## W. N. WHEAT HERE

Funeral services were held here at 2:30 p. m. Saturday at the First Baptist Church for William N. Wheat, 47, who died Friday in the home of a daughter, Mrs. A. B. Pace in Lubbock.

Mr. Wheat was born in Louisiana and moved to Lamb county in 1930 and lived in that county for several years. Mrs. Rhoda Atwood was his wife. He had two daughters, Mrs. Rhoda Atwood and Mrs. Edith Atwood. He was a retired farmer. Mr. Wheat had made his home in Amherst prior to moving here. He had been in critical health the past three weeks.

He was a member of the Church of Christ and the IOOF Lodge. Officiating at services were the Rev. Bill Burton, pastor of the First Baptist Church, and Carl Cain, minister of Church of Christ. Burial was in the local cemetery.

Survivors include four sons, W. of Winfree, J. L. Sr. of here, W. of Amherst, and Ed of Earth. The daughters, Mrs. Pace, Mrs. Atwood, Mrs. Clara Kempinger of Pampa, Mrs. Cecil Kelm of Texarkana, Mr. Mrs. Jewel Richardson of Lubbock, two sisters, Mrs. Jimmie Anzelo, two sons, Mr. and Mrs. Eugene of Littlefield, and Mrs. Bob Gabbart, San Angelo, Calif. brothers, Tom of Marysville, Calif. and Sylvia of Brownwood as well as 23 grandchildren and 39 great grandchildren. Grandchildren were pallbearers. Mr. Wheat had a wide circle of friends who mourn his passing.

## S. S. News

As of February, 1959, old-age, survivors, and disability insurance benefits were being paid in the Lubbock district at the rate of \$ million dollars a year, according to John G. Hutton, manager of the Lubbock Social Security District office.

"This is an increase of about 11 per cent over last year," Hutton said.

Mr. Hutton stressed that while the benefits are intended primarily for the beneficiary's economic security, the payment of social security benefits at the rate of \$299,000 a year in Lynn County and \$560,000 a year in Dawson County helps business in the community generally because most of the money is spent immediately on food, clothing, and other necessities. "In February, social security benefits were being paid nationally at a rate of nearly 10 billion dollars annually."

"Payments to a retired worker with no dependents receiving benefits averaged \$67.50 a month nationally in February, and to a retired couple \$119.40 a month," Hutton said. The average for a widow with two children was \$165. The maximum payment for a family is \$254.

"There were several reasons for the increase in beneficiaries over last year," Mr. Hutton said. The long-term growth of the aged population and of the proportion of the aged population eligible for benefits are important factors in the continuing increase in the number of beneficiaries. Other reasons for the increase in beneficiaries are listed in the provisions of the Social Security Act which now make it possible for the wife, dependent husband, and children of a disabled worker beneficiary to receive monthly payments. These amendments also provide for benefits to aged dependent parents of a deceased worker even though other survivors are entitled to payments.

Moreover, Mr. Hutton pointed out, it is now easier for a disabled worker to qualify for benefit payments. He no longer needs social security credit for 1-2 year's work in the last 3 years he became disabled. If he worked under social security for at least 5 years out of the 10 before he became disabled, he may be eligible for disability benefits.

Increase in average benefit payments reflect the 7 percent raise effective with the checks for January, 1959," Mr. Hutton said. Average disability benefit payment also reflect the elimination of the so-called "offset" provision in the Social Security Act which prevented some security are now payable in even though benefits are also payable under state workmen's compensation or under some other Federal Government program.

## Harvest Nears Close Here

O'Donnell has ginned 25,134 bales of cotton thru Tuesday noon and probably no more than 2,000 bales remain to be ginned. Area gins have turned out another estimated 17,000 bales.

Nearly all of the 4500 Mexican Nationals have departed for home with only about 300 currently here. Many of the "six week" merchants have folded their tents and left. The business season saw only 6 to 7 busy week ends.

Cotton and grain have produced far better than expected as of Sept. 1st. Most cotton is going into the loan and cottonseed has been lower than expected. With the killing freeze Nov. 4th harvesting is in full swing.

As of February, 1959, old-age, survivors, and disability insurance monthly benefits were being paid in the Lubbock district at the rate of 9 million dollars a year, according to John G. Hutton, manager of the Lubbock Social Security District office.

