

... CAN BE PARL...
... TIRE, SAYS S S MAN

It is not necessary to be wholly permanently retired to get retirement payments under the Old Age and Survivors Insurance System, according to John G Hutton, manager of the Lubbock Social Security office. The numbers of people coming into his office connected on this point prompted him to make the explanation.

Actually the new Social Security law makes it possible for insured people 65 and over to collect retirement benefits while still earning up to \$50 per month on covered jobs. The old limit of \$14.50 changed last Sept. 1st. The new limit does not apply to people 75 or over.

The law is simply that a person between 65 and 75 years of age can collect benefits for any amount in which he earns more than \$50 from work covered by Social Security. No amount of earnings or income from other sources will affect his right to benefits. Insured people age 75 or over can collect even though working on time on jobs covered by Social Security or for that matter, any other work.

Another point is that anyone age 65 or over very likely is insured if he has worked as much as a year and half at any time between 1927 and any Social Security covered jobs.

COOK GETS STRIPPS
... Bill Cook, ... Eight men of the 2nd Field Artillery Battalion ... at Ft. Sill recently have been awarded stripes. ... But they are not of a kind that hurts: they are the stripes of a Private First Class (grade 3). Promotions went to: Private Ray C. Cook of here and others.

Mr. and Mrs. Ernest Sanders returned last week from an extended trip to California and while there they saw the Rose Bowl game; enroute they were stopped by officers seeking the mid-west outlaw, Bill Cook.

N. Gardenhire Rites Are Read
Funeral services for J. N. Gardenhire, age 91, were read Wednesday at 2 p. m. at the O'Donnell Church of Christ by Minister Glenn Bishop. Burial followed at the O'Donnell Cemetery.

Mr. Gardenhire, a retired farmer and former resident of here, passed away Monday at Austin at the home of a daughter in law, Mrs. G. Gardenhire.

Mr. Gardenhire was born Oct. 15th, 1861 in Collin County, Texas and spent his early youth in Rockwell County. He farmed here in 1927 east of town later moving to Stanton and was back here in 1941 where his wife passed away. He was highly respected and had countless numbers of friends. He was a Mason.

Survivors are: W. L. Gardnir of here, Mrs. Millie Pollock of Stanton, Mrs. Era Burleson of Ft. Worth, Grady Gardenhire of Stanton, Clarence Gardenhire of James, Lawrence Gardenhire who is in the army, J. N. of here, Thad of Kansas and Gene of here as well as a number of grandchildren. Our sympathy to the loved ones at this sad time.

MRS MIDDLETON IS HOSTESS
Mrs J T Middleton was hostess to the Sewing Club Tuesday afternoon. After a social hour, the hostess served sandwiches, potato chips, olives, pickles, fruit cake with whipped cream and hot apple tea.

Mr and Mrs R O Baggett and family moved to, Snyder Monday.

Mr and Mrs Dick Lumpkin and Mrs Vaughnie Gibson visited friends in Lovington, N M Sunday.

Mr and Mrs John Anderson are visiting their daughter and family Mr and Mrs Wyatt at Ropesville. Mr. Wyatt is in a Lubbock hospital.

Mr and Mrs J F Tippit for early of Tahoka have moved to O'Donnell.

Good Oil Well Comes In On Dean's Ranch; South Of Here

Proven Fields Flank Town On 3 Sides
... Good news for the town and the southern trade area was the new discovery in the way of oil production of the James S Snowden No. 1, 32 Carrie Dean, about 10 miles south and east of here (by air that is). A drill stem test Friday showed 3200 feet of clean oil at about 7,313 feet. The bit was open about 6 hours. The formation is thought to be the lower Sprberry which produced at the Smith well, 5 miles west and south of town. The Dean test may be drilled on out to test the Canyon reef. The Adecock test 4 miles south of town is making hole below 4,000 feet. O'Donnell is now in the position of having excellent oil shows on three sides of the town: east, south and west.

