Mr. and Mrs. Jake Gates, long-time and beloved residents here, celebrated their Golden Wedding Anniversary at their home Sunday Nov. 11th with 52 guests for lunch. 76 guests in all were registered.

Mr. and Mrs. Gates were wed at Mr. and Mrs. 11th, 1906 with the canyon on Nov. 11th, 1906 with the late Rev. Robertson reading the vows. Mr. Gates, prior to his marriage, was in the sheep business in Wyoming. Both Mr. and Mrs. Gates were reared at Montague. After their marriage they moved to Robt. Lee where they farmed moving to their present home here in 1916. Mrs. Gates recalls that their present farm was covered with prairie "towns" when they arrived.

Guests included: their children Sue (Gates) Clark, Emporia, Kan., Hester (Gates) Morgan, Denver, Colo., Mary Jo (Gates) Foote, Perryton, Tex., James W. Gates of here, Allyne (Gates) Towles, Gunnison, Colo., and Doris (Gates) Taylor of Colorado Springs, Colo. as well as nine grandchildren,

Also attending were Mr. Gates brothers and sisters — Purl Gates and wife of Bowie, G. W. Gates and wife of Shallowater, Frank Gates and wife of Tereboune, Ore., W L Gates and wife of McAlister, N M M. M. Gates and wife of McAlister, N. M. Mrs. Cassie (Gates) Morelock Tueumcari, N. M. and Mrs. Paralee (Gates) Laritson and family Tucumcari, also two nephews and one niece: Mr and Mrs. Frtiz Yonkee of Wyoming, Mr and Mrs. Dawson Ridling and family of Melrose, N.M. G. W. Gates, jr and wife and family of Shallowater; also Mr and Mrs. Stiff of Midland; two sisters of Mrs. Gates: Mr and Mrs. T M. Boykin of Miles and Mr and Mrs. W. R. Gibson, also Mr and Mrs. H. W. R. Gibson; also Mr and Mrs H. Towies of Levelland, Mr and Mrs Garner and Mr and Mr and Mrs. Etchison of Big Spring.

AMENDMENT 9 APPROVED

Lynn County went along with the rest of Texas in approving Amendment 9 by a vote of 232 to

MR, AND MRS, BUSTER HARRIS HONORED AT LUBBOCK

Members of the Central Baptist Church of Lubbock gave a silver tea Sunday afternoon honoring Mr and Mrs. Buster Harris on their Twenty-fith anniversary at their home on 24th st. in Lubbock.

The home was beautifully decorated with large white mums sent as gifts. The table was covered with a white lace cloth centered by a gorgeous candelabra flanked with

About fifty guests attended. Guests attending from O'Donnell included Mesdames Henry Harris, Ben Young and Paul Gooch.

ELLIS BARNES IS SCS STATE NOMINEE

Ellis Barnes of Wells has been named by a committee of Lynn Co. bankers as the outstanding supervisor of the Lynn County Soil Con-servation District for the year of 1956. Mr Barnes will be entered for the annual state supervisor award offered by Texas Bank and Trust Co. of Dallas

Last year's state award was won by a Lynn county farmer, K. K. oore of New Home, Mr. Ellis has been a member of the Lynn County Soil Conservation District Board for four years and is currently serving as its chairman and has attended two state conventions.

On his half section farm at Wells he has three small irrigation wells connected and has installed under ground pipe for conservation of the water. He has discussed with the Board the possibility of ASC assistance for spreading cotton burrs on his land, which practice has been approved. He uses legumes in crop rotations included planting of mung beans in grain sorghum. Also he is spreading cot-ton burrs on field turnrows to pre-

ens

J. E. Weir, Jr Dies Here In Car Crash Sunday

Death came suddenly early Sunday morning at 6:10 to J. E. Weir, Jr., 46, widely known local water well contractor, who was killed in a grinding head-on crash about 2 1-2 miles north of here. Also dead in same accident was Askue Flanagan, a Lubbock Negro, A passenger riding in the Flanagan car, Brack West, is in a Lubbock hospital in a critical condition. The mishapbrought to three the number of traffic fatalities in Lynn county in

Sonny Guinn, who investigated the accident, said that the Flanagan vehicle was going south and the Weir car, a new '57 Pontiac purchased only the day before, was traveling north. The new car had only 262 miles on the speedometer. Guinn said the Flanagan car was riding on the east side of the highway at time of the crash and that Mr. Weir's car left tire marks for 97 feet along the highway. There were no witnesses to the crash.

