Coffee 'Sneak' Becomes 'Break' in Los Angeles

LOS ANGELES—The first municipal recognition of man's inalienable right to drink a cup of coffee during working hours on the bosses' time is working out fine for both the City of Los Angeles and its 15,000 employees, according to Samuel Leask, Jr., administrative officer.

Los Angeles became the first U.S. city to legalize coffee breaks for municipal workers when it passed an ordinance authorizing employees to take 15 minutes each morning and afternoon at no loss of pay or time to themselves. Previously, city workers had been permitted to take such breaks but the time was deducted from their lunch periods when—and if—employees reported it.

According to Leask, replacement of the coffee "sneak" with the regulated coffee break has been a decided "plus" operation for the city.

"The purpose of making the coffee breaks legal and regulated was to increase work output and thus promote efficiency and economy in the conduct of city business," he said. "After several months of observation, it certainly seems to be working out that way."

"Just like the coffee break in offices and factories, our city rest periods have ended time-wasting 'sneak outs' and other abuses which were costly to taxpayers."

Start the cattle grub control program as soon as the grubs are in the animals backs. Control flies next spring. This parasite a livestock profit robber.

Rats are moving into their quarters. Feed supplies too expensive and short to waste for feeding these rodents. Clean up, poison and rat traps keep them away from your

Good management of herds is made easier, time and or are saved in moving live and greater safety is provided the attendants when properly gated and strong fences are used on the farm.

The Drouth is responsible for conditions that can cause trouble for livestock producers unless corrective measures are taken. Rations of pastured animals should be supplemented with vitamin A rich feeds to prevent respiratory troubles and vitamins A, E and C to prevent condition known as "white-muscle disease".

With the coming of cooler weather, the chances for fires will increase unless the farmstead is checked for fire hazards and corrective measures taken.

Free Speech Issue
In Court Proceeding

LINCOLN, Ill.—Free speech was the issue here in a contempt of court case in which nearly 600 persons faced possible fines and jail sentences.

The defendants, many of them members of a reform group known as the "Good Government Council of Logan County," were cited for contempt for petitioning Circuit Judge Frank M. Bevan to replace a state's attorney in a case involving the prosecutor's friend.

Judge Bevan said the petition contained "odious, defamatory language concerning an official of this court." State's Attorney Edwin C. Mills.

Members of the Good Government Council contended Judge Bevan could not hold them in contempt and said if the prosecutor felt he was defamed by the petition he could sue them in a civil court.

The case arose when, as a result of action taken by the Good Government Council, Justice of the Peace Vincent Jones was charged with illegal diversion of funds collected in overweight trucking fines. Mr. Jones was charged with perjury, embezzlement and malfeasance.

The council followed up the case with a petition asking that Mr. Jones, be replaced by a special or assistant prosecutor.

Come to California
And Try Burro Meat

LOS ANGELES, Calif.—Something different in the way of big game hunting is claimed by California, according to a recent news release from that state's department of fish and game.

Stray burros, left or lost by grizzled prospectors since the middle of the last century, have developed a unique race of wily, speedy beasts, and several thousand of these dust-cake jackasses now lord it over the barren desert hills.

These descendants of the '49ers will sometimes dress out to 500 pounds of sweet gamey meat. (That's what the release said.) Consumption of burro meat is limited to humans by California law. The flesh is said to rank with that of the better game animals.

The burros take over and ruin precious desert springs, destroy forage for game and stock, and sometimes kill the young of other species.

State wide women organizations in Texas will conduct a volunteer registration campaign beginning Nov. 11 and ending on the 27th to promote a home family plan for Civil Defense.

HERE'S HOW

- At the top of the Democratic Party column, strike out the names of Adlai E. Stevenson and John J. Sparkman.
- Leave the rest of the Democratic Party column as it is.
- At the top of the Republican Party column, leave the names of Dwight D. Eisenhower and Richard M. Nixon.
- Strike out the rest of the Republican Party column.
- Strike out all other columns on the ballot.

TEXAS DEMOCRATS FOR EISENHOWER
CLAUD H. GILMER, CHAIRMAN

The Truth About the Texas
TIDELANDS

The Federal government is taking property worth untold millions that belongs to Texans and to their children. Every word is important to you unless you are willing to stand by while Texas and her children are deprived of their heritage.

