## Jack Snodgrass School Principal, Dies In Hospital

Jack Snodgrass, 28, principal of High school here, died in a San Antonio hospital Thursday morning at 10 o'clock following an illness of several months.

Immediate survivors are his parents of Coleman and several brothers and sisters. Funeral services for the O'Donnell teacher, bedfast since July 4, were held today at Coleman, and a number of people from this city to attend. School was dismissed the day by Supt. S. F. Johnson, the O'Donnell-Crosbyton football game postponed.

Snodgrass was appointed to his position last spring as a teacher here, the last two as principal, attended Daniel Baker at Brownwood. He had made more friends than any other teacher in the school during his stay here, and his ability to make friends extended to the streets after school hours. His appearance was marked by the number of people of various ages who came to see him and his ever friendly, more often, witty replies. He had the ability which many teachers lack to mix with his pupils, make them respect him and yet not lose respect.

Health of later years prevented constant participation in athletics but the time he gave to the thing demonstrated his ability.

## More Rain Strikes South Plains Area

More and more and more—rain! Rivaling sections where people think it rains a lot, the South Plains was given varying doses of rainfall this week, and, coupled, with previous precipitations, soaked every inch of ground.

Slightly over two inches has fallen in O'Donnell since late Tuesday, and a drizzle was falling when the gauge was read by Ben Moore, operator of the government tester.

Any mention of farmer's and business men's worries would not be news—that period passed some time ago, and anxiety of the present concerns how badly the crops are rotting in the fields, and just how soon a freeze may come to do further damage to the crops which promised (a few weeks ago) to return high yields.

## Soil Conservation District Depends On Farmers Desire

County Agent Don Turner states that all things are now ready for the election to be held throughout Lynn county Saturday to determine whether or not a soil conservation district shall be created in this county under state law.

Land owners in the county will be allowed to participate in this election, and in case the election results in favor of the proposal and a soil conservation district is created, control will rest in the hands of the land owners of the county. Its efficiency will be determined by the extent to which the land owners cooperate.

## Burglars Enter Eiland Tractor Co.

Night prowlers entered the Eiland Tractor company sometime Wednesday night and made off with five cash registers, valued at \$50. B. L. Parker sheriff and Con Burns were working on the case Thursday, but no statement as to their findings.

Entrance was gained by breaking a large glass in the front door. The thieves had tried to batter in through the door. They made their departure through the back door which they left open, so said W. E. Tredway, manager.

## Motor Parts Five Tops In Bowling

Setting a pace which has given them undisputed possession of first place in the City Bowling league, the O'Donnell Motor Parts keggler's snatched two games out of three from their nearest competitors, Corner Drug, Monday night.

The hitherto impotent Whitsett Drug five (or three as blind averages had been marked against them for two weeks) downed Cicero Smith's five two games to one.

The standing finds the Motor Parts first, Corner second, Cicero Smith third and Whitsett fourth. All teams are so evenly matched that any team is likely to topple an opponent.

## Eagles To Battle Crosbyton Here Saturday at 2:30

Postponed from Friday night due to the passing of Principal Jack Snodgrass Thursday, the football game between the Eagles and Crosbyton Chiefs will be played here on Saturday afternoon at 2:30 o'clock, so officials have announced.

The last thing the late principal would have wanted, so the Eagle squadmen think, would be to cancel the game entirely, because he was one of their best boosters. So the game will be played Saturday.

The Eagles intend to do their best to beat Crosbyton, and while the record shows no games won this season, they think there is always a first time for everything.

Regardless of which team wins, the crowd will see a hustling brand of football.

## Boy Scout Cub Pack Organized

Plans are being perfected for the organization of a Cub Scout Pack here. The Pack is to be sponsored by the Rotary Club and is designed to give boys from nine to twelve opportunity to participate in Cubbing activities in the South Plains Area Council.

