O'DONNELL, LYNN COUNTY, TEXAS, FRIDAY, OCT. 12, 1928

The best advertising medium in Lynn County. Read in 1,500 homes each week.

NUMBER 2

## 100 Bond Issue Voted on Monday

At the election on Monday, the voters of Lynn County have authorized the issuance of a \$25,000.00 bond issue for the purpose of providing for the construction of a new courthouse building. The issue is to be paid for by a millage rate of one cent on the assessed value of the taxable property in the county.

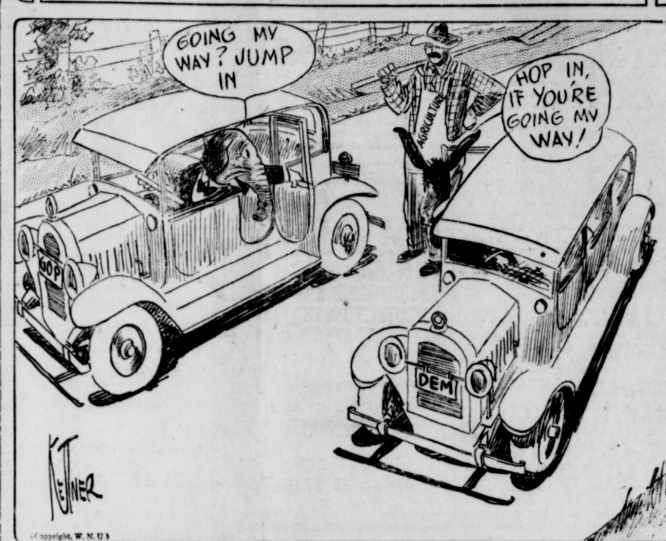

## Lynn Stokes Coming To Lamesa Saturday

President Lynn Stokes of the Texas Farm Bureau Cotton Association will address the membership of the Dawson County at 2 o'clock Saturday afternoon at the District Court room, in Lamesa. According to local officials of the Association Mr. Stokes by virtue of his long continued devotion to the principles of cooperative marketing experience, and position as State president is fully qualified to discuss with the membership the results obtained and the future successful development of the plan of marketing cotton co-operatively.

## VOCATIONAL CLASSES OF O'DONNELL MET MONDAY

The Vocational Agriculture Classes of O'Donnell High School met on Monday morning and organized a Future Farmers of Texas Chapter, under the sponsorship of Vernon Martin. Chapter of this kind first formed in the southern states, and in adjoining counties to attend.

## Plenty of Opportunities to Ride Now

## 1,000 Cotton Pickers Needed In O'Donnell Trade Territory

### Westmorelands Stage Big Fall Opening Sale

Westmoreland's Dry Goods opens today with their big Fall Opening Sale, the first to be put on in O'Donnell this fall. The doors will swing open at nine o'clock and the house will be filled with rare bargains. The prices have been cut deep on practically everything in the store offering the public an opportunity to purchase their fall and winter needs at a great saving. See their big double page advertisement in this issue of the Index. The prices speak for themselves.

### Yanks Take 4 Games For World Champ

The New York Yankees made it four straight Tuesday over the St. Louis Cardinals at the latter's park, winning the world's championship in baseball. The fourth and deciding game was a record busting triumph over the Redbirds. Five of the Yankees seven runs were circled clouds, three by the world's home run champion, Babe Ruth, two of them in the same inning. The Redbirds seemed helpless throughout the series.

### O'DONNELL EAGLES WIN GAME FROM WILSON HIGH

O'Donnell's junior foot ball team met the junior team of Wilson High School Tuesday afternoon for a clean snappy game in which they romped in with a score of 31 to 0. Cecil Treadway brought honors to himself and his team by making three touchdowns, and each player reflected credit on himself and his school by clean playing and good sportsmanship. This afternoon the first team will meet Post at their field, and if you can possibly arrange it, you will enjoy the trip there and the game as well. Come along and support your team.

### SCURRY COUNTY WILL EXPERIMENT WITH NEW WHEAT

According to the following item appearing in the Scurry Times-Signal, new varieties of wheat will be thoroughly tested by Giles Garner, champion wheat grower of Scurry county. The following item is self explanatory:

### GEORGE FOSTER WITNESSES MARVEL OF PRESENT AGE

Messrs Geo. D. Foster and Sam Russell returned Wednesday from San Angelo, where they went in connection with the cotton pickers. They report pickers scarce in that section with the demand heavy. While in San Angelo Tuesday night they witnessed the showing of the "Talking movies" which was shown in that city for the first time. Geo. D. says it is one of the greatest discoveries of the twentieth century and he believes it will attract stronger than the movies ever did. Everything is life size and the speaking pictures look like the real actors in person. He stated Al Johnson would appear in San Angelo Sunday afternoon in the talking movies and expected to draw a full house at each of the two performances.

### BIG SHOW COMING TO TOWN

Schell Bros. Trained Wild Animal exhibition to be here for two performances on Friday, October 13. The advertising cars of Schell Bros. Trained Wild Animals Exhibition were in our city this week in charge of Mr. Roy Roberts with a crew of twenty billposters, lithographers, bannermen and programers, and gave the show all the publicity possible. They are not only posted bills on all available places possible in town but men were sent out on routes in the country in all directions from the city for twenty to thirty miles.

