NOTICE OF BOND ASSUMPTION ELECTION THE STATE OF TEXAS

Counties of Lynn & Dawson. ||
NOTICE is hereby given that an election will be held on the 15th day of March, 1947 at the O'Donnell High School building in the Town of O'Donnell within the present O'Donnell Consolidated Independent School District of Lynn and Dawson Counties, on which date the following proposition shall be submitted to the legally qualified resident property taxpayers voters in said District for their action thereupon:

PROPOSITION
"Shall the Board of Trustees of the proposed O'Donnell Consolidated Independent School District be composed of the present O'Donnell Consolidated Independent School District of Lynn and Dawson Counties, Texas, and Draw Independent School District of Lynn County, Texas, and to be known as 'O'Donnell Consolidated Independent School District.' assume, pay off and discharge all of the outstanding bonded indebtedness of each of said Districts incurred or assumed prior to the formation of said proposed consolidated Independent School District, said indebtedness including school house bonds described as follows:

- Bonds issued by Draw Independent School District of Lynn County July 25th 1925 for the original amount of \$25,000.00 on which \$15,000.00 is still outstanding.
- Refunding Bonds, series 1940 issued by Eason (O. K.) Independent School District of Dawson County, for the original amount of \$15,000.00 on which \$9,000.00 is still outstanding.
- Refunding Bonds, series dated September 1, 1936 issued by the O'Donnell Independent School District of Lynn and Dawson Counties, Texas, for the original amount of \$90,000.00 on which \$77,500.00 is still outstanding.
- Bonds issued by O'Donnell Consolidated Independent School District of Lynn and Dawson Counties, Texas, dated August 1, 1946 for the original amount of \$75,000.00 on which \$75,000.00 is still outstanding.

NOTICE OF ELECTION TO CONSOLIDATE SCHOOL DISTRICTS THE STATE OF TEXAS, COUNTIES OF LYNN AND DAWSON
Notice is hereby given that an election will be held on the 15th day of March, 1947 at the O'Donnell High School building in the town of O'Donnell within the O'Donnell Consolidated Independent School District of Lynn and Dawson Counties, Texas, to determine whether or not a majority of the legally qualified resident voters of said District desire that Draw Independent School District of Lynn County, Texas, shall be consolidated with the said O'Donnell Consolidated Independent School District of Lynn and Dawson Counties, Texas, for school purposes, and that said proposed District be known as "O'Donnell Consolidated Independent School District."

B. M. Haymes has been appointed Presiding Officer of said election and he shall select two Judges and two clerks to assist him in holding the same and he shall, within five days after said election has been held, make due return thereof to the Commissioners' Court of Lynn County as is required by law for holding a General Election.

Any person who is a legally qualified voter of this State and of the County of his, or her residence (in Lynn County or Dawson County) and who is a legally qualified resident voter of said O'Donnell Consolidated Independent School District shall be entitled to vote at said election, and all voters who favor the proposition to consolidate the said Districts for school purposes shall have written or printed on their ballots, the words:

"FOR CONSOLIDATION."

And those opposed to the proposition to consolidate the said Districts for school purposes shall have written or printed on their ballots, the words:

"AGAINST CONSOLIDATION."

Why Not Grow Better Sweet Corn?

What's your favorite garden vegetable? "Roastin' ears" you can hear whole families shouting in the Southern States. "Corn-on-the-cob!" exclaim the Northern folks. It's the same everywhere. Sweet corn is even more American than 'hot dogs'.

During the war many Victory Gardeners discovered the real flavor of sweet corn for the first time. They found that all the luscious sweetness is preserved by cooking the ears as soon as they are picked. When they are allowed to lie around half a day before boiling or roasting, much of the sugar turns to starch, and there's a flat, unappetizing taste.

Because garden-fresh sweet corn is bound to be a "must" for many peace-time homes, here are a few tips on how to enjoy even better results than in the past.

If you have been growing white corn up to now, why not adventure with some of the yellow types? Many think the flavor richer, and most experts agree that yellow corn is superior in vitamins. Some of the new yellow hybrids have certain advantages over the older types. The ears are large, the yield unusually heavy for the space occupied, and most hybrids are resistant to certain plant diseases.

Golden Cross Bantam does well almost everywhere; Ioana is a favorite in southern areas; Marcross is especially adapted to northern gardens.

Where corn diseases are not common, some of the regular varieties still take precedence. Many gardeners think nothing surpasses the flavor of true Golden Bantam. And fortunate folk who have had a chance to sink their teeth into the deep milky kernels of Ferry's Golden want nothing else in their sweet corn patch.

