Formal Opening of New Hospital Here Friday

Dedication Services of Methodist Church Here Attracts Crowd 500

THE PRESS SNAPSHOTS

High Steppers—Four of Temple U. backs in a practice kicking session. Left to right Robert McCracken, Clement Stevens, John Bowles and John Krawczewich.

Welcome, Maestro—Arturo Toscanini, noted Italian conductor, shown on his arrival in New York City, to conduct a series of concerts. He declined to answer questions pertaining to Italy and his reported flight.

Miss Lucy Staples shows a complete evidence of good hunting game birds in West.

Heinz Heilmann, born in Germany, is a well-known pianist and pupil of Franz Liszt. He is touring America this year.

Chess That Never Ends—Moris Rosenthal, famed 75 year old pianist and pupil of Franz Liszt, is playing chess with Edward Lasker, international amateur chess player, in a game they began in Vienna five years ago. The game was recently in New York. Because they are so skilled, the players have never been able to finish a game before their separate engagements are away.

Beach in Miami—Natalie Park, born in New York, is enjoying the sun and sea at Miami. She is on her yacht when not broadcasting.

BISHOP IVAN LEE HOLT IN CHARGE OF PREACHING

Dedication services of the church were held here Sunday night at the First Methodist church in the presence of a crowd estimated at 500 people, and taxed the seating capacity of the building.

Bishop Ivan Lee Holt preached the services, and Dr. O. P. Clark, presiding elder, presided, assisted by the pastor, the Rev. M. R. Pike and other ministers.

An impressive and thought-provoking message was brought to his audience by Bishop Holt, despite the fact that he had just finished attending the New Mexico state conference, and was pressed for time here in order to make train connections that night at Big Spring.

Almost from the first word he spoke, Bishop Holt captured the attention of those present and held it until the end. As a main theme of his message he used the traveling of three roads—"three roads to Brussels" as told of the late King Albert of the Belgians. One road led straight ahead through a heavily fortified German line, another through the hills and another by the sea. And the hill road was likened to a life of pleasure, lived by millions, who have their ups and downs upon a rocky way, while the road by the sea pictured a travel of life, course of doubt, unbelief and boggy morasses which would eventually draw down its victim. The road straight ahead, although fraught with trouble and ever-present evil, was the main road, and the straightest of all—even so the road which would bring eternal life.

Coming Here

HARLEY SADLER Who will bring his show to O'Donnell Tuesday night, November 2, for a two night engagement. Sadler, a veteran showman, is known throughout Texas.

Almost from the first word he spoke, Bishop Holt captured the attention of those present and held it until the end. As a main theme of his message he used the traveling of three roads—"three roads to Brussels" as told of the late King Albert of the Belgians. One road led straight ahead through a heavily fortified German line, another through the hills and another by the sea. And the hill road was likened to a life of pleasure, lived by millions, who have their ups and downs upon a rocky way, while the road by the sea pictured a travel of life, course of doubt, unbelief and boggy morasses which would eventually draw down its victim. The road straight ahead, although fraught with trouble and ever-present evil, was the main road, and the straightest of all—even so the road which would bring eternal life.

Eagles To Play Crosbyton Squad

The O'Donnell Eagles, whose tail-feathers have been pulled consistently this season by Class B teams, will spread wings again Friday afternoon and attempt to down the Crosbyton "Bears".

The entire Eagle squad is in good shape, and Coach Conner thinks his charges can win especially if quite a few O'Donnell fans will manage to be present.

HOME DEMONSTRATION

"We did all of the work in improving our living room and this reduced expense," said Mrs. I. L. Johnson, living room demonstrator in the T-Bar Home Demonstration Club.

"I had a light background now. The woodwork was Leen re-finished as it was. I added a few shades and drapes. The linoleum rug was worn. I varnished it. The cracks in the floor around the rug were rather wide but two coats of paint on it served as a filler.

"I finished the radio table. The radio, wall clock above a chair form one unit in the room.

"I made a wash stand into a desk by removing the rollers and the back portion standing above the top. The drawers had to be repaired. Two shelves made from new material were added on the wall above the desk. The desk, shelves and chair were finished to match. The upholstery in the chair was made of the same material the couchcover. Tones of brown were used in the background and a bit of bright colors in the furnishings."

SNOOPER

Anette said those rings she was wearing the other day were hers. Anne said they were Mary Francis's. What's the matter, Anne, are you afraid she will get them before you do?

IT SEEMS THAT EVERY TIME

Max Minor or O'Dean Millman are seen in town all of O'Donnell can be found at the skating rink. Some say it is because of that pretty ring that Max is wearing. It must be O'Dean's good looks.

SHORTLY DOESN'T SEEM TO BE FEELING

Shorty doesn't seem to be feeling so well this week. Is it because Alton had his car in the garage and couldn't catch a ride to see her Sunday.

These Freshmen and Sophomore girls can't understand why football boys aren't making (Continued on Page 8)

Cemetery Lot Owners Urged To Buy Trees

In an announcement made this week by Mrs. J. P. Bowlin, cemetery lot owners were urged to help purchase trees to be placed around the cemetery drive.

Chinese elms have been purchased by the committee in charge, and may be set for 40¢ each.

Everyone who can is urged to see Miss Claire Ruth Nichols, with whom they may leave the money and make it possible for the trees to be purchased.

B & O Installs New Unit Of Refrigeration

An entire new refrigeration unit has been installed at the B & O Grocery, and will permit the finest of refrigeration in the meat department, according to B. L. Davis, manager.

New motor, compressor and coils were installed.

Bishop and Former Minister Guests in Palmer Home Sunday

Luncheon guests in the home of Mr. and Mrs. W. L. Palmer Sunday were the Rev. and Mrs. W. L. Burdette of Hale Center.

Bishop and Mrs. Ivan Lee Holt of Dallas were guests for the evening meal following the dedication services held in the Methodist Church.

Charles Cathey McLaurin Has Birthday Party

To honor her son, Charles, Cathey on the anniversary of his eighth birthday, Mrs. Waldo McLaurin entertained a group of children with a delightful party last Wednesday.

Out of door games were played and a candle lighted cake was served with soda pop and candy to about twelve guests.

Local Women In Houston For Grand Chapter

Among those attending Grand Chapter of the O. E. S. this week in Houston are Mrs. M. M. McLaurin, Roy Gibson, J. L. Scholer, Glenn Allen, John Berry and Beulah Orson.

Attended Game

Mrs. Fay Westmoreland and Miss Thelma Palmer attended the Tech-School of Mines game in Odessa last Saturday.

In Brownwood

Coach and Mrs. D. M. Cogger were Brownwood last week-end where they attended homecoming of their College.

Public Invited to Attend Open House of New Clinic Friday 2 to 5 P. M.

Formal opening of the new O'Donnell Hospital and Dr. Davis Clinic will be held here Friday, October 28, so announced Dr. Julian W. Davis, physician in charge, today.

Open house will be held from 2 to 5 o'clock Friday afternoon.

New Voting Precinct In Dawson County

Lamesa.—Beginning next Jan. 1 a new voting precinct takes the place of the old Pride and Lou districts in the northwestern part of the county.

Both precincts were consolidated, with the Methodist church in Welch the voting place.

The commissioners' court ordered formation of Precinct 20, to be at Shumake. Boundaries of justice, precincts 1 and 2 were changed to put Shumake in precinct 1. Hagin box will be discontinued. Voters there will vote at Patriet.