### NAVY PLANE SCOOPS UP GOLD IN NICARAGUA MINE

Mining gold with an airplane is the most bizarre of all tales yet to come to the navy department at Washington from Marines in Nicaragua. Captain Howard L. Marine Corps pilot, made a forced landing with an amphibian plane—so goes the story in the jungle area near La Pazmina and his men scooped up earth heavily laden with gold. Corporal Cole, observer aboard the plane, panned out \$100 worth of metal with ease, says the Managua report. The marooned aviators were rescued by other planes the following day, and were returned safely to Managua with the gold as evidence.

### EXCAVATION UNDER WAY ON NEWMOORE BUILDING

Excavation began Wednesday on the Newmoore school building, which will be thoroughly modern and convenient in every respect, consisting of four class rooms, and auditorium, gymnasium.

### 10,000 EGG CHICKEN HATCHERY IS BEING INSTALLED IN TAHOKA

Prof. Taylor White and Verner Smith are installing a modern electric hatchery in Tahoka. It will have a capacity of 10,000 chickens. White and Smith state that they will have the hatchery in operation by the first of January and that they will be in the market for eggs from certified flocks.

### HOME DEMONSTRATION CLUB TO GIVE BOX SUPPER OCT. 19

The Ladies of the Home Demonstration Club of Lynn County will give a box supper Friday night, October 19th, at the Mercantile Legion home in Tahoka, according to a long distance message from W. E. (Happy) Smith, Thursday morning. Happiness as there will be plenty of good music and a good program that will be entertaining to all. Everybody is invited.

### 31,993,000-BALE CROP IS ESTIMATED BY U. S.

Washington, Oct. 8.—The Department of Agriculture's report on condition and probable yield of the 1928 cotton crop, released Monday, placed the condition for the entire cotton belt at 54.4 per cent of normal and the probable yield at 13,993,000 bales. These figures, as of October 1, compared with a condition of 60.3 and a probable yield of 14,432,000 bales in the previous estimates as of September 1.

### SINGLETON BUILDING IS NEARING COMPLETION

Finishing touches are now being added to the Singleton New building which promises to be two of the most attractive in town. Light fixtures, doors, plate glass fronts etc. are rapidly being installed and unless something unforeseen happens tenants of the new structure will be moved in and settled before our publication next week.

### REV. WILEY OF ABILENE AT CHURCH OF CHRIST SUNDAY

We are requested to announce that Rev. E. B. Wiley of Abilene Christian College will fill the pulpit Sunday morning, October 14, at the Church of Christ.

### Excavation Under Way on Newmoore Building

Excavation began Wednesday on the Newmoore school building, which will be thoroughly modern and convenient in every respect, consisting of four class rooms, and auditorium, gymnasium.

### 10,000 Egg Chicken Hatchery is Being Installed in Tahoka

Prof. Taylor White and Verner Smith are installing a modern electric hatchery in Tahoka. It will have a capacity of 10,000 chickens. White and Smith state that they will have the hatchery in operation by the first of January and that they will be in the market for eggs from certified flocks.

## Local People Co-Operating in Securing Data for Milk Plant

(Lamesa Reporter)

The officials of the local chamber of commerce have for the past three months been working on getting for Lamesa and Dawson county a milk plant or creamery. To date they have succeeded in getting the Douthitt Engineering Company of Chicago, Ill., interested in locating a milk plant here. This plant will take whole milk and manufacture from it some 12 or 15 products and will operate a delivery car to the home of the producer, to pick up the milk produced in the country. The very best market price will be paid for whole milk if this plant is located here. To illustrate when the price of cream is 35 cents per pound for 4 per cent butter fat basis last August this same company operating in Marshall, Tex., as paid this price for the same quantity for 4 per cent butter fat whole milk—a difference of 18 cents less milk of course, the skimmed milk.

It is also pointed out that wherever a milk plant is located the price of cream is better and more cream is sold on the local market and to the local cream representatives. So, in undertaking this project the chamber of commerce has no fear of hurting any business that will locate a time will give the county a very much needed industry and therefore a more stable market. It is a project that we can join in and see put to put over. It means much to all.

To date, the Agricultural Department of the local chamber of commerce has been conducting a preliminary survey to determine the number of cows in the county and the production of the cows now giving milk. The figures at noon Wednesday totaled more than 2,000 cows, with about 1,000 farmers having registered. This shows an increase of over three cows to the farm. The potential number of cows that farmers will have if the plan is carried out now totals better than 4,000 cows.

Mr. Douthitt of the Douthitt Engineering Company promised to be here this week to take some preliminary data. He will make his survey taking under consideration the number of cows we now have and then determine whether or not to locate a plant here. After the survey the next question for the chamber of commerce is to sell the county to the country and the advisability of locating a plant here. Then comes another job. This company will want to fifty per cent of the stock in this plant if it is located here. Our people will be called on to subscribe the rest of the stock. So we can see that work on this project has just started.

