FSA Borrowers Of Lynn Plan For More Home Uses

Farm Security Administration borrowers in Lynn County are laying special emphasis on the production of food for their table, feed for their livestock and proper crop diversification in their 1940 plans for farm and home operations, Wyman J. Welch, county supervisor for this federal agency said here this week.

"The farmers who come to us for rehabilitation loans," Welch said, "are realizing that production of their own feed and food is an important factor in the successful operation of any farm."

He said tremendous strides have also been made in crop diversification which means that a similar gain has been made in the adoption of soil conserving practices because the two go hand in hand.

Bigger and more properly planned gardens are growing this year on the farms of FSA borrowers, according to Ovel M. Lytle, home management supervisor. No only will these gardens help keep down living costs, but they will result in better diets and improved health for the families.

Miss Lytle said ten FSA borrower families in Lynn County produced 75 per cent of their living at home last year and fourteen produced 60 per cent of their living at home because of the increased trend toward greater home production of food. Miss Lytle believes this number will be doubled this year.

Sub-irrigated frame gardens, Miss Lytle said, are taking the county by storm. By using old lumber and discarded oil cans, even the most disadvantaged farm families find they can construct these frame gardens and provide fresh vegetables from early spring to late in the winter. A total of thirty-eight new frame gardens have been constructed by FSA borrower-families this year in Lynn County.

Gratified Over Fight For Appropriation

Gratification over the successful fight in which he had joined with Marvin Jones and others from agricultural areas seeking parity payments for farmers was expressed by Congressman George Mahon last week as the House of Representatives approved an item in the Agricultural Appropriation Bill providing \$21,000,000 for these payments. Continuing the fight began when the bill was considered earlier this session, Mahon again made a plea to the House to accept a Conference Committee report including the \$21,000,000 parity payment item, which had originally been omitted by the House but approved by the Senate and again brought before the House by the Conference Committee report.

Although final vote on the entire bill had not been taken at the time this story was written, Mahon said that the favorable vote on the parity payment item insured its being included in the bill and that final passage was assured.

The farmers' disproportionate share of the national income, his need for an offset to the advantage held by industry through the tariff, and equal recognition of his problems with the problems of labor for whom minimum wage and hour laws have been enacted were cited by Mahon as justifying an appropriation by Congress for parity payments.

Mrs. Charles Hoffman is walking on crutches this week, nursing a sprained ankle received last Thursday when she jumped off the porch.

tion methods and home production of food this year will result in an even greater increase in the net worth of the families being assisted by FSA than in 1940. Consequently these rural people will be able to maintain a higher standard of living, and better health, and have a much greater purchasing power in this community.

COTTON CROP FINALS LISTED BELOW 1938

The Agriculture Department reports that revised estimates of the 1939 cotton crop totaled 11,817,956 bales of cotton as compared with 11,943,000 bales for 1938.

Texas led the nation in cotton production with 8,846,000 bales.

ELECTRIC LINE DUE IN GAIL

GAIL—Borden County is to have electric current by June 1, as a result of the extension of the Lyntegar Electric Co-Operative Inc. from Tahoka to Gail, where electricians are now wiring homes and business houses. More than 80 meters are to be installed in the county.

Scholastics In County Increases

Records in the office of Mrs. Lenore Tunnell, county school superintendent, show a slight increase in the number of scholastics in the county over last year, the figures for this year being 3,077 while those for last year were 3,055.

Only seven of the districts, however, show increases, while nine of them show decreases. New Lynn has exactly the same number.

The largest increase is known in the O'Donnell district, where there are 45 more scholastics than last year. The largest percentage increase is in the West Point and Three Lakes communities, the increase in each district being exactly 50 per cent. This is accounted for by the presence of Mexicans in that section of the county who are employed in grubbing.

The figures for the county are as follows:

Tahoka	700	702
O'Donnell	450	495
Wilson	404	383
New Home Cons.	385	406
Draw Cons.	216	195

MRS. LINDLEY HOSTESS TO H. D. CLUB

(Delayed From Last Week)
 "Curing and Storing of Meats" was the subject on May 10th when the T-Bar Home Demonstration club met in the home of Mrs. H. F. Lindley.

There are no special secrets in the use of cottonseed oil, any container which will hold oil may be used, although a large earthen jar is best, so as to reduce the amount of oil necessary to cover the meat. Pack all pieces tightly. With average packing it will take about three gallons of oil to cover 100 pounds of meat. For sanitary purpose, be sure to cover the container, stated our home demonstration agent, Miss Maurine McNatt.

After the program, a sunshine shower was given in honor of Mrs. Frank Sargent. After Miss

Barnes and Coffee had presented the lovely gifts, refreshments of angel food cake and lemonade were served to the following club guests: Mmes. Fred McGinty, Tahoka; J. M. SCATTERED SHOWERS HERE MONDAY START FARM W.C.

Scattered rainfall, mixed with quite a bit of hail and more than a bit of electrical display, fell here Monday afternoon and was of considerable benefit to at least a part of the territory.

Precipitation was spotted, according to reports here Tuesday morning. The New Moore community was left out completely, while a strip some eight miles west of town received only a light shower. East of town, near the George Burdett place, only a sprinkle fell, while other farms in the same area received a fair shower.

Despite its scattered distribution, however, the rain has started farm work in a big way, and it is hoped that, now the ice is broken, maybe the weatherman won't be afraid to send along more rain.

Mrs. C. L. Hafer was the gracious hostess Tuesday afternoon to members of the bridge club. Mrs. W. I. Pratt of Midland and Mrs. H. Ollie of Levelland were club guests.

CONSIDER YOUR BARGAINS

The careful housekeeper is one who carefully considers whether or not so-called "Bargains" are always Bargains; Sometimes a highly advertised "Bargain" is anything but that.

But O'Donnell Homemakers know from years of experience that any item which comes from this store must be worth the price, because we back our Merchandise with our personal integrity.
