## ANNELL SCHOOLS WILL OPEN MONDAY, SEPT. 3RD

O'Donnell Schools will open Monday, September 3, next. In the opinion of the board of trustees, the opening of the schools is promising for a very successful year in the O'Donnell schools. A strong faculty has been secured and the schools are expected to be the very highest in the county.

The Superintendent, Mr. J. H. Brewer, has had several years of experience in West Texas schools and has worked with the O'Donnell schools for several years. He has a warm friendship with the O'Donnell community.

The faculty for the 1928-29 school year has been found many of the best in the county. The O'Donnell school is headed by educators of high caliber and will have no doubt the most successful year in the history of the schools. Following is the list of the coming year:

**High School**  
Principal, Superintendent, J. H. Brewer.  
Teachers, L. Hubcock, A. H. Tabaka, O'Donnell, Winkler, Llano, Texas.

**Elementary School**  
Principal, Superintendent, J. H. Brewer.  
Teachers, L. Hubcock, A. H. Tabaka, O'Donnell, Winkler, Llano, Texas.

**Our Exhibits**  
O'Donnell Fair

O'Donnell is going to have a big success. It is very interested in our community and we are sure to have a big success. It is very interested in our community and we are sure to have a big success.

### Important Matters Discussed Tuesday

The regular meeting of the members of the O'Donnell Luncheon Club was held in the offices back of the First National Bank building with a fairly good attendance. E. M. Wilder, vice-president, acted as chairman.

An open discussion of the things O'Donnell needs most was heard when questions were read from the newly established question box. Many important questions were discussed at length. After discussing how to maintain the regular meetings, it was voted to hold regular luncheons on each fourth Tuesday night in every month. Hereafter, the regular luncheons have been held at the noon hour and very few farmers were unable to attend. The meetings and luncheons are open to everyone and the farmers are especially urged to attend. So the regular luncheons have been changed to the evening hour so that everyone will have an opportunity to attend and take part in the programs which are always constructive and entertaining.

The question of financing a fair for O'Donnell and dates on which same is to be held were discussed. Dates were set for September 21 and 22nd, just prior to the Dawson County Fair. A committee composed of E. L. Sorrels, J. P. Ayler, Guy Bradley and E. M. Wilder were appointed to assist Mr. Vernon Martin in raising finances and other necessary details. A committee on concessions were appointed composed of W. R. Roberts, John Hardberger and J. H. Weems. The question of worm and insect damage to cotton in the O'Donnell territory was brought up by Mr. Martin, who asked that the club urge all farmers to keep close watch on the progress of the worms in this locality and that where it is deemed necessary begin poisoning before they have done any damage. Plenty of poison is available at both of the drug stores in O'Donnell and which sold at cost to farmers who wish to fight the worms.

The committee on Trades Day reported that tickets were ready for sale. Mr. Harper, the new laundry man was present and made application for membership which was accepted.

### MRS. W. P. MABRY PASSES AWAY LAST THURSDAY

Thursday afternoon, August 16, at 2:35 Mrs. W. P. Mabry passed away at the home of her daughter, Mrs. J. H. Weems. She had lived rich, full of grace and kindness. She had seen many changes, having lived in the Adams county, Texas, and in the O'Donnell territory. She had been a semi-invalid for many years, her last illness was of short duration.

Death of Mrs. Mabry was born in Borden, Georgia, March 28, 1837. While still a child she came with her parents to Texas. She was married to W. P. Mabry August 13, 1858. They had four children. One of the children born to them only Mrs. Johnson, the youngest child, lives to mourn her mother's death. She was converted to an early age and was for many years a faithful member of the Methodist church.

The body was taken to Saint Joe to be laid beside her husband who died in 1910.

A humble praises christian, a loving wife and mother, always patient and uncomplaining, she has gone to a place prepared for her by her Saviour. She went willingly and gladly rejoicing in the Lord.

The friends and neighbors extend their deepest sympathy to the bereaved family.

### SLATON PRODUCERS PROUD OF MAMMOUTH PEACHES

Mammoth sized peaches are no novelty in Slaton, judging from reports, and according to specimens on exhibition, Slaton may become the most famous fruit country in the whole South.

O. Pettit placed an exhibit in the Chamber of Commerce office, a one-gallon jar filled to the brim with just seven peaches. One measured 4 1/2 inches in diameter and the other eleven-sixteenths in circumference. All peaches were grown in town.

Mrs. Paul Owens duplicated this exhibit exactly.

T. H. Brewer, bank president brought in three specimens of peach perfection, one measuring ten and eleven-sixteenths in circumference. All peaches were grown in town.

### BRICK WORK ALMOST COMPLETED ON SINGLETON BLDG

Work is steadily going forward on the Singleton buildings, being erected on the north side of the square. The laying of brick and tile is expected to be completed by last of the week and carpenter work will be rushed with all possible speed until the new buildings are ready for occupancy.

Mrs. George Graves was taken to the Lamesa sanitarium Wednesday in a very serious condition. If she regains enough strength the surgeon will perform a major operation. Her many friends are earnestly hoping for a change for the better.

## On the Right Side of the Ledger

## Community Fair Will Be Held Here Sept. 21 and 22

### Revival Begins at the Church of Christ

Announcement has been made by the members of the Church of Christ that their regular summer revival will begin on next Thursday, August 30th, and will continue over two Sundays.

The meeting will be in charge of Evangelist T. W. Phillips Jr. and Marion Davis. Evangelist Phillips will do the preaching and Evangelist Davis will be in charge of the song services. This evangelist team comes to O'Donnell highly recommended as one of the strongest and most effective of their denomination throughout this section.

Services will be conducted both morning and evening. The morning services will begin at 10:30 a. m. and the evening services will begin promptly at 8:00 p. m.

The general public has a cordial invitation to attend all of the services. The meeting promises to be one of the most successful ever held by this congregation.

### SNYDER NOW PAYING 20 CENTS A HUNDRED POUNDS FOR ICE

Snyder, Texas, August 18.—Snyder and Scurry county have an ice price cutting war on, with ice being sold at the lowest in the history of the city at 20 cents a hundred pounds to wholesale trade.

One year ago the utility people who also operate plants at Lamesa, Colorado and Sowerwater and many other points in Texas, were getting eighty cents a hundred pounds for ice in Snyder. Last June a locally owned plant started. Previous to this opening prices were ten to twenty cents, then to fifty cents, later to forty cents and finally to thirty cents. This week the big drop occurred when the price went to ninety cents for a three hundred pound block of ice.

