## PRIZES OFFERED IN CHILD PHOTOGRAPH CONTEST

The time is almost here for the opening of this newspaper's Big Child Photograph Contest and we're urging all of our readers to have their children ready for the big day.

Winston B. Lucas of Irving, Texas, will be in O'Donnell on Thursday, July 28th from 1 p. m. to 6 p. m. at the Index-Press office for the purpose of taking pictures in this vicinity.

In addition to having their pictures printed in this newspaper the children will be competing for \$20.00 in prizes, which are being offered for the three best photographs made during the day.

The photographs will be made absolutely free of charge, and there is no charge for their publication in The Index-Press. Proofs will be shown and from these you may select the picture of your child which you would like to appear in this paper. If you wish extra photographs, they may be purchased, but no purchase is necessary in order to have your child's picture printed in this newspaper, or in order to compete for the prizes. It is entirely up to you, whether you buy pictures or not.

There is no age limit on the contest, and every child's photograph in this section is wanted so that they may all appear in The Index-Press. However, it is necessary that all pictures must be of uniform size, so they must be made by Winston B. Lucas on Thursday, July 28th, 1 p. m. - 6 p. m.

Don't wait until little Mary gets married or baby brother is elected to some political office to see their pictures in the paper—make plans now to have these photographs made on Thursday, July 28th. Tell your friends and neighbors—the more, the merrier.

**AN ORDINANCE FIXING THE MAXIMUM RATE OF SPEED FOR MOTOR VEHICLES; ALLOWING FOR SPEED ZONES; PROVIDING FOR PENALTY; AND DECLARING AN EMERGENCY**

WHEREAS, the City Council of the City of O'Donnell, Texas, upon the basis of engineering and traffic investigation, find it necessary to establish maximum speed limits and create speed zones in certain areas, all within the corporate limits of the City of O'Donnell, Texas.

WHEREAS, the City Council of the City of O'Donnell also finds it necessary to immediate preservation of the public health and safety to provide for the immediate enactment of such measures, constituting an emergency. NOW THEREFORE,

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF O'DONNELL, TEXAS:

SECTION 1. Speed limits of thirty (30) miles per hour; it shall hereafter be unlawful for any person to drive or operate a motor vehicle upon any street, highway or thoroughfare within the City of O'Donnell, Texas, at a greater rate of speed than thirty (30) miles per hour except where speed zone signs are erected indicating a higher or lower rate of speed, in which case the speed indicated by the speed zone signs shall be the maximum speed permitted. And it shall be unlawful for any person to operate a motor vehicle in excess of the speed limits indicated on any official speed zone sign.

SECTION 2. The speed zones established by the Ordinance shall include all of Loop 76 (9th street and Doak Street) within the Corporate Limits of O'Donnell, Texas; the maximum legal speed limits shall be as follows:

Beginning at the west city limit near the south end of Loop 76 the maximum legal speed limit for both eastbound and westbound traffic shall be 30 m.p.h. along said Loop 76 for a distance of 0.789 miles to 5th Street; thence 40 m.p.h. for a distance of 0.318 miles to the north city limit.

And all Ordinances and parts of Ordinances in conflict herewith are hereby repealed.

SECTION 3. The speed zones established by this Ordinance shall include all of E. M. 2370 within the Corporate Limits of O'Donnell, Texas; the maximum legal speed limit shall be as follows:

Beginning at Loop 76 (9th Street) the maximum legal speed limit for both southbound and northbound traffic shall be 30 m.p.h. for a distance of 0.146 miles to 11th Street; thence 45 m.p.h. for a distance of 0.202 miles to the south city limit.

And all Ordinances and parts of Ordinances in conflict herewith are hereby repealed.

SECTION 4. Any person violating any of the provisions of this Ordinance shall, upon conviction thereof, be fined in any sum not less than Ten (\$10.00) nor more than Two Hundred (\$200.00) Dollars.

SECTION 5. That the hazards, dangerous to public health and safety, creates a necessity requiring all rules providing that no ordinance shall be finally passed on the day of its introduction be suspended; and this Ordinance is declared to be an emergency measure, to take effect from and after the date of its first publication.

AND IT IS SO ORDERED, PASSED AND APPROVED THIS 14th DAY OF JULY, 1960

## L. L. Tournament Opens Here Saturday Thru Tuesday

### 6 Teams To Play

#### Many Visitors Expected

An area 4 tournament meeting was held at 2 p. m. here Sunday afternoon at Legion Hall. Presidents of the six leagues to play here in the tournament were present along with the district representative Francis M. Fontaine. They decided to use professional umpires from Lubbock to call all the games. Representing the local league were B. B. Vestal, president, E. E. Bates, director and Ivan Line, manager.

