O'DONNELL, LYNN COUNTY, TEXAS, FRIDAY, MAY 24, 1929

NUMBER 35

SIX

Juice Falls, Breaking Long Drouth

After several weeks duration a slow rain began falling late Wednesday afternoon and continued through Thursday and part of Friday. The precipitation varied in sections of the country from one to three inches. The Tredway reported having received three inches and a half northwest of town, and southwest of town a point fell, some places around one inch. A total of two to two inches fell in immediate territory. This Lynn and Dawson county last to receive rainfall in the South Plains, it has in most every direction past five miles of O'Donnell's territory. However, the past week furnished sufficient throughout the trade for planting and the farmers very busy since, some having started planting Saturday the first general over this section on May 19, 1929 on June 13th. This section will be about as late as in 1927. Considerable cotton was also before the rains which will benefit and prospects are very flattering for this year.

C. of C. Plans Much Work in the Future

The regular Tuesday noon luncheon of the O'Donnell Chamber of Commerce was held at the Rochelle Cafe at 12:30 Tuesday, with about fifteen officers, directors and members present.

M. J. Whitsett, vice-president, presided in the absence of president C. H. Mansell. Minutes of last meeting read and approved. The last Thursday night in each month was designated as general meeting night of the O'Donnell Chamber of Commerce. Plans were discussed for a goodwill visit to Wells on Friday night of this week. The chair appointed J. P. Aylor as chairman of arrangement committee for the Wells meeting who in turn appointed Mrs. J. F. Campbell, Mrs. A. A. House and Mrs. Guye Bradley to assist him in arranging program.

J. P. Aylor, temporary secretary, reported several new members had been added to the rapidly growing membership.

Vernon Martin who was elected at a previous meeting as general manager of the O'Donnell Community Fair, reported plans were being formulated and a premium list was being prepared which would be completed in ample time to assure the people of a much bigger and better fair than last year. The fair this year will in all probability be held the second week in September, as the Lamesa or Dawson County Fair is scheduled for the fourth week and Lynn County Fair for the third week in September. Mr. Martin is working in conjunction with the County Agent, Mr. Shafer, and expects to exhibit to take from the O'Donnell Community Fair to both the Lynn and Dawson county fairs. Further announcements will be made as soon as plans are completed.

An appropriation of \$13 was made to the Boy Scouts to assist them in their local work.

The by-laws and constitution committee was unable to report due to the fact that Prof. D. A. Edwards who is chairman was out of town. Acting chairman M. J. Whitsett appointed J. P. Aylor to take Mr. Edwards place. J. W. Roberts was appointed to assist Mr. Vernon Martin and Chairman J. P. Aylor to draft constitution and by-laws for the organization. Same to be submitted as soon as completed.

Meeting adjourned.

Memorial Day

First Boy Scout Court of Honor Was Well Attended

The first Boy Scout Court of honor ever held in O'Donnell was held at the High School Auditorium on last Monday night with a large delegation from Tahoka and Lubbock present. County Clerk Truett B. Smith was present with the Tahoka delegation and made one of the principal talks of the evening. Scout Master Eubanks of Tahoka and Acting Scout Executive Geo. Eaton of Lubbock were also present and made talks in the interest of Scout Work.

Those serving on the Court of Honor from O'Donnell were: Chairman E. M. Wilder, D. O. Howard, Ben S. Coon, J. P. Aylor, Rev. Joe Wilson, W. A. Tredway, and Scoutmaster Clyde Ash; assisted by Scoutmaster Eubanks of Tahoka and Scout Executive Geo. Eaton of Lubbock. Local Scoutmaster Clyde Ash made the presentation of Tenderfoot award to eight local Scouts, as follows: Cubie Bray, Joe Earl Wilson, R. E. Barnett, Harvey Barnett, Willard Green, Herbert Lester, and Douglas Billew. Second class awards were given Ray Debusk, presentation being made by Scoutmaster Eubanks of Tahoka. Scouts from O'Donnell receiving the Merit Badges were Arthur Singleton, Parks Singleton, Bill and Olin Yandell, also a number of Scouts from Tahoka, the names we failed to obtain. The presentation was made by J. P. Aylor.

The Eagle Badge award was given Arthur Singleton. The presentation being made by Acting Scout Executive Geo. Eaton of Lubbock. This is the only Eagle Badge held by any boy on the South Plains outside of Lubbock. O'Donnell is proud of this distinction and all join in extending congratulations to Arthur Singleton for this achievement.

Part of Dawson to Be Quarantine Free

WASHINGTON, May 21.—A portion of the northern half of Dawson County will be released May 25 from the areas regulated under the federal pink boll worm quarantine, according to an announcement by the Secretary of Agriculture. The amendment, effective May 25, removed restrictions on the interstate movement of cotton lint, cottonseed and certain other products from the area so released.

The boundary line of the regulated territory as now designated separates the growing areas more logically than previously, according to the Department of Agriculture, and the action taken is fully justified because of the fact that no infestation has ever been found in the portion of Dawson County referred to.

A similar regulation affecting interstate shipments was issued by the State of Texas on March 12.

Live Wires Music Class Holds Picnic

One of the jolliest picnics we have heard of this season was held by members of the music class Monday evening.

Through courtesy of friends, cars and trucks in ample numbers were secured, and the happy crowd left town just at dusk. After reaching an open section east of town, the class members and their guests unloaded the eats and spread a bountiful picnic lunch of sandwiches, fruit, cakes, pickles and all the others. After supper a number of active games were enthusiastically entered into.

Those present were Elizabeth Taylor, Kathryn Veazey, Lois Burdett, Viola Wyatt, Mary V. Shook, Alice Joy Bowlin, Hope Shook, Master Sonny Boy Bowlin, Randall Gibson, J. A. Duncan, Bill Britt, Hubert Merritt, Wray Guye, Ralph Beach, Sam Singleton, and Edward Clayton. The party was accompanied by Mesdames Jeff Shook, J. P. Bowlin, and the teacher, Mrs. Hazel Gary.

