

THE O'DONNELL INDEX

O'DONNELL, LYNN COUNTY, TEXAS, FRIDAY, FEBRUARY 6, 1931

NUMBER 12

EXECUTIVE PRAISES RED CROSS BOOKS

Van Hooelke, a state executive of the American National Red Cross, attended a meeting of the local executive committee Monday evening and was most enthusiastic in his praise of the manner in which the work has been carried on. He said that the books were of great value and that he had seen a great many of them. He also stated that he would like to be appointed to the extreme northern part of the county, which is a part of the Red Cross territory. He was unable to learn the names of the committee to date, but they will be announced in the next issue.

FRITZ TO MANAGE TRAFFIC AT BIG SPRING

Mr. Fritz, who for some time has been in charge of the Humble filling here, left Monday morning for Big Spring, where he will have charge of the traffic. He has many friends here, both in and out of business, and is wished great success for his new location. Fritz will continue to operate here, the many friends of Fritz will be glad to know. Fritz will not be in charge of the Humble filling here, but will be in charge of the traffic at Big Spring.

ROBINSON RECEIVES INJURY IN FALL LAST WEEK

Mr. Robinson, local gin man, received a fractured left arm Wednesday last week when he fell from the boiler. He is recovering from the injury and is expected to be back to work in a few days. Mr. Robinson is a well-known man in the community and is highly respected.

GOVERNMENT FARM LOANS NOW READY

Applications for government loans may be made at the local office. The loans are for the purpose of helping farmers to improve their farms and increase their production. The loans are made at a low rate of interest and are repaid over a period of years.

MANY CARS REGISTERED IN O'DONNELL TOWN

Up till Thursday morning the Rayburn-Hood Chevrolet Co. had registered 148 automobiles. This is a record for the town and shows the popularity of the company's cars. The cars are of various makes and models and are of high quality.

DAWSON COUNTY LEADS IN COTTON PRODUCTION

Dawson county is leading Lynn in cotton production this year by a total of 4,680 bales, according to a statement received last week from J. H. Barron, special agent. Dawson county has a long history of cotton production and is known for its high yields.

WINTER COMING

According to tradition, O'Donnell is the South Plains area in for six more winter. The weather is expected to be cold and dry, with some snow possible. Farmers are advised to take precautions to protect their crops and livestock.

OLD-TIMERS CALL ON FRIENDS IN O'DONNELL SATURDAY

Mr. C. Millsap and son, Evans, of Greencourt, Oklahoma, were in O'Donnell Saturday, visiting with friends. The Millsap family is well known in this section and has many friends here. They moved from Oklahoma to O'Donnell last spring, but Mr. Millsap says that the old place still looks mighty good to him.

FIELDS IS NEW COTTON CLASSER IN O'DONNELL

Effective this week, O'Donnell will have a licensed cotton classer for only part time. Mr. Eugene Fields, now in charge of the office, is dividing his time between O'Donnell and Lamesa. Mr. Fields will be in O'Donnell on Monday, Wednesday, and Friday of each week and in Lamesa the other three days. However, the local office will not be closed on the days that Mr. Fields is in Lamesa.

HANCOCK SLIGHTLY INJURED IN WREK SATURDAY AFTERNOON

W. W. Hancock received a badly cut thumb and a considerable shaking up Saturday afternoon when he collided with a Buick sedan driven by a salesman, the accident occurring on the Tahoka highway. Neither car was seriously damaged, though Mr. Hancock lost a tire in the deal. According to reports, a car in front of Mr. Hancock had stopped to pick up a boy, and when Mr. Hancock went around the car, he was unable to prevent the collision with the Buick.

ATTEND WORKERS' CONFERENCE AT MEADOW TUESDAY

Eleven members of the local Baptist church, with Pastor L. S. Jenkins attending the Workers' Council at Meadow Tuesday. Rev. Jenkins preached at the eleven o'clock hour, and in the opinion of the conference, delivered a splendid address. One of the most interesting features of the day was the address by a missionary recently returned from Egypt.

S. T. SHAW DIES SUDDENLY THURSDAY FUNERAL SATURDAY

The many friends of S. T. Shaw, prominent farmer of the Hancock community, were shocked to learn of his sudden death last Thursday morning. He had gone to work as usual, and was found dead by a neighbor, Mr. J. M. Edmond. Death, it is believed, was the result of acute indigestion or coronary failure. Funeral services were conducted at the Hancock school building Saturday afternoon, and interment was made in the city cemetery here.

MANY FAMILIES IN LYNN AREA AIDED

TAHOKA, Jan. 31.—Between 200 and 250 families in Lynn county have been given aid by the county Red Cross chapter, according to W. S. Anglin, chairman of the committee on applications for aid. The local chapter has been active for the past two months and took over the responsibility of helping the county's needy even before the national organization gave aid.