"This is an increase of about 35 per cent over last year," Hutton said.

Mr. Hutton stressed that while the benefits are intended primarily for the beneficiary's economic security, the payment of social security benefits at the rate of \$250,000 a year in Lynn County and \$500,000 a year in Dawson County helps business in the community generally because most of the money is spent immediately on food, clothing, and other necessities. "In February, social security benefits were being paid nationally at a rate of nearly 10 billion dollars annually.

"Payments to a retired worker with no dependents receiving benefits averaged \$67.50 a month nationally in February, and to a retired couple — \$119.40 a month," Hutton said. The average for a widow with two children was \$165. The maximum payment for a family is \$254.

The long-term growth of the aged population and of the proportion of the aged population eligible for benefits are important factors in the continuing increase in the number of beneficiaries. RIGHT FOOD IMPORTANT

Healthful nutrition is a year round job. But as cooler weather comes to Texas, it becomes increasingly important to guard against falling victim of "winter susceptibility."

There isn't any such term, but the fact of the matter is that bodily resistance may be lessened during fall and winter.

For this reason it is smart to observe, more than ever, the rules of good nutrition.

The well-fed family receives the basic foods in their daily diet. Food rich in protein should be served at every meal.

Meat, fish, poultry, eggs and milk (including milk products like cheese and ice cream) are the best sources of high quality protein. Other sources are cereals, peas, beans, and nuts.

A green or yellow vegetable should be served at least once a day. These contain essential vitamins and minerals.

Because it cannot be stored in the body, vitamin (from citrus fruits, tomatoes and other fresh or processed fruits and vegetables) is needed every day.

With the addition of these to round out meals according to tastes and appetites, the well fed family is provided with all the nutrients needed for health and growth.

he may be eligible for disability benefits.

"Increases in average benefit payments reflect the 7 percent raise in benefit amounts which became effective with the checks for January, 1959," Mr. Hutton said. Average disability benefit payment also reflect the elimination of the so-called "offset" provision in the old law. Disability benefits under social security are now payable in full even though benefits are also payable under State workmen's compensation or under some other Federal Government program.

What do you carry on a hunting trip? Things such as guns and ammunition, you say. Good safety measures should also be carried for a successful trip, according to Edwin H. Cooper, extension wildlife specialist, who says there is no substitute for "thinking safety."

Good safety points to remember include: be sure your ammunition is the correct type and size for your gun; never point your gun at anything you don't intend to shoot; use caution when shooting in the direction of nearby farmhouses and across water; be sure of your target before firing; unload your gun when crossing fences or climbing trees; and never bring a loaded gun into the house.

Experienced hunters know these safety precautions, but every year many young, inexperienced hunters are shot because of lack of good safety knowledge. For a good hunt and a safe one, Cooper says be careful and carry the safety rules with you on every hunting trip.

ELECTRIC CO-OP GETS LOAN

Lyntegar Electric Co-op has been granted a loan of \$1000 by the Rural Electrification Administration for expansion of rural power system in this area. The funds will be used to install and expand the system to serve 373 new rural customers. It includes new substations in 7 and Gaines Counties, 21 miles new transmission lines, 38 miles new tie in lines and 288 miles distribution lines.

Weeds rob your livestock of grazing and in addition use to eleven times more water growth than grasses. To have grass for next year's grazing, Hoffman, extension range specialist, advises spraying with one of 2, 4-D per acre. One application will usually give weed control throughout the growing season. This method of pasture weed control is economical, costing about \$2 per acre.

A MESSAGE TO:  
Farmers  
Ginners  
Businessmen

Across the vast cotton-white fields of the Texas High Plains farmers are busy gathering the 1959 cotton crop — which may be the second largest crop yet produced on the High Plains.

The work of THE PLAINS COTTON GROWERS, INC. is continuous day-in, day-out, year-in, year-out. That's why it is vital that as many gins as possible on the Plains cooperate with the PCG in collecting farmers' dues.

Some ginners this year are having difficulty because of the low price of cottonseed. It is regrettable that this hardship is with us, but regardless, it cannot be permitted to interrupt the work of the PCG. A look at the list on the right shows just a few of the many accomplishments of the PCG. Farmers and ginners alike can easily see the value PCG now means to the Plains cotton industry.