A training course is to be conducted Nov. 17 and 18 by Bevington Reed, Field Scout Executive, at which time final organization of the Pack will be perfected. Parents or boys interested should contact S. F. Johnson or B. M. Haynes for further information.

Mr. and Mrs. T. T. Garrard were visiting in Tahoka Sunday.

WEEKLY NEWS ANALYSIS

By Edward C. Wayne

Removal of Consulates From Moscow And Torpedoing of U. S. Destroyer Mark Important New Phase of War; Crisis Seen as Japan's Cabinet Falls

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.) (Released by Western Newspaper Union.)

When the British and Free French took over mandated Syria from the Vichy French, they also took over the job of providing food for needy Syrians. Here is a typical scene at a food distribution center. Pails, pots and even wash basins are held aloft for offerings.

WAR: New Phase

Evacuation of the foreign consulates from Moscow and the torpedoing of the U. S. S. Destroyer Kearney off Iceland, occurring as they did about the same time, were looked upon as two major events marking the entrance into a new phase of the war.

Immediate reaction to these reports was noticeable in their effect upon the congressional voting on changes being considered for the U. S. neutrality law. Effect of the news was also reflected in the progress of the "aid for Russia" program in which the United States, Great Britain and Russia were engaged.

'On Patrol'

First news of the Kearney incident came from Washington when the navy announced that the destroyer (one of the newest types) had been torpedoed while on patrol duty off the coast of Iceland. This report indicated that the ship was able to proceed under its own power.

President Roosevelt on the same day issued a statement saying that the torpedoing was clearly in the American defense zone.

Removal of the consulates from Moscow took place as the Germans, with their long range guns, began their "all out" campaign against the city.

JAPAN: A Cabinet Falls

When news came from Tokyo reporting the fall of the Japanese cabinet headed by Prince Fumimaro Konoye it looked like prelude to an Axis move in the Pacific.

Immediate speculation was that the fallen cabinet would be replaced by one more "warlike" and it was indicated that this change meant the collapse of the so-called "peace talks" between Japan and the United States.

President Roosevelt conferred for two hours with top military and state department heads just following the announcement of the cabinet's fall. White House sources did not at once discuss the conference or issue a statement on the new threat in the Far East. Other informed quarters, however, viewed the situation as grave and some forecast that the change in government in Japan came at a logical time for that country to strike a blow against Russia to aid Germany.

RUSSIA: Soviet Scene

As the German troops admittedly had smashed back the Russian defenders many miles from Smolensk, past Bryansk and past Vyazma, the picture became one in which the Russians admitted setbacks but always spoke of "heavy losses" to the enemy. The Germans issued optimistic statements so fast that the wires could hardly carry them.

Admitting many of the Nazi claims, Russian sources were asserting that "fresh legions" were entering the fight, that the Nazi advances had been made in spite of terrific losses, that the invader had been slowed, even halted and turned back at some points.

The British, including Churchill, took a rather gloomy view of the Russian situation.

As to American aid, President Roosevelt said it was going forward in heavy quantities—but gave no details. Lozovsky said "the Americans are sending us 5,000 planes a month," but that was nearly twice total American production.

While the Russian statements, many of them, sounded somewhat like "whistling to keep up one's courage," still it was certain that the German all-out attack in the center, by Hitler's own statement a battle effort unequalled in the history of warfare, was not meeting the the walkovers of the past.

PRACTICALLY OVER: Say the Nazis

From Hitler's camp the Russo-German war was over, militarily speaking.

In dispatches that had tumbled over one another in their eagerness to impinge themselves upon public opinion here and abroad, perhaps with the idea of frightening England from an attempt to cross the channel with a land force, Berlin rapidly had told the world the following.

Russian losses had been 3,000,000, 4,000,000, 6,000,000, figures given out within a 48-hour period.

Three, four—finally all Russian armies had been trapped in "iron rings," and the whole defense fabric of the country had been smashed. All that was going on now was under the head of mopping up.

