

The O'Donnell Index

O'DONNELL, LYNN COUNTY, TEXAS, AUGUST 6, 1926.

NUMBER 46.

O'Donnell Will Aid In Putting Over Fair

outlined at the meeting of the Chamber of Commerce are carried out, Lynn will come into greater prominence as an agricultural and stock-raising community than it has ever been before.

Between forty and fifty boosters from Tahoka and met with the organization and a spirit of good will reigned throughout the meeting. The Tahoka brought their fine band and lively music kept the good cheer.

Mr. Kibbe presided as toastmaster at the opening of the fair and the visitors a hearty welcome was followed with a shoulder talk by C. E.

must work in harmony and everyone strive to do his share. No one town or community can carry the entire burden of work and expense that it will call for."

Secretary Nelson of the Tahoka Chamber of Commerce, outlined the plans for the Lynn County Fair and stated that it was desired to have every community represented with both agricultural and live stock exhibits. He said that premiums to the extent of \$750 had been agreed upon and that a catalogue containing the rules and regulations of the fair was in the process of making and would soon be ready for distribution. Ira Doak, Mr. Briley and others made good talks along the same lines as the other speakers.

Besides the agricultural and live stock exhibits, it is planned to have amusements for the entertainment of the visitors, and as a whole make it the best of any previous fairs.

The meeting was conspicuous from the number of O'Donnell ladies attending there being about forty present. The ladies had prepared cakes to go with the ice cream which was served. Miss Sue Gates rendered a number of piano solos and Miss Lines gave a reading.

As a whole, the meeting was the most harmonious of any ever held here and no doubt great good will came of it. The towns of the county must work in harmony if advancement is made. Let's have more of these meetings.

HARRIS SUFFERS WHEN NOSE IN CAR ACCIDENT

from Chillicothe states that a well touring car driven by Mr. Harris, who lives twelve miles from O'Donnell, was struck by a truck on the highway three miles from Chillicothe Sunday at 5 o'clock. Mr. Harris suffered a severe injury to his nose and his sons who accompanied him, were severely injured. The car that hit him was a touring car driven by a Mr. Wickliffe. The Chevrolet was better than 60 miles per hour according to an engineer on the road and Denver passenger which it was racing. The boy was not injured but who accompanied him was injured. The Index states that Mr. Harris was approaching and in trying to stop it ran his car into the road and struck his car completely demolishing it.

MANY FRIENDS OF LYNN COUNTY

this method to thank each one of you, for your vote, all you did for me in the election, I haven't words to express sincere appreciation of the service you have bestowed on me in the second primary for precinct No. 4.

want to assure every voter precinct, with all sincerity, that I deem me worthy and will with your vote the 28th month. I will value and appreciate as if it had been given me in the primary. Thanking you all in advance for your support in the coming primary of August. I am doing my best to run a fair race, and if elected I will do my best to deal fair and square with you. I am yours for consideration.

D. J. Bolech

Mr. R. L. Hunt and J. L. Hail from Texas were here Monday. They were trying to in-terest parties in building a gin at Tahoka with a promise of from ten thousand bales of cotton. Messrs Hunt and Hail are mercantile men of the Loop.

LYNN COUNTY WILL HAVE FAIR AGAIN IN EARLY FALL

Lynn county is to have a fair again this fall. Plans are already being formulated for the occasion, and it is the hope of the directors to make this year's the biggest and best fair the county has ever had. Plans are being made much earlier than ever before. This year promises to be a big crop year and prospects are that some of the best farm and garden products ever raised will be available. A fair catalogue is to be gotten out giving the premiums lists for all departments. But, to make this the greatest fair that Lynn county has ever had, the farmers, the gardeners, the stock raisers, and everybody else in the county that has anything to exhibit should be looking forward to the occasion. They should pick out their best feed, cotton, sheep and goats, hogs, poultry, paintings, embroidery, quilts, curios, etc., with the view of placing them on exhibit at the fair. Business men should give the fair their support, financial and moral. Communities should begin planning their community exhibits. All citizens of the county should "talk up" the fair to each other. Lynn county can have one of the best county fairs of any county in west Texas. Why not have it! —Lynn County News.

Presbyterian Revival Under Way This Week

The Presbyterian revival is under way this week and each service draws a good congregation, and Rev. Fred S. Rogers of Lamesa is doing some strong preaching.

The local Presbyterian church is indeed fortunate in securing the services of so able a man as Rev. Rogers. Everyone is extended a cordial invitation to attend the services.

George H. Graves, of the Graves Grocery store underwent a operation for appendicitis at a Lamesa sanitarium Tuesday. He is reported as doing as well as could be expected at last reports. His mother and wife are attending him.

The old globe trotter, Felix Sisk, is off on one of his periodical trips. This time he is exploring the scenes of his childhood at Emory. He will return the latter part of this week.

