O'DONNELL, LYNN COUNTY, TEXAS, FRIDAY, AUGUST 9, 1929

NUMBER 46

DOW AND HEN BRINGS WEALTH TO FARMERS OF THIS TERRITORY

not the only money crop in Lynn territory. During the years hogs, dairy and other products have increased annually nothing to an annual the farmers of this territory one half million dollars includes the surplus of the territory during the past twelve months. The feed crop of corn, sorghum, alfalfa, kaffir, sorghum, small grains adds \$1,000,000 to the yearly income of the farmers of this territory. The past twelve months six hundred and thirty thousand dollars of small grain has been raised in Lynn County, Texas. The estimate of the six hundred and thirty thousand dollars of small grain brought the \$3,000,000. Thirty one hogs have also been marketed during the past twelve months which brought the \$500,000. The three straight butter, cream, eggs and other products of the territory during the past twelve months have brought the \$1,500,000. The total income of the territory during the past twelve months is \$6,000,000. The territory has a surplus of \$1,000,000. The territory has a surplus of \$1,000,000. The territory has a surplus of \$1,000,000.

Hottest Weather of Season This Week

The continued dry weather during the past few days have caused the thermometer to rise to record breaking marks. On Monday and Tuesday of this week which were the hottest days of the year according to information given the Index, the thermometer registered as high as 104 degrees during the heat of the day. As we go to press late Wednesday aizzling heat waves continue to sweep the country, which is seriously damaging the feed crop and possibly some of the cotton crop.

Father of Mrs. Doak Dies at Home in Anson

Mr. and Mrs. C. H. Doak returned Saturday night from Anson, Texas, where they were called by the death of Mrs. Doak's father, Mr. J. W. Fielder, who died at his home on Wednesday, August 31st.

Following is an account of his death which was published in the Western Enterprise of August 1. J. W. Fielder, who came to Jones County in 1888, died at his home four miles east of Anson Wednesday afternoon, after being confined to his bed for months. He was buried in the Bethel Cemetery Thursday afternoon, the services being held from the Bethel Baptist Church, Rev. J. E. Edwards, pastor of the deceased, conducting them, assisted by Rev. J. D. Reeves, both ministers being old-time friends of the family. Mr. Fielder walked his last step December 22, last year, when he came to Anson to do some Christmas shopping.

The family has lived in this county since coming here with the exception of four years spent in Scurry County, from 1889 to 1904. Mr. Fielder was born June 23, 1851, in the State of Mississippi, moving to Texas with his parents while quite young, settling in Gadsden County. He and Miss Susan A. Townsley were married in Austin in 1873, of which union seven children were born all of whom survive Mrs. Fielder passed away in 1923 and was buried in the Bethel Cemetery.

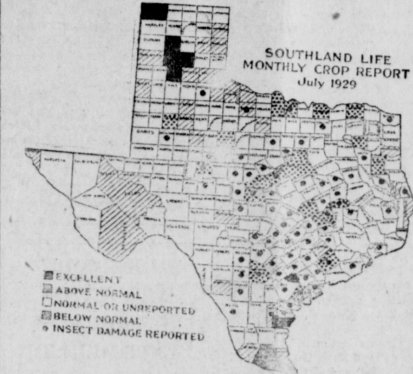

The pall bearers were: Raymond Spraberry, Alva Young, Lute Emerson, William Chambers and O. M. Lindsey, all neighbors. The surviving children, all of whom were present for the funeral, are: Ollie B. Fielder, Abilene; Mrs. Laura Alice Doak, O'Donnell; Walter D. Fielder, Anson; James Collier, Anson; William Earl Fielder, Anson; Alvin Claude Fielder, Burkhammett; and Ernest Lee Fielder, Anson. Ernest Lee was with his father during the last few months of his father's illness. Mr. Fielder recently stated that he would be a member of the Missionary Baptist church for fifty years in September of this year.

MRS. HAL SINGLETON, JR. ENTERTAINS FOR DAUGHTER

Mrs. Hal Singleton Jr., entertaining on Monday of this week in honor of her little daughter's 5th birthday. Each child brought a neat package, which the children enjoyed opening. Games of all kinds were played after which Mrs. Mann, James Gilson, Ed Singleton, Eva June Gary assisted the hostess in serving ice cream, lemonade, cakes to the following guests: Margaret Lucile Johnson, Billie Jane Johnson, Leta Marie Koenigsknecht, Robert Gary, Helen Belle Pemberton, Elvanda James, Bonnie Boy Bowling, Mary Louise Cowan, Jane Marie and Mary Louise Gibson, Shirley Mae Coyn, Billy and Charles Charles Helen Ruth, Billie and Edd Marr, Marilyn Roberts, Mary Louise and William Edward Singleton.

C. H. WESTMORELAND AT TENDS FUNERAL OF BROTHER

C. H. Westmoreland returned on Tuesday from Houston where he attended the funeral of his brother, Paul, aged 13 years, who died in a Houston Sanitarium on Friday, July 26, following an operation. Funeral services were conducted Sunday afternoon and interment was made in Houston Cemetery.

Cotton Crop Assured for Texas

Dallas, Texas, August 4.—With even a fair chance for the completion of this year's cotton crop, Texas is assured of unquestionable prosperity. This is according to July crop report compiled by the Department of Public Relations of the Southland Life Insurance Company. This prediction is backed up not alone by crop reports but by an extremely optimistic tone of business and by the unquestionable optimism of buyers in the Dallas wholesale market for the past two weeks.

In general crops may be shown as follows: Northwest Texas, including the Panhandle, cotton normal to better and row crops normal to excellent; West Texas, cotton better than normal and feed crops normal to excellent; East Central Texas, all crops spotted with considerable insect damage; North Texas, cotton spotted, oats disappointing but corn and other crops promising; Northeast Texas, cotton promising, row crops in good shape; East Texas, improvement in cotton condition, corn somewhat damaged by rain, splendid maturo crop already harvested; Southwestern Texas, general condition normal.

Business conditions in practically every section of the state show much progress. There is a great deal of conservatism in the reports; however, even these reflect a great deal of optimism. Several special conditions are noteworthy. The Rio Grande Valley is abundant crop season, which is expected to run from August to 120,000 bales for the season. An unusual large crop of corn, feed and melons are reported, although the prices for these are somewhat off.

Northern counties in general are in need of rain while exactly the opposite applies to the southern counties. Insect infestation while appearing is likely to be less than last year. In general the prediction of the June crop report that Texas would enjoy much better than a billion dollar crop is practically a certainty now.

BILL'S CAFE WILL OPEN FOR BUSINESS TODAY

Mr. Bill DeBusk recently purchased the building of the French Coffee and leased the building. Work has been busy the past week completely remodeling the place and installing new kitchen equipment.

The place will be known in the future as Bill's Cafe. Mr. DeBusk expects to have the place open to the public today (Friday).

