O'DONNELL, LYNN COUNTY, TEXAS, FRIDAY, FEBRUARY 22, 1929

NUMBER 22

## Hatchery Off First Hatch

### Valentine Motif Stressed at Party

A cozy and informal group spent Valentine afternoon at bridge tables when Mrs. J. W. Campbell entertained a few friends at the home of her mother, Mrs. W. H. Veazey. True to the traditions of the day, score pads were great red hearts and tally cards were decorated with hearts and cupid. After several pleasant games had been played tall pink tapers were lighted at each table and hot coffee, cherry pie with whipped cream were served to Mesdames Mack Garner, Irvin Street, D. A. Edwards, Harvey Jordan, George Shumake, Jr., J. W. Roberts, M. J. Whitsett, Ferrel Farrington and M. C. Tull.

### J. Y. Everett Asks To Be Re-Elected As City Marshal

J. Y. Everett who has been serving as Marshal and Tax Collector of the City of O'Donnell the past two years, authorizes us to place his candidacy before the public for re-election to the same office in the City election of April 2nd. Mr. Everett needs no introduction to the public as he is a pioneer in this section, besides having served the people of O'Donnell as Marshal and Tax Collector the past two years which has placed him in close touch with practically every voter in the city. He is willing to base his claims for re-election upon the merits of his past record as a peace officer and ask that you give his candidacy due consideration when you go to the polls to cast your vote on April 2nd.

### Church of Christ Being Renovated And Decorated

The Church of Christ is being transformed this week into a veritable fairland, with wall paper as the transforming medium. Perhaps it may better be described as a flower garden, for from the cloudy, studded ceiling to the lovely green wainscoting, it resembles an outdoor scene. Mr. Clements is a master at such work, and this bids fair to be an example of his best work. We congratulate members of this church on their progressive spirit.

### PRESBYTERIAN CHURCH

Sunday School—10:00 a. m.  
Let's all be there.  
The Morning Preaching Services will be at 11 a. m. We cordially invite the public to attend this service. Come in the Spirit of the Lord.  
Dr. Arnfield will have for his message: "The Altruism of Life."  
Sunday Night will be your last chance to hear Dr. Arnfield, as he has accepted a "Call" to serve a church in Central Oklahoma.

If you have not heard him, we especially invite you to take advantage of this opportunity, he is going to speak to you on the subject "I Will Arise." Come and bring a neighbor with you.

### PARENT-TEACHERS' ASSOCIATION TO HAVE BANQUET AND SOCIAL WEDNESDAY

There will be no regular meeting of the Parent-Teachers' Association next Wednesday, but on Friday evening this organization will sponsor a banquet and social. Plates may be reserved by phoning or seeing Mesdames W. E. Vermillion, J. P. Bowlin or E. T. Wells. This will be one of the most enjoyable events of the school year and all patrons of the school will feel amply repaid by an evening's fun. Watch for announcement as to place and hour.

Mrs. Daisy Cebor, who has been visiting her sisters, Mesdames J. W. Shaw and Irvin Street, will leave for Abilene.

## The Corner Stone of Our Government

### W. M. S. Enjoys Social at Home of Mrs. Belle Knight

Members of the Women's Missionary Society enjoyed an unusually pleasant social hour Monday afternoon at the home of Mrs. Belle Knight. After several interesting talks on phases of the work, the hostess served delicious pimento cheese sandwiches, hot chocolate, jelly with whipped cream and Angel food cake to the guests.

### Hardberger Sells Gin To Allen & Robinson

Messrs E. R. Allen of Lubbock and E. E. Robinson of Woodrow, became the owners of the J. H. Hardberger gin in a deal closed Friday of last week. Consideration was not made known. Both the above gentlemen are gin men with many years experience and we welcome them to O'Donnell.

Mr. Robinson will have active charge of the gin plant in the future, we understand.  
Fred Crosland of Plainview was here the past week-end visiting his sister, Mrs. H. G. Gant.

### NEW MOORE HEADACHE

The farmers are all anxious to finish gathering this crop of cotton for it is nearing the time to start another crop.

The wedding bells has begun to ring once more at New Moore. Perhaps all the girls want be left old maids. Miss Bessie Young and Mr. Paul Agnes were united in marriage last Saturday night.

Mr. Lehmanns father and mother, from Arizona has been visiting him the past week.

We are sorry to report Miss Refa Nell Lehman on the sick list this week.  
Mrs. Claud Montandon formerly of O'Donnell has been visiting friends and relatives at New Moore. Every one gladly welcomed her back.

Rev. J. H. Taylor filled his regular appointment last Saturday night and Sunday.  
Our Sunday School and Singing has been on the stand still for the past month on the account of no seats. But we have our house well seated now and expect interest to pick up.

We sure miss Miss Dorothy Shaw who is visiting her sister in Waco. We will be glad to see her come home.

Reporter.

Mr. and Mrs. T. J. Mansell and family left the past week-end for Roby where they will make their future home. Mr. Mansell has assumed management of a hardware store recently purchased by Mansell Bros. Hardware Co.

### Home Economics Class Entertains At Breakfast

A delicious and daintily appointed breakfast was served at 10:00 o'clock Wednesday morning by members of the first-year cooking class when they had as their guests Mrs. J. W. Campbell, Miss Irma D. Palmer, Messrs. Russel Dennison and Earl Grider. A charming breakfast room was created by using screens as partitions. The table was spread with a hand made and embroidered linen cloth. Crimson roses in a green bowl made the centerpiece. Bananas delicately browned in butter and decorated with cherries, cereal, scrambled eggs and bacon on toast, and hot chocolate composed the menu which was prepared and served by members of the class and if you think they can't cook, just angle for an invitation and see, or taste, for yourself.