LAMB IS NEW EDITOR OF LAMESA REPORTER

According to the masthead of last week's Lamesa Reporter, that publication now has a new editor in the person of Victor Lamb. Vic, as he is familiarly known over this section of West Texas, has not yet reached his majority, but as a newspaper man with a nose for news, he has few superiors. His "Archibald Says" and "Do You Know" columns, like most of his articles, can be spotted by their individual style.

ATTEMPTED BURGLARY AT DEPOT TUESDAY NIGHT

Thieves entered the Santa Fe depot here Tuesday night, breaking the knob from the safe in a vain effort to reach the cash drawer, and taking an overcoat belonging to the operator, along with a raincoat belonging to R. O. Stark, agent. Beyond the broken knob and the coats, the thieves did no damage. However, the two gentlemen are of the opinion that the coats are plenty of damage, and Mr. Stark made the rounds of the town Wednesday morning taking finger prints and inspecting every coat and slicker.

The Eagles' Screams

Girls' Team Has Fine Record The Eagle Queens, local high school basketball team, has made an enviable record this year, having won every game in a series of seven. Their total number of scores amounts to 208 as compared to 97 scored against them. This is an unusually good record, and the school and town should be proud of such a team.

white material to further carry out the color scheme, and one can imagine how they looked. 'I had several offers of help from my two small sisters, and received plenty from Corky, but it consisted mostly of her painting her hands and dress. She also insisted on sitting in her high chair the minute it was washed.

Team To Tournament at Lamesa

The following girls will compose O'Donnell's team when it enters the basketball tournament at Lamesa Saturday: Gladys Gibson, Wilma McMurry, Alice Busby, Josephine Morrison, Ella Belle Miles, Kathryn Veasley, Oneta Anderson, Mozelle Edwards, Oneta McCarley, and Hazel Caddell. With a line-up and substitutes like these, our team should be right in the front line at winning time.

Freeman Class Has Largest Roll

The Freshman Class of the local high school may not rate very high in individual size, but taken as a whole, it's a whopper of a class. There are exactly fifty of the Freshies. The Junior class follows second with thirty-six members, sophomores next with twenty-six, and seniors last with an enrollment of twenty-four, making a total enrollment for the high school of one hundred and forty.

Project Class Has Interesting Project

Eight grade pupils who have recently taken up the study of Home Economics are taking great interest in their work. Chief among the projects are those which tend toward improving kitchens and making house work lighter and more pleasant. Lorene Beach has recently completed one of this nature, and here tell the story in her own words:

H. E. Planning Initiation Ceremonies

At a business meeting of the Home Economics Club Tuesday, plans for more or less formally initiating new members into the club were decided upon. This event is looked forward to each year by one of the most comical in the entire school calendar, and candidates for initiation are shaking in their boots, wondering what will happen next. Don't be surprised at anything you see on the school campus, it is the word sent out by officers of the club, because this ceremony will last three days, with something new each day.

Civics Club To Have Trial

An amusing feature of the Civics Club program for the week is the mock trial scheduled to begin yesterday (Wednesday). Miss Wynona Huff files complaint against Wray Guy for breach of promise, suing for \$5000.00 a year as reimbursement for her broken heart.

CONGRATULATIONS, VIC, AND MUCH SUCCESS TO YOU IN THE NEW CHAIR.

Congratulations, Vic, and much success to you in the new chair. The new editor of the Lamesa Reporter, Victor Lamb, is a promising young man who is sure to do well in his new position.

JOE CARROLL STILL HAVING TRIALS AND TRIBULATIONS

Master Joe Carroll, five-year old son of Mr. and Mrs. R. C. Carroll, has furnished thrills and excitement for his end of town since he was big enough to kick, and he's still on the job. Friday of last week, having nothing else to do, the young man dropped a section of sewer pipe filled with dirt on his right big toe, with consequent damage to that member. It was feared at first that the toe was broke, but time developed the fact that it was only severely mashed. However, a little thing like that couldn't cast a blight on Joe's activity, and he was hobbling around with something of a "heel and toe" effect in a day or two.

DONATIONS TO RED CROSS REACH LARGE TOTAL

Albert Koeninger, who has been in charge of receiving and disbursing donations for the Red Cross, stated Wednesday that over \$400 worth of clothing, fruit, foods and cash donations had been received by the local auxiliary. This is an expression that people of O'Donnell are willing to do all possible to aid those who are less fortunate than themselves. It is hoped that much more will be donated, as the calls for help are increasing daily, and every little bit helps out that much.

FIRE DEPARTMENT CALLED TO MARTIN HOME MONDAY

The Volunteer Fire Department was summoned to the home of Mr. and Mrs. Vernon Martin Monday morning when it was feared that there was fire in the attic. No fire was found, but the boys made a fast trip to the scene and enjoyed the practice run just the same.