Messrs C. E. Cameron, manager of Texas Electric Service Co., B. Lamesa, and C. S. Bloomshield, district manager of the same company with headquarters at Big Springs were business visitors in the city last week-end. They made the office a very pleasant call. Mr. Bloomshield is an old friend of the editor who enjoyed the visit very much, talking over old times when both were residents of Chillicothe.

Mr. Dowell, Secretary of the Chamber of Commerce and Mr. Holburn, Secretary of the Quitaque Chamber of Commerce, were Stenton visitors Wednesday of this week.

Baptist Revival Grows in Interest

The Baptist revival which has been in progress during the past week has been attracting large crowds and is growing in interest with each service. Brother O'Brien is doing the preaching and is delivering some soul stirring messages. A great spiritual blessing is expected.

Bertie Irene Atteberry Buried at Plainview

Little Bertie Irene Atteberry, aged 8 years, 10 months and 19 days, died at the home of her parents in the Tredway community on last Saturday August 3rd. The remains were laid to rest in the Plainview Cemetery on Sunday afternoon at 3:30 o'clock, funeral services being conducted by Rev. W. L. Henderson of this city. She is survived by her parents, 4 brothers and four sisters. The Index joins the many friends in extending sympathy to the bereaved family.

NOTICE TO PUBLIC

The following policies assigned to S. J. Primmer Insurance Agency, 2012 North Main Street, Big Springs, Texas, for the Camden Fire Insurance Association of Camden, New Jersey have been lost:

- Fire Policies Nos. 44375, 44376, 44377, 44378, 44379, 44380, 44381, 44382, 44383, 44384, 44385, 44386, 44387, 44388, 44389, 44390, 44391, 44392, 44393, and 44399.
- Dwelling Policies Numbers 103101, 103102, 103103, 103104, 103105, 103106, 103107, 103108, 103109, 103110, 103111, 103112, 103113, 103114, 103115, 103116, 103117, 103118, 103119, 103120, 103121, 103122, 103123, 103124, and 103125.
- Tornado Policies Numbers 273875, 273876, 273877, 273878, 273879, 273880, 273881, 273882, 273883, 273884, 273885, 273886, 273887, 273888, 273889, 273890, 273891, 273892, 273893, 273894, 273895, 273896, 273897, 273898, and 273899.
- Certificate Numbers 56651, 56652, 56653, 56654, 56655, 56656, 56657, 56658, 56659, 56660, 56661, 56662, 56663, 56664, 56665, 56666, 56667, 56668, 56669, 56670, 56671, 56672, 56673, 56674, 56675.
- Automobile Policies Nos. 601871, 601872, 601873, 601874, 601875, 601876, 601877, 601878, 601879, 601880, 601881, 601882, 601883, 601884, 601885, 601886, 601887, 601888, 601889, and 601890.

This is to notify the public that none of these policies have been issued as contracts of insurance, and said company has secured no premiums for any of said policies and therefore the same are considered void and of no effect by the company.

Craves, Dargan and Company Insurance Managers, Houston, Texas. Mr. Bell Burleson of Tatum, New Mexico, is visiting his daughter, Mrs. E. T. Wells.

CLUB BOYS OF LYNN COUNTY MAKING RAPID PROGRESS IN THEIR CHOSEN WORK

Sikes Buys Partner's Interest in Business

A deal was completed on Friday of last week whereby Noel Sikes became sole owner of the Modern Dry Cleaners establishment, having purchased the interest of Ralph Beach, his partner.

O'Donnell Defeats Ackerly Last Friday

The O'Donnell nine added another game to their won column on last Friday afternoon when the fast Ackerly aggregation gave battle on the local field. The game was one of the best played on the local field this season and resulted in a score of 9 to 6 in favor of the locals.

SINGLETON BUILDING NOW NEARING COMPLETION

Work has been progressing rapidly during the past few days on the new Singleton Building. Concrete floors, plaster work and ceiling have been completed and finishing touches will probably be given the building by last of the week. As soon as the workmen have completed their work L. D. Tucker, former business man of O'Donnell will open a first class dry goods store in the building. It is expected here the latter part of the week. A shipment of merchandise has already arrived for the new dry goods store.

MISS JOY WILLIAMSON WEDS PRATT HUGHES

Miss Joy Williamson and Mr. Pratt Hughes were united in marriage on last Sunday morning at 10:30 o'clock at the home of Mr. and Mrs. Hal Singleton, Jr., in this city. Rev. W. L. Henderson performed the ceremony.

MRS. W. H. CRUNK ENTERTAINS

Mrs. W. H. Crunk entertained on Tuesday of this week with a bridge luncheon in honor of her sisters, Mrs. McCoy of Big Springs and Mrs. Johnson of Dallas.

ELECTRIC RATES GO DOWN

Despite appreciable increases in all phases of operating cost, electric rates now average 25 per cent below pre-war level. The average commodity prices are now 50 per cent higher; construction costs are 70 per cent higher; skilled labor wages more than double, union wage standards are the highest in history; per capita state and local taxes have increased 200 per cent. Yet the cost of electric service has steadily declined since 1913.

Mrs. S. T. Price and children left Monday for a few weeks visit with relatives in Dallas, Corsicana, Houston and San Antonio.

Mrs. W. H. Thornhill, Adams, McPherson and son G. C. were Lamesa visitors Thursday of last week.

Miss Jim Ellen Wells has returned from a visit with her grandparents at Tahoka.

Miss Beulah Estes who has been working in Big Springs spent last week with her parents, Mr. and Mrs. D. M. Estes.

Mr. and Mrs. W. L. Palmer and daughter, Mrs. C. H. Westmoreland were visitors in Turkey on Monday of this week.

Tahoka—The County Agent has just finished weighing the Club boys pigs and reports that the progress that are being fattened are making an average gain of about one and one third pounds per day. The list is headed by Daney Jersey pig belonging to O. J. Sproule of Dixie. This pig has gained an average of 1.68 lbs. each day that he has been on feed.

A "YOUNG INDUSTRY"

On August 25, the American petroleum industry will celebrate its seventeenth birthday. But three score years and ten—an average lifetime, have passed since William B. Smith withdrew a bit from a hillside in Titusville, Pennsylvania, set up an iron pitcher pump, and started a heavy black fluid from the earth. The work had given the people of the countryside a great deal of innocent merriment; the fact that a great industry had been born was realized by no one.

Now the industry that was started by Drake and Smith employs 1,500,000 people. The once solitary oil well has 300,000 neighbors. The original investment of a few dollars has grown to \$11,000,000,000. The handful of people who had a use for oil then has increased until it includes practically every American citizen. And of equal importance, the price of oil has dropped from the 1892 quotation of \$16.50 per barrel to less than \$2.00.

To visualize a world without oil is to visualize one minus automobiles, airplanes, tractors, gas engines, modern ships, great oil burning factories, power plants and a thousand and one luxuries and necessities. Oil did a hero's share in making an end to the age of candles and wagons.

