Suffers Narrow Escape From Electrocution

Barton Burk has a very good idea how he feels to sit in the electric chair since his experience with a high power electric current Friday afternoon.

He had been called to assist in setting a pump jack at the auxiliary pump being installed at one of the city wells, and in some manner brushed his right cheek against the high-voltage wire. His startled cry as the shock struck brought assistance immediately, so that the switch was thrown and the current stopped, but Burk was knocked out cold, remaining unconscious for several minutes.

He was severely burned by the current, and is now stiff and sore all over for several days. Bart says he has a very wholesome respect for high wire now.

Pirtle's Food Store Sells To Gibbs

The sale of Pirtle's Food Store, which opened here week before last, to Mr. and Mrs. Shorty Gibbs was closed Tuesday morning. Mrs. Gibbs immediately took charge and will be active manager of the new business.

Mr. Pirtle plans, we understand, to open a mercantile business at Ropes.

Mr. and Mrs. Gibbs are well known to residents of this territory, having been in business here for several years, and it is expected that the new store will be a profitable establishment for them.

Messrs. Mell Pearce and Tom Garner attended a state convention of Midland Life representatives at Dallas this week-end.

Football Boys Play To Be Staged Friday

"Auntie Up", hilarious three act comedy-drama, will be presented at the high school auditorium Friday evening of this week, under the auspices of the football team. Proceeds will be used to defray expenses incident to their activities.

As vaudeville attractions, a Mexican orchestra, with dancer and singer have been engaged for the evening. Those who have heard this orchestra and singer are enthusiastic in their praise.

The play itself promises to be one of the best ever staged by young talent. Admission will be 15c and 25c. Make your plans now to be there when the curtain rises at 7:45.

Lynn County Writes Its Own Meal Ticket

Twenty two thousand five hundred thirty eight containers of vegetable have been filled and the RPC canning kitchens in five weeks time. Twelve canners and twelve sealers were kept busy in the two RPC canning kitchens and nearly 7,000 containers of food are ready for retail sale.

Seventeen canners, 125 sealers, 45,000 cans, 4,500 extra lids and 6,912 glass jars sold.

"By taking advantage of the RFC canning plan and using the RFC canning kitchen I have 460 containers of vegetables stored for the cost of my work plus salt and sugar used in canning," stated Mrs. A. F. Edwards of P.O. 200 to the home agent, Miss El Florida Harrison, "I have helped 10 other families with their food supply and used the steam pressure cooker and the sealer for the first time in the RFC canning kitchen."

Fourteen rugs valued at \$102.40 in leisure time spent even though to the rug making does require me to stay Mrs. Kelly's job," says Mrs. A. M. Daniels, home industry demonstrator of Lynn county. Mrs. Daniels has standardized her work according to the Extension service methods, and has a ready sale for her work.

C. E. Kelly's Murderers Are Arrested Sunday

Press dispatches from Edinburg, Texas state that four men were charged with murder Sunday and two of them with conspiracy to murder in connection with the death of C. E. Kelly, who is believed to have been slain at his father-in-law, Ed Couch, on the night of March 18, 1931.

Mr. Kelly was for some time cashier of the First National Bank, and he and Mrs. Kelly made their home here for almost two years. Their baby was born here, and both the infant and Mrs. Kelly died here.

The state believe that Kelly was the victim of a kidnapping and that the killers planned to kill Mr. Couch, who was a candidate for the office of county clerk.

Charges of murder were filed against Can Hill, former Hidalgo county clerk, now a resident of El Paso; George C. Beck, peddler, formerly of Edinburg and recently a resident of Dallas; Julian Ybarra, 54, resident Dallas street sweeper; and Martio Cuellar, 35.

The complaints filed at Edinburg also charge Hill and Beck with conspiracy to kill Ed Couch. Kelly was in the room usually he slept in, sleeping, on the night he was murdered by Mr. Couch, on which fact the state bases the belief that he was killed through mistake.

Beck was arrested in Dallas Thursday, and was released on \$2000 bond. Cuellar on \$2000 bond, while officers have taken Hill into custody. Hill and Beck were formerly close political adherents of the late Sheriff A. Y. Baker, millionaire sheriff of Hidalgo county for many years.

Cotton Loans Available On Bills Of Lading

As we on press of are informed by C. N. Hoffman, cotton classifier for a number of years, the ten that farmers may now obtain presentation government loans on presentation of bills of lading. This system went into effect Wednesday morning.

Such procedure will do away with a number of formalities and a lot of delay in a delay to local cotton growers of a delay to local cotton growers during the past week, and is expected to cause a decided increase in loan applications.

Harley Sadler Played To Record Crowds

Playing under the auspices of the Volunteer Fire Department, Harley Sadler and his new company opened a record night engagement here Monday night. The opening crowd was a three night engagement here Monday night. The opening crowd was a record breaker, there being scarcely a standing room before the curtain rose and scores were turned away at the entrance.

Crowds at the two other performances have been almost as good, and general opinion is that this is the best Sadler and his company have had in this section.

Vaudeville acts have all been good also, and the entire season here may be declared an unqualified success.

