New Peace Terms

Observers are speculating over so-called cold war peace terms reportedly acceptable to the Russians which include a demand that the United States cease helping to re-arm western Europe.

It was an ironic demand because at the same time the Soviet agreed to recognize the Atlantic pact as a legitimate regional defense group under the terms of the United Naions charter.

It is this pact that pledges the western nations to mutual aid. The Soviet also had three de-

mands on the Far East: (1) Elimination from the United Nations of the representatives of Generalissimo Chiang Kai Shek's government.

(2) Acceptance by the western powers of the Russian "gold ruble" as the basic currency for China's foreign trade.

(3) Soviet participation in the conclusion of a peace treaty with Japan which would guarantee the latter country what Moscow con-siders to be "political freedom." In the European field, the Soviet

had four rather vague offers: (1) Unification of Germany within the framework of the Potsdam

(2) Neutralization of Germany. (3) Withdrawal of all occupation-

al forces from Germany. (4) General reduction of arma-

ments and armies, including the abandonment of conscription. Observers did not believe the terms would be attractive enough to bring about any settlement of

differences between the East and the West. Russia, as usual, wants a great deal but is vague about tangible returns.

#### DEWEY:

Plans to Retire

One of the most spectacular careers in modern American politics has come to a halt, at least temporarily.

Governor Thomas E. Dewey of New York has announced he will retire from politics after 20 years in public life and probably return to private law practice when his second term expires next December 31.

statement which he personally distributed to reporters. "I shall not be a candidate for re-election next rested and fined in the 1945 case sonal White House ambitions last December.

raised a number of questions in tenant Andrew Roth as a "Commuthe New York state political picture as well as on the national scene.

Dewey, New York's only Republican governor in the past 30 years, added, however, that he would continue an active interest in public affairs. He promised to speak out on "issues affecting the welfare of the state and nation," especially foreign affairs.

He rose to political prominence when he pyramided his fame and methodical efficiency as a racketbusting prosecutor in New York city into two terms as governor and two nominations for President. He was defeated by President Roosevelt in 1944. In 1948, he lost to President Truman.

The governor said he had made no definite decision as to his plans, but intended to get much rest. He said there was nothing wrong with him physically that a long vacation would not cure. He is just "tired," he added.

### HUNGARY:

Demands Ransom

The custom of blackmail, ransom and intrigue so often employed by the Nazis in the reign of terror over Europe, has put in a more obvious appearance under the Communists.

Hungary has demanded the ancient crown of St. Stephen as ransom for Robert A. Vogeler, imprisoned American businessman.

According to reports from Europe, Hungarian Communists have offered to swap Vogeler for the 1,000year-old crown which is the symbol of Magyar royalty.

The crown was taken from Hungary by the Nazis and later found the American troops in Germany.

### CORPORATIONS:

Increased Taxes

When the election conscious house and senate began a program of tax cutting after President Truman offered his budget, he warned any reductions must be met with rev-

enue from other sources. Now, the house ways and means committee, obviously bidding for presidential approval of the excisecut, had voted a \$433,000,000 rease in the yearly tax on big rporations.

### Admits Spying

David Greenglass, 28, former noncommissioned army officer, has admitted giving Russia information about the atomic bomb. He was the third person arrested in the spy ring since the British scientist Klaus Fuchs was taken into custody.

#### ESPIONAGE:

New Arrests Made

Since British scientist Klaus Fuchs admitted spying for Russia the F. B. I. has been closing the net around associates in the United States who passed along classified atomic information to him.

As a result two new arrests have been made. One of the accused admitted that he passed along atomic secrets from the Los Alamos, N. M., plant in 1945.

He is David Greenglass, a 28year-old former Communist league leader who explained his act: felt it was gross negligence on the part of the United States not to give Russia the information about the atom bomb because she was an ally.