Few Americans who drive up to any one of the tens of thousands of filling stations that dot our highways and receive high grade oil products at a low price, realize what has been accomplished by private initiative and enterprise in the oil industry in 70 years. The story of oil is an integral part of our romantic history.

The utilities strive to give the best possible service at the least possible cost. Last year the average profit of electric companies was a little over seven per cent, a half or a third the income enjoyed by many lines of industry.

The reason for low electric costs is found in increased efficiency and economy in utility management and the trend toward consolidating small units into great systems. Mass production and distribution not only cut costs but provide a standard of service not thought of a few years ago.

More and more utilities are giving voluntary rate reductions as improved conditions make them possible. Electricity is not only one of the most necessary of present-day agencies, but one of the cheapest. Of the 13 sizable rivers in Texas eight have their watersheds entirely within the State. Runoff water in the Canadian and Red goes into other rivers and then into the Gulf of Mexico; the others empty directly into the Gulf.

WHAT'S DOING IN WEST TEXAS

TURKEY is putting the finishing touches on the new 200,000 gallon water reservoir and pump houses which complete one of the most modern, up-to-the-minute water supplies in West Texas. Large quantities of all purpose water is available at all times for all demands now.

SWEETWATERS new auto building will cost \$22,000 according to the contract which was let recently. It will be started immediately, and will be occupied by the Rutledge Brothers Motor Company. It will occupy the west 90 feet of lots Nos. 1, 2, and 3, of the original town plot.

CHILDRESS'S State Fair in September will feature races among other things, and the track is being reconditioned at this time. All turns on the track will be resurfaced, and the straight-aways will be graded down to a hard pan.

When **ROBY** entertained the 4-H Clubs of Fisher County in the dress contest every community in the county was represented. Three hundred persons attended the event, and a total of 50 dresses were entered in the contest. First place in the state classes were awarded a trip to the short course to be held at A. & M. College in August.

SONORA offers evidence of activity among West Texas sheepmen in the announcement that within one week recently more than 30,000 yearling lambs were sold to Kansas and Colorado buyers for approximately \$230,000.

ABILENE is making plans to improve Kingsolving Field, the municipal airport, so as to make it one of the best equipped air depots in the Southwest. Erection of a steel and concrete hangar covering ground space of 97 feet and a two-story, fire proof terminal building, will be the first work started on the field.

ELECTRA recently held a "law enforcement party" under the direction of Robert P. Hall, secretary of the Chamber of Commerce. Charles I. Frances of Wichita Falls made one of the addresses which was heard by citizens from all over the county.

The **WEST TEXAS** Chamber of Commerce with the U. S. Chamber of Commerce is urging the co-operation of doctors in filing birth certificates, and parents in seeing that birth certificates have been filed for their children in order that the census next year will be correct, and will give the state the proper status.

The **ALL TEXAS TOUR** being sponsored by the Dal-Paso Cavern Highway association under the direction of Wm. A. Wilson, secretary of the Lamesa Chamber of Commerce will start at Marshall, August 1, and disband at El Paso August 5, Carlsbad Caverns being the high point of the tour. Cars will be added to the motorcade at every stopping place and entertainment will be given at stops.

VERNON'S Chamber of Commerce head, Grady Shipp, is acting as right hand man for Pres.-Mgr. Bourland of the WTCC in guiding the work of the regional organization until the annual convention in October. They called a meeting of the advisory board for Monday July 29, in Fort Worth.

TULLIA'S ton litter work in Swisher County is showing up some good results. J. K. Adams weighed his litter of seven pigs at the age of 110

days and found 1040 pounds of live weight. The total cost of this gain is \$28.45 or \$2.73 per hundred lbs. The pigs have had access to alfalfa pasture and were fed a protein supplement.

HARTLEY County sent a large representation to the annual Farmers Short Course held at College Station July 29 to August 3. Many of them were farmers and their wives who took advantage of the special railroad round trip fares.

Helping to Build Texas Know Texas

Texas promises again to lead the United States in new railroad construction in 1929 as in 1928. The Denver, Frisco, Rock Island, Texas & Pacific and Santa Fe are planning extensions or seeking permits for new construction. The Santa Fe has let contracts for a 65-mile extension from San Angelo to Sonora. The Fort Worth & Denver Northern has applied for permit to build 110 miles from Childress to Pampa. The Texas & Pacific is seeking permit to extend the Abilene & Southern to San Angelo.

The first day's operation of the Bowdoin canning plant at Comanche saw 4,188 pounds of berries received from producers at prices that were satisfactory.

For years Grand Saline has been a center of salt operations in Texas, the saline solution being drawn up from deep wells and the salt secured by evaporation. Now the Morton Company has found south of the town what its engineers say is the thickest structure of rock salt ever discovered, and the mine they are now sinking will be one of the great salt mines of the world. Borings indicated a solid salt structure 1,000 feet in thickness at a depth of about 290 feet from the surface of the ground. A shaft will be sunk to the salt stratum and by the time the mine is in full operation about 600 workers will be employed.

Matagorda, one of the oldest towns in Texas, recently celebrated the introduction of electric lights after existing as a town 101 years without that convenience. The Central Power & Light Co., is supplying the town.

Persian dates may be added to the other commercial products of the Rio Grande Valley. Nearly 1,000 shoots of the Mesopotamian date palm have been planted under supervision of Texas A. & M. College and the U. S. Department of Agriculture. The palms are of a "rain-resistant" type coming from Mesopotamia where the rain and climatic conditions approximately parallel those in the Valley.

Central Texas Refining Co., has just opened a \$150,000 refinery at Luling with a daily capacity of 2,000 barrels.

O. H. SHEPPARD, M. D.
General Practice and Electro-Therapeutics. Cures cured without detention from work or business.
Office half block Southeast Index Building, O'Donnell, Texas.

The phenomenal growth of Lubbock is indicated by the fact that from 670 telephone connections in 1920, in 1928 it had 3,043.

The West Texas Utilities Co., is building 31 miles of 66KV lines from Cross Plains thru Burkett to Santa Anna to provide two-way service to Cross Plains, Burkett, Rising Star, Pioneer and the adjacent oil fields.

The new high line of the Panhandle Power & Light Co., has been completed from Stinnett to Gruver, the new agricultural town in Hansford County, a distance of 33 miles.

Eighty-five thousand acres of ranch land near Turkey have been cut into farms preparatory to placing them on the market.

LAMESA GOLF CLUB HANDICAP TOURNAMENT PLAYS IT FIRST GAME TUESDAY

LAMESA—The Lamesa Golf Club Handicap Tournament, consisting of 31 members, 24 of which qualified, played their first game yesterday the winners being as follows:

Low Medalist—Frank Rose, making a 66; Second, Low—Rob Lavender and Roy Murphy, tying with a 75 and Third Low—G. A. Thomas 75.