Every school district in the county has been organized for completing the information on the stock in the county. According to chamber officials the data is fast coming in and it is hoped by the last of the month that it will be accounted for in the county. According to chamber of commerce officials, never before in the history of the organization or this section for that matter, have the people been known to unite in such a solid mass of the same ideas and opinions and action in their own section as they have this one. Hundreds of farmers have joined the C. of C. in putting this matter over and over and realize that it is a mutual matter and one in which all is to profit. With this sort of co-operation the project certainly will be paid for in the county.

We know of no country where development is more needed than in Dawson County. The field is ripe and many are ready to take it. The chamber of commerce stands first for just the kind of development needed here and it can assure you that they appreciate the efforts of this organization and are pledging on every hand their co-operation in any way they can.—Contributed.

### WILL TRY TWO MURDER CASES ON THURSDAY

The case against Major Clark, negro, charged with murder, has been set for trial on Thursday, Oct. 11, according to District Attorney T. L. Price. A special venire of fifty men has been summoned. Clark is charged with killing another member of his race in the Wells community west of O'Donnell last winter. The case against Mrs. Mollie Turner, also charged with murder, has been set for trial on Monday, October 15. A special venire of sixty men has been ordered in this case. The verdict on which this indictment is based is alleged to have been committed by a number of men against the vicinity of Wilson. This case will doubtless attract a great deal of attention.—Lynn County News.

### 10,000 Egg Chicken Hatchery is Being Installed in Tahoka

Prof. Taylor White and Verner Smith are installing a modern electric hatchery in Tahoka. It will have a capacity of 10,000 chickens. White and Smith state that they will have the hatchery in operation by the first of January and that they will be in the market for eggs from certified flocks. Tahoka has long needed a hatchery and it is hoped that these gentlemen will make the proposition pay and at the same time will greatly stimulate the fine poultry business in Lynn County.—Lynn County News.

### AROLD LLOYD EDY SETS FAST PACE

"Arduous" is an expressive little weight by no means to be misused by the press agents, but not only described Harold Edy's production "Specter" to the Lynn Theatre on Tuesday and Wednesday. To finish it is literally a comedy, as the name of the play, in the breezy character of New York boy, whose principles are losing jobs, gives most likable character to the play. In addition has a story line, as well as based on a variety of positions in the world of soda jerker. Hear of a horse car, with a pilot and several other new fields of comedy is one of the sturdiest pioneers, ready plenty for his humor, and in "Speedy" he tells that as far as motion picture is concerned, is vir-

### ST REUNION DRAWS LARGE CROWD AT DRAW

A crowd of laymen from this section were heartily entertained in an old time Methodist draw, Sunday, after-noon, by the Rev. Virgil Fisher brought out of his sermon days when across wind swept and the howling of wolves filled the air.

### TERRITORY INCREASING

The population of the O'Donnell territory is increasing rapidly. Route 1 is to be gaining more new land in any other section lately. Many new homes have occurred. One peculiar thing about this territory is that all girls are Mrs. and Mrs. C. A. Bell, set of town, on October 7.

Mr. and Mrs. E. A. Atkin-T-Bar community, Sunday a girl. Mr. and Mrs. H. T. Moore Lakes community, on 26th, a girl. Mr. and Mrs. R. E. Shoemaker Three Lakes, September the young ladies and their reports doing nicely.

Ma Rodgers is fast regaining her former position since her operation is back at her desk at

## ORDER AND NOTICE OF BOND ELECTION

THE STATE OF TEXAS )  
COUNTY OF LYNN )  
CITY OF O'DONNELL )

On this 4th day of September, 1928, the City Council of the City of O'Donnell, Texas, was convened in regular session at its regular meeting place in the City Hall of said City, with all the members thereof present, viz.:

E. M. Wilder, Mayor, R. C. Carroll, Ed Singleton, G. A. Haney, C. L. Davis, Aldermen.  
W. A. Tredway, City Secretary.

And passed the following order: It was moved by Alderman C. L. Davis and seconded by Alderman G. A. Haney that there be submitted to the qualified voters of said City who are property taxpayers therein, the following proposition upon the question of issuing Funding Bonds as hereinafter more fully set out, such election to be held on the 15th day of October, 1928. The motion was unanimously carried by the following vote:

AYES: Aldermen R. C. Carroll, Ed Singleton, C. L. Davis, G. A. Haney.

NOS: None.

Thereupon the following election order was adopted. It appearing that the City of O'Donnell has outstanding and unpaid warrant indebtedness, consisting of valid and legally binding obligations against said City, in the amounts and of the description hereinafter more fully set out, to wit:

City of O'Donnell Funding Warrants, dated January 10, 1928, numbered 1 to 20 inclusive, of the denomination of \$500 each, bearing interest at the rate of 6 per cent per annum, and maturing serially, aggregating \$8,000.00.

City of O'Donnell Waterworks Extension Warrants, dated August 18th, 1928, bearing 6 per cent interest, numbered 1 to 12 inclusive, of the denomination of \$1,000 each, bearing interest at the rate of 6 per cent per annum, and maturing serially, aggregating \$12,000.00.