Brownfield Votes Bonds Issuing for Paving

Brownfield, our neighbor to the west, is to have paved streets according to results of an election held on Monday of this week. The issue was for \$65,000.00 and carried 215 to 99, which demonstrates the progressiveness of Brownfield folks.

The Index wishes to congratulate Brownfield upon this forward step. We also hope to be able to broadcast the news to the world at an early date that O'Donnell has voted a bond issue for paving her streets.

Joe Bailey School Closes

Joe Bailey School closed May 17, 1929, but owing to the weather the Commencement program was held Wednesday night, May 22. Those graduating from the 9th grade are: Oletha Wilson, Ina May Bowles, Pauline Copelin, Thelma Lee.

Those graduating from the Seventh are: Bernice Bowles, Theo Warren, LaVerne Godwin, Joe Brewer and J. Paul Wilson.

In Sue Gates room the following made the honor roll:

1. Mildred Copelin.
2. Dorothy Payne.
4. Lois Cottrell.
5. Eldridge Copelin.

Mr. and Mrs. H. E. Gillispie, of Levelland, were pleasant visitors in O'Donnell over the week-end, renewing old friendships and attending to business.

Convention of W. T. C. of C. to be Oct. 24-26

VERNON, May 21.—Date for the West Texas Chamber of Commerce convention in El Paso was set here Tuesday for Oct. 24, 25 and 26. The date was agreed upon at a meeting of the directors of the chamber.

A proviso was included whereby the convention will be held earlier, if an earlier date is suitable to President Hoover, who already has announced that he probably will visit Texas this Fall. The directors decided, at all events, to make the convention date and the date of President Hoover's visit to Texas coincide.

The El Paso Chamber of Commerce was represented by D. A. Barden.

Dr. Gilliam, Physician at Lamesa, is Buried

LAMESA, May 21.—Dr. H. A. Gilliam, 63, who had practiced medicine here for a number of years, died here at 11:30 a. m. Monday. His funeral was conducted at the First Christian Church here Tuesday at 2:30 p. m. with the Rev. J. S. Stockard, pastor, in charge. Burial was in the Lamesa Cemetery.

Dr. Gilliam was an old time resident here. He leaves his wife, one small son, 10. The business houses of Lamesa closed for the funeral.

Both the Dallas Semi-Weekly Farm News and O'Donnell Index one whole year for only \$2.25.

CHAMBER OF COMMERCE TO STAGE GOOD WILL TRIP

Everybody in O'Donnell is invited to join the Chamber of Commerce and business men in a good will trip to Wells on Friday night of this week. This is not a trade boosting trip. It is strictly a goodwill visit to get better acquainted with each other.

J. P. Aylor is chairman of arrangements committee, with Mrs. A. A. House, Mrs. J. F. Campbell and Mrs. Guye Bradley assistants. The committee is planning a splendid program that will be highly entertaining to all. The trip will be made in motor cars which have been asked to assemble on the town square at 6:30 P. M. All are expected to leave in a body for Wells. The arrangements committee asks that each business house or individual who have an available car that can be utilized for the trip to have it on the town square at 6:30 P. M. The arrangements committee ask that every man, woman, girl and boy who can possibly make the trip to join the party Friday evening. They promise a pleasant evening to all.

Paving of Streets Grows in Interest

During the past two weeks the editor has been so busy he neglected to mention anything in regard to the paving of the highway through town and the business section of our progressive little city in the columns of the Index and several of our citizens have asked us why the subject was dropped. Fact is, it has not been dropped. Such an important substantial public improvement could not be dropped, especially right at the time when public sentiment demands such an improvement.

Paved streets are the greatest asset to any city in these modern times. They are not only an asset but a necessity and worth all, and more than they cost. Every town without paved streets is a back number in this day of progress. O'Donnell has all other public improvements that go to make a progressive city with the exception of paved streets and it is the opinion of the Index that within another few months that progressive spirit of our citizens that has been growing so rapidly will demand paved streets in O'Donnell.

When the streets of O'Donnell are paved every man, woman, boy and girl will be prouder to call it home. It will be a much cleaner and better place to live. Such a pride would build it into a much larger city, one that the rest of the world would be envious of. So why not make the move now?

We believe the majority of the property owners are in favor of paving, and all of the "City Dads" with whom the editor has talked regarding the proposition, is in favor of paving. They realize the importance of such a public improvement.

Several estimates have been made as to cost to the city for paving the twelve blocks which only amounts to around \$37,000. Such a small sum could easily be voted without raising taxes since our water system is on a paying basis taking care of its own bond issue.

Mr. and Mrs. J. E. Mansell of Rochester visited Mr. and Mrs. C. H. Mansell and Mrs. G. L. Sutton over the past week-end. They were accompanied by Mary Tom Bragg also of Rochester.

Work on Church Creating Interest

That actual work has begun on the Methodist Church seems to be a matter of rejoicing among all the church people. Many visitors have been up to inspect the beginnings of the modern building and have expressed themselves as being much pleased. Forms are already built for the concrete foundation for the addition on the back, and before many days pass we will be able to see just how it will look.

CARD OF THANKS

I take this means of thanking many friends who were so faithful in their efforts in helping me win the first prize in the recent contest sale. My sincerest appreciation to each of you and to W. E. Guye Goods Co. also.

Miss Mamie Jordan.

Mr. and Mrs. W. E. Guye were in Lubbock Wednesday.

Keeping Chinch Bugs Out of Feed Crops

College Station—With the approach of harvest chinch bugs usually migrate from heavily infested small grain fields into adjacent corn and feed crops, and where these insects are seriously present farmers should take measures to prevent this migration. Although the chinch bug has wings, explains R. R. Reppert, entomologist of the Extension Service, it does not use them in flying but into new feeding territory. A furrow plowed in advance of their line of march is an effective barrier. By dragging a log back and forth in this furrow a fine dust is created on the sides and in the bottom and this serves as a trap where they may be regularly killed by use of a blow torch or otherwise. Some farmers plow out two furrows side by side as a double precaution.