Windbreak Used To Plant Sweet Potato Hills

Mr. and Mrs. B. W. Baker in the Wilson Community utilized the space in their windbreak this year by planting it in sweet potatoes. The windbreak was started in the spring with small trees. The potatoes planted between the rows of Chinese Elm, red cedar and desert willow were cultivated and irrigated as the trees were. They have sold eleven bushel, other than the amount used at home and given to neighbors, and have one row yet to dig.

The sweet potato has a high fuel value. It is rich in proteins and carbohydrates. It contains iron, potassium and vitamins A, B, C, and G.

Loyal Workers S. S. Class Has Social

With Mrs. J. P. Bowlin and Mrs. Joe Whigham, hostesses, members of the Loyal Workers Class of the Methodist church were entertained with a delightful party Wednesday afternoon at the Bowlin home on East 9th st.

Colorful marigolds decorated the rooms where the guests were entertained with contests.

An enjoyable hour was spent with Mrs. Pancy Groce and Miss Young Westmoreland in Gypsy costumes telling fortunes.

A delicious refreshment plate which held pumpkin pie with whipped cream and coffee was served.

Attending were Messrs. Everett, Brewer, Stark, Warren, Wheeler, Westmoreland, Pysatt, Shuemaker, Pike, Spokes, Carroll, Clayton, Bessie, Jones, Pennell, Groce and Miss Westmoreland.

Sunbeams Had Lesson On Palestine Monday

"Today in Palestine" was the theme for study Monday when the Sunbeams met with their counselor, Mrs. Lyle Pugh at the Baptist church.

Julia Edwards read the devotional from John 1:35-42.

Camel and bells cut from construction paper was the hand work for the afternoon.

Attending were Billy, Cecil, Charles and Buster McKay, Jeanette Gaston, Billy George Pierre, Leon and Donald Ray Mires, Jane Lemford, Veneta and Mark Harlan Lowley, Patsy and Julia Edwards, Dolores Pugh, Peggy Beach, Frances, Jones, Pennell, Crowley, Johnnie Q. Brunson and Geraldine Shepherd.

A Halloween social will be held at the Pugh home next Monday at 7:30 p. m.

Methodist Church News

Sunday October 30, the Methodist church will have Sunday School at the usual hour, 10 a.m. There will be no further services for the day locally. Since last Sunday was a rather full day, and we had many visitors from other churches we are asking that our people repay this visit by attending what ever church they prefer.

The pastor will hold services at T-Bar at the morning hour, 11 a. m. at which time he will receive a large class into the membership of the church. All are cordially invited to attend this service.

At the evening hour 7:30, the pastor will hold service at the Harmony School building. This service will be held jointly with the singing class that meete there each Sunday evening.

Sunday, Nov. 6, we are planning on all church day for the time the members who have united with the church at the local church at O'Donnell. At this three years will be honor guests. Perhaps a large class will be received into the church at the morning hour. Several infants will be dedicated to the Lord. A hearty welcome is extended to all who will participate in any of these services of the various communities.

We are drawing our work to a close and will have only two Sundays in November to finish the year's work. We would be glad for our people to attend all the remaining services for the conference year. M. R. Pike, pastor

Mrs. Allen, Mrs. Roy Everett and children were in Lubbock on business Tuesday.

O'Donnell Youth Hurt In Wreck

John Stokes, 16, was seriously injured Sunday night when the car in which he was riding figured in a wreck. Waldo McLaurin Jr., driver of the car, escaped with only minor bruises.

Young Stokes suffered a spinal injury, and will have to undergo an operation when in better condition.

The accident occurred about nine miles north of O'Donnell.

are planning to go to Crosbyton, Tex. for the week of November 1st to 7th. They will be in charge of the school during that time.

The Sophomores are one swell bunch of workers. They work for their candidate faithfully and cheerfully. Saturday morning when no other class was working on account of the cold, the Sophomores were right in there. If it takes grit and pluck to win, the Sophomores will be in at the finish. Come on, folks, help the plucky sophomores.

Seniors The Seniors had a chapel program the other morning and got many compliments. We were given drivers tests and I think we can own an automobile now with the money we have left over from the football queen election.

Freshmen The Freshmen had a rummage sale Saturday, which was very successful. We want to thank the parents for cooperating with us and helping us put it over. The contest will close next Tuesday. Everyone remember us and help us win.

The Letter "O" Club The Letter "O" Club was organized Monday afternoon. It is composed of lettermen only. The officers are as follows:

"Doc" Thompson Pres.
Max Harris vice-president
Ivan Line Sec.-Treas.
The club is for amusement and parties. The club will meet every Wednesday evening. The dues are ten cents a week for lettermen. Our first affair will probably be a Halloween Masquerade party. We have decided on a party for lettermen and 'pep' girls only. No one else will be admitted. —The Club

KING RANCH GETS \$112,140 FROM AAA

On top of the list of farmers and farming concerns receiving benefit payments of \$10,000 or more between December, 1937, and July, 1938, the AAA announced last week, was the expansive King Ranch in Kieberg county, virtually a principality into itself. For cooperation with crop control programs the King Ranch received \$112,140.04 out of the government's \$500,000,000 soil conservation fund.

Other large payments: To estate of Mrs. Cornelia Adair, Palo Duro, Armstrong county, \$39,697.35; to estate of W. T. Waggoner, Fort Worth, Wilbarger county, \$42,653.65.

Sidelights

By Marvin Jones
Chairman, House Committee on Agriculture.

In the current discussions of the farm bill many of the most desirable features have been overlooked. Some people have thoughtlessly urged that the measure be repealed. They overlook some very worthwhile features of the bill which I do not believe any thinking person would want repealed.

Among these are the following:

1. The freight rate provision, which authorizes the Secretary of Agriculture to file applications to correct the rank discrimination against agricultural products in the freight rate structure of the country.

This has been one of the greatest hardships agriculture has suffered. I do not believe any thinking person actually interested in the success of the American farm would want this provision repealed.

2. The research provision, which provides for the establishment of laboratories in the different sections of the country and for search for new markets, new outlets and new forms of distribution for various farm products that are produced. Surely no one wants this desirable feature repealed.

3. The export provision, which provides for 30 per cent of the tariff collections to be devoted to exporting farm commodities and to distributing these commodities and their products to the needy people in America. Surely no wise person would want this provision repealed.

4. The soil conservation provisions. Every man, woman, and child in America is interested in the conservation and rebuilding of the soils. Some of the finest work that has been done in this generation has been in connection with the soil conservation provisions of the act. I do not see how anyone can object to this provision.

5. The loan provision, which is intended to prevent complete price collapse. Last year we produced the greatest cotton crop in history. We produced the greatest wheat crop since 1915. In 1932, with a smaller cotton crop than in 1937, cotton sold at 4c and 5c per pound. In 1932 with a smaller wheat crop than in 1937, wheat sold at 20c per bushel.

Low and unmanufactured articles are now, they are indefinitely better than they were in 1932. In addition, the cotton and wheat farmers are now receiving soil conservation payments. The cotton farmer is receiving a price adjustment payment, and the cotton and wheat farmers are to receive some additional parity payments.

If any cotton or wheat farmer will take his pencil and figure these payments and prices along side the 1932 tragedy he will find how much better off he is with the present program than he would be with no program at all.

At the beginning of the 1938 cotton picking period there was a carryover of 13,000,000 bales—more than twice the annual consumption of cotton in the United States.

any program, any plan that may be offered, and deal with this tremendous carryover.