Monday at the First Baptist Church where he was a member. Rev. Earnest Stewart, pastor, officiated and burial followed here under direction of Stanley Funeral Home.

J. E. was born in Scurry County June 1st, 1910 and moved here in 1939 and entered the well drilling business. He served in World War

Survivors include his parents Mr. and Mrs. John E. Weir of Sny two sons, John of Brady and Bill of here and a daughter, Mrs Willard Roper of Eagle Pass, four brothers, Lee and Johnny Weir of Snyder, O. D. Weir of Lubbock and Jack Weir, three sisters Mrs. Mar-Sorrells of Ida, Mrs. Frank Hughs of Big Spring, and Mrs. Annie Phagerman of Maryland as well as three grandchildren,

Mr. Weir was one of the town's best liked citizens and his smile and his heart were as big as beloved plains. Like Will Rogers, J. E. never met a person he didn't like. Our sympathy to his loved

Wednesday there was a assembly of Junior and Senior High Schools. Mr. Carl Cain, local minister of Church of Christ spoke, Mrs Ben Moore, jr., president of Band Parents Club, presented the new band uniforms. The FFA concluded the program with a film.

Noble Is Rotary Candidate

The O'Donnell Rotary Club met Tuesday in its regular meeting with President Homer Hardburger presiding. Dr. Irvin Lehman was program chairman for the control of the contro gram chairman for the meeting. Theme of the program was vocational service and a film "Peace of Mind" dealing with insurance, was shown. Visitors for the luncheon included Granville Ayers and K. R. Durham of Tahoka and Conrad

Lusby of Lamesa. The O'Donnell Club is sponsoring J. Mack Noble, jr. as a candidate for a Rotary fellowship. The winning candidates will study in a foreign college for a year. While he is in the nation he will be a guest of the Rotary clubs and the Rotarians of that nation. Thus he will serve as an ambassador of good will by association and thereby implanting an idea of American ideas and ideals in the minds of those with whom he associates. On returning home the youth will give his impressions to America of the people and the country where he visited.

Mr. Noble is a graduate of Texas Tech, in chemistry and is doing work on his masters degree. He recently completed a tour of duty in the Army in Japan.

with her parents at Spearman. Mr and Mrs. Weldon Hancock

and children of Lubbock spent Sun day with his parents Mr and Mrs Homer Hancock.

Sunday guests of Mr and Mrs. Carroll were Mr and Mrs. Joe Durham and daughter of Lub-bock, Mr and Mrs Tommy Thagard and son of Midland, Mr and Mrs Bobby Carroll and son, Mr and Mrs Eldon Carroll and children of Tahoka, Mr and Mrs. Wayne Carroll and daughter and Mrs. Reba Goddard of here.

Mr and Mrs. Bill Dorman and son of Kermit visited her parents, Mr and Mrs. Joe Eakers last week

Mrs. Nettie Richards is visiting her parents at Wilson.

New Hope for Arthritics

Surveys reveal that more than 10,000,000 men and women over the age of 14 suffer from some form of arthritis and rheumatic disease. Of these, 200,000 are completely disabled, 4,700,000 are disabled part of the time; the remainder are subject to

chronic or recurrent pain. Statisticians estimate that 97% of all persons who live beyond middle life, come down with heumatic disease. The most severe form of the disease, rheumatoid arthritis, hits women three times as often as men.

More farmers are stricken with arthritis and rheumatism than individuals in any other field or occupation. 930,000 farmers, or 23% of all the farmers in the nation, know the aches and pains of these diseases.