The tournament starts this Saturday, July 23rd with opening game at 6 p. m. Slaton vs. Post followed by O'Donnell vs. Stonehill-Kent at 8 p. m. Play Monday at 6 p. m. sees Lamesa vs. Tahoka and winners of Saturday's games play at 8 p. m. On Tuesday July 26th losers of Monday's games play for 3rd place at 6 p. m. Winners of Monday's games play for title and the right to go to district tournament at Lubbock to be July 28th (next Thursday week.) Let's get behind Big O Saturday nite. There'll be some mighty good ball games.

Mr. and Mrs. Wallace Rains had as guests in their home Sunday: Mr. and Mrs. R. T. Rains and family of Monahan, Maudie Rains of Midland, Mr. and Mrs. Marvin Brewer and baby of Levelland, Mr. and Mrs. A. J. Rains and Vanita of here, Mr. and Mrs. Barton Burks of here, Mr. and Mrs. Van McKee and Patty of here and Joe Hood of here.

Mr. and Mrs. J. A. Hogg and Daphne attended the Hogg reunion at Lubbock Park Saturday. Mrs. Joe Blasingame and baby of Big Spring also attended.

Mr. and Mrs. Harvey Line and Mr. and Mrs. B. B. Street are visiting in Vista, Calif. with Mr. and Mrs. Jarrell.

Mr. and Mrs. Glen Gibson and children attended a family reunion at Sweetwater Saturday and Sunday. Anna Jo Sublett of Dallas returned with them for a visit here.

Mr. and Mrs. J. J. Whirley are vacationing in Colorado.

Billy Edwards, 12-year old son of Mr. and Mrs. Johnnie Edwards, of O'Donnell, was admitted on Wednesday, July 13, to the Scottish Rite Hospital for Crippled Children in Dallas.

Kathey Gass, Bonnie and Connie Teeter of Lubbock, Rita Teeter of Arlington and Pam Stephens of Route 1 are visiting their grandparents, Mr. and Mrs. Walter Teeter.

### Cotton Showers

A gentle "cotton shower" Monday afternoon netted 1-10in. of rain here and registered 8-10ths in the Draw area and half inch in Wells area with fall lighter to the south. Cotton and feed are growing off normally and there is a good possibility that the crop will be above average. Weather continues to be ideal for plant growth but is also ideal for insect growth. Cotton chopping is picking up with about 50 Nationals here and domestic labor coming in daily. Business has increased greatly.

Demus Lee, 5 year old son of Mr. and Mrs. Bove Allen of Odessa had surgery in Baylor hospital in Dallas last Tuesday. He is doing fine and will be dismissed today. Wed.)

### Shorter Work Days

Texas farmers and ranchers had an average workday of 19 hours 5 minutes on June 1 according to the U. S. Department of Agriculture. That's a half-hour less than the average for farmers in all states of the nation, more than two hours less than the Wisconsin farm workday, but a full hour more than Nevada and Florida farmers put in.

This was brought out in the farm labor report issued by USDA's Agricultural Marketing Service, based on reports from federal-state Crop Reporting Service offices in each state.

The national average was 10.6 hours, while Nevada and Florida were lowest with 7.1 hours. Colorado farmers averaged 11.2 hours; Kansas, 10.9; New Mexico, 11.7; Oklahoma, 10.2; Texas, 10.1; Arkansas, 9.8; and Louisiana, 9.3 hours.

Farm operators in the nation averaged about an hour more each day than their hired hands.

Seasonal length of the farm workday has changed very little in this area during the last three years, although a slowness in the crop season was evident in some locations when the June 1 survey was made. The June 1 average in Texas in 1950 was 11.6 hours, in the war year of 1943, it was 12.8 hours.

Weather at this season seems to have little effect on the amount of time the farm operator works, even when he can't be in the fields. The number of seasonal hired workers is more sharply influenced by weather conditions, but the work length for regular hired help is more consistent, even in undesirable weather.

### Russ and Garrett To Get FFA Degrees

Jimmy Garrett, son of Mr. and Mrs. Snag Garrett and Billy Russ, son of Mr. and Mrs. Silas Russ are in Houston this week to receive the Lone Star Farm Degree. The boys are awarded the degree in recognition of outstanding farming and leadership program.

Billy's projects have included irrigated cotton, milo and lambs. He has a calf on feed at present.

His income for two and half years is about \$1200.

Jimmy's projects include swine, milo and sheep. He is area vice-president and president of the local chapter. His income is over \$900.

### Tips On Farm Ponds

The farm pond or stock tank has become a familiar sight in Texas. These ponds are important sources of pleasure and that indispensable commodity—water. Unless properly safety precautions are taken, however, these same useful ponds can become a source of tragedy, says the Texas Farm and Ranch Safety Council.

