T V's biggest star - 300-pound Dan-Blocker of "Bonanza" - is featured in this week's edition of TV Guide Magazine.

The son of Mr. and Mrs. Shack Blocker of O'Donnell, Dan is seen each Saturday night on KCBD-TV Channel 11. He portrays Hoss Cartwright, whose superhuman strength is matched only by a gentle spirit, in the NBC-TV Western colorcast series.

Blocker attended public schools in O'Donnell and Abilene and Texas Military Institute in San Antonio. The genial giant played football at Sul Ross College in Alpine, where he received the Bachelor of Arts and Master of Arts degrees. He also attended the School of Dramatics in Plymouth, Mass.

Blocker appeared in such T V productions as "The Restless Gun," "Cimarron City," "Gunsmoke," and "Playhouse 90" before joining the regular "Bonanza" cast, along with Lorne Greene, Pernell Roberts and Michael Landon.

The 30-year-old Blocker is married and has four children, including twin girls. He resides in North Hollywood, Calif.

J. D. Evans was awarded the Swine Trophy at Tech for being the best swine showman. The trophy was an award of the Block and Bridle club. The event was the Little International Livestock Show held annually at Texas Tech.

Mr. and Mrs. L. D. Parker and Loran of Hobbs, Mr. and Mrs. Bobby Jack and Roxanna, Mrs. Bobby O'Neal and Karla of Lamesa, and Donald Parker of Lubbock visited the N. S. Parker family over the week end.

John Deere Program Is Next Tuesday

Visitors at John Deere Day, Mar. 15th will see a fast paced variety of colorful film subjects closely coordinated by TV professional, Walter Kronkite. This famous network announcer is an old hand at presiding over presentations of exciting news events. He finds plenty of opportunity to use his skill as he employs modern T V techniques in putting together the wide variety of spot news, feature and entertainment items from everywhere that make up this year's film program.

Guests attending John Deere Day will recognize some other regular performers too, including unpredictable Tom Gordon.

The Gordon Family this year undergoes the pains and pleasures of watching Tom take another lesson in farming the hard way, but winding up on top as usual. There'll be plenty of practical farming information in this film for any "Tom Gordons" who happens to be in the audience, too. Useful facts for all farmers will be included in the "What's New" portion of the program and there'll be an interesting sidelight on farming in the film story on automatic production of high speed shares at the John Deere Plow Works in Moline, Ill.

There will be a free meal at 6 p. m. and the program will be at 7 p. m. There will be door prizes. The event is Tuesday March 15th at the school cafeteria.

Mr. and Mrs. Douglas Ballew and sons spent the week end visiting her parents at Weslesco.

Four Men On Trustee Ballot

The names of Ralph Beach, Elbert Crawford, J. C. Harris and Ben Moore, Jr. have been filed by petition as candidates for the two places as trustee of the O'Donnell Public Schools. 4-H Club Week Set

Governor Price Daniel has by official proclamation designated the week of March 5-12 as 4-H Club Week in Texas and has asked all citizens to participate in the observance being planned by 4-H members in the communities and counties of Texas.

The Governor in his proclamation said, "Learn, live and serve thru 4-H is the 1960 challenge to Texas 4-H Club members. Since the 4-H program was inaugurated by the United States Government in 1914 more than a million young Texans have received its benefits."

"An expanding 4-H program not only teaches the latest practices in agriculture and home economics, but emphasizes character, development and good citizenship. Club members learn by conducting result demonstrations and participating in 4-H activities. By putting into practice in their homes and communities what they learn, club members live and serve through 4-H."

"County extension agents work with voluntary 4-H adult leaders, 4-H members, their parents, and friends of 4-H in developing a program which provides education and leadership opportunities for the youth of Texas. The 4-H program is under the direction of the Agriculture Extension Service of the Texas A & M College System.

"Any boy or girl from the ages of 9 to 21 can take part in 4-H Club work. The opportunities offered to 4-H Club members to grow in citizenship and in practical skills are especially valuable to them, the State of Texas and the Nation."

In a letter to all Texas 4-H Club members the Governor said, "Please accept my best wishes for 1960 and the years ahead. May you continue to build yourselves, your homes and communities, and thus help build our State and Nation. The future holds bright promise for our land, and you as 4-H Club members have a vital share of this future. I join the people of Texas in saluting you and the parents, adult leaders and friends of 4-H who make this program possible."

SIX-PASSENGER CAR OR STATION SEDAN ...CORVAIR IS BOTH!

A wonderfully useful folding seat makes every Corvair two cars in one. Just one quick flip and you increase the luggage and parcel space to 28.9 cubic feet. And just as simply, you're back to comfortable six-passenger capacity. It's standard equipment ... and extraordinarily practical.

