

Casey officially on staff Hospital by-laws are being revised

Garza County Memorial Hospital board in two actions this week officially added Dr. James Casey to the hospital's active staff, effective March 3.

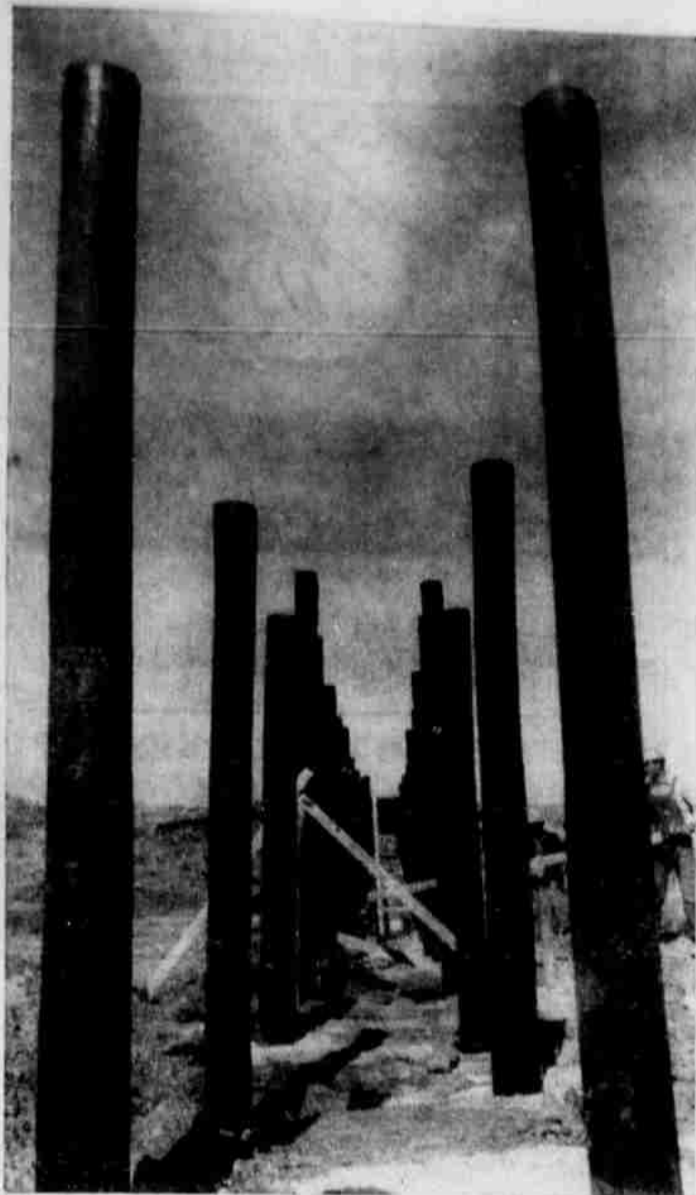

Action on Dr. Casey's application, according to present by-laws, could not be taken for 30 days. The by-laws require such a 30-day waiting period before the medical staff can make a recommendation to the board on any such application.

The hospital board at a special meeting Feb. 15 unanimously adopted a motion that effective at 8 a. m. March 3 only medical doctors and dentists who hold active, courtesy, or honorary staff membership for 1964 of Garza Memorial Hospital may admit patients of any nature to the Garza Memorial Hospital and that the administrator be instructed to furnish a copy of these minutes to all medical doctors and dentists residing in Garza County, and further indicate by letters what medical doctors and dentists the minutes of Garza Memorial Hospital reveal to hold staff privileges, and in what capacity.

Besides Dr. Casey, other active staff members are Dr. A. C. Surman, medical doctor, and Dr. B. E. Young, dentist. Courtesy staff members for 1964 are Dr. J. C. Day of Lubbock and for the first six months of 1964, Dr. N. C. Price of Lamesa.

At that same meeting, W. S. Duckworth, board president, appointed a committee composed of Jack Lott and O. L. Weakley to draw up recommended changes in the hospital's by-laws.

FOR OVERHEAD PIPES

One wouldn't think they'd need a trestle like the one being built here for sewer pipe. But this one, when completed, will support sections of the new sewer extension line that are not underground. The trestle is near the disposal plant in the southeast part of town.

City Council anticipates 'summer water problem'

While waiting on White River supply

The City Council is preparing for another city "summer water problem" during the transitional period leading up to tapping the new White River Lake water supply that is supposed to end Post's water problem for the rest of the 20th century.

The only trouble with the new \$4,000,000 White River dam and water facilities is that it can't be put into use until there is enough rain to fill the big lake up to the "usable level".

UNTIL IT RAINS, Post is going to have to get along with its present supply—a combination of using its own water field west of town and buying water from S. C. Storie.

Each year, the problem has become more difficult and more expensive.

After a thorough discussion of the water supply problem, the council decided at its March meeting Monday night to authorize a council committee to negotiate with Storie for the continued purchase of water at a 400 gallon a minute rate until such time as White River water becomes available.

The city by contract with the White River Municipal Water District is bound to buy White River water whenever it becomes available.

Just how soon this will be is a matter of pure conjecture.

If the area receives another round of heavy spring rains, as it did last year, the city is hopeful they will be getting all the White River water they need within a few months.