City of O'Donnell Drainage, Improvement Warrants, dated March 1st, 1926, numbered 2 to 8 inclusive, of the denomination of \$1,000.00 each, bearing interest at the rate of 6 per cent per annum and maturing serially, aggregating \$4,000.00.

City of O'Donnell Waterworks Extension Warrants, dated August 18th, 1928, bearing 6 per cent interest, numbered 1 to 12 inclusive, of the denomination of \$1,000.00 each, bearing interest at the rate of 6 per cent per annum, and maturing serially, aggregating \$12,000.00.

THEREFORE, be it ordered by the City Council of the City of O'Donnell, Texas, in the amount of held in the City of O'Donnell, Texas, on the 15th day of October, 1928, at which election the following proposition shall be submitted to the resident qualified property taxpayers voters of said City for their action thereupon.

### PROPOSITION

Shall the City Council of the City of O'Donnell, Texas, be authorized to issue the bonds of the City of O'Donnell, Texas, in the amount of \$28,000.00, maturing serially within forty years from their date, bearing interest at the rate of 5 1/2 per cent per annum, and to levy a tax sufficient to pay the interest on said bonds and to pay the principal at maturity, for the purpose of funding a like amount of outstanding warrant indebtedness existing against the City of O'Donnell, Texas, by cancelling the evidences thereof and issuing such bonds to the holders thereof, as authorized by the Constitution and laws of the State of Texas, including Chapters 1 and 7, Title 22, Revised Civil Statutes of 1925.

Said election shall be held in the City Hall building in said City of O'Donnell, and the following named persons are hereby appointed judges and clerks respectively of said election:

D. H. McDaniel, Presiding Judge; J. M. Christopher, Judge; H. G. Gantt, Clerk; J. R. Mayo, Clerk.

Said election shall be held under the provisions of Chapter 1 and 7, Title 22, Revised Civil Statutes of 1925, and the manner of holding the same shall be governed by the general laws regulating general elections, so far as applicable, and only qualified voters who are property taxpayers in said city shall be entitled to vote at said election.

All voters who favor the proposition to issue such bonds shall have written or printed on their ballots the words "For the issuance of bonds" and those opposed thereto shall have written or printed on their ballots the words "Against the issuance of bonds."

A copy of this order signed by the Mayor and attested by the City Secretary of the City of O'Donnell shall serve as a proper notice of said election; and the Mayor and City Secretary are hereby authorized and directed to cause such notice of election to be posted at the hereinbefore named polling place, in said City of O'Donnell for thirty full days prior to the date of such election, and

also to cause such notice to be published in some newspaper of general circulation which has been regularly published in said City for at least one year before this date, which notice shall be published once each week for thirty full days before the date of said election, the date of the first publication thereof to be not less than thirty full days prior to the date of such election.

E. M. WILDER, Mayor, City of O'Donnell, Texas.

ATTEST: W. A. Tredway, City Secretary, City of O'Donnell, Texas. (SEAL) 50-51c

The notion that it is harmful to eat fish and milk together has no foundation in fact. Think of the many excellent creamed fish dishes, and fish chowders made with milk, that have always been eaten without effect!

Cook spinach for 10 or 15 minutes only, in just the water that clings to the leaves after washing it through

several waters. When it begins to get tender, chop it very fine and season with plenty of butter or cream.

Starch does not taste good unless it is well cooked, hence it is advisable to cook cereals until the starchy flavor disappears, but it is no longer considered necessary to cook them for several hours before they are given to children. Many of the package cereals now on the market have already been precooked so that some of them need only a very brief cooking in the double boiler.

# When Winter Comes

# You use more Electricity

DAYLIGHT HOURS are longer from April to September. These are the outdoor months. Picnicking, driving, swimming—all kinds of outdoor sports claim your time during these longer days.

From September to March daylight hours are shorter and therefore electric light hours are longer. Less outdoor playtime and more indoor amusement. Electricity makes the indoor hours joyous. It furnishes light and heat, cooks the meals, operates the radio, the victrola, and performs dozens of jobs that would otherwise be a hardship.

Electricity is the boon companion of shorter days and longer nights. You use more of it in the winter and it gives you countless pleasures, conveniences and comforts.

This chart shows the average number of hours in which electric lights are used in the average home for each month in the year.

- January - 6 Hours, 32 Minutes
- February - 5 Hours, 38 Minutes
- March - 4 Hours, 10 Minutes
- April - 3 Hours, 48 Minutes
- May - 2 Hours, 57 Minutes
- June - 2 Hours, 33 Minutes
- July - 2 Hours, 36 Minutes
- August - 3 Hours, 9 Minutes
- September - 4 Hours, 00 Minutes
- October - 4 Hours, 54 Minutes
- November - 6 Hours, 11 Minutes
- December - 6 Hours, 51 Minutes

This chart shows why your light bill is higher for the winter months than it is for the summer months. It is higher simply because there are more hours of darkness in winter than there are in summer.

OCTOBER 12, 1932

October 12 is a day which Americans set aside for honoring the memory of that dauntless Genoise sailor who is almost universally credited with being the discoverer of a new world.

