THIS is your first trip to Texas, you have been here a few weeks & you are more tha nready to go home Texans are all right, but you just cannot get along with them. The facts are, they get into your hair. and you are annoyed because you

You have been taught that if thing needs to be done, then do it right now. Texans are a little diff-They reason that if you wait until tomorrow or next year, may-be you wil lnot have to do it. It usually works ouut that way, especial ly if there is somebody like you a-round all fired up to do it right Which is all right with Texas

A native Texan would rather sit down and talk it over than get the job done. He likes to talk, and after he ha stold you his family history, he sits back expectantly, eager to hear you tell yours. If you faill to reciprocate, you are not friendly, and, therefore, queer. After patient prodding it he still gets no results. he diagnoses your case. You are just a damyankee, which means that you hailed from somewhere notrh of the Red River. Lots of "furriners" from up nawth are real folks once you get to know them, but they are a little "standoffish" at first.

To you, the "furriner" from up nawth (which may mean that you playground, are from Kentucky or California) Mr and M Texans seem nosey. It isn't that you have anything to hide, but you won der why anyone should be interested in things which are, strictly none of their business.

There is only one way you can ruffle the easy going Texan Ruffle im? You will make him fighting mad if you persist in it. That one thing is to try and change him, to teach him to become like you. He does not want to be like you. He confidently expects to live to put flowers on the graves of people like you, and he usually does. He reastry, you can go back where you came from. And sure enough you

Or maybe you don't. Possible cir cumstances detain you awhile longer, an unwilling guest, in friendly Texas. What happens? Do you coninue trying to change Mr and Mrs Texas into a perfect composite of Messrs. and Mesdames Massachusetts, Maine, Michigan, and Montana? No, you realize you might as well try to change the miles of grassy

So you admit, a bit grimly perthat Texans are Texans and oka that is that. And since you cannot that is that. And since you must make the lin spent the week end with S. K. necessary adjustments to get along Turner and family. peacefully with them. But how? The inswer is simple. Be yourself and allow them to be themselves. Do your job as it should be done when it should be done, and let their jobs go undone unless that inter-feres with your own work. In that instance, you may prod the native day with Judy Doylle. gently, and if he does not respond, then do your job and his too. He will smile tolerantly and think you

With your drive, your success in Texas is assured. At the height of that success, you take a trip back home You rush out to see old friend, to give them the glad hand. The first fellow you meet seems a bit cold, not half as glad to see you as you are to see him. It could not ess. No. impossible. He must be worried about something. Perhaps you were not sufficiently interestyou look him up again, ask some friendly questions?

You meet some other friends, & they are alike, lacking in warmth, and friendliness. None of them have done as well as you, doubtless due to the stiff competition in that country. But they should not resent your success. No, jealously was not the answer. But what?

Washington Digest

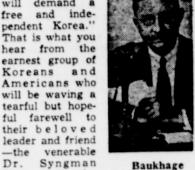

Korea a Sore Spot in Far Eastern Politics

By BAUKHAGE News Analyst and Commentator.

WNU Service, 1616 Eye Street, N. W., | followed their activities so closely Washington, D. C. WASHINGTON. - "Reveal the

secret clauses in the Yalta agreement and the American people will demand a and independent Korea." That is what you hear from the earnest group of Koreans and Americans who will be waving a tearful but hopeful farewell to their beloved

-the

-as he departs for "the land of the morning calm" for the second time since his exile 40 years ago. Dr. Rhee's followers consider him the legitimate head of the provisional Korean government set up by those leaders fortunate enough to escape when Japan dealt Korea its final, crushing blow

Presidents of the United States since Theodore Roosevelt's time, state department and other government officials have been consistently sympathetic and stubbornly uncooperative with the effort of this unflagging patriot to obtain recognition of his country. They did not frown on his return to Korea when it was "liberated" by the defeat of Japan. They put no obstacles in the way of his choice as head of the group which set up a provisional government of Korea. They permitted that group to send an observer N. but when Dr. Rhee returned from Korea in December of last year his efforts to make his voice heard before the international body were blocked by the state department ukase, "No official stand-

Today Korea is a nation bisected by the 38th parallel. The North, under Russian control, is separated by the Asiatic model of the Iron Curtain and no real Korea government exists in the Southern half,

Syngman Rhee Wants to Tell Secrets

still administered by the U.S. military government. This is due, Dr. Rhee says, to the same lack of official sanction from the state department which the aging doctor has sought since Pearl Harbor.

"All we ask is that we be allowed to hold elections to set up in the American zone of Korea a national government just as the Russians have set up what they call a democratic government' in their zone. We only ask that the United States do for us what they have already done for Japan.

"The other liberated countries have been given this privilege. We never fought against the Allies. For more than 40 years we have carried underground work against our Japanese oppressors.'

Natives Advanced in Democratic Processes

I asked if he thought the people were ready for a democratic gov-

He paused a moment and said "You may be surprised, as I was, to learn how familiar the Koreans are with the democratic system.'

The Japanese, it seems, when they made their various levies upon the Koreans found they had to deal with a system that had already been set up, based on the democratic choice of a leader for a group of perhaps 20 homes which, in turn, chose their representatives for larger groups. Dr. Rhee said he found his people were much more familiar with these processes than he thought they could be even though he had

through all these years. Then Dr. Rhee went on to explain that with cooperation of the military government, at least five attempts had been made to set up a national government; that each time the Communists had blocked it by refusing to join and because of the directives under which the military government was forced to operate-no government was permitted in which the Communists did not participate. "They (the Communists) claim

they have 20,000 members in the southern area-what right have 20,-000, if there are that many (which I doubt), to interfere with the rights of 18 million Koreans in the southern zone?" asks Dr. Rhee.

In the secret agreement at Yalta, Dr. Rhee asserts: "President Roosevelt agreed that Manchuria and Northern Korea be placed in the zone of the Soviets. This was contrary to the spirit of the Atlantic Charter and the other agreements up to that time. When the American people realize this, I am sure sentiment will develop that will make it possible for Korea to become a nation again. I am going back to Korea with that hope."

Senate Bathed in Mutual Admiration

There is a distinctive brand of political humor often buried in that remarkable and largely unread (and frequently turgid) document, the Congressional Record.

The Republican recommendation that senators meet in formal session only three times a week, Monday, Wednesday and Friday, devoting the other two days to committee work recently touched off a typical exchange between Republicans and Democrats on the senate floor. Both parties conjured lightly with the names of founding fathers.