Everyone familiar with the facts know that the new farm act of 1938 was going into effect during the most difficult period that could be conceived. The tremendous surpluses that had been produced in our major crops complicated the problem to an extreme degree.

It seems to me that anyone sincerely interested in the success of the farm program should be willing to wait until there is a thorough try-out of the new measure or at least until one season has passed before beginning to sow the seeds of discord and to stir up dissensions.

No one claims the new law is perfect. On the other hand, no fair man can deny that it has many desirable features. No man wise enough to predict in advance just how it will work out. This much is for certain: anyone who is attacking it when the new season has just started is not making a contribution to the welfare of the farmer.

No doubt in the light of the experience, some changes will be found necessary. These changes can and should be made. Congress does not meet until January. By that time I am sure any needed changes will be much clearer.

In the meantime I hope that all farmers and every sincere friend of agriculture will refrain from interfering to the end that the best possible results may be obtained.

Any act for its success, depends upon three things:

- 1. The form of law.
- 2. The character of administration.
- 3. The cooperation of those in whose interest it is enacted.

No law however perfect can be successful unless it is well administered. No law however perfect, even if well administered, can succeed unless the people who are affected are willing to cooperate.

He does the farmer no service who lights the torch of intolerance and who undertakes to (Continued on page 3)

RECIPE BOOK IS "MISTAKE-PROOF"

"Balanced Recipes," Famous Metal-covered Book, Prevents Errors

A recipe book that recognizes that "to err is human," and acts accordingly.

"Balanced Recipes," the famous aluminum-covered book published by the millers of Pillsbury's Best, the flour used exclusively in the Motion Picture Cooking School.

One of the reasons for the popularity of "Balanced Recipes" is its loose-leaf arrangement, which permits the home maker to see but one recipe at a time. This prevents the possibility of confusing two recipes in assembling ingredients.

Clear Directions
The "balanced" recipe form, with numbered step-by-step directions, is another feature that guards against mistakes. Every detail of what to do is clearly and explicitly stated.

"Balanced Recipes" was prepared under the personal supervision of Mary Ellis Ames, noted director of Pillsbury's Cooking Service. Mrs. Ames made every effort to have the book as easy to use as possible. In more than 300 recipes are all numbered, quick and easy reference.

Each recipe index puts each subject under the user's fingertip.

Aluminum Cover
The attractive aluminum cover is the reason why "Balanced Recipes" is proved such a favorite with housewives. This cover interlocks the recipes against those that will happen in even the roughest conditions. A flick of a damp cloth keeps it clean and shining.

The regular price of "Balanced Recipes" is \$1.25, postpaid. However, Pillsbury's Best, the "balanced" flour, can get it for only 95c by enclosing the coupon packer in every bag of Pillsbury's Best.

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular hours, long hours of sitting, drinking—the risk of exposure and infection—may result in disordered action of the kidneys. They are apt to become over-worked and fail to filter waste and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, ringing in the ears, pain, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder may be burning, scanty or too frequent urination.

The Doan's Pills Doan's help the kidneys to get rid of excess poisonous body waste. They are antiseptic to the urinary tract and tend to relieve irritation and the pain it causes. Many grateful people recommend Doan's. They have had more than forty years of public approval. Ask your druggist.

THAT BUTTERSCOTCH FLAVOR

DO YOU like butterscotch? Then you'll take these recipes for Butterscotch Cake and cookies to your heart and make them often. Just imagine Brownies where a rich smooth scorched butter flavor takes the place of the usual chocolate. And refrigerator cookies with that same smooth butterscotch taste. Or in place of a savory, try a deep tan butterscotch-flavored cake with a luscious satiny butterscotch icing over its top. Here are the recipes:

- Butterscotch Cake**
- 1/2 cup shortening
 - 1 cup brown sugar
 - 2 eggs
 - 1/2 cup cocoa
 - 1 tsp. vinegar (1/4 cup)
 - 2 tsp. vanilla
 - About 3/4 cup cold water
 - 2 cups cake flour
 - or
 - 2 cups all-purpose flour
 - 1/2 tsp. salt
 - 1 tsp. soda
- Cream shortening, add sugar gradually and cream thoroughly. Add well beaten eggs and cocoa and blend thoroughly. Place vinegar in a measuring cup, add vanilla and fill the cup to the top with cold water. Sift flour once before measuring. Sift flour, salt and soda together and add to the creamed mixture alternately with the vinegar mixture. Pour into well greased and floured pans and bake 45 minutes in a loaf pan, or 30 to 35 minutes in layer pans in a moderate oven, 350° F. Size of Pan: One 8-inch square pan, or 2 round 8-inch layer pans.
- Butterscotch Brownies**
- 1/2 cup shortening
 - 1 cup brown sugar
 - 2 eggs
 - 2 cups all-purpose flour
 - 1/2 tsp. baking powder
 - 1 tsp. vanilla
- Melt the shortening and mix in the sugar and water. Add the well beaten eggs. Sift the flour once before measuring. Sift the flour and baking powder together and add to the creamed mixture alternately with the vinegar mixture. Pour into well greased and floured pans and bake 45 minutes in a loaf pan, or 30 to 35 minutes in layer pans in a moderate oven, 350° F. Size of Pan: One 8-inch square pan, or 2 round 8-inch layer pans.
- Butterscotch Refrigerator Cookies**
- 1 cup shortening (half butter for flavor)
 - 1 cup brown sugar
 - 2 eggs
 - 2 cups all-purpose flour
 - 1/2 tsp. salt
 - 1 tsp. soda
 - 1 tsp. cream of tartar
 - 2 tsp. sour cream
 - 1 tsp. vanilla
 - 1 cup finely chopped nuts
- Cream shortening thoroughly, add sugar gradually, and cream well. Add well beaten eggs. Sift flour once before measuring, and sift again with salt, soda and cream of tartar. Add to creamed mixture alternately with the sour cream. Blend in vanilla. Shape dough into a roll, wrap in waxed paper, and place in refrigerator for at least 24 hours. Slice with sharp knife, place on ungreased cookie sheet (shaping with hands if necessary). Press 1 tsp. of chopped nuts onto each slice. Bake 8 to 12 minutes, depending on thickness of cookies in a moderately hot oven, 400° F. Amount: 3 dozen cookies. Note: This dough may be kept in refrigerator and used as desired.

LEAVING HIM BEHIND

work along these lines.

It involves the preservation of the soil. This is the heart of the present program.

der a 2-3 vote, provide for regulating the disposal of excessive surpluses. At the same time it provides for widening of the markets and increasing the sale and distribution of these surpluses. There are more than 200 commodities produced in America, involving some \$9,000,000,000.00

RELAX!

When you're nervous they tell you to relax. Easy advice to give, but mighty hard to follow. You will find it much easier to relax—to overcome Sleeplessness, Nervous Irritability, Restlessness, Nervous Headache after you take

DR. MILES' NERVINE

DR. MILES' NERVINE is a well known nerve sedative. Although the formula from which it was made has been in use for nearly 60 years, no better medicine for a tense, over-wrought nervous condition has ever been prescribed. DR. MILES' NERVINE is an up-to-date as this morning's paper.

LARGE BOTTLE, SMALL BOTTLE, EFFERVESCENT TABLETS, IN LIQUID OR TABLET FORM

friend of the farmer is anxious to see the law improved as we go along. I am sure that by intelligent and cooperative effort great improvement can be made. This is the history of all great movements in America. I do not believe that the solution of this age-old problem can be achieved or even materially contributed to by extreme attacks and bitter personalities. I am sure that if all those who have a simple heart interest in the success of the great-

est of all American businesses—American agricultural—will calmly analyze and show a disposition to cooperate in working at the final program, great progress can be made.