Too much emphasis cannot be placed on this phase of education, nor can too much credit be given to our efficient director, Miss Winkler. Students and a teacher who are so enthusiastic deserve the best of equipment and our heartiest co-operation. The members of this class are June Middleton, Merle Russell, French Heathington, Lowell Lester, Jane Gary, Lavinia Fairley, Jeanette Thomas, Eva Tune, Alta Lee Payne, Louise Duncan, Della Belle Williams, Juanita Hester, Una Marrow, Audys Ratliff, Ozelle Wheeler, Thyra Painter, Vivian Pearce and Audrey Stokes.

### CIRCLE NO. 2 W. M. S. TO HOLD BAKE SALE

A bake sale will be held Saturday, February 23, by Circle No. 2, of the Women's Missionary Society. Wares will be displayed at the M-System Store. Everybody knows the quality of their cakes and pies, so nothing need be said. If you wish to place a special order, phone Mrs. H. E. Gillispie at 136.

Bill Joe Hubbard is the most popular boy in town. If you don't believe it, just go down and listen to the little girls quarrel about who is his sweetheart.

A part of his popularity, a very small part of course, may be due to the fact that his father gave him the little Shaw Speedster as a gift on his eighth birthday, which is on February 22. Since February 21 was the sixth wedding anniversary of Mr. and Mrs. Roy Gibson, February 22 the ninth anniversary of Mr. and Mrs. C. B. Hubbard as well as Bill Joe's eighth birthday, the two families are celebrating with six o'clock dinner Friday evening. A full account will be published next week.

Mrs. Harry Stacey of the C. C. Dry Goods Co., is in Dallas this week where she is purchasing new spring merchandise for the store.

### Let's Beautify And Modernize O'Donnell

This is the time of year to plant a few trees or a little shrubbery around the old home. There is nothing that will add more to its beauty. At a small cost with but little effort on the part of each individual home owner, a few trees and a little shrubbery could be put out now, that will be worth hundreds of dollars in a few years.

Little attention has been given to tree planting in O'Donnell in the past which is a sad mistake that should be corrected now. Civic pride is a thing that should be talked by every lover of O'Donnell. It costs but little and is worth so much.

O'Donnell only needs to plant more trees, build a string of sidewalks and lay a few blocks of paving to make it as modern and beautiful as any town on the South Plains. We have natural gas for commercial and industrial purposes, 24-hour electric service for light and power, a complete sewer system and one of the best water systems to be had—the foundation of a real city.

A good program for the coming year would be: Plant some trees, build sidewalks and lay some paving. Now is the time to start.

### DR. A. E. ARNFIELD HAS ACCEPTED CALL TO OKLA.

Dr. A. E. Arnfield who has been serving as pastor of the local Presbyterian church for the past several months, has accepted a call to serve a church in Central Oklahoma.

Dr. Arnfield will preach his farewell sermon at the local Presbyterian church on Sunday night. His subject will be "I Will Arise," and all who have not heard Dr. Arnfield should avail themselves of this opportunity. He is a strong preacher and one of the most practical the writer has ever heard. He has been dividing time between Lamesa and O'Donnell and is accepting the call of the Oklahoma church both O'Donnell and Lamesa sustain a great loss.

### VOCATIONAL AGRICULTURE CLASS DOING EXTENSIVE FIELD WORK, PAST WEEKS

Many of our citizens have been reaping the benefits of the Vocational Agriculture department this week, since the boys have been busy at practical laboratory work.

The students, accompanied by Mr. Martin, capable director of this department, have pruned several orchards, as well as culled several flocks of chickens.

This is one of the most practical and necessary courses offered by our High School, and under Mr. Martin's wise leadership is fast becoming one of the most popular.

George A. Wallace of Amarillo was a visitor the past week-end in the home of Mr. and Mrs. J. J. Hodnett.

### B. L. Parker Asks to be Elected City Marshal

B. L. Parker, present constable and nightwatchman, authorizes us to place his name in our announcement column this week as a candidate for the office of City Marshal and Tax Collector of O'Donnell, subject to election on April 2nd.

Mr. Parker needs no introduction to the people of O'Donnell, as he has served as a peace officer here for the past five years, acting in the capacity of constable of this precinct and nightwatchman of O'Donnell. His record as a peace officer during the past five years has placed him high in the esteem of his fellowtownsmen. His dealings with the public has always been fair and impartial and merits the serious consideration of the voters in the April election.

Mr. Parker states that he wishes the people of O'Donnell to clearly understand that he is not dissatisfied with his present office, but believes that five years in the same public office is long enough for anyone to serve, and is making the race for Marshal and Tax Collector, with the belief that if elected, he can perform the duties of the office with credit to himself and complete satisfaction to the public, as nearly so as human efforts are possible.

He expects to see as many of the voters as possible and personally present his claims between now and April 2nd.

### General and Mrs. Washington Greet Guests at Tea Hour

The Musical Tea Tuesday afternoon which was sponsored by Circle No. 2 of the Women's Missionary Society, was one of the most charming and worthwhile events it has been our pleasure to attend for some time. Besides being an interesting innovation, it was so well arranged and carried out that it was doubly enjoyable.

The patriotic theme was stressed throughout the affair, from the receiving line, which was composed of General and Mrs. Washington, Nellie Curtis and Dolly Madison, down to the dainty refreshments which carried out a red and white color scheme.

After registering the guests entered the living room where a flag-draped painting of Washington over the mantel was the central note in decorations. Bowls of flowers and tall candles on piano and tea table were charmingly colonial touches.