The locally owned plant started into selling ice at sixty cents, and after getting into full production went to fifty cents which price has been steadily maintained in the face of the price-cutting war started by their competitors. According to Glenn Sample, manager for the locally owned plant, which is of twelve ten capacity, their output is being sold out every day.

Various local sources are indicating a desire to start a municipally owned electric light plant and go ahead with a project that has been under consideration here for many months. Thirty towns in Texas have voted to start a municipally owned electric light plant to be highly satisfactory from every standpoint. The city of Snyder already has paid a substantial profit with the water rates the lowest of any city in Texas.

### Crop Prospects Are Good In This Section

Crop prospects in the O'Donnell territory has the most prosperous outlook in years. Most of the cotton is about two weeks earlier than last year, and as yet, worms and other insects are not molesting the crop to any damaging extent. Cotton lies, is reported in some sections of the country, but it is believed very little damage will result from this source. Cotton is growing rapidly and is fruiting as well as could be expected according to reports from the different sections of the territory. O'Donnell's seven gins stands a fair chance to gin twenty thousand bales of the fleecy staple from this year's crop.

The feed crop got off to a late start due to the dry weather in the early spring, but with the abundance of moisture during the past three weeks, prospects for a bumper feed crop was never brighter in the history of this territory. Better than five hundred cars of feed stuffs were shipped to foreign markets by O'Donnell buyers last season and the entire territory during the past three weeks has fallen over the city crops, prospects for a bumper feed crop was never brighter in the history of this territory. Better than five hundred cars of feed stuffs were shipped to foreign markets by O'Donnell buyers last season and the entire territory during the past three weeks has fallen over the city crops.

Provided nothing happens to this year's crop, O'Donnell and surrounding territory will enjoy a taste of prosperity that has never been equalled in the history of this section.

Low places in streets being filled this week.

The City is doing some nice work by filling in all low places on the streets of O'Donnell. Men have been busy the past week hanging dirt and placing it in the low places. When this work has been finished and the streets leveled it will make motoring more pleasant on the streets of our fair city.

The heavy rains of the past two weeks have placed some of the city in very bad condition, but when the present work is completed we expect to see the streets in better shape than ever before.

### PERMIT IS GRANTED FOR GAS AT WILSON

(Lynn County News)

A permit was granted to the West Texas Gas Company by the commissioners court which was in session Monday to lay its pipes through the streets and alleys of Wilson. Since Wilson is not an incorporated town, it is necessary that this permit be obtained from the commissioners court.

It is understood that the Company will push the work to completion and will be ready to turn on the gas in Wilson at an early date.

As we go to press we learn that Mrs. George Graves has undergone her operation and is resting nicely. We are glad to pass this news along to her friends.

### STUDENTS CLASSIFICATION OF SENIOR

All Senior students of the O'Donnell High School are requested to meet at the High School building, Friday, August 31. The purpose of this meeting is to arrange schedules for the course of study to be taken.

D. A. EDWARDS.

Thirty towns in Texas have voted to start a municipally owned electric light plant to be highly satisfactory from every standpoint. The city of Snyder already has paid a substantial profit with the water rates the lowest of any city in Texas.

## LYNN COUNTY TO HAVE A NEW HOME DEMONSTRATION AGT.

Miss Thelma Greenwade of Whitney, Texas, will arrive this week to assume her duties as the County Home Demonstration Agent of Lynn County on September first.

Miss Greenwade holds a B. S. degree from North Texas State Teachers' College at Denton, and has had three years' successful experience as teacher in rural schools. Her experience as promoter of various community organizations, her outstanding success as a teacher, her training and the fact that she was reared on a farm ably fit her for her work as Home Demonstration Agent of Lynn County.

But regardless of how efficient an Agent is, her success always depends upon the amount of cooperation that she receives from the representative citizenship of the County in which she works. The Extension Program is, and has always been, a co-operative program. Every business man as well as every farmer can give definite help in making the work successful in his County.

Miss Halsey is resigning on account of ill health. For more than four years Miss Halsey has worked untiringly and has always been for the best interests of Lynn County and its homes. Her ability as a County Home Demonstration Agent is recognized as second to none in the State.

As the representative of the Extension Service of A. & M. College, for this District I want to express my sincere appreciation to the Commissioners' Court, to the various organizations, and in fact to the entire citizenship of Lynn County for the hearty co-operation which they have accorded the work done under Miss Halsey's direction.

Whole hearted co-operation makes it possible for an Agent to give the maximum of service to the County. Knowing that you wish to see the work continue to prosper because more valuable we bespeak for Miss Greenwade the same loyal co-operation that has been extended to Home Demonstration work of Lynn County in the past.

Yours truly,  
Myrtle Murray,  
District Home Demonstration Agent.

### CHARLIE CABOOL WILL OPEN NEW STORE ON WEST SIDE

Charlie Cabool, former manager of Salem Dry Goods Co., and last year manager of the Boston Store, is preparing to open a dry goods store in the building recently vacated by the W. E. Guey Dry Goods Co. Carpenters have been busy the past few days building shelving and counters and expect to have the building ready for occupancy by last of the week. Mr. Cabool says that he has thousands of dollars worth of new merchandise that he will place in the building as soon as it is ready. He expects to be ready for business early next week.

Mr. Cabool says this is his third time to locate in O'Donnell and he has come to stay this time because there is no better business town in Texas.

### LAMESA BOY SCOUTS WIN TROPHY

W. O. Knox, Scout Executive of the Southern Area, Boy Scouts of America, was in O'Donnell Tuesday and interested onlookers Tuesday afternoon a gorgeous specimen of the genus trophy, a silver loving cup, which will soon be awarded to the special court of Honor to Troop 23, Boy Scouts of America, Lamesa. As we understand it, the trophy, is to be awarded for special work in camping, long or camp craft. Being of the feminine gender, we know very little about this estimable piece of boy life. Anyway, it was a beautiful trophy of which the Lamesa Troop may well be proud.

### REGULAR LUNCHEON ON NEXT TUESDAY EVENING

The next regular luncheon of the O'Donnell Luncheon Club will be held Tuesday evening beginning at 8:30 o'clock. Tuesday's luncheon banquet promises to be the most elaborate and entertaining program ever staged. Some very prominent speakers have been invited to appear on the program.