The winners in the Driving contest were Frank Rose, first place; E. Powell, Second; and C. C. Willis, 3rd place.

Winners in the putting contest were: G. A. Thomas, first; Leroy Service, Second; and Dyrrel Kirk, third place.

The High Score Prize was won by Judge T. S. Christopher. All winners in this Tournament will be awarded prizes which were donated by the Lamesa Business Men, amounting to over \$75.00 worth of merchandise, etc. in all.

Pairings are now starting, the first match played was won by Joe Barron over Sid Wells, 7 up and 6 to go.

With 589 different species, Texas has a greater variety of bird life than any State in the Union.

The average yearly loss in transit of livestock from "shipping fever" and similar ailments is estimated at fully a million dollars, and in some years runs as high as three or four million, according to the U. S. Department of Agriculture, which has recently published Leaflet 38-L, "Maintaining the Health of Livestock in Transit." This leaflet can be secured free from the Department of Agriculture, Washington, D. C.

Small or medium cabbage is the most desirable market size. Heads of pointed cabbage weighing from 2 to 4 pounds and heads of Danish and domestic cabbage weighing from 3 to 6 pounds are preferred. Cabbage for immediate shipment should be trimmed to 2 to 4 close fitting leaves. The green outer leaves protect the head and may be removed at the destination, if necessary, to give the cabbage a fresh appearance. Leaves showing appreciable damage from insects, disease, or other cause should be removed.

TEXANS!
let's talk Texas
—and make 1929
the most active
year Texas has
ever experienced

THIS IS an appeal to every Texan to study closely and understand thoroughly the possibilities of his state, and to pass on this understanding to every person with whom he comes in contact, so that everyone who seeks a location for a home, an office or a factory will know exactly what Texas has to offer him. Then Texas will ascend to her just place of leadership. But we must talk Texas—all the time.

Manufacturing must move to the doorways of large markets, where raw material, favorable transportation facilities, taxes and labor supply combine with abundant and economical electric power to afford ideal locations.

Texas cities and towns served by this Company supply each of these needs for a host of industries, but, since physical advantages do not always determine the selection of industrial locations, certain other vital things must be thrown into the balance.

Sound exploitation must be persistently used. The manner in which Texas tells its story will determine its industrial accomplishments in 1929.

The Texas Electric Service Company, employing several hundreds of Texas men and women, endeavors to give each of

TEXANS LETS TALK TEXAS

For many years the Texas Electric Service Company has worked not only to serve an appreciative public but to help build a greater State.

Texas' Let's make 1929 the greatest year of sound development Texas has ever had.

as the term of office of the President-Manager expires Mr. Shipp will continue to devote his time exclusively to his position at Vernon.

It is further stated that neither Mr. Bourland, nor any member of the Advisory Committee attending the Fourth Meeting has any inclination to suggest who may be selected at the El Paso convention for the position of General Manager.

Our sole purpose is in undertaking the obligations imposed upon the Committee by the Directors at Abilene, June 20, 1929, to continue the work of the organization and have its affairs in the most splendid condition possible at the time of the El Paso convention, and to this purpose the Advisory Committee have pledged themselves and call upon the friends of the West Texas Chamber of Commerce to render every assistance to bring about this purpose in order that at the El Paso convention the organization will present a record of achievement equal to any year's work in the past and enjoy the most wonderful convention of all time.

4. It is to be our policy to work with and through the local chambers of commerce throughout West Texas and we earnestly solicit the active and whole hearted support of the secretaries and other officials of the local chambers of commerce.

JAYTON will soon see a modern brick building replace the old iron building adjoining the Palace theatre. The latter building is being torn down and the general merchandise store owned by E. Coury which will take its place will be run with the idea of giving sanitary goods,

with high quality and the best price to the public.

ROCHESTER is seeing some good road work done by the state highway department. Low places on the main thoroughfare which stood in water after every rain have been filled in. It is planned to fix other streets in the near future.

PORTALES, N. M., will be the home of the Eastern New Mexico division of the West Texas Chamber of Commerce according to present plans. The Portales chamber of commerce plans to furnish office space, and extend the services of its secretary, Sam Seay, to the regional organization.

HAPPY's new Methodist church is being constructed in a hurry. The excavation has been completed and the rough part of the plumbing done. Work has been started on the first floor. A nursery, kitchen banquet hall, lavatory rooms, pastor's study and assembly room for the choir have been included in the plans of the house of worship.

COLEMAN's latest improvement is the light signal that has been installed as a warning to traffic when the fire alarm is turned in and the engines need clear streets. When the

automatic switch goes into operation at the station, the yellow lights come on, and the bell stops traffic for two minutes.

WINTER's survey of Saturday traffic revealed 377 cars parked on the streets and 233 of them Fords. Chevrolet was second with a total of 58, and Dodge and Whippet with 18 each. Chrysler was represented 7 times, Pontiac 6, Oakland 6, Nash 5, Buicks 4, Hudsons 2, Oldsmobiles 2, Stars 2, and DeSoda, Franklin, Dort, Willys-Knight and Cadillac 1 each.

The wise livestock feeder soon learns that the proper use of all farm by-products, waste, and surplus crops for feed often constitutes the main difference between profit and loss in feeding.

A horse at hard work in the summer needs from 1 1-4 to 1 1-3 pounds of grain and 1 1-4 pounds of hay to each 100 pounds of his weight. The work horse should be fed at regular intervals during the summer.

RECORDS IN ROADS

During the last ten years, the United States has gone in for road construction on a scale never before known to the world. It is estimated we have spent in that time ten billion dollars, for road building and maintenance and have more than half of the world's 6,500,000 miles of highways.

Money spent for roads pays dividends in promoting agriculture and industry, facilitating business and drawing strangers from other places on social or business pursuits. A county or state without good roads is condemned to retrogression.

In spite of our record building activities, the demand for roads is more persistent than ever. Our secondary road system muts now be rapidly improved to properly open up territory contributory to main highways.

PRIDE IN OWNERSHIP

Not many years ago there was keen competition between a number of motor car companies to see who could build the best automobile—one that would stand up for years under hard usage.

Of late years the fad has been to change models semi-annually and build cheaper and cheaper on a mass production basis.

Most automobiles today are good for a reasonable amount of use but few of them are built with the idea of pride in workmanship which causes

an owner to prize his car as he used to prize some of the old familiar makes.

It is only fair to say, however, that the majority of cars are probably built safer today, with their all-steel bodies and four-wheel brakes, than they were in the days of wooden body construction and smaller braking surface. Traffic conditions have made this necessary as a matter of self-preservation.

DIVERSIFIED FARMING

Along with electrification, diversification is hailed as an important factor in alleviating the farm slump. Sugar beets, when accessible to beet sugar factories, are an ideal crop for diversified farming as they build up the soil, furnish stock food and provide the farmer with a sure cash crop.