FAMOUS ARTIST INSTRUCTS

William de Leftwich Dodge, famous mural artist, in his studio at the Sesqui-Centennial International Exposition grounds in Philadelphia, where the 150th anniversary of signing the Declaration of Independence will be celebrated from June, to December, of this year, giving instructions to a group of young artists who are creating the "Rainbow City." Mr. Dodge is the color expert for the exposition, and every bit of color work done must be approved by him.

Moody's Majority 1,013 In Final Count

Returns to the Texas Election Bureau from 252 counties in the state, including all complete show the following totals for candidates in Saturday's democratic primary election.

Governor: Davidson 123,025; Ferguson 281,938; Johnston 1,006; Moody 411,390; Wilmans 1,498; Zimmerman 2,910. Moodys majority is 1013, with 821,767 votes polled.

Attorney General: Allred 142,792; Drachfield 127,432; Christopher 42,115; Hornsby 91,916; Irwin 110,345; Pollard 145,578.

Treasurer: Ball 140,935; Christian 52,570; Garner 39,049; Garrett 81,611; Harris 55,481; Hatcher 213,233; Johnson 66,047.

Superintendent of Public Instruction: Bennett 170,275; Humphries 156,423; Marrs 372,892.

Commissioner of Agriculture: Bolin 161,329; Terrell 515,587. Railroad Commissioner: Baughman 136,511; Speer 191,451; Terrell 356,679.

Land Commissioner: Robison 356,615; Terrell 321,878.

Judge Court of Criminal Appeals: Hawkins 393,242; Pierson 283,734.

Returns from 252 counties, including all complete, show the following totals for candidates in the republican primary.

Governor: Haines 7,924; Scott 3,427.

Superintendent of public Instruction: Garrett 3,476; Lindsey 3,431.

PROTRACTED MEETING PROGRESSING NICELY AT JOE BAILEY

People out at Joe Bailey are enjoying a splendid protracted meeting this week which is being conducted by Rev. H. L. Watkins of Lovington, N. M. The meeting is non-denominational and is being participated in by all in that neighborhood. No collections are being taken in the meeting. The first sermon of the meeting was preached Saturday night, and the preacher proved himself to be an able expounder of the gospel. An invitation is extended everyone to attend and help make the meeting a success.

Mrs. J. M. Glengorn and son, Harold Ray, are visiting G. M. Heard and family. Mrs. Gleghorn is the daughter of Mr. and Mrs. Heard.

Lon Light and family returned last week from a visit with relatives at Roscoe. They report fine crops down that way.

O'DONNELL CEMETERY RECEIVES WORKING FIRST OF WEEK

When O'Donnell folks start to do a thing they put their whole heart in the undertaking and accomplish something. This was the case in the working of the cemetery Monday. Between seventy-five and a hundred people responded to the call to work this burial place of our dead and everyone came with some kind of implement and a determination to work. The weeds were cut, trash hauled away, a windmill, tank and tower erected and the cemetery now has a clean and neat appearance.

Upon the arrival of the workers, J. B. Miles assumed charge of the clean-up brigade and Jake Gates took charge of mechanics for the water plant. Before the day was ended the work had been completed.

G. F. Ford has leased the Phillips building on the south side of Eighth street and will open a restaurant. He expects to have the fixtures installed and ready to serve the public some time this month. Mr. Ford was a cook in the City Cafe last winter and is well known here.

MANAGER OF M-STORE WELL PLEASSED WITH OPENING DAY

The proprietors of the "M" system store report that the business accorded the opening of the new institution last Saturday exceeded all expectations. The store was crowded all day with shoppers. A splendid orchestra furnished music throughout the day for the entertainment of shoppers and those who attended the opening out of interest. Owing to the extensive advertising of the opening, a larger than usual crowd was in town during the day, and other merchants report the best days business they have had this summer.

Miss Ruby Gilliland and brother, Virgil, of Itasca, are visiting their uncle and aunt Mr. and Mrs. Jeff Musiek. It has been two years since Miss Gilliland has visited here, and she says she can hardly believe her eyes when she notes the wonderful changes that have taken place during that time.

Boy Scout Executives Soliciting Funds Here

The Boy Scouts of O'Donnell are fortunate in having a patriotic bunch of business men to look after their welfare. To date much money has been raised for the scouts and judging from the success obtained by E. E. Voss of Dallas, deputy regional executive of the Boys Scouts of America and H. B. Palmer of Lubbock scout executive of the South Plains Area, much more is to be expended during the coming year. These gentlemen were here Friday of last week and met with the business men to work out plans whereby the town could raise its assessment for the continuation of the Boy Scout work in the area. O'Donnell's assessment is \$600 for the year and within a few minutes after the meeting was called to order \$250 had been raised. But the executives did not stop at this. More cash was needed and they swelled this amount considerably by placing the cause before those not attending the meeting, the exact amount being unobtainable at this time. But the full amount was not raised and more money is needed.

