

Rotary News

The O'Donnell Rotary Club met Tuesday in its regular meeting with President Wayne Noland presiding. Visiting Rotarians were Stansell Clements, Moody Neeley, J. B. Claiborne, and Owen Taylor of Lamesa and Emil Prohl and Fred McGinty of Tahoka. Mrs. Emil Prohl was a guest.

Colorful Italy with all of its historical background was presented to the O'Donnell Rotary Club by Miss Claudia Barda of Milan, Italy. The very charming Miss Barda is a summer guest in Tahoka and is sponsored by the Tahoka Rotary Club. Although the languages are different and the countries vary in many other instances, the problems of the parents and their love for their children are the same.

A letter from the Coldwells from Western Australia to O'Donnell tells of the first rains in several years that have soaked the parched sands. An estimate of 14,000,000 sheep have perished during the severe drought.

A letter from the John Bowns of New South Wales, Australia tells of the Charter Night Dinner of the newly organized East Gosford Rotary Club. One of the items on the program for the Charter night was the presentation of the banner and greetings from the O'Donnell Rotary Club. A banner from this new club is on its way to the O'Donnell Club. The East Gosford Club was organized because the waiting list to become a member of the Gosford Club was so great.

Thought for the week: As we pass from this life on this earth, we need to have the feeling that we have helped in some way to make the world a little more worthwhile—a little more "a thing of beauty."

Scouting News

A two quart bleach bottle hanging from a tree is ideal for washing hand and face in camp. Punch a hole with a nail one inch from the bottom of the bottle. Fill with water and replace the cap. Water will not run out when the cap is screwed on. Remove cap to allow the water to run out for washing the hands and face. A squeeze on the side of the bottle with rap on will give a quick rinse. A bar of soap can be hung on the handle.

CHECK YOUR HOME STUDY LIGHTING NOW

For proper study light from a table lamp, use at least 150-watts of illumination. The lamp should be tall enough to spread light evenly over the work area and should be properly shaded to shield the eyes from the light source. A diffusing bowl is recommended to soften the light and prevent glare. If your children's study light doesn't meet all these requirements, visit your dealer's and see the new study lamps. Good home study light protects against eyestrain and fatigue... makes learning easier because seeing is easier.

FALL CLEAN UP TIME FOR O'DONNELL IN SEPTEMBER
 As the busy Fall approaches, there will not be much time for cleaning the "SPOTS" in O'Donnell that are needed to be cleaned up. Some are bad enough to even create fire hazards.
 So we, who are organizations who believe in our town and wish to have it a desirable place to live, are cooperating with the City of O'Donnell in a Fall Clean Up Time. The street and block captains who served in the City's spring clean up are asked to serve for the Fall clean up. Each citizen is asked to be working on his own property.
 Fall Clean Up Day has been tentatively set for September.

Highway Patrol Reports Wrecks

The Texas Highway Patrol investigated six accidents on rural highways in Lynn County during the month of July, according to Sergeant A. E. Roberts, Highway Patrol Supervisor of this area.

These crashes resulted in one person injured and an estimated property damage of \$2610.00.

The rural traffic accident summary for this county during the first seven months of 1966 shows a total of 54 accidents resulting in two persons killed, 19 persons injured, and an estimated property damage of \$26,785.00.

"School days" are almost here again. The familiar yellow school buses will soon be back on the highways. The Sergeant reminds all motorists of the State Law regulating traffic in regard to school buses. "The drivers of a vehicle upon a highway outside the limits of any incorporated city or town upon meeting or overtaking from either direction any school bus which has stopped on the highway for the purpose of receiving or discharging school children shall stop the vehicle immediately before passing the school bus, but may then proceed past such school bus at a speed which is prudent, not exceeding

(10) miles per hour, and with due caution for the safety of such children."

Burned Grain May Be Grazed

Burned up grain sorghum may be grazed by most farmers if they desire and otherwise are in compliance, according to Wallace Dove, Lynn county ASCS office manager.

"Grain sorghum planted in a workman-like manner for harvest which fails to mature by reason of hail or drought, or for reasons beyond the farmer's control, can be grazed by livestock and the farmer can still qualify for price support," Dove informs The Index.

Because of the July drought, most old maize in the county has burned badly and a lot will not mature. Such maize land, if the farmer is in compliance with the farm program, may be grazed by cattle.

What's behind the closed door?

Clean GAS Cooking.

No way around it, broiling creates smoke. But there is a way to keep it out of your kitchen. Close the broiler door and let the GAS flame consume the smoke. Closed-door broiling is just one of many reasons why GAS cooking is cleaner and cooler.

count, says John G. Hutton, district manager of the Social Security Administration.

"In many cases," he writes, "it appears that the money order may have been purchased by a relative for the Medicare beneficiary." He urges that social security number and address be put on the money order so proper credit can be given.

"Going Band" Invited To Fair

The Eagle Band has been invited to the State Fair at Dallas and this calls for several money raising projects throughout the summer. We ask that each of you participate in the projects. They are worthwhile and we will appreciate your help.

Help us go to Dallas. The Eagle Band will outplay and outshine any of the other bands there!

Babysitting is also offered by the band. The charge will be 50 cents an hour and 25 cents extra per hour for each additional child. In the O'Donnell area, call either Donna Moore at 428-3858 or Susan Taylor at 428-3867. For the Tahoka area call Debra Webb at West Lake 465-4276.

FALL CLEAN UP TIME FOR O'DONNELL IN SEPTEMBER

As the busy Fall approaches, there will not be much time for cleaning the "SPOTS" in O'Donnell that are needed to be cleaned up. Some are bad enough to even create fire hazards.

So we, who are organizations who believe in our town and wish to have it a desirable place to live, are cooperating with the City of O'Donnell in a Fall Clean Up Time. The street and block captains who served in the City's spring clean up are asked to serve for the Fall clean up. Each citizen is asked to be working on his own property.

Fall Clean Up Day has been tentatively set for September.

Cotton Acreage Is Close To 120,000

Lynn county possibly has less than 120,000 acres in cotton this year, based on figures from the local ASCS office.

Base cotton acreage for 1966 is about 176,000 acres. Farmers have bought about 12,000 acres in other counties for transfer to Lynn county farms, but this has been reduced to about 7,000 acres on a poundage production basis comparison.

But, in complying with the new Federal farm program, most farmers have taken the 35 percent reduction option, leaving about 119,000 acres eligible for planting.