ARMING: Real Fight

With the President committed to congressional action permitting the arming of merchant ships—which many believed was Step One toward a further request to permit them to run right into British ports, the expected bitter fight of the non-interventionists against the administration's latest move had gotten under way.

Committee hearings started on the measure, which White House leaders had "timed" at three weeks to passage. This was the signal for a gathering of the anti-administration cohorts, who were able to muster only a corporal's guard against the \$6,000,000,000 lend-lease bill which carried aid to Russia as a part purpose.

In fact, the opening strategy was planned at a meeting of 11 senators in Hiram Johnson's office.

The fight promised to be furious but brief, for few believed that the 11 senators and Hiram Johnson would put on the filibuster that was staged just before the first World war by the "wilful twelve" which included Senators Vardaman, Bailey, Reed, Watson and others.

LABOR: Troubles Mount

Strikes and threats of strikes were on the upgrade again, with one interunion dispute involving 100,000 automobile workers, most of them engaged in making tanks for the army of the United States and other countries.

The C.I.O. workers of one plant were refusing to handle parts made by A.F.L. workers in another plant.

In a Cleveland factory making auto frames a strike went into its third week, and at least one big auto factory engaged in turning out "jeep" cars was without frames, and had to shut down.

Hudson and Buick factory officials said they would have to slow down passenger car production if the Cleveland shut down continued.

The first move in the strike-mediation effort to prevent the walk-out of a million and a quarter railroad men was flatly turned down. It had been offered by a railroad management group.

At the same time a Mississippi shipbuilding concern was tied up by a strike, while engaged in a \$150,000,000 contract to build the latest type of merchant ship—an all-welded vessel of odd design.

WIDOW: 'Home to Die'

Human Interest Story No. 1 of the week was the return to New York of a regal woman of 73 who came in by liner from Lisbon, gazed at Gotham's skyscrapers and told newsmen: "I've come home to die."

She was the former Jeanne Luckermeyer, widow of Count Von Bernstorff. Forgotten was her husband's enmity to the United States, forgotten the bitter years, only her tired eyes and the distaste as she spoke of Hitler.

First Army Goes Into 'Action' in South Carolina

For weeks to come, the country made famous by Stonewall Jackson will see thousands of troops engaged in simulated warfare, during maneuvers of the First Army near Camden, S. C. At left, troops of the 13th infantry charge over a haystack. Center: Planes of the "enemy" swoop down with machine guns wide open. Right: First assault boats arrive on "enemy" shore after crossing the Wateree river.

Wind and Rain Divide 'Honors' in Southwest

An airview of the eastern part of Kansas City, showing damage done by a tornado is shown at left. Wreckage of the recently completed Arlington Methodist church, with only the portals remaining, can be seen. Right: Torrential rains flooded rivers and creeks in Oklahoma, inundating thousands of acres of farm land and forcing people from their homes. Scene shows a farm near Pryor, Okla., much of it under water.

U. S. Repairs H.M.S. 'Warspite'

A general deck scene from the bow of the British battleship, Warspite, hero-ship of many naval battles of the present war, as she was put in ship-shape at the Bremerton navy yard, near Seattle, Wash., before venturing on the high seas again. The tubes shown on deck are for air conditioning for the men working below.

'Seeing' London

Pretty Kathleen Harriman, daughter of W. Averell Harriman, head of the U. S. lend-lease war mission in Moscow, is being shown the sights of London by a steel-helmeted policeman, who seems to be enjoying the "job" to the utmost.

'Baby' Legislators Honored

A delegation from the United Youth for Defense organization presented Sen. Joseph Ball of Minnesota and Rep. William Stratton of Illinois, two of the youngest legislators in congress, with medallions of the organization. Photo shows No. 1 New York debutante, Miss Betty Gordon, pinning a medal on Senator Ball, who is 34. Representative Stratton (shown) is 27.

Plea for Charity

President Roosevelt called upon every American citizen to contribute to his local Community Chest. He is shown as he made his plea for charity to the nation.