According to Mr. Voss, the South Plains Area is in bad financial shape and unless something is done immediately there is danger of the charter being cancelled. There is danger also in losing the 420 acre camp site donated by the C. W. Post estate. A clause in the deed to the land cites that in case the Boy Scouts of the South Plains Area ceases to function, then the property reverts to the heirs. This is too valuable a piece of property to lose and O'Donnell proposes to do her share in keeping the movement active.

O'Donnell has as fine a troop of Boy Scouts as ever saluted a scoutmaster and they should have the backing of every citizen of the town. These boys are going to be our future citizens; their training of today will determine the class of citizens they make for tomorrow. If you

are interested in the welfare of your boy and have a desire to see him as a leader of men when he takes his place in the affairs of the world, see that he becomes a Boy Scout. This will cost a little money, but sometimes it costs a parents a great deal of money, when through idleness, his boy gets into mischief. Keep his mind employed in things that are noble and true and useful and you will have solved the problem of having started your boy off in a path of usefulness to his country. When society realizes that it is easier and cheaper to keep criminals from forming than to attempt to reform them after they are made, we shall save much useless effort and many millions of dollars.

"You talk of your breed of cattle, And plan for the higher strain, You double the food of the pasture, And heap up the measure of grain; You draw on the wits of the nation, To better the barn and the pen; But what are you doing, my brother, To better the breed of men?"

"You boast of your Morgans and Herefords, Of the worth of a calf or a colt, And scoff at the scrub and the mongrel, As worth a fool or a dolt; You mention the points of your roadster, With many a 'wherefore' and 'when' But ah, are you conning, my brother, The worth of the children of men?"

"And what of your boy—Have you measured His needs for a growing year? Does your mark, as his sire, in his features, Mean less than your brand on a steer? Thoroughbred that is your watch word For stable and pasture and pen— But what is your word for the home-stead? Answer, you breeders of men!"

CHAMBER COMMERCE TO RAISE BUDGET FOR YEAR'S WORK

A meeting of the officers of the Chamber of Commerce was held in the City Hall Tuesday afternoon to discuss the affairs of the organization. J. D. Liles presided as chairman. The question of raising a budget to carry on the work for the year was discussed, and it was agreed that the chairman of each of the committees call a meeting and work out the amount necessary to carry on the work. The committees will have reports ready for a meeting to be held two weeks from last Tuesday. When the amount each committee will need is made known, a strong campaign will be put on to raise the amount.

Secretary J. G. McCarroll is of the opinion that it will require about \$5,000 to make the chamber function as it should. With the fine crop in sight he believes that amount can be easily raised.

Old Emory Contributes to O'Donnell Territory

Old Emory, down in Raines county, has sent a fine lot of fellows out here to help build up O'Donnell and they are all making good at the job, too. The latest to arrive to cast his lot with the business interests of the town is Harold Cooke. He likes the town so well that he has made up his mind to park himself right here for good. He will engage in selling pianos and phonographs, making his headquarters at the Christopher drug store.

Mr. and Mrs. W. E. Guy and Mrs. Guess left Monday for a two weeks camping trip to the mountains in New Mexico. During their absence Mrs. Naymon Everett and Mrs. Claude Bailey are operating the store.

O'DONNELL COFFEE AND SANDWICH SHOP OPENS SATURDAY

The O'Donnell Coffee and Sandwich Shoppe will be the name of the newest business establishment for the town. C. E. Dean of Ft. Worth, and G. H. Pettigrew of Memphis, Tenn., arrived last week and after giving the town the once over, decided that there was room for an establishment of the kind which the name implies and immediately secured a lease on the east room of the Sanderson building and commenced installing fixtures. Besides soft drinks and confections, they will lunches. The new establishment will serve coffee, sandwiches and light be open for business tomorrow.

Welcome Tahoka Visitors to Our City

So enthused were some of our visitors from Tahoka Tuesday night that they could not see the curb sign "No Parking", and they were muchly disturbed in peace of mind to find their cars tagged by the city marshal. They were later assured that this privilege was secured for them by the Chamber of Commerce by a special dispensation of the city authorities. Come again, boys, you will always find a welcome in O'Donnell.

J. Mack Noble, Jr. and J. E. McClung left Wednesday morning for a fishing trip to the country to the south. They will be away a week making up fish stories to tell upon their return.

After having spent a couple of weeks at Sweetwater taking baths at the Grogan mineral wells, A. C. Fairley returned home Monday. He says he was greatly benefitted by the baths.

El Paso Scottish Rite News Service

The El Paso Bulletin No. 134 for July 1926 is just off the press and contains announcement of the Forty Second Semi-Annual Reunion of the El Paso Scottish Rite Bodies October 16th through 22nd 1926. The Bulletin is a monthly publication of the El Paso Bodies of which Berry E. Cobb, Secretary is the editor.