SPOOKY REFRESHMENTS

EVERYBODY loves a Halloween party! There are no age limits to those who will be faring forth on this night of ghosts and witches. From one end of the country to the other, grinning Jack-o'-Lanterns will glow in windows and sheet-covered ghosts will scurry from darkened rooms to greet the guests with clammy hand-shakes. (You know the trick of the wet kid glove.)

Of course, there will be food. And it will be just that much more fun if the food is kept with the night. For informal refreshments, therefore, I'm suggesting the following simple, easy to prepare menu—

- Pumpkin Face Sandwiches**
- Molasses Cake with Orange Custard Sauce
 - Fresh Cider or Coffee
- The best thing about this menu is that it can all be prepared in advance. Even the Pumpkin Face Sandwiches can be made several hours ahead of time—all ready to heat on the upper rack in a hot oven (or under the broiler) at the last minute while you are making the coffee. Here is the recipe for these Pumpkin Face Sandwiches:
- 1/2 pound cheese
 - 2 tsp. mayonnaise
 - 1 egg (or 2 egg yolks)
 - 1/2 tsp. baking powder
 - Paprika
 - Pimiento strips or ripe olives
 - 12 to 14 rounds of bread (3 inches diameter)
 - 12 to 14 whole cloves
- Grate cheese. Add beaten egg and other ingredients (except pimiento). Mix smooth. If your cheese is nippy, no other seasoning is necessary, but if the cheese is mild, add a little salt and pepper and a bit of grated onion and Worcestershire sauce. Spread on rounds of bread, applying more thickly in the center, and sprinkle with a dash of paprika. Arrange pumpkin-faces on each one, using strips of pimiento or thin slices of ripe olives. These may be prepared several hours in advance, but before serving, toast in upper rack of hot oven or under the broiler until the cheese melts anduffs up in the center. Remove from oven and insert a whole clove in the top of each pumpkin. To represent the stem on a pumpkin-

have ever prevailed in the history of this country.

It involves markets. We have a specific provision for widening the markets both at home and abroad.

It involves freight rates. We have provision for correcting the inequities in the freight rate structure that movement.

It involves credits. We have the most farm interest rates that

It involves research and new uses. Provision has been made for

The Fords Tell Their Plans for 1939

IF WE KNEW anything better we could do for the country than make good motor cars, we would do it.

By every one doing his best in the job he thinks most useful, this country is going to regain its momentum. We have tried to do our best in our job.

When business was suddenly halted in its recovery more than a year ago, we determined that we should keep going anyway, if not at full-volume motor car production, then at getting ready for greater motor car values that would help future production.

EXPANDING FOR THE FUTURE

We began to build 34 million dollars' worth of new plants and equipment. We felt that if we could not employ all our men building motor cars, we would employ as many as we could building better production facilities.

We were told, of course, that this was no time for expansion, that a wiser business policy would be to "hold everything"—which means, stop everything. But no one ever got anywhere standing still.

Besides, we are not defeatists. We do not believe this country has seen its best days. We believe this country is yet in the infancy of its growth. We believe that every atom of faith invested in our Country and our People will be amply justified by the future. We believe America is just beginning. Never yet have our People seen real Prosperity. Never yet have we seen adequate Production. But we shall see it! That is the assurance in which we have built.

Business is not just coming back. It will have to be brought back. That is now becoming well understood in this country; for that reason 1939 will be a co-operative year. Manufacturers, sellers and buyers will co-operate to bring back the business that is waiting to be brought back.

This construction program is almost completed. It has increased activity and payrolls in a number of related industries. It has given us better facilities for building better cars and trucks, and eventually our new tractor which is being perfected.

THIS MEANS MORE VALUE

The current program has provided a new tire plant, which will turn out a part of our tire requirements... a new tool and die plant that will help us cut the cost of dies... and a steel-press plant that will enable us to make more of our own automobile bodies. These are in addition to the plants we already had for producing glass, iron, steel, plastics, and many other things.

We don't supply all our own needs, of course, and never expect to. The Ford engine is one thing

Henry and Edsel Ford, on the occasion of the 35th anniversary of the founding of the Ford Motor Company, June 16, 1938

that no one's hand touches but ours. Of nearly everything else we use we build some quantity ourselves, to find, if possible, better and more economical ways of doing it. The experience and knowledge we gain are freely shared with our suppliers, and with other industries.

We take no profit on anything we make for ourselves and sell to ourselves. Every operation, from the Ford ships which first bring iron ore to the Rouge, is figured at accurate cost. The only profit is on the finished result—the car or truck as it comes off the line. Some years, there is no profit for us. But we see to it that our customers always profit. A basic article of our business creed is that no sale is economically constructive unless it profits the buyer as much as or more than the seller.

Our new plants have helped us build more value into all our cars for 1939. That means more profit on the purchase to the purchaser.

We have not cut quality to reduce costs.

We simply will not build anything inferior.

NEW TESTING EQUIPMENT

While we were putting up new plants to produce cars, we constructed new equipment to test them. The first weather tunnel of its kind ever built for automobile research went into operation at our laboratories this year.

It makes any kind of weather to order. The weather it delivers every day would take months to find in Nature. Our cars are weather-tested to give you good service in any climate anywhere.

In other tests, every part of the car is punished unmercifully. Then our engineers test it down to see if they can find abnormal wear or any sign of weakness.

The money we spend on tests saves you money on repairs. And your family car is safer and more dependable when we put it in your hands.

THE NEW CARS

We have two new Ford cars for 1939—better cars and better looking—but we also have an entirely new car.

It's called the Mercury 8. It fits into our line between the De Luxe Ford and the Lincoln-Zephyr. It is larger than the Ford, with 116-inch wheelbase, hydraulic brakes, and a new 95-horsepower V-type 8-cylinder engine.

We know that our 1939 cars are cars of good quality. We think they're fine values in their price classes.

With new cars, new plants, new equipment, the whole Ford organization is geared to go forward.

SOCIETY

Buffet Supper for Former Pastor and Family Sunday

Proceeding the Sunday evening church service, a buffet supper was given in the home of Mr. and Mrs. R. O. Stark on East Ninth Street.

The Rev. and Mrs. W. R. Burnette and three sons of Hale Center were the honored guests. Rev. Burnette was a former pastor here.

Others present were Mr. and Mrs. B. M. Haymes and family, Mrs. Belle Knight, Mrs. J. P. Bowlin and the host and hostess.

Mrs. J. Mack Noble Was Bridge Hostess Tuesday

Mrs. R. E. Simpson, Jr., Mrs. Hugh Lott, and Mrs. Henry Stafford of Lamesa were out of town guests Tuesday when Mrs. J. Mack Noble delightfully entertained the Contract Club at her home on East Seventh Street.

Attractive Halloween decorations were used and a lighted Jack-O-Lantern and candles lighted the rooms.

High score prize was awarded Mrs. Newell Hughes, Mrs. Hugh Lott won Bingo and Mrs. Aaron Blanton low.

A delectable refreshment plate of pumpkin pie, cheese balls and

coffee was served at the conclusion of the games.

A shower of gifts from the club was given to Mrs. Sam Singleton a charter member of the club who is leaving the city.

Playing were Meses. M. J. Whitsett, Newell Hughes, William G. Forgy, Fred Henderson, Guy Bradley, E. T. Wells, Pauline Campbell, Aaron Blanton, the out of town guests and Miss Thelma Palmer.