STABLE BUSINESS MEANS PROSPERITY

In an address concerning the mythical "power trust," Dean W. Malott of Harvard, defended the modern trend toward consolidations and said, "The big corporation stands for stability and permanence, rather than for rapid and immediate profits. These corporations are no longer controlled by a few men, nor by bankers. The ownership shares are scattered throughout the land.

"It is easy for one man, in a little shop around the corner, to engage in sharp practices. It is far different in a corporation where the individual executive is surrounded by associates whose respect and trust are necessary to his existence."

Radical attacks on the great electric utilities are a form of modern bush-whacking. We live in an age so prosperous, progressive and swift moving that the peasant stand methods of the past are entirely out of key with our civilization.

Modern public utilities are great because they represent the money citizens. They are adequately regulated and the needs of the millions of our later by governmental bodies whose job it is to see that both the company and the public receive fair treatment. And they have provided this nation with the world's highest standards of electric service at an amazingly low cost.

Until the millenium is reached, we will go on progressing as we have in the past, secure in the knowledge that

private business on a large scale is a that general and personal prosperity social and economic necessary and is dependent on corporate prosperity.

WHO AIDS THE CRIMINAL?

"All honest as well as dishonest men know that the machinery of law enforcement is defective and out of date," says the Saturday Evening Post in an editorial on crime. Here is a problem not in politics or academic theory or dialectics, but in practical organization, which is supposed to be just the field in which the typical American citizen is best.

"It is the job and the conditions which surround the job that need attention. If as a people we are incapable of improving the judicial and jury systems of doing away with frivolous appeals, lessening the grant of continuances, expediting trials, simplifying indictments, and making the other necessary improvements in the actual technic of the job, then we have lost the art of self government.

"The people may have become more lawless or they may not; that is a moot point. In any case, respect for law will not be established by rhetoric. Why not concentrate first on what everybody knows is inadequate and outworn, and institutional machinery for doing the job?"

Expressed in a nutshell, what we need is less laws and better enforcement, more rationalism and less emotion in the handling of crime. More laws restricting the lawabiding on the theory that the criminal will thereby be curbed, merely encourage crime and increase law-breaking.

THE TAXING POWER

Government cannot go bankrupt as long as it has the taxing power and while the people have anything left to tax. Government units, particularly state and municipal, are levying constantly greater tax burdens on the people.

Bureaucracy tends to launch governments into experiments and pass the costs on to the taxpayers who cannot escape the bill.

Government must be maintained but it must be protected from bureaucratic control which extends its activities outside the sphere of governing, encourages inefficiency and adds numberless employes to the public payroll. The taxpayers, to foot all political bills, must be ever watchful and take decisive action when necessary.

YOU CAN Depend On Advertised Products

Advertising is the most powerful searchlight known to business. It forces attention of a community or a continent on a particular product. It gives the produce the advantage of a wide-spread test by the buying public. But it cannot persuade that public to buy any particular article it has tested and found wanting. Manufacturers and merchants know this.

They know also that advertising an unworthy product does only one thing: It brings magnified attention to its deficiencies. Therefore, before they undertake extensive or consistent advertising, they make sure that their product is right. Consistent advertising is your best assurance of value and worth. It is fair evidence that the advertiser is offering a good product which has been thoroughly tested and approved.

THE ADVERTISEMENTS IN THIS NEWSPAPER HAVE BEEN PASSED BY THE HIGHEST AUTHORITY—THE BUYING PUBLIC.

THE CHOICE OF THOSE WHO WANT THE BEST IS THE

KELVINATOR

ELECTRIC REFRIGERATORS

Everywhere, people of discriminating taste are selecting the ideal method of refrigeration. The new KELVINATOR is the latest word in modern electric refrigeration. The difference between Kelvinator and all other refrigeration is that Kelvinator embodies every worth-while new feature of performance, plus a proven reliability found nowhere else.

We have a number of customers in O'Donnell who are highly pleased with the new KELVINATOR. Ask any of them what they think of the KELVINATOR. Their opinion will be more convincing than anything we could say for the machine itself.

Enjoy one of these modern machines, NOW. Buy it now on convenient budget payment plan. Let us tell you about it.

WORTH HEEDING

States is drifting slowly toward socialism, in the Matthew Woll, Vice-president of American Federation of

of Marx we could say Mr. Woll, "because it is coming. It could not be so unaware. The new socialism—and I think for it is as accurate as we upon us unawares, upon us, can develop a new us out of the very we have cherished, and in the coming, to be a product instead of a blanketing at a crossroads where we whether, in our vast new duty, we are to submit to an evolving suzerainty, or whether we are to preserving the democratic, the freedom of the institutions marked the United among nations as a which the individual did

amount to something and could move to please the inner urgings of a sovereign citizen."

NEW BILL WILL GO INTO EFFECT IMMEDIATELY

Sheriff Sam Sanford requests that we publish the following House Bill. He states that this law will be strictly enforced. The bill follows:

House Bill No. 157

An act requiring drivers of trucks, automobiles and other vehicles to have and exhibit to peace officers upon demand written permit covering movements of live stock and domestic fowls contained therein or to make written statement in the absence of said permit, and providing penalties for failing to exhibit the same or to make said statement or for making false statement or having false or forged permit, and declaring an emergency.

SECTION 1. Any person who is the driver of any truck, automobile or other vehicle containing any live stock or domestic fowl which is upon or being driven upon any land of which said driver is not owner, lessee, renter, or tenant, or which is upon or being driven upon any highway, public street or thoroughfare, who fails to have in his possession and exhibit to any person or peace officer upon demand a written permit authorizing said movement, signed by the owner or caretaker of said live stock or domestic fowl or from the owner or any person in control of the land from which said driver began said movement shall be fined not less than \$25.00 nor more than \$200.00 for each head of live stock and each domestic fowl in said movement, unless said driver upon demand of any person or peace officer makes signs and delivers to said person or peace officer a written statement containing the information therein required to be included in permits. Said driver shall be fined not less than \$25.00 nor more than \$200.00 for each head of live stock and each domestic fowl in said movement which is not covered by all the following information:

Name of place of origin, including name of ranch or other place; point of destination including name of ranch, market center, packing house or other place; number of live stock or fowls with description thereof, including kind, breed, color and also marks and brands if there would be any. Failure or refusal of such driver to exhibit to a person or peace officer said permit or to make said statement, shall constitute probable cause for any peace officer to search said truck or vehicle to ascertain if it contains any stolen live stock or stolen domestic fowls and to detain said movement a reasonable length of time to ascertain whether any live stock or stolen fowls are contained therein.

Any driver who has in his possession any false or forged permit or who makes false written statement shall be fined not less than \$200.00 nor more than \$500.00 or he shall be imprisoned in the county jail not less than (60) days nor more than (6) months, or he shall be punished by both such fine and imprisonment. It is further provided that all provisions of this act shall apply to slaughter

ter live stock and domestic fowls and butchered portions thereof.

