Messrs Knox and Henderson have leased the Tucker building now occupied by the Liles Chevrolet Company and work will start immediately on remodeling and overhauling of the building which the management states will be made into one of the most up-to-date picture houses in this section of the South Plains. A new front will be added to the building and the interior will be remodeled throughout, making it attractive as well as comfortable to the show-going public.

The latest in machinery together with the best screen and scenery that money can buy will be used in the new show. They also state that the patrons will be entertained with the best of music, piano and orchestra. In conversation with the Index man Thursday, the managers stated that absolutely nothing but the best and latest pictures would be shown, pictures of first run which had never been shown in this country assuring the public of good clean, new pictures nightly. The management is planning a grand opening which will be announced at a later date. As soon as the building is completed equipment will be on the ground ready for installation and the managers expect to be open to the public within the next thirty days.

Mr. G. Bert Davis, one of the best known show men of Texas, has accepted a position with the management and will devote his entire time to the business. Mr. Davis needs no introduction to the public having spent a life time in the business, most of that time in West Texas, and is one of the best known and most capable men in that profession. The management is fortunate in securing the services of Mr. Davis which will assure the public of a good clean up-to-date show at all times.

He spoke under the auspices of the Parent-Teachers Association.

His lecture was very interesting from beginning to end which was a detailed description of the part he played from the time he was robbed in Fort Worth, of \$54,000, up to the "Denver Raid" in which 34 noted confidence men were captured in a single raid. Squire Jones takes the place made vacant by the resignation of Mr. Phillips who was elected to the office at the general election, but recently resigned.

Mr. Jones is well qualified to fill the position to which he has been appointed and will no doubt make the citizens of O'Donnell a good peace officer.

Weather Man Halts Cotton Picking

After several days of fair weather which enabled farmers in this section to make fair headway in the harvesting of the cotton crop, the weather man took a hand Wednesday, almost bringing cotton picking to a standstill. Sky juice began falling slowly early in the day and continued a greater part of the afternoon total precipitation reaching approximately one-half an inch.

The rains will be of material benefit to the large acreage of winter wheat sown in this section, it is claimed by farmers.

T. J. Kellis, former editor and owner of the Index, spent the Christmas holidays with friends in Wichita Falls. He returned last Saturday reporting a very pleasant trip and says that Wichita Falls is getting to be a real city with a very promising future, but after all he says there is no place like O'Donnell and its good people.

He was taken to Tahoka Wednesday but as yet we have not learned as to what disposition county officials took on the case.

O'Donnell Gins Pass 11,000 Bale Mark

Cotton continues to move slowly but steadily in the O'Donnell country. Gin receipts of the seven gins of O'Donnell have been gradually climbing until Wednesday morning when the rains halted picking there had been ginned in the city a total of 11,130 bales. Before the rains set in Wednesday morning the fleecy staple was coming in at the rate of one hundred bales daily. A conservative estimate by those who are in position to judge, place the remainder of the crop to be gathered from 2,000 to 3,000 bales, which will probably bring the total ginnings for O'Donnell up to the 14,000 mark.

COURT ROOM AUSTIN, Jan. 12.—The Norris murder trial moved slowly along in district court here today with the tedious process of selecting a jury.

Three jurors had been selected after five hours of questioning bringing the total up to eight by 4:30 p. m. Five of these were taken yesterday. E. Chipps, lumberman.

NORFLEET WILL REACH CLIMAX IN LECTURE SATURDAY NIGHT

J. Frank Norfleet of Hale Center who spoke under the auspices of the Parent-Teachers Association at the High School auditorium last Saturday evening, will appear again on next Saturday evening, at the same hour and place. His lecture Saturday night will be along the same line as the previous one, which led him up to the "Denver Raid" in which he captured 34 noted criminals in a single raid, bringing to a climax the most adventurous man hunt in the history of the country.

Mr. Norfleet's story, "The Denver Raid", which he will picture to his audience Saturday night is very thrilling and more interesting than fiction. Hear him Saturday night at the High School auditorium. It will be an evening well spent, one that will linger long in your memory.