Present plans call for a joint celebration of the completion of a water system and natural gas for O'Donnell.

### REV. TOWNSEND WILL PREACH AT CHRISTIAN CHURCH SUNDAY

Announcement has been made that Rev. Irvy Townsend of Lamesa, former pastor, will preach at the First Christian Church Sunday morning, Rev. Townsend failed to state his subject but stated it would be an evangelistic sermon. The general public is cordially invited to be present.

### STUDENTS CLASSIFICATION OF SENIOR

All Senior students of the O'Donnell High School are requested to meet at the High School building, Friday, August 31. The purpose of this meeting is to arrange schedules for the course of study to be taken.

D. A. EDWARDS.

BORDEN COUNTY OIL WELL DATA

(Scurry County Times)  
The drilling at 970 feet Thursday, the top of the salt was encountered in the E. L. Doherty, Jr., Koonsman No. 1 well in Borden County, 18 miles west of Fluvanna. According to W. Lechner, reaching salt at this depth is approximately 300 feet higher than any other wells drilled in Scurry, Garza and Borden County areas.  
When the news reached Snyder, Gall and Fluvanna, an influx of oil men resembled a small city. All indications point to a real oil play in this test in Borden County.

FARMER SAYS DAIRY COWS PAY WELL

(Lynn County News)  
A few dairy cows on the farm are very profitable, according to G. C. Lindley of Edith. He gave us some facts and figures a few days ago with reference to his experience in this line.

"With four cows, I have plenty of milk and butter for a family of 11, and about \$30.00 worth of cream each month, and have a lot of skim milk to feed the hogs," Mr. Lindley declared. He has quite a bunch of hogs and a whole flock of chickens. Mr. Lindley says he has an immense mangle, crop and he should prepare to live even if he should make no cotton. But his cotton promises to be fine also.

Speaking of cows, Mr. Lindley says that he has one four-year-old Jersey that is making two pounds of butter fat per day. He thinks this is a very fine record, and the more cows of this kind that we can get in this country, the more prosperous our people will be.

COURT ORDERS WORM POISON

Car Load Will Be Ready For Distribution In Few Days If It Is Needed

(Lynn County News)  
The Commissioners' court on Monday ordered a car of calcium arsenate for use by the farmers who may wish to poison leaf worms. The car is expected to arrive Saturday or Monday. The poison will be sold to the farmers in unbroken packages at \$7.00 per 100 pounds in drums, according to County Judge C. H. Cain.

There has been considerable complaint of leaf worms in various parts of the county, and while these pests are not yet doing much damage it is feared that they will become very destructive if this showery weather should continue long.

Many farmers have, this week put out lanterns and torch lights in pans or tubs of water in their fields as a means of destroying the miller flies which lay the eggs from which the worms are hatched.

If worms should appear in large numbers, there will probably be a great demand for poison.

"The Fast Train"

The Los Angeles Times delivers a little essay on speed.  
"Just eighty years ago this month a train on the then newly established Boston & Maine railway was opened wide for a record and for some distance raced at a speed of a mile a minute. Up to that time this speed was the fleetest that human had ever attained. It's different now. They say that a flyer has made five miles a minute, while a motorist has done better than three. Sixty miles an hour is getting to be around the normal gait for human movement."

Better Than Garrotte

Cuba approves of letting men condemned to death on that island volunteer to be inoculated with cancer germs, instead of treatment for 12 years. Should they survive and be cured they will be given their freedom.  
How much better that physicians should experiment on such men with their consent, for the benefit of all humanity, than that their lives should go for naught.

Not His Fault

Gentle hands were lifting Pat from the wreckage of his automobile, which had just been struck at a grade crossing by a fast passenger train.  
"How did it happen?" asked a friend, who was with the rescue party.  
"Degeers," fumed Pat, "his more than Ol can understand. Y'd have thought that the engineer of the train could have seen me comin' in broad daylight!"

4-H CLUB MEMBERS TO HAVE WEEKLY RADIO PROGRAM

A large-scale demonstration of radio's effectiveness in influencing rural thought and action will be carried on for a period of 30 weeks, starting October 1, by some 200 broadcasting stations and the Radio and Extension services of the United States Department of Agriculture, the department announced Tuesday.

The radio stations co-operating with the department are going to give the rank and file of 4-H Club boys and girls a national outlook on the activities of their organization by means of a weekly broadcast, "The 4-H Club Crier," prepared by the Radio Service, in conjunction with the Extension service.

The 4-H Clubs, with a membership of more than 620,000 farm boys and girls, are agencies for the development of skill and character and enthusiasm for farm life among farm youngsters. The new radio program for club members is the first effort to give each individual in the organization a weekly glimpse into the whole realm of club work.

The national program will supplement State 4-H Club radio programs, carried by local stations. It will introduce a new radio personality who will tell farm boys and girls of the entire country the story of each week's best achievements by club members, local clubs, or groups of local clubs, announce important regional and national club events and explain how to conduct club projects.

Separate "4-H Club Crier" programs are being developed for the Eastern, Central, Southern, and Western groups of States. The schedules of cooperating radio stations will be announced early in September. Sixty-one stations in 38 States have requested the program.

Duel Fought with Cards

Cards and coin have succeeded the crack of the pistol in settling "affairs of honor" in Czechoslovakia. For example, a national league has given offense to a business man, who challenged him to a duel. "Why not settle the affair at cards?" another man suggested. The "duellists" agreed, and sat down at the card table to play for a stake of \$7,500. The business man won.

Use of Trouble

What are the trials to the child of God but the hurdles over which he leaps to find a better man for the exertion? What are sorrows but the heart singing in minor key the glory to come, whose rich major tones already are sounding far beneath? What are annoyances but the stings of insects to make more energetic his motions toward perfect mystery?—Floyd W. Tompkins.

Best for Pulpwood

Pulpwood for making paper can be grown in from 20 to 30 years or more, says the American Tree association of Washington. Some very profitable plantations of Norway spruce, white spruce, and red spruce have been grown for pulpwood in this length of time. Spruce makes the best kind of wood for paper pulp.

Hats Going Out of Style

Nearly a third of the men seen on the streets in New York city's main business section wear no hats and the fad is growing. The "Hatless Manhattan" movement is partly responsible. The head of this crusade, one Abraham Vogel, speaks every night in Union Square, promising converts freedom from baldness, better health all around and savings of from 50 cents to \$2 a week in hat costs including tips to hat-checking girls. The hat stores would like to poison Vogel.