MILLIONS FOR ROADS

One hundred and sixty million dollars for road construction, as a result of recent federal appropriations and sums on hand in the various states.

The appropriations have given the nation almost unprecedented opportunity to advance the good roads movement and at the same time in bringing business back to normal. Prices of materials of all kinds are the lowest in many years, and there is an abundance of labor and engineering talent, and governments can borrow money at low rates of interest.

A large part of the money is to be used in rural areas where it will give the biggest return for each dollar spent. The American farmer has been waging a battle against a variety of circumstances, and a sound "relief" program is the construction of year-round, farm-to-market roads. It is probably true that lack of adequate transportation arteries has done much as anything else to hold agriculture back.

We live in a motorized age, in which quick, low-priced transportation is essential to commercial and social activities of all kinds. Only a small part of our millions of miles of roads are surfaced and passable at all times of the year. Wise use of the appropriations will pay high dividends.

INTEREST CENTERED ON ACCIDENT PREVENTION

The problem of automobile accident prevention, with its many related factors, will come in for much legislative consideration during 1931. Many states have signified their intention of adopting laws requiring rigid examinations of drivers. This is believed by many authorities to be the best single means of keeping the dangerous driver off public highways.

In a few states compulsory insurance legislation will be considered, but in view of the unsatisfactory experience of Massachusetts, it is doubtful if it will be passed. More generally popular is the "safe responsibility law," now in effect in New York, Connecticut and other states. This law provides that a driver, after causing an accident, must provide proof of his financial responsibility before being allowed to again operate a car.

Laws of periodical inspection of cars, for controlling pedestrians walking on the highways, and for banning ancient and dilapidated motor vehicles, have likewise been proposed and will receive due consideration.

In the aggregate, the vast volume of suggestions for improving highway safety gives good reason for optimism. Every step taken, no matter how small, means that at least a few lives are saved, a few pieces of property protected. The public is reaching a state of mind that gives no encouragement to those who, through carelessness and incompetence, sow death along the highways.

SEE YOUR FIREMAN

A news item from a western city states that during a recent day, the fire department was unusually active, because of a strong east wind. The item then brings out the fact such a wind always results in an abnormal number of fires, and that the department does its fighting too immediately when that wind appears.

It would be a good plan for all property owners to find out from their fire departments the local conditions which are conducive to fire loss and how to offset them. Fire departments would rather tell you why your fire might start than why it did start.

In the United States most of us take fire for granted, not realizing the gigantic economic waste it entails. During 1930 the total waste was higher than in several preceding years. And it will continue to grow until individuals understand the common hazards that exist in every home and guard against them.

Girls hunting advice for 1931, are advised to spend as much money on clothes and looks as possible; that will be a good investment for the young ladies, for 1931.

A very pleasant social hour was enjoyed, after which delicious refreshments of individual apple pies served with coffee to Misses Musick, Vermillion, Lambert, Mansell, Middleton, Anderson, Yandell, and Street.

STUDY CLUB MEETS WITH MRS. ESTES TUESDAY

Mrs. D. M. Estes was hostess Tuesday afternoon to members of the O. E. S. study club when they met for regular work.

These lessons, taught by Mrs. Glen Allen, are proving to be very interesting and worthwhile. Attendance grows with each meeting.

The next meeting will be held at the home of Mrs. J. W. Gates.

TO TAX PAYERS OF THE CITY OF O'DONNELL

The city, the business of which is in our hands, will have to have more obligations than it now has to meet during the coming months before another tax paying time comes. These debts are not new ones except a small amount which we have had to borrow to meet those already made.

The bonded indebtedness of our city has to be taken care of for the simple reason that the people who buy and own bonds do not recognize hard times. They expect their interest or bond payment when due and not a few days or months later.

Except for the indebtedness already mentioned, we have cut the expenses of the city in every way that we can see to do so and our payroll

will be, for the next two years, less, we feel sure, than any other town of our size near us. If any citizen or tax payer cares to meet with the council and can show us where we can advantageously make further reductions we will be more than glad to consider the matter.

As the only method that we now have of getting money to keep the city's business in shape is through the collection of taxes, we are going to ask the owners of property to make every effort to pay their city taxes during this month. If you can't pay all of it pay a part of it. By resolution of our body as a whole we have decided to have the collector accept payment at any time during the month of February of this year without any penalty. This does not apply, however, to a single day in March, when March 1st comes, the penalty goes on.