The other accused, Dean Slack, a 44-year-old Syracuse, N. Y., chemst, denied he knew Henry Gold, the first arrested in this country. He added he was not and never had been a Communist. Both men are held under \$100,-

Meanwhile, a grand jury investigating Amerasia case, which has been much in the headlines recentcleared the administration's handling of the stolen documents case, but strongly recommended the impaneling of a new grand Dewey said in a one-sentence jury to continue the investigation. Also in connection with the case, Emmanuel S. Larsen, himself ar-

Government officials indicated that the arrest of Slack and Greenglass was only the beginning in the battle to break up what may pos-sibly be one of the greatest spy rings in the history of this country.

### COMMUNISTS:

Defeat by Ballot

Political observers were pleased with the outcome of the state election returns in the Ruhr section of Western Germany. They felt it was a defeat of the Communists by the ballot.

In the British zone the voters picked a 215-seat parliament and voted on a proposed state constitution. The returns indicated Communist strength had tumbled to a postwar low when they received only 5 per cent of the valid ballots, compared with 14 per cent in the election three years ago.

The workers, however, favored the proposed state constitution with its socialization clause:

"Large factories of the basic industries and undertakings which. because of their monopolistic position have special significance, shall be transferred to common ownership.

The specific industries were not named in the draft.

Western observers felt the elections justifiable in that they would: 1. Give the new nationalist parties, which were not even in arena in the federal elections last August a chance to show their

### BROADWAY AND MAIN STREET A Little Secret of Murder — Revealed After 40 Years

By BILLY ROSE On an October morning in 1903, in a village not far from La Rochelle in eastern France, a young priest paled as he listened to

his first confession. Yesterday afternoon," he heard the penitent on the other side of the curtain say, "I met a stange girl on the dirt road that runs by the pond. When I tried to make friends with her, she laughed at me, and I got so mad I picked up a stone and hit her to make her stop laughing. She fell down, and when I yelled and she didn't move I got scared and buried her beside some bushes."

Father Antoine recognized the voice as that of a 15-year-old who was known in the village as "the story teller"-a boy was always talking about his daydreams as if they had actually

happened.

confused.

Even though he didn't know whether the confession was fact or fiction, the priest imposed most severe penance, and in addition ordered

the boy to visit him every day after school for a friendly talk. A few weeks later, Father Antoine was almost certain the was an hallucination. For one thing, there had been no report of a missing person in the district and, for another, the boy's descriptions of

the murder grew more and more

ONE AFTERNOON he finally ad-

was a fabrication. "I did meet a girl," he said, "and she got me so angry that I wanted to kill her. But I never touched her, and afterwards I got all mixed up about what I wanted to do and what I really did." "I suspected as much all along," said Father Antoine, "but

first. You see, you were the first person who had ever confessed to me." Two years later, the boy's family moved to Paris and the priest all but forgot the incident-until a new paved road was laid alongside the old dirt one. Under a bush near the pound was found the decomposed body of a girl, and the coroner testified it had been there about two

Meat Loaf, Potato Salad Makes Ideal Meal (See Recipe Below)

Meals-Indoors or Out

WEEKEND plans have a way of going awry, depending upon who drops in and what the weather turns out to be. Fortunate indeed is the homemaker who can serve from four

to eight people readily, or set the dining room

table or the meal to the back porch. Meals for such weekends should be planned with

care so there will be ample food, but none to waste. Choose combinations that can be reheated and served later if they're not eaten.

Good staples for menus include potato salad, ham or chicken. Have salad ingredients washed and chilling so that you can use as many or few as needed. A plain cake which can be frosted at the last minute, or some creamy citrus sherbet nestling in the refrigerator will solve dessert or snack problems conveniently, and with a flourish.

\*Spicy Potato Salad (Serves 6 to 8)

- 3 pounds cooked potatoes
- cup pickle juice 1/2 cup finely chopped onion
- 2 teaspoons salt
- 4 teaspoon pepper 2 teaspoons celery seed
- 1/4 cup chopped sweet pickles 3 hard-cooked eggs, chopped

½ cup mayonnaise Pare and dice potatoes; add pickle juice and allow to chill in the refrigerator for 1 hour. Add onion, salt, pepper, celery seed, chopped pickles and eggs. Blend in mayonnaise, mixing lightly but thoroughly. Chill in refrigerator.

