

O'DONNELL INDEX

O'DONNELL, LYNN COUNTY, TEXAS, FRIDAY, JULY 1, 1932

NUMBER 39

RAISE IN POSTAL RATE EFFECTIVE JULY 6TH

Numbers of patrons of the O'Donnell Post Office have had the impression that the new postal rates were effective June 21, when the new excise taxes became the law, but the new first class rate of three cents per ounce will not go into effect until July 6th, according to information given us from postmaster Hal Singleton.

Several letters have been mailed bearing the extra cent of postage by persons who thought the new rate was already effective, it was said at the post office this week.

An ample supply of the three-cent stamps is expected to be received by the office soon, Mr. Singleton said Monday, but patrons should continue the use of two cent stamps as heretofore, until July 6th.

UNDERGOES OPERATION AT LUBBOCK FRIDAY

Mr. Bill Cathey, prominent resident of the Pride community and son of Mr. and Mrs. Matt Cathey, was taken to a Lubbock hospital last Friday, where he underwent a major operation as relief from an enlarged gall bladder.

Though the operation was a delicate one, reports this week are that Mr. Cathey is doing as well as could be expected, with every indication of a speedy recovery. His wife has remained at the hospital with him throughout the time, and other members of the family have made frequent trips, so that reports have been received of his recovery.

ROY ELMO EVERETT RECEIVES BROKEN NOSE

Roy Elmo Everett, son of Mr. and Mrs. Roy Everett, is nursing a badly injured nose and a decidedly bungled up optic this week as the result of a too well-aimed baseball several days ago.

Young Everett was just ready to knock a home run in a snappy game one day last week when the pitcher aimed the ball a shade too far to one side, connecting it with Roy Elmo's head in no uncertain terms.

A hurried trip to the office of a local physician revealed a broken nose and a badly injured left eye. On the advice of the doctor, the lad was taken to a Lubbock hospital for examination of the eye, it being feared that sight might have been injured. So far, however, no more serious complications have arisen, and before long he will be ready for another turn at the bat.

SINGERS TO MEET AT WOODY SUNDAY

North and South Side Singing Convention will meet Sunday, July 3rd, at Woody, according to an announcement Wednesday from R. H. Kinnison, secretary of the organization.

Mr. Kinnison said, and all singers and others who are interested in real music are cordially invited to be present.

The community extends a hearty invitation to visitors.

O'DONNELL WITHOUT A POP, MAYOR GONE VACATIONING

O'Donnell is a temporary orphan and will be in that sad state for three weeks or a month. Mayor and Mrs. W. S. Cathey and family, accompanied by master James Bowlin, will leave Wednesday afternoon for a vacation in the mountains in New Mexico. Ruidoso will be the nearest post office, but the mayor declared he will be left at the office to live in a tent and eat fish and squirrels.

The boys of the crowd made no statement beyond the fact that they were going along as best they could in that country, and that they were sure going to take advantage of the holiday.

Mrs. Beverly Wells was in Lamesa Monday afternoon.

Mrs. H. R. Womack went to Lubbock Wednesday to have glasses fitted. She has had quite a bit of trouble with her eyes lately.

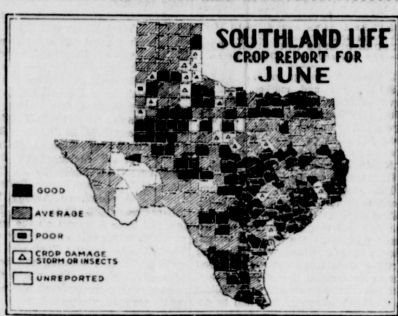

Mrs. T. M. Wilson and daughter, Mrs. Claude Cheirs of Big Spring, accompanied Miss Palmer to Santa Fe, N. M. where they will visit their daughter and sister, Mrs. Sam Russell.

Mr. and Mrs. Charlie Cabool spent Sunday in Lubbock with friends, enjoying a picnic and swimming party during the day.

R. L. Davis made a business trip to Lubbock Tuesday morning.

Mrs. J. J. Williams is the guest this week of her daughter, Mrs. Irvin Wright.

AVERAGE CROP CONDITIONS GOOD OVER STATE AS WHOLE

DALLAS June 28—Although extremely spotted, the Texas cotton crop has made excellent progress during the past few weeks, according to reports compiled by the Department of Public Relations of the Southland Life Insurance Company for June.