Polio Drive Opens

Gardenhire Heads O'Donnell's Drive
Hervey Gardenhire of the local theatre, is the chairman for O'Donnell of the 1951 March of Dimes to raise funds for combat in polio on a national scale. This week collection boxes in the motif of iron lungs have been placed in stores and at schools. Churches and the theatre will take up special collections. Mr. Gardenhire said that Lynn County drew \$2500 from the national fund in addition to Lynn Co.'s half of the funds collected last year to assist Lynn County victims of polio. Let's beat Tahoka in total of funds collected; it will mean more than beating our neighbors in football.

A dime or a dollar might help someone we love; want you help?
At Stanton Thursday nite Forsan defeated the O'Donnell Senior girls 31 to 21. At the end of the half the score was tied 13 all. Sneed of Forsan was high scorer with 14 points and Daphne Telchik and Pat Simpson tied for local honors with 9 points each. Saturday morning the girls lost again at Stanton to Courtney by a score of 34 to 23. Pat Simpson was high scorer with 15 points.

In the Dawson tournament last Friday and Saturday it was sad news for all of the Junior girls when they lost to Dawson and Flower Grove.

Boy Scouts Mark 41st Anniversary

"STRENGTHEN LIBERTY"
41st Anniversary 1951
BOY SCOUTS OF AMERICA

Official poster marking the 41st birthday. President Truman will greet 12 outstanding Boy Scouts in the White House on Feb. 8 opening the 41st anniversary of the Boy Scouts of America. Boy Scout Week will be observed Feb. 6 to 12, in every part of the nation by more than 2,750,000 boys and adult leaders. "Strengthen Liberty" is the birthday theme.

Reburial Rites for Lt DeBusk Set For Friday

Reburial services for 2nd Lt. William Ray DeBusk, son of Mr. and Mrs. Bill DeBusk of here will be conducted at the First Methodist Church of O'Donnell Friday afternoon Jan 19th at 3 p. m. with services conducted by Minister R P. Drennan and Rev. H A Longino.

Lt. DeBusk was born July 19, 1917 in Parker County. The family moved to O'Donnell in 1924 and he entered grade school in that year. He graduated from high school here and lettered in football and track four years as well as participating in other school activities.

Ray finished college at ACC in 1940 and that fall returned to the O'Donnell High School as football coach and teacher. At mid term in 1941 he entered the Air Corp on Jan. 27th 1941. He received his training at Kelly Field, San Antonio and Sewart, Missouri. He received his navigational training at Houston and received his wings at Hondo Jan 6th, 1943 and was stationed in Alomogarda and Clovis, N. M. where he received his combat training. He left the states May 15, 1943 for Libya, Africa where he was stationed and flew his combat missions from there. On Aug. 1, 1943 his plane was shot down over the Rumanian Oil Field near Polesti.

He is survived by his former wife, Mrs. Claudine Hay of Ft. Worth his parents, four brothers, Albert and Roy Lee of Hobbs, N M Lawrence of Big Spring, H M of El Monte Calif., and three sisters, Jennie V. of Hayward, Calif., Opal

Pictured above are the girls of the Senior Basketball team; they are: Nell Kingston, Freda Snell Frances Holtzclaw, Margaret Bradshaw, Anna Lois Rains, Helen Jones, Nadene Roberts, Dophene Telchik, Pat Etter; back row: Louise Perce, Mss Sufall, Nancy Nance and Elaine Hohn Photo by W. D. Parker

TWO CASES OF SCARLET FEVER

There are two cases of Scarlet Fever here; one in town and one in the country. There are several cases of measles, chickenpox and sore eyes with a touch of itch. Parents would be wise not to take their children into crowds for a time.

FRANK NORTON TALKS AT P. T. A.

Mr. Norton talked on "Where Do Teenagers Get Their Standards" at the O'Donnell P T A Last Tuesday. Questions and discussion followed his talk. Elaine Hahn played several selections on the accordion. Students of the 7th grade sang "Frosty, The Snow Man" and "Beautiful Dreamer". Room count was won by the 4th and 8th grades.