What Are The Texas Tidelands?

The Texas tidelands are the 3,000,000 acres reaching from low tide on our beaches out to three leagues or 10 1-2 miles, from the shore into the Gulf.

What Is The Worth of the Texas Tidelands?

The tidelands are worth untold millions and probably billions of dollars. Up to present time, the state has received upwards of 8 millions dollars of income from this source. No one can accurately estimate the potential value of these lands or of the sea and marine life and products which they contain.

Under What Authority Does Texas Own Her Tidelands?

The tidelands were won at San Jacinto. Our forefathers set the 10 1-2 mile boundary when Texas became an independent nation in 1836. The U. S. later recognized this boundary in three separate treaties and in 1845 Texas joined the Union with the clear understanding that she retain all her domain. The U. S. congress formally recognized this principle and it stood unchallenged more than a century.

Under What Authority Is The Federal Government Attempting To Seize Our Tidelands?

Under a new, and we believe, erroneous theory called "paramount rights" the U. S. Supreme Court ruled 4 to 3 on June 5, 1950 that the tidelands could be taken, with out payment, because it was to the advantage of the Federal government to do so.

What Would Loss of the Tidelands Mean To our Public School System?

Loss of the tidelands would be a serious blow to the Texas public school system. It might eventually mean either a drastic reduction of our public school standards or reaching deep into our pockets to make up the difference. Loss of the tidelands would mean giving up what state officials and many other Texans believe will become in the future the source of greatly expanded income and an even better state school system.

Does This Tideland Decision Affect Only Oil Properties?

No. The value of state and local properties involved far exceed the value of all oil properties in question.

Are Other States And Cities and Towns Affected By This Decision?

Yes. The U. S. Supreme Court decision can undermine the entire concept of property ownership. Every port, every navigable stream, reclaimed land, minerals, sea life and products... all of these and more are in danger of confiscation if the tidelands decision is allowed to stand.

What Has Congress Done About This Matter?

Both Houses believe that the Tidelands Question should be decided by our National Representatives and not in the Supreme Court. The House and the Senate have on two occasions passed bills confirming state ownership of the Tidelands but they were vetoed by President Truman. Adlai Stevenson has stated that he concurred with President Truman in his veto of these bills and has indicated that he will do likewise in the event similar bills were presented if he were President.

Is Federal Ownership of the Tidelands Necessary For Defense of the U. S.?

No. This is merely the excuse the Federal government gives for its arbitrary seizure of property. The Supreme Court ruled that the U. S. should control the tidelands in order to defend them but under this same theory the Federal government could take over every square mile in this nation.

How Can The Tidelands Be Saved?

The Tidelands can be saved only by election of Dwight D. Eisenhower as President of the United States. He has indicated his intention to uphold the traditional equity of the people of Texas in their Tidelands. Texas great Democratic Governor, Allan Shivers, has stated that Stevenson as President would be nothing more than "Trumanish with a Harvard accent." If we are to maintain integrity and good faith in the conduct of Government, we must destroy Trumanish in any form and defeat the Truman - Acheson Clique which is dominating the affairs of both the country and the National Democratic Party. This can only be done by the election of General Eisenhower as President of the United States.

How Can I Help?

You can help by voting for Eisenhower on November 4th. You can help by joining the hundreds of thousands who are placing their loyalty to their country and State and to the traditional Democratic principles above a blind loyalty to the Party label of a National Democratic machine which has clearly indicated that it will continue to ignore the best interests of the people of Texas and of the entire country. Explain to your neighbors the importance of this fight and urge everyone you meet to vote for a native born Texas, General Dwight D. Eisenhower!

Bassett, Va., Pastor Asks Prayer for Son

BASSETT, Va.—The weekly newspaper, the Journal, here has published the plea of Rev. Douglas M. White, pastor of the First Baptist Church, that residents send up a petition to God in behalf of Paul Vance, son of the pastor and Mrs. White. The boy is suffering with a brain tumor. Because of this plea, most of the population of Bassett has talked to God in the past weeks. The plea is as follows:

May I request the readers of this paper to join me in prayer this week?

At the time of this writing I have been informed by the neurologist at Duke hospital that Paul Vance, my 12-year-old son, has a tumor at the base of the skull. It is too risky to operate, but they are going to try X-ray therapy. What will follow we cannot tell; it just remains to be seen how well he responds to the treatments.