Cotton and other crops reported from three to four weeks late last month are now but one or two weeks behind the seasonal averages.

With the exception of the Rio Grande Valley and South Texas districts, Texas' first cash crop begins to move this month. These crops, of course, consist largely of vegetables, fruits, and small grains. Estimates are that the June crops will add from \$40,000,000 to \$85,000,000 to the State's income during the month.

A great deal of the State's wheat crop is now being harvested and some of it is on the way to market.

Corn, on the other hand appears to be more backward than other crops, although it too has gained in condition since the last report.

Crop damage, either by storm or insects, appears to be unusually small this year; and some counties in the state, although planting smaller acreage of cotton, are faced with the probability of a larger production than last year. This appears to be true of the Rio Grande Valley crop, where conditions have been unusually good for cotton and where the section invariably produces the earliest cotton.

Business conditions over the state are still reported as somewhat dull, with the possible exception of East Texas, where both oil and June fruit and vegetable crops have brought money; Dallas, to which this section is contributory, and the Rio Grande Valley and Laredo Districts.

Local News

Miss Alline McIlroy of Lubbock was the guest of friends here a short time Thursday last week.

Mr. Harvey Everett spent the week-end here with his parents, Mr. and Mrs. J. Y. Everett. He is now located in New Mexico.

Mr. and Mrs. Geoffrey Holman of Levelland were guests this week of his parents, Mr. and Mrs. E. D. Holman. They have just returned from a vacation visit with relatives in Cloudford, N. M.

Miss Thelma Palmer is in Albuquerque, N. M. this week, visiting her sister, Miss Irma D., who is a student in the university there. Miss Thelma will also be present at the Fourth of July celebration at Las Vegas, returning home sometime next week.

Marshall Whitsett made a business trip to Lubbock Monday afternoon.

Sheriff B. L. Parker spent Monday here, greeting friends.

"Happy" Smith, candidate for county judge was in O'Donnell Saturday afternoon, shaking hands and saying lots in behalf of his candidacy.

Miss Dessa Holman spent the week-end in town with friends and relatives.

Mrs. Beverly Wells was in Lamesa Monday afternoon.

Mrs. H. R. Womack went to Lubbock Wednesday to have glasses fitted. She has had quite a bit of trouble with her eyes lately.

Mrs. T. M. Wilson and daughter, Mrs. Claude Cheirs of Big Spring, accompanied Miss Palmer to Santa Fe, N. M. where they will visit their daughter and sister, Mrs. Sam Russell.

Mr. and Mrs. Charlie Cabool spent Sunday in Lubbock with friends, enjoying a picnic and swimming party during the day.

R. L. Davis made a business trip to Lubbock Tuesday morning.

Mrs. J. J. Williams is the guest this week of her daughter, Mrs. Irvin Wright.

STORES CLOSE HERE TO CELEBRATE FOURTH

Though no community celebration has been planned here, all the business houses of O'Donnell will close Monday, July 4th, so that clerks and proprietors may take advantage of amusements arranged in nearby towns.

Patrons are asked to bear this fact in mind when doing their Saturday buying of groceries and other commodities. Some of the sandwich shops and the cafes may be open part of the day, though this had not been definitely decided as we go to press.

Lubbock, Post, Lamesa, and other towns have planned rodeos, picnics, barbecues, etc., and a number of local people plan to attend them.

LEGION SOCIAL POSTPONED TO INDEFINITE DATE

Due to the fact that so many of the prospective customers of the local post of the American Legion have been busy with farm work, the community social which was scheduled to be held last Thursday evening was indefinitely postponed.

R. O. Stark, commander of the post, said Tuesday that announcement of the date will be made later, but that so far the legion is unable to say just when it will be favorable to have it.

These community socials were much enjoyed through last summer, and the first one this year, held some time ago, was greeted with much appreciation.

The Index force and the rest of the community join in hoping that we may have another one soon.

WHEAT MOVING OUT; RAINS DELAY SHIPMENT

Though heavy rains, hail, and sandstorms have materially hindered the grain harvest in this territory, five cars have been shipped from the local station, R. O. Stark, agent, said this week.