THURSDAY BRIDGE CLUB

...Mrs J V Burdett, Jr was hostess to the Thursday Bridge Club last week. Mrs C R. Burleson Jr. won high score. Mrs Sam Singleton won 2nd high, and Mrs W B Singleton, bingco.

THREE CHEERS FOR CHARLEY

Our citation of the week goes to Charley Cathey, one of our more progressive city dads, for building a fire under the street cleaner. In a few days our streets will have a few less tons of dirt and trash. The next chore to be done is to see that pavement breaks for sewer or water taps and repairs are promptly sealed with fresh paving. Our paving MUST last; it was too difficult to get in the first place.

Value Your Health More Than Riches

Some folks think that fine clothes and fine, big houses are the most important things in life, but these things really don't mean too much if a person doesn't feel well enough to enjoy them. Most folks don't realize this, but Mrs. Lucy Braswell, of Route 2, Stone Mountain, Ga., realizes it very well. Mrs. Braswell takes HADACOL, and by taking HADACOL she found she is helping her system overcome deficiencies of Vitamins B, B₁₂, Niacin and Iron, which HADACOL contains.

Here is Mrs. Braswell's own statement: "I have been sick for some time with stomach disturbances. I began taking HADACOL and I have been taking it about six weeks. I am so much better and much stronger. I will continue to take HADACOL. It sure has helped me. I tell my friends about HADACOL. I can't praise HADACOL too much. I am 59 years old."

NEW SPEAKER SWORN IN

Secretary of State John Ben Shepperd is shown administering the oath of office to the new Speaker of the House of Representatives of the 52nd Texas Legislature, Rep. Reuben Senterfitt of San Saba. Shepperd officially opened the House of Representatives Tuesday, January 9, and presided until the unanimous election of the San Saba attorney as Speaker. Representative Senterfitt is beginning his sixth full term in the Texas House. He is the senior member of the law firm of Senterfitt, Crump and Jameson in San Saba. The Secretary of State convenes the initial session of each Legislature according to requirements of the Constitution and Texas law. Both Shepperd and Senterfitt, in opening remarks to the legislative body, termed this Legislature as one of the most important and crucial in the history of the state.

WEEKLY NEWS ANALYSIS

Reds Launch Offensive in Korea; U. S. Works on Japanese Treaty; Army Calls for 80,000 Draftees

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

North Korean and Chinese Communist troops concentrated for another blow on U. N. forces below the 38th parallel. Chief concentration points were at Yonchon (1) and northwest of Seoul (2). A Red attack (3) northeast of Kumchon, pushed back the South Koreans more than a mile. Red patrols were near Kaesong (4). South Korean troops fought a preliminary battle near Hyon (5). Reds were also massed north of Chunchon (6).

KOREA: The Story Repeated

The story of the Korean battle seemed to repeat itself. Forced to withdraw from North Korea after pushing the Communists out of South Korea and almost to the Manchurian border, U. N. forces received the full force of Chinese and North Korean troops as they plunged south of the 38th parallel. U. N. troops gave ground and further retreats appear in store for them. The main feature of the attack was the overwhelming numbers of Chinese and North Koreans rushing U. N. defense positions. At least 200,000 men were thrown into the first attack. The Communist plan for the conquest of South Korea was to separate the eastern and western sections of the defense line, isolate them and destroy them at will. Meanwhile, observers who recently returned from Korea report the morale of the soldier at the battlefront much better than that on the homefront. Americans at home were pictured as frightened, frustrated, and swept with recurrent waves of defeatism and despair. The man in battle were pictured as neither frightened nor discouraged. There was no criticism of American leadership in the war or criticism of the fighting ability of any nation's troops.

ARMY:
New Call Issued

The army called for 80,000 draftees in March, raising total draft quotas to 450,000 since the Korean outbreak. Eighty thousand had already been scheduled for January and February.

With the armed forces building toward a manpower total of some 3 1/2 million as rapidly as possible, the army anticipated a combat strength equivalent to 24 divisions when the current expansion goal is reached next July 1.