Whatever the variety, several short rows should be planted to form a compact plot, rather than one or two long rows. This is to make sure that the wind will carry pollen to every silk on every ear for only in that way can all the kernels develop.

Whether hybrids or regular types of corn are grown, be sure to put in several plantings ten days to two weeks apart instead of sowing all the seed at once. Extend your sweet corn eating time over as long a season as possible.

Take courage if you have been a bit discouraged because of the corn bore or ear worm. There are more preventive this year and fairly simple ways to combat the pests. Begin early if you suspect a corn borer attack. Apply rotenone dust liberally on the plant just before the ears form. Do this four more times, five days apart. To outsmart the corn ear worm, wait until the ear has formed and the silk has dried. Snip off the dried silk close to the husk, or apply mineral oil to the ear tips.

I GIVE YOU TEXAS

You no doubt noticed in the papers the other day where Miss Nancy Huval of Pampa wrote a letter to President Truman, saying that if Alaska is admitted as a state, it ought to be divided into two or three, as "Texas just has to be the biggest state."

For a good while, this columnist has been giving thought to the condition that would result if Alaska becomes a state and it is gratifying to learn that there are others who feel concerned about it, too.

The young lady from Pampa is to be congratulated, however, on doing something about it and she showed fine judgement in writing to the President himself; there is nothing like going direct to the head man.

But if worse comes to worst and Texas is admitted as a state all in one chunk, there is this consolation—Texas, and especially the hundreds of thousands who were in the

armed forces during the war - have done a grand job of letting the rest of the world know how big Texas is and we have a head start on Alaska that they will never be able to catch up with us.

I used to tell this little story in talks:

A Texas sergeant landed in North Africa with a detachment of Texans during the recent war. He called them together and said, "Men, we want to advance the good neighbor policy; we are here to create good will. If these natives over here say that Africa is bigger than Texas — why, just agree with them".

But I quit telling the story because the audiences thought that Texas is bigger than Africa.

AND, come to think of it, I believe Texas is bigger too!

North Texas has just concluded its biggest manhunt since the days of Sam Bass. The pursuit lasted for four days before the one man crime wave surrendered. He probably was just giving his friends time to raise a thousand dollars so he could hire a Senator and get a parole from the pardon board.

When a fellow pays 85 cents for a meal, it does look like they ought to serve butter with it. Even if but ter is 80 cents a pound, it would only cost a cent to serve a pat. Of course, this doesn't include the cost of buying a new razor blade every once in a while to cut the butter with.

Maybe this mild complaint will produce results. The recent plea for sausage with some sausage in it did. Ted and Paul, who ran a market in Ft. Worth, sent me a good siz-

PNEUMONIA IS STILL A KILLER, SAYS DOCTOR

According to the State Health Department, pneumonia caused approximately 2,460 deaths during the past year in Texas, a total which is entirely too high. This disease is most prevalent during the winter and spring months.

Pneumonia is caused by a germ called the pneumococcus, which is ready to start trouble when our resistance to it is lowered. We can keep up our resistance by avoiding undue fatigue and unnecessary exposure to extreme weather conditions.

When we go outside in cold weather sufficient wraps should be worn to protect us. Keeping the temperature of our homes as low as is consistent with comfort will greatly lessen the difficulties encountered in adjusting ourselves to the cold when we leave the house.

Another method of prevention of pneumonia is not to neglect a cold for the common cold often results in pneumonia when neglected. A person with a severe cold should stay at home, and call his doctor for advice if his temperature persists of the cold lingers on. He should follow his physician's advice until the cold has disappeared.

The successful treatment of pneumonia case often depends upon starting treatment very early. That is why a physician should be called at once when pneumonia is suspected. A patient may really be beginning pneumonia when he thinks it is only a cold. If the physician's advice is sought, he will have an opportunity to start treatment early if pneumonia is present, or develop in such cases.

hudh: Gsoas,altd

ed package of sausage that tasted like the old time kind — free.

And from Bill Sullivan, a guide, away up in Stanley, Idaho comes an invitation to go on a hunting and fishing trip in the primitive area of the Middle Fork of the Salmon River and the Saw Tooth and White Cloud Mountains and go after chinook salmon, sockeye salmon, steel head, rainbow, golden, cut trout, native and other trout—also elk, deer, goat and black bear. "Grizzly" was scratched out — and me all a-bankering to tackle a grizzly bear bare-handed, with a bowie knife in my teeth in reserve just in case I needed it.

There is a pleasure from coming in contact with nature that nothing else can give — whether it is digging in the earth and planting seeds or dropping a line in the water to ride the shade of a tree or just walking thru the woods at twilight.

