SCOUT NEWS

Forty-one miles through the Panama Canal is the annual cayuco race for the Scouts of Balboa, Canal Zone. It is timed, daylight race with the crews spending nights ashore. The race goes through a mangrove swamp and turbulent waters of 85 foot docks. On the 23½ miles of the lake the crews try to catch that lead cayuco, keep ahead of those behind, and keep out of the way of ocean-going ships that transit the canal at the rate of 30 a day. Also, the cayucos lock down with whatever ship is going through the Pedro Miguel and Miraflores locks to the Pacific level. Quite a bit of excitement takes place when the turbulence of the 26 million gallons of water shoots each lockage and the crews wear life jackets and bail furiously.

Wednesday morning from complications developing from injuries sustained in a car wreck August 23 between Sterling City and Big Spring on Highway 87. Mrs. Wheat was not seriously injured but occupants of the other car involved were killed.

Mr. Wheat was born Dec. 6, 1903 in Blanket, Brown county. He and Miss Nina Jennings were married at Winters July 7, 1924 and came to Lynn county in 1934 from Rannels county. They lived in O'Donnell about 10 years before moving to Brownfield in 1960. He was a ginnee.

WARREN SMITH IN TROUBLE WHEN CAR RUNS IN WATER

Mr. and Mrs. Warren Smith, O'Donnell, had a scare during the heavy rainstorm seven miles south of Tahoka Sunday night when their car was washed off the highway by rushing waters crossing the pavement from west to east from the Fred McGinty pasture area to the Cleve Littlepage lake.

Mrs. Smith told The Index they were really in no great danger but the experience was frightening.

They were returning home shortly after 10:00 p. m. from visiting Mr. Smith's father, Halford Smith of O'Donnell, who has been critically ill for some time, and they were driving Mr. Smith's Lincoln car.

Before they hardly knew what happened they were in the median ditch between the west and east lanes of the four-laned divided highway, and water was up in the car. When she got out, Mrs. Smith said the water was more than waist deep.

State Highway employees, however, were on hand quickly, and J. D. Davis and "Slim" Pyburn rescued them and pulled their car to safety.

"We are truly grateful for the fine work of these alert highway employees," Mrs. Smith said. They were glad to get out with only damage to clothing and a soaked car.

Young Homemakers Install Officers

The O'Donnell Young Homemakers met Thursday night, Sept. 1 in the home economics dept. Sixteen of the members were present. A most impressive installation of new officers opened the meeting. Mrs. Harold Sanders, retiring president, installed the new officers, those being: Mrs. Jim Burkett, president; Mrs. Tommy Gardenhire, vice president; Mrs. David Franklin, secretary-treasurer; Mrs. Bobby Cox, reporter-historian; and Mrs. Harold Sanders parliamentary.

Mrs. Jim Burkett gave the inspiration for the meeting. It was reported that 19 members had pre-registered for the area convention to be held in Snyder Sept. 17. Several of the members will present a talent act at the convention.

Plans were made to operate a concession booth at the upcoming Young Farmers farm sale to be held in October.

Mrs. Tommy Gardenhire reported that the first lesson of the Red Cross First Aid course is to be held Sept. 8 in the school cafeteria. Mr. Pat Patterson of Tahoka will conduct the course.

The meeting closed with the reading of the Young Homemakers creed.

Refreshments of cookies, brownies, and cokes were served by Mrs. Bubs Allen and Mrs. Freddy James.

Army Worms In Grain Sorghum

Armyworms are reported to be attacking grain sorghum in several counties in the High Plains, according to Extension entomologist Don Rummel, of Lubbock.

Rummel says he has received reports of armyworm infestations in Bailey, Hale, Lubbock and Floyd Counties. In some cases armyworm populations are so large that they are completely stripping the leaves from the grain sorghum.

A number of insecticides are available to control the worms he said, but at this stage of the season it is important that producers select only those labeled for use shortly before harvest.

The entomologist says recommendations for armyworm control in grain sorghum are the same as those listed for sorghum webworm and corn earworm control in the Texas Guide for Con-

trolling Insects on Grain and Forage Crops.

County agents have the Extension Service publication and can give further information on armyworm control, Rummel said.