Mr. and Mrs. Glenn Allen are in Ruidoso on their vacation.

Sunshine Great Help in Preventing Disease

Sunshine is so important to children as food, observes Dr. R. L. Leitch, writing in Hygiene on the use of sunlight in the treatment of tuberculosis.

Sunlight has been found especially helpful in the treatment of tuberculous of the bones and joints, often called surgical tuberculosis. This type of tuberculosis usually spreads from a primary focus of infection in the lung until it is generalized, and is limited to the area first invaded by the bacillus.

A large percentage of patients with surgical tuberculosis can be completely cured. In one group of adults that Doctor Harris has had under his care, eighty-five of the first hundred were able to return to useful occupations and support their families. The results in children are even better, he says.

Since 95 per cent of us have tuberculous infection some time during our lives and since sunlight gives us the best resistance against it, it behooves every one to have as much as possible.

Peddler Is Shocked by Man's Quick Resurrection

Andrew Vogel, peddling riding in his car along a country road in France, saw the body of a man lying beside the road. He turned the body, stiff and cold, over on its back and went through its pockets, removing a considerable sum of money. At the next town Vogel reported he had found a dead man on the highway. "Did you examine the body?" asked the prefect of police. "Did you not find an identification card in his pocket?" "I did not," said Vogel. "I came straight here and—'" "You're a liar!" said a voice from the doorway. Vogel almost dropped, for the corpse was now being pointed an accusing finger. The supposed dead man is a carpenter. When he has a seizure his eyes remain fixed, but he sees what goes on, and in this instance he was able to identify Vogel and recover his stolen wallet.

Style and Business

"Style, the Juggernaut. Don't ever try to stand in her way!" writes Henry Eckhardt in the Magazine of Business. "Style is a many-sized lady. When you first meet her, it is probably in this her first and more primitive form.

"Later, if you improve her acquaintance, you will discover her as Style, the rejuvenator. She works wonders in the dullness of businesses.

"If you cultivate her still further and tame her to your own ends, she becomes Style, the speeder-up of consumption. She moves that much-dreaded saturation point several million units further on.

"If you become thoroughly smitten of her, and think she is all there is to business, she will reveal herself as Style, the siren. Watch your step."  
In conclusion, Mr. Eckhardt deplores "Style, the true incarnation of the true feeling of a current mode, understandingly applied to a given product."

C. E. CAMERON

is the representative of the Texas Electric Service Company in O'Donnell.

For any information about your electric light service call Mr. C. E. Cameron at Texas Electric Service Company, Lamesa, Phone No. L. D. 11 or at Lamesa Texas, Phone 237

Orders Is Orders but the Band Didn't Play

During one White House reception in President Garfield's time, John Philip Sousa, clad in his gorgeous red uniform, criss-crossed with gold braid, sat on one end of the musicians' platform, uniform and coat on the other. They were the United States Marine band that night. But there was no music.

The band had been ordered to participate in a dedication that day and did not get back to barracks until 6:30 that evening when it was dismissed and sent home. At seven o'clock Sousa received an order to report with the band in eight o'clock. Sousa protested. His commanding officer said: "Those were my instructions and those are your orders." Messengers escorted Washington to the bandstand, returning with just one man, the bass drummer. When the long evening and the reception at last drew to an end, the drummer and Sousa stood up, saluted each other in a proper military manner and the "band" filed out and went home. Orders is orders.

Buried Norman Crypt Uncovered in England

Complete in many details, an underground church has been discovered in Chilton, England, by Rev. E. P. Gough, director of the Chilton Parish church.

The parish church was built on a new site about the middle of the last century and the old church demolished.

A venerable parishioner told the rector that there was a church underground, as he had been taken into it when a boy by his father.

The rector went to work with pick and shovel and found himself standing in a perfect vaulted Norman crypt with a west entrance and narrow lancet windows.

This crypt suggests a small but elaborate chapel, built by a squire of some position about the Twelfth century, which would be at once his private chapel, the parish church and place of sepulchre for himself and his family.

Mr. and Mrs. Ross Gilbreath and family left this week for a stay of several months in Jones County in an effort to regain Mrs. Gilbreath's health.

Surprise!

A well-known magician, who wore a goat and moustache, happened one day to see a man who has his perfect double. The magician expected to use the double in a substitution trick.

"When I jump into the trunk," he said, "you jump out of your chair in the audience and come up on the stage, and the people will think it's me."  
That evening the magician jumped into the trunk and closed the lid, and at the same instant the double arose in his seat and yelled, "Here I am!" but the trick "fopped" miserably.  
The new hired man had shaved off his whiskers.

Optimists and Pessimists

Optimists and pessimists have each their uses. We know how often the minor difficulties of life may be defeated by mere cheerfulness. But when the difficulty is big, a bigger effort is needed; you have to get down to causes and effects, and recognize what is wrong before starting to cure it. Nothing is more foolish than to shrivel up by an unpleasant medicine, because two or three trifling and superficial symptoms seem for a moment to baffle your disease.

Texas now has 6,200 miles of electric transmission lines and 9,000 miles of local distribution lines.

Mr. Ben Coin was in Lubbock Tuesday.

Mrs. Ponter of Hatcher's sister, Mrs. M. V. Bonser.

FORTUNES TO WIN

Thomas Hardy's fiction \$450,000 does not seem so high at all, if we remember that the author made \$20,000 a year from "Widow" alone, and that more than half his sales within recent years had been at that figure.

Present-day novelists, however, do not have citizen payments of their work royalties, and the total of their royalties, even the sale of their books—London.

Art of Miquelone

At a banquet at the Metropolitan by a prominent Broadway talk, part of it including a toast by an immortal poet. After the guest next to him spoke, he had that line of Keats' at the top of his mind.

"I did it that way because I didn't want them to think I read it the day before," the Evening Journal.

No Humdrum Life

The human intelligence is not beyond its own environment. The realm where God has put us and beauty and the nobility of life, unless we make it so, is not made for righteousness.

George R. Peck

IT'S BETTER WORK MAKES IT FAMOUS  
Famous for its better work under difficult field and road conditions; a harvesting machine that is a real profit-maker, because it enables you to make a big reduction in your labor costs and save valuable time—that's the fact.