To emphasize the seriousness of farm pond hazards, the Safety Council points to a nation wide tabulation of causes of farm deaths. Texas ranked sixth in the number of deaths caused by drowning. This is one "Top Ten" list he added that Texas should not be on.

Anyone who has a pond or tank on his land should observe, and enforce, the following safety precautions. These measures could save a lot of grief, reminds the Safety Council.

Post safety instructions for boating, swimming and skating. Mark safe swimming areas.

Place lifesaving devices such as ring buoys, ropes and long poles around swimming areas.

Do not allow anyone who cannot swim into the water.

Know accepted methods of artificial respiration.

Fence pond so that children cannot play around pond without supervision.

Make sure that an adult supervises all recreation around pond.

### Insects Continue Light

Rainfall during July, which ranged from six to near fifteen inches, has caused some shedding of forms in many fields of cotton. Such weather conditions have delayed cultivation as well as the application of insecticides in areas where insect infestations were sufficient to require control.

Trips have ceased to be a problem in counties reporting, since all reports were of light populations except Mason County, which had medium infestations of cotton in some fields.

Fleahopper infestations increased in many fields in some localities, with rather heavy hatching following the heavy rains. Heaviest infestations were reported in the eastern half of Lubbock County, Glasscock, Hockley and Lamb counties. Other counties reported light to medium infestations. Populations were heaviest on the earlier planted cotton. All cotton should be closely checked for fleahoppers and excessive loss of tiny squares, which indicate damage by the insects.

Beetworms were reported in light infestations in Collingsworth, Glasscock, Lubbock, Midland and Terry counties. In most instances the populations were of recently deposited eggs, with occasional fields showing hatching. With favorable weather conditions for activity of this insect, fields should be closely watched for both eggs and damaging numbers of small worms.

Boll weevil infestations were reported sufficiently heavy to warrant control in some fields in Fisher, Jones and Mason counties.

Cabbage loopers were reported in light infestations in occasional fields. Garden webworms required control, along with grasshoppers, in Hale County. Grasshoppers damaged some small cotton in Graza, Mason and Throckmorton counties.

**YOU CAN HELP REDUCE ACCIDENTS ON THE FARM**

You, Mr. Farmer and Rancher, can help reduce accidents on the farm!

Mental alertness, safety consciousness, the ability to recognize hazards and a determination to eliminate them, and efficiency in all farm operations are more essential to safety in agriculture than many rules or regulations says Sam Whitlow, president of the Texas Farm and Ranch Safety Council.

However, for the sake of brevity, here are 15 good rules, which if followed, will help reduce the terrible toll of farm accidents, Whitlow points out.

1. Keep walkways and steps in good repair, unobstructed and well lighted.

2. Keep ladders in good repair and easily accessible in case of emergency.

3. Always stop machinery before unclogging, oiling or adjusting it.

4. Don't wear loose and floppy clothes around machinery.

5. Start tractors smoothly and turn corners slowly - avoid ditch banks and soft ground - always hitch to the draw bar.

6. Speak to animals when approaching them. Keep THEM calm by acting with calm self-assurance YOURSELF.

7. Always keep bulls in safe pens. Never handle bulls unless they are properly restrained.

8. Know and obey all traffic laws. Stop driving if you get sleepy. Never ride with a driver who has had "a drink."

9. Keep your back straight and lift heavy loads with your leg muscles. Don't try to lift anything that is too heavy for you.

10. Use the right tools for the job...make sure they are in good condition...keep them in a safe place.

11. Give prompt attention to even minor injuries.

12. Keep guns unloaded except when actually using them. Treat every gun as though it WERE loaded. And NEVER aim at anything you don't want to shoot.

13. Don't use kerosene to start fires. Pour kerosene or gasoline outdoors to prevent the accumulation of treacherous vapors. Dry clean outdoors.

14. Don't smoke around the barn.

15. Never swim alone. Never dive into water without first determining the depth. And be careful around boats of any kind. Never stand up in small boats.

*This GOLD STAR marks the world's finest cooking appliances...and only GAS ranges have it!*

The new Gold Star is a proud new symbol of superiority. You'll see it only on ranges that meet the strictest of new standards for performance, automation and design... new Gold Star standards. A permanent Gold Star is affixed to every range that has achieved this honor. Look for it before you buy any range, and you will see the most complete, most up-to-date, most automatic ranges ever made... free-standing or built-in, as you prefer.

Look for these features in Gas ranges awarded the new Gold Star:

- Bumer-with-a-Brain (thermostatically controlled)
- Self-lighting broiler, oven and top burners
- Automatic "off-on" clock-timer
- Automatic meat thermometer
- Thermostatically controlled built-in griddle
- Automatic rotisserie
- Smokeless broiler
- waist-high in many models
- Choice of double-oven models
- And many more!