Corvair does car-pool duty with the biggest and best of them. Going to work or school or out for the evening, you've got a genuine six-seater. As for carting around piles of stuff instead of people, just look at Corvair's station-

sedan load space with the rear seat folded. And when that's full you can start on the trunk.

Corvair, you see, is no ordinary compact car. No others are so versatile, so ingeniously engineered—with independent suspension at all four wheels, an air-cooled rear engine that never needs water or antifreeze. You just can't compare anything else coming out these days with a Corvair. Drive one ... soon.

Polio Incidence

Two months from now a thin line on a graphic chart at the Department of Health will begin an inexorable climb upward...

The chart is the department's key of keeping a weekly tally on polio. By referring to charts for previous years, Dr. H. E. Smith can predict when the line will begin its upward swing.

"The last week in April is when polio starts to increase in Texas," says Dr. Smith, chief of the department's preventive medicine section. "The line reached its high point during August last year when 145 cases were charted. At the year's end 526 cases had been tallied, a high toll but still a fine testimonial for polio vaccine when contrasted to the 3984 cases during pre-vaccine 1952."

Extending the line each week is a painful chore for statisticians. Each time it advances one square in the chart they mentally hear a physician speaking to someone somewhere in Texas and making his dire diagnosis: "Polio."

Are you leasing land for hunting or fishing or do you have land to lease? If so a written lease will provide a basis for discussion of all the provisions that affect both hunter and landowner and a signed copy should be kept by each.

Homeowning Can Be Hazardous Too!

Just as the bullfighter may become overconfident with success, so may the homeowner not stop to think of hazards he faces in owning a home.

A fire, windstorm, or explosion could destroy his home. An injury on his property could result in a crippling lawsuit.

If you are a homeowner, don't let trouble take you by surprise. Call your local independent insurance agent and let him protect your property with insurance placed in a Capital Stock Insurance Company, the standard bearers of reliable protection for more than a century.

Know Your Law

Back in pioneer times our forefathers found they could keep track of the family history pretty well with a few notations on the fly-leaf of the family Bible. But life's not quite that simple any more. Great-grandpa wasn't covered by social security or workmen's compensation. He didn't have a bank account or safe deposit box, a car and a dozen home appliances being bought on time payment, or a half-dozen insurance policies. We have taxes great-grandpa never heard of and wouldn't have believed if he had. And had you asked him for a certificate to prove his birth, he'd have thought you'd taken leave of your senses.

The point of this is that the average American today has a good many important papers to keep track of. There are birth certificates, receipts, copies of tax returns, sales contracts, and a host of other papers. With a little tidy record - keeping, you can make life easier for yourself and your family when you're gone.

Here are some suggestions: 1. Get a heavy bound notebook folder or file folder as a central collecting point for all the records of your affairs.

2. Put your especially important papers in your safe deposit box, but make a list of those papers and a brief summary of their contents to put in your home file.

3. Get for your files copies of birth certificates for all members of the family, and add to the file. Add your marriage license or at least a statement as to when and where you were married and by whom.

4. Insert your will or a copy of it. If your will is kept elsewhere, include a note telling where it may be found.

5. During the year, put into the file your income tax withholding statements and receipts for expenditures which may be deductible. Then keep a copy of each year's tax return in the file.

6. Make a list of all the stocks and bonds you own and where they are.

7. List all the places you have lived and worked and the names of persons there who know you. Include the schools you have attended and the dates you left or graduated.

8. If you may have benefits coming under a profit-sharing plan where you work, make a note of that too.

9. If you're in doubt about whether an item should be included, put it in.

This takes time initially, but it will save you both time and worry in the long run.

Enjoy modern AUTOMATIC yard lighting with the

This ELECTRIC EYE turns the light ON at dusk... OFF at dawn... automatically

READY-LITE makes yard lighting completely automatic... gives you light for nighttime beauty and convenience with no waste from needless daytime operation.

READY-LITE IS CONVENIENT. A photoelectric cell, the Electric Eye, turns the light on at dusk, off at dawn. And there is an electric convenience outlet in the base for your electric yard tools and for other uses.

READY-LITE IS ECONOMICAL... because it's never on when it isn't needed, it saves you money.

READY-LITE IS CLEAN... it's electric and maintains its brilliance. Anyone can clean an electric yard light.

READY-LITE IS ATTRACTIVE. There are many beautiful styles from which to choose; a style to harmonize with any type of home.

JUST PUT YOUR READY-LITE ON YOUR ELECTRIC SERVICE BILL Your authorized Ready-Lite dealer can arrange it. Up to 24 months to pay.

Many wide variances exist between commonly held ideas or beliefs about egg quality and facts established by research. F. Z. Beanblossom, poultry marketing specialist for the Texas Agricultural Extension Service, urges consumers to get the facts as they relate to quality and nutritive value before purchasing eggs or other food products.