The program was opened with the assembly singing "America," and the following numbers followed:

Piano Solo—Mrs. Hardy.  
Reading—Mrs. Roberts.  
Vocal Solo—Mrs. Garner (in costume)

Piano Solo—Mrs. Gary.  
Piano Duet—Mesdames Gillispie and Hardy.

Reading—Ina D. Everett.  
Vocal Solo—Miss Milwee.

At the conclusion of the program, plates containing pimento sandwiches, tea wafers laid in white and decorated with candy cherries and hot red candles on piano and tea table were passed among the guests by members of the receiving line. Plate favors were miniature hatchets. Those who called during the tea hour were Mesdames J. W. Campbell, H. E. Gillispie, J. W. Gates, Harvey Jordan, L. P. Hardy, Mell Pearce, Mack Garner, C. E. Ray, Tom Moore, J. T. Middleton, Belle Knight, Habel Gary, W. E. Vermillion, C. B. Hubbard, Roy Gibson, Guy McGill, J. F. Chappell, J. W. Roberts, W. A. McLean, R. H. Ramsey, J. M. Christopher, Boss Johnson, George Shumake, R. B. Harville, John Johnson, R. O. Stark, Glen Allen, J. P. Bowlin, Paul Gooch, and E. L. Sorrels, Misses Valma Winkler, Jessie Sargent, Louise Miles, Alice Joy Bowlin, Alice Thomas, Willie Scholler, Ina D. Everett, Christine Milwee.

Since the severe cold and sickness prevented many who were anxious to attend the circle is being urged to repeat this affair in the near future, during evening hours for the convenience of gentlemen who would enjoy it. A more definite announcement will be made later.

### SPECIAL MEETING I. O. O. F.

There will be a special meeting of the I. O. O. F. next Monday night at the hall. All members are urged to be present as there will be some very important business transacted.

Ollie D. Harris, Sec.

Heaven, This doesn't mean talk about everyone you can think of, but doing the Master's will.

Everyone is requested to be on time Sunday morning at 10 a. m. as we will have some special teachers with us. Our Sunday School is doing good work considering the weather. Reporter.

TO PRINT POSTAGE STAMPS BY STATES

WASHINGTON, Feb. 16.—Postmaster General New has announced the government has decided to print the name of each state in which stamps are sold on all stamps ranging in denomination from one to five cents, in an effort to cope with postoffice thieves.

The purpose of this plan, the department said, is to render more difficult the sale of stolen stamps and facilitate tracing of confiscated stamps from one state to another.

O'DONNELL HAS SHIPPED 10,000 BALES OF COTTON

According to information given the Index, on Friday of last week the ten thousandth bale of cotton was shipped from O'Donnell this season on the above day.

Practically every bale of this cotton was gathered in the O'Donnell trade territory from what is generally conceded to be a half crop. Not bad. We hope to ship twenty thousand bales next season.

PROPERTY RIGHTS OF WIFE NOW A LAW

Austin, Feb. 16.—A Texas wife now has the right to manage and dispose of her separate property without her husband joining in the transaction.

A bill by Mrs. Laura Burleson Nealey of San Antonio, one of the two women members of the house, conferring equal rights on wife and husband in administering separate property, was signed by Governor Moody today.

There are several advantages in having cows fresher in the fall. But beefing usually brings a higher price.

"It Pays to Look Well"

The Fitch Shampoo is more than a shampoo. Applied with our super-service methods, it is a scientific scalp treatment.

Super-service is our motto—which means the very latest scientific equipment, standard toilet preparations, clean towels and absolute sanitation.

during the fall and winter months. Labor is easier to obtain then, and there is more time to care for the calves and a large supply of milk. The fall-freshening cow, if properly fed and handled, will, as a rule, produce well during the winter months. Falling off as spring opens. At this time the spring pasture grass will act as a stimulus and cause increased production during the spring and the early summer. The period of low production will come during July and August, when conditions at best are unfavorable for high production. It is undesirable to have cows freshen during the hot summer months, because of hot weather, flies, and dried-up pastures. Fall-dropped calves are easier to raise and usually less subject to disease. Dairymen who sell milk to a city retail trade should have their cows freshen at all seasons, of the year, in order to keep up a steady constant flow of milk.

IGNITION SYSTEM OF NEW FORD IS BETTER THAN EVER

Simplicity of design, which helped make the Model T. Ford car famous all over the world for its dependable performance and economical maintenance costs, is equally characteristic in the new Model A Ford.

This simplicity is particularly noticeable in the ignition system of the new car. This ignition system is standard but the units are new in design and construction and somewhat revolutionary, but there is nothing complicated about it. Being in effect the very latest of the car, it was designed by Henry Ford and his associates to give a maximum amount of service with a minimum amount of trouble and the thousands of Model A Fords which already have seen hard service under all sorts of conditions have vindicated the judgment of the designers.

One of the unique features of this new system is the elimination of high tension cables from the distributor to the spark plugs. This bronze springs, short sturdily and easily kept in place, are used for the connection between spark-plugs and distributor.

There is but one high tension cable and this connects the coil, placed on the dash, with the distributor which is on the right hand side and at the top of the engine cylinder head. The one primary wire from the switch to the distributor passes through the dash in a steel conduit which eliminates wear and danger from possible short circuits and which makes it impossible for any thief to cut the wires at the ignition lock and wire around it, so as to start the car without a key.

Ignition troubles, with this design, are rare and those few which may occur can easily be detected and read.

C. E. CAMERON

is the representative of the Texas Electric Service Company in O'Donnell.

ly remedied. For example, if the condenser which is a part of the ignition system should fail it is so designed that it can be replaced in two minutes. Likewise the breaker arm can be removed and replaced without the assistance of any tools whatever in less than a minute's time.