**FAMILY PUTS 2,000 MILES A MONTH ON CORVAIR THINKS IT'S MARVELOUS GAS MILEAGE "OUT OF THIS WORLD"**

Mr. and Mrs. Richard Kahelin of Plant City, Florida, couldn't be happier with the way their new Corvair has worked out as a combination family and business car. On their newspaper distribution route alone they travel more than 400 miles a week over all kinds of roads. Little wonder they're so pleased with the gas mileage they've been getting — "at least twenty-three miles to the gallon with an automatic transmission... and we've had no trouble with our Corvair." The Kahelins have equally good things to say about Corvair's easy-going comfort and unique convenience features. They especially like the way the fold-down seat doubles as a built-in baby sitter.

**Commuter Snags Train But Can't Hold It**

EUREKA, Calif.—Loafers around the railroad station here tell this for the truth. Seems the station agent heard a loud crash on the platform. He ran out and saw the rear end of a train disappearing around a curve. A disheveled gent lay prone on the ground, surrounded by the contents of his banged-up suitcases.

An owlish youngster stared at the gent, but made no effort to assist him. "Was he trying to catch the train?" the station agent asked the youngster. "He did catch it," replied the youngster, "but it got away."

**S S News**

To qualify for social security benefits at retirement, how many work units will you need? "Most people don't know," John G. Hutton, District Manager of the Lubbock Social Security Office, said today. Many don't even know there is such a requirement, while others mistakenly think they can qualify for payments with only a year or two of work.

"Most people will need several years of credit," Mr. Hutton stated, "and the chances are, you will too." The exact number you will need depends on when you reach retirement age; 62 for women, 65 for men. People reaching retirement age now need 4 1-2 years of earnings. Younger people will need more. For example, anyone now under age 54 will need 10 years—the maximum.

Since payments in the future depend on your earnings now, it's important that you receive all credits due. If you work for wages, you should be certain your employer reports them with your correct social security number. If you are self-employed, you should be careful to use your correct social security number on your tax returns.

For additional information about the number of credits needed to qualify for social security benefits, get in touch with the Lubbock Social Security Office at 1616 - 19th Street, Lubbock, Texas. A representative of this office will be in O'Donnell on Wed., July 20 at 2:00 p. m. in the Elementary School and will be glad to assist in all matters pertaining to social security.

**Most Drinking Starts Before College Days**

NEW HAVEN, Conn.—Four out of every five college men who drink began their drinking before entering college, a researcher at Yale University's laboratory of applied physiology reported recently.

Robert Straus, research associate, disclosed for the first time preliminary results of a five-year study into the drinking habits of American college youth. This study was made by Mr. Straus and Selden D. Bacon, director of Yale's center of alcohol studies.

Of the American women students who drink, 65 per cent also started drinking before entering college, Mr. Straus said.

"The probability that a young person will drink at all," he continued, "is closely related to the practices of his or her parents."

"Of the men whose parents both drink, 90 per cent are themselves users. However, only half of the men (51 per cent) whose parents both abstain, drink."

"Where both parents are users, 83 per cent of the women drink on occasion. However, when both parents abstain, only 19 per cent of the women students drink."

He declared that parental advice on abstinence seems to be much stronger than advice from either church leaders or teachers.

Family income is a large factor "closely associated with the probability that one will use alcohol. Among those whose family income is under \$2,500, two thirds of the men and only 30 per cent of the women students drink."

**Know Your Law**

**HOW TO BE A "GOOD" WITNESS**

By far the most vital people in our system of justice are witnesses. Everyone else in a trial exists to hear what they have to say.

Chances are you worry about stepping up, taking an oath, and telling your story in court. Actually, almost anyone can be an effective witness if he merely follows a few simple rules.

1. Don't memorize your story word for word. The surest way to make your testimony sound "phony." Rather, think over what you saw and heard so you have a clear mental picture of what you observed.

2. Listen to the questions you are asked with care and answer thoughtfully.

3. Give a simple, direct answer in your own words. Don't be rushed.

4. If you err—and people often do—correct yourself at once. If you can't remember some detail, say so. Don't bluff!

5. Tell the truth. Don't figure which side you may help. Don't identify yourself with either side.

6. Stop when the judge or an attorney breaks in, and don't try to sneak an answer in before he can stop you. What you might say could end in a "mistrial."

7. If they ask you: Certainly, you have talked to other people about the case—the lawyer, for example; and yes, you are receiving the lawful witness fee to make up in part for the time lost from your job.

Ordinarily, no one has a desire to be a witness in a lawsuit, but the day may come when your testimony may be absolutely necessary for a just verdict in some case. Remember, unless witnesses give understandable and truthful testi-