An infantry division numbers 18,000 men and is a self contained fighting unit with supporting weapons such as tanks and artillery. At the beginning of the Korean conflict the army had 10 divisions, only one at full war strength. It had 11 regular divisions, with four national guard divisions and two guard regimental combat teams (usually 5,000 men) as of January 1.

Selective Service officials reported 217,000 men had been delivered to the army up to January.

TAXES:
Higher in 1951

With the new congress in session, President Truman was expected to ask for more taxes at any moment to meet the mounting cost of the nation's defense.

Although the size of the new tax program was not disclosed, one administration official reported the President would try to put the government as nearly as possible on a pay-as-you-go basis. The program, however, will include higher personal and corporation levies.

It seems unlikely that a new tax program can bring expenditures and receipts into balance because spending for the fiscal year 1951 may reach \$75,000,000,000. The present tax program, including the excess-profit tax, will yield revenues of only about \$45,000,000,000.

CASUALTIES:
Total of 38,325

As of January 1 the army had announced casualties in the Korean fighting totaling 38,325. That was an increase of almost 2,000 over the previous casualty list.

The number of dead mounted to 6,432, including 5,742 killed in action. 684 who died of wounds and six died among those who had been reported missing.

There were 27,012 wounded, including the 694 who later died of their injuries. The number of missing were listed at 4,753.

Of the total, the army suffered 32,066 casualties, the marines 5,524, the navy 429 and the air force 306.

MARCH OF DIMES
March of Dimes Fund Campaign

The 1951 March of Dimes campaign began Monday throughout the United States as a massive attack against the only epidemic disease known to man that is still on the increase—a disease that in the last three years has stricken more than 100,000 people and cost the National Foundation for Infantile Paralysis an unprecedented \$58,000,000 for patient-care alone.

In 1950 March of Dimes funds had assisted in some measure more than 54,000 polio victims at a cost of \$20,000,000. The national fund at the moment is at the lowest point it has been since the organization was founded in 1938, officials reported.

The foundation reported four out of every five of the stricken needed—and received—financial assistance.

UNITED DEFENSE FUND

Organization Formed to Aid Financing of Welfare Services

The United Defense Fund, Inc. a new organization for financing of national health and welfare services made necessary by the defense effort, got under way recently with an appeal to the Community Chests in more than 1200 cities for funds to support a program of services in 1951.

A federation of national agencies and local community interests for the joint financing of national defense services in the field of health and welfare, the United Defense Fund, Inc. offered to local communities a "single-package" appeal for support of national defense health and welfare services for both civilians and the armed forces.

The organization was formed to meet the frequently expressed desire of local Community Chests that appeals to them from national agencies, especially in time of special need, be properly screened, budgeted, and united in their financing—just as is the Community Chest itself. Other reasons for the unification of these national agency services are: (1) a desire not to increase the number of appeals now being made to the American public; (2) a wish to join forces in carrying out needed services economically, efficiently and effectively.

The organization of the United Defense Fund, Inc. was preceded by a series of conferences which included the national agencies and groups concerned and representatives of Community Chests. As a result of these sessions a planning and advisory committee on national emergency services was jointly appointed by Community Chests and Councils of America, Inc. and the National Social Welfare Assembly, Inc. to consider what services were needed and how they should be organized and financed. This committee made a series of recommendations, one of which requested the two sponsoring organizations to set up a national fund which could finance such services and approach the country through a single package of essential services. This recommendation was considered and approved by the governing bodies of both organizations and authorization was given to proceed with the fund organization.

E. A. Roberts, president of Fidelity Mutual Life Insurance Company, Philadelphia, Pa., was elected president at the first meeting of the Fund November 28, in New York City.

Charles H. Watts, chairman of board, Beneficial Management Corporation, Newark, N.J., was elected treasurer. William H. Bulkeley, vice president of Kellogg and Bulkeley, Lithographic Division, Connecticut Printers Incorporated, Hartford, Conn., was elected secretary.