THE CITY HAS contracted to buy a minimum of 241 million gallons of water a year from the White River district at a cost of 30 cents per thousand gallons, or a total cost of \$72,300 annually.

Last year Post's water consumption was 267 million gallons, City Supt. Eddie Warren told the Council.

Warren told the Council, the White River district is prepared to supply Post's water needs within 30 days "after the lake fills." At the present time, the lake has only about 5 per cent of its water capacity backed up behind the big earthen dam.

Water Superintendent Jimmy Holleman told the Council that the portable generator the city had authorized for purchase for emergency use has arrived. It cost \$308 and was purchased through Texas Electric here.

Charter banquet planned by Jaycees

Post's new Junior Chamber of Commerce chapter is planning a charter presentation banquet for the school lunchroom at 8 p. m., Thursday, March 26, Toby Thomas, general banquet chairman, announced today.

The state Jaycee president will be the principal speaker and make the charter presentation, according to present plans.

The young men's civic club already has over the minimum of 20 members and has made charter application.

Final banquet plans will be made at the next club meeting in the Community Room at 7:30 p. m. next Thursday night.

The Lubbock Junior Chamber of Commerce is assisting the Post club in its organizational efforts.

Willard Yarbro injured in wreck

Willard Yarbro of Post was hospitalized Sunday afternoon with severe lacerations and other injuries as a result of an automobile wreck a mile and three-quarters north of Post on FM-122.

Sheriff L. E. Claborn Jr., who investigated the accident with Highway Patrolman Max Knox, said Yarbro was injured when he swerved his car into the bar ditch in an effort to avoid hitting a car driven by Jerry Don McCampbell who had driven around on the highway and was coming back onto the highway.

The Yarbro car turned over once and came back on its wheels. Hubert Yarbro, who was riding with his brother, was not injured.

The sheriff said Yarbro's car was "a total".

Council that effective March 1 the city will receive three and one-half per cent of White River district taxes collected in Post for handling the collections. Formerly, the city has received \$600 annually.

Based on last year's White River district tax collections this would mean a \$2,300 annual payment to the city instead of the \$600 rate which has been in effect.

Councilman J. B. Potts reported "we need a little more time" to work out all the details on naming a proposed citizens committee to

study city problems, similar to the citizens group now completing a study of Post school needs for the next three years.

THE COUNCIL voted unanimously to purchase a new billing machine for the city offices at a net cost of \$5,101.60 from the Burroughs Corporation for delivery within 90 days. Mayor Harold Lucas said the firm had demonstrated the machine Monday to office personnel and that the new machine would handle all the city's posting needs on water billings, city and White River

taxes, and even payroll for years to come.

The present machine is 12 years old, Lucas explained.

The net price is less government discount and trade-in on the present machine. Lucas said an extra panel could be added later if expanded city needs develop in the future. He said the machine would be designed especially for Post's billing needs.

In response to a question, Warren said the cost had been included in this year's city budget. Lucas added that the additional revenue from the collection of White River district taxes made the machine's purchase quite feasible from a financing standpoint.

IN ANOTHER ACTION, THE Council voted to terminate a \$150 per month water lease with H. F. Wheatley. The city has been paying on the lease to hold the water rights should a water supply crisis develop here. Warren said with the approaching advent of White River water, he saw no need to continue the lease which can be terminated by the city at any time.

In a discussion on the current sewer project in the eastern part of town, Warren reported the city will save \$6,000 to \$7,000 on its construction contract because the sewer's depth has been raised four feet to avoid dangerous cave-ins and water underflow which has developed. He said the contractor on the project had estimated he would spend \$150,000 to \$200,000 to put in \$150,000 to \$200,000 to put in the sewer at its contracted depth.

Warren said raising the depth, approved last week by the state health department, would mean only that the sewer extensions couldn't be run quite as far out as originally planned but that when needed a sewer lift station could be installed and such territory hooked into the sewer system anyway.

The Council in another action named Mrs. Kay Edwards as assistant city secretary.

Kenny Cash rites conducted Friday

Last rites for Guy Kendrick (Kenny) Cash, 41, of Route 1, Sulphur Springs, formerly of Post, who died Feb. 26 at the Veterans Administration Hospital in McKinney, were conducted at 10:30 a. m. last Friday at the Murray-Orwosky Funeral Chapel in Sulphur Springs.

Mr. Cash, who lived in Post for most of his life before moving away in 1958, had been a patient in the veterans' hospital for two months.

While a resident of Post, he was employed at Piggly Wiggly Supermarket for a number of years and later worked as a driller for local oil companies. He was a former member of the Post Volunteer Fire Department.

Before entering the hospital, he was a machine operator at the Rockwell Manufacturing Co. plant in Sulphur Springs.

Born in Post on April 1, 1921, he was the son of the late Guy Cash and Esma Morris Cash. He was a veteran of World War II and a member of the Birbright Methodist Church.

The Rev. Felix R. Kindel officiated at the funeral services for Mr. Cash and burial was in North Hopkins Cemetery.

He is survived by his mother, Esma Cash, of Austin; his wife, (See Kenny Cash, Page 8)

Smelly problem here Skunks move in for food

Post is being "invaded" by hungry skunks.