Majority Leader Wallace White of Maine began by opining that an exception to the Monday-Wednesday-Friday rule should perhaps be made for Lincoln's birthday (which falls on Wednesday this year) so that Republican senators could, as he put it, "have opportunity to go to their homes and elsewhere to make their customary, and I think, proper, speeches on Lincoln's birthday. He added that provision, too, might be made for Washington's birthday. Senator White then recalled that the Democrats usually have either a Jackson Day or Jefferson Day dinner, for which they might want to be excused from the senate.

Minority Leader Barkley was agreeable. Said he: "So far as Lincoln Day absenteeism is concerned, we have no objection to any deviation from this program (the MWF rule) that would permit our friends to get back to Lincoln."

The Record records as follows: Mr. Barkley: I think the closer the party gets back to Lincoln the nearer it will come to Jefferson. I think there will be no difficulty about arranging for Washington's birthday and for Lincoln's birthday. So far as Jackson is concerned, the Democrats have always celebrated Jackson Day on the 8th of January, today, which is the day of the Battle of New Orleans.

Mr. White: I think the senator from Kentucky is celebrating it now.

Mr. Barkley: But in April I think it is planned to have a num-ber of Jefferson Day celebrations throughout the country and I am sure that Jefferson and Lincoln and Washington and Jackson wiil all be maintained upon an equal footing.

Tobey: I'd like to say for the benefit of my friend the senator from Kentucky that I hope his statement which I shall designate as Exhibit A, is evidence that the great party to which he belongs, of which he has been majority leader in the senate for so many years, and so successfully will be bound to return to the prin-ciples and teachings and ten-

ets of Thomas Jefferson. Mr. Barkley: I will say to the senator that we have never departed from them, because Jefferson was the outstanding liberal of his day, and we have always adhered to the liberal policies which were advocated by the original liberal, Thomas Jefferson, which were not altogether dissimilar to the liberality of the founder of the Republican party, Abraham

Big Business Squeezing **Out Small Enterprises**

N ONE of the most bitter and illuminating reports ever to be filed with congress, a house subcommittee on small business declares in effect that the freely competitive private enterprise system about which we hear so much is but a myth. Unless something is done to end monopolies and concentration of economic power, warns the committee, there will be eventual ownership and control by government such as is now taking place in England and France.

This five-man congressional subcommittee of three Democrats and two Republicans, headed by Congressman Kefauvre of Tennessee, after weeks of testimony, spreads for the record in 432 printed pages the unsuccessful fight for the past 50 years to stop monopoly and economic concentration. It declares, "either we must believe in, and take the steps necessary to make possible a competitive enterprise system, or we must give it up, bit by bit, year by year.'

The report, just filed with the 80th congress, charges:

That our economy as now practiced operates in a vicious circlethat both Big and Little Business call for free competitive enterprise, but Big Business works constantly toward monopoly and concentration of controls, and stifles competition so that enterprise is no longer really free:

That government points the finger at monopolies, but neglects to enforce laws such as the Sherman and Clayton acts aimed at anti-trust practices and restraint of trade;

Hypocritical Attitudes

That congress flays government agencies for failure to enforce these laws and then refuses or neglects to provide the money and personnel necessary for their enforcement;

That business criticizes government interference and regulation, but pressure groups in labor, agriculture and business force government interference and protection when the same business monopolies step on their toes;

That the public deplores and fears inflation, depression, boom and bust, but Big Business monopoly and a "survival of the fittest" policy in our enterprise system brings about periodic depressions, cycles of boom and bust and inflation:

That the government spends billions of dollars of the peoples' money to battle depression with public works and unemployment compensation;

That people lose more billions in high prices during periods of inflation and depleted savings, unem-ployment and depressed property values during depressions.

Thus the vicious circle works, with those who cry loudest for a chance to "go back to a free enterprise system without government bureaucratic interference" ranking as the very ones who shackle free competitive enterprise and eventually bring about more government regulation.

Unrealistic Arguments

"The argument most frequently heard," the report says, "coming from Big Business is that if we are left alone our superior efficiency can give the public more goods and services at lower prices." The committee finds, however, that this socalled superior efficiency has not been demonstrated and that those who maintain that Big Business, if not interfered with by government, will always maintain a competitive enterprise economy, are being just as unrealistic as those Small Business proponents who would ignore the fact that in most of the key industries, size, up to a certain point, is necessary for efficient operation."

The report declares that if economic power is to be reduced, then there is no avoiding government interference with business and some expenditure of government funds. And it says, "to the extent that concentration of economic power IN-CREASES THE SEVERITY OF RECURRING DEPRESSIONS, the funds spent on public works and un. employment payments are so huge as to dwarf to insignificance the funds which an effective anti-trust program would warrant.

We are drifting toward almost complete government regulation, the report asserts, with the only alternative a concerted effort and a general public recognition of the need to reduce economic concentration and place a statutory prohibition on the size of business.

This condition, your Home Town Reporter believes, affects every small business man and every farmer. The only way to obtain free competitive enterprise is to bring monopolies under the pitiless light of the anti-trust and restraint of trade

RUSSIAN MANEUVERING

WASHINGTON. - Despite our improved relations with Russia, something very peculiar is going on re-garding the key island of Spitzbergen up near the Arctic circle. The Russians have been exerting all sorts of pressure on Norway to militarize this strategic island, thus permitting them to use it as a military base.

There is only one objective for a base on Spitzbergen - offensive action against the United States.

From it rocket bombs probably could hit New York.

The United States happened to

learn of the Russian - Norwegian maneuvers because we are a party to a 1920 treaty with Norway, England and Russia, by which Spitzbergen is not to be used as a military base. In order to militarize the island, therefore, it is necessary to

change the treaty.

The disturbing thing about the Spitzbergen maneuver, however, is the date on which the Russians began to move for militarization. When the state department began probing the matter, they found that the Russians had first approached the Norwegian government in 1944 -while the war was still on. And they continued high-pressuring Norway during 1945, the last year of the war, and up until the present. What causes U. S. concern is that

the Russians appeared to be maneuvering for Atlantic bases aimed against the United States even at a time when we were pouring lendlease into Russia. In this connection, U. S. diplomats can't help remembering the secret minutes of the Molotov - Ribbentrop conversations in late 1940-shortly before Hitler attacked Russia-when Russia offered to come into the war against the Allies if it got the Dardanelles, half the Balkans, the three eastern provinces of Turkey, Iran and Iraq.