\*Ham Loaf (Serves 6-8)

- 2 pounds ground, smoked ham
- pound fresh pork, ground 1 cup soft bread crambs.
- 1 egg, slightly beaten 1/2 cup milk
- teaspoon prepared mustard 1 teaspoon worcestershire
- sauce 1 small onion, grated
- 1/4 cup sweet pickle relish
- 2 tablespoons melted butter
- 2 tablespoons brown sugar Whole cloves

Combine ham, pork, bread crumbs, milk, mustard, worcestershire sauce, onion and pickle relish; mix lightly but thoroughly. Lightly grease a 9x5x3-inch loaf pan; line with waxed paper and grease lightly. Pack mixture firmly into pan. Combine butter and sugar and spread over top of loaf. Insert whole cloves on top of meat mix-Bake in a moderately hot (375°) oven for one hour or until done. Pour off excess drippings that form during baking. Serve hot or cold.

HERE'S A flavorful way to cook chicken. It may be served hot, but, if desired, the pieces of chicken may be removed from the seasonings and cooled to be served cold on a picnic supper.

- 14 cup apple juice
- medium tomatoes, diced 2 tablespoons chopped parsley

and chives Heat butter in heavy skillet. Mix flour, salt, pepper and thyme in paper sack. Shake pieces of chicken

in skillet, add onions and mushrooms. Cover and simmer for three minutes. Mix lemon and apple juice, sugar and salt and pour over chicken. Cover

and simmer for five minutes. Add tomatoes. Cook slowly for an hour, or until chicken is fork tender. Sprinkle, before serving, with parsley and chives.

HERE'S A SIMPLY mixed cake which is delicious when laced with whipped cream, sliced

bananas and maraschino cherries. If you prefer, a simple lemon - orange flavored or choc-

olate icing may be used. \*Easy Cake

(Makes 2 8-inch layers)

- 134 cups sifted cake flour
- 1/2 cup lard 's cup sugar
- 2 teaspoons baking powder 1/2 teaspoon salt
- 1/2 cup milk 1 teaspoon vanilla 2 eggs
- Cream together 1/2 cup flour and

lard. Add the remaining flour, sugar, baking powder, salt and 1/3 cup milk. Stir and beat vigorously until smooth and fluffy. Add remaining milk and beat thoroughly. Add eggs, one at a time, beating thoroughly after each addition. Pour into two greased 8-inch cake pans and bake in a moderate (350°) oven for 20 to 25 minutes. Frost when cool.

\*Orange Sherbet (Makes 3 pints)

1/2 cup sugar 11/2 cups unstrained orange juice

1 cup evaporated milk, thoroughly chilled 2 tablespoons lemon juice

Add sugar to orange juice and stir until dissolved. Chill. Whip milk until very stiff. Fold in lemon juice, then orange-sugar mixture. Pour into cold freezing trays and freeze until firm.

Serve chilled tomato juice with lemon to start off porch suppers. Pass with the juice a plate of cream cheese balls rolled in finely cut dried beef.

Dress up meat loaves with a pineapple topping by placing slices of pineapple in bottom of a greased loaf pan. Pack meat mixture on top

of fruit. Serve the loaf inverted. Fold diced ham in your supper waffle batter and make them more tempting. Serve with tossed salad and a colorful fruit dessert, and the meal's complete.

Black and White

Lesson for July 2, 1950

GROCER in Minneapolis re-A ceived a letter from a former customer who had left the city owing a large grocery bill. have been converted in a revival here," the letter said, "and I want

to make every-thing right in my life that has been wrong." Enclosed there was a certified check for the bill. The grocer wired back: 'Who was the evangelist converted you? We need him in Minne. Dr. Foreman apolis."