The crow, in cornfield... condore
...raucous...
Sounds like a legislative caucus...
At least, if crows should make our laws...
None should be passed without the caws.

Cotton textile industry expects increased production of civilian fabrics (present annual rate, 10.5 billion square yards) will stimulate cotton's return as a style fabric for slacks, sport shirts, summer dresses, etc.

HOW YOU LOOK TO OTHERS

Wouldn't you like to know how you look to others? That is exactly what home demonstration women are learning to do thru leaders training meetings held by Alta Mae Peterson, County Home Demonstration agent.

The agent held a training meeting last Wednesday on clothing programs for leaders who have been selected by their respective clubs for the expansion of the leadership program.

In this meeting the leaders were instructed how to teach the things they learn. They will, as leaders in their clubs, give a program on what they learned at the training meeting.

The agent's primary goal this year is to develop more leaders, & the method or step in doing this is to train women to give demonstrations or programs in their clubs. These leaders will be responsible for at least four club programs this year in relation to the expansion program in leadership.

es, however, is that the Stalin dictatorship does permit a certain kind of freedom of thought.

The trading with the enemy Act will be modified soon by the U. S. officials. The action will be taken as a step toward speeding up the revival of freer trade with both Germany and Japan.

Wool and mohair are of major importance to operators of 40 million acres of land in Texas.

Eighty seven per cent of all the Angora goats in the nation are in Texas.

Angora goats in Texas produce about 16 million pounds of mohair each year.

Prosperity Pattern

Switzerland is a small country without seacoast, without natural resources, without enough fields to produce her necessary food. The non-homogeneous people—one part speaking German, another French, and a third, Italian—add to her domestic difficulties.

Under these conditions, Switzerland should naturally be expected to be one of the very poorest nations in Europe. On the contrary, however, Switzerland had before the war, and has yet, the highest per capita wealth in Europe. This little country pays the best wages known in Europe and maintains the best living conditions for her workers. Why? How?

A Way and A Will

Why should a people with the least possibilities come out with the highest average wealth, highest wages, and best living conditions? Simply because Switzerland has the right formula for prosperity, plus the will to make the formula work. Switzerland is proof to the world that any nation can have prosperity. There are just three requirements.

1. Switzerland has a real republic, through which the citizens reserve to themselves real individual freedom. Nearly all laws touching the lives of the people are made locally in districts called "cantons," corresponding roughly to our states. Even the amount of income tax to be paid by the people of each canton is decided locally. Political responsibility is a reality. And real freedom of individual opportunity exists.

Ownership Pays Out

2. Switzerland has the right type of economy. All industry is privately owned and operated. Individual ownership of property is encouraged and protected. A high percentage of people own their own homes and their farms. Thrift is encouraged by both the local and national governments.

3. Switzerland has equal responsibility placed by law upon both labor and capital. Industrial peace is encouraged, both by local and national government. Industrial cooperation prevails throughout the nation.

Switzerland is living proof that these three conditions will bring prosperity to any country, regardless of the quantity of its natural resources. The Swiss do not put the eye of aggression on their neighbors, in a search for "living room." Content with their own mountains, they have found that the resources of individual freedom, sane economy, and hard work can give them all they want. These moral resources the Swiss can call their own.

The most serious problem facing the dairy industry in Texas is the low average production per cow. Approximately \$200 million worth

of milk was produced on Texas farms during 1945. About 1,450,000 cows produced 4,406,000,000 pounds of milk.

Reduced to simplest terms, a balanced dairy program is having plenty of feed for the number of good cows that can be managed

THE WASHINGTON SCENE

Senate Committee Chairmen Are Experienced Legislators

(Editor's Note: This is the third in a series of articles on new congressional committees and their chairmen.)

By WALTER A. SHEAD

WASHINGTON.—Experienced legislators are at the helm of senate committees of the 80th congress, a survey disclosing that the committee chairmen have served an average of 11 years in the upper house. Their length of service ranges from four years for Sen. Chapman Revercomb of West Virginia to 28 years for Sen. Arthur Capper of Kansas.

In age, the new Republican chairmen average 61 years, five years older than senators as a whole. Youngest of the group is Sen. Styles Bridges of New Hampshire, who is 48, while the oldest is 81-year-old Capper.

The list of committees and their chairmen continues:

Agriculture

ARTHUR CAPPER (Kas.), chairman of the senate agriculture and forestry committee, is at 81 the oldest man in the senate and ranks second only to Kenneth McKellar (Dem., Tenn.) in length of service. He was elected to the senate in 1919, after serving two terms as governor of Kansas.