The Fall activities of the El Paso Scottish Rite will begin with a "Weekly Class" Tuesday September 7th, with the conferring of the Fifteenth Degree and the class will continue on each Monday evening thereafter until the Fall Reunion October 16th. Edward Blumenthal, 32 degree member of the Reunion Committee says "The Weekly Class gives the candidate a chance to see and know more of the work and that it keeps the degree team in shape". Horace A. Lay, 33 degree says "The Weekly Class enables men to take the degrees who are too busy to come for a regular reunion in the day time, but who can come at night."

Features of the Fall Reunion will be the conferring of degrees by teams from out of town. Jas. Goodman of Lubbock will head a degree team from there composed of Members of the South Plains Scottish Rite Club. F. C. Mellard of Marin will head a team from that city and confer a degree.

Prospects for attendance from out the city are unusually good, stated John M. Rooney, of Fort Stockton who was a visitor in El Paso Tuesday July 15th. Word has been received from Lamesa of the formation of a Dawson County Scottish Rite Club with thirty members and W. V. P. Baker, President of the First State Bank of Lamesa sends word that the towns of Lamesa and Seminole will be represented at the next reunion.

It is contemplated that the El Paso Bodies will send representatives to many towns of this section of the state in the interest of securing members.

NEWSPAPERS DO NOT MAKE WAFFLES, BUT—

A visitor to the stereotype room of a big daily newspaper might leave with the idea that the workmen were making huge waffles for their midnight lunch hour. However, if he should ask such a question of any of the workmen, the answer would be that matrices and not waffles were being made says the Texas Public Service Information Bureau.

The casual inquirer might have to ask what a matrix is. This he would be told starts out as a heavy sheet of moist thick paper that is laid across the page form of type. In turn this is covered by a layer of felt and a roller is passed over the entire form. The result is a perfect, clear-cut mold of the newspaper page form.

Then comes the "waffle machine." The matrix has to be dried before

the hot stereotype metal is poured against it to make the cylinders for the printing presses. Otherwise the metal, hitting the damp surface would fly from the mold. So the damp matrix goes to a gas-fire roaster that does look like a huge waffle iron.

The paper matrix is then ready for the form and the metal that will make the cylinders for the big presses that grind out the thousands of copies of the newspaper.

TAHOKA MARINE IS SELECTED FOR THE PRESIDENT'S GUARD

WASHINGTON July 27—Among the U. S. Marines who are serving as a special guard for President Coolidge during his summer vacation in the Adirondacks, is Wyeth Ormond Wilson, of Tahoka, Texas, who was especially selected for this duty. He is now encamped with the marines in the grounds adjoining White Pine Camp.

The guard is comprised of fifty U. S. Marines, each of whom was carefully chosen in view of his special military qualities. Its members, who hail from nearly every state of the Union are under the command of 1st Lieut. F. E. Stack. They will patrol the grounds in the vicinity of the camp, and are scheduled to remain until the President's vacation is ended. Each marine takes a special pride in his selection as a guard of the temporary "white house."

Wyeth lived at the home of his father, Albert Cass Wilson, Rural Route A, Tahoka, before he joined the Marines Corps in April 1924. With other members of the guard he was present to render formal honors to the President upon his arrival at the camp, July 7. The camp is on Lake Osgood, 1600 feet above sea level and three miles from the little village of Paul Smiths.

This is the second time the local marines has had the honor of guarding the President. Last year he performed the same duties while the President was vacationing at Swamp scott.

Miss Pearl Knight of Canyon, is visiting her sister, Mrs. W. B. Hicks. Mr. and Mrs. J. G. McCarroll spent Sunday the guests of Mr. and Mrs. H. B. Wilhelm at Lamesa.

THE STATE OF TEXAS County of Lynn

To the Creditors of Mrs. Alice McCarroll, and J. G. McCarroll:

You are hereby notified that Mrs. Alice McCarroll, and her husband, J. G. McCarroll, of Lynn County Texas, on the 12th day of June, A. D. 1926, executed a deed of assignment, conveying to the undersigned, all their property for the benefit of such of their creditors as will consent to accept their proportional share of the estate and discharge them from their respective claims, and that the undersigned accepted said trust and has duly qualified as required by law;

All creditors consenting to said assignment must, Within Four Months (4 months) after publication of this their consent in writing, and within notice, make known to the assignee six (6) months from the date of this notice file their claims, as prescribed by law, with the undersigned, who resides at O'Donnell, Texas which is also his post office address.

Witness my hand this 12th day of July A. D. 1926.

Morris Sanderson, Assignee.

THE PARASITE REMOVER
A GREAT POULTRY REMEDY
Keeps flocks in drinking water
or mixed to feed thoroughly
rids them of all blood-sucking
lice, all mites, flies and lice bugs, destroys
in them all internal worms and parasites.
Its formula is superior and other
preparations known to improve
the appetite, purify the blood, tone
the system and prevent disease. Better
prevents loss of weight. Contains no
arsenic or poison. Can be given to all ages
of chicks, old fowls and turkeys, any kind
of weather and good results.
It cost to try small—only dollar bottle
will last 120 fowls more than 120 days.
The manufacturer is anxious for all
poultry raisers to try it 60 days at their
risk on the following conditions: After
using 60 days, if your flock has not im-
proved in health, produced more eggs—eggs
that hatch weaker and thinner young
chicks—come back to your dealer—he is
authorized to refund your money.