Government Report For District 2 Cotton

Weekly cotton grade and staple report issued by the United States Department of Agriculture for the week ending October 26 shows that the proportion of spotted and yellow tinges increased materially this week, there being 43 per cent compared with approximately 22 per cent last week. Likewise, there was a marked decline in cotton classed as extra Cotton shorter than 7-8 inch made up a smaller proportion of this week's classing than of last week's, being only 2 per cent this week and 8 per cent last week. The proportion of cotton increased materially and longer increased in District 2 this week, there being more than 69 per cent compared with 45 per cent last week. Ninety-six per cent of the cotton from this area was dependable on futures contracts as compared with 92 per cent last week.

D. M. Estes Home For Short Visit

D. M. Estes, who has been visiting in Chicago, Longview, Washington, and Los Angeles, California, for the past several weeks returned home Monday afternoon for a short stay before rejoining Mrs. Estes at Longview.

He is apparently fully recovered from his recent serious illness and seems to be in better health than for a number of years. As it was impossible for him to go and see all his many friends in this section, he asks that the Index extend his greetings to all.

We had gotten our feelings all ruffled because Mr. Estes hadn't written to us, but we sincerely beg his ten to us, and he DID write to all the O'Donnell folks through the Index, but through some mischance the letter was lost. Perhaps it can yet be found. In this letter, Mr. Estes described in detail a number of interesting places and scenes he had visited, among them a fish cannery. And can he tell some fish stories?

Brownfield Voters Authorize Beer Sale

By virtue of an election Wednesday last week, Brownfield became the third South Plains town to go wet in a dry county. The sale of 3.2 beer is now legal in Brownfield.

Littlefield and Amberst in Lamb county legalized the sale of the beverage several weeks ago.

International Harvester Officials Visit Here Monday

E. L. Banks, Amarillo blockman for International Harvester Company, accompanied by W. S. Graham, engineer in charge of the plow works at Canton, Ill., were here on business for the company Monday.

Mr. Graham had been accompanied by E. A. Johnston of the Chicago office, but the latter came only as far as Lubbock. Mr. Johnston had missed the best part of Texas when he omitted coming to Lynn county.

A number of International officials have been in this part of the territory recently, and each of them has expressed the opinion that this section is on the threshold of a firmly developed prosperity. Well, we hope they're right. We can stand it, can't we folks.

Cook Infant Died Tuesday Morning

The one-day old infant of Mr. and Mrs. H. L. Cook of the Wells community died in a Lubbock sanitarium Tuesday morning of last week.

The Index carried news of his birth and serious illness last week, but did not learn the sad news of the little fellow's death until Wednesday night. We join with the many other friends of the Cook family in extending sympathy.

Farmers Are Profiting By Government Plan

Farmers in this territory are eagerly seizing the opportunity of selling cotton to the government at ten cents per pound, and loans, or sales, to this effect have already been made in a number of instances.

G. C. McPherson, route 3, was the first man to get a loan through the O'Donnell office, selling nine bales Wednesday afternoon. Charles N. Hoffman handled the transaction, and Oscar B. Petty, who is also in the O'Donnell territory, received the first loan in Dawson county, according to reports Thursday from the office of J. J. Wallace, government classifier at Lameta.

Owen W. Sherrill, regional manager of the Southwest Crop Production Loan office said Tuesday that cotton on which farmers seek to obtain loans will not be waived by the loan office.

However, a plan has been announced by compresses of the South Plains whereby a great part of the storage expense will be eliminated.

Business Houses Are Filling Up Here

With new businesses opening up here each week, practically all the business houses in O'Donnell are occupied this week. Cafes and fruit stands, hamburger stands, and clothing stores are among the newest establishments to open. An unofficial check-up Monday morning indicated that practically all these business buildings are now filled.

As for residences - there just aren't any vacant ones. New corners during the past month have found it almost impossible to find shelter of any sort and the desirable houses were filled long ago.

Work On Highway No. 9 Is Scheduled To Begin

Government Entomologists Looking For Boll Worms

A crew of government employees have been here since the middle of last week, examining waste at the various gins of the town for pink boll worms. They are equipped with several peculiar looking pieces of machinery, one machine reminding one of an enlarged popcorn popper.

As this is being written (Tuesday) we understand that so far local gins report a clean state for Lynn county cotton. Worms were found at Lou, Loop, and other places in eastern Gaines, and we understand, Terry county.

Wells Will Entertain District Singers Sunday

C. H. Mansell asks us to announce that the singers of the district will meet at Wells Sunday afternoon at 2:30, and that everyone is cordially invited to come out and take part in the features of the afternoon.

Mr. Mansell also asks us to say that everyone should bring books, so that all may be supplied.

A number of local singers attended the Dawson County Fifth Sunday convention at Hancock Sunday afternoon, and report a most enjoyable afternoon.

More Cotton Checks Are Received Here

Reports received Thursday from Joe Williams, special agent, are that 101 additional checks have been received by Lynn county farmers as payment for cotton acreage reduction. The total sum received was \$37,669, bringing the total cash received in this county to \$479,809.

Mr. Williams stated that the remainder of the checks will be received within the next few days, or within the next few weeks at the latest, so that Lynn county's receipts from this source will reach considerably above the half-million dollar mark.