SECTION 2. The fact that there are numerous thefts of live stock and domestic fowls and that said stolen live stock and fowls are being hauled in trucks, automobiles and other vehicles from ranches, pastures and premises along public roads, thoroughfares and highways and that there is no adequate law regulating movements of live stock by trucks, automobiles and other vehicles whereby such thefts may be prevented and detected creates an emergency, and so imperative public necessity exists that the constitutional rule requiring bill to be read on three several days be suspended, and the same is hereby suspended, and this act shall take effect and be in force as set out in its provisions from and after its passage and it is so enacted.

TO ALL SHERIFFS AND NEWS-PAPERS IN TEXAS:

Please have each newspaper in your county publish the above bill and at the same time call the attention of all truck drivers to same. Yours Very truly, Sheep and Goat Raisers Association of Texas.

KNOW TEXAS

The largest number of Indians ever engaged in battle with Americans was at the first "Dobe Walls" fight in 1844, according to Judge R. C. Crane Sweetwater historian.

Texas has 34 cities with population of more than 10,000 and with an estimated population of 5,487,000.

The Texas Railroad Commission was created in 1891.

To bound Texas requires four other states, 860 miles of international border and 370 miles of Gulf coast.

through weeds seeds all screenings used as feed should be thoroughly ground except when fed to sheep.

The neat packer makes profitable use of every by-product of the packing business, and the grain, and feeding it to livestock. The average screening are comparable, roughly, to oats in composition. Heavy screenings from which the shaffy material has been removed are nearly equal to corn, wheat, or barley in percentages of the various nutrients. To avoid contamination of the soil Mrs. E. R. Johnson of Dallas, and Mrs. J. W. McCoy and little son Jimmy of Big Springs, are the guests of their sister, Mrs. W. H. Crunk this week.

Miss Florence Henderson has been visiting her sister Mrs. Hal Singleton, Jr., left Sunday for Abilene, where she will continue her school work.

Mr. and Mrs. R. W. Gary and family have returned from a two weeks visit in Henderson where they have been visiting Mr. Gary's mother, Mrs. R. H. Gary.

PORTALES, N. M., will be the home of the Eastern New Mexico division of the West Texas Chamber

of Commerce according to present plans. The Portales chamber of commerce plans to furnish office space, and extend the services of its secretary, Sam Seay, to the regional organization.

COTTON BOLLWORM CONTROL OUTLINED IN NEW BULLETIN

The cotton bollworm is known otherwise, and known unfavorably, as the corn-ear worm, the tomato fruit worm, and the false budworm of tobacco. The insect gets these names because it is a general feeder and men identify it by the crop it injures most seriously in the locality in which they observe its work. It should not be confused with the insect known as the pink bollworm, which differs in habits and appearance.

Under the name of corn-ear worm it is known over most of the United States, and causes enormous loss. In northeastern Texas, southern Oklahoma and Arkansas, northern Louisiana, and parts of Mississippi and Alabama the same worm is known as the cotton bollworm and causes an average annual loss of about \$8,500,000 in cotton.

In Farmers' Bulletin 1595-F, The Bollworm or Corn-Ear Worm as a Cotton Pest, F. C. Bishop of the Bureau of Entomology, United States Department of Agriculture, summarizes the best known methods of control—fall and winter plowing, clean culture, selection of seed of early-maturing cotton, poisoning, and the use of trap crops. He also mentions several methods of control which have proved ineffective—trapping, burning of lights in the field to attract and trap the moths, and the distribution of poisoned sweets in pans in the field.

These worms are cannibalistic and eat one another. They also prefer corn to cotton at certain stages. To use corn for a trap crop the grower should plant it late enough so that the trap crop will be in silk and tassels about the time the main crop of field corn becomes hard—about the first of August in the area where the worms injure cotton. "If it matures too early," says Mr. Bishop, "it will act only as a breeding place for the bollworms, which will mature as the ears harden and a short time later transform to moths which in turn will deposit eggs over adjacent cotton fields. On the other hand, if the plants are in an attractive state, the moths, which fly quite freely, will assemble in the corn from considerable distances and deposit most of their eggs on the corn plants. These eggs will hatch and the young larvae, being so numerous, will destroy one another to such an extent that usually not more than a few out of the many hatching on the silk

of each ear will reach maturity." The wintering habits of the bollworm afford what is probably the most effective method of reducing injury by the pest. The insects spend the winter in the pupal stage in the ground at a depth of from 4 to 6 inches. Thorough ploughing to a depth of not less than 6 inches late in the fall or in the winter destroys the cells in which the pupae winter, and cold and moisture kill practically all of them. Fall and winter plowing in this section is desirable in itself and pays well in conserving moisture and putting the ground in better shape for planting.

Other farming practices, desirable and profitable in themselves, also hamper the activities of the bollworm by speeding the growth of the plant to a point where it is difficult for the bollworm to attack it at the time the worm normally leaves the neighboring cornfields. "To protect cotton from bollworm injury," says Mr. Bishop, "it is important that seed of early-maturing cotton be selected; that the crop be planted as early as is consistent with getting a good stand; and that poor land be fertilized and cultivated be thorough and frequent."

Poisoning is effective only for a short period in the life of the bollworms. If the worm is present and identified in numbers on alfalfa, vetch, or cowpeas before cotton is well matured it is possible to use poisoned bran bait scattered thinly in the fields at the rate of 10 pounds to the acre. Wheat bran, 50 pounds; Paris green or white arsenic, 1 pound (or powdered calcium arsenate, 2 pounds); low-grade molasses, 2 gallons; and water, 3 to 4 gallons; make an effective bait. When the boll weevil and bollworm are both present in a cotton field it is possible to poison both with calcium arsenate at the same time, and so effect considerable control of both pests. Mr. Bishop gives suggestions for proper timing of the dust treatments.

INTEREST MANIFESTED IN MERCHANTS STYLE SHOW

LAMESA—Much interest was manifested in the Merchants Pageant Style Show and Concert conducted by Prof. J. T. Graves, Thursday and Friday of this week at the High School Auditorium.

Some 125 or more firms were represented in this Pageant which was a howling success.

Young ladies dressed in Unique

and appropriate costumes represented the Dry Goods Stores of Lamesa. Grocery Stores, Hardware Stores and Various other Firms of Lamesa were represented in Comical ways, putting before the eyes of the people of Lamesa and adjoining Communities, who were present, the progress Lamesa and Dawson County has attained in the Short Period of its History.

FREE PERFORMANCES WILL BE GIVEN WEST TEXAS FAIR

ABILENE, Texas, August 1.—Each evening during the six days of the West Texas Fair to be held in this city, September 23 to 28, Ernie Young's Winter Garden Follies, a metropolitan musical comedy production will give a free performance in front of the fair grandstand.