TRUMAN SHAKES HANDS

One ordeal of every President is haking hands at official receptions. Recently President Truman stood in line while 1,400 members of the diplomatic corps, plus their wives, filed by to greet him.

Truman considers receptions for congress or the army and navy bad enough, but he especially dreads diplomatic receptions where he cannot always catch foreign names.

After shaking hands so fast he barely was able to glimpse faces, the President looked up to see retiring White House assistant Eddie Locke, with his "Why, Eddie!" Truman said

laughingly. "Thank God here's someone whose name I can pro-

"Sh-h-h," said Mrs. Truman.

UNFAILING GOOD HUMOR

Every White House caller these days comes out of the inner sanctum remarking on how well and high - spirited President Truman looks. Expecting him to appear bowed and discouraged by the weight of his office, they remark: "He doesn't seem to have a care in the world."

Even during the middle of the coal strike, when Truman cabinet members were worried sick over

the economic consequences to the country, White House callers came out to report that the President seemed to be in fine fettle. One unofficial explanation is that, since November, the President feels

that the Republicans have removed part of the responsibility of leadership from his shoulders. No matter what he does, it can't be right in GOP eyes; therefore, he might as well be philosophical about it.

Another explanation is that, since November, Truman feels he is no longer under any obligaton to carry on the Roosevelt New Deal pro-gram. The November balloting showed that the majority of the people wanted a change, argue some White House advisers, so Truman has a mandate to desert the Roosevelt program for his own.

JIMMIE BYRNES' 'WHISKERS'

Retiring Secretary of State Jimmie Byrnes has had so many tough diplomatic battles that even in his spare time he can't forget he's not tussling with Russians.

The other morning, Byrnes took his wire-haired terrier "Whiskers" out for a stroll, during which the dog started barking angrily at another pup. Said Byrnes:

"Stop that, Whiskers — that isn't Molotov."

MERRY-GO-ROUND

President Truman has turned down ambassador to Brazil Bill Pawley's bid to be assistant secretary of state for air. . . Astute senate secretary, Leslie Biffle, will act as top liaison man between the administration and GOP congressional leaders. Biffle will handle all patronage for the White House. He will make all the deals with the Republicans on GOP appointments to executive department jobs and will have the final say on Democratic nominations to vacancies.

WHEN CONSTIPATION makes you feel punk as the dickens, brings on stomach upset, sour taste, gassy discomfort, take Dr. Caldwell's famous medicine

tame Dr. Caldwell's tamens medicine to quickly pull the trigger on lazy "ip-nards" and help you feel bright and chipper again.

Kidneys Must Work Well-For You To Feel Well

24 hours every day, 7 days every week, never stepping, the kidneys filter waste matter from the blood.

If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of shy the whole system is upset when kidneys fail to function properly.

Delight the Family With Coffee Cakes

Hot Breads Are Delicious

Whether you serve yeast breads or hot quick breads, they lend themselves graciously to winter menus. The varieties for both are numberless, and you can take your choice of spicy or fruit ones.

Hot breads are hearty foods, but they're welcome at this season both from the point of eating and the comfortable air which fills the kitchen when we make them. They have a staying quality, too, which satisfies winter-sharpened appetites.

We start the parade off with a colorful cranberry coffee ring which can be put together in a wink of

Cranberry Coffee Ring. (Serves 12)

11/2 cups sifted flour 1/2 cup sugar

2 teaspoons baking powder 1/2 teaspoon salt 1 egg 2 cup milk

3 tablespoons melted shortening Cranberry orange topping Sift flour, sugar, baking powder and salt together. Beat egg, add milk and shortening. Stir into dry

ingredients, mixing only enough to moisten them. Spread topping evenly over bottom of greased ring mold. Pour batter over topping. Bake in a moderately hot (425 degree) oven for 25 minutes.

Cranberry orange topping: Mix together 3 tablespoons melted butter with 1 teaspoon grated orange rind, 1/2 cup sugar and 11/2 cups of whole cranberries.

Do you want to do something special for breakfast or for lunch box sandwiches? There's nothing better than this flavorful brown sugar buttermilk bread:

*Butterscotch Bread.

cups brown sugar 2 tablespoons melted shortening cups flour

11/2 teaspoons soda 1 teaspoon baking powder 1/2 teaspoon salt cups sour or buttermilk

1 cup chopped walnut meats Beat eggs, add sugar and shortening and beat well together. Sift flour, soda and baking powder together with salt and add to egg mixture, alternately with milk. Blend in nuts. Pour into greased loaf pans and bake in a moderate oven (350

degrees) for 45 minutes. There's nothing so nice for a special breakfast, dinner or luncheon as a sugar-saving cinnamon roll recipe. When it's baked and glistening golden brown, frost it until it looks lacy with a powdered sugar and milk icing if you want it to be especially glamorous.

Cinnamon Rolls.

1 cup milk 2 cakes yeast % cup extra-sweet, white corn

syrup 2 teaspoons salt tablespoons shortening 1/4 teaspoon nutmeg 1/2 teaspoon lemon or vanilla

extract 1 egg, beaten

4 cups sifted flour LYNN SAYS:

Use These Handy Tips For Easier Homemaking White scum on sauerkraut is a yeast growth. It can be controlled by means of proper covering and

weights on the kraut to prevent exposure to air. The clothes moth pays no attention to the calendar, especially in them mothproofed.

LYNN CHAMBERS' MENU

Broiled Salmon with Lemon Wedges Slivered Carrots and Peas Celery Sticks *Butterscotch Bread Grapefruit Salad Beverage Lemon Chiffon Pie Recipe given.

Heat milk to scalding; cool to lukewarm; add yeast and let stand 5 minutes to soften. Cream together the extra-sweet corn syrup, salt, shortening, nutmeg and extract. Add egg and beat thoroughly. Add milk mixture and flour alternately, mixing until smooth after each addition. Cover and let rise until doubled in bulk. Knead lightly on floured surface. Let dough rest 15 minutes. Roll ¼ inch thick, sprinkle with cinnamon sugar and raisins, as desired. Roll as for jelly roll and slice

with a sharp knife. Place in greased cake pan. Let rise until doubled in bulk. Bake in a hot oven (400 degrees) about 20 minutes.