Invited tea guests were Meses. Joe Whigham, L. E. Robinson, B. J. Boyd, Harvey Jordan, Charles Hoffman, and Sam Singleton.

Miss Ruth Marie Howard, Bride To Be, Is Honored

A gift party was held last Thursday afternoon at the home of Mrs. W. W. Hancock, with Meses Iva Dimple Hancock and Dorothy Wall hostesses to celebrate Miss Ruth Marie Howard, bride to be of Douglas Ballew.

Three spacious rooms were attractively decorated with Halloween motif predominating. Potted plants were also used throughout the rooms where the guests were seated.

Miss Iva Dimple Hancock presided at the bride's book.

The guests were entertained with a short program which consisted of two lovely vocal numbers by Miss Florence Gary accompanied by Mrs. Wilber Wilson on

THE CONVENIENT CABBAGE

What would we do for our winter salads without cabbage? It's the one green leafy vegetable we can always count on. Lettuce and even celery are not always found in remote northern markets in winter. But you can always depend on finding cabbage. And if we're resourceful and imaginative our winter cabbage salads need never be monotonous. There are so many other foods that combine pleasantly with cabbage—such as apple, carrots, pineapples, and bacon, to mention a few. Here are the directions for making them:

Plain Cabbage Salad
2 1/2 cups shredded cabbage
Mayonnaise or cooked salad dressing (combined with whipped cream)
Let shredded cabbage stand 1 hour in ice cold water. Drain thoroughly. Moisten with mayonnaise or cooked salad dressing. Toss light with fork to blend. Amount: 4 servings.

Cabbage and Red Apple Salad
Add 1 cup chopped apple and 1/2 cup chopped celery to Cabbage Salad (above) just before moistening with the salad dressing. Heap on crisp lettuce leaves. Garnish with red cherries or walnut halves, if desired. Amount: 6 servings. Note: Use apples with red skins, core, and chop without paring.

Cabbage, Apple, and Peanut Salad
Add 1 cup chopped apple, 1/2 cup chopped banana, and 1/2 cup chopped roasted peanuts to Cabbage Salad (above) just before moistening with salad dressing. Amount: 6 servings.

Cabbage and Carrot Salad
Add 1 cup grated raw carrot and 1/2 cup chopped celery to Cabbage Salad (above) just before moistening with salad dressing. Amount: 6 servings.

Cabbage and Pimiento Salad
Add 1/2 cup green pepper (chopped fine), 1/2 cup chopped celery, 1/4 cup pimiento (chopped fine), and 2 tbsp. onion (chopped fine) to Cabbage Salad (above) just before moistening with salad dressing. Garnish with strips of green pepper. Amount: 6 servings.

Cabbage and Pineapple Salad
Add 1 1/2 cups well drained, diced pineapple (No. 1 can) and 8 marshmallows (cut in quarters) to Cabbage Salad (above) just before moistening with salad dressing. Amount: 6 servings.

Cabbage and Bacon Salad
Shred 1/4 of a medium-sized head of cabbage. Heat 1 cup cooked salad dressing and thin it with sour cream. Add the hot dressing to the cabbage, and let stand for 2 minutes over a very low heat. Before serving, add 6 slices of crisp bacon (chopped fine). Amount: 6 servings.

Cabbage and Cream
1/2 cup vinegar
1 tsp. salt
1/4 tsp. pepper
1/2 tsp. mustard
1 tsp. sugar
Heat vinegar, seasonings, and cream to boiling point. Beat egg in top of double boiler. Add cream mixture to beaten egg very slowly. Cook over hot water, stirring thickens (about 10 minutes). Remove from heat and add cream. Pour while hot over shredded cabbage. Chill in refrigerator. Amount: 6 servings. Note: If dressing curdles, set the amount of double boiler in cold water and beat mixture with rotary egg beater until it is smooth.

If you have any specific cooking problems, send a letter requesting information to Betty Crocker in care of this newspaper. You will receive a prompt, personal reply. Please enclose 3-cent stamp to cover postage.

the accordion. Mrs. J. A. Lunsford gave a reading.

Mrs. Carl Reicher of Los Angeles, in a witch's costume presented the honoree with a telegram telling her where to find the array of miscellaneous gifts which were in an attractively decorated basket.

Mesdames G. S. Wall, Homer Hancock, Carl Reicher, and W. W. Hancock assisted the hostesses in serving a delicious refreshment plate of open face sandwiches and hot chocolate to the guests. Plate favors were small Halloween emblems.

About sixty guests called.

Mr. and Mrs. Milton Simmons of Dallas spent the week end with Mr. and Mrs. Marshall Whitsett.

Mozart Music Club Met Last Tuesday

Members of the Mozart Music Club met Tuesday with Rebecca and Dorris Shumake as hostesses.

After the roll call, a business meeting was held.

In the musical contests that were held, prizes were won by Joe Baker Stokes and Rebecca Shumake.

Assisted by their mother and the sponsor, hot chocolate and peanut wafers were served. Halloween whistles were given as plate favors.

About twenty-five members and one guest, Avalin Garner, were present.

Hal Singleton, Jr., Arthur Lee, and Joe Baker Stokes will be hosts November 8 at the Singleton home.

Sew and Chatter Club Met With Mrs. Shumake

Members of the Sew and Chatter Needle Club met last Thursday in the home of Mrs. Frank Shumake for their weekly meeting.

A new member, Mrs. Marie Jordan, was present.

Following the usual hour of sewing a delicious refreshment plate was passed to the members present.

Attending were Mesdames Ralph Blanton, Stansell Jones, Harvey Line, Calvin Fritz, D.M. Conger, Allan Crowley, Roy Mies and Marie Jordan.

Mrs. Ralph Blanton will be hostess today at her home on North Miles Street.

Missionary Social Hold Shower For Former Pastor

Members of the Missionary Social of the Nazarene church held a miscellaneous shower for Mrs. C. B. Keaton, former pastor who has moved to Goldthwaite. A variety of gifts was presented.

Mrs. E. C. Pace was the winner of the quilt awarded to the person bringing the most money in an envelope for the use of the church, and expressed her thanks to those who had made it possible for her to win.

Junior G. A. Had Halloween Party

A Halloween frolic and party was enjoyed by members and guests of the Junior G. A. last Monday evening at the Baptist church.

The counselor, Mrs. J. A. Lunsford, assisted by Mrs. George B. Pearce, directed games and contests.

Pumpkin pie and hot chocolate was served to Ina Merle and John Ellen Beach, J. W. and J. C. Brantley, Billy Hodges, Clogene Melley, Minnie Jean Hodges, Ruth Vandell, Sarah Dean Archer, Pat Burns, Dorothy Smith, Betty Joyce Smith and Jane Lunsford.

NOBODY'S BUSINESS—
(Continued from page 7)
600 barrels daily, they point out, leaves conclusively that the export, American and British properties, seized without payment by the Mexican government last April. British oil companies have seized all sent to Europe by Mexico, and recovered possession of their estates property by court action in France and Belgium.

Meanwhile, articles in American magazines are pointing out that Mexico apparently is preparing to seize without payment American power plants. The procedure is similar to that of the oil seizures. One such article points out 25 percent of the current generated by no large American power company is being stolen by private individuals, through "by-passes" on wiring systems and meters, and that Mexico has no

laws to punish such theft. Seizure of plants themselves is regarded as an early possibility.