Scientists believe that arthritis cannot be treated; they refer to the "management" of the disease. Researchers have discovered that pain and crippling can be minimized, so that people can function with ar- | severe suffering.

thritis in their system. A group of scientists studying arthritis at a leading Eastern medical college discovered that a drug called methacholine

was instrumental in relieving many of the aches and miseries of people who were afflicted with arthritis. Methacholine was combined with other therapeutic agents in a preparation called Surin, and the researchers continued their extensive clinical studies. Results of their tests published in a leading medical journal showed that as many as three out of four of the chronic sufferers from these crippling diseases found quick relief from pain and a number of them were able to move their joints more freely although the drug was only applied to the surface at the point of pain. A number of these patients who found relief with this preparation had also been unable to hold jobs continu-ously or move about without

The O'Donnell Eagles stormed out of the District 5 A cellar last Friday nite as they spotted Ropes-ville two first haff touchdowns and came from behind to take a 19 to 13 win in the last game of the season. H. B. John Valentine of Ropesville scored twice in the second quarter, going 25 yards over left tackle and then booting the extra point early in the period and then carrying another 25 yard scoring sprint before the half ended.

Trailing 13 to 0, O'Donnell came marching back 40 yards in the 3rd with Jerald Barton going the final yard and half. Barton passed to Ken White for the extra point. The Eagles held Ropesville in the 4th period as Barton passed to Charles Gass for 35 yards and the tying T. D. The next time the Eagles had the ball. Gass went wide on a reverse for 40 yards for the winning tally. The victory was the third of the season for O'Donnell against 7 losses and was the first conference win in six tries lifting them out of last place and dropping winless Ropesville into it. Sundown won the district title.

Mr and Mrs. B. B. Vestal spent the week end in Tulia visiting her

sand persons crowded Wildwood's boardwalk recently to watch the 42nd annual baby parade. The crowd saw one of the biggest parades in history as seven bands, 300 entrants and the queen's float filed along the boardwalk in a two-hour spectable.

Highlight of the gala affair was the crowning of the queen, Miss Barbara Blake, by Mayor W. Harry Steele. Queen Oceania, the 42nd was crowned at the reviewing stand, which was situated between Glenwood and Magnolia ave.

This also provided the most humorous comment of the day by Mickey Shaughnessy, who served as MC for the entire parade. As the mayor kissed Miss Blake after crowning her, the crown slipped from her shead which prompted Shaughnessy to remark, "There's one girl who flips her lid when the mayor kisses her." The mayor. went through the proceedings again without mishap.

laving flocks need at least 13 hours of good light every day if high egg production is to be main tained. Ben Wormeli, extension poultry husbandman, says the use of artificial lights in the laying house is a necessary management practice if poultrymen expect to teep egg production high during the seasons of short daylight hours.

CHILDREN

Parents are intrusted with children to rear them for the Lord. They are charged to "nuture them in the chastening and admonition of the Lord" (Eph. 6:4) Parents can fulfill this responsibility only if they are willing to give the necessary time, thought, work, and prayer to this God-given task. They have no right to bring children into the work, and the children into the work and the work. children into the world and let them live for the devil and go to the devil when they die.

Parents must direct the thoughts, words and deeds of their children. They must encourage them in the good and discourage them from the evil. If necessary to restrain them from evil, they must punish them. Eli sinned in that he did not restrain his sons from evil. (I Sam. 3:13) The modern doctrine of non-punishment of children is anti-scriptural, and is a sin against children.

Whole, Mission ories, never furnishing them good reading age and interests, and then wonder why ospel and make good church members. If ORANGE or training, they are a joy and satisfaction old age, but if they are allowed to grow up

Of Third Set

URBANA - CHAMPAIGN, III .-When you want to buy goods on credit, you will find it a lot easier if you are an accountant or auditor than if you happen to be a laborer or farm hand, regardless of your income. Your occupation doesn't determine your credit rating, but it helps.

"The more specific factors which aid in determining reliability of risk are occupation, the amount and regularity of income, age, reserve assets of various kinds, character, and reputation," says Robert S. Hancock of the University of Illinois marketing faculty.