Our boy is a Christian, he loves the Lord, and trusts Him day by day. We have placed Him in God's hands and whatever He sees fit to do will be quite all right. God makes no mistakes. We are fully persuaded that God can raise Him up of course.

Early in my Christian experience God gave me a promise, which has become the foundation stone of my life. I am taking my stand upon that promise now. "And we know that ALL things work together for good to them that love God, to them who are the called according to His purpose" (Romans 8:28).

DOUGLAS M. WHITE.

Beauty 'Flips Lid' As Mayor Kisses Her

WILDWOOD, N.J.—Several thousand persons crowded Wildwood's boardwalk recently to watch the 42nd annual baby parade. The crowd saw one of the biggest parades in history as seven bands, 300 entrants and the queen's float filed along the boardwalk in a two-hour spectacle.

Highlight of the gala affair was the crowning of the queen, Miss Barbara Blake, by Mayor W. Harry Steele. Queen Oceania, the 42nd was crowned at the reviewing stand, which was situated between Glenwood and Magnolia ave.

This also provided the most humorous comment of the day by Mickey Shaughnessy, who served as MC for the entire parade. As the mayor kissed Miss Blake after crowning her, the crown slipped from her head which prompted Shaughnessy to remark, "There's one girl who flips her lid when the mayor kisses her." The mayor went through the proceedings again without mishap.

Evangelist Hits Bottle in Moral Way at Meetings

WINONA LAKE, Ind.—About the last place you'd expect to see liquor bottles prominently displayed would be in a revival tent.

But "converted" whisky bottles are a part of the evangelistic equipment used by the Rev. Curt Emmons. They form a musical instrument played at services by his 20-year-old daughter, Ethelee. She taps them with wooden sticks—vegetable-brush handles—bringing forth a ringing sound.

Many liquor bottles are picked up, but few are chosen, for the ecclesiastical musical instrument. Emmons explained that perhaps as many as 250 are tried and found wanting before a bottle with the right musical tone is found.

Ethelee began playing snare drums when she was 7. She has played various instruments at the services and took up bottles about eight years ago.

The bottle that would be most difficult to replace is a piercing, high-pitched, half-pint gin bottle from London, England. It produces the highest note of the keyboard of some 27 bottle keys. Some of the bottles used for lower notes contain varying amounts of water.

When a bottle is broken Emmons begins hunting around vacant lots and other likely spots for discarded bottles. The keyboard contains bottles from 12 different states including Kentucky. The labels have been removed.

Amber bottles produce better tones than clear bottles—why, Emmons doesn't know nor could he account for the fact that only one of more than 200 bottles that look just alike is suitable for musical purposes.

Emmons told of a drunk who staggered in to the meeting one night and came up to the front row, where he could get a good view of the bottles. After the sermon, he went to the altar and renounced whisky.

"He walked out of that meeting as straight as you or I," Emmons said. "God sobered him up."

Artist in Jail Uses Pound Note as Model

LONDON—Mrs. Garry, who is art instructor in a Yorkshire (England) prison, is extremely gratified with one of her pupils, A. F. Taylor. Given the right tools that talented student can produce, in half an hour, a pound note which amazingly resembles the original, the instructor says. However, this is what sent him up.

Purple Heart Veteran Deported as Wetback

SAN ANTONIO—Immigration authorities sent a 21 year-old Purple Heart veteran of Korea back to Mexico as a "wetback" recently.

The veteran, Cpl. Alberto Gonzales of Monterrey, Mexico, was sent in an immigration bus to Laredo, Tex., to be put off in Mexico. Immigration Officer W. L. Meuhlhouse said he had entered the United States on a dead man's birth certificate before he joined the American army three years ago. Wetbacks—named for those who swim the Rio Grande—are illegal entrants.

The G.I. Forum, which works on the problems of Latins in San Antonio, assigned an attorney, Richard Casillas, to the case with instructions to "go all the way to the state department if necessary" to allow Mr. Gonzales to live in the United States.

The immigration office said he was being allowed to leave the country "voluntarily" and predicted he could get a permanent visa from the American consul in Mexico that would allow him to come back in time for the wedding.

Mr. Gonzales was discharged from the army at Fort Sam Houston.