Another good protection measure is to spread a thin line of coal tar across the line of march of the chinch bug, applying the tar from the spout of a common watering can. This may be run along a zone cleared of grass and weeds by scraping. The method may also be used effectively in combination with a double dust barrier. Two boards nailed together lengthwise and at right angles like a common hog watering trough, with a carpenter's quarter round nailed into the angle is inverted and dragged back and forth lengthwise over the ridge separating the two furrows. This reduces the sloping sides to a fine dust and at the same time forms a shallow depression at the apex of the ridge into which the coal tar is poured. By throwing the two furrows together the coal tar barrier may be used alone as well as in combination.

Mr. Reppert points out that there is no practical method for destroying chinch bugs over a wide area of growing crops after they have gained access, and that control must be effected before they enter.

CUPID PLAYS MAVOC IN OFFICE OF RETAIL MERCHANTS ASS'N. OFFICE

LAMESA—Cupid shot his arrow straight into the heart of the Office Secretary of the Retail Merchants' Office Secretary here Saturday morning when C. J. Sims of the Texas Electric Company was married to Miss Maudie Fay McSpadden, daughter of Mrs. G. D. McSpadden of this city.

The ceremony was performed by the Rev. Ross A. Smith pastor of the First Baptist Church here and only a few of the closest friends were present. The young people departed for Lubbock immediately following the ceremony and will be back in Lamesa in the next few days, where they expect to live and make their home.

Miss McSpadden has been office secretary for the local Retail Merchants Association for the past year and has lived here all her life. Mr. Sims came here from Mexico and is affiliated with the Texas Electric Service Company last September. Both Miss McSpadden and Mr. Sims are popular young people of Lamesa and have here many friends who wish for them every success in their married life.

The business world is said to be cold, but if you build the fire of advertising under it, it soon warms up.

Lamesa Boasts of Largest Graduating Class of '29

LAMESA—Boasting of the largest graduating class in Texas considering the enrollment, the Lamesa High School is this week busy with graduation. Last year it was a 76-70 graduation from both the High School and the Grammar Schools. This year this number has increased from 70 to 77 in the high school and 75 in the Grammar School. The present enrollment of the Lamesa High School is near the 300 mark while only about 1100 are enrolled in the entire system. V. Z. Rogers is the city Superintendent and F. T. Collins, Jr., is the High School Principal and G. M. Roberts is the Principal of the Grammar School. W. B. Collins is president of the local school board. S. L. Forrest is secretary of the board and the other board members are: W. M. Norris, M. Hatch, Dr. W. H. Bennett, R. V. Wilkes, C. H. Cook. Most of the teachers for the ensuing year have already been supplied according to V. Z. Rogers superintendent. The scholastic enrollment for the Lamesa schools have increased by 100 according to Lesslie Pratt census taker and book-keeper for the school board. Diplomas will be awarded Friday evening of this week.

New 18-Mile Hi-way Designated in N. M.

LAMESA—According to telegraphic information here Friday afternoon the State Highway Department of New Mexico designated the 18-miles immediately West of the Texas line in New Mexico and through Hobbs as a state highway. This completes the last gap of a highway is generally known in the Southwest as the Dal-Paso Cavern Highway. Towns along this route will contribute toward the grading of this 18-mile stretch and the work will begin immediately according to officials at Hobbs. The work on these 18 miles will be completed in time for the annual Motorcade that the Dal-Paso Cavern Highway Association operates each year—this year the latter part of July.

LOCAL CHEVROLET DEALER VISITS FACTORIES OF CO.

Mr. Rayburn of the Rayburn Chevrolet Company, our local dealer, returned Tuesday from a week's visit and inspection tour of the Chevrolet plants at Flint and Detroit, Mich. The group of dealers making this trip

left Dallas on a special train and arrived in Flint on May 10th. The first day was spent in going through the Chevrolet Motor plant, assembly plant, and gear and axle plant which are all located in Flint. The following day the entire group was taken in special busses to the Proving Grounds where Mr. Rayburn had the pleasure of riding in all makes of cars which are constantly being tested under actual driving conditions on this Proving Ground.

City of Lamesa Has Four Baseball Teams

LAMESA—The City Baseball League which consists of four teams: the Red Birds, Manager, E. U. Parchman; Yellow Jackets, manager, Paul Hufsteler; Hill Billies, manager, Sherman Hill; Wild-Cats; Manager, C. A. Hollingsworth, opened the season Wednesday of this week with a game between the Red Birds and the Yellow Jackets. The Red Birds came out on top with a score of 9 to 1. Judge E. B. Warren, Mayor of the city threw the first ball in the opening game of the season.

The American people seem to believe in popular government, provided they don't have to do anything to make it run along right.

To Be Better Looking Is Club Girls' Slogan

College Station—A peek of garden stuff and a quart of milk is the recipe for becoming beautiful given to Texas 4-H club girls by Mrs. Dora R. Barnes, clothing specialist in the Extension Service. Asked what this has to do with clothing work, Mrs. Barnes replied, "You must have a good looking clothes rack if you want clothes to look well. The slogan in club work this year is 'to be better looking' but we can't make clothes 'do their stuff' for girls with bad complexion and poor posture.

"Complexion and posture come with health, and that comes from right diet, hence the recipe. To be an all-around good looking girl she must develop physically, mentally, morally and spiritually. It may sound funny but there is the foundation for good dress, and that is one reason why home demonstration agents are getting the girls to grow garden plots; to properly can and cook the products; and to learn the essentials of healthful diet."

More than 15,000 club girls are making part or all of their own clothes this year in Texas, and hundreds of them are doing the family sewing besides. The appropriateness of dress to the wearer is em-

phasized in this work and girls are learning that simplicity of design and choice of color and line have much to do with good looking clothes. The cost of the clothes made by club girls is only nominal, for home agents everywhere stress the point that taste and workmanship count more than money. Last year the average cost of school dresses made by girl contestants in the 4-H Appropriate Dress Contest was only \$1.90 and the complete school costume only \$3.48. The more elaborate party gowns averaged \$2.85 and the entire costume \$5.31.

This year nearly 2000 girls are entered in the contest in about 100 counties. Local winners will bring their costumes to A. & M. College

this summer to enter the contest directed by Mrs. Barnes. A little hunger is much to be indulged for hogs on the market. They should be heavily before being shipped. It is difficult to get one subscribed to charity, but ways get resolutions passed giving sympathy.