Now dean of the farm bloc, Capper has been an important figure in agricultural legislation for the last 20 years. He voted for the McNary-Haugen bill in 1927, the agricultural adjustment bill in 1933, soil conservation in 1936, crop insurance in 1938. He voted in 1942 to include the cost of farm labor in computing parity prices and for the Russell amendment to the same effect in 1946. Capper was for the Smoot-Hawley tariff in 1930. In 1934 he voted for reciprocal trade agreements but by 1940 he was against extending them. He supported creation of TVA in 1933 but is against the proposal for a Missouri Valley authority. In a recent speech he announced that the parity price support program needs revision to prevent accumulation of unsalable surpluses.

Capper has a wide influence in the grain belt through a number of newspapers and magazines which he supervises from Washington. He entered the publishing field by becoming a typesetter for the Topeka Daily Capital, which he now owns. His other publications are Capper's Weekly, Kansas Farmer and Mail and Breeze, Household magazine, Capper's Farmer, Missouri Ruralist, Ohio Farmer, Pennsylvania Farmer, Michigan Farmer and Kansas City Kansan. He also owns radio station WIBW in Topeka.

Public Works

CHAPMAN REVERCOMB (W. Va.), still serving his first term, becomes chairman of the public works committee, which will take over the old committees on commerce and public buildings and grounds and non-personnel functions of post offices and post roads.

Revercomb is 51 years old. He was born in Covington, Va., served in the army in World War I, returned to Covington to practice law and moved to Charleston, W. Va., in 1922. He was a member of the Republican state executive committee from 1932 to 1936 and was president of the Young Republican league of West Virginia from 1934 to 1936. He was elected to the senate in 1942. He is a former president of Charleston Bar association.

On public works matters, Revercomb voted against an appropriation to continue the national resources planning board in 1943, against an appropriation of 75 million dollars for a postwar planning fund in 1945, for the full employment bill in 1945 and against an amendment the same year to reduce federal aid for airports from 500 million dollars to 250 million dollars.

On most issues, Revercomb has followed Republican party policy. He voted with the majority of his party on 82 per cent of controversial roll calls in the 79th congress.

Judiciary

ALEXANDER WILEY (Wis.), chairman of the judiciary committee, is a regular Republican who voted with his party 85 per cent of the time in the 79th congress. In the second session he was absent for only 10 per cent of roll call votes.

'Building Bee' Solves Housing Shortage

HOLDREGE, NEB.—Harking back to the pioneer days, Holdrege is reviving the old-fashioned "building bee" in an attempt to solve its current housing problems. Early settlers in the plains country always "pitched in" to help their neighbors build a home. D. C. Leffer, assistant manager of a local bottling works, recalled in suggesting the cooperative plan. The idea was accorded a hearty

One of the first problems before the judiciary committee under Wiley will be advisability of repealing emergency war powers not affected by the President's proclamation of the end of hostilities. In a report to the Republican conference, Wiley stated that, in view of the "continued national emergency," the "varied and complex nature" of the wartime controls and the "chaotic effects" of immediate termination of controls, the problem should be studied by the senate committees concerned with the various types of controls before the judiciary committee draws up overall recommendations.

Wiley, born in 1884 in the town of Chippewa Falls, where he still lives, is a lawyer. He also owns and operates a farm and has been a director of a local bank. His only public office before his election to the senate in 1938 was that of district attorney for Chippewa county, which he held from 1909 to 1915.

The judiciary committee deals with courts and judges, anti-trust problems, bankruptcy laws, patents, immigration, civil liberties and constitutional amendments.

Interstate and Foreign Commerce

WALLACE H. WHITE JR. (Me.), new chairman of the interstate and foreign commerce committee, is one of the few Republicans who have had previous experience as a congressional committee chairman. White was chairman of the house committee on merchant marine and fisheries from 1927 to 1931. In addition to transportation and general bills affecting commerce, White's committee handles radio and communications, civil aeronautics and merchant marine bills.

White was also minority leader of senate Republicans in the 79th congress and now comes majority leader in addition to commerce committee chairman.

He was strenuously opposed for the committee job by Clyde M. Reed, (Rep., Kas.) who was represented as having the support of the railroads while White was backed by the radio industry.

White is 69 years old and has been in congress continuously since 1916, when he was elected to the house. He went to the senate in 1930, and is the third ranking Republican senator in seniority. Before entering congress, White practiced law in Washington and Maine and was a senatorial secretary.