SERVICES TO RECEIVE support from the United Defense Fund, Inc. fall into two groups at present.

The first group is concerned with services to the armed forces and will be conducted by: American Social Hygiene Association; Associated Services for the Armed Forces (which includes Jewish Welfare Board, National Catholic Community Services and YMCA); National Recreation Association; National Travelers' Aid Association and Y.W.C.A.

The second group will provide services to communities congested by the national defense effort. These services will be conducted by: Child Welfare League of America; National Organization for Public Health Nursing; National Federation of Settlements and Neighborhood Centers; National Urban League; National Catholic Community Service; National Recreation Association and Y.W.C.A.

The United Defense Fund, Inc. will raise funds through the "united campaign" approach wherever possible and will seek support from the nation's Community Chests on a share and share alike basis, community quotas being based on the recommendations of the National Quota Committee. Funds will also be sought in New York City.

The national campaign goal for the United Defense Fund, Inc. as approved by the National Budget Committee for services to be given in 1951 is \$7,399,329. Community Chests throughout the country will be asked to provide \$6,058,101 of this goal with the remaining \$1,341,228 to be secured from New York City and other non-Chest sources.

BROADWAY AND MAIN STREET
Al Didn't Go for Soft-Soap, but He Was an Easy Touch

By BILLY ROSE

In Miami some winters ago, Al Jolson stopped in for a quick one at the bar of the hotel where he was staying, and as if on cue the juke box began playing his recording of "Sonny Boy." When the machine clicked off, a plainish-looking woman walked up to the bartender and said, "Lend me a couple of nickels, Mac. I can't get enough of that song."

Jolson pushed a quarter down the bar. "The next five are on me," he said.

The woman looked over and her face lit up. "Why—you're Mr. Jolson!" she said.

"Sure," said Al, "and you knew it the minute I came in. What's the idea of the corny routine, sister?"

"I just had to talk to you," said the woman. "I've been sitting here all afternoon hoping you'd drop in."

"WHAT'S ON YOUR mind?" asked Al.

"My husband is in a jam," said the woman. "He's the desk clerk in this hotel and he was on duty the other night when you checked in and left an envelope full of money to be put in the safe. Yesterday he heard about a sure thing at Hialeah and took a thousand dollars out of your envelope and bet it on the

horse to win. Well, the 'sure thing' came in fifth."

"Has your husband ever dipped into the safe before?" asked Jolson.

"Never," said the woman. "In fact, he never bet on a horse until yesterday—and the only reason he did it was because our son is getting out of high school next June and we've got our hearts set on sending him to college."

"And you thought that by playing 'Sonny Boy' you could soft-soap me out of a thousand bucks?" said Al.

"Well, I don't soft-soap that easy. Go and get your husband—you're both coming with me."

A FEW MINUTES later the couple were in a cab with Jolson, sure it was all over but for the fingerprinting, but instead of heading for a police station the hackie drove out to the South Miami dog track. There Al led the husband to a pari-mutuel window and handed him five one-

ROOMS FOR RENT
By Dorothy Boys Kilian

"HONEY, YOU DON'T really think you can rent these rooms for the summer, do you?" Dick Shipley, still in his greasy coveralls, frowned as he found his pretty young wife sitting on the wide-board floor in an upstairs bedroom, mending a faded blue rag rug.

Margaret stood up slowly and planted a kiss on his smudgy cheek.

"I want to have a nice crib and other things for our first baby, don't we, darling? And that takes money—more than we've got to spend."

"Maybe I could take another job in the evenings, or something."

"Why, Dick, you're exhausted when you come home from the garage; and lots of times you don't even get here until eight or nine."

"Yeh, I know. Starting a new business means no money and no free time for a while."

"Well, this house your mother left us has more rooms than we need for ourselves."