Why, It Looks Just Like New!

And in a sense it is new! For our Cleaning Process actually restores life to the texture of any garment, as well as bringing back the brightness of new colors, and the beauty of fresh, clean apparel. The sample applies to curtains, drapes, and bed spreads. Just call 66 for pick-up service.

C. E. RAY

For Good Cultivating in Wide or Narrow Rows—

JOHN DEERE NF CULTIVATOR

Because it is simpler to operate; because it does a more thorough job of cultivating, this John Deere Two-Row is the popular favorite among general farmers. The John Deere NF will do good work in your cotton, corn, potato, or cabbage fields, whether you have planted with a one-row or two-row planter.

Some of the advantages that make the NF such an overwhelming favorite are:

1. The easily-operated, conveniently-located spacing lever, which enables you to instantly space gangs in or out as you drive, keeping shovels the desired distance from rows, in all the varying conditions.
2. The tilting lever, which permits changing set and suck of shovels without stopping team.
3. One master lever, which raises or lowers all rigs—no stop necessary at end of rows.

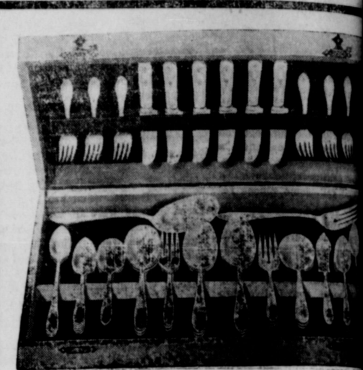

You can get the NF with three-horse or with four-horse hitch with tongue truck. Any style of rigs you require.

Come in and ask to see this famous cultivator.

WHAT'S DOING IN WEST TEXAS

DE LEON shipped a car of Shorthorn junior and senior to Lake Charles, La., is a lion of what that territory is straining on. J. Doss Miller, and C. M. Caraway shipped the consisting of 29 bull calves of Gray. The animals were all registered stock and represent considerable value.

MLIN has completed plans for a town, and then goes into road, and collection will start the arrival of a sufficient number cream cans and will be under direction of T. A. Carter. The ers will receive a premium of cents per pound above market for sweet cream.

NYON has started a campaign of \$50,000 for the erection of a unit of a museum building to house the relics of the Panhandle Historical Society.

CROSBY COUNTY'S chamber of commerce has made plans to establish higher grade of cattle in the with the purchase of 26 high registered animals to be shipped to Michigan, Ohio, and Indiana.

LESHOE continues to ship car of maize, kaffir and corn to the markets every day. The id for these feeds is good because of the high quality. Much of seed for planting.

ONA, in following up the work after Home Week, has inaugurated a Better Home contest for Friday vicinity during the coming week to end August 15. Prizes awarded for the three best homes. Two classes of homes are considered, those in the city and those within a six-mile radius.

PARK will sponsor a Community Work Day on June 4, at the grounds in order to get the grounds ready for the proposed erection of a grand stand for general labor and the use of tractors, and other equipment will be used so that the work may be completed in one day.

SIBTON is experiencing a residential building boom. One recently sold by B. W. Elliere is to be built six brick homes by its new owner G. H. Johnson has already built homes in Crosbyton.

LLS, in being chosen the place for the 1930 South Plains Convention of the West Texas Chamber of Commerce, brings the Crosby County for the scene, as it was held in Crosbyton. Ralls had an enormous deluge at the recent convention at

PAMPA'S Chamber of Commerce recently conducted a poultry and dairy school at which 50 students from the vocational agricultural class of the high school, and about the same number of farmers from the territory were present. The school was in charge of Prof. K. M. Renner, and Prof. R. C. Mowery of Texas Tech.

SEYMOUR will entertain the delegates from the Lower Panhandle district of the West Texas Chamber of Commerce in convention on May 16. A fish fry and golf at the Seymour Chamber of Commerce park at Lake Kemp under the auspices of the Lions Club and a hand contest with \$160.00 in prizes will be features of the convention.

OLNEY'S proposed street lighting system is about to become a reality. The present plans provide 40 standard lights, and 60 bracket lights to be placed where standards are not appropriate. This system is subject to change and the exact number of each to be installed will be determined by a committee appointed by the council.

BORGER'S Little Symphony orchestra held its first meeting and formed a tentative group recently. This will be enlarged and officers named at a later meeting. Hims Hilma Hart is organizing the group.

NEW BOOK "THE COOPERATIVE PATTERN IN COTTON"

Austin, Texas, May 17.—Although it was written primarily for farmers and relates to the problem of low and unstable prices of cotton, "The Cooperative Pattern in Cotton," written by Dr. R. H. Montgomery, associate professor of economics at the University of Texas, has received very favorable comment from educators and cooperative leaders in other agricultural fields. Dr. Montgomery has received letters from practically every state in the United States regarding his book, although it was published only in April. It has been reviewed in the leading newspapers and periodicals of the country, and reviewers are of the opinion that it will be accepted as an authority in cooperative movements in cotton. It is the first book published on this subject, and the publishers report an advance distribution of several hundred copies among cooperative journals and leaders in the field of organized methods of marketing.

APPLICATIONS FOR DEGREES IN UNIVERSITY TOTAL 114

Austin, Texas, May 17.—Applications for the degrees offered in the Graduate School of the University of Texas total 114, according to Dean H. W. Harper. These include 75 applications for the master of arts degree, two for master of science, eight for the master of business administration, one for master of education, seven for master of science in chemical engineering, four for master of science in civil engineering, two for master of science in electrical engineering, one for master of science in mechanical engineering and fourteen for doctor of philosophy. These degrees will be conferred on June 3 at the forty-sixth regular commencement of the University, provided the candidates satisfactory complete all degree requirements.

HIGGINBOTHAM-BARTLETT COMPANY
"EVERYTHING TO BUILD ANYTHING"
E. T. WELLS, Mgr.
O'Donnell, Texas

Nearly 3,000,000 acres of Texas land have been terraced in the interest of soil conservation and Farm and Ranch is getting under way a summer terracing campaign for stubble land.