In twenty-three states of the Union, Arkansas, California, Colorado, Connecticut, Delaware, Idaho, Illinois, Indiana, Kansas, Kentucky, Maryland, Massachusetts, Michigan, Missouri, Montana, New York, Oklahoma, Pennsylvania, Rhode Island, Texas, Vermont, and Washington, Columbus Day is a legal holiday.

Can you picture to yourself that October day, 436 years ago? When the despairing sailors, hopeless of ever seeing home, loved country or native land again, driven on by the indomitable will of their courageous leader, when they first sighted that fair white beach with a background of palm trees waving in a warm flower scented breeze, and saw the friendly faces of the gentle natives, did they not feel that surviving past our power of understanding?

And what a turmoil of emotions must have seethed in the heart of Columbus when, in scarlet and gold and bearing the standard of his sovereign, he set foot on land for the first time in months, and on the land of a new world? It is a tribute to him that he fell on his knees and thanked God for His mercy and aid. But Washington Irving described the scene years ago in his "Life Voyages of Columbus" better than any modern writer can hope to do, while S. W. Rossbach, writing in the Saturday Evening Post, relates another scene less well-known.

When Columbus returned to Spain from the new world he stopped on February 14, 1493, at Santa Maria, one of the Islands of the Azores, probably to take a rest after the day before this he had encountered a most terrific storm and was convinced that he, his men and his vessels must all perish. Now Columbus realized in his heart that he was going back to Spain with a discovery second to no other. And when it occurred to him that his ship would sink at any moment, he set to work to make a record of his mighty undertaking, hoping that by some will of the Fates it would not be lost to posterity. So he carefully prepared as complete an account of his marvelous voyage as was possible under the circumstances. He wrote the details of his journey on a stout piece of parchment, wrapped it carefully in a waterproof cloth, then placed it in an iron-bound barrel and threw it into the raging ocean. But the Fates were kinder to Columbus and his men than to his account made in a time of stress. Alas, it has never been found and what a priceless relic it would be to us who join today in honoring that intrepid mariner, Christopher Columbus.

DRAW ITEMS

The local Thomas Brothers' Gin at this point has pressed about 12 bales with prospects of a number this week. The weather has been fair conducting to rapid opening of mature bolls. It is estimated that an average yield of about one bale to five or six acres will be the rule in this area.

The Epworth League put on a special "Early Methodist" program Sunday evening—one of the best in many months. The program was prepared by "Billie" Porterfield, lay leader for the Draw-Graessland-Groves Methodist circuit. The League has been greatly revived in the last two or three weeks.

The binder is heard throughout the land and many are now shocking their feed. Some are cutting their maize heads. The air of the autumnal harvest is prevalent in the land.

Those who attended the Sunday School Standard Training Course of the Methodist Church at O'Donnell, last week included "Billie" Porterfield, J. M. Casbeer, Rev. and Mrs. Hamilton Wright, Miss Euna Knowles, I. N. Standefer, Mrs. J. M. Casbeer and Mr. W. W. Caswell. Five credits were obtained by the local Sunday School.

A Sunday School Standard Training Course to be held at Draw for Sunday School on the circuit will probably be instituted here in the near future. The text will be "That Every Methodist Should Know." The course will be free save for incidentals of lights and textbooks. The pastor probably will do the instructing. It is hoped to have a large attendance.

Many Draw people heard the Rev. Frank Norris, pastor of the First Baptist Church, Fort Worth, when he spoke on the political issue at Tahoka last week. The great majority of the Draw people are in sympathy with the issues as explained by this divine.

Several new residences are being erected in this and the Redwine area as well as the handsome new school building at the latter place, a credit to any community. The assembly of God Church is erecting a parsonage just to the south of the church building at this place.

TELL-A-TALE AND LISTEN AWHILE

The Fourth Grade has recently organized a most unique club, which under the capable supervision of Miss Jessie Gary, promises to be of much benefit to the individual pupil and to the school as well.

As the name indicates the club is organized for the purpose of storytelling and the meeting time is every Friday afternoon from recess to 4 o'clock. A committee appoints those who will tell stories and the entire proceedings are carried on in a most business like manner. The officers are Mary Hamilton, president; Opal Hines, secretary; Margaret Vermillion, secretary.

This class is doing a most commendable amount of work and doing it well. When the writer had occasion to visit their room recently perfect order prevailed, there was no paper on the floor, vases and bowls of flowers made the desk and bookcases attractive, and a general air of contentment and peace was evident. Miss Gary had that day (Monday) been the happy and grateful recipient of a fruit and candy shipment.

Mrs. Ben Cowden is their room teacher, and has individually made herself popular with her "adopted" pupils by several acts, chief of which was a picnic last Friday afternoon. The youngsters were loaded into cars and taken out to an open space, where games of all kinds were played and hot dogs and cookies discussed freely and at length.