PURE PORK

Hogs weighing between 180 and
230 pounds will ordinarily produce
the best and most economical cuts of
meat for family use. Hams and
shoulders from such hogs will weigh
12 to 15 pounds, with loins and bacon

strips at about 9 or 10 pounds. If
the pig has been well fattened, not
only will he produce more lard, but
also the flavor of the meat will be
improved. If the pig is given a 24-
hour fast before slaughter, with
plenty of water available, the car-
cass will drain more thoroughly and
produce a better product.

Messrs Will Brown and J. W.
Brinson returned last of the week
from Crane City and other points in
the new Crane-Upton oil fields and
reports things lively in that section.
We understand they purchased busi-

YOUR motor is designed to deliver a
certain number of revolutions per min-

under all conditions.

But as carbon forms, that "knock" occurs.
The motor revolutions drop—and you lose
power on hills and pick-up in traffic.

Conoco Ethyl Gasoline knocks out that
"knock." What's more, the carbon (which
causes the "knock") becomes a means of
power because carbon increases pressure—
and increased pressure means increased
power. Conoco Ethyl Gasoline performs
perfectly under this increased pressure.

America has always expected great things from its greatest industry. But the announcement of the Most Beautiful Chevrolet has been the automotive sensation of all time!

Here is a car which is beauty, luxury, quality and modern design challenges the costliest creation of the day.

Here, in a price class where average standards have been the rule, is now offered a car so far beyond all expectation that comparisons cease to exist.

Seven superb models styled as low priced cars were never styled before and offering such marks of fine car distinction as: full crown one-piece fenders, bullet type lamps and "fish tail" rear deck modeling! New and supremely beautiful bodies by Fisher! And, above all, infinitely finer quality—the result of a host of additional improvements such as AC oil filter, AC air cleaner, coincidental steering and ignition lock, larger 17 inch steering wheel, gasoline gauge and many, many others!

All this is combined to a supreme degree in the long famous leader of the Chevrolet line—the Coach. It would be a brilliant achievement for any manufacturer merely to design such a splendid car to any reasonably low price. But to sell it at the amazing price of \$595 is a feat of history making proportions. This one price reduction alone would suffice to center worldwide attention on Chevrolet. But due to economies of tremendous production plus the vast resources of General Motors, Chevrolet also announces striking price reductions on other models.

For years Chevrolet has led the world in providing Quality at Low Cost. But now with a new and more beautiful car—with a car infinitely finer in quality and greatly lower in price, Chevrolet stands supreme and unchallenged in dollar-for-dollar value!

No matter in what price class you intend to buy or whether you plan to spend more or less than the price of a Chevrolet, come in today and see the most beautiful low priced Coach ever designed. Admire its marvelous style and grace! Mark its many new fine-car features! Learn for yourself by personal inspection why, at its new low price, it is the greatest sensation of America's greatest industry!

**VINOL HELPS NERVOUS,
RUN DOWN MAN**

"Before taking Vinol, I was run-down, nervous and irritable. Now, I feel like another person."—R. McCoy. Vinol is a simple, strengthening iron and cod liver compound in use for over 25 years for sickly, nervous women, rundown men and

weak children. The very first week you take Vinol, you begin to feel stronger, eat and sleep better. Contains no oil—you'll like its pleasant taste. **Christopher Drugs.**

**AN APPEAL FROM
YOUR FAMILY PHYSICIAN**

Did it ever occur to you that it was your family physician that so tenderly assisted you when you made your advent into this wide world? That it is he who is sacrificing his time, his health, and life, day and night, through cold and stormy weather, to your every beck and call when sickness and death invades your home?

That it is he who will linger at your bedside to soothe your pain-racked frame when your soul makes its exit from this cage of clay?

Then why will you show your ingratitude by making him wait to the very last to pay him up, and then perhaps a very small percent of what you owe him?

Why not make him among your first to pay for that service he has so devotedly given you during the anxious hours of your dire distress, so that he may be enabled to pay his bills for gas, tires, medicine, and equipment, so essentially necessary for him to render to you that prompt and efficient service that you so persistently demand. Think it over and act accordingly.