The ordinary tool is extraordinary in the use it makes of its hind feet. It reverses the usual order of things in making its burrow by digging with them and going in backwards. Each hind foot is equipped with a spur.

Before Planting Time Make Sure Your Planter is Right The McCormick-Deering and P. & O. Lister-Planter combine, old time proven principles, with a simplified design which insures greater accuracy, a wider range of adaptability, and easier ways of adapting the Lister-Planters to different requirements. It has taken a number of years to perfect this combination. The result is a sense of Planters which have no untried features. Their superiority lies in the manner in which these proved principles are combined and applied. If you are looking for a Lister-Planter that will list and plant your crops accurately and will require minimum attention it will pay you to come in and see the New McCormick-Deering. We have just received a car load of listers with all the new features on them. PALMER & TULL IMP. CO. "Quality Implements"

office at O'Donnell, Texas, under the  
Act of March 3, 1879.

#### THE TEXAS ALMANAC

The 1929 Texas Almanac published by the Dallas News is now off the press and it is the most complete almanac yet published by that Co. Every Texas citizen should have one of these books, and more especially every school child should have one for reference.

Apparently it is complete in every detail concerning this great State, giving you any information you might wish to know concerning the state as a whole or any particular locality.

Here is what is said concerning Lynn County: "Population 13,000, area 864 square miles, population per square mile 15.3 Total wealth \$20,000,000. Crops total value about \$6,000,000, cotton production about 45,000 bales annually. Swine, poultry and dairying are growing industries."

#### POLITICAL ANNOUNCEMENTS

The Index is authorized to announce the following names subject to City Election to be held April 2, 1929.  
Mayor of O'Donnell  
E. M. Wilder, re-election,  
Marshall and Tax Collector  
J. H. Yarbrough  
J. Y. Everett  
B. L. Parker.

#### CARD OF THANKS

(From Wilson Pointer)  
We take this method of expressing our gratitude to those who so kindly administered to us either by their kind words or by their many acts of kindness during the illness and death of our beloved wife and mother, May God's richest blessings be on each of you.  
Hugo Meaker and Children.

## Keeping Up With The Calendar

Keep up with the calendar with your advertising plans. It is an important part of your merchandising plan—a part in which our service department can give you valuable assistance.

Phone 49 for a Representative

"You live somewhere else,"  
Said his small sister Jane,  
"You better go home,  
For it's going to rain."

Though Roy on the steps,  
When he heard the door close,  
"It's queer to be someone  
That nobody knows."

Then the rain fell in torrents,  
And buckets and streaks,  
And Roy was more washed  
Than he had been in weeks.

Jane looked from the window  
Then ran to the door,  
"Come in Roy," she cried,  
"Now I know you once more."

**MY KIDDIE KAR**

(By Laurine Schaffner)  
My Grandpa says a rocking horse  
Was just the finest toy  
That anyone could give a child.

When on the fastest rocking horse  
He never could go far,  
When I can ride for miles and miles  
Upon my Kiddie Kar.

All around about the house I go  
And if the day is fine,  
Way down the street and back again  
I ride this car of mine.

I never tumble off or have  
To stop for gasoline  
I really think my Kiddie Kar  
The finest I have seen.

If Grandpa was a boy again,  
I know he'd want to be  
A riding on his Kiddie Kar  
All up and down with me,  
For he just stands and smiles and says  
"Just see that youngster go!"  
If Grandpa was a boy again,  
He'd ride with me I know.

**Founder of Brownfield**  
**Dies Suddenly Monday**

M. V. Brownfield, one of the pioneer ranchers of this section of the Plains and the founder of Brownfield, county seat of Terry County, which adjoins Hockley on the South, died suddenly of heart failure at that place Monday afternoon at 12:30. He was driving his car to his residence from the downtown district

when he suffered the attack. He drove into a filling station and was dead in a few minutes, before medical aid could be obtained.

Mr. Brownfield had been a resident of the South Plains Country since 1898, when he moved from Nolan county to Terry county. He founded the town of Brownfield in 1902 and was ever interested in development of the town and section. Numerous philanthropic acts are credited to him.

At the time of his death Mr. Brownfield was considered one of the largest land and cattle owners in the lower South Plains country. His holdings included land in both Terry and Yukon counties. He had several large ranches near Brownfield. Mr. Brownfield was one of those hardy pioneers who fought the battles incident on colonization of this great country when the Plains was a new and undeveloped region. In the early days he drove cattle over the long trail to the Kansas markets and many were the tales that he afterward told

of these journeys. He was one of the first seven charter members of the Texas and Southwestern Cattle Raisers' Association and was ever prominent in that organization. Mr. Brownfield was a Mason and a Shriner and a member of the Lutheran church.—Hockley County

**Let This Lister**  
**Save You Money!**

**John Deere No. 668**  
**Two-Row Lister**

Here is the lister you will want this year. It will cut your labor costs almost in half and do your planting quicker and better than ever before. You'll be convinced if you come in and see its many features.

With the No. 668 one man and six horses can do as much work as two men do with two one-row listers and eight horses—saving the cost of one man and two horses every day.

The No. 668 is equipped with

genuine John Deere bottoms—that means long life, good work, and clean scouring.

The famous John Deere "999" corn drop and the John Deere hand-tooth cotton picker wheel insure accuracy; no slips or misses to cause losses.

The rows you plant will be exactly parallel, making them easy to follow later with a row-crow cultivator. You can quickly adjust row spacing to 36, 38, 40, or 42 inches.