Police Chief Elton Corley told the City Council Monday night that officers have shot to death some 10 or 12 skunks within the city limits in the last ten days.

He said one householder called him from 403 Osage to report he

had "a skunk inside my garbage can."

In response to the query, "What should I do?" Corley said he told the caller to sneak up and put the lid on the can.

The police chief said a pickup truck then picked up the garbage can, took it out into the country, and the skunk was killed.

What to do with the smelly little animals once they come into town is a problem, the chief admits.

"We try to maneuver them into position where we can shoot them," he said.

Corley told the Council that there is a family of skunks apparently living under one downtown building.

"They come out at night and are seen in the alley," he told the councilmen. "We've killed three skunks in that one area in recent weeks."

The police chief believes the skunks are invading town because they are hungry.

"We usually find them in the alleys around the garbage cans or in somebody's back yard," he said.

Best advice to householders is not to let your dog out at night until you take a sniff or two outside first.

Parrish and Scott file for council

Arnold Parrish and Wesley Scott, in that order filed Monday night with City Secretary Wynelle Holland for re-election to the city council.

With Saturday midnight the filing deadline, Parrish and Scott were the only candidates who had filed up to 4 p. m. yesterday.

Walter Duckworth is the other councilman whose term expires this April.

The order in which the candidates file determines the position of their names on the ballot, the city secretary said.

The city election will be held Tuesday, April 7.

\$1,610 award by jury in compensation case

A district court jury awarded the estate of Charles King \$1,610 Tuesday in his suit against the Travelers Insurance Company in a compensation case. The jury was selected Monday.

What had happened to stolen car?

An alert insurance adjustor, Dick Duncan of Lubbock, surprisingly had the answer Monday to what happened to a 1962 four-door Guy Floyd Motor Co. last Friday night.

STOLEN CAR SPOTTED

This auto, stolen off the Guy Floyd Motor Co. used car lot, is shown as it was found Monday after being sighted by an insurance adjustor halfway up the Fluvanna cap.

Insurance man had the answer

When Floyd described the car to Duncan, who had called here to adjust Floyd's claim by Bryan J. Williams, Duncan commented, "I think I know where that car is. Do you want to go get it?"

Duncan explained that en route home Sunday evening from Lake Thomas, where he has a cabin, he noted a car answering the description halfway up the Cap at Fluvanna.

The three drove out and sure enough it was Floyd's stolen car. Williams said apparently the thief had pured gasoline inside the car, set it afire, and started it rolling down the Cap. It stuck halfway down when the wheels turned, making it visible from the highway instead of lying unnoticed wreckage at the bottom.

It was a total loss.

SIREN SOUND SHORTENED

Fire alarms are going to be shorter on local ears from now on.

The City Council Monday night voted to reduce the time the fire sirens are sounded from three minutes to one minute.

The action came after Jimmy Williams reported that the cost of firing the time to reduce the alarm time to only one minute would not be very expensive.

The longer three-minute sirens would continue on the three-minute sirens to warn residents of approaching tornadoes.

Seventh Year

Funeral is held here Tuesday for A. T. McCampbell

Last rites for Arthur Thomas McCampbell, 71, a resident of Post in Garza County for 43 years, who died at 5:10 a. m. Sunday in Garza Memorial Hospital, were conducted at 2 p. m. Tuesday at the First Baptist Church.

Mr. McCampbell, who lived at 1014 10th St., had been in failing health for some time, but became seriously ill only a few hours before his death.

He was born March 1, 1893, in Mississippi and died on his 71st birthday. He moved with his parents to Texas shortly after 1900, settling at Avery, in Red River County.

Mr. McCampbell was married to Mrs. Jewell Pruet on March 10, 1911, at Reed, Okla. They moved to Garza County on Nov. 24, 1911, and farmed in the Close City community for 34 years before moving to Post. The McCampbells were owners of a rooming house at the corner of Broadway and 10th Street for a number of years.

SPEED CRACKDOWN APPEARS IMMINENT

All drivers take note! A city policeman told Police Chief Elton Corley Monday night that something needs to be done about local speeders.

The discussion began when the chief reported that the one offender he caught in February was a college student on the way home from Sweetwater.

Starting at the Main and Broadway traffic light, the motorist put the gas pedal on the floor.

"I caught him two miles northwest of town," Corley reported. "I was doing 115 miles per hour to catch him. He told me he was doing 110."

Corley said he had given a number of warnings to local speeders and agreed that "maybe we're a little too lenient on speeding."

During the discussion, the police chief said Post's \$15 fine for speeding was about the lowest of any town he knew.

He said most towns fine on the basis of speeding and then add \$1 to the fine for each mile per hour the speed limit is exceeded.

All of which should be fair warning to local gasoline jockeys to slow it down.

POSTINGS

We want to point out that your Post Public Schools are holding a big open house tonight from 7 to 9 p. m. in celebration of Texas Public Schools Week this week. All the teachers will be in their classrooms to meet local school patrons and all patrons are urged to attend. We think it's up to the public tonight to show our administrators and faculty that we too are just as interested as they are in our schools. We can do that only by a large and enthusiastic attendance for the open house. So come on out.

At latest count, there were seven candidates in the three spring school board races (the three spring candidates for re-election to the board of trustees of Post Independent School District, had two opponents by 4 p. m. yesterday, with the Wednesday midnight filing deadline only a few hours away.