Softer Hands

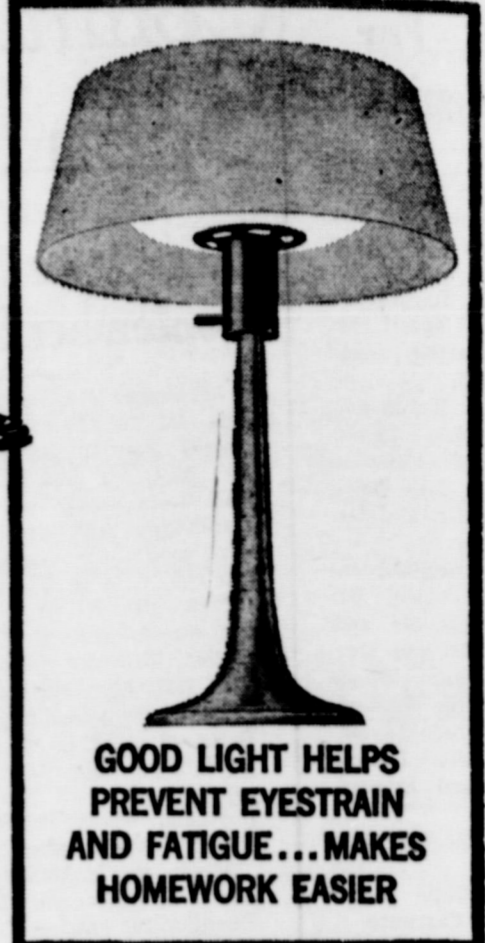

IT'S ROUGH—If you do housework and dishes and use detergents, you know how fast your hands dry out and chap. But did you know that there is now anti-detergent type hand cream, created especially for hands of the modern detergent generation? Gloves help, of course, but apply cream before as well as after household jobs and you'll notice the difference. Latest Pacquin surveys reveal that most women use hand cream regularly before retiring, because cream stays on and restores moisture to the skin while they sleep.

American Way

BATHING LUXURY — That's what American women seem to want today because a recent Pacquin survey indicates that more than half of our female population is using bath oil. Oil softens water as well as skin, and in hard water areas bathing is better with bath oil. A new Silk'n Satin bath oil just introduced by Pacquin has an exotic, floral fragrance that lasts and can be used by shower as well as tub enthusiasts.

PROPER STUDY LIGHT IS GOOD PROTECTION, TOO!

Thanks to an alert safety patrol, school-bound youngsters are protected from harm as they cross busy streets. At home, proper study light is good protection against eyestrain and fatigue.

For best light from a table lamp, use at least 150-watt illumination in a lamp that's tall enough to spread light evenly over the work area. It should be properly shaded to shield the light source from the eyes. A diffusing bowl is recommended to soften the light and prevent glare. Check your children's study light now. Better light can mean better grades.

Highway Patrol Reports Wrecks

The Texas Highway Patrol investigated six accidents on rural highways in Lynn County during the month of July, according to Sergeant A. E. Roberts, Highway Patrol Supervisor of this area.

These crashes resulted in one person injured and an estimated property damage of \$2610.00.

The rural traffic accident summary for this county during the first seven months of 1966 shows a total of 54 accidents resulting in two persons killed, 19 persons injured, and an estimated property damage of \$26,785.00.

"School days" are almost here again. The familiar yellow school buses will soon be back on the highways. The Sergeant reminds all motorists of the State Law regulating traffic in regard to school buses. "The drivers of a vehicle upon a highway outside the limits of any incorporated city or town upon meeting or overtaking from either direction any school bus which has stopped on the highway for the purpose of receiving or discharging school children shall stop the vehicle immediately before passing the school bus, but may then proceed past such school bus at a speed which is prudent, not exceeding (10) miles per hour, and with due caution for the safety of such children."

Burned Grain May Be Grazed

Burned up grain sorghum may be grazed by most farmers if they desire and otherwise are in compliance, according to Wallace Dove, Lynn county ASCS office manager.

"Grain sorghum planted in a workman-like manner for harvest which fails to mature by reason of hail or drought, or for reasons beyond the farmer's control, can be grazed by livestock and the farmer can still qualify for price support," Dove informs The Index.

Because of the July drought, most old maize in the county has burned badly and a lot will not mature. Such maize land, if the farmer is in compliance with the farm program, may be grazed by cattle.

FALL CLEAN UP TIME FOR O'DONNELL IN SEPTEMBER

As the busy Fall approaches, there will not be much time for cleaning the "SPOTS" in O'Donnell that are needed to be cleaned up. Some are bad enough to even create fire hazards.

So we, who are organizations who believe in our town and wish to have it a desirable place to live, are cooperating with the City of O'Donnell in a Fall Clean Up Time. The street and block captains who served in the City's spring clean up are asked to serve for the Fall clean up. Each citizen is asked to be working on his own property.

Fall Clean Up Day has been tentatively set for September.

Cotton Acreage Is Close To 120,000

Lynn county possibly has less than 120,000 acres in cotton this year, based on figures from the local ASCS office.

Base cotton acreage for 1966 is about 176,000 acres. Farmers have bought about 12,000 acres in other counties for transfer to Lynn county farms, but this has been reduced to about 7,000 acres on a poundage production basis comparison.

But, in complying with the new Federal farm program, most farmers have taken the 35 percent reduction option, leaving about 119,000 acres eligible for planting.
