College Fund Planned

(Ed. note — As we go to press the fund is over \$500)

The 1946 Study Club has undertaken what we believe to be a very worthy project of starting a college fund for Sarah Prather. The Club has deposited in the First National Bank of O'Donnell \$250.00 known as the Sarah Prather College Fund to be used for Sarah's college education at Texas Tech.

Sarah, we feel, is a very deserving young lady, and we feel that it is a great honor to invest in the youth of O'Donnell. She is valedictorian of her class, and for her four years in high school had an average of 94.32. She has been presented a \$100.00 scholarship from Texas Tech which will take care of the tuition for two semesters.

Several have indicated that they would like to help in this project, and with the fund set up in the bank here, anyone wishing to contribute may deposit any amount in this fund. Our goal is \$1500.00.

In the event that all the money is not used by Sarah, it will be left in the fund to be used by some other worthy student for their college education.

If it is inconvenient for you to go to the bank to deposit your gift, call Mrs. J. W. Gardenhire, Mrs. Bill Davis or Mrs. C. A. Lacy and we will be happy to come by and pick up your donation and deposit it for you.

S. S. News

You must have social security credits for a certain length of time in order to qualify for benefits, reminded John G. Hutton of the Lubbock Social Security Office.

"Because at one time only six quarters of coverage were required, many persons erroneously believed that only six quarters of coverage are required to insure anyone now and in the future", Hutton said.

Usually a person will be fully insured at the time of retirement age, total disability or death if at that time he has a quarter of coverage (earned at any time after 1936) for each two full calendar quarters after 1950. A person can never become fully insured with less than six quarters of coverage, and no matter what his date of birth, he will never need more than 40 quarters of coverage to be fully insured.

A quarter of coverage corresponds generally with a calendar quarter of a year.

A special provision applies to persons who become disabled, reach retirement age or die before Oct. 1, 1960. In these cases a person is fully insured if he has quarters of coverage in all but four of the quarters after 1954.

Hutton invited anyone who has questions concerning the amount of work he needs to qualify to visit the social security office at Lubbock or see the representative who will be in O'Donnell May 27 at 2 p. m. at grade school.

Chevy pickup pulls through "bottomless" pastures to keep stock fed!

At the Hall Bros. Dairy Farm, Montgomery, Ala., they say this 4-wheel drive Chevy will go anywhere to keep stock fed—even through hub-deep muck that makes it a fight all the way. And yet after a full year of it—no mechanical trouble of any kind!

That Chevy pickup may not win any beauty awards (till it's cleaned up). But it's sure walking off with the top prize for dependability. And that's standard Chevrolet procedure. Put a Chevy to work and it keeps

on working until you say quit. Not before.

We aren't claiming that every Chevrolet truck is turning out to be a miracle-worker and averaging 100,000 miles before a valve job. (Even though some are going 150,000!) You're sure to find, however, that you can't buy more truck dependability at any price. And that's borne out by the fact that more truck owners put their faith, and their pay-

loads, in Chevrolets than in any other make. Take your load and schedule figures to your Chevrolet dealer. He'll specify the best way to handle both and save in the bargain.

No job's too tough for a Chevrolet truck! 

Now's the time—see your local authorized Chevrolet dealer for a real truck buy!