Ted Aten, Graham community farmer, filed Tuesday and Billy Woods of Post filed yesterday, both for Place 2, the same school board place for which Dr. Carter filed for re-election.

Two candidates are in the race for each of the other two board positions to be voted on Saturday, April 4. They are E. R. (Buster) Moreland and Marshall Ticer for Place 1 and Bob Macy and Russell Wilks Jr. for Place 3. Moreland and Wilks are candidates for re-election.

Young Farmers, SCS to sponsor contest

The Garza County chapter of Young Farmers will co-sponsor the Mesa District land judging contest again this year, it was announced at Tuesday night's regular monthly meeting of the group.

The land judging contest is to be held here at 3 p. m. Friday, March 20, with the Soil Conservation Service as the other co-sponsor.

Headquarters for the contest will be the vocational agriculture building at the high school.

Contestants will be here from seven or eight different schools and

Grand Jury returns 8 indictments here

A district court grand jury Tuesday indicted Joe Brisen for "assault with intent to commit murder; assault with a prohibited weapon" in the shooting and wounding of Tony Villa here Dec. 15, 1963.

It was one of the eight indictments returned by the jury of 12, which included four women.

Willie Eugene Milo was indicted for "burning personal property, insured" last Christmas Day. The indictment against Milo read that

he "unlawfully with intent to defraud did wilfully set fire to and burn one 1957 Oldsmobile sedan, which said property was at that time insured against loss or damage by fire."

Other indictments returned: S. W. Hair, DWI, second offense, on July 13, 1963.

Sylvester Collazo, burglary of the Barry B. Thompson home on Dec. 22, 1963.

James Smith, burglary to commit theft, Nov. 7, 1963.

J. D. Davis, theft of property over \$50, in the taking on one skill saw, a ratchet die set, two levels and a metal tool box, property of John W. Wells, Oct. 7, 1963.

Sylvester Bruner, theft of property value over \$50 to wit: a saddle from Carl Rains Nov. 4, 1963.

Amos E. Barker, defrauding by worthless check over \$50.

Appeal hearing is now in recess

The appeal hearing brought by Mrs. Aletta Walker against the White River Municipal Water District on a condemnation commission ruling involving over 1,900 acres of her ranch was recessed in Crosbyton last Thursday until next Monday.

Crosby County Judge Cecil Berry recessed the case for 10 days to permit the two parties in the condemnation time to attempt to negotiate their differences on the land for the dam site.

Any settlement between the two parties would have to receive court approval.

Judge Berry ordered the jury to report back Monday.

Schools' open house is from 7-9 p. m. today

Large crowds are expected at tonight's open house at the Post Public Schools, Supt. Barry B. Thompson said this morning.

The open house, which is being held from 7 p. m. until 9 p. m., is in observance of Public Schools Week and is being sponsored by the local unit of the Texas State Teachers Association.

There will be exhibits and displays throughout the buildings, and refreshments will be served.

CHEVELLE! by CHEVROLET—a great highway performer

Chevelle balanced performance is best!

Passing, cornering, threading through traffic, sudden stops—Chevelle excels all around! Chevrolet's new surprise package has what it takes to meet any driving challenge: Six or V8 engines, hefty brakes, Full Coil suspension—and trim size that makes the most of them!

Chevelle means performance aplenty—standard 120-hp Six or 195-hp V8—and optional at extra cost, a 155-hp Six, a 220-hp V8, a new 327-cu.-in. V8! But Chevelle's performance means more. Chevelle's a foot shorter than the big cars. And the space Chevelle saves in size comes off the ends, not the middle. So it rides like you want a car to ride.

Chevelle lets you choose Power-glide*, 4-speed manual* or 3-speed manual transmission. Knowing how people like the custom touch, we wrote out a long list of extra-cost options. Knowing all this, what's keeping you from a test drive? Certainly not your Chevrolet dealer!

A Moment With God

HE CAN RAISE OUR SIGHTS

Hereafter shall ye see the Son of Man sitting on the right hand of power. Matthew 26:64.

This was a startling prediction by Jesus. For at the moment nothing of His power was apparent. There in Caiaphas' palace He stood, a poor, fettered man with traces of bloody sweat on His brow. But what does He say? “You shall see Me.” And where? “On the right hand of power.” And when? “Hereafter” that is, from now on, into eternity.

His detractors scoffed, and not only that; they spit in His face. But isn't it astounding that in spite of all their malice Christ is still with us? His name is not rubbed out; it is still the greatest. His gospel is not deleted; it is still the sinner's only refuge. Philosophies come and go; captains and kings depart, but our Jesus remains. And do we not see in all this “the Son of Man sitting on the right hand of power?”

The crosscurrents of history and the perplexing events of our day need not confuse us as long as we keep our sights focused on Him. He is on the throne, not Caiaphas, not communism. When at last He comes in the clouds of heaven, even those that pierced Him shall see. And as for us who know Him, shall we not agree with the woman who said to her pastor one Sunday, “I certainly enjoyed what you said about the Lord's coming. You know I'm not looking for the undertaker; I'm looking for the Uppertaker?”

Even so, come, Lord Jesus, and raise our sights to see that 'mid the encircling gloom we hail the Glory that shall be. Amen.