QUALITY AT LOW COST

Prolet Trucks Used In Andes

Transportation of heavy supplies deep mountain trails formerly used only by burros and llamas, Bolivian mines located 12,000 to 20 feet above sea level in the range has been solved by the use of light automobile trucks. Prolet figure prominently in the recently purchased by mine operators in South America. Centuries ago the Incas first developed these mines located in the inaccessible inland ranges. The high conquistadores, envious of the Indians' wealth, made short work of reducing the native population to a condition of slavery and supervising the production of gold. In later years silver and tin have been the profitable metals produced in the Andes, with operations seriously handicapped by the inaccessibility of the mining sites. Until a year ago burros and llamas, carrying a maximum load of 100 pounds each and traveling only 20 miles daily were relied upon to transport supplies to the sky-line operations and to carry down to sea level and railroads the refined metals, enormously heavy even in small quantities. Improvements in mining practice were impossible until better distributing methods were available.

Notwithstanding roads which were rough trails covered with rocks and the fact that an automobile ordinarily loses 30 to 35 per cent of its power when operating in the rarified atmosphere of high altitudes, Chevrolet trucks have practically superseded the pack animals. The light truck of the Chevrolet type carrying 2,000 pounds and covering 30 miles daily does, the work of 10 burros or llamas and cuts transportation charges exactly in half.

Perhaps in no other locality in the world are automobiles subjected to such severe tests of their stamina and power as in the Andes ranges where road building is of the most primitive type. Recognizing the necessity for railroad transportation, the good roads as being even greater Bolivian government has embarked on an extensive road building campaign to further the use of automobiles.

Lorenzo Votes Bonds For Water Works

Lorenzo is a progressive town and is represented by a live and progressive newspaper, the Tribune. When those people want a thing they get it after they get it. Here is what the Tribune says in regard to an election recently held to vote bonds for constructing water works. Last Friday was the occasion for an important day in the history of Lorenzo when the proposition was up for consideration at the hands of the voter, whether Lorenzo would issue bonds in the sum of \$42,000 for the purpose of water works or not. The issue carried by a large majority although a light vote was cast.

With the result of this election Lorenzo is able to announce to the world that she has made her first step toward the building of a modern little city and as the years pass by, other public improvements will be added until we have all of the modern conveniences that go to make a real town and a good place in which to live. We have worlds of confidence in the Lorenzo people and were almost sure that this issue would carry. Lorenzo is populated with town builders and when they say let's do a thing it is as good as done. We can only accomplish those things that we make up our minds to do. "Can't" never did do anything, and never will, it takes real downright public spirited people to put any kind of proposition over for a town, and we are thankful that Lorenzo is blessed with that sort of people.

AMALIE OIL

100 Per Cent Pure Pennsylvania

THERE IS NO SATURATION POINT FOR HONEST VALUE

Build a product that the world needs, better than the world expects, and mounting sales will answer those who are constantly predicting a saturated market.

During the first six months of this year, for instance, Dodge Brothers sold 207,115 motor cars and trucks. This represents a gain of 49.3 per cent over the first six months of 1925, and continues Dodge Brothers in the enviable position of THIRD IN THE INDUSTRY.

For the three weeks ending July 17th, 23,862 motor cars and trucks were delivered to customers—an increase of 62.4 per cent over the same period last year, and impressive evidence that Dodge Brothers great sales gain is continuing through the quiet weeks of mid-summer.

There may be a saturation point for mediocrity, but honest value will always command a great and ever expanding market.

What Is Doing in Texas Towns

DONNELL—The Chamber of Commerce of this city is contemplating the securing of a county agent for Donnell County. A petition for agent is being signed by members of the organization and will be presented to the commissioners court.

AMFORD—The Traffic Bureau of the West Texas Chamber of Commerce has been instrumental in saving more than \$3,000,000 annually in shipping charges from West Texas, according to reports received from the State Commerce Commission. The commission recently denied the five per cent increase in the rate for all carriers of the Mississippi River.

BECKENRIDGE—Breckenridge is to have a new hotel, with a cost of approximately \$400,000, according to reports from the Chamber of Commerce of this city. Citizens of Beckenridge will be required to contribute stock to the amount of \$60,000. Other interests will subscribe the remainder of the amount.

WELINGTON—The Wellington Chamber of Commerce of this city is planning to bid on the 1927 convention of the northern Panhandle. All business houses will be asked to contribute to the fund for the convention this year at London, and the delegation from Wellington will include more than 500.