Producers should check their ginners and if at all possible, help him work out some method whereby he can continue his support of the PCG. A united front of all segments of the Plains cotton industry is what the PCG should stand for. With your help this is possible.

Here Are a few of the things the PCG does for the Plains Cotton Growers, Inc. does.

**Research** (1) Established a Cotton Research center at the Pilot Spinning Plant at Texas Tech for fiber and spinning research on Plains cotton. \$70,000 at work. (2) PCG-USDA cooperation on cotton breeding at the Lubbock Experiment Station. \$10,000 at work. (3) Cooperating on a fertilizer research program. Lubbock Experiment Station program, \$5,000 at work. High Plains Field Station, Halfway, \$7,000 at work. Spur Experiment Station, \$2,500 at work. (4) Cotton Quality Statistics. PCG office staff keeps area micronaire, Pressley, grade and staple statistics which are mailed to textile mills and cotton brokers throughout the U. S. and foreign countries. (5) Paid for humidification equipment at Lamesa, Brownfield and Lubbock cotton closing offices, \$55,000 at work.

**Service** (1) Starting in 1959 farmers had up to a 28% increase in acreage over 1958 as a result of PCG legislative work. (2) A separate higher loan rate for light spotted cotton is in effect beginning this year, about \$18 a bale above spotted cotton. (3) Representation in all legislative matters pertaining to cotton. (4) Representation in Bracero labor program. (5) Technical service to textile mills on the use of Plains cotton. (6) Cotton acreage allotment vigilance. (7) Marketing loan limitations vigilance. (8) Conduct Quality education program.

**Promotion** (1) Conduct advertising programs on High Plains cotton on national basis. (2) Provide radio, newspaper and direct mail informational service. (3) Conduct tours to textile mills and encourage cotton buyers and mill people to visit the High Plains. (4) Print a bi-monthly publication and keep members informed. (5) Keep contact with other agricultural organizations and the cotton trade. (6) Distribute quality and publicity information about High Plains cotton.

YOUR COOPERATION WILL MAKE A BETTER PLAINS COTTON INDUSTRY

### Free Speech Issue In Court Proceeding

LINCOLN, III.—Free speech was the issue here in a contempt of court case in which nearly 600 persons faced possible fines and jail sentences.

The defendants, many of them members of a reform group known as the "Good Government Council of Logan County," were cited for contempt for petitioning Circuit Judge Frank M. Bevan to replace a state's attorney in a case involving the prosecutor's friend.

Judge Bevan said the petition contained "odious, defamatory language concerning an official of this court," State's Attorney Edwin C. Mills.

Members of the Good Government Council contended Judge Bevan could not hold them in contempt and said if the prosecutor felt he was defamed by the petition he could sue them in a civil court.

The case arose when, as a result of action taken by the Good Government Council, Justice of the Peace Vincent Jones was charged with illegal diversion of funds collected in overweight trucking fines.

The council followed up the case with a petition asking that Mr. Jones, be replaced by a special or assistant prosecutor.

## THRIFTY ELECTRIC COOKING

When you cook electrically, you'll appreciate the many economy features of your electric range. Electric surface cooking units put heat into utensils by direct metal-to-metal contact for best cooking efficiency and least heat loss.

the oven heating elements operate less than half of the cooking time.

In addition, an electric range provides you accurate heat control that assures uniformly excellent results. And, with clean electric heat, your kitchen stays bright and new-looking with a minimum of cleaning and redecorating expense.

Thrifty electric cooking is a feature of all Live Better Electrically Medallion Homes.

### HOMEOWNER?? or HOBO??

What you do about insurance protection within the next 24 hours might very well determine whether you remain a homeowner or wind up "out in the cold" like the gentleman above.

Building costs have doubled. Would you be able to replace your home if it is destroyed tomorrow? Not if it is insured by 1946 standards.

Be sure your insurance protection is up-to-date. Our free protection check costs you nothing, and may save you thousands of dollars.

### Tennessee Bear Ruins Revenuers' Evidence

NASHVILLE—In the Tennessee hills there lives a bear which seems to know bad whisky when he tastes it. While Alcohol Tax Unit agents were waiting to trap the owner of a still they had just found, the bear lumbered out of the forest and decided to sample the product. He rolled it around his tongue and then smashed the still to pieces.