Some loading has been done at night, cars being spotted so that lights can be arranged. So far all the wheat which has been shipped has been combined, the extreme dampness preventing drying out enough for threshing.

Yield so far has been above first expectations, averaging around twenty bushels to the acre. Though price could be higher without having to have a ladder, this bit of cash coming in at this particular time has been a lifesaver in many instances.

All of which further proves the practicability of our creed: Diversify.

JENKINS TO RESIGN; SUNDAY LAST DAY

Rev. L. S. Jenkins, who has been pastor of the First Baptist church here for the past two years, has resigned, the resignation to go into effect Sunday. He will preach here at last services that day, the evening service to be the last one he will hold in O'Donnell.

At this date no other pastor has been called to fill his place here, and he has not decided where he will locate.

The pastor and his family have made many friends here during his ministry in O'Donnell. Naturally situations and finances have not always been just as he or the church would have liked, but it is felt that under his leadership the church has advanced spiritually and materially in every department.

Not only his own church but the community as a whole will miss Rev. Jenkins and his family. Mr. Jenkins is always interested, hearty and soul in furthering his white and Miss Opal and the boys have tributed their bit toward his father.

It is with deep regret that his resignation was the Index july 2 for much success in new field.

Mr. and Mrs. and or spread Soz. last week.

MRS. HAL SINGLETON UNDERGOES OPERATION

Mrs. Hal Singleton, Jr. was taken to a Lubbock hospital late Monday afternoon, where she underwent a major operation, her appendix and a small tumor being removed.

Latest reports from the hospital are that she is still in a serious condition, though attending physicians entertain no fears as to her recovery.

The attack was sudden, seizing her about noon Monday, as she was going about her duties at the farm. She had gone out there Sunday afternoon, apparently in her usual health.

The operation was performed about nine-thirty Monday evening, a local anesthetic being used because of the condition of her heart. She suffered intensely for some length of time, but members of the family were able to come home at noon Tuesday.

In view of the fact that she has been in delicate health for some time, the family and friends were much concerned and alarmed. The Index force joins with the rest of the community in hoping for a speedy and complete recovery.

MRS. CHARLEY WILLIAMS DIES AT PRIDE MONDAY

Mrs. Chas. Williams, twenty-eight year-old wife of a prominent resident of the Pride community, passed away at the family home there Monday evening after a short illness.

The remains were shipped back to her girlhood home in Mississippi. Her husband and two small children accompanied, and will make their home there so that her mother can care for the babies.

Mrs. Williams sustained a bad fall some time recently, and she being in a delicate condition at that particular time, was badly injured. She was taken to a hospital for treatment, and had been dismissed. Whether she lifted something or otherwise brought on a recurrence of the trouble is not known, but it was necessary to summon a physician Saturday.

Everything that medical aid could accomplish was done in her behalf, but to no avail.

She survived by her husband and two children, and a number of relatives in her home state.

She had been a christian for a number of years, and was known to a wide circle of friends as a model little mother and help mate whose place can never be filled.

The Index joins with others in extending sympathy to the bereaved family.

GUYE'S STORE ENJOYS SUCCESSFUL WEEK

Though inclement weather hindered shopping during the opening days of W. E. Guye's Dollar Week, both Mr. and Mrs. Guye expressed themselves as being much pleased with results of the sale of this week.

This is the second event of the kind they have held, and both sales have met with approval.

Tomorrow (Saturday) will be the closing day for this month's sale, but Mr. Guye stated that this will likely be a regular event.

ANNOUNCES CHANGES IN RADIO SCHEDULES

Beginning Saturday of this week, Miss Alice Busby will broadcast a fifteen minute program of piano music, beginning at 7:30.

**ROADS BEING WORKED
IN FAIR CONDITION**

The highway between O'Donnell and Tahoka has received some much needed attention this week following recent heavy rains, and is now in fair condition.

Though traffic had filled the highway with ruts, there were few impassible places. One of the worst was just north of town, where it was necessary to detour some three or four miles because of a splendid 'hobby.' Last week there were two teams on duty there through the day, ready to drag the less lucky automobiles out of the morass.

However, a day's attention from the country road crew has this place in good shape now, and the big tractor and drag are smoothing the ruts and chug holes in record time.