If you like coffee cake made in fancy shapes, you'll like the following, which is just as festive and ty as possible.

Figure Eight Coffee Cake. (Makes 3 cakes)

2 packages yeast 14 cup lukewarm water 1 cup milk

1/2 cup sugar 2 teaspoons salt eggs, beaten

1 teaspoon grated lemon rind 14 cup melted shortening 5 cups sifted flour Cinnamon sugar

Soften yeast in lukewarm water. Scald milk. Add sugar and salt. Cool to lukewarm. Add 2 cups flour. Mix well. Add softened yeast, eggs and lemon rind. Beat well. Add shortening. Mix well. Add more flour to make a soft cough. Turn out on lightly floured board and knead until satiny. Place in greased bowl, cover and let rise until doubled in bulk. Punch down. Use one-third of dough to make a coffee cake. Cover remaining two-thirds and place in refrigerator to use for coffee cake or rolls.

Let dough which you have left out rest for 10 to 15 minutes. Roll into a rectangle sheet about 18 inches long and 8 inches wide. Spread with melted butter and sprinkle with cinnamon sugar. Roll up as for jelly roll and seal at the edges. Place on greased baking sheet and shape into a figure eight, then seal ends at intersection. With scissors, cut slanted gashes in top of roll 2 to 3 inches apart. Fold back points of cuts to show cinnamon layers. Let rise until doubled in bulk.

Bake coffee cake in a moderate oven (350 degrees) for 25 to 30 minutes. Frost with confectioners' sugar icing after baking and cooling slightly, if desired.

Any type of fruit filling may be used with the above coffee cake: Raisins, either alone or with chopped apples, prunes, figs, nuts, apricots, peaches and pears, or diced, candied fruit.

Released by Western Newspaper Union.

The keynote of lighting is "light in the eyes is glare; light on what you're looking at is good illumina-

A pound of cheddar or American cheese which is made from whole milk contains the protein and fat of about 1 gallon of milk.

The average kitchen needs five knives: One small paring knife, two slightly larger knives for paring, warm homes, and it's a menace to wool, fur and feathers the year around. Air clothes often and have like carving.

NEEDLECRAFT PATTERNS

Odds and Ends in Colorful Afghan

Address.

WONDERFUL way to use bright bits of wool to best advantage. Afghans are so colorful, so cheery and gay . . . to make as well as to see!

India's Lack of Medicine

Lack of medicine as well as lack of food has long been responsible for the unparalleled death rate of India, where, even today, there is only one pharmacist for every 5,000,000 persons, compared with 2,965 for every 5,000,000 persons in the United States. hexagon. You can combine wools of dif-ferent weights in this afghan. Pattern 7323 has directions for afghan.

Due to an unusually large demand and current conditions, slightly more time is required in filling orders for a few of the most popular patterns. Send your order to:

Sewing Circle Needlecraft Dept. 564 W. Randolph St. Chicago 80, Ill. Enclose 20 cents for pattern.

Two Firestone CHAMPIONS

ANY OTHER TRACTOR TIRE

ROYAL JUPITER, Grand Champion steer at the 1946 International Livestock Exposition, best shows today's demand in beef cattle. And on American farms, the New Firestone Champion Ground Grip is the Champion among tractor tires.

As the Champion, this new tractor tire cleans up to 100% more effectively . . . pulls up to 62% more at the drawber . . . lasts up to 91% longer . . . and rides smoother on the highway. There are sound reasons for this. The

curved traction bars flare outward from the center, making a wider opening at the shoulder from which mud and trash fall easily. The connected bars take a powerful "center bite" in the heart of the traction zone. The extra-deep, pyramid-like curved traction bars cut sharply into the ground with a cleaving action. The extra height, plus buttressing at the base and Triple-Bracing near the center, give the bars greater strength and stability. Continuous bars give the Champion smoother contact with the highway . . . lengthen tire life.

When you order tractor tires, or a trac-tor, ask your Implement Dealer, Firestone Dealer Store, or Firestone Dealer to specify Firestone Champion Ground Grips.

ant of our Savior. Many are the undecided which college he will atsouls that stay away from the tend House of God because of this mony question Now I am watching the I think Mrs H T H has something Forum for someone to give us a few words in regard to the medical men of our city. C. S. C., Tulsa.

Editor: I say — pity the poor preacher! Poor, because the mint loesn't make enough money to pay him for services rendered. He has to love the unlovely, welcome the unfriendly, pray for the sinners, & raise the saints.

preacher's schooling prepares for several professions which he could double his salary & halve his hours. A preacher is at the beck and call of from 300 to 4, 000 people, many of whom are neu rotic, frustrated and unhappy. The preacher is on duty for 24 hours a day to answer all kinds of quests

And the preacher's wife brother! If she wears pretty clothes she's extravagant; if she wears plain clothes she's dowdy; if she's friendly she's fawning; if she's retiring she's surly. The parsonage is as private as a gold fish bowl. Any member of the congregation feels that it is his privilege to visit the parsonage at any time of the day, if for no other reason than show it off to visitors. So let's not begrudge the preacher his salary. Let's encourage him to stay in the most exacting of professions. He is holding out the last ray of hope for this murky world and the nereafter - there could be a hell!

(Ed. note: Hereafter letters, clip pings, etc. may not be used unless the sender is identified Upon your request your name will be withheld.
Thanks.)

Seminoles Misrepresented By Sensational Writers

By BAUKHAGE News Analyst and Commentator

Washington, D. C.

(This is the second of two articles based on visits to the Seminole Indian reservation at Brighton, Fla.).

SOMEWHERE NORTH OF THE EVERGLADES. - Whenever one tries, as I did, to study the human side of the Seminoles-that nation

tradictory data

and snake killing:

When I called on Agent Boehmer, his wife recounted how a greatly-excited Indian had appeared one day on their desire that Boehmer come to the Seminole camp-a 100 rods or so distant-to kill a rattler.

Boehmer obliged. He carefully avoided carrying the corpse through the camp (a Seminole taboo), and he noted the usual fire lighted at the point where the victim fell. As usual, the Indian children had cooperated with him, without actively participating in the execution.