Since January 1 over 32,000 carloads of fruits and vegetables have been shipped from South and Southwest Texas and the entire State is expected to ship 60,000 carloads before December 1. The average output is about \$1,000 a car, representing an income of \$60,000,000 from this one source.

The Texas pecan crop in 1928 was of estimated value of \$2,040,000 for the 450 car loads shipped. The crop is variable, according to weather and other conditions, and within the past

ten years has ranged as low as 25 cars, valued at \$200,000 (in 1922). The largest production in that period was in 1919 with 500 cars valued at \$1,850,000.

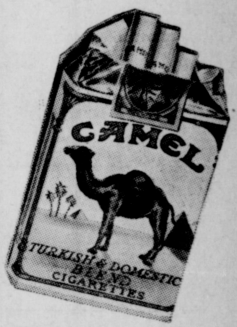

Words of praise for our home city are a fine thing, but money spent in our home stores talks even more eloquently.

A \$15,000 poultry dressing and cold storage plant is to be built at Yoakum by outside capital. Half of the \$200,000 milk plant at Tyler is furnished by outside capital. Texas enterprises are growing increasingly attractive to financiers because of the opportunities for stable and satisfactory returns from the investments in Texas.

Advertising

**Is a reference book that is never
Out of Date**

There's a way of insuring your buying against wasted money and unsatisfactory merchandise. And that insurance costs you not a penny. It is always paid up to date and in full force. That insurance is the advertising here in your newspaper. Advertised products are standardized, perfected and carefully priced before they are ever advertised.

Whether you are buying soap, clothing, tooth-paste, food or electrical household appliances, the result is the same. You get reliable, economical merchandise whenever you buy by the advertisements.

Make up your shopping list in the comfort and quiet of your own home. Compare the merits of the products advertised. Study the way in which each is adapted to your needs.

You'll find advertising truthful, informing and interesting. That's the only sort that pays, you know.

EVERY DOLLAR YOU SPEND ON ADVERTISED MERCHANDISE IS INSURED AGAINST WASTE

JUST SITTING HERE

Richard H. McCarty, Albany

Just sitting here on the brink of a new spring—It's spring time and old Texas—the sky is blue the air is pure, and all Nature is in her jacket of green—O spring time, and here we sit our long fishing pole, lead sinker, bottle cork, a big fat red worm hook—This new fangled fish tackle don't appeal to us, real old, and an artificial minnow or fly—No the red worm is our bait, turn over a long down of the barn, dig 'em up and hike the old time fishing hole—But O just to be a boy again—The old flaming youth—This being vacation period, and so, we are here, taking our rest, don't return whether the fish bite or the green grass is about ankle the wild flowers are in bloom the elm buds are just bursting, the boys are laughing and God's red orchestra is staging a grand mule eared rabbits and little cotton tails are scampering the grassy dells—And so here in the midst of all this beautiful why should we worry about a fangled fish biting—Ain't hunting—No, we like to get away from the trable and the jam on Main where they drive hard barrel and shear the lambs, and take the in the wild woods, talk to the ants and the birds, the lungs inflated with the fragrance—That's what we call living here we sit away from the mob, the music of the legs draw the squeak of the entry Campbell, can't hear the the compositor at the case, the hearing of the planing of the forms, and the rumpus well box is silent, and doggone life in a song—So here we sit bottle cork is bobbing up and cat fish is nibbling at the the air's no sport, won't put on the barrel head and bet

on four acres—Get out of the way catfish, here comes a game fish—And he said that I'd rather be a game fish and get caught, than a big belled cat fish and wallow around in the mud and never have the pleasure of taking the kink out of a fishing cord—Yes, here we sit—Out in the big open space, lots of elbow room—Fish a biting, flowers budding—Blue Birds building nests—Dog woods in bloom, corn planting time—Just sitting here.

Since it has rained in sufficient quantity over the entire O'Donnell territory to practically insure a bountiful harvest this fall, faces have boarded and that gloomy look has faded into a cheerful smile. Optimism has again driven out the pessimist and O'Donnell and territory seems like the garden spot of this old U. S. A. The rain-master may seem a little neglectful of his duty at times by those who are prone to look on the dark side of things, but we find him to be a generous old man—always turning on the "sky-juice" when necessity demand it.

The rains of the past week over the entire O'Donnell track territory furnished sufficient moisture for the planting and before the end of this week thousands of acres of cotton and feed will be in the ground.

Both the Dallas Semi-Weekly Farm News and O'Donnell Index one whole year for only \$2.25.

TO BE A FARMER

Possibly because in the early days so large a percentage of our population engaged in farming the idea has persisted that anybody can be a farmer, regardless of ability or training.

The truth is that today it requires knowledge and good judgment to be a successful farmer, just as it does to be a successful manufacturer.

The farmer is, in a way, a manufacturer. He takes the soil and seed as his raw material and thru labor converts them into products which must be sold on the market, just as a manufacturer's product must be sold.

His task is even more difficult than that of the manufacturer, because he must plan farther ahead and is unable to foresee what market conditions will be when his crop must be sold. To avoid loss he must make his plans with a reasonable margin of safety.

Like the manufacturer, he must produce those commodities which may be expected to bring a price which will show a profit over cost of production. If he can not do this he had better produce nothing. In other words, he should change his vocation.

To be successful, the farmer, like the manufacturer, must read and think and plan. The farmer who will not do those things is doomed to failure. He is misfit on the farm and should get a job where he will have some one to do the reading and thinking and planning for him.

COMRADES

The Young People's Class of the Methodist Sunday School were entertained by Rebekah Scholier at the beautiful home of her grandmother, Mrs. R. L. Scholier.

The weather was threatening rain and cold nevertheless the party was a success.

After many new and lively games were played delicious refreshments consisting of cherry-nut ice cream and Angel food squares were served to the following: Vivian Pierce, Sue and Mary Joe Gates, June Gary, Alta Rogers, Era and Eva Harris, Rebekah Scholier, William Cook, Harvey Lines, Fay and Gordon, Ellegitter, Oth Harris, Miss Willie Scholier, Mr. and Mrs. J. L. Scholier, and Mrs. R. L. Scholier.

