned those fine principles and adopted a program of centralized col-

lectivism long ago. But the Philadelphia convention ratified that attitude and proclaimed the fact in its platform.

The whole CIO-Truman legislative program, which Truman has submitted to Congress repeatedly, and which is designed to "implement" and put into effect the so-called Economic Bill of Rights, was adopted as the party's platform. It is a program for a politically managed economy which violates the most fundamental principles of my friend's grandfathers' fine old Democratic Party.

Originally this platform was formulated by the "experts" of the CIO Political Action Committee as the program for transforming the Democratic Party into a labor party. Mr. Truman fell in with that plan by adopting the program as his own and by recommending it to Congress. It is not merely Mr. Truman's program. He inherited it, but it is now formally the platform of the so-called Democratic Party.

By adopting it, the Philadelphia convention completed the job of killing off the historic Democratic Party and it laid the foundations of a real socialist party in this country.

The traditional Democrats of Garza County are not betraying their party by voting the Republican ticket in November. These people who have always been old-line Democrats have been betrayed by their own party.

The only way they have to turn—except toward their traditional enemies, the Republicans—is left, toward a real socialist party. There isn't much difference in socialism and communism, as far as your freedom is concerned. Let either socialism or communism take charge of this country, and you will be told when to eat and what and how much of it you will eat and with whom you will divide the fruits of your labor. You will have no choice in the matter.

Garza County people have a choice to vote against this trend in November, but they will have to vote the Republican ticket to do it. This doesn't mean they are going permanently Republican; it merely means they will be voting to retain the freedoms for which their grandfathers so diligently worked.

My friend doesn't know his own grandpa, if he thinks the old gentleman would want him to sit here and let socialism come and rob him of the very business by which he makes his living.

A vote for Dewey in November means a vote for the return of private enterprise. The people who do not vote, because they can't stand the word Republican, are encouraging the awful thing that's happening to this country while the people are asleep, dreaming of the past.

I am not a Republican. I vote for the man, regardless of party, whom I think will make the best president and, unfortunately, I have been wrong most of the time. I made the mistake of supporting Roosevelt because I was too stubborn, too young and too uninformed to see where the Roosevelt trend was leading us. I selfishly liked Roosevelt because he made my depression employer pay me a minimum salary. I couldn't see that this was merely a trick to trap the small guys like me.

What Our Contemporaries Are Saying:

PROGRAM GOOD!—Lions met in their regular Tuesday session this week and had no program, which proved interesting.

Amos Harper told a very, very flat joke at which no one laughed. Dave Watson, a Rotarian off his beat, did likewise with the same results. Then S. S. Forrest, Jr., told one everybody had heard, but because he was from out of town most of the boys laughed.

Stansell Clement, visiting Lion from Lamesa, made a short talk telling of the Lions meeting down at Fort Stockton. He said that the local Lions district had enjoyed the greatest increase in number of new clubs of any district in Texas.

Just before closing of the meeting Boss Mitchell was reminded that the annual Lion scholarship award should be made and that some plan should be suggested for raising money for same.

It was agreed that these important matters would receive immediate attention.—Seminole Sentinel.

MOBILE X-RAY UNIT—Motorized and equipped by the State Health Department, a mobile X-ray will be in Brownfield August 10 through 14, for the purpose of taking X-ray pictures, free to the public.

This is part of a huge program by the Department to better the health of the general public. It is endorsed by the five County Health Unit, who have requested its visit. The machine will be set up in the County Health department rooms in the court house.

The check is primarily to detect Tuberculosis, but will pick up any abnormal malady of the chest. If such is detected the information will be divulged only to the patient or his or her primary physician and no others. The operation requires less than five minutes, and no one needs to disrobe. The X-ray picture detects tuberculosis in its earliest stages, even before the patient feels any symptoms and thus many lives may be saved, before this malady reaches advanced stages.—Terry County Herald.

But I am not as free as it looks like I am. Moscow's agents right now are taking notes on all the country's rabid anti-collectivists, anti-Socialist and anti-Communists, and the day those Reds take this country over is the day that I'll be liquidated.