There are two explanations as to why the Seminoles would not themselves kill the snake. One is that once in the past the Seminoles were ordered by the White Man to leave Florida for points west. They prepared to remain even though it meant retiring deep into the Everglades. However they decided it would be a good idea for both parties if they made a treaty with the snakes. They did so on a "live and let live" basis. That is one ex-

Or it may have been one of those common sense arrangements embellished with the authority of mysticism. There are few snakes which, if left alone, won't reciprocate.

Another interpretation may be that when a white man attacks the rattler, the chances are that if anyone is bitten, it would not be an Indian. I understand Seminoles do kill snakes when it seems nec-

Boehmer, whose opinion I learned to value as I pursued this subject, thinks the rattlesnake situation is interesting, but I couldn't get him to say it meant the Seminole was

Gaudy Costumes Intrigue Observer

Like every observer, I was impressed by the Seminole attire. Not by the men's-they wear conventional garments lightened by a gay handkerchief about the neck when they pursue their daily tasks, hunt on the reservation or loaf in camp. They have shortened the long skirtlike garment (comparable to the woman's cape) to sport-shirt length, even in ceremonial dress.

I found only Sam Huff, reputed to be a medicine man as well as the handy man at the school, wearing the long skirt-like garment, plus the blouse. Some say Sam clings to this outfit merely because of his love for the past; others say it may have something to do with his special function as a medicine man: there is a whisper that it is a badge of repentance or punishment for some past sin. Sam is a grandfather today. He still lives in the nearby camp with the rest of his three generations.

The younger men save their gay shirts for dress up occasions (the annual green corn dance and the hunting dance), but they have adopted modern trousers. Their shirts are coverd with complicated ter reason in any woman's lexigeometric tracery; their scarves con? are bound by a metal or wooden clasp; they wear beads or other brightly-decorated fobs.

The most striking piece of Seminole clothing is the woman's bil- ing vigorously in a tomato patch, lowing skirt; next come the beads or even strolling through a shop which cover her neck from shoulder blade to ear tips; then her hair-

Unlike the men, the Seminole women (except those who have been completely converted to modern enforced "chokers" American girls ways) wear their special garb and wore in the first decades of the wear it all the time. Consequently, 1900s.

WNU Service, 1616 Eye Street, N.W., | they always look "dressed up." The hairdress, an innovation and a highly practical one, dates back only some six or seven years. The woman's smooth black hair is brought forward over a semi-circular cardboard form like the wide peak of a cap. This gives her the appearance of peering at you from underneath a wide, circular hat brim, and is achieved easily without the aid of the beauty shop and virtually without mirrors. Furthermore, the coiffure is one development that has no connection with

Women's Skirts Are Real Art

the White Man's culture.

Unlike the hairdo, the Seminole skirt and cape haven't changed except to grow more artistic and more intricate with the advent of colored textiles. They likewise have become less difficult to create, thanks to the hand-driven sewing machine. This gadget long since has been as common in tepee, hogan or even igloo as an ice-pick in a modern

The skirts are made of parallel doorstep to announce his pressing bands of a brightly colored patchwork design which experts claim are real art. They are fashioned of hundreds of separate pieces of colorful cloth, blended or contrasted to make a barbarically splendorous whole. The skirts bell out, widening in circumference as they approach the hem which, according to regulations, must trail at least three inches or thereabouts on the ground.

How can this be a practical everyday dress in a country of swamps and morasses, of barbed and cut-ting underbrush? That is the first question I (and every ignorant ob-

native dress in Everglades.

server) asks. But they are practical, say the experts who have seen them in operation. Through wet going and wading, they are "histed" (there are no undergarments to complicate matters). Traveling over the dry and dusty fields, rife with snakes and other annoying reptiles, they protect the bare feet and shins. As Miss or Mrs. Seminole moves forward, toeing in slightly, according to good Indian custom, she gently kicks the dragging rim forward without baring the bare feet to inquisitive eyes or any flora or fauna that might obtrude.

The only other cloth garment is the cape. This is usually a single solid and bright color matching the

The Seminole beads remain a mystery. So far, I have been able to learn little concerning the origin, purpose or excuse for them beyond the explanation offered by Agent Boehmer and supported by his wife: They wear them because they think they're pretty." And what bet-

It does seem strange, though, to see a comely Indian matron, her skirt tucked high before a roaring fire on a hot Florida day, or workamong sweltering whites in low cut dresses or open sport shirts, with perhaps 25 pounds (they have been weighed) of beads in a solid collar

Woman's World

Glamorize Ugly Duckling Beds With Slipcovered Headboards

By Ertta Haley

If you're one of the thousands of war brides still waiting to see your iream home come true, there are several ways of making your life at present one of comfort and pleasantness. There's no need to put up with sad-looking family hand-medowns if you can run a sewing machine or take a needle in your hand and transform today's fabrics into things of beauty and loveliness.

A few yards of printed or plain cotton or rayon can be turned out into handsome quilted and appliqued finishes for headboard slipcovers after a few lessons at your local sew-ing center. You can, for example, pad a slip cover and work out a quilting design at the same time with just a little instruction and turn the white elephant of a bed into a thing of beauty.

Checked gingham, flower sprigged or striped fabrics are best for a quilted design which is easy to apply with the quilting attachment to the machine. If your heart is set on one of the lovely appliqued designs, your best choice is a plain background which sets off the floral designs of the applique. The zigzagger attachment will do the job neatly and in very short order.

wooden bedsteads Outmoded should be cut down to modern proportions before you attempt covering the headboard. Perhaps a handy carpenter or even friend husband would enjoy doing the job in one of his spare moments. If you're not quite certain of the lines to use, then check over some modern pieces before you attempt to start the remodeling.

You may even use a studio couch or box spring mattress combination if you don't have a regular bed. In this case, attach a headboard made of compo or plywood cut to bed

Take Measurements First

When Making Covering , To determine the fabric necessary for the headboard, measure across the top of it for width and then from top to bottom for depth. Lay the material lengthwise across the front of the headboard to avoid seams down "e center front. Join narrow

Convert old bedsteads into . . .

pieces that run down the sides and across the top with heavy corded edges; sewing center instructors will show you how to master this quickly with the cording foot attachment on your machine. After finishing effects are created, the slip cover is placed over the headboard and fastened snugly at the back with a long zipper closing. If the headboard is curved, remember to shape the fabric with basting stitches before doing the final cutting and stitching.