We will be glad to show you the John Deere No. 668 any time.

**BOOST**

As we boost, so shall we reap. Each and every boost we give this community, whether it be in our intercourse with home folks or with strangers, will return to us many fold in increased community betterment.

Never has a community had too many boosters. It keeps the interest of all aroused. It gets things done that benefit the community as a whole and each member of the community as an individual.

The time to boost is every day. The opportunity to boost is always present. Read what the merchants and professional men of this city have to say about boosting. Let's all go along together.

**The Dairy Cow**  
**comes to Texas**

No development is as widely important as that of dairying. The dairy cow brings ready money to the farmer, cash to the retailer, increased deposits for banks; greater buying power to all the people. It paves the way for various types of industries.

It establishes agriculture on a permanent basis, encourages the building of good roads, improves school attendances and, in short, makes for a balanced development of Texas which is beneficial to all the people.

From all over the state word comes from editors, educators, bankers, business men and farmers alike saying that the dairy cow is the salvation of Texas agriculture. Cities endeavoring to build themselves are turning a helping hand to the farmer, realizing that a balanced development is permanent. The Texas Electric Service Company welcomes this change in Texas agriculture and in the attitude of business toward farming.

### LUBBOCK CHAMBER OF COMMERCE DOING MUCH GOOD WORK FOR S-PLAINS

LUBBOCK, Texas, February 22.—The Lubbock Chamber of Commerce has been advised by the Railroad Commission of Texas that rates on less than carload shipments of grain and hay seeds produced in the Plains-Panhandle section, cancelled as of November 8th, 1929, will be re-established effective February 15th, 1929.

This action will mean the saving in freight charges, thousands of dollars monthly to farmers and seed dealers of the Plains-Panhandle section, and comes as a result of a petition filed February 4, by the Lubbock Chamber of Commerce.

The old rate that was cancelled provided for a carrying charge of from 50c to 58c per hundred pounds on seed from Plains-Panhandle points to other points in Texas, while the cancellation of the rate boosted the carrying charges to a range of from 81c to \$1.40.

With many requests from farmers and seed dealers who were effected, the Lubbock Chamber of Commerce began working on the rate case soon after it was cancelled. Late in the year of 1928, advice was secured from a number of outstanding traffic men about the case. Several expert traffic men advised that the ruling was final, with no hope of getting the old rate re-established.

Not satisfied with this advice, the Lubbock Chamber of Commerce continued searching for some way to get the rate re-established. Early in February, Albert L. Red of Dallas was consulted and later employed to represent Lubbock in the matter. A petition was filed February 4th, 1929, with the Railroad Commission of Texas, praying for a re-consideration of the order.

On February 8, 1929, the railroad commission wired that the old rate would be re-established effective on February 15. The entire expense of filing the petition and pushing the case to a successful completion was paid by Lubbock, which totally well over \$1,000.

While Lubbock was vitally effected and benefited by the case, the entire Plains-Panhandle section will receive the same benefit.

The Plains section ships a large percentage of all cane sorghum, grain sorghum and sudan seed used over the entire nation. Particularly do other sections of Texas look to the Plains for their planting seed. While these other sections grow these crops, the seed from their crops do not have the stamina, vitality and fertility of the seeds grown in this section.

Farmers all over Texas and other states order their planting seed direct from local dealers over the Plains for the reason that they want Plains planting seed and not seed grown elsewhere. This necessitates small, less than car load shipments of the grain.

The increased rates would have made a big cut into the profits of farmers growing grain for seed purposes.

The saving in freight rates will be enormous. For instance, one Lubbock seed dealer shipped over 1,000,000 pounds of seed in less than car load shipments last year. The re-establishing of the old rate will save from \$5,000 to \$8,000 in freight rates to this dealer alone. Other dealers and farmers will be benefited accordingly.

### NINETEEN MEMBERS OF 1928 FRESHMAN FOOTBALL SQUAD RECEIVE SWEATERS

LUBBOCK, Texas, Feb. 22.—19 members of the 1928 freshman football squad received sweaters. The men who made numerals were: Basil Hill, Lamesa; T. H. Hickey, Hillsboro; Jack Buckler, Waco; Ben High, Dallas; C. D. Chenoweth, Panhandle; N. M. Stanniser, Clifton; Garlan Carr, Weslaco; Walton Nixon, Waco; Calvin Swift, Osage; Edwin Hutchinson, Memphis; Mac. E. Atchinson, Brandon; King J. Sides, Estancia, N. M.; Clifford Simmons, Santa Anna; Freeman Edmunds, Spur; and Harold Crites, Luther Williams, Ross Ayers, T. L. Strickland and James Whitehead of Lubbock.

### A STORY OF LINCOLN

A story of Lincoln written by Mary Hamilton, a fifth grade pupil. On Rock spring farm in Kentucky on February 2, 1809 a little boy was born. His name was Abraham. When he was about seven years old his father moved to Indiana. It was there a sad thing happened. His mother fell ill. Early one morning when he was about eleven years old his mother called him and said: "My boy I am going away, you will not see me again. Take good care of your little sister and live the way I taught you." Then her heart was at rest. The winter was dull for the

family.

In 1861 Abraham Lincoln was elected President of the United States. War broke out between the North and South. He said he would never be happy any more. When the war was over Abraham was elected president again. One evening he and his wife and friend went to the theatre and was enjoying a picture when a shot rang out. Lincoln was seen to fall. A man jumped down and ran across the stage waving a revolver. Lincoln lived until the next morning. When he died every one was sorry for they all loved him.

### TO MISS WINKLER

Miss Winkler you are so sweet,  
And I love you oh so much,  
'Cause you teach me how to cook  
Candy, cakes, meat and such.