CLARENDON—Clarendon is having a new hotel, which will cost \$750,000. It will be a three-story structure, modern throughout, with private telephones. Private parking spaces will be arranged for the cars belonging to the guests of the hotel.

HASKELL—An election has been held for the citizens of Haskell to issue \$17,000 bonds in City Hall and \$20,000 bonds for station improvements and \$20,000 bonds for a tax raise. The bond rates will not carry a tax raise.

HEREFORD—Hereford High School now has affiliation in all of twenty-six courses of studies offered, according to reports received from the State Department of Education. Three and one-half units were awarded this year.

EASTLAND—The organization of the Eastland Mineral Water Company has been completed, and the capital of the company will be \$25,000. The outlook of the company is good, since an unfavorable comment has been made against the supply of water here.

WICHITA FALLS—Building permits in Wichita Falls amounted to a total of \$1,242,039 for the month of June, and the grand total for the year, up to this date, is \$6,169,287.

BROWNFIELD—The new Hotel Brownfield is open for business. The hotel is modern in building and fixtures. There are twenty eight guest rooms with private baths and the building is steam heated.

BALLENGER—The poultrymen of Runnels county are effecting the organization of all poultry growers for the purpose of selecting and raising the best grade of chickens.

MINERAL WELLS—Necessary funds for the installation of signal lights have been appropriated by the Mineral Wells City Commission, and the system will soon be in use. Five lights will be used in the beginning, but others will be added later as the need for them becomes more urgent.

PLAINVIEW—Orders have been placed for Plainview's new play grounds. The grounds will shelter a pavilion, lunch tables, benches, and several sets of playground equipment for children. The park will have a flag pole and at sundown each evening, the American flag will be lowered, with all the children present standing at attention.

WORK RESUMED ON NEW SCHOOL BUILDING

The frames for the doors and windows of the school building under construction were received this week and the brick layers are now at work on the walls. With continued good weather the contractors state that the work will be pushed to completion. It was first intended to have the building ready for occupancy by the first of September, but the delay in receiving material will not permit of the building being completed at that date. It will be well on towards October before it will be ready for occupancy.

D. M. Estes and daughter Beulah left Wednesday for Tulia where they will visit relatives and friends.

Mr. and Mrs. C. L. Boattenhamer and Ben S. Coin visited friends in Lamesa Sunday.

A ROYAL ENTERTAINER PERFORMS

NO-NOX

MOTOR FUEL

STOPS KNOCKS

Turns Mountains into Mole hills

FOR years the carbon knocks, clicks, pings or detonation in automobile engines have been a menace to motor efficiency and a sore spot to the motorist. **GULF No-Nox Motor Fuel** has turned the old time carbon bugaboo into an asset, in fact it has put carbon to work.

No-Nox and Carbon are Power Twins

Compression is power—Carbon adds compression—**No-Nox** withstands compression and the combination gives wonderful motor efficiency.

GULF No-Nox Motor Fuel not only withstands the high compression of the modern automobile engine—but also the added higher compression caused by carbon deposits on the walls and piston head which increases with the age of the car;—clicks and knocks are eliminated—greater efficiency is accomplished—followed by more power and greater mileage.

This Guarantee goes with it

GULF No-Nox Motor Fuel is Non-Noxious, Non-Poisonous and no more harmful to man or motor than ordinary gasoline—that it contains no dope of any kind—that the color is for identification only—and will not heat in summer driving.

GULF No-Nox Motor Fuel is priced three cents per gallon higher than ordinary gasoline—and is worth it.

The Orange Gas—At the Sign of the Orange Disc
GULF REFINING COMPANY

Farm Bureau Meeting

A convention of the Farm Bureau association will be held in Sweetwater, Texas

AUGUST 12 AND 13

A cordial invitation is extended members and all others who are interested in the principles and operations of the Farm Bureau movement. A big surprise program is promised those who attend.

FARM BUREAU ASSOCIATION
O'DONNELL, TEXAS

Potash Experts To Visit Fields Soon

Washington, July 19.—Scott Turner, director of the Bureau of Mines, Department of Commerce, will leave here shortly for an extensive trip through the potash fields of the southwest, investigating the deposits of this mineral for the government. He will spend a large part of his time on this trip on the University of Texas lands in West Texas, where in the drilling of oil wells, large potash deposits have been discovered.

The investigations will be made under an act passed at the recent session of Congress, authorizing the Secretary of the Department of the Interior and the Secretary of the Department of Commerce jointly to determine the location, extent and mode of occurrence of potash deposits in the United States and to conduct laboratory tests. The investigations will be carried on under the immediate direction of the Geological Survey of the Department of Mines of the Department of Commerce.

The Geological Survey will figure in the investigations to the extent of ascertaining the most feasible location for drilling holes in an effort to find potash deposits and the Bureau of Mines will have charge of the actual drilling of the holes. Director Turner will probably be accompanied on his trip by Frank L. Hess, Chief Mineral Technologist of the Bureau of Mines.