"But just look at the furniture!" Dick waved an arm at the room in general. "You sit in that wooden rocker for ten minutes and those slats make a prison bar pattern on your back. The bed's so high you need a Pullman ladder to climb into it, and that wash stand—"

"I think it's all kind of quaint," Margaret said placidly. Dick snorted. "People on vacation want to be comfortable, not quaint. And besides, think where we're located; practically out in the country, the opposite end of town from the lake and all the amusements."

"It's nice and quiet, though," Margaret insisted.

Dick shrugged. "I give up. But I hate to see you slaving away up here."

38. Fuel

THE FICTION CORNER

"Oh well, the doctor says I need plenty of exercise," Margaret said soothingly.

"There's the doorbell. I'll get it," Dick, still looking troubled, started downstairs.

A portly, pink-cheeked old gentleman stood on the porch. "This is the Shipley residence?"

"Why, yes," Dick looked goggle-eyed past him to the long shiny black car parked in front of the house.

"May I speak to Mrs. Shipley?"

"I'm Mrs. Shipley," Margaret called from the top of the stairs.

"I am Mr. Frost of Big Rapids. You have some rooms for rent?"

"Yes. Please come up and I'll show them to you," Margaret answered.

DICK stayed downstairs and listened glumly to the footsteps overhead. He winced as he heard the bathroom door squeak and imagined Mr. Frost's first view of the old tub standing high on its claw feet.

There was a lengthy murmur of voices in the upstairs hall. Then down came Mr. Frost, a hand on Margaret's elbow, and she accepting the little attention as the most natural thing in the world.

"Well, it's all settled then," Mr. Frost was saying. "We'll take the two rooms for the summer. 'Yes sir, this advertisement hit us in the right spot.' He fingered a little piece of newspaper.

"Advertisement?" Dick stared at the paper.

"Your wife used a good psychological trick, didn't she?" Mr. Frost chuckled. "Playing down a thing so much that it excited your curiosity."

"Uh, yes," Dick laughed weakly. "Let's see that again," he said, trying not to look too astonished.

"For rent," he read, "for the summer season, two rooms in ancient frame house, unfashionable part of resort village, very few modern conveniences, no recreational facilities nearby. Mrs. Richard Shipley, 1293 Stanley Road, Wehagen, Michigan."

"Yes," Mr. Frost said. "My wife saw that and said it made her think of a Currier and Ives print—"

He handed Margaret some bills, put on his grey homburg, and stepped briskly out the door.

Dick turned quickly toward Margaret. "Your greatest triumph, honey, is that you've managed not to look triumphant."

Built in Texas... and helping build Texas

Ford is the only Automobile Manufacturer Building Cars and Trucks in Texas

ALL THE FORDS made are not built in Detroit. There are plenty of them built right here in Texas—last year over 128 million dollars worth of cars, trucks, parts and products were made at Ford's Dallas Assembly Plant. What's more, 1,722 Texans put them together or followed through with their consignment to dealers in the Dallas, Houston, Oklahoma City and New Orleans Sales Districts.

The folks who work in Ford's Dallas Assembly Plant and District Sales Offices earn over \$7,000,000 every year. They spend it mostly in Texas. Texas benefits from Ford in other ways, too. For example: during 1950 Ford bought over \$1,000,000's worth

of material and supplies from Texas merchants and manufacturers and paid over \$7,500,000 for incoming and outgoing transportation. Then, too, there is a total of over \$148,000 paid by Ford in local and State taxes.

Yes, Texas is building a lot of cars and trucks for Ford... and in the process Ford is helping to build Texas, too!

Praises New Dry Yeast's fast action

Weatherford Woman Prize-Winning Cook at State Fair

When the judges at the Texas State Fair awarded Mrs. John H. Scarlett first prize for her entry in the cooking division, they officially confirmed her long-standing belief that prize-winning results depend on the use of the finest ingredients! Like other top cooks, Mrs. Scarlett is especially happy with Fleischmann's New Improved Active Dry Yeast. She says: "It's so much faster and easier to use. I can depend on it."