You are so pretty when you smile,  
And it is good to know you,  
For you are certainly wonderful,  
And the girls all love you.

When we are in the kitchen  
Or out upon the ball court,  
You are always mixing things  
And showing you're a sport.

When far away in school I am  
I will think of you and then  
I will remember the day that we  
Fried oysters, and cooked Ramekin.

Trixie Harville.

### COUNTY WILL HAVE AGENT BY MARCH 1

The county agent for Lynn county will be selected by March 1, Judge G. C. Grider was informed today by Sterling C. Evans, who was in Tahoka this morning. Mr. Evans is the West Texas district agent of the A. & M. College Extension Department. The Commissioners' Court voted several months ago to employ an agent but due to the scarcity of capable men for such a position one had not been secured.—Lynn County News.

In a busy session of the Commissioners' Court Monday and Tuesday of this week, a contract, for re-roofing the court house was let to Higginbotham-Bartlett Lumber Co., at a price of \$1024. The roof will be guaranteed for twenty years.

A jury of view was appointed to secure the remainder of the right-of-way on Highway 84 east of town. Seven or eight miles have been com-

pleted from the Garza County line this way, and is reported to be an excellent grade. A new catapillar tractor will be purchased by the county for use on the lateral road.

The First National Bank of Tahoka, the only bank to place a bid, was given the county depository contract. A contract was signed with the sewer company to connect the court house with the system.

The court will on March 11 grant a hearing to audit companies for the auditing of the county's books.

The commissioners will meet again on Monday, February 17 to appoint road overseers and election judges for the coming school trustees election.—Lynn County News.

### KNOW TEXAS

The original extent of the virgin pine forests in Texas was about 14,000,000 acres. The present area is about 1,000,000 acres.

Rubber is made from the guayule plant which grows in the Trans-Pecos section of Texas, particularly in Brewster and Presidio counties. A rubber manufacturing plant is located at Marathon.

Texas as a Republic and as a state has had eight capitals—Washington (on the Brazos), Harrisburg, Galves-

ton, Velasco, Quintana, Columbia, Houston, and Austin. Galveston, Velasco and Quintana were the capitals for brief periods during the approach of Santa Ana's army.

The total volume of water flowing into the gulf from Texas streams is approximately 26,913,000 acre feet a year.

Dairy cows watered once a day drink less and produce less than those watered twice a day or at will. The higher the production, the greater the benefit from frequent watering.

In cold weather hides and skins may be kept safely for some time without salting, but care should be taken to prevent them from freezing. In spring, summer, and fall, however, skins should be salted promptly.

Many poultry growers in northern parts of the country are finding straw lofts a good investment for the poultry house. Gable-roof houses are especially well adapted for this. A layer of straw being put in the gable about 7 feet above the floor. The straw keeps the house dry by absorbing moisture and keeps it warm in winter and cool in summer by insulation.

## New-tangled Contraptions

Grandfather came home from his annual visit to the Fair and said he had seen a plow with wheels and a driver's seat. He didn't think much of it. It was twenty-five years before anybody in that locality owned a sulky plow.

The first mowers, cream separators, sprayers and incubators, and the early sewing-machines, and carpet-sweepers were treated in the same way. It used to take the neighbors in the next county five or six years to learn that a better implement had been made, and when they did find out they either laughed at it or ignored it.

Today, in half that time, people in all the forty-eight states have the new tool at work on their farms or in their homes.

Modern advertising takes an improved product, gives it a name and a trade-mark, builds it to a definite standard of quality, places it in every good hardware and implement store in the country, and tells you why you should own it and where you can get it.

Advertising has brought to you nine-tenths of the conveniences that make farming easier and living pleasanter in this new age.

**Fuel system of the new Ford has been designed for reliability and long service**

The practical value of Ford simplicity of design is especially apparent in the fuel system.

Since all adjustments are fixed except the needle valve and idler, there is practically nothing to get out of order.

The gasoline tank is built integral with the cowl and is unusually sturdy because it is made of heavy sheet steel, tinned to prevent rust or corrosion. An additional factor of strength is the fact that it is composed of only two pieces, instead of three or four, and is electrically welded—not soldered.

The choke rod on the dash acts as a primer and also as a regulator of your gasoline mixture. The new hot spot manifold insures complete vaporization of the gasoline before it enters the combustion chamber of the engine.

Because of the location of the tank, the entire flow of gasoline is an even, natural flow—following the natural law of gravity. This is the simplest and most direct way of supplying gasoline to the carburetor without variations in pressure. The gasoline feed pipe of the new Ford is only 18 inches long and is easily accessible all the way.

As a matter of fact, the fuel system of the new Ford is so simple in design and so carefully made that it requires very little service attention.

The gasoline passes from the tank to the carburetor through a filter or sediment bulb mounted on the steel dash which separates the gasoline tank from the engine.

The filter or sediment bulb should be cleaned at regular intervals and the carburetor screen removed and washed in gasoline. Occasionally the drain plug at the bottom of the carburetor should be removed and the carburetor drained for a few seconds.

The carburetor is specially designed and has been built to deliver many thousands of miles of good service.

Have your Ford dealer look after these important little details for you when you have the car oiled and greased. A thorough, periodic checking-up costs little, but it has a great deal to do with long life and continuously good performance.

### LYNN COUNTY BOARD OF EDUCATION

Office of The County Superintendent To Principals and Trustees of Schools:

I wish to call your attention to the Farmer's Short Course to be held in Tahoka, Texas, March 7 and 8.