**ARMADILLO VISITS HERE
ATTRACTS MUCH ATTENTION**

A peculiar little animal known as an armadillo, marched sedately through one of the quiet streets of O'Donnell early last Thursday morning, and headed north down the highway, presumably going to spend the summer with his wife's kinfolks.

A number of early rising citizens were chased, and Alton Hobdy finally captured him not far from Edwards' gin. He has been on exhibit through the week, as very few local persons had ever seen one of the animals before.

In appearance, he is somewhat like the frog what a peculiar fowl he are'. At least that's the way he looked to the Index. His ears are a little like a jackrabbit's, his front feet look something like a pig's, he wears his house and his overcoat on his back in the form of a shell like a terrapin's, while the hair on his tummy resembles that of a possum.

We were informed that the flesh looks like pork, and that some people find it edible. However, we leave that to the reader's discretion. Personally we prefer chicken for eating purposes and armadillos to make sewing baskets.

Lesson for July 3

CHILDHOOD AND EDUCATION OF MOSES

LESSON TEXT—Exodus 2:1-10; Acts 7:20-22
GOLDEN TEXT—Train up a child in the way he should go; and when he is old, he will not depart from it.
PRIMARY TOPIC—The Baby Moses, JEHOSEPH—A Slave, Baby Rescued by a Princess.
INTERMEDIATE AND SENIOR TOPIC—FUTURE WORK.
YOUNG PEOPLE AND ADULT TOPIC—The Influence of a Godly Home.

I. Moses' Parentage (v. 1).
His father and mother were of Levitical stock. Being from the same tribe, they had a common bond of interest and sympathy. Amram had the good judgment to choose for a wife a woman who had sympathies and ambitions in harmony with his own.

II. Moses' Birth (v. 2).
Two children, Aaron and Miriam, were born to Amram and Jochebed, before Moses. However, Moses was the first one that his mother was assured was to be the deliverer of the chosen people. There was something striking about this child which caused her to believe that it was sent of God. She saw that he was a "goodly child." In Stephen's speech (Acts 7:20) he asserts that the child was "exceeding fair." No doubt his mother believed him to be the deliverer of his people and instilled that truth in his mind from childhood. Because of this belief, she had confidence that somehow God would save him from the cruel decree of the king.

III. Moses' Preservation (v. 3-8).
Though Pharaoh's edict was in force Jochebed's faith was such as to cause her to ignore it and hide Moses for three months. The hiding of the child was not because of fear, but because of faith (Heb. 11:23). It was her faith that made her brave to ignore the king's order. The unfailing antidote for human fear is a vital faith in the living God (Ps. 27:1).

1. Placed in an ark (v. 3). Perhaps the story of how Noah and his family were saved in the ark suggested to his mother the expedient used, namely, the ark of bulrushes.
2. Ark placed in the flags by the river (v. 3). Doubtless she was familiar with the place where Pharaoh's daughter came to bathe. She placed the ark at the particular place where it would attract attention.
3. Miriam watching (v. 4). She was, no doubt, stationed here by her mother. It is interesting to note the stress as pointed out by another, by which God's plan was carried out:
a. A mother's wit (v. 3, 4). She devised the ark and placed the baby in it at the proper place and at the opportune time. She also instructed Miriam as to her action.
b. A woman's curiosity (v. 5). The strange object among the flags attracted the attention of Pharaoh's daughter, and she directed her maids to bring it to her.
c. A woman's compassion (v. 6). When the ark was brought and opened, the baby wept. The true woman is always moved with compassion at the cry of a motherless baby.

d. A baby's tears (v. 9). The tears of Moses aroused the woman's instinct of Pharaoh's daughter and she was therefore susceptible to the suggestion as to the care of the baby.
e. A faithful sister (v. 9, 10). Miriam's question was in the form of a suggestion as to a nurse for the baby from among the Hebrew women. This suggestion met a willing response and Miriam called the child's mother. In the providence of God we see that Jochebed was hired to nurse her own child. The best nurse possible for a child is its own mother.
IV. Moses' Education (v. 9, 10, cf. Acts 7:22).
1. At his mother's knee (v. 9). We think his education began at the proper time and at the proper place. It was during this period that his character took form. Here his mind was filled with the Word of God and he was made acquainted with the Jewish hopes and prospects. In these early years, no doubt, the indomitable purpose was fixed to suffer affliction with the people. It was rather than to enjoy the pleasures of sin for a season (Heb. 11:24-26).
2. Adopted by Pharaoh's daughter (v. 10). At the proper time and place was brought into Pharaoh's daughter and adopted as her son. She called him "Moses," which means "drawn out." "Moses," said she, "I drew him out of the water."
3. Educated in the Egyptian court (v. 10). It was here that he became acquainted with the wisdom of the Egyptians (Acts 7:22-23). This was of great importance. It peculiarly qualified him to be the law giver and the historian of his people.