NOTICE RURAL SCHOOLS

At a meeting of the Superintendents and Principals of the accredited schools of the county on October 6th the following resolutions were passed:

Whereas the State Superintendent in accordance with the law has provided a basis for the classification of the rural schools of the state, and "Whereas we are of the opinion that a strict adherence to this classification is of benefit to the rural schools and necessary to the maintenance of the standards of accredited schools admitting pupils from rural schools, therefore

Resolved that the Superintendents and Principals of the accredited schools of Lynn County that are not in compliance with the standards of the State Classification of Rural Schools, be notified by the State Superintendent and the law.

Yours Truly,  
H. P. Cavness, Co. Supt.

CARD OF THANKS

To our friends and neighbors who were so kind and sympathetic in the illness and death of our beloved baby, we wish to offer our heartfelt thanks and appreciation. May God's richest blessings rest upon each of you, our prayers, Mr. and Mrs. Ches. McConal and family.

CHURCH NOTES

Baptist W. M. S. met Monday in the regular Mission Study. Next Monday afternoon all members are urged to be present as the society will put up quilts to be quilted on Tuesday of the same month for Buckner's Orphan Home. All ladies of the Church are invited to help. Each member will bring one certain kind of food for lunch.

Jack Venzey left Saturday for Wellington, where he is employed by West Texas Utilities.

Miss Mabel Harris, who is teaching at Muleshoe, spent the week-end with her parents, Mr. and Mrs. Dee Harris.

NOTICE TO PUBLIC

It has been the habit of some people living near the public highways to dump their refuse into the bar pits which is strictly a violation of the laws of the State of Texas. Warning is hereby given to parties guilty of such violations, to refrain from so doing in the future, or steps will be taken to enforce the laws. Please cooperate with us in maintaining our highways in perfect condition.

T. J. Vandell, Commissioner  
Precinct No. 3 Lynn County, 2-11c

WHAT'S DOING IN WEST TEXAS

Ranger is to have a vitaphone, the instrument which makes talking movies possible. Half of the cost was covered by the purchase of tickets, and the rest by local business men. This is the first town in the Oil Belt to have a vitaphone.

The Childless Hotel Coffee Shop will be opened soon, two months previous to the opening of the hotel proper, according to J. P. Rankin. This is being brought about by a special effort on the part of contractors.

Livestock buying and selling is active in Lampasas. W. T. Maxwell shipped four car loads of one and two year old fat steers to St. Joseph, Missouri, recently. Three cars of mixed cattle were also shipped by breeders to Fort Worth.

A pumpkin weighing 55 pounds was brought in by Lon Martin, a Crosbyton farmer was brought into town and exhibited. The pumpkin was unusual in size for this section and will be taken to some of the fall fairs.

Nine tractors have been put to work on the road between Abernathy and Hal, Center to widen the road and to clear the brush and brush required by Federal Regulations. The detour is in good traveling condition.

The practice that was followed by the Retail Merchants Association of distributing \$40,000 in premiums two years ago in Lundy has been started again. The premiums are given in \$15.00, \$10.00, \$7.50, \$5.00 and \$2.50 divisions.

Matador has a new Southern Fire Truck with a 500 gallon capacity and enough pressure to extinguish a large fire. The truck will be housed in the Matador Buick Co. Building until the completion of the City Hall this month.

The Sterling Theatre, in Sterling City, N. M. is the first theatre to show the new free picture of the process of feeding crops put out by the Soil Improvement Committee of the National Fertilizer Association.

Engineers are at work in Hamlin looking for a new water site. The water supply of Hamlin is sufficient at the present time, but prior to the spring rains the lake was low.

A reduction in the light rates in McCamey from 17c to 16c goes into effect in a short time. If the bills are paid promptly, within a specified time a rate as low as 12 cents may be earned.

A fine new Methodist church building has recently been completed in Amhurst and services held by

the pastor, Rev. Claude Ledger. The office is modern in every point of construction and gives the Methodists a place of worship unequalled in the city.

The new Sanitarium in Fredericksburg opened October 1st. The sanitarium has equipment for taking X-ray pictures and fluoroscopes, and will save the physician the great inconvenience of sending patients to neighbor towns for treatment.

Three hundred and thirty-two bales of cotton had been weighed in Stamford up to a recent date. Of this number 50 bales were handled by Joe Jones, cotton weigher, and 62 bales by the Stamford Compress.

As high as 15c is being paid in Ballinger for pecans. The pecan crop in Rannels County is the best in several years because of the numerous floods in the creek and river bottoms this year.

BEEES HOLD BUSINESS SECTION TWO HOURS

Westwood, N. J. suspended business for two hours when a swarm of bees took possession of the principal corner recently. The first intimation came when Dr. F. C. Young hopped into his car and hopped out again. He waited awhile, but the bees refused to abandon his automobile so he used a taxi. Stores closed doors and windows; furtive individuals darted down the street but most of them were stung.

Finally an unidentified citizen experienced in the ways of bees, brought a hive, modified netting and smokepot and soon had the swarm captured.

CENSUS SHOW METHODIST LEADING IN CHURCH AFFILIATION AT A. AND M.

College Station, Texas, Oct. 12—Religious census of the new student body at the A. & M. College of Texas shows church affiliation for all but 238 out of a total of more than 2900 students. A score or more churches are represented, according to the census which was compiled by the college Y. M. C. A., the Methodist leading with 816, Baptists next with 612 and Presbyterians third with 270.