He joined the Army Sept. 17, 1948, and enlisted for another three years on the same date last year. Vella Sanchez, 20, his fiancee, said he had spent a year in Korea, with headquarters of the Eighth army.

"He was wounded in the hip and got a broken ear drum," she said. "He has the Purple Heart, five campaign start, the United Nations ribbon, the Korean service ribbon and a unit citation."

Spare Parts for Body Are Available to Man

NEW YORK—Spare parts for the human body still can't be ordered from a mail-order catalog. Nevertheless, the advance of medicine during the past few years has made available an imposing array of replacements for damaged or ineffective organs.

Following the development of the blood bank, first of the spare-part repositories, ingenious surgeons have found ways to maintain banks for eyes, bone, cartilage, arteries and veins. There are now methods for transplanting whole organs from one individual to another, and for constructing replacement organs from tissues taken from the patient's own body.

Some man-made spare parts, such as the artificial kidney, are already coming into clinical use, while others, among them the mechanical heart and plastic heart valves, are well along in the experimental stage.

Bone Banks Now Ready For Use in Most Cities

NEW YORK—Several hospitals in New York and elsewhere operate banks for human bone. At the New York hospital for special surgery, one of the first to establish a bone bank, successful grafts have been made with bone stored for as long as 22 months. Bank bone has been used in more than a thousand operations.

Bone banks have been able to obtain an adequate supply of bone from amputations and other operations in which bone is removed. Cut into chips or thin strips, the bone is given a careful cleaning, and stored in sterile jars in a deep-freeze at -13 degrees F. Bone grafts are employed primarily in fractures that refuse to knit, in replacing infected bone, in operations for fusing various joints of the spine, and in aiding children born with bone missing.

The grafted bone does not grow, but stimulates the growth of the patient's own bone.

Weather Affects Range Of Shotgun Pellets

BRIDGEPORT, Conn.—The pellets in a shot charge are not always perfect spheres when leaving the gun barrel and departures from sphericity result in shortened ranges. A wind may appreciably increase or decrease the maximum range. The maximum range is greater on hot days and less on cold days.

The calculations do not take into account interactions among the various pellets which may increase the range a few feet. Furthermore, no provision is made for the occasionally observed effect of "shot balling", that is, the sticking together of several pellets in the shot charge to form a cluster. Although with modern guns and loads this may be of relatively infrequent occurrence, it must be recognized that such a 'ball' would travel considerably farther than the other pellets in the charge.

'Time for a Change'—U. S. Sides With Men

WASHINGTON—Women spend more money for clothes than do men—this old male argument has been proved by a government report.

In a brand-new report on American spending habits, the Bureau of Labor Statistics says "around 55 per cent of the family clothing budget was spent (in 1950) on women's and girls' clothing."

Men and boys? They got "a little over 40 per cent" of the clothing budget. The remainder went to the kiddies.

Community Soaked As Indians Perform Ancient Rain Dance

ANADARKO, Okla.—The American Indian Exposition here was rainsoaked 12 hours after the Jemez Apache Indians completed a rain dance under a clear sky.

Chief Juan Gachupin and his 14-year-old daughter, Leonora, performed the rhythmic, stamping dance while two braves chanted and beat a tom-tom, before 10,000 delegates from 35 tribes and 6,000 palefaces.

Another performance was scheduled. The rain threatened to reduce attendance and slow down athletic contests.

Two years ago, the Kiowa Indians performed a "forbidden" pagan sun dance over the angry opposition of tribal leaders. It was followed by rains so heavy that they nearly washed out the exposition.

Farmers near Anadarko rejoiced after the rain. A summer drought had almost destroyed their cotton, peanut and feed crops. Chief Gachupin refused to take credit.

Asked through an interpreter whether he thought his dancing had anything to do with the rain, he grunted, "I couldn't say."

The Jemez tribe, descended from the pueblos, has claimed for centuries that the dance does bring rain.

Exposition officials said that the opposition to the sun dance in 1950 came from the fact that it was considered pagan.

The dairy cow needs a six to eight weeks rest between lactation periods and a good ration during this dry period. The pay off comes with more production during the next lactation period and a better calf.

A farm building burns somewhere in the United States every fifteen minutes. Many of these fires could be prevented if rural residents would take the time to seek out and remove fire hazards from their premises.