Labor and Public Welfare

ROBERT A. TAFT (Ohio), new chairman of the labor and public welfare committee, has endorsed changes in labor laws to enable employer and employee to meet on a fairly equal basis. Specifically, he will seek enactment of legislation to hold unions responsible for contract violations, to require union financial reports, to establish mediation machinery outside the labor department to outlaw secondary boycotts, and to exempt foremen from the Wagner labor relations act. Most of these provisions were in the vetoed Case bill last spring.

Taft, a 57-year-old lawyer, is the son of former Pres. William Howard Taft. He served in the Ohio house of representatives from 1921 to 1925 and in the state senate in 1931 and 1932. He was elected to the United States senate in 1936.

The labor and public welfare committee will handle bills on education, health, veterans' hospitals and medical care, in addition to the subjects covered by its name.

'GOING PLACES'... Planning a trip is almost as much fun as actually going, the Camp Fire Girls in this picture attest. The teen-age Horizon Clubber tells two Blue Birds about a trip her group is planning this summer.

AGE NO SECRET

Camp Fire Girls 'Go Places,' Resume of Services Reveals

Camp Fire Girls, your birthdays are showing! Yes, they are—35 of them! But instead of growing older with the years, you remain young in spirit and mind, eagerly looking forward to new horizons.

Camp Fire Girls! Perhaps that brings to mind a group of girls in Indian ceremonial gowns, adorned with beadwork, rubbing two sticks together to make a fire in the woods. Well, they do that, too, but it's only a fraction of what the girls do!

On March 15, 1912, the organization was incorporated. Two years prior to that, a group of progressive educators, naturalists and woodsmen founded the youth-serving agency, "to formulate a plan of constructive leisure-time activities for young girls from 7 to 18."

These far-seeing people realized that character is formed predominantly during the recreational hours of a child's life. They outlined a program of work and play, based on the finest ideals of civilized living.

During 35 years their wise planning has paid dividends. For more than two million girls have enjoyed fun and friendship in Camp Fire since the organization was incorporated. At present, more than 360,000 members in 222 councils scattered from Maine to California provide proof that Camp Fire's program offers the recreational needs girls are seeking.

Every year Camp Fire proposes a project particularly geared to service and citizenship. The 1947 anniversary project has as its theme, "Going Places." Although the organization's youthful members have been "going places" ever since 1912, they now will plan to go even farther afield.

As an example, in Reading, Pa., 100 Camp Fire Girls received a behind-the-scenes training in business as they took over various jobs for one day in one of the city's large department stores. They went forward, not only in learning how a big business is run, but also in the field of human relations.

Another instance of how Camp Fire members are alert to new trends occurred in Dayton, Ohio. Thirty girls recently enrolled in a four-week course in child and baby care. Now Dayton mothers of young children will feel secure in using Camp Fire Girls as "baby sitters."

Out in St. Paul, Minn., Camp Fire Girls went places in a big way during the Community Chest campaign by caring for children of volunteers while the mothers were out collecting funds for the drive. Alert to other community needs, Klamath County, Ore., Camp Fire Girls volunteered to work in public health offices, bringing files up to date, at the same time getting experience in business procedures.

Adopt War Orphans. Promoting international good will always has been a part of Camp Fire's program. In Washington, Ore., Horizon Clubbers (Camp Fire's senior group) have adopted a French war orphan and regularly send him clothes and food. A similar undertaking is being accomplished in Sacramento, Calif., where another teen-age group also has adopted a war orphan.

From these few excerpts may be gathered a small idea of the vastness of the Camp Fire program. Rubbing two sticks together to make a fire is not the half of it!

"The vision of the world and all the wonder that would be," which the founding fathers of Camp Fire had back in 1912, has indeed been realized as Camp Fire Girls show the world they are "going places!"

Historical Group Asks End of Civil War Bond

MADISON, WIS.—Under terms of a bill introduced in the state senate, Wisconsin State Historical society will be freed from its Civil War shackles. State law restricts the society to gathering historical data and exhibits concerning "the war of the rebellion." The bill will free the group from its ancient bonds and allow it to look at things past the year 1865.

SIDE LIGHTS OF WASHINGTON BY GEO. MAHON

(Delayed) This is being airmailed from Washington on George Washington's birthday. There are 8 inches of snow on the ground but the sky is clear and planes are scheduled to begin flying west again at noon today. Personally, however, I do not care about airplane travel in this kind of weather. Yet despite crashes in recent weeks which have taken considerable toll of human life, we are told that commercial air travel was twice as safe in 1946 as in the previous year. Authorities point out Cabot Lodge, read Washington's Farewell Address and passing a bill to provide extensive cooperation with Mexico in an effort to prevent the spread of the hoof and mouth disease to the herds of Texas and the Southwest.