Jacob Elack

PERHAPS the most notable case of conversion in the Bible, aside from the Apostle Paul, is the man named Jacob. His life is a study in black and white; up to a certain point hardly anything good could be said of him, but after that point he can hardly be accused of anything bad.

one. The patient is a new man.

All his younger days he was principally noted for giving trouble to other people and "doing them out of" something he wanted for himself. First he tricked his older brother into selling him the family birthright, for the ridiculous price of a bowl of soup (pottage).

You would not think any one would sell his birthright; but Jacob caught Esau when he was doghungry . . . Then we see him out-smarting his brother again by birthright; Jacob was by that time a shameless liar and thief. It became so hot for him at home that he had to leave town.

We have a glimpse of him on his journey, dreaming about a ladder to heaven. Evidently his conscience did not trouble him. Indeed, he proceeds to bargain even with God; if God will prosper him, he says, he will see that God gets ten per ent. God did indeed prosper him; but he grew no better for

The rest of his life, for the next twenty years, is one piece of trickery after another, he and his uncle Laban taking turns trying to out-smart each other, with Jacob ususually coming out ahead.

Jacob White

THINGS came to a climax on the night when Jacob, fearing death at Esau's hands, arranged his family to go ahead of him, keep-ing himself in the safest place in the rear . . . and there at last he came face to face with God.

The story of his all-night struggle at the brook Jabbok is a strange one; but one thing is certain. After that night even his name was changed, for the man himself was a new man.

He is patient in trouble, no longer resentful. He is not only a good man himself, he does his best to help others. He conducts what can only be called a family revival; he persuades one and all to give up the idols they had been worshipping and turn to the one true God. He offers sacrifices, like his fathers before him.

He goes down into Egypt at last, a humble man, no longer the conceited young crook he had been when he went to Padan-Aram. He depends now on God and not on

The God of Jacob

A FAMILIAR Psalm carries this refrain: "The God of Jacob is our refuge." Why the God of Jacob. not Abraham nor Isaac? Well, if it were only the God of Abraham, most of us might as well give up. For Abraham was a great genius, a man such as appears scarcely once in a century. Or if he were the God of Isaac only, we would be led to think of him as caring especially for the weak-minded, the lame and the lazy. But Jacobjust a plain man full of meanness? Yes; the same God who changed him can change the meanest of us.

The real test of religion is not what support it can give to noble souls, or what comfort it gives to the weak. The real test of religion is: Can God turn black into white? Can God take an ordinary, conceited, slippery customer and make a good man of him? The God of Jacob can do this; and he is the God most of us need.

### J. Edgar Hoover Says Potential Fifth Column of 540,000 in U.S.; Wheat Crop to Miss Billion Mark

Of all the men in high government security posts, Hoover, director of the F.B.I., possibly commands more respect than any other. For that reason, his statement that the Communists have a potential fifth column of 540,000 people in the United States. made public some four months after he testified before a senate committee, gave Red conscious Americans a shock.

He was explicit on two points: (1) Communists are seeking American secrets with every trick and means at their disposal; (2) Subversive Communists are more active now than the Nazis and Fascists ever were during World War

"orbit of Communist con trol," he said, has increased from one seventh of the world's population in 1917 to one third of the world's population today.

"The intensification of commu ism and underground activity in the United States has increased proportionately. If we are to preserve our internal security in times of emergency, it is incumbent that the identities of those who work against the peace and security of America be established.

The F.B.I. chief revealed that native-born Communists and sympathizers are after information on atomic research, radar, jet propulsion, coastal maps, military airports, biological warfare, and industrial resources.

His agency is handicapped in dealing with them because present espionage laws are intended mainly for aliens

Hoover also reported, "To counteract the F.B.I.'s penetration of the Communist party, its leaders of investigating committees in each state and a thorough investigation of each member of the part as to personal history, activities, associations, contacts, and length of membership."