Small Offenses

A very small offense may be a just cause for great resentment; it is often much less the particular instance which is obnoxious to us, than the proof it carries with it of the general tenor and disposition of the mind from whence it springs.—Greville.

To Plead Our Cause

"We have a God who loves for our other, and a son by his side to plead our cause, and a divine executive on earth to look after our interests."

Special to the Index—Stamford, June 30—With the opening of the third annual Texas Cowboy Reunion only four days away, preparations are being completed for the entertainment of the largest crowd in the history of the Reunion. The meeting opens Monday July 4, and will continue through Tuesday and Wednesday.

Pioneer cowboys will begin pouring into the city Sunday, as registration will begin at 9 a. m. Monday and the first meeting of the association will be held at 10:30 a. m. Active cowboys who will participate in the rodeo contest also will begin coming in Sunday, bringing with them their favorite roping ponies.

Attractive girl sponsors from surrounding cities will come, bringing their mounts. Adozen ranch outfits from various parts of West Texas will bring their own chuck wagons and camp horse-drawn outfits. Free beef, wood and water is being provided for the visiting chuck wagons. Among the ranches which have indicated that they will bring their chuck wagons are: Ed Bateman, Strawn; D. Z. Ranch, Sweetwater; S. M. S. Flat Top Ranch, Stamford; Matador Ranch, Matador; F. M. S. Throckmorton Ranch, Throckmorton; Paddle Ranch, Claremont; S. M. S. Spur Ranch, Spur; and others have been invited. The Reunion will have a wagon on the ground at which meals will be served to members of the Pioneer Cowboys' Association. Visitors wanting the novelty of a chuck wagon dinner will find a wagon on the grounds at which such meals may be purchased.

It was definitely determined this week that four brass bands will participate in the grand parade which starts at 1 p. m. on the Fourth of July. They are the Lone Star Gas Company Band of Ranger, the Haskell Municipal Band, the Aspermont Band and the Stamford Band. Cowboys, pioneer cattlemen, chuck wagons, junior cowboys, girl sponsors, decorated floats and individual entries will make up the big street parade.

A new rodeo attraction was added by the management in the form of a cutting horse contest, with \$100 in cash prizes offered for this event. In the contest, the ability of the horse will count one-third, the ability of the rider one-third and speed one-third. This brings the total rodeo prizes to \$1500. The regular rodeo contests are in busting, steering, and old timers' calf roping, wildcow milking, bronco calf roping. Two rodeo performances will be held daily, at 2:30 p. m. and 8 p. m.

**PUBLIC WARNED AGAINST
CIVIL SERVICE
"COACHING" SCHOOLS**

WASHINGTON, D. C., June 29.—The following statement is made by the United States Civil Service Commission:

The Commission warns the public against paying money for "coaching" courses in preparation for Federal civil service examinations. Schools which sell such courses under present conditions accept money under false pretenses. A purveyor of civil service courses is now under indictment in Iowa for false representation. It is expected that other such cases of prosecution will follow.

Comparatively few appointments are being made in the Federal civil service. Vacancies which must be filled are filled by the transfer of those in the service or the retirement of those who have been in the service, wherever practicable.

It is seldom necessary to re-examine. In most cases, the applicants are re-examined hundreds of times in each year. Money paid for civil service courses at this time may as well be thrown to the winds.

Mr. Treadwell was Hot....

but His Motor Wasn't!