Figures on the religious poll, announced by M. L. Cashion, general secretary of the college Y. M. C. A., are as follows: Methodist 816, Baptist 612, Presbyterian 270, Christian

200, Catholic 151, Episcopal 145, Lutheran 69, Church of Christ 54, Jewish 26, Christian Science 19, Congregational 4, Mohammedan 2, Unitarian, Greek Orthodox, Gregorian, Latter-Day Saints, and others 15. These with 238 non-members at the time of the poll give a total of 2221. Since then additional students, not included in the census, have been registered.

A WARNING TO FORTUNE SEEKERS

The path to fortune does not start in New York for every seeker after fame and riches, and the Room Registrar of the New York Welfare Committee issues a warning which finds space in the press, that the Metropolis is not a good place to be in "without a job, friends, relatives, or a warning cannot live in New York on less than \$25.00 a week. It also emphasizes the fact that of the thousands who come to New York each year the majority soon find themselves in an environment so depressing or demoralizing as to affect their lives or character permanently and of those who the world hears little.

Mildew stains on fabrics when very fresh, may sometimes be washed out with soap and water, or bleached in the sun.

The growth of mildew is at first on the surface of materials that have been allowed to become damp, but in a short time these molds penetrate the fiber and injure it, and are almost impossible to eradicate.

FARM BY THE BUDGET

The farming industry of the United States loses many hundred million dollars each year because production is overexpanded along some lines and underexpanded along others.

The theoretical and practical capacities of the leading companies producing passenger automobiles and trucks are as follows:

Table with columns: Company, Theoretical Capacity, Practical Capacity. Includes Ford, Chevrolet, Buick, etc.

Small First Payment - Easy Terms on O.K.'d Used Cars

C. L. TOMLINSON, Owner

A "used car" is unused transportation

3 out of 5 buy used cars

A GOOD automobile is built to stand years of use. It will provide many thousands of miles of satisfactory transportation.

THREE out of five of the cars you see on the road have been purchased as "used" cars.

But only occasionally are all its years and all its mileage used up by one owner.

The cars which General Motors dealers have accepted in trade vary in name, body style and price.

This custom brings into the market every year so-called "used" cars which represent outstanding opportunities to buy unused transportation at low cost.

Every year more and more people appreciate this fact. Today millions of families are driving cars of which they are the second or third or even fourth owners.

To the family wanting transportation at lowest possible cost. To the family wishing to own a car of a higher price class.

We invite you to examine the unused transportation in the stores of General Motors dealers.

GENERAL MOTORS

General Motors wants you to know what it is doing to give value to the purchaser of its products.

**DAVID BUTLER SAYS WISE CRACKS HAVE ORIGIN IN SCHOOLS**

Director of "High School Hero" Claims Students Create Them

Where do wise cracks and snappy sayings originate?

That is a question that has caused much comment. Modern writers and night club hostesses are in the habit of commercializing new slang phrases as their own and then the country hears that "so and so" is the author of "such and such" a phrase.

But David Butler, directing Fox Films "High School Hero," coming to the Lynn Theatre Thursday, says "I have found that most of the wise-cracking so widely used by Americans has had its origin with the high school students of today.

"You will find that the current sayings now rage in vaudeville and cabarets, were being used in their different variations by boys and girls in American high schools ever two years ago.

"Some of the snappy sayings that are now in use that were the vogue among the students two years ago: "It won't be long now," "Do you think you will make it?" "Boy Friend Take it big," "Applesauce," "For cryin' out loud," "Try and get it" and "Just the type."

"High School Hero," is said to be an enthralling study of the lives of the students of a co-educational institute which is typically American and gives a faithful picture of all activities of a modern high school. A vivid picture is given of all activities, athletic, scholastic and social which proves conclusively that our young people are much finer than

they are usually painted. Sally Phipps plays the leading feminine role in the picture and others in the cast are Nick Stuart, Chas. Paddock, David Rollins, John Darrow and Brandon Hurst.

**FORTY YEARS OF THRILLS ARE PACKED IN TWO HOUR PICTURE**

**Fred Thompson Films Life of Great Indian Scout; Accuracy Stressed**

Forty years of thrills condensed into less than two hours of entertainment.

It sounds impossible, but Fred Thompson has done it in his new Paramount picture, "Kit Carson," which appears October 22 and 23 at the Lynn Theatre. Carson engaged in so many Indian fights, did so many seemingly impossible feats, traveled so far in hostile territory, that many modern historians have described him as incredible. The wildest imaginings of a scenario writer could not improve upon the story of the facts. Mr. Thompson selected them and arranged them into a swiftly moving drama of the west that will stand out for some time as one of the big achievements of his career as a star.

Some of the scenes of the picture were made on the actual locale of some of Carson's thrilling exploits. All the Indians in the film were familiar with his name and the older ones remembered him as an Indian agent in his later years.