New industry—community endeavor

James Roberts, a good friend of ours who is publisher of the Andrews County News, devoted his entire front-page column in his last Thursday's issue to Andrews' industry hunt.

"Without any doubt, the single most important chore facing the people of Andrews in 1964 is the bringing in of new payroll dollars," James declared in his opening paragraph.

"The process can be called by the hi-falutin' name of industrialization or plant expansion, but it simply means bringing in new jobs in order to spill more payroll dollars in the economy. It is an absolute economic necessity for Andrews."

With that Roberts proceeded to "dispell" a few fallacies about the operation.

"The chances of Andrews, or any other community, grabbing a plant employing 500 to a 1,000 people, are so slim as to be almost non-existent," Roberts wrote. "It happens, but it is a Cinderella pipe dream come true.

"The securing of additional payrolls is a nibbling process in which small concerns, employing three, five, ten or even 25 people are urged to join the Andrews family. And who is to argue that ten firms employing ten people each is not a greater asset to a community than one firm employing 100 people?"

Roberts then demolishes an "even greater fallacy"—the belief "in Andrews today that industrialization is a community endeavor—an endeavor needing and demanding the help of every citizen," Roberts declares.

Roberts then points out that it's true that Andrews does have a seven-member Chamber industrial committee and the Andrews Research League, sponsored by the Chamber, which has gathered funds and made an intensive and detailed fact-finding study on just what Andrews has to offer new business.

Post business leaders will be interested in this in more depth. The league employed an experienced team from Texas A&M College to carry out the study. The study was completed and recommendations made for a successful industrialization program.

Girl Scout Week, March 8-14

This year Girl Scout Week is being observed March 8-14, and the attention of Garza counties is called to the fact that after completing 52 years of service the Girl Scout organization continues to move ahead to meet the changing needs of today's youngsters.

Girl Scout troops across the nation last year were organized in four new age levels instead of the former three. Girls begin their scouting experience at age 7 in the Brownies and progress through the Juniors, Cadettes and finally the Seniors for girls 15 through 17.

From their earliest days in Brownies, a feeling of being needed is fostered in the young members and the theme behind scouting is brought alive in terms of day to day activities

As a result, the Chamber has an industrial committee of seven persons who have studied, trained, and acquired knowledge in seven special fields to enable them to answer quickly any questions posed by an industrial prospect.

Getting back to Roberts' column arguments, he wrote: "This team cannot function effectively nor convincingly as a self-contained, exclusive unit—nor is it intended to do so."

Roberts contended that "every member of the Chamber of Commerce should consider him or herself as a member of the industrial committee and act accordingly. Further, we believe every businessman, official, and homeowner, should take a selfish personal interest in furthering the work of industrialization."

Roberts terms "the front line troops" in any successful program to bring new payrolls to Andrews, are those who daily rub shoulders with live prospects.

"Waitresses, service station attendants, sales clerks, motel managers, policemen, roustabouts, drillers, operators, janitors—all come in contact daily with people who are pushing, selling, jobbing, servicing, or delivering goods or services made or created somewhere outside of Andrews County.

"Couldn't that product, that service be made or created locally?"

"When our entire industrial infantry automatically thinks that question upon seeing a new product, a stranger, or a new salesman in town, then, and only then, will our program to bring new payrolls to Andrews be off and running."

All of this is equally true here in Post. It's an appeal our own Chamber Industrial Committee has made time and again.

Towns are going to grow, or die, upon their ability to develop new payroll. The issue is critical all across a Texas whose towns and cities are awakening to their industrial needs and their industrial potentials.

You can be your community's eyes and ears in the search for new industry. Keep them open! —JC

and experiences—the disposition to try and the desire to be a worthwhile and useful person of service to others.

Senior Girl Scouts are encouraged to enlarge their field of interest to merge with the adult world. Pursuing their goal of giving service, they may enter aid projects in cooperation with libraries, hospitals, museums and other institutions.

The responsibility of keeping Girl Scouting alive and vital falls on the voluntary troop leaders and local scouting organizations in communities across the country. Those in Post are due a big vote of thanks for the excellent job they have done and are continuing to do.

The Girl Scouts of America deserve every recognition.—CD

COMET—100,000 miles at Daytona...5 more awards...an 84% sales gain

The awards honor Comet's styling, its design, its engineering. One cites the amazing display of stamina at Daytona, where a team of specially equipped Comets

each ran 100,000 miles, averaged over 105 mph. This Durability Run marked the spectacular debut of a new kind of Comet—the 1964. Bigger. Heftier. Elegant. Hot. No wonder sales have been up 84% over the same period last year. Try this three-way winner...now at your Mercury dealers.

SINCE I'VE NEVER charted the day-by-day weather, I could be wrong in thinking that Sunday was the most springlike March I've ever seen, but it's certain to be towards the top of the list. A couple of radio announcers I heard Sunday described the month of March as coming in like a "tame pussy cat," but I still like better the old description of "coming in like a lamb."

Speaking of tame pussy cats, which our tomat, Blackie, isn't, he's been having to stay closer home here lately—as indicated by the above picture.

THE MAN UP the Street says he can remember when giving your youngster a seat belt had nothing to do with a car.