Earlier in the week we passed a resolution proposing a cut of 6 billion dollars in government spending. Though I favor economy and feel that a passenger could fly around the world 33 times before, according to the law of averages, he would lose his life in a fatal accident. Few would desire to tempt fate that far. Yesterday the House of Representatives celebrated Washington's Birthday by listening to Congressman Lodge, descendant of Henry that many reductions can be effected. I made an eleven minute speech against the resolution on the ground that the Republicans were concealing the principal facts as to what cuts were contemplated and that drastic cuts in the armed forces would jeopardize our national security.

My principal job this week has been to attend daily hearings of the War Department Subcommittee on Appropriations. We are scheduled to meet almost daily for a month or six weeks in hearings and in preparation for submission of the bill to the House.

General Eisenhower, Army Chief of Staff, spent three hours with us on Wednesday explaining the reasons why he thought the army needed 6 billion dollars for the fiscal year beginning July 1st. We hope some substantial reductions can safely be made, but it is too early to say where we can cut. We are requested to provide for an army of slightly over one million men. In view of the general world situation and the fact that none of the peace treaties have been finally approved, I feel that an army of the strength requested is required. Secretary of State George Marshall will soon be sitting across the table from Generalissimo Stalin in Moscow. We should strengthen Marshall's position as much as reasonably possible. Our subcommittee is still composed of seven members. This year 4 of the members are Republicans, & Albert Engel of Michigan is chairman. Al has a farm up in Michigan which is devoted to the growing of Christmas trees. He says it takes several seasons in which to grow a good Christmas tree. Unfortunately we West Texans have found that it sometimes takes several seasons in which to grow a good cotton crop.

INCREASE GIVEN IN OLD AGE FUND

The Post, Texas, office of the State Department of Public Welfare has completed a desk review of all Old Age Assistance and Aid to the Needy Blind grants following action of the State Legislature in making more State money available for assistance. O. C. Chapman, the Department fieldworker for Lynn county announced this fact this week.

O'Donnell Index-Press Published Every Thursday by O. G. SMITH, OWNER

Box B, O'Donnell, Texas Entered as second-class matter Sept. 28, 1923 at post office at O'Donnell, Texas, under the Act of Subscription Rates In first zone (Dawson, Lynn and Borden counties) \$1.50 Beyond first zone \$2.00 ADV. RATES: 40C LOCAL NATIONAL 45C

Adjustments are being made on all cases where increases are justified. The increases will be in checks for the month of March.

Mr. Chapman pointed out that a blanket increase on all claims will not be made but that the standard food chart figures have been revised upward in accordance with the percentage of advance in food prices since the time of the last cost survey some two years ago. The number of persons in a family depending on the aid benefits will also be taken into consideration.

Raises will range from \$1 to \$3 per month. The local office has been able to make adjustments on all claims. It, therefore, will not be necessary for individuals recipients to have to come to the office. The additional appropriation will allow money for payment of full claims in the Aid to Dependent Children program. Heretofore, due to limited funds, allocations were made to allow as much per case as possible but rarely was there enough funds available to pay the full amount authorized. Mr. Chapman said.

Approximately 190,000 aged and 5,100 needy blind will get increases amounting to \$500,000 or \$600,000 over the state as a result of elimination of the ceiling. The 30,000 dependent children will receive around \$200.00 per month IS YOUR Subscription paid?? KEEP O'DONNELL CLEAN !!

THE WASHINGTON SCENE

Two Regions Wield Power In New Senate Committees

By WALTER A. SHEARD
WNU Washington Correspondent.

(Editor's Note: This is the second in a series of articles dealing with new congressional committees and their chairmen.)

WASHINGTON.—North Central and New England regions wield the balance of political power in the senate as a result of the new committee setup in the 80th congress under terms of the congressional reorganization act.

Of the 14 new senate committee chairmen, eight come from the North Central region, including the states of Ohio, Illinois, Michigan, Wisconsin, North Dakota, South Dakota, Nebraska and Kansas. The New England region is represented by two chairmen from New Hampshire, one from Maine and one from Vermont. West Virginia and Colorado are the only other states represented by committee chairmen. The Middle Atlantic, South Central and Pacific regions are entirely unrepresented.

The list of senate committees and chairmen continues:

Banking and Currency

CHARLES W. TOBEY (N. H.), new chairman of the banking and currency committee, is an independent Republican who votes against his party as often as with it.