A. M. Daily of the Tredway community was in the city Saturday attending to business and reported a splendid rain had fallen in his territory, amounting to approximately three inches. Mr. Daily stated some feed was already up and just as soon as the ground was dry enough to plant hundreds of acres of both cotton and feed would be planted. He also says that the gin near the Tredway store is going to be repaired and put in first class shape in ample time to care for this year's cotton crop. Mr. Daily believes that a good general store at Tredway would be a paying proposition.

SEAGRAVE BANKER IS FOUND DEAD AT RANCH

SEAGRAVE, May 21.—Andy Williams, 50, well known South Plains rancher and banker of Seagraves, died alone at his ranch southeast of here, Monday after several days' illness following an attack of acute indigestion.

The body was found by a cowboy visitor. He is survived by his widow a daughter, Olga, and three sons, Carlton, Andy Jr., and Monty Williams, all of Seagraves. Funeral services will be held here Wednesday.

TOWN MAY HAVE TO MOVE WHEN LEASES EXPIRE

Austin, Texas.—An entire town built upon leased land must move on July 1, 1930, unless a new lease is arranged. The town is Best, Reagan county, a community of 1,500 population. Stores, churches, and homes have been built on land upon which the lease expires in little more than a year.

Best sprang up five years ago as a result of discovery of oil in the vicinity. Both the oil and Best are on part of the land with which Texas endowed its state university.

The university leased the townsite to P. L. Childress of Ozona, receiving a cash payment of \$1,152 and 20 per cent of the net proceeds of subleases.

Four other prospective towns are to spring up on townsite leases made by the university in Ward county, if

oil development takes place there, as in Reagan county.

The university received \$1,600 cash payment for each of these 640-acre leases and will also get 20 per cent of net proceeds of subleases if the town is built.

Mrs. N. E. McClung of Mineral Wells is visiting her son, Mr. and Mrs. J. E. McClung of the McClung Hotel. She accompanied J. E. home who returned last week from a weeks visit with her.

Miss Bessie Mae Tate is spending the week here with friends.

Both the Dallas Semi-Weekly Farm News and O'Donnell Index one whole year for only \$2.25.

The Paris Chamber of Commerce and the three banks of Paris financed the purchase of the Riley Green herd of Jerseys, to be sold to Lamar County farmers on easy terms, for the development of the dairy industry there.

Yesterday.

The small isolated power plant was fairly capable of serving the simple needs for electric service. The use of electricity was few. It had not then assumed the importance in a life which it now holds.

To day

the isolated power plant is not capable of meeting the modern demand for electric service. Great generating stations produce electric power which is transmitted over high tension power lines for many miles, thus making possible metropolitan electric service in the smallest towns.

the PURPOSE of the

Texas Electric Service Company as a Texas Institution

While Texas produces almost 50% of the Pecans grown in the United States, you will find Pecans from many other sections on sale in Texas stores which do not feature Texas pecans. It is possible to produce much new wealth in Texas by proper marketing of Pecans.

The Texas Electric Service Company was established several years ago for the purpose of rendering electric service to Texas cities and towns.

It was evident, even then, that isolated power plants would not be able to supply the rapidly multiplying needs of Texas people for electric service.

After long study and experiment the engineers of the Texas Electric Service Company, together with other leading electrical engineers throughout the world, found that electric energy could be transmitted over high tension power lines for great distances from large generating stations, thus making possible a metropolitan type of electric service for smaller communities.

From that day until this it has been the purpose of this Company to render an electric service adequate to the needs of Texas people in order that any user in any community served

could at any time of the day or night, press an electric button and receive instant, dependable electric service at a reasonable cost.

Revolutionary changes have been made in the methods of generating and distributing electric power. Changes are rapid, so rapid, even now, that equipment which is the last word today will be obsolete tomorrow. Electric service has become so inseparably a part of our daily life that it would be impossible for us to move through a day without its aid. The tremendous burden of responsibility which is thus thrown upon the Texas Electric Service Company is borne with true American efficiency.

Through all the changes within its own industry, through poor years and good, through prosperity and depression, into this present era of stabilized and sound development, the Texas Electric Service Company has held unwaveringly to its great purpose. As a result those Texas cities and towns served by this Company have unrivalled electric service.

The Silent Partner of Progress

TEXAS ELECTRIC SERVICE COMPANY

Business Conditions In Texas are Good

Austin, Texas, May 17.—Business conditions in Texas over the past year have been generally satisfactory. If the small number of commercial failures may be taken as an indication of the business situation, according to Bernard Nichols, assistant in charge of index numbers in the Bureau of Business Research at the University of Texas.

"Not only have failures been unusually few so far this year but liabilities also have been running very small," Mr. Nichols said. "During April, only 37 bankrupt companies, having liabilities of \$414,000, were reported in Texas, or the fewest in April since the deflation period of 1920. This compares with 52 bankruptcies with liabilities of \$740,000 in March and 46 failures, having liabilities of \$974,000, in April, 1928. The decline in the number of defaults from March to April this year is greater than can be accounted for by the usual seasonal factors."

GEORGE WASHINGTON'S HOME NOW LIGHTED BY ELECTRICITY

On the theory that George Washington, were he alive, the custodians of Mount Vernon have replaced candles with electric lights on the Virginia estate of the "Father of His Country."

The new facilities do not mar the ancient beauty of the place, however. All buildings except the mansion are supplied with electricity through underground conduits. The Mount Vernon Ladies' Association has entered into a contract with a local company to supply electrical energy. The old kitchen building is equipped with an electric range and a refrigerating plant. Woodlawn, adjoining Mount Vernon, home of Nellie Custis Lewis, formerly occupied by the late United States Senator Oscar W. Underwood of Alabama, is also equipped with electricity, as are old Christ Church in Alexandria, where Washington was a vestryman, and the Fairfax mansion, Mount Eagle, near Alexandria.