One of this column's puzzle fans, Jim Poer, has submitted a real brain baffle, as follows:

Three men were seated in a row, one in front of another. Skull caps were placed on each of their heads so that they could not see the color, but they knew there were three red and two blue caps.

The third man, who could see the other two caps in front of him was asked if he knew what color cap he had on. His answer was NO.

The second man, able to see only the first man's cap, was asked if he knew what color his cap was, and his answer was also NO.

Upon hearing these answers, the first man said he knew the color of his cap. Was it RED or BLUE? How did he know?

The answer and solution will be found on the classified page of today's Dispatch.

ANOTHER PUZZLE fan threw me a curve the other night when she telephoned me at home and asked if I knew how many legs a horse has. Sensing some sort of "catch," I took my time in answering, but couldn't come up with any thing except four. "You're wrong," she said. "A horse has six legs. Forelegs in front and two less behind." That might have stopped me from running any more puzzles in this column if Jim Poer had n't brought in the one about the caps.

Did you hear about the lady who dialed a ZIP code instead of an area code? The telephone company billed her for three minutes' worth of air mail special delivery.

GEORGE FUERMANN of the Houston Post writes that once upon a time, long ago, when it was said that filling station attendants should refuse to sell gasoline to tipsy drivers. Robert Benchley, then the leading authority on illusions, made an invaluable guide. "For the aid of the gas station boys," he wrote, "we might list a few infallible symptoms of intoxication in drivers." Here is Benchley's list:

- 1) When the driver is sitting with his back against the instrument board and his feet on the driver's seat.
- 2) When the person sitting next to the driver gets out at the gas station and says he thinks he'll take a bus the rest of the way.
- 3) When the people in the back seat are crunched down on the floor with their arms over their heads.
- 4) When the driver points to the gas tank and says: "A pound of liver, please."
- 5) When the driver is in fancy dress with a paper whistle in his mouth which he is blowing constantly.
- 6) If the driver insists that the gas-station man take the driver's seat while he, the driver, fills the tank, first exchanging hats.
- 7) When the driver goes into the rest room and doesn't come out.
- 8) When there is a clothesline full of washing draped over the radiator.
- 9) When the driver is alone and is stark naked.
- 10) When there is no driver at all.

And here is a list of things not to forget:

- 1) Securing non-paid poll tax receipt by Friday, March 6, if you didn't pay your poll tax.
- 2) New car tags by April 1.
- 3) Auto inspection by April 15.
- 4) Filing income tax by April 15.

NEW PRODUCTION RECORDS
A report from the Holstein-Friesian Association says two registered Holstein cows owned by Texas A&M University have established new production records. Agtex DCC Pabst Powell, a 5-year-old, produced 16,600 pounds of milk and 583 pounds of butterfat in 305 days. Agtex DIA Duke Watson, 4-year-old, produced 15,080 pounds of milk and 543 pounds of butterfat also in 305 days. These production figures may be compared to the annual output of 7,211 pounds of milk and 370 pounds of butterfat by the average U. S. dairy cows, notes the Association.

 The family of
 Teresa Lynn Williams

It is with deep appreciation that I express my thanks to all my friends and neighbors for their many kind thoughts and deeds shown me and my family during stay in the hospital and since my return home. Sincerely,
 Fanny Ballentine

Our recent loss leaves us with grateful hearts toward neighbors and friends. Their comforting expressions of sympathy and thoughtfulness through the food and floral offerings will always be remembered.
 The family of
 Mrs. G. C. Custer

I wish to thank everyone for the cards, visits and good wishes while I was in the hospital. A thanks to Dr. Carter, nurses, and all the hospital staff for their wonderful care. A special thanks to little Pat Nelson and her mother.
 Mrs. W. N. Peacock

We wish to thank all of our friends whose thoughts and prayers were with us during Annelie's recent illness; for the many who made visits and calls in our behalf, for those who sent flowers, cards and gifts; more especially for Dr. Tubbs who was so wise in getting us to West Texas where there is no doors barred and service is professionally perfect; for Dr. Morris who, with Dr. Tubbs, performed a masterpiece in surgery, for the nurses who were always there; for Wanda and Mary in handling my club duties in my absence; for Kay and Winnie in filling in for me at the office; for my council in being patient; for my family who provided a home for Larry. Cap Puzzle Answer

PUZZLE ON PAGE 3
ANSWER: He had on a blue cap. The first mentioned that No. 3 could not wear his cap as it was blue and No. 2 were not wearing a cap. The remaining possibilities were: (1) That both No. 2 were red, or (2) one was red and one was blue. The second man also had the two possibilities. If the front of him had been blue, he would have known his cap was red. But the cap in front of him was blue and thus he could not determine what color cap he was wearing.

The first man, hearing the two possibilities and also aware of the two possibilities that the only one remaining was that he was wearing a red cap.

What the 7th graders think of 'Beatles'

By Petra Hill

Here are some of the 7th grade students' and teachers' opinions of the Beatles:

Mike Scott — They sound real good, but they look terrible.

Judy Dooley — I just think they're great, wonderful, terrific!

Coach Black — I think they need a haircut. Tramps have been going around with haircuts like that, and no one's ever flipped over them.

Patti Power — I think they're the best yet.

Ben Miller — They sing all right, but gosh, they look like Moe in "The Three Stooges."