Let's vote FOR Democracy in November. That means going to the polls and voting AGAINST Truman and AGAINST Wallace.

I wish to express my sincere thanks to those who supported me in the primary election.

I ran a clean race. I asked the voters to do what they believed to be the right thing when they came to cast votes. It takes that to be a worthy citizen of our great country. I am happy over the votes received, and since I did not get the office, I have no responsibility. I offered my services to the citizens of the county for the county, and they have spoken. There my responsibility ends.

Sincerely,

Four-H Round-Up Is Postponed 'Til June

The Extension Agent's Conference and 4-H Club Round-Up scheduled in College Station the week of August 16 through 20 has been postponed until June 13 through 17 next year, Robert H. Gibson, Garza agricultural agent, has announced.

Replacing the annual agent's conference and 4-H Round-Up this year will be a series of bi-district extension meetings of two days duration in the latter part of October and the early part of November.

Plans for the bi-district meetings are tentative at this time, but a general program for all meetings is being lined up by the program chairman.

Location of meeting places has not been decided, but geographic location involving the least amount of travel will be a determining factor, said Gibson.

Elliott Adams To Answer Questions On Security Cards

Elliott W. Adams, Social Security Administration Representative, will be at the local post office, at 2 p.m. Wednesday, August 4, for the purpose of answering any questions on social security; discussing possible benefits and taking claims from persons who seem to be entitled to benefits; and taking applications for social security account number cards.

In order to make sure that one's survivors receive benefits promptly in case of death, one should: Be sure his wife or

KNOX COUNTY REUNION

Pioneer settlers of Knox County will meet August 8 in the Mackenzie State Park in Lubbock to celebrate their annual reunion. All are invited to attend, and bring basket lunches.

Band music, speaking and closest relative knows where his Social Security card is; tell her to take it to the nearest Social Security Administration office in the event of death; make sure she knows the name and address of his employers for six to nine months back. A certified copy of the marriage license and birth or baptismal certificates for each child under 18 is also important.

singing will be on the program, according to J. E. Reid, president.

DRUNKENNESS CHARGE

A white man arrested in downtown Post Monday afternoon was charged with drunkenness in Justice of the Peace Court Tuesday morning. There were no arrests made over the weekend, Peace Justice King said.

NO BOLL WEEVILS

No boll weevils and very light to medium fleahopper infestations have been found on the South Plains in tests made recently by the U.S.D.A. Bureau of Entomology and Plant Quarantine, the Texas Agricultural Extension Service and the Texas Agricultural Experiment Station.

(Continued From Front Page) power machinery, trailers, etc., tightening wire fences, handling poison and explosives, unsafe harness and saddles, fire escapes, use of wornout ropes and tackle, standing in front of mower while tractor is running, laying articles near open windows, poorly lighted passages, unsafe bull pens and broken glass bottles.

Unless extra precautions are taken against the above hazards, Ottinger pointed out that past records will show that one out of 18 farm residents will suffer a disabling injury; accidental death will occur in one out of every 320 farm families; accidents on the average will kill 51 farm residents every day; farm accidents of all types will cost \$35 per farm resident, and four farm buildings in the United States will be destroyed by fire every hour.

REA LINES TO VERBENA—

(Continued From Front Page) line was engineered that way because it was the cheapest and most accessible route. The money used to build this system is borrowed from the United States Government and is paid back with interest. Therefore, it is necessary that the lines be built and routed to serve the members with a minimum of expense.

The letter also explained that the Dickens County Electric Co-operative, Inc., to date has 383 miles of energized line, serving more than 700 farm and ranch homes in Motley, Dickens, Kent and Stonewall Counties. Now under construction are 370 miles of line in Motley, Dickens, Crosby, Garza, Kent and Stonewall Counties with the idea of serving an additional 600 members.

Plans and specifications have been approved for another 360 miles of line in the above mentioned counties, and the loan should be granted in the near future. These applications include those for the Grassburr and Canyon Valley Communities.