BUREAU OF ENGINEERING RESEARCH EXPECTS BIG YEAR

Austin, Texas, May 17.—Tests were made of more than 3,500 individual samples of construction materials and equipment in the Bureau of Engineering Research at the University of Texas between January 1 and May 1 of this year, according to Stanley P. Finch, director. In so far as volume of work is concerned, the Bureau is experiencing the greatest year of its history. Mr. Finch said.

Objects of the Bureau are to aid members of the faculty of the College of Engineering to conduct research, to co-operate with engineers, architects, contractors and manufacturers throughout the State in the solution of technical problems arising in their work and to stimulate and develop the spirit of engineering research in the minds of engineering students. By legislative action, the Bureau is available as one of the testing laboratories of the State Highway Department and it makes thousands of tests of road materials for that department each year.

Lamesa Auto Dealers Organize Last Friday

LAMESA—Lamesa Auto Dealers organized here Friday evening of this week. W. P. Avertier of the Lamesa Motor Co., was elected president, S. R. Simpson of the Chrysler Motor Co., was selected as Vice-President and F. Kutch of the Hudson and Essex Motor Co., was elected as Secretary-Treasurer. According to statement of the dealers here the purpose of the organization is closer co-operation and fellowship between the dealers of the city. This organization plans to sponsor a mammoth Automobile Show this fall in conjunction with the Dawson County Fair it is suggested. In the meeting Friday night seven dealers were represented however, some dozens or fifteen were present in the meeting. The meeting was held in the Chamber of Commerce Office.

ORDER AND NOTICE OF ELECTION

STATE OF TEXAS, COUNTY OF LYNN, CITY OF O'DONNELL:

On this 6th day of May, A. D. 1929, the City Council of O'Donnell Texas, was convened in special session at its regular meeting place in the City Hall of the City of O'Donnell, Texas, with all of its members present, to-wit: E. M. Wilder, Mayor, R. C. Carroll, W. E. Singleton, G. A. Haney, C. L. Davis, and J. H. Hardberger, Aldermen, and W. A. Tredway, Secretary.

WHEREAS, application having been made by certain citizens of said City to the City Council, requesting

the passage of a law prohibiting the keeping of hogs within the corporate limits of said City of O'Donnell, for the reason that the keeping of same constitute a menace to public health. WHEREUPON, it was moved by Alderman, G. A. Haney, and seconded by Alderman R. C. Carroll, that an election be called upon said question, and that there be submitted to the qualified voters of said City of O'Donnell, the following proposition: "Shall the City Council by Ordinance prohibit the keeping of hogs, hereafter, within the corporate limits of the City of O'Donnell, Texas."

Such election to be held at the City Hall building of said City on the 11th day of June, A. D. 1929. The motion was unanimously carried by the following vote: AYES, G. A. Haney, J. H. Hardberger, C. L. Davis, R. C. Carroll and W. E. Singleton. NOES, None.

THEREFORE, be it ordered by the City Council of the City of O'Donnell, Texas, that an election be called in the City of O'Donnell, Texas, to be held on the 11th day of June, A. D. 1929, same being the second Tuesday in said month, at which election the following proposition shall be submitted to the resident, qualified voters of said city, for their action thereupon:

Proposition
"SHALL THE CITY COUNCIL OF THE CITY OF O'DONNELL, TEXAS, PROHIBIT BY ORDINANCE THE KEEPING OF HOGS HEREAFTER WITHIN THE CORPORATE LIMITS OF THE CITY OF O'DONNELL, TEXAS."

Said election shall be held in the City Hall Building in said City of O'Donnell and the following named persons are hereby appointed as Judges and Clerks respectively of said election: J. M. CHRISTOPHER, Presiding Judge; C. H. Mansell, Judge; J. D. Fairley and J. Y. Everett, Clerks.

All persons, not otherwise disqualified by law, who shall have attained the age of twenty one years, and who are entitled to vote for members of the legislature, and who shall have resided within the corporate limits of the City of O'Donnell, Texas, for six months next preceding the date of said election shall be entitled to vote at said election.

All voters who favor the proposition shall have written or printed on their ballots the words, "FOR THE PROHIBITING BY ORDINANCE OF THE KEEPING OF HOGS, HEREAFTER, WITHIN THE CORPORATE LIMITS OF THE CITY OF O'DONNELL, TEXAS."

All voters who are opposed to the proposition shall have written or printed on their ballots, the words, "AGAINST THE PROHIBITING BY ORDINANCE OF THE KEEPING OF HOGS, HEREAFTER, WITHIN THE CORPORATE LIMITS OF THE CITY OF O'DONNELL, TEXAS."

A copy of this order signed by the Mayor and attested by the City Secretary of the City of O'Donnell, Tex.

Here's where a car leads a tough life

NO General Motors car is turned out of the factory until a fleet of exact duplicates of that model has been found good by the engineers at General Motors' Proving Ground. Such an advance model must prove itself from stem to stern. The tests involve speed, power, endurance, braking, riding comfort, handling ease; fuel, oil, and tire economy; body strength—every phase of car construction and performance. It's a tough life. Such testing would be beyond the means or resources of an individual. 1268 acres of land at Milford, Michigan, are devoted to this outdoor laboratory where hills are steep and roads are vicious. Men who are among the world's best automotive engineers conduct the tests. This tested performance is as much a part of a General Motors car as the chassis. You can't see it. You don't pay extra for it. But you know it as you give the car long use on the road.