The act providing for the proposed investigations authorized an appropriation of \$100,000 for the fiscal year ending June 30, and a similar amount for each succeeding fiscal year for four years.

The act also authorized the Secretaries of the Department of the Interior and the Department of Commerce to co-operate under formal agreement with individuals, associations, corporations, states, municipalities, educational institutions or other bodies in carrying out the provisions of the law.

Director Turner plans to visit during his investigations the states of Texas, New Mexico, Oklahoma and Kansas where deposits of potash have already been discovered by experts of the Geological Survey. The finding of very rich deposits of potash in Texas has been recently announced by the Geological Survey.

The University of Texas, it was stated at the Bureau of Mines, owns valuable oil lands, yielding in the neighborhood of \$10,000 a day from the sale of its oil. It is in such wells that potash deposits have been found and it was said that test holes may be drilled on the property of the University of Texas.

Director Turner prior to becoming head of the Bureau of Mines was a consulting mining engineer. He is said to be specially fitted for his new task by reason of the fact that for the past 20 years he has had continuously two core drills working under his personal direction and supervision.

Grandview Brick School Building Nearing Completion

C. O. Lawler, contractor for the construction of a \$17,000 brick school building at Grandview in Dawson county, was in town Saturday and stated that the work was progressing nicely and he would have the building ready for occupancy by the opening of school. The old frame building was torn down and rebuilt into a teacherage. The Grandview school employs four teachers.

The four corners of the earth are shoes on rubber, coffee, aluminum and the grain market.

L. F. Townzen Believes In Advertising

L. F. Townzen believes it pays to advertise. A couple of weeks ago he had an advertisement inserted in the Index stating that he had a couple of stray animals in his pasture and asked the owner to come and claim the same and pay for the pasturage. A few nights after the paper appeared, someone came and took the stock and forgot to leave his card.

In this instance it paid the Index 50 cents, it paid the owner of the animals to find them and it paid Mr. Townzen to get them off his grass. Maybe you have some stock on your place; if you have, send in a notice and let us help you find the owner.

Lamesa Telephone Exchange Sold

J. H. Lee, who formerly owned and operated the O'Donnell telephone exchange has sold the Lamesa exchange to the Texas Company. Mr. Lee will continue to act as manager of the concern for the purchasers. Mr. Lee came here several years ago and pinned his faith to the O'Donnell and Lamesa communities and as the towns grew, he advanced his telephone system to meet the demand for service, until he built up one of the best privately owned exchanges in the country. His many friends at O'Donnell will be glad to learn that he will still remain a citizen of Lamesa.

Former O'Donnell Family Visit Here Sunday

Mr. and Mrs. Jim Sanders and little daughter, Mary Clarinda, came in Sunday on a business trip from White Deer. Mr. Sanders stated that he and Quincy Haney had their picture show in operation and that they were doing a nice business, considering that this was a dull season of the year. They returned to White Deer Monday.

After spending three weeks with her parents at Winters, Mrs. J. E. Baker and children returned home Thursday of last week.

THE TEN COMMANDMENTS OF MAIL ORDER HOUSES

1. You shall sell your farm produce for cash, where you can for we buy nothing from you.
2. You shall believe in us and best because we do not know you.
3. You shall send your money to us in advance, so we can buy the goods from the factory with your money; you have to wait a few weeks but that is our business methods.
4. You shall get help from your nearest city or village to build good roads, so you may easily haul our goods from the depot, but do not ask help from us—we do not help to build good roads.
5. You shall buy Church bells and altar utensils from us, and send the money in advance—that's our rule.
6. You shall get all the help you can from the business men in the neighborhood, although we may have more profit from you than they have it is against our rules to give to churches.
7. You shall covet your neighbors also to your faith in us, for we have room for more money.
8. You shall look at these pretty pictures in our catalogue as often as you can so as to strengthen your desire for the things that you do not other goods to save freight. Send need, but which you may order with us all your ready cash so that you may not have any left to buy necessities from your home dealers.
9. You shall believe us rather than your home merchants, for we want your trade. We get to be millionaires with your support. Don't be bluffed.

O'Donnell Party Returns From Tour of Eastern States

After a tour covering part of Oklahoma, Arkansas, Tennessee and Louisiana, a party composed of J. B. Miles, J. M. Christopher, E. J. Baker and V. H. Derriek of Idalou, returned home Thursday of last week. During the trip the party travelled 2500 miles and report having seen quite a diversity of countries—some good and some bad. They crossed the Mississippi at Memphis and all agree that that river would be worth something on a west Texas ranch for furnishing water for the stock. Mr. Christopher says he did not know there was that much water in the world, but said they needed it to supply drinks for the 4500 pound hippopotamus they saw in the zoological garden in Memphis. They carried cots and slept where night overtook them. They covered 382 miles on the longest drive made in any one day. They returned by Fort Worth and Dallas.