**John Deere Corn Binder**  
You harvest seven or more acres of corn a day when you use the John Deere Corn Binder. You do the work better and easier, eliminating entirely the muscle-tiring labor of hand-cutting.  
Your corn is in prime condition for the silo; no need of cutting the crop days in advance—the corn can be cut fresh with no loss of feeding value.  
And when you are through with your own fields you can increase your income by putting your binder to work in the fields of your neighbors.  
You will appreciate the easy operation of the John Deere. No hard-working, old style carrier to operate—simply press handy foot release, and the carrier dumps the bundles out of the way of the binder, no bundles scattered—waste.  
The quick turn tongue, relieves the horses of the weight and keeps the binder running straight. Hot-rod steel frame insures rigidity and perfect alignment. Roller ball bearings at all main points reduce friction, lessen wear and insure lighter draft. Binders can be equipped with the new John Deere Drum Elevator.  
See the John Deere Corn Binder at our store.

**Mansell Brothers Hardware**

**It Points to Extra Miles**  
THE indicator on your gasoline gauge tells the story of Conoco's extra miles far better than millions of words could tell it. And the indicator is a slow mover when you use Summer Conoco—because you go so far with so little gasoline.  
Is it any wonder that Summer Conoco Gasoline enjoys such overwhelming popularity? If you're looking for more mileage, you won't have to look far. You can get it at any Conoco pump—at convenient locations everywhere.  
CONTINENTAL OIL COMPANY  
Producers, Refiners and Marketers  
of high-grade petroleum products in Arkansas, California, Illinois, Kentucky, Louisiana, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming.  
Packed with extra miles.

**SIZED CURRENCY BEGUN; CHANGE WILL BE MADE SOON**

INGTON, Aug. 19.—The new small-sized paper will be placed in circulation this week. The new bills are as large as the old ones, but the present size of the bills is 7 1/2x12 1/2. The new bills are 6 1/2x11 1/2. The change is approximately the same as the change in the Philippine currency, which is one and three-eighths in length than the present one.

**Up to \$10,000.**

denying the Treasury's design of the smaller size money bills, which would not be such an extent as to state either money-counting or cash registers now in use.

smaller size the notes will fit into pocketbooks folded, which is in the currency in its present form.

denominations of \$1, \$2, \$5, \$10, \$20, \$50, \$100, \$1,000, \$5,000 and \$10,000. The new bills used by the American people.

considering the program for the currency in the future, Secretary Mellon said, he decided that their initial shall be confined to bills of denomination and to a sufficient stock of the new currency to be announced, all of the larger size than in can be redeemed on demand.

will be required for the distribution of the \$1 bills of the present design. It is tentatively that it will not be earlier than before the new money is placed in circulation.

designs in the design of the currency will be necessary, however, will not be the new notes retaining all the major characteristics of the present paper.

The reduction in size of the paper money will make possible a substantial saving in the expense of manufacturing as well as in the cost of handling the currency. From the time the paper is delivered by the mill until the notes are paid into circulation an estimated gross saving amounting to almost 33 per cent will be derived from the change in size. Each note will require a third less paper and ink, its shipping weight will be reduced by one-third and 50 per cent more notes will be produced by the same amount of paper. An additional saving, the amount of which can not be definitely estimated, will be effected as a result of the mill until the one-third-sized notes due to the fact that they will be less frequently creased and folded.

**Currency Demand Grows**

The normal increase in the population and wealth of the country has resulted in a constantly growing demand for currency which has now reached such proportions as to make the matter of replacement a serious problem it was said at the Treasury Department. A striking illustration of the increase in the demand for currency is shown by the delivery figures of the Bureau of Engraving and Printing.

"In 1917," Secretary Mellon said, "the bureau delivered 128,672,045 sheets of currency, in 1920 163,860,748 sheets, in 1923, 171,955,335 sheets, in 1924, 195,931,240 sheets, in 1925, 206,059,563 sheets and in 1926, 227,566,949 sheets."

When the bureau was built in 1914 (it was thought it would be adequate to meet the demands of the country for many years. At present, however, the bureau is not only cramped in all capacities during the day, but certain sections are required to operate on a double shift basis.

Introduction of the new sized currency will solve the production difficulties of the bureau, according to the Treasury Department. The reason for this is that the size of the new bills being reduced by about one-third will make it possible to print twice notes to the plate where eight were printed for the present sized currency.

**LAND COMMISSIONER J. T. ROB-INSON THANKS OUR PEOPLE**

To the O'Donnell Index: May I have the pleasure of thanking the good people of your County through your columns for the splendid vote they gave me in my recent candidacy for re-nomination for Commissioner of the General Land Office.

I am sincerely grateful to every one who interested himself or herself in my behalf. Though I lacked only 1748 votes of having a clear majority over all three opponents and led my nearest opponent, Otis Terrell, 142,088 votes, he will continue in the runoff primary the 25th. If my friends will be up and doing there will be no doubt as to the final vote being in my favor.

**TEXAS CLOCK HASN'T MISSED A TICK IN FIFTY-FIVE YEARS**

Fifty-five years ago a clock owned by Z. M. Wilson of Plainview, was wound, set, and started ticking. It still is ticking and according to Mr. Wilson, has not lost a tick since 1873. In 1908 the Wilson home in Oklahoma was struck by a cyclone, but a little thing like that could not bother the old fellow and he kept right on about his business of telling time.

Mr. Ollie Wright from Tahoka is visiting Mr. and Mrs. Waldo Mc-Lauren this week.

**SWEETER IS HEAVEN TO ME**

Sweeter is Heaven to me,  
Than those who befriended me;  
Sweeter is Heaven to me,  
Than those who wronged me use.

Sweeter is Heaven to me,  
Than my place in the bed;  
Sweeter is Heaven to me,  
Than the food I am fed.

Sweeter is Heaven to me,  
Than the world and its pose;  
Sweeter is Heaven to me,  
It is the soul's repose.

Sweeter is Heaven to me,  
Than a rose blooming to me,  
Sweeter is Heaven to me,  
Because Jesus is there.

Sweeter is Heaven to me,  
For there comes no more woe;  
Sweeter is Heaven to me,  
And there I want to go.

Sweeter is Heaven to me,  
Than the hillsides so brown;  
Sweeter is Heaven to me,  
Because there is my crown.

Sweeter is Heaven to me,  
For there comes no more woe;  
Sweeter is Heaven to me,  
And there I want to go.

Sweeter is Heaven to me,  
For there comes no more woe;  
Sweeter is Heaven to me,  
And there I want to go.