After taking headboard measurements for slipcover quilted finish allow at least one-quarter of a yard for take-up in the quilting process. You can quilt the entire front surface of the material or make a large center design with unquilted border

Padding is sandwiched between

Smart bedroom pieces.

all of these are basted together. Turn basted fabric padding and backing, right side down, on cutting table and draw pencilled criss-cross diagonal lines which act as a guide for the first row of quilted stitching. After the first row of stitching is done, the bar on the quilter attachment can be set for spacing a deSewing Trick

Makeshift sleeping set - ups such as studio couches and family hand-me-downs can be transformed thriftily into decorative assets with appliqued or quilted slipcovers for headboards.

sign of any reasonable size, assuring a uniform pattern. After the guide is set, stitch as you would any straight seam.

Floral Printed Remnants Easy to Use for Appliques

For an appliqued slip cover, cut out designs from a floral printed remnant and then applique to the plain fabric slip cover, using a zigzagger attachment. Both of these headboard effects can be enhanced with matching bedspreads, the quilting and applique work being done in much the same fashion as for the headboard.

Frilly ruffles that complement headboard drama can be stitched for bedspreads with the ruffler attachment. This gadget ruffles and stitches all in one operation.

If you're a career girl and housekeeper combination, then select the bedspread with care. You'll want one that fits perfectly without too much fussing-one that you can swiftly maneuver into place in the morning and snap off quickly in the evening.

A simple quilted bedspread or a cotton appliqued one will lay nicely on the bed, and will be simple as far as care is concerned.

Of course, if you want more glamour, you can go in for the frilly, ruffled types made of sheer materials like organdie and dotted swiss, but this is something strictly feminine, and you don't want to subject your brand new husband to too many fancy frills.

A gathered skirt also is acceptable if you want something fem-inine but tailored. This can be effectively worked out with a floral print spread and a plain colored gather. This motif also can be carried out in draperies and dressing table skirt.

Tucks and Stitches

Remember that in planning a new dress or re-styling an old one, it is important to recognize the relationship between your pattern and the fabric you select. Moreover, the fabric may suit the pattern design perfectly, but you also must bear in mind that there is just as much relationship between the fabric and your figure. Sewing center experts guide you in differentiating between these two important factors, and at the same time recommend fabric designs that will assure figure flattery. For example, if yours is a short, stout figure, you should stay away from bold stripes and loud plaids that will tend to make you look shorter and stockier, and choose rather plain fabrics in becoming muted colors.

The dress that suddenly has become short-waisted and uncomfortable is still a "remake" possibility. The sewing center in your locality will show you how easy it is to put this dress back into circulation. All you need for this problem is a mid-riff insert strip of printed or striped fabric, if the dress is a solid color. The reverse is true if the dress is made of a print fabric. Sever bodice from skirt, determine the exact width with darts back and front. Attach to the bottom of bodice and top of skirt on wrong side. Finish off with pinked edges.

Washington MERRY-GO-ROUND OREW PEARSON

SHIFT OF COMMANDERS

WASHINGTON. - Inside about the shift of U. S. commanders in Germany is that the stage was set for the change shortly after Lt. Gen. Lucius D. Clay visited the National Association of Manufacturers in New York.

Shortly before that, the senate war investigating committee's chief counsel, George Meader, had come back from Germany with a preliminary report highly critical of what went on in the U. S. occupation zone.

General Clay, then in the United States, was upset by this report and talked to Secretary of State Byrnes about resigning. He felt that Gen. Joseph McNarney, top commander of U. S. troops in Germany, was the man really responsible, although he, Clay, as head of the military government for Germany, got the blame.

On top of the unfavorable Meader report, General Clay addressed a meeting of the National Association of Manufacturers and afterwards sat down at an off-the-record meeting of NAM leaders including some of the top moguls of American industry. Their solution for the future of Germany was simple. They told Clay that they should be permitted to get in touch with their opposite numbers in German industry - the big industrialists who helped build up Hitler's war machine.

If allowed to do business with the German cartels, the U.S. industrialists told Clay, they would have Germany back on its feet in no

This shocked General Clay. He said he would retire from the army immediately if any such deal was carried out. He warned that the German people did not believe in or understand free enterprise and that Germany could only continue under strong government controls.

CAPITAL CHAFF

The RFC apparently thinks that the Germans are a better risk than veterans' housing. It will advance about 3 billion dol-lars to rebuild Germany during the next three years, but was afraid of losing money on Wilson Wyatt's prefabricated housing for veterans. . . . Wyatt, exmayor of Louisville, passed out golden keys to the city of Louisville to guests he invited to a farewell party. . . . No wonder John L. Lewis is hard luck for labor. He's the "13th" vice president of the A. F. of L.

AIRLINE DYNAMITE

The dynamite now exploding inside Trans World Airlines between Jack Frye, its president, and Howard Hughes, its chief stockholder, has caused members of the civil board to careful probing of the aviation industry. Their probe indicates that things aren't going anywhere nearly as well as the airline ballyhoo indi-

Among other things, six companies operated in the red during the first nine months of 1946-TWA, Colonial, Chicago and Southern, Northeastern, Pennsylvania-Central and West-

Furthermore, the airlines have over-ordered new planes to such an extent that they will never be able to use more than a fraction of the planes supposed to be delivered.

For instance, the present fleet of civil planes has a capacity of 15 billion seat miles annually. However, when the planes now on order are delivered, capacity will be 41 billion passenger seat miles.

This is in contrast to the fact that the planes now on hand are 100 per cent in excess of the passengers now carried. Result is many unpublicized cancellations. One of the most disquieting situations is the fact that TWA has placed large orders with Lockheed, and heavy cancellations would deal Lockheed a tough blow.

PACIFIC MERRY-GO-ROUND

Best way to gain popularity in the Far East today is to take along a supply of Roosevelt dimes. Congressional travelers returned from China and the Pacific islands report that these were the most welcome gifts they could make to native dignitaries. . . . First general election in history of the Truk island group in the Pacific was held in January. Island chieftains and officials for the entire group were chosen. Heretofore these offices have been hereditary.... Among the voters were many who have lived under Spanish, German and Japanese control. This was their first election.

SCHOOLS NEED TYPEWRITERS

Schools and colleges may come ahead of veterans in getting surplus war property for educational uses, according to a plan now under consideration at the White House. At present veterans get first crack at typewriters, adding machines and all other types of equipment-and when the vets are through there isn't much left for the states, schools and colleges. This problem recently was placed before the President by ex-Sen. Joseph Rosier of West Virginia.