Thompson Talks to FDR
Extension of the powers of the Interstate Oil Compact, to regulate the output of American oil refineries is favored by President Roosevelt, according to Ernest O. Thompson, chairman of Texas Railroad Commission and chair man of the Inter-State Oil compact Commission. Thompson charges recent overproduction of gasoline caused the break in crude oil prices, decrease in crude stocks above ground. He detailed the situation to President Roosevelt in a two-hour conference with the President at Hyde Park last week, and reported the President does not favor any further Federal regulation of the oil business. How the States could regulate refineries on the theory of

preventing physical waste is difficult for legal experts here to understand, and the compact, of course, has no power to enforce any regulation except by voluntary agreement of the compacting states for uniform enforcement of their respective State laws. No consideration of the price factor may be given by the compact, under the terms of the act creating it.

HARDIN SAYS SALES TAX NEEDED FOR PENSIONS
The sales tax is the only means to pay old age pensions promised in last summer's political campaign. Rep. Ross Hardin of Prairie Hill declared last week.

"We'll never be able to pay the pensions any other way," he said. "I'll venture to say that not half the people getting pensions pay

any form of taxes, so why not pass a tax that will include them too? You might say the state would be giving them something with one hand and taking part of it away with another, but that is better than not getting anything back."

Only exemptions from a sales tax, Hardin said, should be "bacon and brown beans overalls and gingham dresses."

He expects the Legislature will accomplish little, however; that it will provide "one of the biggest fights there ever was."

STREET DANCE PLANNED FOR INAUGURAL BALL
With 60,000 out-of-town guests expected, plans were laid last week for the biggest inaugural ball in history to usher in the administration of W. Lee O'Daniel. To take care of this overflow crowd, it was arranged to have a street dance on Austin's main thoroughfare, Congress Avenue, in addition to the parties at the Capitol, Gregory gymnasium, and two hotels.

Added to the long list of committees was a brand new one this year: The Committee on Broadcasting.

CAKES GO WRONG? EXPERT TELLS WHY

Mrs. Ames Describes Failures, Gives Their Causes

"Diagnosing cake faults in history is easier in the ad," says Mary Ellis Ames, director of Pillsbury's Cooking Service, "although to many housewives they seem mysterious."

Mrs. Ames lists below the common causes of cake failure.

Why Cakes Fail
Trouble: cracked top... hump or blisters on top. Caused by: too hot an oven... too much flour.
Trouble: dry cake. Caused by: too much beating... too much flour... too little shortening, sugar, or liquid.
Trouble: heavy, gummy cake. Caused by: incorrect cooling... insufficient mixing... too much shortening, sugar, or liquid... wrong proportion of baking powder.
Trouble: (1) moist, sticky crust... (2) crust peels off... (3) spotted, mottled crust. Caused by: (1) too much sugar... (2) incorrect cooling... (3) too slow an oven.
Trouble: coarse-grained cake. Caused by: insufficient mixing... incorrect oven temperature... too much baking powder.
Trouble: fallen cake. Caused by: too little flour... too much baking powder, shortening, or sugar... too much butter in pan... too hot an oven.

Flour A Necessary Guard
"But no matter how perfectly guarded against these other causes, cake failures, you can't bake a cake unless you use a first-class flour," warns Mrs. Ames.

Pillsbury's Sho Shoen Cake Flour is used exclusively in the Pillsbury Picture Cooking School. The Sho Shoen blend of choice hard wheats was perfected by Pillsbury laboratory technicians through intensive research, and years of baking test cakes of every kind.

STATE DEFICIT PASSES \$17,000,000 MARK
Deficit in the state's general revenue fund has passed the \$17,000,000 mark, State Treasurer Charley Lockhart reported last week.

As of Oct. 20, the deficit was \$17,128,894 as compared with \$16,133,006 on Oct. 6. Deficit in the Confederate Pension Fund was \$4,041,893.

Mr. and Mrs. Johnnie Billingsley of Lamesa were guests of Mr. and Mrs. Irvin Street Sunday.

ECONOMIC HIGHLIGHTS

Developments That Affect the Dinner Pails, Dividend Checks and Bills of Every Individual, National and International Problem from Local Welfare.

The announcement of the Administration's great rearmament program has finally given credence to rumors that have been circulating for many months. At the same time, it has added a considerable fillip to the industry.

The words of an Associated Press dispatch, "The broad plans being worked out in conference between business executives and government officials... are designed to become the starting factor in the recovery program."

The huge scope of the program (the businessmen included, was not yet fully disclosed by the country as a whole.)

Complete information on the program is not yet available, and probably will not be for some time to come. But, according to forecasts, it will cause the production of some fifteen months' worth of goods.

President contemplates adding \$1,000,000,000 to the next year's budget.

The program will consist of private

Betty Crocker KITCHEN CLINIC

prepared by Your Newspaper—Betty Crocker Home Service Department

"LASSES PIE"

It's an old southern delicacy that goes by the rather startling name of Shoo-fly Pie. Don't ask me why this name, for I cannot tell you. But in spite of the name, it's a grand-tasting, rich, molasses pie filling that defies description when it's served with golden grated cheese sprinkled generously over its top. It's not a custard—and it's not a molasses cake, although it's something like them both. Here is how it's made:

1 cup all-purpose flour $\frac{1}{2}$ cup shortening
1 1/2 tsp. salt **1 cup boiling water**
1/2 cup sugar **3 tbs. butter**

Sift flour once before measuring. Sift flour and salt together. Cut in shortening with 2 knives or a pastry blender—leaving some of the shortening in lumps the size of giant peas. Add ice water. Sprinkle the water lightly—a little at a time—over the flour and shortening. At first, blend it in lightly with a fork; then gather dough together lightly with the fingertips. As soon as you can make dough stay together, you have plenty of water in it. Round up dough on cloth-covered board (using flour rubbed into cloth to keep dough from sticking). Roll out to fit pan and place in pan loosely to avoid stretching. Set pan rest on table while cutting off extra pastry—leaving 1/2 inch extending beyond edge of pan. Build up fluted edge. Prick thoroughly with fork to prevent puffing. Chill thoroughly. Bake 15 minutes in 450° F. This time and temperature just partially bakes the crust.

Shoo-fly Pie Filling
1 1/2 cup molasses **1 tbs. soda**
1/2 cup all-purpose flour **1/2 cup boiling water**
1/2 cup sugar **3 tbs. butter**

Mix together molasses and boiling water and cool. Sift flour once before measuring. Rub together thoroughly flour, sugar and butter. Add soda to molasses mixture and add to crumb mixture. Pour into partially baked and cooled crust. Bake 35 minutes in a slow moderate oven, 325° F. When done sprinkle with grated cheese. Amount: Filling for one 8-inch pie.

Betty Crocker Advises
Question: How do you color coconut?
Answer: They may be whipped either by hand or by the beater for meringues, although some women feel they do not like the mixer for whipping up two or three egg whites. Others who are strong in their hands find it a great convenience to fall back on the mixer for their meringues.

Question: How long should the whites of eggs be beaten when they are to be used in meringues?
Answer: They should be beaten until a point of egg white will stand up in a peak and not fall back into the bowl when the beater is raised. Whites that look dull in color, coarse-grained and incline to separate have been over-beaten.

Question: Are pie forks the same as salad forks?
Answer: They look much alike except that the pie fork is a little larger and has a longer handle than the salad fork. The "small fork" (like the dinner fork, only smaller) is also used both for salads and pies. Sometimes this "small fork" is called a dessert fork.