He recently studied occupations in relation to credit in cooperation with the Associated Credit Bureaus of America. He reports findings in "Current Economic Comment." quarterly journal of the University's Bureau of Economic and Business Research.

Business executives, accountants, and auditors got the best ratings from credit bureaus and department store credit managers. Next were independent and chain store retail managers, and a group including physicians, surgeons, and dentists. Public officials-federal, state, and local-ranked 19th in a list of 42 occupations. Transient and seasonal workers got the lowest rating.

A similar study made in 1941 at Illinois by marketing professor P. D. Converse gave army and navy officers next to the top rating, and ranked the medical men 12th and 14th as credit risks. In Hancock's study the officers dropped to 8th place, while doctors and dentists upped their rating.

Spiderweb Business **Proves Profitable** In California Town

YUCAIPA, Calif.-Such precision devices as gunsights, astronomical instruments and survey instruments require crossed hairs." Mrs. Nan Songer supplies spider webs with which the "hairs' are made.

Her business goes back to her childhood when, because of her frail health, her parents encouraged her to be out-of-doors as much as possible. She became interested in insect life-first moths and butterflies, then crickets, and finally spiders.

By 1939, when 37, she had been experimenting with extracting the silken web from spiders for several years. The government was inquiring whether the web would be produced commercially.

Human hairs had been utilized for years in gunsights, bombsights and periscopes, but were susceptcontracted and broke in the subzero cold of the stratosphere-and sagged in high temperatures. An extremely fine, sturdy and elastic strand was needed-and the spider web was the answer.

Using fine needles, Mrs. Songer draws the silk from one of the spider's spinnerets and reels it on a metal frame for shipment.

Ding Dong Daddy Is Charged by Wife No. 16 With Bigamy

LOS ANGELES-Wife No. 16 of the Ding Dong Daddy of the "D" Line, Francis H. Van Vie, 66, has charged her husband with bigamy Mrs. Martha Moyle Van Wie signed a complaint that she married the former San Francisco motorman unaware of his 15 previous marriages.

The complaint accuses the roly poly motorman of marrying Martha in Yuma in 1951, then eloping two months ago with wife No. 17 Mrs. Amelia Pritchard Van Wie, 73.

Mrs. Martha Van Wie agreed to testify as a witness if the district attorney issued a bigamy complaint. She made her promise a few hours before a warrant was signed against Van Wie.

She told Walter Sullivan, district attorney's investigator, that she met Van Wie early in 1951 at a social gathering here and he proposed marriage, hinting that he was wealthy and would take her off the old age pension rolls. Mrs. Van Wie said they separated after two weeks, were reconciled for a few weeks longer and finally separated four months after their marriage.

Mrs. Van Wie filed suit for

Pontiac Has Itin the Surprise Package of '57

Like surprises? You've got one coming in Pontiac for '57! It's completely new ... from power to personality ... so advanced it's handed the industry a whole fresh set of styling and engineering ideas!

Here's where you'll find all the big-time changes in looks, ride, handling, performance. There's an exciting new expression of vigor, alertness and luxury in styling. There's a new ease and confidence at the wheel as you pilot the greatest V-8 ever developed—a power plant that tops even last year's Strato-Streak which set 50 world records and bested all eights in miles per gallon!

• And to prove it all, every feature of this great newcomer has been refined and perfected in the world's most exhausting and test - Pontiac's grueling 100,000-Mile Marathon Run! No wonder they're calling Pontiac the Surprise Package of the Year! Come in and drive it. You'll know in a single mile that it's America's No. 1 Road Car!

OVER 6 DOZEN "FIRSTS" INCLUDING ...

Star Flight Body Design—a Pontiac Exclusive— longer and lower than ever before—'57's most distinctive styling.

New Interior Styling—the "Off-the-Shoulder" Look — a fashion "first" for '57—perfectly color-matched with the exterior.