GENERAL MOTORS

"A car for every purse and purpose"

- CHEVROLET, 7 models, \$525—\$745. A six in the price range of the four. Smooth, powerful 6-cylinder valve-in-head engine. Beautiful new Fisher Bodies. Also Light delivery chassis. Sedan delivery model, 1 1/2 ton chassis and 2 1/2 ton chassis with cab, both with four speeds forward.
- PONTIAC, 7 models, \$745—\$895. Now offers "big six" motorizing luxury at low cost. Larger Lehigh engine; larger Bodies by Fisher. New attractive colors and splash line.
- OLDSMOBILE, 5 models, \$675—\$805. The Fish Car at Low Price. New models offer further refinements, mechanically and in the Fisher Bodies—yet at reduced prices. Also new special De-Luxe models.
- OAKLAND, 8 models, \$1145—\$1375. New Oakland All American. Six. Distinctively original appearance. Splendid performance. Luxurious appointments. Attractive colors. Bodies by Fisher.
- BUICK, 5 models, \$1595. General Motors' new "light" at medium price. 90-degree V-type engine. Striking bodies by Fisher. Unusual appointments. Three years spent in its development and test.
- BUICK, 19 models, \$1195—\$2145. The Silver Anniversary Buick. Three wheel-bases from 115 to 128 inches. Masterpiece bodies by Fisher. More powerful, vibrationless motor. Comfort and luxury in every mile.
- LASALLE, 14 models, \$1295—\$2175. Companion car to Cadillac. Continental lines. Distinctive appearance. 90-degree V-type 8-cylinder engine. Striking color combinations in beautiful bodies by Fisher.
- CADILLAC, 15 models, \$1395—\$3000. The Standard of the world. Famous efficient 8-cylinder 90-degree V-type engine. Luxurious bodies by Fisher and Fleetwood. Extensive range of color and upholstery combinations. (All Prices C. & F. Factory)
- ALSO FRIGIDAIRE Automatic Refrigerator. New silent models with cold-control device. Torsion cabinets. Price and model range to suit every family.
- DELCO-LIGHT Electric Plants — D. Watt Systems. Provide all electrical conveniences and labor-saving devices for the farm.

Minuet Militaire—Faye Tomlinson. Over the Hill to the Poor House—Mary V. Shook. Love Dreams—Lynette Smith. That's What Put the Sweet in Home Sweet Home—Chorus.

Intermediate B. Y. P. U. Enjoys a Picnic

On Tuesday evening of this week the members of the Intermediate B. Y. P. U. spent a delightful few hours in the country on a moonlight picnic. The pleasure-seekers met at the Baptist church, each loaded with interesting looking sacks and parcels which sent out various tantalizing odors. Plenty of cars had been secured to convey the crowd to the selected place and they were soon in the midst of the fun. While the "old folks" popped corn the youngsters played games until all had developed a voracious—and voriferous—appetite, and then lunch was spread, a typical picnic lunch of sandwiches, marshmallows, cakes and fruit. Those who enjoyed this pleasant occasion were Mesdames E. Sutton, Merritt, and B. D. Ballew, Misses Verda Ballew, Odessa Buchanan, Maudine Crawford, Evelyn Lawler, Edwynna Vermillion, Lois Nelson, Marie Sutton, Marydelle Vermillion, Gwendolyn Lawler, Messrs. Truett Hobdy, Douglas Ballew, Arthur Singleton, Jimmie Merritt, Parks Singleton, and Curtis McMillan.

SILICON DEPOSIT AT TAHOKA IS SURVEYED

TAHOKA, May 21.—Much interest is being manifested here and silicon producers of the United States, over the silicon deposit recently found in this county. It is six miles south of Tahoka. Recent survey made by T. C. Thomas, a producer of Fowler, Kan., shows it to be of a fine quality and of considerable quantity. Thomas spent most of last week here making a survey and attempting to learn the extent of the deposit, but owing to the heavy rains and lack of proper tools went back to Kansas to get more equipment for a further survey. Edna—Using the slogan "Give your farm a Neck Shave," a campaign for cleaning up farms, painting buildings and draining fields has been inaugurated by county agent W. H. Young. Farmers are removing old fences, cleaning out weed and grass patches at ends of rows, shaving down the ends of fields with graders to give a free outlet of water into road ditches, and installing individual drainage systems. Farms are to be secured "A or B" according to the progress made in the contest, which is in cooperation with local merchants, bankers and newspaper

CEREMONY TAKES PLACE AFTER 300-YEAR WAIT

Washington—A ceremony has just taken place in the city of Mantua, Italy, which was planned for the year

NOTICE

I am again located at the Corner Drug Store prepared to do all kinds of watch repairing. Office hours are from 10 a. m. to 4 p. m. I will appreciate any work entrusted to me and guarantee satisfaction. John R. Burkett.

Notice TO NEWSPAPER MEN WHO READ THE INDEX

ARE YOU BOTHERED WITH STATIC ELECTRICITY? I HAVE A DEVICE THAT WILL TAKE FROM 95 TO 100 PER CENT OF THE STATIC OUT OF YOUR PAPER PRESS. ON PRESS DAY YOU WON'T HAVE TO WAIT TILL THE ELECTRICITY IS OUT OF YOUR PAPER BEFORE YOU CAN MAKE THE SECOND RUN. ALSO YOU CAN TAKE THE PAPER RIGHT OFF THE PRESS TO THE FOLDER IN ANY KIND OF WEATHER CONDITION AND YOU WILL NOT BE BOTHERED WITH STATIC. IF I CAN'T TAKE IT OUT IT WON'T COST YOU A RED CENT. I AM A PRINTER AND KNOW WHAT STATIC WILL DO ON PRESS DAY. IF INTERESTED I WILL GIVE YOU A FREE DEMONSTRATION IN THE NEAR FUTURE. S. T. PRICE, The O'Donnell Index, O'Donnell, Tex.

1640. At that time, under the city's ruler, Dutchess Maria, arrangements were made to put a golden crown studded with jewels on the head of a statue of the Blessed Virgin, under whose protection Mantua had officially been placed, says the Pathfinder Magazine. But because of disturbed times the ceremony did not take place. A second attempt was made a couple of centuries later and everything was ready when Napoleon's army overran the town and his soldiers carried off the crown. Finally another subscription was taken up for the crown, and it has at last been placed on the head of the statue, which waited nearly 300 years.

TIRES VUNCANIZED at Foster's. G. A. Haney is having sidewalks and curbing built around his home in the east part of town, which adds greatly to the attractiveness of the place. If others will follow Mr. Haney's example O'Donnell will be made more beautiful. Congratulations Mr. Haney.

TIRES VUNCANIZED at Foster's. WILL HAVE plenty of Sweet Potato slips, Chili and Sweet Pepper and Tomato plants about the first of June. See me for your plants, J. W. Nichols, Box 87, O'Donnell, Texas. 35-4tp