If you have any specific cooking problems, send a letter requesting information to Betty Crocker in care of this newspaper. You will receive a prompt, personal reply. Please enclose 3 cent stamp to cover postage.

of being disrupted by a problem that has been publicized as yet—but will be heard of to a much larger extent in the future.

That problem is Germany's usurpation of trade areas that England used to regard as almost her exclusive province. The Reich is as aggressive in its commercial and military policies.

As on commentator puts it, "Germany has made no bones about her intentions of dominating the Balkans... The Germans say they intend to dominate from the Baltic sea to the Black sea. Worse than that, from the British standpoint, they are making serious inroads into British markets in India, South Africa and Australia."

That has already resulted in a loss of untold thousands of pounds in foreign trade to the Empire. It seems inevitable that it will result in much more serious losses in the future. Such countries as Turkey, Greece, Rumania and Jugoslavia are in much the great majority of their foreign purchases from Britain. Today they are

buying more and more from Germany. One reason is that, in some cases Hitler offers extremely favorable terms. And even more potent reason, some say, is that he also gives them to understand that if they don't patronize him they are liable to violent invasion.

Anglo-German trade rivalry, in the view of most experts, is one of the main causes of the last world war. Both nations attempted to camouflage that fact, and attributed the war to various other causes, but the statistics tell the story. And it is not impossible that Anglo-German trade rivalry could start the next world war.

NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

AUSTIN.—From unusually reliable O'Daniel sources this week came word that Carr P. Collins, Dallas insurance and mineral water executive, and closest political friend of Governor-Nominee W. Lee O'Daniel, may be offered appointment as new chairman of the State Highway Commission early next year.

The same source laughed at rumors that have been circulated lately of a break in the friendly relations between Collins and O'Daniel. Whether Collins would accept was another question. Close friends of the Dallas man have said repeatedly that he would not

take a State appointment, but preferred to remain an unofficial friend and adviser of the new governor. It's own business, requires much of his time, and the highway post is rather exacting.

Another argument against Collins' appointment is that both Collins and Harry Hines, now a member of the commission, live in Dallas, and it has always been customary to distribute the Highway Commission posts on a geographical basis. The new member will succeed retiring John Wood, the new man would be from East, or Southeast Texas.

WOODS! RALES FOLDS

Seeking directly to further his program of industrial expansion in Texas, W. Lee O'Daniel has enlisted Lt. Gov. Walter Woods to head the task of raising \$250,000 to finance appropriate exhibits for Texas at the forthcoming World Fairs in New York City and San Francisco.

Gov. Alford appointed a State Fair Commission more than a year ago, consisting of business tycoons from every section of Texas. But the commission never got going, and to date, has raised little or no money. O'Daniel regards the Texas exhibits as vitally important, and he canvassed the field for a man whom he believed could get the job done. He selected Woods, whose interest in advertising Texas is of long standing.

Coach Meets Boy
The dismal showing of the Texas University football team this year has given Texas fans nothing to feel cheerful about, but they are telling a funny story on Coach Dana X. Bible, the team's \$15,000 a year mentor. Bible was interviewed at the opening of the football season by a youthful high

school player entering the University. The lad told of his high school prowess and recommended himself highly. Bible told him to report to the Freshman "B" squad. "You're pretty light, son, but a year's experience and a chance to learn my system ought to put you in shape to have a try-out for the Varsity," said the coach.

"Listen, Coach," retorted the cocky youngster. "I can't learn your system in three or four weeks, you better get yourself another system!"

MEXICAN OIL CONTINUES

The flood of Mexican oil into the Port of Houston continues, despite the recent break in the Texas crude oil market, according to tender figures released by the Texas Railroad Commission. The 410,978 barrels during September, and estimate of 650,000 barrels for October, rigging the total well over the million barrel mark for the two months. This oil was consigned to two independent refiners at Houston, and, according to the applications for tenders, was intended chiefly for re-export to Europe and Japan. Texas oil men point out Mexico never had more than 18,000 barrels daily of royalty oil during normal times, and this was sold in their domestic market, and not exported. These shipments of more than 350,000 barrels (Continued on page six)

NEW WIRE

GIVES YOU A DRY TRACK ON WET, SLIPPERY ROADS

History of wind-blown sand and dust around the world has been a constant menace to the traveler. Through the ages, the traveler has sought for a way to keep his feet dry and his clothes clean. Now, with the invention of the new wire, the traveler can keep his feet dry and his clothes clean, no matter how wet and slippery the roads.

LOW-OUT PROTECTION, TOO, WITH THE FAMOUS GOLDEN PLY!

It's the new wire that gives you a dry track on wet, slippery roads. It's the new wire that gives you low-out protection, too, with the famous Golden Ply!

Now you can protect yourself against dangerous accidents like this—AND AT NO EXTRA COST

Here's something that's much more than a new kind of tire. SAFETY. It hugs dry roads. It dries wet roads. It protects you from high-speed blow-outs. It keeps you safe on the highway. It's the new wire that gives you low-out protection, too, with the famous Golden Ply!

EXTRA!

Remember, the new Silver-Town gives you all the extra "extras" of a PATENTED TRUCK-TYPE FLEX CORD that adds strength and long life to the tire. A BROADER, FLATTER TREAD that gives you extra mileage and more riding comfort. NEW BEAM-LINED SIDES that give you a new dash of safety to your car.

SCAT!

and SCAT goes the Carbon in your car when you use Briggs Oil Clarifier

Briggs Oil Clarifier

To TRUCK, BUS, and CAR OWNERS who are interested in SAVING MONEY!

WITH THE BRIGGS OIL CLARIFIER OIL LASTS MUCH LONGER AND STILL MAINTAIN PERFECT LUBRICATION AT ALL TIMES

The superintendent of a large nationally known trucking fleet has written: "Since installing Briggs Oil Clarifiers on our long haul trucks, brake maintenance and repairs have displaced motor maintenance as the major item of our shop costs. The unit is paid for by oil savings alone in 10,000 to 20,000 miles of operation."

FILTRATION BY REFINERY METHODS DON'T LET YOUR EYE FOOL YOU

The Briggs Oil Clarifier continuously refines the crank-case oil during engine operation, removing DIRT, SLUDGE, and ACID, which attack bearings. No chemicals are used; the refining is accomplished by the time suspension and absorption by Fuller's Earth.

While the motor is running, the oil from your crank-case is constantly flowing through an inexpensive Fuller's Earth cartridge and is constantly being purified. The changing of this cartridge is so simple as to require only a minute. By regular changes of the cartridge, your oil remains clean—visually and chemically—actually REFINERY CLEAN.

You cannot see acid nor can you feel it—but the bearings of your motor can and do. Copper, bronze, silver, cadmium are all affected by the acid that is released from any oil by oxidation. That means dollars of expense out of your pocket through bearing troubles.

Good oil, kept REFINERY CLEAN, lasts MUCH longer—and that means dollars in your pocket.

You will find other savings, too, when you install the Briggs Clarifier. It will pay for itself in a few months time. Remember, the Briggs Clarifier is not to be confused with devices that merely "strain" the oil—the Briggs PURIFIES it in addition to removing the visual dirt.

PROBAK BLADES

Men everywhere acclaim Probak Jr. Blades the world's best buy in shaving comfort. Why? Because these famous, smooth-shaving blades you know quality at an amazingly low price. Product of the world's largest blade maker, they remove tough, wiry whiskers without nicks or irritation. Priced at only 10¢ for a package of 4 double-edge blades, Probak Jr. is today's outstanding value.

dates for the banquet, June says that Bennett is going to wait until a week before and ask her, but she is going to fool him and not go. What! Again!