All people who enter the fair gates will be admitted without further charge to the grandstand show. This is somewhat of an innovation for a fair program, but the executives of the West Texas Fair have decided to break away from the old customs and give the people of this area something really big and interesting for

this season. The Winter Garden Follies program will be given on a stage 125 feet long. Elaborate settings, electrified effects and costumes are employed and there are 36 people in the company, including 16 chorus girls, all graduates of an exclusive dancing academy in an American metropolis.

A stage band of 35 musicians will be used to play the musical scores that go with the program which will consume approximately an hour and a half each evening.

At present the Winter Garden Follies company is playing in the Northwest. It started on tour July 1 with all new costumes and equipment and will come to Abilene well prepared for the week engagement here.

Practically all other features of the fair program have been completed, officials of the association say. Auto races, football games, polo matches and other attractions are included.

If the dairyman is to get a fair return to his labor, his dairy herd must average 300 pounds or over of but-

terfat a year. Figures show that cows producing 100 pounds of but-terfat a year return only \$14 over cost of feed, while cows that 300 pounds of butterfat return almost 7 times as much.

W. C. ROUNTREE, M. D.

If you have any of the following symptoms, trouble has been diagnosed: Nervous stomach trouble, loss of weight, loss of sleep, mouth, pains in the back and shoulders, peculiar swimming in the head, frothy sputum in throat, passing mucus from bowels, especially after taking purgatives, itching feet, brown, rough or yellow skin, or itching skin, rash on the hands, face and neck, indigestion, habitual constipation (sometimes alternating with diarrhea) or metallic taste, skin sensitive to sunlight, fullness, despondency and thoughtlessness, you might lose your mind, gums a terrible falling away from the teeth, general weakness.

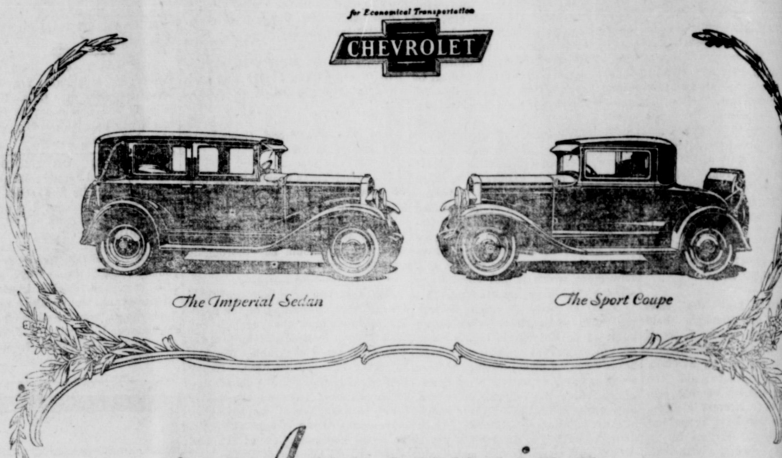

If you have these symptoms and have taken all kinds of medicine and still sick, I especially want you to write for my booklet.

Mrs. J. B. Massey of Odessa, Texas, Box 112, whose picture appears here writes: I wish to thank you very much for restoring my health from one of the most dreadful, miserable diseases that anyone can have. I was in bad health for several years, under care of Doctors for three years. I do not think I could have lived much longer. I am in better health today than for several years weigh more than I ever did in my life. I believe I am rid of an awful disease that the other Doctors failed to cure.

Sport Coupe is also offered to a demand for a two passengers, and in comfortable rumble seat and a rear window that is and lowered by means of a Termosted regulator.

of these two new simultaneously with the new sixes have already into the hands of own Chevrolet factories are the biggest summer level in the history of.

of the new models has for several weeks. Thousands of the new cars shipped to dealers. Officially that the entire nation organization will be with the new cars in two. In many of the large new cars are already

of the introduction of new models, the Chevrolet car fine embraces seven and two open models.

WILL GO INTO EFFECT IMMEDIATELY

Sanford requests that the following House Bill, but this law will be strictly. The bill follows: House Bill No. 127 requiring drivers of trucks,

automobiles and other vehicles to have and exhibit to peace officers upon demand written permit covering movements of live stock and domestic fowls contained therein or to make written statement in the absence of said permit, and providing penalties for failing to exhibit the same or to make said statement or for making false statement or having false or forged permit, and declaring an emergency.

SECTION 1. Any person who is the driver of any truck, automobile or other vehicle containing any livestock or domestic fowl which is upon or being driven upon any land of which said driver is not owner, lessee, renter, or tenant, or which is upon or being driven upon any highway, public street or thoroughfare, and who fails to have in his possession and exhibit to any person or peace officer upon demand a written permit authorizing said movement, signed by the owner or caretaker of said livestock or domestic fowl or from the owner or any person in control of the land from which said driver began said movement shall be fined not less than \$25.00 nor more than \$200.00 for each head of livestock and each domestic fowl in said movement, unless said driver or peace officer makes signs and delivers to said person or peace officer a written statement containing the information therein required to be included in permits. Said driver shall be fined not less than \$25.00 nor more than \$200.00 for each head of livestock and each domestic fowl in said movement which is not covered by all the following information.

Name of place of origin, including name of ranch or other place; point of destination including name of ranch, market center, packing house or other place; number of livestock or fowls with description thereof, including kind, breed, color and also marks and brands if there would be any. Failure or refusal of such driver to exhibit to a person or peace officer said permit or to make said statement, shall constitute probable cause for any peace officer to search said truck or vehicle to ascertain if it contains any stolen livestock or stolen domestic fowls and to detain said movement a reasonable length of time to ascertain whether any livestock or stolen fowls are contained therein.

Any driver who has in his possession any false or forged permit or who makes false written statement shall be fined not less than \$200.00 nor more than \$500.00 or he shall be imprisoned in the county jail not less than (60) days nor more than (6) months, or he shall be punished by both such fine and imprisonment. It is further provided that all provisions of this act shall apply to slaughter livestock and domestic fowls and butchered portions thereof.

SECTION 2. The fact that there are numerous thefts of livestock and domestic fowls and that the said stolen livestock and fowls are being hauled in trucks, automobiles and other vehicles from ranches, pastures and premises along public roads, thoroughfares and highways and that there is no adequate law regulating

movements of livestock by trucks, automobiles and other vehicles where by such thefts may be prevented and detected creates an emergency, and so imperative public necessity exists that the constitutional rule requiring bill to be read on three several days be suspended, and the same is hereby suspended, and this act shall take effect and be in force as set out in its provisions from and after its passage and it is so enacted.

TO ALL SHERIFFS AND NEWS-PAPERS IN TEXAS:

Please have each newspaper in your county publish the above bill and at the same time call the attention of all truck drivers to same.

Yours Very truly,
Sheep and Goat Raisers Association of Texas.