Tobey broke with the majority of the Republican senators to support reciprocal trade agreements in 1945 and to oppose restrictive OPA amendments that year. (He changed his mind about OPA by July, 1946, however.) He also voted for the loan to Britain, and, like most Republicans, opposed the nomination of George E. Allen to Reconstruction Finance corporation.

A business man turned politician, Tobey was at one time president of the F. M. Hoyt Shoe Co. and also has had experience in agriculture, banking and insurance. He is a former president of Manchester chamber of commerce. He served three non-consecutive terms as a member of the New Hampshire house of representatives, including one as speaker, and one term in the state senate. He was governor of New Hampshire in 1929-30 and was elected to congress in 1932. After three terms in the house, he was elected to the senate in 1938.

Tobey was a delegate to the United Nations monetary conference, which drew up plans for the World Bank and the International Monetary Fund, at Bretton Woods, N. H., in July, 1944.

Expenditures

GEORGE D. AIKEN (Vt.) is new chairman of the committee on expenditures in the executive departments, which is assigned the function of keeping tabs on executive agencies. The committee is likely to be primarily an investigative body and may be used as the vehicle for the Republican majority in the senate to investigate the Democratic executive branch of the government. It also will have jurisdiction over governmental reorganization. Under Democratic control, the committee has been inactive in the past.

A Vermont farmer, Aiken is 54 years old and has been in the senate since 1940. Before that he had been active in politics as a member of the state legislature, lieutenant governor and governor. He is the author of "Speaking from Vermont," a discussion of current problems, published in 1938.

During the 79th congress, Aiken cast more votes against the majority of his party than any other Republican. The records show that he voted with the majority of Republicans only 20 per cent of the time on issues where there was a Republican-Democratic split.

Finance

EUGENE D. MILLIKIN (Colo.), new chairman of the finance committee, which handles tax bills, is by no means enthusiastic over plans of house Republican leaders to cut individual income taxes 20 per cent straight across the board.

Writing a tax bill, Millikin says, "is not an exercise in logic; it's an exercise in necessity." Before undertaking tax revision he wants to see the budget balanced and a long-term debt reduction plan adopted. Then, if possible, he wants to make a thorough study of the tax structure before committing himself

promised instead to send a tutor to her trailer home.

"It'll be lonely staying home alone," Patsy said, biting her quivering lip. "But I can't give up Lucky ever. She's the only eyes I've got."

Her main concern now is to rush through her last three semesters of high school so she can enter junior college, where, she adds, "they let you take dogs to classes."

senate. In his youth he worked as a construction engineer for Chicago, Burlington and Quincy railroad. He is an ex-president of Omaha Grain exchange and National Grain Dealers association and has been active in Nebraska civic, educational and religious organizations.

Butler was in line for the more important finance committee chairmanship, but passed it up to take public lands.

Waffle iron proves Dangerous Weapon

SHOSHONE, IDA.—A waffle iron is a potentially lethal weapon, insists Mrs. Dwight Nicholson. She should know—she was shot by one. A small caliber cartridge accidentally was dropped into the waffle iron, and the top lowered. When the iron was heated, the bullet exploded just as Mrs. Nicholson lifted the lid. The bullet fired from the waffle iron struck her on a finger.

Small Planes Zoom

Small, two-place personal plane shipments amounted to 30,639 planes during 1946, accounting for 88 per cent of planes shipped to non-military customers, it is revealed in the annual report of airplane shipments compiled by the bureau of the census. The report showed that manufacturer's shipments of civil aircraft and principal military type aircraft, valued together at \$63 million dollars, totaled 36,204 airplanes during the year. Military customers received 1,330 planes.

SEAL SALE AIDS CRIPPLES . . . Funds derived from the annual Easter seal sale will aid crippled children throughout the nation. Children afflicted with cerebral palsy are shown here learning by supervised play in the curative workshop of the Minneapolis community health service.

HOPE FOR HANDICAPPED

Easter Seal Sale Will Aid Nation's Crippled Children

WNU Features.

"Help Crippled Children" is the message of the 1947 Easter seal, soon to be distributed throughout the nation by National Society for Crippled Children and Adults through its 44 state and 2,000 odd local member societies for the crippled. The drive opens March 6 and will continue until Easter Sunday, April 6.

For 26 years the national society has served the handicapped, seeking to fulfill the unmet needs of the hundreds of thousands of persons who are affected by more than 250 kinds of crippling diseases and conditions. State and local units provide direct services, determined by specific needs in each community. The wide range of services includes camping, nursery centers, home-bound employment, placement, equipment, training, clinics, hospitalization, convalescent care, transportation, curative and sheltered workshops and special education. Services are designed to supplement, not to duplicate, the work of other agencies for the handicapped.