New Strato-Streak V-B Engine—270 h.p. in Star Chief and Super Chief, 252 h.p. in the Chieftain when teamed with Strato-Flight Hydra-Matic, an

Cloud-Soft Level-Line Ride—the ride sensation of the year—a new suspension system based on a big, road-hugging 124- or 122-inch wheelbase. Three Popular-Priced Series-

Lumber Turned Into Termite Killer

SHREVEPORT, LA. A hot charge of "Wolmanized" treated lumber is shown prior to emerging from a huge pressure cylinder at the Olin-Mathieson Chemical Corporation's Forest Products Division

The cylinder has just finished impregnating southern pine with "Wolman" salts, a solution that makes the lumber termite-proof, decay-proof, mold-proof, leech-proof and more fire resistant than untreated lumber. The salt solution termite-proofs the lumber after it is pulled through the wood and under a near absolute vacuum and is then pushed back through it under extreme pressure.

This treated lumber, used for sills, posts and girders, exterior siding, floor joists, bridging and headers, sub-flooring and skirting

below the first floor level, makes a home completely termite-proof.

The additional cost of "Wolmanized" lumber—which can be sawed, nailed, painted and finished as though it were ordinary lumber—is about \$100 for material costs in the average home. The lumber can be purchased through your local lumber dealer, or if he is out of stock, by having him write Frost Forest Products Division, Olin-

New Pyramid Is Found in Egypt By Scientists

pyramid has been discovered at Saqqara on the edge of Egypt's Western Desert, 50 miles from

It is a step pyramid like the nearby Pyramid of Zoser, . the earliest known building in the world made entirely of stone. The step pyramids were built in ascending stages, each smaller than the last, as contrasted with the smooth outline of the later true pyramids.

Scientists think the new pyramid probably was built for King Zoser's successor about 2700 B. C.

Discovery was made by archeologists sinking trial pits in late 1951. They found a vast terrace, 1803 feet long and 558 Yeet wide, surrounded by remains of an enclosing wall, one section of which was perfectly preserved.

Ruined Temples

Within the enclosure were piles of broken stone and masonry suggesting the temples, shrines, and secondary tombs which make up a pyramid complex. A pit dug in the exact center of the terrace uncovered three parallel leaning walls

The scorching heat of the Egyptian spring stopped work for a time and the dimensions of the central structure have not yet been ascertained. When digging begins again, efforts will be concentrated on a search for the well hidden burial chamber.

Egyptian officials say legendary curses will not stop the excavators. The most blistering curses inscribed on many tombs were directed more against violators of endowments than against grave robbers. Set up in lands and revenues, endowments insured proper religious services for the care of the departed soul.

What puts the Mark of Tomorrow in the new kind of FORD?

Here's what puts the Mark of Tomorrow in the new kind of Ford!

the going is great!

It's the sculptured look. You'll see it the moment you let your eyes wander over this fine car. In a '57 Ford you belong . . . anywhere. It's the long, lean lines. There's a greyhound grace to the new Ford. No useless "fat," no showy "padding." Ford is as trim as a jet fighter. It's the hardtop styling. Fairlane sedans have the hardtop look of Victorias! Superthin center pillars are smartly concealed to give hardtop beauty when doors are closed.

It's the freedom of choice. Colors? Fabrics? Accessories? Far more! Ford gives you a choice of two new, bigger sizes . . . longer, lower, roomier! It's the ride that stays gentle. With a new frame that rides

sweeter and lower, new springs, new suspension all around, even the rudest roads can't ruffle the poise of the new Ford. It's the Thunderbird power. Ford celebrates its

It's the record-breaking performance. On the Salt Flats at Bonneville, Utah, a '57 Ford traveled 50,000 miles in less than 20 days . . . an average speed of 108.16 mph, including all pit stops! Another Ford averaged over 107 mph. Altogether, 458 national and international performance records were smashed as Ford rewrote the record book.

It's the big dollar value that lasts and lasts. Styled for tomorrow, a new Ford keeps its value longer. And wonder of wonders, all this extra strength, extra beauty, extra length is yours at low Ford prices!

*Included is a special 270-hp Thunderbird 312 Super V-8 engine available at extra cost. Also, an extra-high-performan e Thunderbird 312 Super V-8 delivering up to 285 hp.