Patty Hogan — They're high gear!

Mike Petty — I love 'em and I like the style of their music.

Sharyn Bilberry — They're sensational!

Karen Hundley — I simply crave them!

Martha Jo Walls — I think they're cute, but they would be a lot cuter if they'd cut their hair. They look like Shaggy Dons!

Mrs. Wristen — I think their music is monotonous, but I think they're clever and cute.

Mrs. Lobban — Aw, they're just a fad that will pass away, don't you think?

Brenda Lee — I like the Beatles because they are great.

John Holland — They don't look so hot, but they sing pretty good.

Mrs. Allison — I don't think they're very musical, and I don't like to watch them.

Vicki Martin — They sing good, but I don't like the way they look.

Marla Carpenter — They're just IT!

RECOVERS FROM ILLNESS
Mrs. Sam Horton spent several days recently in the hospital suffering from pneumonia. She is getting along fine according to her family.

— Post High-lights —

The Post High School choir is working hard getting ready for the contest. Keep up the good work!

The Seniors are getting a little anxious now. Maybe a little too anxious. After all, it is a long way off to start counting the days now.

Coach Bigott surely is getting cruel to his Economics class, his favorite class. It seems everyone either has ten points taken off grades, five-page theme or licks (and anyone who takes licks from Coach is surely brave) for just talking! But we all know he loves Economics the most!

Opinions differ on the Beatles

By Teresa Maddox

When asked their opinions of the Beatles, here are what some of the 8th grade students and teachers said:

Nedra Childs — I think they're cute.

Carolyn Davis — I like them.

Sandra Forrest — They're okay.

Natha Jo Mears — They're the greatest ever.

Helyn Cheshire — They're better than Elvis.

Donnie Blacklock — They bug me.

Patsy Pierce — They're just out of this world and their hair is just fabulous.

Coach Jones — I like them.

Gaylon Hutto — Sick!

Gary Young — I think their singing's okay, but they look like a bunch of girls.

Julie Clark — I think they're the best singing group ever.

Mr. Alexander — I think we should send the Beatles to Russia to entertain Mr. K.

Lois Martinez — They're the most!

Two students take part in area piano contests

By Carol Camp

Saturday Karen Haley and Carol Camp went to Texas Tech for Region I Solo and Ensemble Contest.

Karen Haley played a Brahms piece and received a Division I rating. Carol Camp gave a Chopin waltz and received a Division III rating.

Remember when...

—The district basketball champs, under Coach N. R. King, who were to attend the state meet were: Barbara Lusby, Virginia Carey, Janet Stewart, Mary Nell Bowen, Majorie Freeman, Cletta Buster, Frances Benson, Alice Ruth Carr, Peggy Johnston, Jeniece Fluit, Joy Stewart, Alma Floyd and Shirley Schmidt?

—The Homecoming queens for 1958 were crowned? Miss Maxine Durrett, exes' queen, was presented a gift by Harold Lucas, exes' president; football queen Barbara Shybles was crowned by Charles Morris, and Peggy Butler, band queen, was crowned by Boyd Dodson, band president?

—Juanelia McClellan and Pearl Craig were high point girls in almost every basketball game?

—Joy Parker received a diamond for Christmas, with history revealing wedding bells in January?

—Students who were industrious were exempt from mid-term exams?

—Everyone wanted to change the name of the school paper, the "Ad-dax," to something else? Someone said it meant an ugly Antelope.

—The Junior class really missed John Schmidt? That was the time he broke his leg.

—It was a Leap Year and Mr. King was told to be on the lookout? Can you imagine why?

—Jack Ballentine and Nelda Floyd entertained at a Senior Christmas party?

—Juanelia McClellan's car wouldn't run without gasoline?

Aunt Gerty prescribes sure cure for 'gloom'

Dear Aunt Gerty:

I do wish you could tell me how to stay out of a depressed mood. There must be some cure! I have tried everything I can think of, but nothing seems to work. I am never happy. Surely there is something you can do for me.

Gloomy

Dear Gloomy:

This time of the year is more or less called "the gloomy season."

My advice to you is try to put forth more effort to be happy and gay. I know you can if you will. The reason you are in "depressed moods" all the time is you fault and no one else's.

Remember to look for a little humor in everything.

wishing for spring

The good thing about the seasons is that all we have to do is wait. We may not like the weather we have now, but something different will come soon. We experience a great variety of weather in a dozen months.

It's a great consolation to have this mighty spectacle of spring and autumn, sun and rain, day and night continually unfold around us.

It's the dependable rhythm of nature, the ebb and flow of seasons, the beauty of earth and sky, which give our lives a firm ground tone.

But Christianity is not a nature religion. It finds the revelation of God not in nature alone but even more in human personality — our own, as the children of God, and supremely in Jesus as the Son of God.

That is why it is necessary for us to become an important part of His Church.

We can get in the mood to understand the presence of God when we experience the quietness of the woodlands or hear waves breaking against the cliffs, or look heavenward at the billowing clouds. But it is not enough to get in a mood. We must join in the communion and fellowship of other believers in order to obtain our purpose and faith.

Come, let us go into the House of the Lord...

As an amputee, I have been receiving a pension for nonservice-connected disabilities. During my hospitalization, it was a surprise to amputate my other leg. Can I receive a greater pension?