One of the charming romances of the famous scout's career—his courtship and marriage to a beautiful Spanish girl—is threaded into the story. The girl's role is portrayed by Nora Lane, who created something of a sensation in "Jessie James" and "The Pioneer Scout." William

Courtright, veteran of the stage and screen, furnishes many of the laughs in the picture and the picture gives the tenser moments of the story.

It is a sweeping drama on a spectacular background of mountain country. It is a real western, but a western with a poignant human story about a man, who was as much of a national hero in his time as Lindbergh is in ours.

The direction is by Lloyd Ingraham and Alfred L. Werker and the camera work is by Mack Stengler.

## 2,000 TONS DAILY IS OUTPUT OF WORLD'S LARGEST FOUNDRIES AT SAGINAW

Saginaw, Michigan.—One of the finest industrial centers in the middle west because of its proximity to Great Lakes water transportation, is fast regaining the fame it knew back in the rugged days when it was the timber capital of America.

Today, Saginaw is the home of the Chevrolet foundry with a pouring capacity of 1,000 melting tons a day. The first of next year, by reason of intensive construction work now progressing, Saginaw will be the home of one of the world's largest foundries with a capacity of 2,000 tons a day, and will boast one of the world's most modern island docks at which pig iron and sand will be unloaded from all points to be cast into millions of Chevrolet castings.

Foundations for the 212,364 foot addition, which will almost double the present floor space, are now completed.

As early as December 1, it is anticipated, the foundrymen will be at work in their new quarters. And by the time the ice breaks on the Great Lakes next spring, the great 650 foot dock will be receiving the large freighters with a loading capacity of 40,000 tons a month.

The present foundry originally the Grey Iron Foundry of the Saginaw Products Company, a subsidiary of the General Motors Corporation, was built in 1919 and was taken over by the Chevrolet Motor Company in September, 1927. Prior to that time it had been specializing on Buick, Oakland and part of Chevrolet's cylinder block and head castings.

The present foundry in the relatively small space of the present building, has been showing a daily output almost the equal of foundries with three and four times the room and double the man power. Arnold Lenz, superintendent of the Saginaw foundry, and generally credited as being responsible for the remarkable output record, says that concentrated effort, more than revolutionary equipment, has accounted for the showing.

The new foundry, however, Lenz says, will introduce several innovations. There will be many labor saving devices. The new cupolas will be so constructed as to be capable of 20 consecutive hours operation instead of the nine they now operate. Mechanical charging of the furnaces will be another new feature.

## HUGE SUSPENSION BRIDGE COSTS 20 MILLIONS

The Ambassador bridge spanning the Detroit River between Detroit and the border cities of Canada will be the largest suspension bridge in the world when it is completed next year at a cost of \$20,000,000. When completed it will be approximately 7,400 feet in length. At joining the ends of the bridge structure proper will be two terminals, each equivalent to a city block in area. The main span between the towers will be 1850 feet in length, or 100 feet longer than the Philadelphia-Camden bridge, which is at present the longest suspension bridge in the world.

All farm timbers used in contact with the ground should be of durable woods or of "sap" woods treated with creosote. This includes timbers used for foundation sills, stable floors, hog houses, gates, poles, and fence posts. For fence posts use only the more durable woods, such as black locust, red cedar, white or post oaks, chestnut, red mulberry, red basswood, or treat with creosote "sap" timbers such as soft maple, basswood, poplar, gums, or sap pines.

## PERSONAL MENTION

Miss Marie Gooch of Lubbock, has been visiting friends and relatives here for several days.

Mr. E. M. Heblson is in Dallas, visiting friends and attending to business interests.

Mr. Paul Gooch left Saturday for San Antonio where he attended the American Legion Convention.

Mr. and Mrs. W. W. Hancock are now occupying the house formerly occupied by Mr. and Mrs. E. Vermillion.

Miss Beverly Wells is taking life sedately and seriously since last Tuesday when she severely injured her foot while running.

Mr. and Mrs. W. E. Vermillion moved Wednesday into the house formerly occupied by Mr. and Mrs. W. W. Hancock.

See us before you sell your Kaffir, Maize and other small grains. We pay the highest market prices at all times. Henderson & Koeningger, phone 42.

Mr. and Mrs. B. E. Street, Mr. and Mrs. N. M. Wyatt were guests of their parents Mr. and Mrs. W. L. Rodgers Sunday.

# FEDERAL RADIO

OFFERS THE ULTIMATE IN RADIO

Universally recognized as America's finest quality radio Federal's latest achievements embody the ultimate developments of 27 year's research in radio and electrical engineering. Their performance over-shadows all prevailing standards in the radio industry. Truly, no one could ask for more performance, more exquisite beauty of cabinet, than is offered by these remarkable receivers.

No other radio affords so many outstanding features—reliable hairline selectivity, unusual distance range, signal dial control, any desired volume clearly and without distortion, passed beauty of cabinet craftsmanship and unequalled tonality.

Whether you choose the new Federal H-10-60, a wonderful compact seven-tube all electric receiver at \$130—or an F45-60 superbly designed receiver at \$600—or any one of the other Federal models, you will have the finest radio in its class that fulfills planning and precise standards of engineering can produce. We will be glad to demonstrate any time.