**NEW MOORE VOTES \$15,000 SCHOOL BONDS**

(Lynn County News) At an election held on Wednesday, August 8, in the New Moore school district in the southwest portion of the county, bonds in the sum of \$15,000 were voted to construct a new school building. There were only 17 votes polled in this election but every one of them was in favor of the bonds.

The construction of a modern brick building with four class rooms and a spacious auditorium is contemplated. It is hoped that work on the building may be begun in September and that the building will be completed and ready for use prior to the end of the year.

Five square miles of land lying in Terry county were recently added to the New Moore district. The district now comprises about 42 square miles. Prior to the extension of the territory, there were 78 scholastics in the district. Probably a few others were taken in when the new territory was added. The faculty next year will consist of three teachers.

SPUR—Spur's first three story store building is under construction at this time by W. S. Campbell.

EASTLAND—H. O. Tatam, for three years secretary of the Baird Chamber of Commerce, is soon to be Eastland's City Manager.

ESTELINE—Installation of gas line stone. The annual value of the product is about \$2,500,000.

ALVORD—Up to August 1, fourteen carload of watermelons had been shipped from here this season.

Texas produces large quantities of lime stone. The annual value of the product is about \$2,500,000.

Mr. and Mrs. Eason and family of the O. K. Community have returned from a tour of Georgia, Alabama, Florida, Mississippi. They're saving the other states till next summer.

Miss Mary V. Shook is in Lubbock this week visiting relatives. Mr. John Burkett is in Ragtown singing for a meeting this week.

**Enterprise Builds Great Service**

**DAWN, high noon, dusk, midnight!** All around the clock men give their best efforts to the Texas Electric Service Company service. Hour in and hour out they work hard to maintain an ideal of service to which this Company has held ever since its organization.

Enterprising citizens. They take their responsibilities seriously. They realize that at any minute of the day or night some home, some store, some factory, some school or some church will push an electric button and demand electric service for an emergency. They must be ready. Power must be there to meet that demand.

That is their life. In making this power possible they get their greatest thrill. They accept their work as a great human service, and perform each task accordingly.

Enterprise makes this possible. These men and women of the Texas Electric Service Company have a definite goal. They are industrious. They are proud of the work they do.

In more than 40 Texas cities and towns you will find these men and women. Their high noon may come at 6 a. m., 12 noon, 6 p. m. or at midnight; but whenever it comes you find them happy, alert and eager to serve. Such enterprise makes possible a great service.

For Sheriff & Tax Collectors:

JOE L. RAY, Re-election.

CONTESTS IN EIGHT RACES

Run-Off Primary Election Saturday, August 25; Local Races Draw Interest

(Lynn County News)

With the contest between Senator Earle B. Mayfield and Congressman Tom Connally growing warmer with each passing day, and with several local contests eliciting more than usual interest, the balloting in Lynn county on August 25 promises to be heavy for a run-off election.

Mayfield and Connally are contesting for the almost 300,000 votes that were cast in the first primary for the four candidates who were eliminated. Following the first election, Tom Blanton and Mrs. Cunningham announced in favor of Connally, while McLemore announced in favor of Mayfield. Owsley has declined to state whom he will support but his chief backer, Jim Ferguson, is vigorously supporting Mayfield, both on the stump and through the columns of the Ferguson Forum. Blanton who is one of the ablest campaigners in Texas and who enjoys a very large following, made a rousing and bitter speech against Mayfield in Abilene Tuesday night and in behalf of Tom Connally, while Connally in every speech is hammering Mayfield and Ferguson for their alleged political alliance. So, the fight grows warm.

In the state superintendent's race, S. M. N. Marrs and W. F. Garner are the opposing candidates. Marrs is the present superintendent and has a long lead over Garner in the first primary.

Robison, the present land commissioner, likewise had a long lead over his opponent, Otis Terrill.

The ballot as it will be made up for the election of August 25 is as follows:

For United States Senator: TOM CONNALLY, of Falls Co. EARLE B. MAYFIELD of Bosque County.

For Superintendent of Public Instruction: W. F. GARNER, of Nachadoches County. S. M. N. MARRS, of Travis County.

For Land Commissioner: J. T. ROBISON, of Morris County OTIS TERRILL, of Travis County.

For County Judge: C. H. CAIN C. C. GRIDER

For Sheriff and Tax Collector: J. W. SIMPSON S. W. SANFORD

For County and District Clerk: TRUETT B. SMITH W. E. (Happy) SMITH

For Public Weigher, Precinct No. 1: FRANK EDWARDS W. O. HENDERSON

For Public Weigher, Precinct No. 2: RAYBURN METCALFE JIM JOHNSON

Hubert Merritt and John Vermillion left Saturday night for Fort Worth and other points where they will visit for a few days.

Mr. and Mrs. Goodman and family of Hollis, Oklahoma, were the guests the past week of the late's sister, Mr. and Mrs. E. E. Painter and family. They also visited Mrs. J. C. Turner, mother of Mrs. Goodman.

TO THE VOTERS OF LYNN COUNTY

I wish to thank again the voters of Lynn County for the support which I received in the first primary and express the desire that I may again receive this support as well as the support of others.

We have tried to run this Clerks race on a high plane with out throwing mud at each other. I hope you will approve of the way I have tried to carry my side of it. I have no unkind words or criticism to make against my opponent. I have the highest regard for him; however some of his friends have raised a question pertaining to my residence and for their benefit I wish to make an explanation.

They have suggested that I live in the north part of the County and have been in Lubbock the past two years and come back only to run for office of County and District Clerk.

In reply to their suggestion, I would say: We moved in Lynn County in 1907 on the same farm where we now reside. It is true that we live in the north part of the County, about five miles from the County line. It is also true that I have spent a portion of the last two years in Lubbock attending the Texas Tech College; also one scholastic year in Plainview, going to Wayland College.

Now if my conception of local government is correct then, I see no reason why I should be barred from participating in County Government because I happen to live in one extremity of the County. I would also explain for their benefit that the legislature of Texas has passed a law prohibiting college students, political rights in the County where they are going to school, unless their parents reside there. In my case I could not have taken part in elections in Lubbock County or Hale County if I had wanted to, for my parents remained in Lynn County while I was away, boarding in the places where I was going to school and returning each year at the end of the spring term to farm in Lynn County. If I had stayed here during the time I was in school, then, those who are opposing me would say that I was not qualified for the office. I find it a very difficult thing to act in a way that will gain approval from men who are against me.