Do you know—the world's most delicious treats are made with yeast! The delectable flavor and nourishing goodness of yeast-raised goodies make them everybody's favorite. When you bake at home—do it with yeast... the best yeast. Fleischmann's New Improved Active Dry Yeast is easier, faster, gives better results. Just add it to warm water and stir it well... it's ready to use! Get several packages today.

New Silver Anniversary Pontiac

New and Beautiful Proof

that Dollar for Dollar you can't beat a Pontiac!

The Car Proves it by its Beauty and Performance!

The Price Proves it by its Downright Value!

Be prepared to see two striking things when you come in to examine the wonderful new Silver Anniversary Pontiac. First, you will see why Pontiac is acknowledged to be the most beautiful thing on wheels. You will see a brilliantly good-looking car, with its fresh, Gull-Wing styling, colorful new interiors and clean, exciting lines. Second, you will see a price tag on these magnificent new Pontiacs which is so low that you will find it hard to understand why anybody ever buys any new car but a Pontiac!

Here, indeed, is double-barreled proof that dollar for dollar you can't beat a Pontiac! Come in and see for yourself.

Firearms Still Needed On Most U. S. Farms

Rifle Is Still Effective Way to Control Varmints

Even though marauding Indians and bad men have disappeared, farmers and ranchers still need their guns almost as much as ever. Where the rifle was once needed to preserve life, the rifle and shotgun today help preserve the livelihood of those who live on the land. To many, firearms are still necessary agricultural or ranching "tools."

For pest and varmint control, firearms are often far more effective than traps and less dangerous than poison, and in many cases are

To many, firearms are still necessary agricultural or ranching tools. They are effective in the extermination of pests and varmints.

The only means to destroy certain birds and animals that damage crops, stored grains and produce and kill poultry.

The farm boy with a .22 caliber rifle is probably the world's champion pest exterminator. For rats, sparrows, rabbits, squirrels, gophers, moles and crows and other small pests that are shot at close range, he uses .22 short cartridges which are adequate and economical, but long rifle cartridges are much better for longer ranges and far more effective.

One of the best low-priced beginner's .22 that's come out in years is a single-shot bolt action with an automatic safety that never forgets. This Model 47 is so designed that as the bolt is opened to permit loading, it sets the safety which must be moved manually before the rifle can be fired.

PROTECT

YOUR COUNTRY and YOURSELF

U. S. SAVINGS BONDS

It is time for every American to ask himself what he can do to help keep his country strong and free. There is much to be done for here's what we must do to support our defense forces and to end aggression in the world: Produce the materials and equipment needed for defense; raise the money to pay the cost of increased defense efforts; do all we can to prevent inflation. Buying U. S. Savings Bonds helps do all of these. Enrolling for the Payroll Savings Plan where you work means you are providing for your own financial security and at the same time helping your country. THAT IS SOMETHING EVERYONE CAN DO.

U. S. Treasury Department

Poultry and Livestock Losses On the Average Farm

Even with all that is known about the feed requirements of livestock and poultry and the causes of mortality, dead calves, pigs and chickens take a terrific share of the farmer's potential profits. In addition to these death losses, there is a staggering waste of feed and fat, due to the loss of eggs that are never laid, and milk and meat that are never produced because birds and animals are diseased, inadequately fed and poorly managed.

On the average farm, with 200 laying hens, starting 500 chicks, keeping 15 dairy cows and 10 brood sows, the farmer will lose 40 hens in a year. That's the national average mortality for 200 hens. This same farmer will lose 75 chicks and pullets. He will lose 4 calves and heifers, and 60 pigs and shoats.

It is unfortunate that these losses do not all occur at one time. It is easy to forget about the one or two animals or birds that die at a time, but by the time 365 days have gone by, the totals are alarming! If a farmer could see a year's losses all in a pile at one time, more would do something to prevent many of these losses.

The 40 hens, 75 chicks and pullets, 4 calves and heifers, and 60 pigs and shoats that the average farmer loses represents a \$1,500-loss. Many farmers don't lose this much, but their neighbors do. For every person who is doing better than this, there is someone else doing worse.