#### SENATOR TAFT: War if Necessary

Senator Robert Taft of Ohio, the Republican policy chieftain who has as good a chance as any for the GOP presidential nomination in 1952, has issued a frank and complete, if somewhat startling, one-package statement on U.S. foreign policy.

The main points: (1) The United States should go to war if Russia moves into western Europe: (2) He doubts there ever can be a complete bipartisan foreign policy to cover all areas of the world.

The senator, however, did not entirely abandon the music of iso- U.S. Just Tolking lationism with which he has often been associated. He added that he believed the U.S. can contribute most to meeting the challenge (of Russia) if it maintains "a free hand" and avoids any committments, such as arms aid, now or 'land-mass fighting in Europe' if fighting breaks out.

On the bipartisan foreign policy problem. Taft was not jumping completely to either side of the fence. He wanted it understood he believed a bipartisan policy could be achieved on "specific projects" when there is advance consultation with "elected Republicans in congress."

He was critical of two recent developments, particularly the "balanced collective forces" concept agreed upon by the Atlantic pact duction. foreign minister in London, and the \$1,222,500,000 second-installmight incite Russia to attack on controls go into effect. grounds that it constituted "aggressive action.

#### WHEAT CROP:

Miss Billion Mark

For the first time in seven years, the nation's farmers will fail to harvest a billion-bushel wheat crop this year, the agriculture department has predicted

This means, the government forecasters said, the income of wheat farmers will be down some \$400,000,000

The government predicts a harvest of 944,514,000 bushels as the result of voluntary reductions in plantings under the government's acreage allotment program and from bad weather and insects.

The record crop was harvested in 1947 and amounted to 1,367,186. 000 bushels. Last year 1,146,000.000 have established a far-reaching bushels were harvested. The foreand vigorous loyalty program of cast, incidentally, is well under its own, calling for establishment the 10 year average of 1,032,000,000

Observers pointed out it means the government may have to dip into its big price support wheat surplus to meet the combined do-mestic and export needs in the year ahead. The government now has approximately \$4,000,000,000 invested in farm surpluses.

The agriculture department said prospects for the corn crop now generally are favorable. Plantings are expected to be smaller than a year ago because of the acreage allotment program.

The report forecast an oat crop 1,380,000,000 bushels. cent more than last year. Rye production forecast at 22,400,000 bushels, would be 20 percent larger than last year but still smaller than average.

### DISARMAMENT:

Sixteen outstanding scientists. educators, and clergymen have issued a five-point program calling for total disarmament and accusing the United States of just paying lip service to disarmament while actually discouraging such a step. The five points:

1. An immediate halt to atomic production, with stockpiles to be taken over by the U. N. pending further negotiations.

2. Acceptance of the Soviet proposal for national-rather than international-atomic ownership, under an agreement blocking largescale production.

3. Acceptance of the American proposal for international inspection of atomic resources and pro-

### Plan Given to Beat Inroads of Dread Disease-Makes All Doctor's Offices Cancer Finding Labs

Mr. Alfred S. Black Hattiesburg, Mississippi

Dear Mr. Black:

A couple of months ago you dropped in to see me, and as the result of our meeting I wrote a column asking for suggestions on how to best spend the \$2,000,000 left by your brother to the Black-Stevenson foundation to provide "preventive and remedial treatment for cancer sufferers.

And I was plenty happy when you phoned a week after the piece appeared and told me you had received 4,000 letters, many from outstanding medical men and research organizations.

Well, this is letter No. 4001, and if your patience and eyes can take

it I'd like to outline a startlingly unspectacular plan which may save the lives of 50,000 cancer victims year at a cost of less than \$5 per life. The idea-and it's a simple one-was

passed on to me by

Dr. Harold T. Hy-

man of New York,

the well - known physician whose four-volume "Integrated Practice of Medicine" has been called "the practitioner's bible" by Time magazine. But before I ease into Dr. Hyman's notien, let me give you some of the reasons behind it.