Notes of an Innocent Bystander:

Old, but Good: Mrs. Jimmy Young, the newspaper gal, passes along the one about the American woman in London for her first air raid. She was so scared she jumped into a nearby garbage can. Two Chinese came along and saw her. "Goodness me!" said the first. "What strange people are these Occidentals. In China we wouldn't think of throwing away a pretty woman like that for at least another ten years!"

Dot Is Dot Vay: Eddie Cantor's favorite anecdote about Dot Parker deals with the time she was bored stiff at someone's country place for the week-end. She sent a pal this telegram: "Please rush loaf of bread and enclose a saw and file!"

In Other Words: The World-Telly interviewer described Franz Werfel, the German refugee author, thus: "Here is a small, stoutish man with a face broad and gemuetlich as a kartoffel pfannkuchen." That's a nice thing to portend about a stan portis, and how'd you rillarrah if he prampsoned the same sedkuppit?

Quiteso, Quiteso: Two vaudevillians were standing in front of the Palace Theater reminiscing about the good old days. "Too bad," sighed the first nostalgically. "Just as I was about to be booked into this house, they rang the curtain down on vaudeville—and gone are all my hopes and dreams—my toughest break."

To which the other replied indifferently: "So what? What did you miss—a couple of bows?"

Notes of a New Yorker:

It could only happen in the movies, eh? Well it happened over at a New York afternoon paper, where the city desk was supposed to assign a photographer to cover the war maneuvers in South Carolina. . . . Instead, they sent him to North Carolina, about 400 miles away—tch, tch. . . . Strangest sight on Fifth Avenue these days—seeing Boris Karloff, the Hollywood chill-billy, entering Elizabeth Arden's. Not to get prettified, merely to remove the grey streaks from his hair so he will look more like Boris Karloff in "Arsenic and Old Lace."

The Andrews Sisters will get \$5,000 per week when they headline at the Paramount Theater. . . . The America Firsters are having their problems. Many backers have deserted. The committee has shaved expenses, slicing the publicity staff to the bone.

The Big Parade: Robert C. Benchley, who lost one of his sox on the east-bound train the day before—ankling around the midtown places wearing a gray one—with the other ankle nekkid. . . . A. A. Berle Jr., the Ass't Sec'y of State, reminiscing with Damon Runyon over their Hearst apprenticeship. . . . Gail Patrick of the Moom-Pitchers giving The Stork cub some class. . . . Errol Flynn—the reason the beauty parlors are doing business. . . . Eddy Duchin was in a boot shop when Geo. Jean Nathan came in. . . . "I want a comfortable pair of shoes," he said. . . . "Something for walking?" asked the clerk. . . . "Well," well'd the critic, "something for walking out."

Jan Masaryk, now foreign minister for the Czechs in exile, is bound for the U. S. . . . Jim Morris, owner of the Detroit hockey team (and a big racing stable) dropped \$20,000 on Nova. . . . Eighty million dollars has been spent in Manhattan and The Bronx this year for postage—biggest sales since 1929. . . . The post office here will add 9,000 postal employees for the Christmas biz. Hired only 6,000 last year. . . . MGM's answer to that senate snub-committee was the \$40,000 purchase of the film rights to "Above Suspicion," another uppercute to the Bund.

Judge Landis' new ruling will stop ball players from endorsing ciggies and heoch in their uniforms. In street clothes, anything goes. . . . The Louis-Corn fight contract has been signed for June, 1942, and prohibits Joe from giving anyone else a crack at the title before that date. . . . One of the nation's leading chemists still refuses to pay off on his Willkie (for President) wager—a Grand. . . . The writers and the shoe-string publishers of the hit smash, "I Don't Want to Set the World on Fire," are loing on borrowed coin!

The Retort Proper: Then there's the one about the draftee who escaped from the guardhouse. The sentry caught the dickens from his corporal. "Didden I tell you to put a man at every exit?" "Yeah, but this bird was smart. He left through an entrance."