Wise man say:

"Don't wait for TOMORROW when you can get it today!"

thway patrol trooper.

When they were returned to wn, a judge told them they old have stopped to see the this. They entered the spirit of a civic promotion, pleaded guilty and were sentenced to spend 24 urs in the city and vicinity as sets of the local 20-30 Club.

Alert Scientists Grow Polio Vaccine In Chicken Embryo

NEW YORK—The first vaccine of make people immune to polio hay have been developed recently at laboratories here. The new faccine already has been tested on the human volunteers. All developed protective antibodies in the blood, materials produced in the blood which fight disease organisms. None of the volunteers suffered any bad side effects.

However, the vaccine will not becessarily give immunization from all types of polio as it was produced from only one of the three strains of virus that cause the disease, possibly the most deading but it may develop initial basic immunity against the other two strains.

The scientists have been able to induce the clusive virus to grow in chick embryos in eggs, meaning that eventually it will be possible to manufacture the protective virus in large amounts.

The major problem in making a vaccine to use against virus disease such as polio has been found in the difficult character of viruses themselves—scientists still don't know exactly what they are.

A virus, unlike a bacteria which is a living organism, acts like both an organism and a chemical molecule. It is much smaller than a bacteria, and cannot be seen without an electron microscope. But a virus will grow or multiply only in a living cell. Some scientists think they are a sort of gene, beredity agent, gone wrong.

HOW A TRUCK DRIVER BECOMES A HOBBS KNIGHT OF THE ROAD—More than 200 Texas truck drivers have been honored in the past two years by a state-wide program designed to recognize doers of good deeds on Texas highways, whether it be heroic action during a crisis or simple acts of consideration and courtesy. Typical examples of these acts are giving first aid at highways accidents, clearing wreckage from the highway and directing congested traf-

fic; helpful assistance to stranded motorists; heroic acts ranging from saving motorists caught in flash floods to rescuing a small child who wanders out into heavy traffic; highway courtesy such as pulling off the highway to let faster vehicles pass on a hill or in heavy traffic. The Hobbs Knight of the Road program is co-sponsored by Hobbs Trailers, the Texas Safety Association and the Texas Department of Public Safety's license and weight division.

What ever amount you can give to the upkeep of the O'Donnell Cemetery Association for the year 1957 will be greatly appreciated.

The Annual Cemetery Dinner will be held Nov. 29th in the Elementary School Cafeteria. Serving will begin at 11 a.m. and continue until 1:30 p.m.

What puts the Mark of Tomorrow in the new kind of FORD?

Here's what puts the Mark of Tomorrow in the new kind of Ford!

It's the sculptured look. You'll see it the moment you let your eyes wander over this fine car. In a '57 Ford you belong . . . anywhere. It's the long, lean lines. There's a greyhound grace to the new Ford. No useless "fat," no showy "padding." Ford is as trim as a jet fighter. It's the hardtop styling. Fairlane sedans have the hardtop look of Victorias! Superthin center pillars are smartly concealed to give hardtop beauty when doors are closed.

It's the freedom of choice. Colors? Fabrics? Accessories? Far more! Ford gives you a choice of two new, bigger sizes . . . longer, lower, roomier!

It's the ride that stays gentle. With a new frame that rides sweeter and lower, new springs, new suspension all around, even the rudest roads can't ruffle the poise of the new Ford.

It's the Thunderbird power. Ford celebrates its Silver Anniversary of V-8 leadership with the

It's the record-breaking performance. On the Salt Flats at Bonneville, Utah, a '57 Ford traveled 50,000 miles in less than 20 days . . . an average speed of 108.16 mph, including all pit stops! Another Ford averaged over 107 mph. Altogether, 458 national and international performance records were smashed as Ford rewrote the record book.

It's the big dollar value that lasts and lasts. Styled for tomorrow, a new Ford keeps its value longer. And wonder of wonders, all this extra strength, extra beauty, extra length is yours at low Ford prices!