IN THIS WEALTHIEST of nations, where we have more doctors per capita than anywhere else, millions of people get periodic medical check-ups-but seldom are they checked for cancer until something begins to hurt. The reason, according to Dr. Hyman, is that these examinations seldom include a "survey" for cancer, even though this involves little more than a few probings and scrapings.

As I get it from Dr. Hyman. . person has a 50 per cent chance of licking cancer if it is spotted in its incipient stages and treated by a competent physician. But once the malignancy is far enough along to cause pain and the associated symptoms, the odds against killing the man-killer drop to 20

Which, in my simple arithmetic, means that 30 out of every 100 cancer deaths can be prevented if we find a way to make every doctor's office in the country a cancer detection center Here's where Dr. Hyman's nowon

and your brother's money come in. Why wouldn't it be a good idea for the Black-Stevenson foundation to compile all the latest knowledge on cancer diagnosis in one hefty volume and then, working through the various local medical societies, see to it that a copy of this volume, free of charge, reaches the desk of every family doctor in the country And why wouldn't it be a logical extension of this idea to follow up the book with supplements whenever the research labs come up with a worth-while advance in test

alert both doctors and public to the mportance of nipping cancer before it buds, it is Dr. Hyman's estimate that each of our 100,000 general practitioners would spot at least one incipient case each year.

And since there's a 50-50 chance of curing cancer in its baby stages, it figures that some 50,000 lives could be saved annually-either by local medicos or by specialists and hospitals equipped to deal with the I know this is an undramatic no-

tion, promising no miracles and requiring no glass-and-chronium skyscrapers. I also know it isn't new-clinics in New York and a few other cities have worked along these lines for years.

A campaign on a national scale, however, is something new, and it ought to appeal to you because it would give the fellow on RFD 1 the same chance to live out his three-score-and-ten as the chap on Central Park West. I'm not suggesting, of course

that you tear up the 4,000 letters and put your entire \$2,000,000 into this one venture. The plan which Dr. Hyman has outlined could be carried out for a tenth of that sum. leaving the bulk of your endowment for well-administered agencies and projects such as the Damon Runyon fund. And by putting a couple of hun-

dred thousand on the sure-shot of diagnosis rather than on the longshot of research, you would be rendering the average Joe and his missus a service hardly anybody else is bothering about.

Sincerely, Billy Rose

Patrice Wymore, known in New York as a dancer and singer, reported for her role in "Tea for Two" wearing the finest white slacks suit money could buy, with a white cap on her red hair. Even on the Warner Bros. lot she stood out. But two minutes later deflation of the spirit had set in. Director David Butler took one look, and asked if she were going to work on a parking lot between pictures.

When James Cagney and his "Kiss Tomorrow Goodbye" troupe made some scenes at a Glendale supermarket two elderly matrons were spotted among the extra players. They explained that they slipped in to get just one close look at Mr. Cagney.

### You're Angry? Write a Letter

By William R. Nelson

NEWSPAPER subscribers who become angered at the paper have long used cancellation of their subscription as a means of showing their irritation. Such action is generally looked upon as being the same as stopping patronage of a store to show displeasure. But, is it the same?

The reader who cancels a newspaper subscription does not cancel telephone, gas, water or electric service to show displeasure with those services. Yet, the home town newspaper is, in many ways, comparable to utility services. There is

Subscription notable Fraction

ence between newspaper and other utility services. It is the individual subscriber's share of the cost. For all services except newspaper, the subscriber pays the full share of cost plus a profit or its equivalent.

The subscription price of the home town newspaper, however, is but a fraction of the actual cost of producing and delivering it to each subscriber.