Then making a final comment on the question of residence I would add: We have farmed in Lynn County 21 years. We raise cotton in Lynn County we gain it in Lynn County, we sell it in Lynn County, we buy groceries and implements in Lynn County, we pay taxes in Lynn County, and we are a citizen of Lynn County. If we can't establish a residence and gain political rights in a County after 21 years, then I would ask the Gentlemen who have raised this question how long would it take to establish a residence with political rights?

In making my final plea I would remind each voter that my friend Happy Smith has held the office of County and District Clerk for three consecutive terms. Six years is a long time. I not only appeal to the young men and women of Lynn County but to the fathers and mothers, who toil diligently year I live away so that your boy and your girl may attend educational institutions, to prepare, not for a life of leisure or idleness, but for a life that might be spent for the promotion of civilization in general.

If I am elected I will do my best to give you service. I ask you to give me that chance. TRUETT B. SMITH. (Political Adv.)

ITEMS OF INTEREST FROM THE PRIDE COMMUNITY

On Tuesday evening, the twenty-first day of August, 1928, the newly elected board of trustees for Pride Independent School District met for the first time.

There being business of tremendous importance to the coming generations, ye scribe, was assigned the honor of reporting the matter to the Index, the Star-Telegram and Ferguson's Forum, and was very glad to do so, since of late, in the Index especially, there has been more news items from O'Donnell than Pride even though O'Donnell is just a kind of a suburb of ours making a kind of tail wag the dog proposition if you understand what I mean.

After the newest members were sworn in it was moved by one of said members, and seconded by the other, that trustees salaries be paid at the beginning of each fiscal year instead of on February 29th of odd numbered years as is the custom, but the motion failed.

Next it was decided that a new room be added to our old building to care for any emergency which might arise, triplets having occurred in the community south of us, and lots of wind from that direction, and another teacher employed if one could be found with courage to face our board.

G. W. Lightfoot was chosen for the ensuing year with instructions to provide funds for additional salaries, equipment and longer term without raising taxes.

It now being close to quitting time, Prof. Harper asked the group to the teacherage where we found his charming wife had prepared delicious cream and cake for us.

All went well until the unmarried members of the board detected Mr. C. David Hanes slipping a large piece of cake into his pocket, whereupon said member raised strenuous objection and things looked equally unth Uncle Dave explained that he had promised Aunt Jace to come home early and take her to church and failing in this he was only trying to salvage a bit by way of a piece offering.

The married members then (knowing the ways of women) settled the matter by giving Uncle Dave the remaining bits of their cake which we hope will help to retain his few remaining locks a few years longer. Reporter.

\$100 IN GOLD TO BE GIVEN AWAY FREE! MONDAY, SEPT. 3rd

The merchants of O'Donnell are cooperating in establishing a monthly Trades Day in O'Donnell, which will be held the first Monday in each month. Monday, September 3rd will be observed as the first of these monthly events. On this date \$100.00 in gold will be distributed by the merchants sponsoring this event to the people of O'Donnell and surrounding territory absolutely Free. Tickets will be given with cash purchases on merchandise which will entitle the holder to participate in the free distribution of the \$100.00 in gold. Ask any of the merchants about the free distribution—they will gladly explain.

Crank up the flivver and come to O'Donnell on Monday, September 3. Meet your neighbors here and enjoy a day of fellowship and fun.

O'Donnell Luncheon Club

### PERSONAL MENTION

Mrs. J. E. McClung was in Lubbock Monday attending to business.

Mrs. J. P. Ayler is visiting her parents, Mr. and Mrs. Gus Dressler at Sweetwater.

Mr. and Mrs. Tom Moore have as their guest this week Miss Bertha Harwell, of Stamford.

Mr. and Mrs. Wilt Harwell, who have been visiting Mr. and Mrs. Tom Moore, returned to Waco Saturday.

Mrs. V. O. Morgan of Memphis, is visiting her sister, Mrs. W. S. Cathy.

Mrs. C. E. Neal of Fort Worth is the guest this week of her brother, J. H. Harberger and family.

Mr. and Mrs. Ernest Graves and children are the guests of Mr. and Mrs. J. D. Crawford this week.

Mrs. R. O. Miles and children are in Big Springs this week visiting relatives and friends.

Misses Tommie and Wynema Sorrels are spending the week with home.

Hollis Warren of Texas Tech was the guest of his cousin, J. W. Campbell, Wednesday.

Rev. and Mrs. Ernest Davis returned to their home in Pasadena Wednesday.

The W. M. S. has not been active since the Baptist meeting due to the absence of so many members.

Mrs. J. N. Graham and small son, of Pyote, arrived Saturday for a few days visit with Mrs. Clay Warren.

Mrs. Bob Webb and Mrs. Seaman Scott left Thursday for an extended visit in Jones County.

Mr. and Mrs. D. A. Edwards were down from Lubbock over the weekend.

Mrs. Bert Fritz has as her guest this week her mother, Mrs. B. N. Scott, of Sweetwater.

Miss Gladys Yeats who is attending business school in Abilene, is home for a few days visit.

Mr. and Mrs. I. U. Durham left Wednesday for an extended trip through southern Oklahoma.

Mr. and Mrs. Jack Cathy and baby Jackie Anne, of Van Buren, Ark., are visiting relatives here this week.

Mr. and Mrs. Hal Singleton Sr. left Tuesday morning for Breckenridge where they will visit their daughter, Mrs. Buster Williams.

Mrs. Minor Johnson of Pyote, who has been visiting her sister, Mrs. H. Sparkman, returned to her home on Thursday.

Mr. H. Sprakman left Wednesday morning for Wellington, where he will visit his twin brother whom he has not seen for about ten years.

Mr. J. H. Greenwood who is building the gin at Wells, was taken Tuesday to a Lubbock sanitarium, delirious and in a very serious condition.

Mr. and Mrs. T. A. Carlisle were here over the week-end looking after business interests and visiting with friends.

Miss Opal Patterson is visiting here. We are glad to see her again. She comes back to O'Donnell far

too seldom.

Mr. and Mrs. T. A. Carlisle of Blackwell were here Sunday visiting friends and looking after business interests.

Mrs. C. A. Haney left Wednesday week with her son Archie and family.

Mrs. C. B. Neal, of Fort Worth is visiting her brother, Mr. John Harberger, and Mrs. Harberger this week.

Miss Lulu Rice returned Monday from Denton, where she has been doing special work at Teacher's College.