CONTINENTAL OIL COMPANY.
Gentlemen:
"During my recent vacation I had occasion to give Gerco Processed Oil a real test, driving some 1,000 miles, temperature from 105 degrees to 111 degrees. The car never previously stayed as cool, and I was able to attribute it to no other cause than the use of Gerco Processed Oil. Yours truly,
T. P. TREADWELL."
Although Mr. Treadwell is Chief of the Fire Department at Fort Collins, Colorado, he must have been pretty hot in weather like that! But in spite of 105 to 111-degree weather, his motor didn't heat up! Conoco Germ Processed Motor Oil withstands heat better because Conoco's exclusive, patented Germ Process gives it extra "oiliness" other oils don't have. That extra oiliness reduces motor operating temperatures. It guards against thinning out caused by heat and crankcase dilution. It gives Gerco Processed Oil more stability. And, no matter how hot the weather, the Hidden Quart stays up in your motor and never drains away. It's always on duty when you start cutting down costly wear during the starting period, when almost half of all motor wear occurs. For Summer, for Winter, any time—Conoco Germ Processed Motor Oil is a better oil for your car. Change now at any Conoco Red Tip angle station.

Two Meals Day Best For Stomach Trouble

Skip one meal and drink water instead. Wash out stomach and bowels each morning by drinking water with spoonful of simple glycerine, buckthorn bark, saline compound (called Adierika).

Adierika brings out poisons you never thought were in your system. If you are nervous, can't sleep, full of gas, it will surprise you. Adierika contains no harmful drugs. Get it today; by tomorrow you feel wonder-

POLITICAL ACTIVITY OF ORGANIZED FEDERAL CLASSIFIED EMPLOYEES

WASHINGTON, D. C., June 28.—The following announcement was made by the United States Civil Service Commission today:

In order that Federal classified employees might be fully advised of the provisions of the civil service rules relating to political activity by organized groups, the Commission has published for years its ruling that what an employee may not lawfully do independently he may not lawfully do in open or secret cooperation with others; neither may he employ for any unlawful purpose an agent, officer, or other person chosen by himself or subject to his power. Every employee is clearly responsible for a continuation or repetition of the abuse of power vested by such employee in an association, or its officers or in other persons. Such responsibility may be terminated only by establishing and maintaining effective control over such agencies, or by the withdrawal of the power so vested in them.

To make a public attack on a candidate for public office is to take active part in a political campaign. Such action by an employee is a violation of Civil Service Rule I and may subject the offending employee to separation from the public service. If the attack is made by the joint action of several employees, the guilt is still personal and attaches to each employee separately and severally for the purpose of the administration of the civil-service law. If it be permissible for Federal employees to take active part in a political campaign to elect one candidate and defeat another, by the same token the successful candidate must be accorded the right to dismiss from the public service whom he will and fill the vacancy by the appointment of whom he will. That means the return of the spoils system, with infinite disaster to Federal employees and the public service. It is childish to assume that the protective provisions of the civil-

service law can outlive the full and impartial enforcement of its restrictive provisions. The latter alone make the former impossible, and the nullification of the latter would destroy the whole law.

The foregoing principles are fundamental to any maintenance of the merit system; and the Commission accordingly holds that it is contrary to the civil service rules prohibiting political activity for any organization of classified Federal employees to issue letters or statements making direct or implied suggestions that the Federal employees vote or work for the return to office of those legislators whose records are regarded as favorable in matters primarily or solely concerning Federal employees.

THREE LAKES NEWS

The sermon preached by Brother Horn Sunday was enjoyed by all present. Mr. Jordan of Wells came with him.

Leroy Sikes of Smyre is down visiting his grandparents, Mr. and Mrs. W. E. Sikes.

Mr. and Mrs. Edd Goddard of O'Donnell visited J. A. Edwards and family Sunday.

Mr. and Mrs. Perry of Grandview visited J. N. Jeffries Sunday.

Little Georgie Beth Sparks has been right sick the last few days.

The little girls of J. A. Edwards were sick last week.

We had another big rain Sunday night.

Cost Her \$4.25 To Reduce 65 Pounds

"Worth It," Miss Bates Says. If you're young and fat read what Miss Bates of Beech, Iowa, has to say about Kruschen Salts—if you are middle aged or old Kruschen shows you the way to lose fat the SAFE

way. "I took one bottle of Kruschen Salts a month for five months. It amounted to \$4.25 and I reduced 65 lbs. but it was worth it. Imagine just 22 years old and weighing what I did. I could not enjoy myself as other girls did. I could not get the clothes I wanted. I think it is wonderful the results Kruschen Salts give."

