Crop Is Half Over

12,935 bales of cotton have been ginned here thru Tuesday morning and the crop is estimated at half over so far as production but harvesting will continue to some degree thru the Christmas holidays. Grain is being harvested as rapidly as cotton and should be nearly com weather of last week left a stock pile of cotton at all gins.

Weather Tuesday was cloudy and cool with suggestions of more rain.

Business Saturday did not begin until late afternoon. Merchants re-ported sales below that of the Saturday before. Some native workers are going north as the harvest hits a peak on the north plains. Some 4,000 Mexican Nationals remain in the fields. Hail and rain damage to crops failed to run as high as initially estimated.

CITY HAS NEW GARBAGE

6-B OFFICERS NAMED The 6 B room met Friday and named the following officers to serve for the second 6 weeks —

Larry Emerson, president, Linda Arnold, vice president, Armando Amaro, Secretary, and Mark Ballew, reporter. The success or failure of mechan-ical harvesting of cotton is depend-ent on the defoliation job done. A

good defoliation job done in favor-able weather enables a producer to harvest as high quality cotton by machine as by hand pulling. Local county agents can supply detailed information on the subject.

Housewives are very color conscious when it comes to buying chickens. Skin color of broilers was either the first or second consideration of nearly half the supermarket shoppers interviewed in a study in Houston. A bird with yellow colored skin was preferred by about the same number of sroppers as a light colored one,

Lynn Co. Road Bond Election Is Saturday

Money Need For Right Of Way On 87

Qualified voters of Lynn County will vote Saturday on the proposed \$190,000 Road Bond issue needed to buy about 15 miles of Right of Way on Highway 87 running north of Tahoka to the Lubbock County line. Voting here will be at the school. The State will pay one half of the right of way cost on the new 4 lane highway.

public will have a 4 lane divided highway from Lubbock line south to Lamesa — one of the most mod-ern roads in the State. Plans call for all of 87 from Canada to Gulf to be four lanes. Be sure to vote Saturday. Divided highways save

ROTARY

The O'Donnell Rotary Club met Tuesday with President Noble Rumbo presiding. Visiting Rotarians were Dale Thuren of Tahoka, John Saleh of 'amesa, Bill Pendley of Lubbock. A. G. Hernandez of Lubbock was a guest. Judge Reed of Lamesa spoke on Juvenile Delinguency. Collin Reese is chairman of programs for October.

A comparison of typical 1908 and 1958 rations for fattening beef cattle shows that when modern technology is put to work in the feedlot, beef profits climb. The use of present day rations has increased weight gain by nearly 30 percent, improved feed efficiency about 35 percent and cut feed costs more than 25 percent. Basic research has shown that there are certain nutrients required by rumen bacteria for maximum roughage digestion. Modern feed supply these needed nut rients for feeding the billions of bac teria in the rumen which, in turn feed the animal.

THRIFTY COOKING

10-2A

Thrifty electric cooking is a feature of all Live Better **Electrically Medallion**

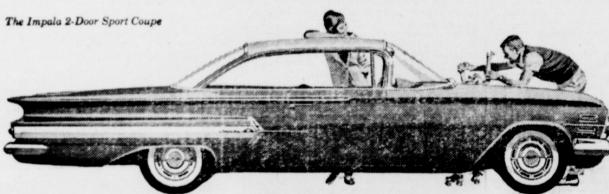

When you cook electrically, you'll appreciate the many economy features of your electric range. Electric surface cooking units put heat into utensils by direct metal-to-metal contact for best cooking efficiency and least heat loss. The fully insulated electric oven keeps heat where it belongs, inside the oven and out of the kitchen. And, once the

oven reaches the temperature you select,

the oven heating elements operate less than half of the cooking time.

In addition, an electric range provides you accurate heat control that assures uniformly excellent results. And, with clean electric heat, your kitchen stays bright and new-looking with a minimum of cleaning and redecorating expense. See your electric range dealer soon.

Beef cattle in shaded gained faster and made more econ-omical gains than those in unshad-

Unnecessary fire hazards around the farm annually account for a loss of nearly 800 lives and over 156 million dollars in property damage.

\$400 MONTHLY SPARE TIME Refilling and collecting money from New Type high quality coin operated dispensers in this area. No

selling. To qualify you must have car, references, \$600 to \$1900 cash, Seven to 12 hours weekly can net up to \$400 monthly. More full time. For personal interview write P. O. Box 1055, Boise, Idaho. In-clude phone number.

Barley ranks well below wheat and ots in acreage and farm value in Texas but has a dual value to growers as a grain crop and as a winter pasture for livestock. Large acreages are grown exclusively for winter pasture and grazed to mat-urity and all barley grown for grain in Texas is usel for livestock feed.

Of all farm animals, the cow in milk production requires the greatest amount of water in pro-portion to her size. The amount of water she will drink depends on her size, her daily milk yield, the air temperature and humidity and the amount of water in the feed she eats. From 12 to 15 gallons per head is an average different part of the same of the same are set of the same head is an average daily consump-

Present price trends and conditions point to a slightly more favorable prices and profits for the egg producer during the next six months

Using the high energy feed formulas now in practical use, it is possible to produce a broiler weighing more than three pounds in eight yeeks on less than six pounds of feed. This is possible if no disease outbreaks occur. If the chief outbreaks occur, if the chick is available that is capable of obtaining such standards and if proper management procedures are followed.

Lana, Auburn and Oregon wooly-pod are three fairly new vetch in-troductions.

There is usually an upsurge of home fires during the heating season. Cleaning, inspection and ad-justment of all kinds of heating ap-paratus should be done now.

Average realized net income per farm in Texas amounted to \$3.430 in 1958 compared with \$1,774 in 1957. Texas farm operators ranked 17th among the states in realized net income per farm.

One of the most destructive cotton diseases in Texas is cotton root rot. Conditions this year have been favorable for its development and damage is widespread. A new publication, MP 361 "Root Rot Losses of Cotton Can Be Reduced" are avilable at offices of local county agents.

Botulism, which most poultry-men call limberneck, generally oc-curs in the spring and summer menths following rains. Poultry months following rains. Poultry get the disease by eating decompos ing food and animals, decaying veg etation covered by water or moldy feed which has crusted on the surface. For prevention, you must remove or withhold the which might serve as a