According to the agent who promoted the course Thursday, March 7th, will be of especial interest to school children. There will be pictures shown and talks given that will stimulate interest and activity in Club work and general home life. Recognizing the fact that this is wholly an agricultural section, and realizing the need of better methods and management in our agricultural operations, I am recommending that trustees allow and encourage teachers to bring their classes for Thursday, March 7th, the first day of the course and give teachers and pupils credit for a full day of school work. Pupils who attend should be encouraged, if not required, to write a composition on some phase of the work of the Short Course as a part of some future lesson in English. These papers can then be read and discussed in the class, thus affording an excellent method of reviewing the Short Course. Some children who prefer to give their reports orally should be allowed to do so as some English period, thus affording a practical and profitable exercise in oral English. The majority of our school children will follow agricultural pursuits so the fact that may be learned at the Short Course will be of more value to them than many of the facts found in their text books. Let us undertake to educate our children for farm and farm life rather than educate them so as to be unfitted for and dissatisfied with farm life.

Our County Farm Agent will be here at that time and it will be a good time to get acquainted with him. Possibly he will have some plans to give out at that time that you will be interested in.

Please write to me as soon as possible whether any or all of your pupils will be present. Write to me at once whether you are coming or not.

Yours very truly,  
H. P. Caviness, County Supt.

### RANDALL NEWS

The freezing temperature around Randall is being followed by clear skies and bright sunshine which is a cheerful climax to the several "cold snaps" of the winter. Farmers are pleased with the hard freeze and sleet which is considered of a great benefit to the soil and will possibly rid this country of the insects.

There were a good many out at Sunday School Sunday the people have all woke up and made a new start.

The St. Valentine season provided a happy party Thursday night at the home of Mr. and Mrs. Howard Stephens. A large crowd attended and had a nice time.

The Randall School is progressing fine. School is a part of our life's work; it furnishes the preliminary events in our work, and if we are below the average, in our school work we are likely to be below the average in the occupation or profession that we choose in the future.

Miss Esther Davis spent Sunday afternoon with Misses Wilma and Sammie Durham.

Mr. R. H. Graham returned to his home in Proctor, Comanche County, after a few days visit with his sister, Mrs. Howard Stephens.

Mr. and Mrs. Jim Patton also Mrs. A. R. Carlisle and babies of McCamee are visiting Mrs. Carlisle's parents, Mr. and Mrs. J. P. Snow from Sunday to Wednesday.

Arnold Davis taken supper with Rubin Meares Sunday night.

Mr. Carlton Alexander and Miss Estelle Griffin spent Saturday in Lamesa also.

Mrs. Jesse Meares spent Sunday evening with Grandmother Meares. The Red, White and Blue Flag.

Measles has prevented many school children from attending classes. Among others are Max C. Bradley, Billie B. McConall, Earline Ellars, Earl Minton, Sonny Boy Bowlin, and J. T. Thorpe.

### SCHOOL NEWS

Low and High Fourth

We are all working hard on our declamations and stories for County Meet.

For three days again this week the High Fourth have been 100 per cent in spelling. Merl Miles, Norma Ruth Vermillion, Billie Sutton, Harvey Crawford, Mildred Goddard, W. L. Pan, G. C. McPherson, and James Ramey have each made 100 every day. In the Low Fourth Irene Roberts, Mildred Ash, Willis Kirkland, Earl Tane, Beatrice James, W. C. Ables, Wynelle Scott, and J. E. Webb have each made 100 per cent in spelling. This grade also has two new pupils, Roxie Petty and Cullen Newson.

The boys' base ball team won over the girls' team in a hard fought game Tuesday. The girls have challenged them to another game for Thursday afternoon.

High 6th and Low 7th

We have been working hard this month trying to show the proper respect to all the great men born in February. We have just finished our posters on Lincoln and Valentine Day and are now trying to learn more about George Washington and his famous rules of civility.

Two pupils, Thornton Musick and Lawrence Tredway, made 100 per cent in arithmetic at the six weeks exams.

We are very glad to welcome two new pupils in our room. They are Earl Wilson from Idalou and Irene Jordan from Amberst.

Mrs. Mack Garner is our new room mother. She visited us last Thursday and pleased us very much with some valentines and a big sack of pop corn.

### WESTWARD HO

(From Wilson Pointer)

When Horace Greely said those famous words, "Go West, Young Man Go West," he (putting it in the modern slang) knew his onions.

The growth of western counties the past ten years has been phenomenal and the growth has only begun. In 1910 Lynn county had a population of 1,713, in 1928 13,200. Lubbock county had a population of only 3,624 in 1910, in 1928 32,000. By comparison we mention two East Texas counties, Madison and Rusk. We mention these two merely for comparison. In 1910 Madison county had a population of 10,318, in 1928 1,956. Rusk in 1910, 26,904, in 1928, 31,689. By comparing these two counties with Lubbock and Lynn you can readily see that the march of the immigrant has been toward the West. Other West Texas counties have enjoyed a substantial growth as has these two.

In the last two or three years the plains has seen more railroad construction than any other similar sized area in the United States and if current rumors mean anything we will see as much more in the next few years.

This has become the principal cotton producing area of Texas, not only that great strides have been made in the poultry and dairying industries and all these things can be done here at a minimum expense.

That others outside of this great country are interested in West Texas is evidenced by the great numbers of inquiries that are being received by the South Plains Inc. which is placing advertisements in Farm Journals. Over two thousand inquiries have been received. Many of these families will locate here, there is no doubt of that.

Now it is up to us to get our share of these immigrants.

Let's get busy and do our part toward welcoming these strangers to this great country.

We have a good little town here, but we can make it a lot better with a little effort. What you say that we get busy now and make Wilson a real town?