EARER, NEARER comes ski weather.

Overnight even now your car gets  
steely cold. These mornings, as your starter prods the en-  
gine, the precious parts that you want to keep fit are  
rarin' to claw each other. But not after they're Winter  
OIL-PLATED by the quick simple change to your season-  
ally correct Conoco N<sup>th</sup> motor oil. Its magnet-like effect  
holds OIL-PLATING clear up to the topmost piston rings,  
though your car may stand cold for days. Instead of all  
quickly draining down, Conoco N<sup>th</sup> makes OIL-PLATING  
stay up on guard in advance—ready ahead of mere fast-  
flowing oil—to ease up the coldest starts.

Then when your engine's insides—even in Autumn  
and Winter—naturally warm up more than a brand new  
sunburn, your Conoco N<sup>th</sup> oil shows you the type of  
economy that won the sensational Death Valley Death-  
Test—certified. 6 identical cars—6 widely advertised oils  
of quality, including Conoco N<sup>th</sup>—were kept speeding  
over the desert, each on a different 5-quart fill—locked  
in—no oil ever added.

5 quarts of one big brand burned up—engine burned  
out—when the car with Conoco N<sup>th</sup> still had the pro-  
tection of 3.65 quarts! Even the runner-up's 5-quart fill  
was consumed, and the engine was junk, when the car  
with Conoco N<sup>th</sup> still had 2.7 quarts in the crankcase.  
All impartially certified.

Get the printed evidence at Your Mileage Merchant's  
Conoco station. There's where to change to this popular-  
priced Conoco N<sup>th</sup> oil that OIL-PLATES your engine for  
protected prompt starting. That's more than a promise.  
It's backed by something real...OIL-PLATING. Continental  
Oil Company

### GAVE TWICE THE ENGINE LIFE!

This oil that OIL-PLATES gave its en-  
gine more than twice the life averaged  
by the engines using the other oils in  
the Death-Test.

In these times use your car prudently.  
And use oil that's great for engine life  
—changing regularly as recommended.

Good starting—good lubrication  
against all needless wear—helps con-  
serve gasoline, too.

**McCORMICK-DEERING  
 HAMMER MILL**  
 No. 10 and No. 10-C

The No. 10-C Hammer Mill with feed conveyor. Note the adjustable gate at the feed throat of the conveyor.

• Name any grain or roughage you like... it's pretty certain you can grind it just the way you want it in the new McCormick-Deering Hammer Mills No. 10 and No. 10-C. These two mills are easy to adjust, simple to operate, and they grind at the exact degree of fineness you want.

• Come in and see them at our store. The No. 10 has a large-capacity, gravity-feed hopper; the No. 10-C is equipped with screens and hammers in the No. 10-C, you can use it as an ensilage cutter—a feature many livestock feeders and dairymen will like.

The McCormick-Deering line is the complete line of feed-grinding equipment. Besides these two mills, we have the new No. 5 Hammer Mill (slightly smaller capacity than the No. 10 and No. 10-C), the No. 2 Roughage Mill, and complete line of plate-type Feed Grinders.

#### MOTHER OF LOCAL MAN DIES

Mrs. Oscar F. Jones, 87, mother of Irvin Jones, passed away last Thursday at the home of a daughter, Mrs. L. K. Shaw, in Oklahoma City. Her death was caused from a heart attack.

Funeral services were conducted at 4:00 p. m. Friday at the Kiker Funeral Chapel in Colorado City, with the Rev. C. M. Epps, pastor of the Methodist Church there, officiating, and interment followed in the Colorado City Cemetery.

Mrs. Jones left surviving three daughters and two sons. The daughters are Mrs. Fulkerson, Mrs. Shaw, and Mrs. O. D. Vowell. The sons are E. L. and H. F. Jones. Also surviving are sixteen grandchildren. All of the children and all of the grandchildren except one were present at the funeral. It was impossible for W. H.