Sweet Tooth

For Childhood Compliment

FINDLAY, OHIO—Mrs. John Minnrod remembers with fondness the bakery that was patronized by her mother when she was a small girl. She remembers that on her 11th birthday she fell in love with the wedding cake in the bakery window.

She rushed into the shop, planked 11 pennies on the counter, and told the proprietor, "This is all the money I have. I'd like to give it to you as a deposit on a cake exactly like the one in the window for my own wedding." The baker took the 11 pennies and gave her a receipt.

Twelve years later, on the eve of her marriage, she received a package. Inside it was a duplicate of the cake, with a bill enclosed which said, "One wedding cake. Received on account: 11 cents. Balance: Respects of the Campbell Baking Co. for the sincerest compliment ever paid them."

PLAINS 4 H CLUB IS ORGANIZED

The Plains 4 H club (Berry Flat and Mesquite communities) was recently organized with sixteen boys and girls enrolled as members. George Sealy, Borden County Agricultural Agent and Mrs. Edith Hughes, County Home Demonstration Agent, met with the group and explained what the 4 H club is. Then with Mr. Sealy acting as chairman, the group elected the following officers:

President, Jerry Staggs, vice president, Ronnie Spies, Secretary and treasurer, Jenna Burrus and reporter, Patsy Burdett. Next cards were passed out and club members signed these. Most of the boys selected livestock projects for the next club year. Mrs. Hughes talked with the girls about their projects and she told them that a sewing demonstration would be given at their next meeting.

Club members attending the meeting were: Donna Swenson, Faye Spies, Jenna Burrus, Nelda

Stephens, Patsy Burdett, Helen Zedlitz, Wayne Cooley, Owen Houston, Jammie Cagle, Wilson Walker, Ronnie Spies, Jimmy Ardondo, Ronald Martin, Larry Doyle, Jerry Staggs, and Ralph Williams.

GAIL JUNIOR 4 H CLUB IS ORGANIZED

The Junior Gail 4 H club was organized recently with 36 boys and girls as members. Officers are President, Jerry Spies, vice president, Travis Walker, secretary-treasurer, Jerry Reddell and reporter, Melvin Carlisle. The girls will elect officers of their club at the next meeting which will be held on the second Wednesday in November.

When we read the stories about how stunning the bride looked, we always imagine the groom looked stunned.

We are more discontented from failure to satisfy our desires than from failure to satisfy our wants.

Nothing is given away so liberally as advice.

The reason some girls never get married is they are too biased. It's bias this and bias that until the boy friend is busted.

Then there's the guy who made anti-freeze by hiding her woolen pajamas.

We'd rather have a wart on our nose than a debt on our hands: P. S.: we have both.

Envy is a madness which cannot endure the good of others.

Apparently the guys who take cold showers every morning just do so to brag about it.

| 45 | 45 | Woody, J. | 160 | E | Jr | |

Red and Gray game jerseys will wear gray when there is no conflict in colors.

Coaches: C. T. Read of Texas Tech and Melvin Robertson of W.T.S.C.

It is estimated that a rat will eat and destroy or cause to be wasted up to \$25 worth of food in a single year.

Winter legumes can still be planted provided moisture supplies become favorable.

Peanut producers have cut their harvesting costs by as much as 30 to 50 per cent by using machinery -- a mechanical tree shaker and combination separator and huller.

Cotton Babies Throng In Goldsmith, Ind.

GOLDSMITH, Ind.—Dr. S. M. Cotton was given a big day recently in this town of 300 population. He celebrated his 50th year as a "country doctor" with the aid of more than 3,000 persons.

Fifteen hundred of the celebrators wore cards on their lapels proudly proclaiming "I Am a Cotton Baby."

The slender, blue-eyed doctor thought he must have delivered "between four and five thousand" babies. Tipton county records show Cotton's name on 4,467 birth certificates.

Cotton was honored at a big dinner in the Methodist Church. Afterwards, the Jefferson Township band led a parade down Main St. to the Old Settlers' Grounds, where the doctor, his sandy hair shot with gray, presided over a picnic.

You have to make allowances for son when he's off to college

MR. FARMER:

Don't you think control of the farm program should be in your hands?

Don't you think you are capable of running your own business?