Fashion Flashes

Many new shades have come into being as designers and planners play with colors. Keep your eyes open for those most flattering to you.

You may see plenty of fash-ions that hark back to other days and older times, but they all have that streamlined modern look and easy wearing quality that we like and so admire.

If you're dainty and demure, you'll like the portrait gowns done in pale pink or blue satin with a strapless decolletage and finished with billowing black lace.

Your evening gowns may reflect any period or mood you desire but they should be chosen to fit you. Choose a white jersey, sleek and well fitted, if you are the type.

Brisk Winter Days Stimulate Appetite For Substantial Food

A fluffy, golden browned casserole is ideal supper fare for cold nights. This one combines protein foods such as dried beef and eggs with the vegetable, which is whole kernel corn.

Make Hearty Meals

When the family comes tramping home on cold nights with the appetites of woods-

men, many a homemaker is put to the acid test of really filling them up with plenty of hearty, nourishing food.

Sometimes appetites seem endless, especially when the food is not suited to weather or to work and play, but there's an answer to all this.

Hearty foods solve the puzzle best, so bring out the stews so rich in vegetables and inexpensive cuts of meat, casseroles with sauces and gravy and top them off with hungersatisfying desserts. Don't forget the vegetables and fruits as these are an important cog in balancing the meal and rounding it out.

Another easy trick to take the edge off sharp appetites is to serve a piping hot soup of some kind just before dinner. This may be light or hearty depending upon the type of family you have. This, too, is economical because you can use bones from roasts or the carcass of a fowl from dinner and toss in some vegetables, and have enough soup for several days.

A soup is nice to serve before the following casserole. Top it off with a fruit salad and an easy-to-make pudding dessert, and you have the meal complete.

Corn-Chipped Beef Souffle. (Serves 6)

tablespoons butter 4 cup flour 1 cup milk

4 eggs, separated 1 cup whole kernel corn 1 cup shredded chipped beef (about 3 ounces)

Melt butter, blend in flour and add milk. Cook over direct heat, stirring constantly until sauce thickens and boils. Stir hot sauce into well beaten egg yolks, add corn and shredded beef. Fold in stiffly beaten egg whites, lightly but thoroughly. Turn into a six-cup casserole and bake in a moderate (325-350-degree) oven for one hour until a knife inserted comes out clean.

Salmon-Lima Bean Casserole.

(Serves 6) 2 tablespoons diced onlon 2 tablespoons fat

4 tablespoons flour 2 cups milk 1 teaspoon salt

1 tall can salmon 2 cups green lima beans, cooked 2 slices bread 2 teaspoons butter

Cook onion in fat until golden brown and tender. Add flour and blend. Stir in milk

and salt. Cook, stirring constantly until thick and smooth. Alternate layers of flaked salmon, lima beans (which have been drained) and

white sauce in a greased casserole, ending with white sauce. Butter bread and cut in cubes. Sprinkle over top of casserole and bake in a moderate oven for 35 minutes or until golden brown.

LYNN SAYS: Tricks for Homemakers Save Time, Energy

To prevent lumping, store brown sugar in a moist place, such as a breadbox. Confectioners' and powdered sugar may be stored in tightly covered containers.

The brownish color on the surface of used tin pans is tin oxide. This is a better conductor of heat than the tin, thus explaining why cakes brown so much more easily in used tins than new ones.

LYNN CHAMBERS' MENU

Consomme with Rice ·Lamb Stew with Parsley Dumplings
Waldorf Salad Rye Bread Toast
*Hasty Pudding Beverage Recipe given.

*Lamb Stew, Parsley Dumplings. (Serves 6)

Buy 21/2 pounds lamb shoulder, chuck or shank. Cut the meat in one-inch cubes, dredge with flour and brown in hot fat. Season with salt and pepper and cover tightly after adding two cups of broth or water. Simmer slowly for 30 minutes and then add whole small sliced onions or sliced onion rings, sliced carrots, diced potatoes and 11/2 cups drained peas. Cover tightly and cook until vegetables are tender, about 45 minutes, adding more water or stock if necessary.

To make parsley dumplings, sift 2 cups of flour with 1 teaspoon salt, 4 teaspoons baking powder and ¼ teaspoon pepper. Add 1 well beaten egg, 3 tablespoons melted butter and ½ cup milk. Mix to a moist stiff batter and add 3 tablespoons minced parsley. Drop by spoonfuls onto stew, cover closely and cook without lifting cover for 18 minutes.

Remove dumplings to platter and arrange with meat and vegetables. Thicken gravy in pan with flour-water paste. Add a dash of Worcestershire sauce and pour over stew. Serve at once.

How do you plan your desserts? Well, naturally you want them to go with your main

dish, but consider their planning from another point of view also. If you're using the oven, have a baked dessert to utilize heat to the fullest. If you're

cooking a top-of-the-stove meal, make a refrigerator dessert so as not to use the oven for just one thing.

American Pudding. (Serves 6)

34 cup flour 1 teaspoon baking powder 4 tablespoons shortening 1/3 cup sugar 2 cup milk

½ teaspoon salt

4 tablespoons currants 11/2 teaspoons grated lemon rind 134 cup boiling water 1/2 cup honey

Sift flour, measure, then sift with baking powder. Cream one half of shortening, add sugar. Add milk and flour, alternately beating until smooth after each addition. Add currants and lemon rind. Turn into greased baking dish. Combine remaining shortening, honey, water and salt and pour over batter. Bake in a moderate (350-degree) oven for

This next recipe is truly a hasty pudding. It's quickly made and delicious, too, now that whipped cream and marshmallows, absent so long from our grocery shelves, are back with us again.

40 to 45 minutes. Serve warm with

Make the most of your lamb stew by serving it in your prettiest deep platter with vegetables, parsleyflecked dumplings and tender morsels of lamb riding on top of the savory gravy.

*Hasty Pudding. (Serves 6)

To one cup of whipped cream, add 1 cup brown sugar and 1 teaspoon vanilla extract. Blend thoroughly, Add 15 graham crackers which have been broken into small pieces; 4 bananas, quartered and sliced, and 16 marshmallows which have been snipped with scissors into small pieces. Mix lightly and chill well before serving.