Doak Exhibits Fine Stalk of Cotton

C. H. Doak exhibited a stalk of cotton Monday that was taken from his farm under cultivation by Mr. Bean. The stalk had 51 squares, blooms and bolls on it. This means better than a bale to the acre according to experts in cotton growing. It seems assured that there is going to be a full crop of cotton harvested here this fall.

Entertains With Slumber Party

Little Miss Lois Nelson entertained a few of her chums with a slumber party Wednesday night of last week. They told ghost stories, enjoyed piano music played by Opal Howrey, had a thrill by a visit from "Peeping Tom" and after singing "Show Me the Way to Go Home" at 4 o'clock they went to bed. Those present were Julia Holtzelaw, Opal Howrey, Lois Nelson, Louise Miles, Eula Bell Miles and Viola Wyatt.

If judges' salaries were raised they would at least look pleasanter while sitting on the bench.

Music is the universal language, which probably accounts for the rattles and squeaks of the flivver car.

Included in Prof. Einstein's theory of relativity is the proposition that there is no such thing as time. But if you'd ask him what time it is right quickly he would pull out his watch and tell you.

Into the field of low-priced cars the smoothest Chevrolet in Chevrolet history brings exactly the velvet acceleration and freedom from high-speed vibration that have been the big reasons for the buying of multiple-cylinder cars.

Imagine loafing up a hill in a loaded car—with the motor turning so easily that you are scarcely aware of its operation. **You can in the smooth Chevrolet!**

Imagine rushing from 10 to 30 miles an hour before your watch ticks ten times—with never a semblance of labor on

the part of the motor. **You can in the smooth Chevrolet!**

Imagine being able to drive between 40 and 50 miles an hour for hour upon hour—in perfect comfort, entirely free from any sense of excessive speed and unconscious of even the slightest roughness in the road. **You can in the smooth Chevrolet!**

Learn for yourself the incredible smoothness that is winning the world to Chevrolet. Arrange to see and drive the car today! and come prepared for a ride the like of which you never dreamed possible in a car that sells at Chevrolet's low prices!

O'Donnell Chevrolet Co.

QUALITY AT LOW COST

O'DONNELL MAY SOON BOAST OF MILLION-AIRE OIL MAGNATES

O'Donnell may soon boast of a flock of millionaire oil men. A short time ago Bert Bailey induced a number of O'Donnell men to buy a lease on a section of land in Hutchinson county and on Monday they received notice that a gasser producing 100,000,000 cubic feet of gas was struck within two miles of their property. Among those who are in on the deal are G. A. Haney, Ben T. Brown, John S. Fritz, F. M. Townson, J. R. Thomas, C. J. Beach, Clyde Frost, L. Dennis, C. E. Kelley, Jeff Music and J. M. Christopher.

With drilling going on all around the section, it is certain that they will soon know the value of their holdings. Here is hoping that each will make a million from their investment.

Many of the advertisements we read are interesting if not true.

The coal industry does not need nationalizing; it needs rationalizing. If the coal people starve will it be a case of women and children first.

Italian earthquakes are caused by Mussolini pounding his fist on the desk.

If there's anything in words the public, as well as labor and capitol, is always bound to be hit by a strike.

DON'T BE A MULE

Two fool jack mules—say, get this dope. We're tied together with a piece of rope. Said one to the other, "You come my way, While I take a nibble from this new-mown hay."

"I won't" said the other. "You come with me."

For I, too, have some hay, you see." So they got nowhere—just pawed up dirt.

And oh, by golly, that rope did hurt. Then they faced about, these stubborn mules.

And said, "We are acting like human fools!"

Let's pull together. I'll go your way. Then you come with me and we'll both eat hay."

Well, they ate their hay, and they liked it, too.

And swore to be comrades good and true.

As the sun went down they were heard to bray:

"Ah, this is the end of a perfect day!" —Exchange.

W. L. Graves spent Wednesday at Lamesa at the bedside of his son, George H. Graves who was operated on for appendicitis.

Members of the Young People's Missionary Society were made happy this week by a liberal donation in cash from J. D. Liles and Grady Gantt to help pay their expenses at the encampment to be held at Palo Duro Canyon.

MRS. MUNDAY KILLED IN CAR ACCIDENT LAST SUNDAY

A message was received here Sunday of last week from Hamilton stating that Mrs. Munday had been killed in an automobile accident. The lady was a sister to J. N. Henry and O. N. Schooler. Mr. and Mrs. J. N. Schooler were visiting in Hamilton at the time of the accident. From meagre accounts of the accident received here, Mrs. Munday had started from the family home in her car and drove off a bridge. Her husband heard her scream and went to her rescue, but she died soon after being taken from beneath the car.

NEW BUTCHER

Born to Mr. and Mrs. J. C. Campbell on last Thursday, a fine boy.

Scott Gross returned Monday from Byers, where he spent a two-weeks' vacation with relatives and friends.