Since 1934 the society has sought public support for the work through the annual distribution of Easter seals. Copies of the first seal, designed by J. H. Donahue, Cleveland cartoonist, now are rated as collector's items.

Eight states participated in the first Easter seal sale, which marked the beginning of unprecedented expansion on the part not only of the national society but also of the entire movement in behalf of crippled children. In 1930 there were 10,000 hospital beds available for crippled children. In 1940 the number had increased to 15,000. Hospital admissions almost doubled, as did the number of teachers in special schools and classes.

Sales of Easter seals have zoomed from 22 million in 1934 to more than a billion. Seal sales now net more than three million dollars annually for aid of the handicapped.

More than 90 per cent of the funds remains in the states where contributions are made, less than 10 per cent being allocated to national headquarters in Chicago for its services to member societies and projects of a national scope. The national staff directs cerebral palsy, professional field, informational, administrative, extension and Easter seal services.

A contest for the best Easter seal design has been conducted annually since 1943 among high school students throughout the nation. The winner receives the Michael Dowling memorial award of \$500.

The 1947 seal, which pictures a tiny boy with his crutch under his arm walking up a ray of light to a distant star, symbolic of hope for all crippled children, was designed by Frank Gross, a Janesville, Wis., high school student. School children throughout the nation will assist in conducting the month-long seal campaign.

"Off We Go" AVIATION NOTES

AIRPORT CHATTER

Flying Farmers of Edgar county, organized at Midway airport near Chrisman, Ill., plan air markings for all major towns in the county. . . . Facilities of the Waterloo, Iowa, airport are being expanded with construction of two hangars, 100 by 176 feet, and an administration building, 25 by 48 feet. Costs are estimated at \$120,000. . . . Raymond McPeck, Blairtown, N. J., veterinarian, is enthusiastic over the private plane. He uses his personal ship to make calls at surrounding farms. . . . The Air Reserve association is becoming active in Colorado, with the Denver chapter recently reorganized and formation of other units contemplated at Pueblo, Colorado Springs, Boulder and Durango. Vincent D. Eckley, former B-29 pilot, was elected president of the new Denver chapter, which has a charter membership of 200. . . . Forty-five pre-flight students, principally midshipmen, were graduated from the navy pre-flight school at the Ottumwa, Iowa, naval air station in the first class to finish there since the former aviation cadet program went on a permanent peacetime basis. . . . Ten members of the Emerson, Iowa, Flying Farmers chapter have purchased an Aeronca two-seater. H. J. Parker, ex-army pilot and chapter president, is teaching other owners to fly.

UP IN THE AIR

Congressmen often are "up in the air," constituents believe. Several of them are up there literally as well as figuratively through their membership in the Congressional Pilots association. Recently 80-year-old Representative Adolph Sabath of Illinois, now in his 41st year of congressional service, was invited to join the association and learn to fly. The letter inviting him to join explained that Keaney Kopp, veteran navy instructor who is in charge of instruction for club members, recently taught a 75-year-old member of the diplomatic corps to fly.

NEW LUXURY AIRLINER . . . New giant of the airways, United Air Lines' five-mile-a-minute, four-engine Mainliner 300 will go into scheduled service about April 1. The luxury liner, the new Douglas DC-6 will accommodate from 52 to 56 passengers plus 5,400 pounds of cargo.

Blind Girl Quits School To Keep Dog

LOS ANGELES.—Forced to give up her high school classes or part with her seeing-eye guide dog, Patsy Ruth Fergus, 16-year-old blind girl, decided she couldn't part with her dog even if it meant giving up the social life she craved at school.

Despite pleas of Patsy, her parents and classmates, the city board of education decreed she couldn't take Lucky, a pure white German shepherd, to school any more. It

Marble Pie Easy To Stir Together

There's no difficulty whatever in keeping a supply of baked goods on hand these sugar-short days, once you start using prepared pudding mixes as sugar-stretchers in the baking job, writes the Country Cooking Editor of nationally circulated Capper's Farmer. Marble pie is just one instance of how easily an ovenful of delicious desserts requiring no sugar can be stirred together when these mixes are used, she tells farm homemakers.

Marble Pie. 1 pkg. chocolate pudding mix 3/4 c. milk 1 pkg. vanilla pudding mix 1 baked pie shell Using only 1 1/2 c. of the milk to a package of pudding, prepare each one individually according to directions on the box. Cool to lukewarm. Put into pie shell in large spoonfuls, alternating light and dark puddings. Then with a knife cut thru filling with a wide zigzag motion; repeat in opposite direction. Chill.

CHURCH OF THE NAZARENE