You may now be eligible for additional allowance for aid and attendance after discharge from hospital. This is not a general benefit but one made based on individual circumstances. You will need to apply to the VA for it.

If a non-veteran, may I buy a home when it has been repossessed and again offered for sale?

The Veterans Administration will take to anyone who can stand to credit standing a number of homes which have been abandoned following non-payment by the GI purchaser. See a real estate broker, since most are cooperating with the VA to find out if any of these foreclosed homes are in your area.

Can I make a personal loan to the VA to meet a financial emergency?

The benefits granted to veterans by Congress do not include provisions for personal loans.

SUMMER PRUNING

Shade trees and summer-flowering ornamental shrubs should be pruned during the winter months when the temperature is above freezing. Pruning should follow careful thought and include repair of injuries, dead wood removal, and controlling the size and shape of the plants.

NONFAT DRY MILK

Production of nonfat dry milk for human food during 1963 totaled 2.1 billion pounds, down 4 per cent from the record high level of 1962 but 20 per cent above the 1957-61 annual average, according to the U. S. Department of Agriculture.

Grassland writer's pet dog Cheesi, is gone

By MRS. O. H. HOOVER

I have for you this week what to me is sad news indeed. All of you know my little dog, Cheesi. She ran away last Tuesday, Feb. 25 right at night. She was a tiny dog, only weighing 2½ pounds. It was almost like losing one of the family. She was eight years old and she had been in my home since she was five weeks old. If anyone finds her, please let me know. I will gladly pay a reward for her.

BOLL WEEVIL THREAT AT A MINIMUM

Texas cotton farmers can take some comfort in the fact that fewer boll weevils went into hibernation this winter than last year, according to Agriculture Commissioner John C. White.

Boll weevil counts were made at random over the state by Texas and federal entomologists with special attention to the most troublesome areas in Central Texas. The winter survival is expected to be about half of what it was in 1962, White said.

During the late fall of each year, Texas and USDA research teams take samples of wood trash adjacent to cotton fields to determine the number of weevils in hibernation. The number surviving the winter, combined with weather conditions during the early part of the cotton fruiting period, will determine potential boll weevil damage to the 1964 cotton crop.

"I am especially pleased with the report this year which indicated

our control efforts to hold the minimum are working," Commissioner John White said. "Our neighboring state of Louisiana shows some increases of the insect are in prospect for their area, however," he added.

Trash samples collected from four Central Texas counties are indicative of results over the rest of the state. Falls, Hill, Limestone and McLennan county areas averaged only 517 weevils per acre, compared with 1,781 in 1962.

Commissioner White attributed a major part of this winter's decrease in hibernating boll weevils to low spring populations that survived the winter last year. A cotton planting and plow-up program administered by the Texas Department of Agriculture is designed to control the pink bollworm and also achieves benefits in boll weevil destruction.

Mandatory plow up of cotton stalks in much of the state destroys hibernating quarters for many insects.

Soils have own characteristics; each needs different treatment

By WAYNE E. RICHARDSON
Soil Scientist

There are many different kinds of soil in Garza County. Each is different in its own way, either sandier, more sloping, deeper, more limey, etc., than the other soils. Each soil has a list of characteristics that is different from other soils. To get these characteristics took from a few hundred to several thousand years.

These soils with their separate characteristics need different treatments to keep them productive and to protect them from erosion. One soil might have a high organic matter content, high enough to hold plant nutrients and to bind the surface soil against erosion. This soil does not require a high residue crop as often in the rotation as a soil low in organic matter. A sandy soil is more in need of a protective

cover of vegetation to control wind erosion than a tight soil. Many other examples could be listed.

It is a good idea to prepare a plan of one's farm, recognizing the various soils one has and the treatment each should have.

If you do not have the characteristics of the soils on your farm or the treatment each needs, the Soil Conservation Service will be glad to help you prepare a plan for your farm. Give these "elders" the respect they deserve, the proper treatment for protection, continued production and improvement.

What They Wore...by PHYLLIS JOYCE

DISAPPOINTED WITH THE CUMBERSOME DRESSES AND UNCOMFORTABLES WORN IN THE 1840'S, MRS. AMELIA JENKS BLOOMER STARTED THE FASHION WORLD BY ADVOCATING A "WALKING COSTUME". ITS SHOCKING INNOVATION WAS ITS "TROUSERS" GATHERED CLOSELY AT THE ANKLE AND JUST COVERING THE TOPS OF THE CONGRESS GAITERS.

THE STYLE OF THE TROUSERS OR PANTALETS WAS DERIVED FROM THE COMFORTABLE TROUSERS WORN BY WOMEN IN TURKEY FOR MANY CENTURIES...

WITHIN A FEW YEARS THE "BLOOMER" COSTUME WAS RIDICULED OUT OF FASHION BUT SHORTER VERSIONS OF BLOOMERS ENDED UP INTO LADIES' UNDERGARMENTS AND ATHLETIC COSTUMES.

CASSEROLE COOKERY

Casserole cookery assumes more importance during the Lenten season. Egyptians are said to be the earliest civilized practitioners of casserole cookery, which the French later developed into the fine culinary art. Reports by American tourists of these French dishes resulted in their popularity in America.
