## Country Editor

The American people are the world's most traveled people. So many of us see little of the scene but from one gas pump to the next.

From Albany to oran on the right-of-way is a grave. On the stone is engraved "H. M. Fox, born Jan. 29, 1859, died August 2, 1882 at age of 23. Also at the stone is engraved "Dead but not forgotten."

Tradition has it that Mr. Fox was on a prison gang—was killed on the spot in a try to escape and buried where he died. It was the trying years of reconstruction following the Civil War. At some time someone dear to H. M. erected the stones. Only one knowing of the incident would see the grave—covered now in Bluebonnets, weeds and sunflowers.

The rolling hills of mid-Texas is most beautiful in late spring after good rains. Moran, some 15 miles south of Albany, on the Cisco road, is an old oil field as is much of the area from Breckenridge to Snyder. Wheat and small grain farming is the main stay of the economy. Numerous farm ponds dot the area with cattle dotting the range. Farm homes are well kept.

I fished with my son on Deep Creek. Several days back a 35 pound yellow cat was taken from this creek.

As you leave the Caprock numerous mesas are to be seen held intact through geological ages by a cap of rock. Nature, and man, is a leveler. The world and "the high ground" is leveling to the oceans.

So many of our small towns are eroding with our productive population moving to the cities. Texas will average losing 10 post-offices each year.

## ASCS Report

Reporters will be contacting farmers who have paid for the measuring service within the next few days. The farmer or his representative should be there to assist the reporter in making the measurements. Your cooperation in this matter will be greatly appreciated.

Remember this office must be completely through with all compliance work by no later than August 15, 1966.

June 20, 1966, is the final date for farmers to sign up for measurement service. If you want the ASCS to measure your cotton, feed grain, or diverted acres, be sure to sign up by June 20, 1966; otherwise, you the farmer will certify your acres for the 1966 crop year. For the farmers who certify, at least 25% of the farms will be spot checked for accuracy.

Letters have been mailed to all cotton farmers in Lynn county requesting production records for 1965 crop year and where possible 1963 and 1964. Any records such as insurance claims, adjuster's estimates, dates, etc., that you may have which will help you to substantiate any abnormal year should be attached to these letters with an explanation. Lynn county farmers turned down the right to sell or lease cotton outside of Lynn county for 1967 by a vote of 218 for and 563 against.

Farmers are reminded that July 31, 1966, is the maturity date on cotton placed under loan for the 1965 crop year. These notes may be redeemed at the ASCS office by paying the face value of the notes plus interest, which is 30c per \$100 for each calendar month.

## Rotary News

The O'Donnell Rotary Club met Tuesday with President Truett Hounet presiding. Visiting Rotarians were Frank Liddel, J. B. Claiborne, Owen Taylor, and Moody Neeley of Lamesa. Harold Sanders and Ben Morrison were guests.

Randy Allen, son of Mr. and Mrs. A. F. Allen, was the speaker for the noon luncheon. Randy, a student of Lubbock Christian College, recently competed in the National Junior College Meet in Garden City, Kansas. O'Donnell's Youth continue to spread out in the world bringing honor and prestige to their home town and community. The O'Donnell Rotary Club sincerely believes that O'Donnell, the surrounding territory and these United States are better places to live because of the very fine young people, who not only have moved to other locations of service to live and help to make a better world for generations to come, but also those who have continued to live in the O'Donnell territory and help to make their community such a nice place to live.

The Rotary Club of Bismarck, New Zealand has sent to the O'Donnell Club an interesting copy of the First 100 years of the Aarborough Express which was once an humble sheet recording local events and news of the outside world as it came by shipborne mails—Growing with the years in the speed and scope of its coverage, in its influence for good in the community—into a modern daily with the instantaneous access to world sources—a vigorous champion of the people's interests—and read in every corner of the Province.

The John Bowens write from Australia about the picnic of the Rotary Clubs of the Gosford District. The clubs chartered busses to take the Rotary families to the Warragamba Dam.

## WASHINGTON AND "SMALL BUSINESS" BY C. WILSON HARDER

Under the laws of the land at present an illegitimate child is worth more than other children.

This somewhat whimsical situation was recently highlighted by an editorial appearing in the Union County Leader in New Mexico. The editor pointed out that under the Aid to Dependent Children, the government will pay out more than \$800 per year for the upkeep on an illegitimate child. But for C. W. Harder income tax purposes, only \$600 is allowed to a family for each legitimate child.

The New Mexico editor also pointed out that under the Cuban refugee program a minimum of \$1200 per year is paid for each refugee child's upkeep, but if the child is attending school an extra \$1000 per year is allowed.

In addition the editorial states that in the Federal Job Corp, the government spends \$7000 per year per child.

And according to government figures, the VISTA program, (Volunteer in Service in America) spent \$3.1 million in the last fiscal year to turn out only 202 trainees, indicating that in this government agency the cost of training one child runs to more than \$15,000 per year.

Thus, the editor asks "How

in the world do you expect parents to provide all these things plus clothes, recreation, books, medicine . . . for \$600 per year? With your own figures you admit it can't be done.

This editorial poses some very pertinent questions. The question is magnified when it is realized that the government costs per child cited at actual outlays, while the tax deduction granted for a child in a family is only \$600, which means that cash savings is only the sum arrived at by multiplying the \$600 by the tax rate. For example, the actual cash for a child on a 15% income tax bracket is \$90.

Recently in the Congress there was again defeated an amendment to the tax revision bill which would have permitted parents to take a small extra exemption for children attending college.

Purportedly, the present aim of the government is to encourage more education. But more education for whom?

For example, as cited by the New Mexico editor, a Cuban refugee child is given an extra \$1000 if attending school, but the American middle class family, which pays largely for Cuban students, gets absolutely no breaks of any kind.

It would almost appear the Great Society has a great aim.

That is to develop the non-demonstrating middle class into an illiterate class while increasing the erudition in the ranks of the pickets and demonstrators.

**Summer Classes For Homemaking Students Underway**

Mrs. Warren Smith, homemaking teacher in the local high school, has completed plans for the program of work in her department for the summer months. Classes for high school girls will begin June 1 in the homemaking department. These classes will be meeting during June in the mornings, and provide the student with one-half credit toward high school graduation.

An extended home experience is carried on by the student for the remaining summer months.

From June 20-24 these students will conduct a play school for all children who will start to school in September. These sessions will be held each morning during the week from 9-11 o'clock in the elementary building. Mothers are urged to come and bring their children, and take part in a child care discussion group meeting while their children work and play.

A carnation is adjusted in the lapel of Dr. C. S. Woodward by his wife prior to a banquet of nearly a thousand friends in Fort Worth held to honor the couple. They have retired after 33 years of service at the Home for Aged Masons in Arlington. Dr. Woodward was named Manager Emeritus and Mrs. Woodward was named Curator and Custodian of the Grace Woodward Museum, which is located at the Home. R. Bruce Brannon, a past Grand Master of the Masonic Grand Lodge of Texas, commended Dr. and Mrs. Woodward for sacrificing a prospering medical practice to head the Home from 1932 until their recent retirement.

**Get a new NO-FROST refrigerator-freezer that never needs defrosting**

You can say goodbye to defrosting—one of the messiest of kitchen chores—once you install a no-frost electric refrigerator-freezer. Because frost never forms—either in the refrigerator or freezer sections—there's no layer of ice to take up needed storage space. You can store more packages of frozen foods... the packages won't stick together... and there's no frost to make labels hard to read. Ice trays come out easily, too, without pounding, pulling or hammering. See the new no-frost electric refrigerator-freezers at your dealer's soon.