Mr. and Mrs. B. J. Bolch returned Saturday from a trip to El Paso, Juarez, Old Mexico and up in the mountains.

Mrs. Noel Sikes was taken to a Lubbock sanitarium where she will recuperate from an extreme case of nervous breakdown.

Mr. and Mrs. C. L. London and family left Wednesday morning for Tulsa, Oklahoma, where they will visit relatives.

Mr. and Mrs. Smith of Chicago, are visiting Mr. Smith's parents in the Newmoore community, also his sister, Mrs. Campbell.

Mrs. and Mrs. Jimmy Eason of Abilene are visiting Mrs. Eason's parents, Mr. and Mrs. T. A. Wimley.

Mr. and Mrs. Phillips Davis who have been visiting relatives here, left Tuesday morning for their home in Archer City.

Mrs. Claude Tucker and sons and Mrs. Evans and sons have returned from a two weeks visit with relatives at Decatur.

Mr. and Mrs. O. L. Walls, who live east of town, left Tuesday for Knox County, where they will visit relatives a few days.

Mr. and Mrs. B. J. Bolch and daughters have just returned from an extended tour to El Paso and the mountains.

Mr. Hugh Lauren returned Monday from Guthrie, Okla., where he had been to find negroes for the cotton picking season.

Mr. and Mrs. Brister and children of Bronte, Texas, were guests the past week of Mr. and Mrs. R. E. Painter and Mrs. J. C. Turner.

Mrs. R. E. Harberger and daughter, Miss Lucille of Lubbock, spent a few hours Sunday afternoon with Mr. and Mrs. John Harberger and friends.

Mr. and Mrs. J. B. Miles, F. E. McGonagill and family of Fort Worth left Wednesday for Ruidoso, N. M., and other points of interest for a few days vacation.

Mr. and Mrs. Bob Davenport motored to Big Springs Thursday to meet their daughter, Miss Marie Davenport in Marshall. Miss Marie will visit here several days.

Mr. and Mrs. Guy Bradley have as their guests, Mrs. Bradley's mother and sister, Mrs. Doc McVicker of Plainview.

Mr. and Mrs. Ernest Davis and family and Mr. and Mrs. C. L. Davis returned Friday afternoon from a tour to El Paso, Juarez, and parts of Old Mexico. They returned with two new Chrysler.

Mr. and Mrs. J. P. Bowlin and family returned Wednesday evening from a ten days vacation spent at Ruidoso, N. M. They report a splendid time.

Mr. and Mrs. A. B. Short of Lubbock, Mrs. C. J. Green and son, Mrs. W. C. Mabry and Mrs. L. L. Shaw, all of Wichita Falls have been guests of Mr. and Mrs. Boss Johnson this week.

Mr. W. A. Hale of Abilene, was the guest of his sister, Mrs. W. H. Veazey, Wednesday. He says this plains country got a hold on him on his first trip up here and he can't stay away.

**MRS. EUGENE VEAZEY PASSES AWAY AT LITTLEFIELD**

Last Thursday, August 16, at 8:00 P. M. Mrs. Eugene Veazey quietly passed away at the home of her daughter, Mrs. Julius Bridges at Littlefield. She was seventy-one years one month and twenty one days of age. Though she had been an invalid for more than five years, as the result of a fall, the immediate cause of her death was cancer of the stomach. After the many months of intense suffering, which all the care of loving hands could do little to alleviate, the end came gently. She had grown steadily weaker for days and returned body and join the Master, she had loved and served so faithfully.

Eugenia Vashit was born June 25, 1857, at Greenville, Texas, the fourth child of Allen and Susan Taylor. She was converted at an early age and became a loyal member of the Baptist Church. She was married to J. H. Veazey at Greenville, November 22, 1879. To this union were born six children, three of whom survive their mother. The father died June 27, 1921.

Throughout a long and useful life, devoted to self-sacrificing and willing service to others, her faith in God never failed. She saw mother, children and husband suffer and die and at last after enduring pain and sickness herself for years she came to her death with a triumphant belief in God's goodness and power. In the last months of her life, her Bible was her inseparable companion, and when the old Gospel hymns were played on the victrola which loving thoughtfulness had caused to be placed in her room, she sang them through without a falter until she grew too weak. Her favorite was "Marching On," and when asked upon one occasion if she was smiling on, she responded with a smile of peace and joy "Why of course I am." Her last words to her children were "Be good, and love each other."

Her daughter, Mrs. Julius Bridges and her son, W. H. Veazey of O'Donnell, accompanied her body on the long journey back to Hamlin, where funeral services were conducted among a throng of sorrowing friends and she was laid to rest in the East Cemetery with friends and loved ones gone before. She is survived by three children, Mrs. Julius Bridges of Littlefield, Mrs. Luther Mayfield, of Hamlin, and W. H. Veazey, of

O'Donnell, ten grand-children, of Hamlin, Jack and Kathryn Veazey scoured to his daughter, who, trained and soothed by an angel, who draws the drapery of grief about her and lies down to dreams.

Mr. and Mrs. G. W. Sproul Sunday for a few days at home. Mr. Charley Sparkman's mother and Mrs. Sparkman's mother, Foster, of Trent.

not like a quarry slave, who, trained and soothed by an angel, who draws the drapery of grief about her and lies down to dreams.

## Our Early Fall Showing

of

## Ready-to-Wear and Millinery

WAS NEVER SO GREAT. We have spent one week in the markets making personal selections in both Ready-to-Wear and Millinery for each individual customer of O'Donnell and surrounding territory.

You will no doubt be astonished to see such a wonderful showing in this Department this season. We guarantee absolutely to offer you as great an assortment of Ready-to-Wear and Millinery as you have ever had the pleasure of seeing in any of the larger cities.

**DON'T FAIL TO SEE AND VISIT THIS DEPT.**

### Our Men's Furnishing Department

Was never more complete. We make a real study of what the men and boys want and demand in their furnishings, so we are positive we now have it for you. Our young men's snappy suits, in fall patterns are "knock-outs," shirts, ties, sox, hats, and oxfords, all to suit your personal taste.

Boys see just what we have for you. This is your store.

### Why Be Bothered

Isn't it just a wee bit foolish to be bothered with the many difficulties that arise from doing your own washing, when it is so much more satisfactory, and just as economical, everything considered to have the laundry do this hard work for you. Try it for a week or so. That's all we ask. The results will convince you.