It isn't possible to eliminate all mortalities, but they can be reduced by following better programs of breeding, management, sanitation and feeding.

Are You Feeding Worms or Hogs?

There is no need to feed worms in hogs at any time; however, unless farmers use a good program of prevention and control, most hogs will have worms. Not only will worms cut down the gain made by the hogs, but they often lead to diseases resulting in lower profits.

Large roundworms are the most common hog parasite and cause the greatest profit losses. They do their worst damage to young pigs, accounting directly for the death of many before they are two months old. However, roundworms cause their greatest loss on older pigs which are slowed up in their growth and do not make satisfactory gains. They interfere with proper digestion, absorb feed the hog would otherwise use, throw off poisons, clog

E. B. Powell, Director of Research, Reister Farms Co.

up the hog's system, and often migrate to the bile ducts and other spots where they can do damage.

If the pigs look unthrifty, cough frequently, fail to make good gains or generally look rough or uneven, suspect worm infestation. Pigs raised on ground that has been used many times for hog lots are almost sure to be wormy.

All pigs should be wormed at about twelve weeks of age, but that really isn't enough. Hog raisers should practice a good sanitation program, including clean farrowing pens as the first essential. This calls for cleaning up farrowing quarters thoroughly, getting rid of dirt and litter, and disinfecting with a good disinfectant solution.

At two or three weeks of age, move the sow and her pigs to a well drained, clean pasture. The pasture should always be plowed and sown to a cover crop between groups of hogs.

Question

Can you give us some tips on sheep raising?

Answer

Here are some pointers for the sheepman as drawn up by Purdue University: 1—Wean lambs and rest ewes 2 months before breeding; 2—Trim feet of rams and ewes before the breeding season; 3—Tag the ewes. Clip the heads of woolly-faced sheep; 4—Shear breeding rams by mid-September; 5—Use a strong, heavy-boned vigorous ram of good type for each 25 to 40 ewes; 6—Feed the ewes liberally during the winter, and use good winter pasture when available; 7—Feed ewes so they will gain 25 to 40 pounds before lambing; 8—Feed loose iodized salt to ewes during the gestation period. Block salt wears down the teeth of sheep.

Question

What is the best hay for feeding work horses?

Answer

An excellent hay for work stock is a mixture of well-cured clover and timothy; mixed alfalfa and timothy; or similar combinations. These mixtures are usually better than a single source of hay because they possess the good qualities of both legume and non-legume hays.

Increased Dairy Product Prices Forecast for '51

Milk and dairy products prices in 1951 will be moderately higher than in 1950, most dairy experts believe. A stronger demand will more than offset the effects of large carry-in stocks and probably smaller exports. Farm production of milk in 1951 is likely to be little different from the 120.5 to 121 billion pounds in prospect for this year.

Dominant factor in the 1951 outlook is the prospective sharp increase in demand, stemming from larger defense outlays. Both employment and wages are rising. Disposable incomes will reach a new high next year.

Many dairymen expect total cash receipts from marketings of all products in 1951 to increase more than expenditures, thereby giving a net increase in farm income. The increased income will probably exceed increases in expenditures.

Three-Winged Chicken

Technicians Rosemary Peplinski (left) and Olive Newton of the University of California medical school are studying one of the three-winged chickens used in skin graft studies. The third wing, transplanted from another chick from egg to egg before birth, is attached to the chicken's breast. U.C.L.A. researchers are trying to determine why a chicken wing can be successfully transplanted before birth, but not after birth. The answer may be a big help in the progress of surgery. Chicks involved in the experiments grow up to be healthy hens and roosters, except that half of them have three wings and the other half only one.

Egg Production at New High in October, Report

A record rate of lay and the largest October egg production of all time were reported by the U. S. department of agriculture. Farm flocks laid 4,014,000,000 eggs in October, six per cent more than in October last year and 37 per cent above the 1939-48 average. With favorable weather throughout most of the country, production was at record levels in all areas except the south central.