### BETTY BRONSON THRILLED

WHILE SHOOTING WESTERN

(From Wilson Pointer)

"I'm getting the biggest thrill of my career out of playing this role," said Betty Bronson, the "Peter Pan" girl, during filming of the Paramount Zane Grey production "Open Range" which comes to the Casino Theatre Friday and Saturday.

"I have never played in a Western picture before," the diminutive actress said, "and I'm finding that I have been missing something. All of us, I believe, want to have a lot of new experiences. When this picture is finished I will have crowded enough of them into six weeks to last me for another six months."

"I drive a team of horses in a buggy race. I ride a careening carriage in a dangerous runaway. I am trapped in a burning house with flames leaping up into my face. I lie down a rop on the hero's back with the villain."

Mrs. And I...

in the most beautiful place I have ever seen—Zion National Park in Utah, where we made many scenes."

Lane Chandler, newly discovered screen actor, plays opposite Miss Bronson in "Open Range" which was directed by Clifford Smith. Fred Kohler "wolf of the screen" plays the villain. A cattle stampede and an Indian fight scenario written by John Stone and J. Walter Ruben.

### COMMUNITY CLUB

### Methodist Conference Will Meet At Dixie

(From Wilson Pointer)

The first Quarterly Conference of the Wilson Charge of the Methodist Church will meet at Dixie beginning Sunday night, February 24, with the sermon being preached by Rev. D. B. Doak of Lubbock, who is the Presiding Elder of the Lubbock District. Rev. Thompson, Pastor, advises that there will be a large representative present from the different churches of the charge. The business session, at which reports from the different departments of the church covering the first three months of the conference year are to be made, will be held at 10 a. m. on Monday.

### ZANDER-GUMP WEDDING

Tuesday evening at 8 o'clock the very impressive wedding ceremony of Benjamin Gump and Henrietta Zander was solemnized at a beautiful improvised altar, with the honorable Major Horne officiating. A large host of friends witnessed this elaborate and happy occasion.

There were about forty persons included in the wedding party, therefore it is impossible to describe the costume and personalities of each for it was a scream from start to finish.

The Parent-Teachers sponsored this play to raise money to buy some much needed equipment for the school. The inclement weather made it impossible for many to attend who would have otherwise, but the nice sum of \$33 was realized from those who braved the chilly wind.

The play was indeed a great success from every standpoint and the characters should be highly complimented and resemblance of the various Comic Strip Characters.

### VANELTINE SOCIAL

The Epworth League entertained with a Valentine Social at the Methodist Church on last Thursday evening. A large number of the young people of the community were present and entered into the spirit of St. Valentine's Day with many interesting and appropriate games and contests. The games were livened by the enthusiasm of the two sides participating under the names of The Lions and The Lindbergs Ramblers. Douglas Finley bursted the miles of the sober faces during the Silent Contest as he so Masterfully milked a cow. We knew he was good for something all the time. Page the Daily Farmers.

The Lions came through with the highest honors and were presented with a wonderful prize in the form of a box of Animal Crackers which, of course, they all enjoyed. The Lindbergs were all affected by the Ambassador's daughter and were not expected to do very much.

### Mrs. Winford Roberts Undergoes Operation

(From Wilson Pointer)

Mrs. Winford Roberts, manager of the local State Telephone office, underwent an operation for appendicitis at the Lubbock Sanitarium, last Saturday morning. She stood the operation well and is improving daily.

Mrs. And I...

### Base Ball Interest Is Now Growing

(From Wilson Pointer)

As winter wanes the fever hits most of us. A number have expressed a desire of organizing a base ball team here this spring. Some have gone so far as to say that the club of history will represent on the diamond next year.

We are glad to see the interest in this sport. A beautiful game that practices one likes to see and we hope our club can be organized.

### Trades Day For Tahoka

The Tahoka Chamber of Commerce is sponsoring a trades day at Tahoka, Monday will be the first of each fourth Monday there be designated as trades day.

Farmers are urged to bring things that they wish sold and experienced auctioneer will be on grounds to have charge of the sale. No charge will be made for the sale as expenses will be cared for by the Chamber of Commerce.

### SAY AUTOMATIC EYE SOON WILL REPLACE TRAFFIC POLICEMAN

Not only have scientists the photo-electric cell to where it will take the place of policeman, but it can also unnecessary traffic delays demonstrated recently at the University of New York, search engineer of the W. laboratories, who is the new robot.

It was explained that it was not so much application of the new robot to New York and other big cities communities, where there automobile traffic on main roads and little traffic on cross roads.

Under the present traffic system, it was added, the frequently holds up traffic on road while there are no vehicles on the side street. The robot makes it possible to motorist on the main road green light until a car on street comes to within a distance of the intersection.

This is where the automobile comes into play. Underneath street and overlaid with a room" covering so as not to traffic, lies the sleeping robot, giant of the machine age, always with one eye open, and as so vehicle crosses the mushroom, the shadow of the vehicle upon the automatic eyeball awakes the robot to electric action.

His first impulse, which is made to switch the automobile on the main road and the green on the side road, so that which has just caught his eye cross the main road in safety a brief stated interval, if no other on the side street casts a shadow on his vision, the robot automatically obeys his next impulse which traffic lights back again to the main road and lets the main traffic proceed.

The demonstration showed new system could automatic right unusual situations. instance, if an unusually long car on the side street threaten hold up main line traffic there is a time-limit relay robot which compels him to signals again to give the line a chance for the definite.

### District Court Now In Session

District Court opened in Tahoka with the empanelling Grand Jury. Several important cases were before the court.

Judging from the sample who were called for the first of the week, the docket has a busy session.