THEN VOTE FOR TEXAS IKE FOR PRESIDENT. HE IS PLEDGED TO DECENTRALIZE THE FARM PROGRAM, TO PLACE CONTROL ON THE STATE, DISTRICT AND COUNTY LEVELS.

Here's what Ike said at Waco: "Our farm policies ought to begin, as well as end, out where the plowing and the planting are actually done. It should be a unified program, one in which the left hand knows what the right hand is doing."

IKE WILL THROW OUT THE FEDERAL WINDSHIELD FARMERS AND THE BIG CITY LAWYERS
 VOTE FOR LOCAL CONTROL OF THE FARM PROGRAM. VOTE FOR IKE

Biggest car buy in History

Never before has a car given you so much for the money!

VICTORIA AVAILABLE WITH V-8 ONLY.

Ford's 101-h.p. Mileage Maker Six is the newest high-compression, low-friction Six you can buy. Ford's 110-h.p. high-compression Strato-Star V-8 is the most powerful engine in a low-priced car.

Ford's new Automatic Ride Control brings a smoother, "heavy car" ride into the low-price field for the very first time. Takes bounce out of bumps, tilt out of turns.

White sidewall tires optional at extra cost. Equipment, accessories and trim subject to change without notice.

Yes, Ford's the very first car in America to give you so much style, so much comfort and so much power for the money. Only Ford in its price class is completely new in looks, for example, with wider, lower, longer, stronger bodies . . . with new Full-Circle Visibility that lets you see in all directions . . . and with a new steering system that makes steering easier, parking a cinch.

Come in and TEST DRIVE **FORD** You can pay more . . . but you can't buy better!

BUY SPARE BULBS TODAY WHERE YOU SHOP

Your dealer has a convenient chart that will help you select the proper size bulbs for every fixture.

REDUCE EYE FATIGUE

With The Right Bulb In The Right Place

Needle work is so much more pleasant when you've plenty of light. You'll be able to see better what you are doing, even on dark materials. You'll be able to sew faster and do a neater job with less eye fatigue, too, when you take this advice from Reddy Kilowatt: The right bulb in your lamp for sewing or other fine detail work should be at least 150 watts. Better light makes every seeing task easier!

YOUR DEALER CAN HELP YOU select "the right bulb for the right place." Check his convenient chart and buy the bulbs you need . . . plus some extras . . . for easier seeing.

O'Donnell Implement Co

Denver City Nips Eagles

The powerful Denver City Mustangs took their conference 4 A opener at Denver City Friday nite by topping the Eagles 49 to 7. Getting two T. D. in every period, but the 3rd, when reserves pushed across one score, the Mustangs made 372 yards to Eagles 152. The loss gave the Eagles a one and one record in conference play. O'Donnell's only score came in the waning minutes of the game when Tommy Modesitte hit pay dirt for the Eagles. The Eagles played good ball but were out-matched by this strong and big team.

Friday nite the Eagles meet Stanton here. The story is elsewhere in this issue.

Following are the Junior Hi favorites: 6A, Van Reese, Donna Vestal; 6B Marilee Dale and Lanny Brewer; 7 A Loyd Ward and Carolyn Foreman; 7 B Terry Morris and Margaret Cathey; 8th Betty Snellgrove and Leo Bairrington

4th grade News
We are happy to have Mrs Brock back with us; we have enjoyed having Mrs. Stark as teacher.
8th Grade News
The 8th grade elected officers

recently as follows: Leo Bairrington president, Johnny Mc Laurin, Wallace Cox, secretary and the president selected committee chairmen. The Junior team played Slaton last Thursday nite. The score was a tie 13-13. The team lost to Post Tuesday 19 to 12.

A MINUTE EDITORIAL

O'Donnell Business Men: farmer friends are voting Democratic this year. Don't take our word for it. THEN, do you want them to be without the Democratic farm program. Think, fellow farmers! It's a bread and butter matter!

Time Out for Freedom

This coming election day, your local Santa Fe Agent will be taking a short "time out" for freedom's sake. He'll be over at his polling place voting along with his neighbors.

It's only one vote, but like yours and your fellow citizen's, it's a mighty BIG one this year.

Be sure you take an active part in this year's election. You'll feel 100 per cent better after you have voted because you will know you are being a real American.

See you at the polls, November 4th!
