Martin Dies To Speak In Lubbock Soon

Martin Dies, chairman of the House committee investigating un-American activities, telegraphed his acceptance Monday of an invitation to address an all-West Texas patriotic roll in Texas Technological college stadium.

The date, he said, depends on when Congress adjourns. Uncertainty as to when that may be was increased Monday by dispatches from Washington to the effect that leaders apparently have abandoned hope of an adjournment next Saturday because of the collapse of France.

Dies' telegram of acceptance, received at the chamber of commerce, read:

"Sometime this summer I will address a patriotic rally in accordance with your suggestion. Cannot fix date now because it is uncertain when Congress will adjourn."

The invitation to Dies, who resides in Orange, Texas, and represents the second Texas district in Congress, was sent by Allen Bros. Post of the American Legion, which will be official sponsor of the patriotic rally. Joining in the invitation to Dies to appear here were in numerous organizations and individuals, including the chamber of commerce.

While the uncertainty as to the date of his appearance made impossible, tentative preparations will be started without delay, according to A. I. Glassman, commander of the Legion post, and Grady West, adjutant.

Chas. Whitacre, district commander of the Legion, announced that the monthly district meeting of the organization probably will be held in Lubbock on the date of the address.

The congressional committee of which Dies is chairman is credited with having been the first to awaken the American public to a realization that alien enemies might be a menace to the nation. Evidence uncovered by the committee is credited also which led to the prosecution and convictions in numerous such "fifth column" organizations as the German-American Bund.

NOTICE

Due to the fact that so many swimming parties in the lake on my place south of town have disturbed the cattle being fed out there, I am forced to ask that no others be held there. This request applies also to groups of boys who have been swimming during the afternoons. I will appreciate your courtesy and cooperation.

Cow Testing Service Offered to Farmers

Plans are now under way for a Bangs disease eradication program in Lynn County, according to state agents from the office of County Agent Donald Turner. The federal government is cooperating in the project.

In view of the fact that a number of herds have already shown definite symptoms of this disease, which causes undulant fever in human beings, the program is of vital interest to residents of the section.

Under terms of the plan, the owner must sign an agreement that he will sell for slaughter, under government supervision, any animal which shows a positive reaction to with no cost to the owners.

Owners of dairy cattle in particular are urged to request to contact Mr. Turner immediately, as the use of raw milk from infected herds is terribly dangerous for human beings.

MONAHANS, June 19.—Ollie Bruton, jeweler, says he has invented a new electrical shell thrower which will propel a 1,000-pound high explosive projectile 750 miles an hour.