**SUNDAY SCHOOL
CLASS ENTERTAIN**

Last Wednesday night the T. E. L. class of the First Baptist Church entertained their husbands in one of the most enjoyable socials that had ever been our joy to attend. Absolutely nothing was left off, that could have been for the joy of those who were there. From the time you came into the church up to the very moment you left there was not one dull moment.

The following ladies entertained: Berdie, Pet, Pearl, Marella, Mollie, Effie, Minnie, Ora, Lillie, Minnie, Eunice, Kate, Reba, Margarete, Marie, Della, Hellen, Lida, Eunice, Willie, Verna, Ethel, Lorene, Panzy, Elenor, Alma, Ethel, Linnie, Angie, Ona, Winnie. Several of the class were not there for various reasons. The following men responded to their names as follows: Morris, Chance, Luther, Gene, Jeff, Roy, Ed, Claude, Perry, Frank, Ed, Dub, Tom, Cliff, Irving, Tom, Bill, Jim, Bob, Monroe, Bill, Carl, and Perry.

The organization of several lodges was gone into next. The Odd Fellows, Praetorian, Masonic, Woodmen of the World, and the Ku Klux Klan. Letters were placed in a hat and drawn out, and each one drawing a letter went into the order that his letter was in. After the organizations were perfected each order in turn had to put on some stunt. All the orders demonstrated their first degree which was very much enjoyed. The Klan as usual resorted to the whipping post, and they took Bill from the Masonic lodge and laid their usual number of lies on him.

Names were drawn again for the palatial feast. It made one think of the rich man who fared sumptuous every day. Every one after eating this splendid spread had to write on a piece of paper, a resolution for the New Year. Some splendid ones were written.

Congratulations to the Ladies of the T. E. L. Class. Here is wishing that ere long this same formula may be repeated.

Everyone went away feeling he or she knew each and all better than we had before.

MAN OF 60 HELPED
BY SIMPLE MIXTURE**

"After taking Adlerika I feel better than for years. At my age (60) it is ideal—so different from other medicines." (signed) W. W. Carter. Adlerika is a simple mixture of buckthorn bark, glycerine, etc., which removes GAS in ten minutes and often brings surprising relief to the stomach. Stops that full, bloated feeling. Brings out old waste-matter you never thought was in your system. Excellent for chronic constipation. —Corner Drug Store

GOOD ROADS?

Do they lead to O'Donnell. Business on wheels today. Distance means little. The network of smooth hard highways covering the country has profoundly changed the economic life of the nation. Once the farmer and his wife trudged down to the crossroads store for their daily needs and on Saturday the old gray mare brought them to the nearest town. The merchants of O'Donnell are no longer in competition merely with each other. They must compete with the merchants of surrounding towns. They must offer the same goods, the

and patiently munched at the hitching post while they made the rounds of the stores.

In these days people bought at home as a matter of course, because they couldn't go anywhere else. They took what the store keeper offered them because they could do nothing different.

But those days have passed and with them has passed the country "storekeeper" with his dirty floor, his cobwebbed windows and his meager stock, his pot-bellied store and box of sawdust.

In his place is arising a new type of country merchant with a bright clean store, with shelves well filled with nationally known, trade-marked goods.

Two things have brought about this changed condition—advertising and automobiles. Advertising tells the buyer what, where and how much—his automobile takes him there as a limited trading area. Mr. and Mrs. Public can buy their flour, shoes, clothing in O'Donnell or in some other town. They don't hesitate to motor over to another country if sugar is a cent cheaper or the store is cleaner and the service better, or somebody is having a "special" on bungalow aprons.

The roads are full of cars, the cars are full of people, and the people have money. That money is rattling down the road looking for a place to be spent—looking for THE place where it can be spent most wisely and to the best advantage.

That money may go to Lamesa, Tahoka or Lubbock or Fort Worth, but wherever it goes it will be directed to its destination by the force of advertising.