TWENTY STUDENTS ENROLLED IN SUMMER COTTON SCHOOL

LUBBOCK, Texas, July 30.—The annual summer cotton school of Texas Technological College which is now in progress under the supervision of Prof. E. W. Camp, head of the department of textile engineering, has twenty students enrolled.

Among those enrolled are merchants, teachers, farmers, and prospective cotton buyers from all over West Texas. All people who are interested in any phase of the cotton industry are invited by the college to attend the summer course which trains the student thoroughly in the classing and grading, all phases of buying, and the keeping of cotton books.

Eggs are scarce on most farms during the fall and winter because the chickens do not get enough protein for rapid growth during the summer. An egg, aside from the shell, contains 13.4 per cent protein, while poultry flesh contains 21.5 per cent protein. A mixture of corn, wheat, and other grains contains only about 10 per cent protein and should be supplemented with a mash containing high-protein feeds. Proteins from animal sources are generally better than those of vegetable origin. Meat scrap, fish meal, milk, and tankage are good sources of animal protein. Such feeds not only increase egg production but lower the cost of production.

Rats appear to have a strong aversion for certain odors, such as creosote, carbolic acid, and other coal and wood-tar derivatives, kerosene, and peppermint and wintergreen oils, and this fact may be taken advantage of in protecting stored grain from the rodents, or in preventing reoccupation of old rat burrows. Flake naphthalene scattered on the floor and over the bags of sacked grain will keep away the rats and won't injure the seed. Non-odoriferous compounds that rats avoid can be used where an odoriferous material would be objectionable, as where foodstuff are kept. Among these are powdered sulphur, lime, lye, and copperas. Sulphur particularly has been found to be excellent in protecting stored grains from the ravages of rats.

NOTICE SCHOOL TRUSTEES

The annual meeting of the Lynn County School Trustees will be held in the District Court Room at Tahoka, Texas, on August 13th at 10 o'clock A. M. Every school trustee in the county should attend this meeting. Matters of general interest to all the schools will be discussed.

"Famous for Values"

FIRE INSURANCE COSTS DROP

Improved construction of the average building erected during the past few years has resulted in property owners and tenants enjoying savings of millions of dollars in fire insurance premiums to C. W. Pierce, Vice-President of the Fidelity-Phenix Fire Insurance Company.

"Thousands of more or less antiquated buildings of different types in all sections of the nation have in recent years been supplanted by new, slow burning and fire resisting structures," said Mr. Pierce. "The results have been clearly reflected in the average fire insurance rate, construction being the first consideration in figuring the base charge for fire insurance protection."

"In 1914, the average fire insurance premium charged by the leading stock fire underwriters of the country was \$1.00 a hundred dollars of coverage, while by 1928 it had declined to 83.4 cents. On the amount of gross insurance written by 234 leading companies last year the difference in the premium rate meant a decrease of about \$285,000,000 in income as compared with what these underwriters would have reported under the 1914 rate. It represents, therefore, approximately that much saving to the public last year."

STOP IT NOW

Discussing the automobile accident problem, the Jacksonville, Florida, Times-Union recently said, in advocating liability legislation on the order of the New York plan. "It is very evident that many persons are permitted to operate motor vehicles on streets and highways when there is no justification whatever for such permission to be granted or to be enjoyed. Irresponsible persons are the most numerous causes of accidents, fatal and otherwise."

"The very responsibility, as in the matter of paying for damages that result from their recklessness, ought to be sufficient to bar certain motor car drivers from using the public streets and highways. They are irresponsible, financially, frequently not owning the car or vehicle they operate in public. They laugh when damages, to be paid by them, are mentioned. "They should be made to understand that they must pay for such accidents as they cause. If they cannot be made to understand this by education, then the teaching should be by way of drastic law, en-

acted and effectively applied. "This entire matter of accidents due to the use of motor-driven vehicles needs more serious attention than as yet has been given to it. Otherwise the slaughter of innocent people will go on and increase in numbers. The general demand should be: Stop it now."

SMOKELESS CITIES

Campaigns have been started in many progressive American communities to make "smokeless cities." The pall of smoke that hangs over great industrial centers is largely unnecessary and a detriment to health, property and plant life. Much city "fog" is simply a condition caused by thousands of chimneys belching up smoke.

Automatic gas heat is rapidly taking the place of old-fashioned domestic and industrial furnaces. The American people have always been ready to adopt better methods, and it seems as if the smoke-ridden city will eventually pass into history.

A WORLD CIVILIZER

The world moves fast. The telephone has brought the citizens of France or England almost as close to us as the man around the corner. We can speak to a continent, across thousands of miles of ocean, in but little more than it takes to reach the next state. The old saying about making the whole world kin has come true.

The results of such communication facilities are seen daily, in better business, better understanding between peoples, better foreign relations. A thin strand of wire is the bond that holds the modern world together.

EVERYBODY'S BUSINESS

Railroad business is everybody's business. If the lines progress, the general standards and prosperity of the country will be accelerated. If they retrogress, every American citizen and industry will feel the adverse change.

The old idea of railroads was corporations controlled by a few men of great wealth, who alone were interested in railroad legislation, taxes and new developments. Times have changed. There are now nearly two million railroad stockholders and bondholders. The country has close to 25 billions invested in railroad property.

For several years railroad earnings

have been insufficient to pay adequate returns on securities and provide for the future. This year, it begins to appear, conditions will improve to a certain extent. But the old dangers of poorly-considered and burdensome legislation and ruinous taxes, are ever present.

Every American industry, large or small, is entitled to fair treatment and an adequate profit, in return for good service to the public. This is the basis of prosperity.

High standards of railroad service have played an invaluable part in our past history. It is the business of every citizen to see that they continue to go forward.

THE TIPSTER-SHEET "RACKET"

An article in the "Debunker" describes the operation of the dishonest stock-tipping "rackets" which defrauds innocent investors of millions annually.

The pulmonary approach of the stock selling chyster is to offer an "advisory" service at a very "low price" as an "introduction." Well-worded articles, giving analysis and advice, prove to be sound. The investor makes money.

Then an obscure issue is brought out. The investor is called, no matter how distant, on the telephone, by the "editor" who is, in reality, one of a number of salesmen. "Hot" information is given the victim and again he profits.

Now the tipster is ready for his kill. The investor is told of the opportunity of a lifetime. The "editor" has obtained a block of promising stock at a low price and will divide it among his friends. Again the "sucker" buys. He goes in deeper as optimistic reports are sent out. By the time he is thoroughly fleeced the stock is found to be worthless. Usually the tipster has disappeared.

Arrests are continually being made but by the time the authorities take a hand, the money has gone. To avoid such pitfalls the inexperienced investor should get advice from high class brokers or investment bankers.

O. R. Davis and family are spending the week near Menard where Mr. Davis expects to land some of the Dinky tribe.