*Included is a special 270-hp Thunderbird 312 Super V-8 engine available at extra cost. Also, an extra-high-performan e Thunderbird 312 Super V-8 delivering up to 285 hp.

Wise man say:

"Don't wait for TOMORROW when you can get it today!"

tah Town Snags Ohio burists Passing By

RIGHAM CITY, Utah—Failure stop at this northern Utah peach wing center was the charge inst three Ohio tourists who re arrested near here. The town named after Brigham Young, mon colonizer.

fr. and Mrs. Howard Stephens d Briggs Barrett, all of Wilming-, Ohio, were picked up by an iter. They pleaded that they re in a hurry to get to Yellow-me park. The officer was a Utah

thway patrol trooper.

When they were returned to so, a judge told them they sold have stopped to see the this. They entered the spirit of e civic promotion, pleaded guilty and were sentenced to spend 24 urs in the city and vicinity as sets of the local 20-30 Club.

Alert Scientists Grow Polio Vaccine n Chicken Embryo

NEW YORK—The first vaccine of make people immune to polio hay have been developed recently at laboratories here. The new faccine already has been tested on the blood human volunteers. All developed protective antibodies in the blood which fight disease organisms. None of the volunteers suffered any bad side effects.

However, the vaccine will not tecessarily give immunization rom all types of polio as it was produced from only one of the three strains of virus that cause he disease, possibly the most deady. But it may develop initial basic immunity against the other two strains.

The scientists have been able to induce the clusive virus to grow in chick embryos in eggs, meaning that eventually it will be possible to manufacture the protective virus in large amounts.

The major problem in making a vaccine to use against virus disease such as polio has been found in the difficult character of viruses themselves—scientists still don't know exactly what they are.

A virus, unlike a bacteria which is a living organism, acts like both an organism and a chemical molecule. It is much smaller than a bacteria, and cannot be seen without an electron microscope. But a virus will grow or multiply only in a living cell. Some scientists think they are a sort of gene, heredity agent, gone wrong.

HOW A TRUCK DRIVER BECOMES A HOBBS KNIGHT OF THE ROAD—More than 200 Texas truck drivers have been honored in the past two years by a state-wide program designed to recognize doers of good deeds on Texas highways, whether it be heroic action during a crisis or simple acts of consideration and courtesy. Typical examples of these acts are giving first aid at highways accidents, clearing wreckage from the highway and directing congested traf-

fic; helpful assistance to stranded motorists; heroic acts ranging from saving motorists caught in flash floods to rescuing a small child who wanders out into heavy traffic; highway courtesy such as pulling off the highway to let faster vehicles pass on a hill or in heavy traffic. The Hobbs Knight of the Road program is co-sponsored by Hobbs Trailers, the Texas Safety Association and the Texas Department of Public Safety's license and weight division.

What ever amount you can give to the upkeep of the O'Donnell Cemetery Association for the year 1957 will be greatly appreciated.

The Annual Cemetery Dinner will be held Nov. 29th in the Elementary School Cafeteria. Serving will begin at 11 a.m. and continue until 1:30 p.m.

Recent rains in many areas of the state have been sufficient to germ-inate and start growth of dry planted pastures. Plantings can still be made but late plantings mean less grazing.

Winter is here and a hard freeze can play havoc with auxiliary motors, tractor engines and sprayers unless they have been properly winterized.

The farm population of the United States has been decreasing about 600 thousand a year since 1949. Farmers who have remained on the land have achieved record breaking harvests on about the same acreage and with 30 percent less labor.

The Texas Farm and Ranch Safe ty Council reminds all highway users that driving conditions for the next few months generally are conducive to traffic accidents. "Use care and do a lot of thinking when driving during adverse weather per

Laying flocks need at least 13 hours of good light every day if high egg production is to be main-tained. Ben Wormeli, extension poultry husbandman, says the use of artificial lights in the laying house is a necessary management practice if poultrymen expect to keep egg production high during the seasons of short daylight hours.

The 1956 crop of seed is foreast at pounds of clean seed. This is 43 per cent below last year's record crop. Put leaves to work which are now falling and cluttering yards and