This hasty pudding can be dressed up beautifully for a company dinner in tall glasses and topped with a garnish of whipped cream and a dab of red jelly or jam or a cherry.

Released by Western Newspaper Union.

To prevent cake icing from sticking to the knife, dip the knife in hot water before slicing. Lettuce, string bears and other

vegetables often are mure easily cut with scissors than with a knife. A good way to use old soap is to grate the scraps on a household

grater or put them through a food chopper and use them for laundry. Thickening for soups and gravies may be made quickly by beating equal amounts of flour and water to a smooth paste in a shallow bowl with an egg beater.

IMPROVED UNIFORM INTERNATIONAL CUNDAY JCHOOL Lesson

JESUS THE GIVER OF LIFE LESSON TEXT-John 4:46-51; 5:2-9; 11:

MEMORY SELECTION—I am the resur-rection, and the life: he that believeth in me, though he were dead, yet shall he live.

The miracles of God, through his servants and the Lord Jesus Christ, are not mere marvels or wonders. They are not for the advancement of the cause of any man or for personal glory. They are the mighty signs of an omnipotent God wrought for the good of men, for their spiritual enlightenment and as a testimony to the one true God. Jesus is the giver of life; first and most important, of spiritual life,

but also of physical life and health. Leaving Samaria after his blessed work there, our Lord went up into Galilee, where he met many simplehearted folk who were ready to believe. Here he was able to work miracles of healing and of grace.

I. A Sick Boy Made Well (John 4:46-51). A nobleman's son was sick. Ah, yes, affliction and sorrow come to the home of the rich as well as the poor. Death comes to the young as well as the old. In fact, the first

grave dug in this world was for a young man. But it is also true that affliction may be, in God's hand, a means of blessing. This son's sickness sent his father to Jesus, and resulted ultimately in the salvation of the

entire household (v. 53). There is another helpful lesson here-our Lord's Word is as good as his presence. The man asked Jesus to come, but he sent his word instead. It was accepted, believed, and completely effective.

How blessed for us who may not have the physical presence of the Lord to recall the potency of his Word. When he says it, believe it! II. A Lame Man Made Whole (John 5:2-9).

Back in Jerusalem at the Feast of Purim, a time of joy and gift giving, our Lord found his way to the pool of Bethesda where there were misery and disease. His compassionate heart sent him there to help and to bless.

"Impotent folk"-the words well describe not only those who lay helpless about the pool of Bethesda, but they fit us as well. Oh, yes, we are strong, capable, fearless, but only until we meet some great elemental problem. Then we see that we are inded "a great multi-tude of impotent folk." The silent The silent fog can paralyze a nation. Death, sickness-who can stay their hand?

Long familiarity with his weakness had bred in the man with the infirmity a sense of despair. Such an attitude invites defeat. It is unbecoming to a Christian. Let us not forget in the darkest hour to "keep looking up."

Jesus told the man to "rise and walk" - the very thing he could not do for his 38 years of life. But when the Son of God speaks to us he gives the power to respond to his command.

III. A Dead Friend Made Alive

(John 11:11-13). The fact that Jesus is our Friend and our Saviour does not exempt us from human sorrow, but it does assure us of the needed grace to bear the trial and to trust him even in life's darkest hour.

Lazarus, the friend of Jesus, was sick. The home in which Jesus had found rest and fellowship was in deep trouble. Jesus was no longer in Judea. In haste, word is sent to him of his friend's illness. But he did not come.

Why does he delay? Such is the heart cry of thousands today who call on him in their hour of trouble. The purposes of God are beyond our ability fully to understand. We need only to trust him and abide his time.

Notice that his failure to respond at once to the message of Lazarus' sisters did not mean that he had deserted them (11:4-6). Nor did it mean that he had denied them his help (v. 7). Lazarus may have been dead before the word reached him. He may also have delayed in order that there might be no question about the resurrection miracle. he may have tarried in order that their faith might be strengthened.

Above all, do not fail to notice that he came. He always does. Jesus has never failed any child of his. The time and the manner of his answer to our prayers may not conform to our opinion of what should have been done, but let us remember that we know only in part. He knows all. Let us trust him. In his darkest hour Job said: "Though he slay me, yet will I trust in him" (Job 13:15).

He called Lazarus forth from the sleep of death. Even so he calls sinners forth from their spiritual death into glorious eternal life! The lifegiver, our Lord and Saviour, is here now ready to give life to everyone who will call on his name. Will you?

This Home-Mixed Cough Relief Is Wonderful

No Cooking. So Easy. Saves Dollars. No Cooking. So Easy. Saves Pollars.

To get the most surprising relief from coughs due to colds, you can easily prepare a medicine, right in your own kitchen. It's very easy—a child could do it—needs no cooking, and tastes so good that children take it willingly. But you'll say it's hard to beat for quick results.

First, make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until dissolved. Or you can use corn syrup

of water a few moments, until dissolved. Or you can use corn syrup or liquid honey, instead of sugar syrup. Get 2½ ounces of Pinex from any druggist, and pour it into a pint bottle. Fill up with your syrup. This gives you a full pint of really splendid cough syrup—about four times as much for your money. It never spoils, and lasts a long time.

And it gives quick relief. It acts in three ways—loosens the phlegm, soothes the irritated membranes, and helps clear the air passages.

Pinex is a special compound of proven ingredients, in concentrated form, well known for quick action in coughs and bronchial irritations.

CARELESSNESS AND DISEASE

Carelessness and ignorance rep-resent two of the most powerful factors in spreading communicable diseases from man to man. No more emphatic example of this fact exists than the continued ravages of tuberculosis. In spite of the knowledge of its cause and spread, and of curative methods, tuberculosis is still a very serious problem not only in Texas but thruout the nation. It is true that tuberculosis is no onger is first on the list of killing dieases, as it was formerly, but des pite having been reduced to fifth place in Texas, it still is responsibof 15 and 45 than any other disease. And this fact exists even thou the majority of T. B. patients could have their condition arrested if it were recognized early and proper

treatment applied. Treatment of the early recognized case is essential. It is of equally important, from a public health viewpoint, that the spread of this devastating infection be prevented. A more intelligent appreciation of this fact would result in the saving of thousands of lives.

When a giagnosis of active tuber ulosis has been made, examination of all of the other members of the immediate family should follow as matter of course. uns in families, not because of any especial susceptibility to the se but because it is communicable being usually transmitted close and prolonged contact