We realize as well as you that money is hard to get but if we do not pull together as a community we will just have a harder time. If we do not get money to take care of our indebtedness, the bond holder will see that the taxes are collected by suit and the additional cost will be hard to bear, so, we ask that individually you do all you can and we feel sure we can get over.

lack of information, "spillage" of funds and—in a few instances—plain ordinary fraud. Now the good roads movement with special attention being given to farm-to-market roads—unprecedented progress. It is stimulated by the drought, employment situations, and the crying need for year-round arteries of transportation. Many states and districts of counties, in all parts of the country, are seeking means of providing the farm with necessary roads as quickly and economically as possible.

Norman M. Blaney, of the U. S. can Farm Bureau Federation, that country road plans, "as designed so that the outlying territories will have access to highways." To achieve this he has, out, road committees should be organized, made up of fair-minded citizens. It would be their duty to assemble facts and to just what roads are necessary carrying on the business, economic life of their communities. Those roads which will give the greatest number of people naturally be improved first.

"I had to tell you how it was about the attack on the Hughes place. My father had nothing to do with that, neither he nor his partners. My father had started for the river ranch after a conference with Mr. O'Hara an' Mr. Smith-Beresford. It was agreed they should start negotiations with you to stop this dreadful war. the Hughes ranch all was busy. Guns were being readied, horses saddled. Ingram himself supervised his men as they ready.

Over called to him: "Oy comin' ye creek, Dave."

He rode up, fumbled in his sash, out an envelope, and handed it gram. The owner of the Diamond took it open and read it with an unread face. Menzville Garcia busy answered questions. He was captured by the money, taken to the Circle S O ranch, and had less than 24 hours before made his exit. All this he explained in Spanish, then drew him to one side. "Did Steelman give you this letter?"

LETTERS FROM THE PEOPLE

This column is open to the people of O'Donnell and community and we are happy to print here any article that they may wish to get before the public. The only requirement being that all material bear your name and be used with the article.

The Red Cross functions through county committees, and this being a sub-committee of Lynn county we cannot take care of Dawson county. We have asked Dawson county to appoint a sub-committee at O'Donnell to take care of the Dawson county trade territory and to date they have refused to do so and the people that met a committee of Lamesa people here at O'Donnell were told that the people in this trade territory would be taken care of through the organization at Lamesa and that all supplies would have to be bought through the merchants there, forcing the people in this part of Dawson county to travel from 36 to 50 miles for an allowance of \$4.00 and less per week in groceries, saying nothing of the misery and hardships they are causing people in this part of Dawson county.

For instance; we had a case of Mrs. Paine, who was completely out of food and with no way to get to Lamesa and she was taken care of here by Bro. Parr. I, of course, knew that Lamesa was in a critical condition financially and otherwise, but had no idea that they would go so far as to force people asking for charity to travel so far in order to get their trade and when they get them there charge them more for their groceries than they could have bought them at home.

We have helped Lamesa in a financial way here before, but I feel that their need now should come from other sources. Believing this I have just offered up a petition for Dainty refreshments of cake with whipped cream, and punch were served to 12 members.

EGG RECORD FOR THE MONTH OF JANUARY

About a hundred white leghorn hens belonging to Nell Kyle laid 94 dozen eggs in the month of January. She sold 70 and one-half dozen eggs which brought \$10.45 and used 23 and one-half dozen. She has paid \$6.86 for Red Chain egg mash which she has been feeding her hens for the past month, making a profit of \$3.60 besides what eggs were used in the home.

She has been keeping a record book for the past month and is expecting to have a good report at the end of the year.

Texas is second among the states in consumption of gas oil and fuel oil.

CITATION BY PUBLICATION

THE STATE OF TEXAS: To the sheriff or any constable of Lynn County, Texas.—Greetings:

You are hereby commanded to summon Mrs. W. W. Cox, a feme sole, by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, to appear at the next regular term of the Justice Court, precinct number one, Lynn County, Texas, to be held at the court house thereof in Tahoka, on the third Monday in February, 1921, the same being the 16th day of February, A. You can Afford the economical General Electric Refrigerator

It has the money-saving MONITOR TOP!

Count up the bottles of milk and cream that sour in a year—the butter that begins to have a "taste"—so that it must be used for cooking.

Count up the eggs, the meat and fruit and vegetables that must be wasted, because they are no longer fresh.

And then—count up the benefits of modern refrigeration—electric refrigeration—the saving of food and milk—the plentiful supply of ice cubes—the delicious, economical frozen dishes you can make—the safety and wholesomeness of food and drink kept well below the 50 degree bacterial danger point.

You can afford the economical General Electric Refrigerator. Its mechanism—harmlessly sealed in the Monitor Top—is so completely protected from air, dirt and moisture, that it runs quietly, efficiently, dependably through the year—at a cost of but a few cents a day! Drop in, and ask about our easy time payment plan.

John is in the General Electric program, broadcast every Saturday evening on a nation-wide N. B. C. Network.