Bank Statement Shows Decided Improvement

Condensed statements showing the condition of the First National bank here, on the October 25 call, show more clearly than anything else that the financial condition of our territory is on the up grade.

On June 30th, loans totalled \$56,518.00; on October 25, they had decreased to \$54,447.00. During the six months which have elapsed since the call, these loans have been further decreased by almost \$6,000, or totaling only \$48,244.00 on October 25.

On June 30, deposits amounted to only \$45,512.43; on October 25, they had reached \$113,456.98.

These condensed statements are being mailed this week to stockholders and officers, and the complete financial statement will appear in the Index next week.

Eagles Lose Third Game This Season

The Eagles seem to have lost their rabbit's foot. They dropped their third game this season to the Segraves aggregation Friday afternoon. Overcoming a 15-0 defeat at the hands of the Segraves team, the Eagles were defeated 15-0 on Friday.

Segraves returned the opening in the last quarter, they got away on kick-off for a touchdown, and then scored again in the third quarter on a passing play through the line. Durn a punt for another score.

The Eagles made their lone touchdown in the first quarter. McLaughlin's DeBuck place kicked for the extra point. O'Donnell was in Segraves territory most of the first half, but could make only the seven points.

Play Amberst Friday
The football boys will entertain the Amberst team on the home field, Friday afternoon. This is the second game at home this season, the first being with Segraves when the Eagles won 13 to 0.

Commissioner's Court Postpones Election Of Agent

Representatives of the contractors in charge of grading and drainage of Highway 9 from Tahoka to the Lubbock county line met with the commissioner's court Monday afternoon, and plans were completed for beginning actual work.

Moving of fences back from the right-of-way will begin in about ten days, according to a statement Tuesday morning from L. M. Nordyck, commissioner, who was here on business.

Judge B. P. Maddox has been asked to have 100 men ready for work, and a number of good teams. Those interested should see him at Tahoka or W. S. Cathey here.

Election of a farm agent for Lynn county was postponed to a later date. Mr. Nordyck said. It had been unofficially said that Joe Williams, special cotton agent, would be elected to this position.

Clear Weather Aid To Cotton Harvest

Not in many years have farmers of the South Plains had a more ideal fall, ideal for harvest and for delayed feed crops.

Hands have been able to work out losing more than three days during the entire harvest, and the five gins here have been forced to run day and night for the past month in order to keep the yards cleared of waiting cotton.

Up to Tuesday noon, more than 7,000 bales have been ginned at O'Donnell alone, while gins at Wells, T-Bar and New Moore report similarly busy seasons. Lynn county's yield this year will almost equal that of last, and in spite of the forty per cent average acreage reduction in the summer.

Reports issued weekly by the department of agriculture have listed cotton from this district as among the best in the south, due largely to the fact that the greater part of this year's crop has been picked rather than pulled, as has been the custom for a number of years.

If several cold weather will hold off ten or two weeks longer, a bumper feed crop will also be made, according to farmers who have large acreages in grain and bundle stuff of all kinds.

Subscriptions Are Being Renewed This Week

The number of new and renewed subscriptions to the Index during the past week has been most gratifying, as new and old friends come in every day to add their contributions.

Because of this increased interest, the bargain rate of fifty cents per year will be continued a few days longer, and we hope that all our delinquent readers will come in or send their half dollars. We have been happy to carry these subscribers through these hard times, and are so glad to see them to be nice enough to show their appreciation by paying up this fall.

In response to questions from a number of readers concerning sending subscriptions to relatives, we wish to explain that subscriptions out of our zone are \$1 per year because of difference in postage rates. It costs us quite a bit more to send a paper these days, but for instance, than to send it here in Lynn county. So if you are planning to give a year's subscription to the Index as a Christmas gift, it will cost you \$1 rather than 50 cents, if it goes to an out-of-the-zone address.

Whitsett's Cousin Dies At Temple Friday

M. J. Whitsett received news Friday of the death of his cousin, Geo. Pruett Neal, in a Temple hospital where he had undergone an operation four weeks ago.

Mr. Neal, state highway engineer at Ozona, formerly held state highway posts at Abilene and Sterling City. Taken sick at the hospital five weeks ago, he had been in a serious condition for more than a week.

With Mr. Whitsett, he is survived by his wife, his parents, Mr. and Mrs. C. B. Neal, and Mr. F. Worth and 3 children. He was 31 years of age.

The Index joins with other friends in extending sympathy to Mr. Whitsett and other members of the bereaved family.

Thompson was initiated into the club. The following members were present: Beatrice James, Frances Foster, Erlene Gilbreath, Wynell Scott, Jewel Fay Elmore, Evelyn Kirkland, and Ann Thompson. Several other members were temporarily out of school.

Home Ec I. Classes are studying the keeping of personal expense accounts during 1933-34, to check up on whether they are spending more or less than their share of the family income. Reasons for keeping these accounts are to prevent over spending; to learn to be accurate in keeping accounts; to invest in necessities; and to learn to be economical. At the beginning of each class period, students use two or three minutes to make expense entries in their accounts.