Unlike other services, where the subscriber can somewhat control he cost through regulation of the mount used, neither the subscriber or the publisher can regulate the amount of newspaper service to be rendered. Being a continuous re-cording of local history, the amount of newspaper space required is bound to fluctuate. To meet its obligation, yet keep the cost of its servce so low all can afford it, is why the paper sells subscriptions below

Cancelling a subscription to a newspaper, it seems obvious, is not the best way to show displeasure. A better way

is to write a letter to the pa-Better per. If point

agreement is a matter of general concern, and you authorize it, the paper will publish your letter. In that way you publicly chastise the paper and tell another side of the controversial matter. Publication of matter critical of

themselves is another of the unique characteristics of our newspapers. No other public or private institution or service is so willing and eager to publicize its own mistakes.

Subscribing to the home town newspaper should be looked upon as the same as subscribing to the other services available in the community. The price is small actually below the cost. And, whatever the amount, it is a necessary item for complete enjoyment of life in the community.

Not Much Chance

MOSES was such a man. At many times in his life, if you had been there, you would have thought he had very little chance to live, much less to succeed. Suppose you had seen him in the first three months of his life? He was born under a death sentence; his parents were breaking the law of the land by keeping him alive at all.

Then later if you had seen him in his sea-going bassinet among the reeds in the river, you might have thought: Will the contraption float? Even if a princess finds the baby, won't she know what he is and send him straight off to be killed?

Or years later, when Moses was a sort of pampered stepson of the palace, what promise was in him? Pharaoh's court was full always of proud young fellows spoiling for a fight. Moses might have looked you just like another useless aristocrat. And then when Moses was out in the wilds, tending another man's sheep, married to an ignorant back-country lass who never understood him in the least; would you have put much faith in that discouraged old ranch-hand?

BUT don't judge a man by what his contemporaries say. We know now, we have known for centuries, that Moses was one of God's greatest and best.

Consider what the world owes to that one man. Of all his services, let us note three in particular. For one thing, we trace the Ten Commandments back to him. Not that he was the first to call stealing or adultry or greediness wicked; men have known as much since early times. But we do associate the Ten Commandments with Moses' name. He preached and taught that religion is ethical: that is, right living is tied in with and tied up to right religion

Faith and life flow into and cupport each other. Some religions declare that if a man pleases God that is all that matters; he can ride his neighbors as he pleases. Other religions (or substitutes for religion) say that if a man treats other men right he can let God go. Not so Moses; not so the Jews nor

the Christians! Moses was also the man through whom God revealed some of the most important truths we know about God. Moses taught his people, and through them teaches us, of a spiritual God, not like anything "in heaven above or the earth beneath or in the waters under the earth." God has "no manner of form." God is pure spirit, without a body like men or like anything.

To this day men find that hard to take in; but it is an important truth for any one who wants to think truly about God and to find

Moses and Christ

A BOVE all, there would have been no Christianity if Moses had never lived, or if he had failed. If the children of Israel had done what they wanted to do, slink back to Egypt and slavery, the whole great history of the Old Testament would have been unwritten. Poets and prophets would have died

But he would have had to make a start somewhere else besides with the Hebrew people, and the whole history of religion would have been different. There would have been no New Testament without the Old Test-

Even Jesus of Nazareth either would not have been at all, or would have been entirely different, if it had not been for the whole background of the Hebrew story, in which Moses played such a leading part. If the world owes a debt to Christianity (and what a debt!), it owes also a tribute to Moses.

Next time the family suggests French toast, treat them to this delicious surprise. Slice donuts crosswise and dip them quickly into a regular French Toast batter that has been spiced with cinnamon. Fry as you would French Toast and serve with hot maple syrup.

Left-Over Bread

French oven toast is an excellent, appetizing way to use leftover slices of enriched bread. Dip the slices into a mixture of sugar and egg to which a bit of almond extract has been added for flavor interest. Then place them on a well-greased cookie sheet and brown in a hot oven (450°). Turn the toast and brown on both sides. You'll find that French oven toast is delicious served with honey butter or maple syrup.

To improve flavor of cherry, peach, or apricot pie, sprinkle with few drops of almont extract. To fruit pies which are a little flat in flavor add the juice of half
