Given in marriage by her father the bride wore a gown of white nylon tulle over satin designed with a portrait neckline. The long-sleeved, fitted bodice was joined to a skirt of shirred fullness which fell into a short chapel train.

**Veterans Questions And Answers**

Q- I am a disabled veteran taking  
 training under Public Law 16. Af-  
 ter I finished my course, will VA  
 find me a job?

A- Under the law, VA's primary  
 responsibility is to restore your  
 ability to earn a living, in spite of  
 your handicap. When you are ready  
 VA will refer you to a State or  
 Federal employment agency which  
 will help you find a job.

Q- I want to buy a house with a  
 GI loan. Can you tell me why it's  
 necessary to have the house appraised  
 by VA?

A- The law requires that the pur-  
 chase price of your house must  
 not be more than the reasonable  
 value as determined by proper ap-  
 praisal made by an appraisers de-  
 signated by VA.

Q- I am a world War II veteran in  
 training under the GI Bill, but I  
 am in a hospital with a broken  
 leg. Even though the cut-off date  
 has passed, will I be permitted to  
 resume my studies after I get out  
 of the hospital?

A- Yes. But you must resume your  
 training within a reasonable time  
 after you recover from your in-  
 jury. You should check with your  
 VA regional office as soon as you  
 can to learn what would be consid-  
 ered a "reasonable time," in your  
 case.

Q- Is it possible to pay National

Service Life Insurance premiums  
 on any other basis than every  
 month? I find it quite a bother  
 to make out a check every month.

A- Yes. Premiums may be paid an-  
 nually, semi-annually or quarterly.  
 In fact it is cheaper that way. Your  
 VA insurance office will be glad  
 to supply all details.

Ask us about our **Safe-Tway SERVICE**  
 A public service program to promote safer driving.

This year—for the 12th straight production year—  
 truck users are buying more Chevrolet trucks  
 than any other make. That couldn't be true unless  
**Chevrolet trucks offered more of what you want.**

Already, 1953's official sales figures tell a remarkable  
 story of clear-cut and decisive preference for Chev-  
 rolet trucks. But, this is not surprising, for truck users  
 everywhere are discovering how far ahead of all  
 others Chevrolet trucks really are.

They are discovering things  
 like the tremendous new  
 power in advanced Load-  
 master engines in heavy-duty  
 models... the remarkable  
 gasoline economy... the extra ruggedness and  
 strength of heavier, more rigid frame construction.

And, in addition to all these advantages, the Chevrolet  
 line lists for less than any other trucks of comparable  
 size and capacity. So, before you buy any truck, stop

**WATCH THAT COUGH**

A cough is just a symptom and not a disease, says Dr. Geo. W. Cox State Health Officer. It is an indication that something is wrong in the body's respiratory tract or breathing tube.

When an object obstructs the respiratory passage a cough is nature's reflex to remove the obstruction. Such a cough is simple and transient. The same thing happens when the throat or lower passages are irritated during a cold, whooping cough, asthma, smoking, low humidity and dust.

A cough can be produced by more serious conditions such as tuberculosis or cancer. Constant coughing brings on fatigue as a person's rest is affected by the constant hacking.

A prolonged cough might chronic bronchitis, a condition which in most cases is secondary to an infection elsewhere, such as the nose, throat or sinuses. Mucous draining into the throat may cause such irritation that the victim may involuntarily cough repeatedly to bring up the material.

Hoarseness is produced by persistent coughing in some persons. Hoarseness is a symptom of an inflamed larynx. Hoarseness lasting for six weeks or more is a serious symptom suggestive of cancer and must not be disregarded.

No persistent cough should be disregarded. The nature of the infection and its location may be

**Fresh Berries Give Glamor to Desserts**

Strawberries are the first of the lovely berries to arrive, bringing with them a colorful magic to your table. Use them whole and sugared for simple desserts, combine with other fruits for salad, or mold them into delicious pastries for supremely luscious desserts.

Here's a modern version of an old-fashioned strawberry cream pie made with fresh strawberries, coconut and packaged vanilla pudding.

**Strawberry Cream Pie**

- 1 package vanilla pudding and pie filling mix
- 2 cups milk
- 1 baked 8 or 9-inch pastry shell

1 cup fresh, sliced strawberries  
1/2 cup heavy cream, whipped

Place pie filling in saucepan. Add milk gradually, blending well. Cook and stir over medium heat until mixture comes to a boil and is thickened. Cool slightly, stirring once or twice. Turn one-half of the pie filling mixture into pastry shell. Top with a layer of strawberries. Cover with remaining filling. Chill. Spread with whipped cream and garnish with coconut and whole berries. Quick-frozen, sliced strawberries thawed, may be used in place of the fresh berries, if desired.

#### CHECK YOUR ELECTRICAL COOLING EQUIPMENT

You can help Reddy Kilowatt do a better cooling job for you all summer long if you'll make sure your cooling equipment is in good operating condition. Small portable fans usually require only cleaning and oiling. Large units, such as evaporative coolers, attic fans and refrigerated room air conditioners, will probably need expert attention from your electric appliance or air conditioning dealer.

Attend to this today and enjoy greater summer comfort from your cooling equipment.