To lose fat the safe, sure way—take one-half teaspoonful of Kruschen in a glass of hot water before breakfast every morning—eat less fatty meat, potatoes and sweets—a jar that costs but a small sum lasts 4 week. Get it at any drugstore in the world—but be sure for your health's sake to ask for and get Kruschen Salts. It's the little daily dose that does it. D-6

RED CHAIN Egg M

PUTS IN THE EGG BASKET WHAT OTHERS PUT ON PAPER

A fair feeding test of RED CHAIN is the best way to clear up old claims about egg mash... Talk is cheap—and anyone can find words in the dictionary. On paper most feeds claim "more eggs cost"—but RED CHAIN actually does what others claim. Don't buy your egg mash for what it does on paper—buy what it puts in the egg basket... Feed RED CHAIN to your own hens and see the difference between claims and reality. It is the unequalled quality of RED CHAIN Egg Mash that makes it the cheapest egg producer—regardless of price.

RAIL TRANSPORTATION IS EFFICIENT AND ECONOMICAL

● THE RAILROAD is the most efficient and the most economical transportation agency the human mind has ever devised.

The ability of commercial trucks to operate with various charges for their services has been because they are not required to carry all kinds and classes of freight. The truck can choose its freight and is privileged to reject that which it cannot handle, either because it is not equipped for such heavy service or the rates are too low to be profitable. The railroad CANNOT DISCRIMINATE but must accept all freight offered it.

In 1930 the shippers of Texas paid the railroads \$225,223,142 in freight charges. If the same volume and character of traffic had been carried by trucks it would have cost the shippers, according to the best available data on trucking costs, \$900,000,000, or four times as much.

What will be the effect on the shippers of Texas if only the traffic which the trucks cannot handle is left to the railroads? If traffic paying the higher rate is taken from the railroads by the trucks, it will be necessary for the rail carriers to increase their rates on the low grade traffic or go out of business. The total transportation bill will be greatly increased.

The railroad rate structure is a composite designed for the purpose of enabling the free movement of ALL ARTICLES OF COMMERCE, making it possible to bring even the cheapest commodities into general use and distribution. Were it not for the low rates made available by the railroads on many low grade commodities and raw materials, their distribution and use would be impossible and all commerce and industry would be seriously affected.

● THE RAILROADS CANNOT SUBSIST ON LOW GRADE TRAFFIC ALONE.

Two Meals Day Best For Stomach Trouble

Skip one meal and drink water instead. Wash out stomach and bowels each morning by drinking water with spoonful of simple glycerine, buckthorn bark, saline compound (called Adlerika).

Adlerika brings out poisons you never thought were in your system. If you are nervous, can't sleep, full of gas, it will surprise you. Adlerika contains no harmful drugs. Get it today: by tomorrow you feel wonder-

POLITICAL ACTIVITY OF ORGANIZED FEDERAL CLASSIFIED EMPLOYEES

WASHINGTON, D. C., June 28.—The following announcement was made by the United States Civil Service Commission today:

In order that Federal classified employees might be fully advised of the provisions of the civil service rules relating to political activity by organized groups, the Commission has published for years its ruling that what an employee may not lawfully do in open or secret cooperation with others; neither may he employ for any unlawful purpose an agent, officer, or other person chosen by himself or subject to his power. Every employee is clearly responsible for a continuation or repetition of the abuse of power vested by such employee in an association, or its officers or in other persons. Such responsibility may be terminated only by establishing and maintaining effective control over such agencies, or by the withdrawal of the power so vested in them.

To make a public attack on a candidate for public office is to take active part in a political campaign. Such action by an employee is a violation of Civil Service Rule 1 and may subject the offending employee to separation from the public service. If the attack is made by the joint action of several employees, each employee separately and severally for the purpose of the administration of the civil-service law. If it be permissible for Federal employees to take active part in a political campaign to elect one candidate and defeat another, by the same token the successful candidate must be accorded the right to dismiss from the public service whom he will and fill the vacancy by the appointment of whom he will.

That means the return of the spoils system, with infinite disaster to Federal employees and the public service. It is childish to assume that the protective provisions of the civil-