When are these Juniors going to learn to spell? Douglas spells "only" "only" and doesn't know the difference.

When is Mrs. Gross going to find time to do her work? We don't think Lena Mae is qualified to do it for her.

Why does Louise Haney think Shorty can't lead the Pep-Squad without her help?

Mrs. Gross won't ever let the Seniors draw. She just wants them to listen to MacBeth.

Why is it that Mr. Snodgrass perceives so much fun mail?

A freshman boy was taking a test in Junior Business the other day. He came to a question ask-

Sonny Boy: Wonder when Mrs. Cathey is going to grow up and let the Public Speaking class rest up on this tiny tot story telling.

By the expression of "Don't you see" coming from the Freshman sponsor, you would think everyone needed glasses.

Inez says she has reached the impossible, but we wonder if she really has.

Christine Proctor sure does like these Abilene boys. How about it Christine?

What is the secret behind these diamond rings the Senior girls are looking forward to?

ing for the definition of serials as pertaining to telegrams. He wrote down "post toasties".

We simply can't understand why Max turned red in the face when Christine Daffern's name was mentioned in Civics class. What's the matter, Max, has he been singing some more Spanish songs to you?

We wonder why the twins can't go anywhere without Darius or Charles have to be along. It seems to be a bad case of puppy-love.

Doris Nell is wondering if she is going to have to go with her mother again this year. Cheer up Doris. Maybe one of these boys will wake up to the fact that you would like a date. Come on boys, help a damsel in distress.

Margaret Lucille and that "smooch" (Lena Mae) seem to be feeling high and happy this week. Could it be that Turner Rodgers and Travis Shelton were skating Sunday?

The Civics class which is composed of 25 members organized a Civics Club Tuesday with the following officers, elected by a majority vote:

- Pres. — Clarence Simpson
- Vice-pres. — Norman Fuson
- Sec.-Treas. — Melba Harris
- Reporter — Elizabeth Ganett
- Sergeant at Arms — Max Harris and William Lee Harris
- President — Clarence Simpson, taking charge, appointed members of the class for two committees, which are as follows:
- Program Committee: C. R. Burison, Shant Ganatt, Katherine Allen.
- Entertainment Committee: Mollie Cox, Max Harris, Ann Brewer, Lorette Owens, Lewis Clark.

Grammar

First Grade We have four new pupils: Dolores Neugent, Pauline Self, Don Carl McGlothlin, and Jimmie Ray Milton.

The First Grade is working on a farm house and furniture for the house.

We are growing wheat to see what kind of soil is best for feeding the grains of wheat.

Second Grade The following made a hundred in spelling last week: Billy Gene Griffin, Kenneth Manning, Harold Mires, Leonard Mires, Dorothy Mires, Dorothy Ford, Irene Barrow, Kahla Joy Ellis, Doris Flowers, Clarcy Lee Newton, Maurice Simpson, Norma Jane Thompson, Jonnis Q. Brunson.

Lois Melton has been absent the last month on account of sickness. We will be glad when she can come back. Others have been absent, picking cotton.

Methodist WMS Met At The Church Members of the W. M. S. of the Methodist Church met at the church Monday for weekly study. Mrs. M. R. Pike capably directed the lesson. Present were Meedames Blanton, Pike, Gates, Spike, Stark, Bowlin, Haymes and Pearce.

Children Love Pancakes for Lunch

Every boy and girl thrills to a stack of piping hot pancakes. So if you want to keep the children happy, have a nourishing pancake lunch ready when they come in. Here's a thrifty luncheon menu that is packed with just the things youngsters need most. And it is so easy to prepare.

Tomato Juice
Aunt Jemima Hot Cakes

Syrup Bacon Milk

Of course it is important to know how to make good hot cakes. However, this is simple with these directions.

1. Mix equal parts of Aunt Jemima's Ready-Mix with milk or water.
2. Have griddle or skillet just hot enough. To test, put a drop of water on griddle. If it goes right up in a puff a steam, griddle is too hot. If it bubbles around a second before evaporating, griddle is hot enough.
3. Use a pat to grease griddle lightly. Pour batter. Bake each side to a golden brown.

Denton visiting their daughters who are in school there.

Mr. and Mrs. Steve Jackson of Pride spent the day in the home of Mr. and Mrs. C. J. Beach Monday.

Mr. and Mrs. Harvey Line were in Tahoka Sunday to accompany Nell Wyatt home after a weekend visit here.

Mr. and Mrs. F. M. Clark of Lubbock visited Mr. and Mrs. W. T. Huff Sunday.

Miss Wynona Huff, Miss Mona Rae Edwards and Mrs. Bell Grandwood were in Big Spring Monday.

Miss Wynona Huff left Monday night for Big Spring where she will go to work for Levine's dry goods store.

Olen Yandell was here visiting over the week end.

Mrs. J. T. Middleton, Sr. was in Lubbock on business Wednesday.

Mrs. J. M. Griffith of Desdemorie visited Geneva Singleton over the weekend.

Burl Wilson was in Lubbock visiting with friends Sunday.

Bob Lines and Mrs. Harvey Lines were in Big Springs Wednesday on business.

Miss Betty Lynn Middleton of Rowell, N. M. is here visiting this week.

Mrs. Roy Everett and Daughter were in Lamesa Monday.

Mr. and Mrs. G. B. Durick returned home Monday after visiting a week in the home of Roy Everett.

Mr. and Mrs. Pat Gary of Levelland were here visiting over the week end.

Cotton improvement. College Station.—Less than 5 per cent of the almost two million bales of cotton ginned in Texas prior to October 1 is undentifiable

as compared with 22 percent the same period in 1937.

The same improvement noted in the increased percent figures quoted by E. Al. M. College Extension Station from U. S. Department of Agriculture Bureau of Agricultural Economics estimates, show.

Almost 25 percent of the ginned before October 1 was inch or longer in staple as compared with only 8 percent last year, Miller said.

Approximately 47 percent 15-16 and 31-32 in and 29 percent was 7-8 and 29-32. While less than 28 percent shorter than 15-16 inch, 56 percent of these lengths is same prior to a year ago.

Grades ran from about the same as in 1937 to a little better. The estimates indicate that cotton was Strict Middling better as compared with the best last year, and that most of the cotton was up to 71 percent of the cotton up to October 1, 1938, Middling White r better.

"Not all of the credit for increase in staple length is given directly to the 213 cotton associations which 632,897 acres, or 86 percent of the 1938 Texas

were planted to quality of the agronomist pointed out, agricultural agents tell many farmers, as individuals better cotton than past as a result of the cotton improvement campaign. These farmers even if they did not get paid quality basis as did the cotton members, at least a substantial contribution to the improvement of Texas cotton.

DON'T SLEEP WHEN GAS PRESSES IN

If you can't eat or sleep cause gas bloats you up try Adlerika. One dose usually relieves stomach gas pressing on Adlerika cleans out BOTH and lower bowels.

CORNER DRUG STORE

Swinging Into Our Second week—Sensational low-priced values In Every Department

HIT BOTTOM SALE!

Hundreds of this territory came to our store during the past week. They came, saw and they bought. They discovered, as you will discover, that every word in our advertising was backed up—that we had slashed prices to undreamed of depths! We are still heavily overstocked due to the moving of the Seagraves store merchandise to O'Donnell, and if you need dry goods—or will need such merchandise this winter—we urge that you attend this sale! You may be offered bargains later, but none greater than to be found at McCarley's, and we doubt to such an extent as we have been forced to make.
