Near 10,000 Bales Ginned

As of Tuesday noon the five O' Donnell gins had processed 9573 bales and the crop is estimated at from 80 to 85 percent completed. Beautiful weather has speeded the harvesting. Original estimates for this year's ginning was 15,000 bales but a revised estimate now is down ti 12,500 bales. Some cotton is not producing as large a yield as expected. The freeze caught the plants very sappy. Area gin nings are estimated at another 10, 000 bales or 20,000 to date for the trade area.

Grain is moving rapidly and after next week the rush will be over. Late grain had little chance to make due to the early freeze. Low cotton and grain prices due to nat-ional over-production are further depressing local factors.

The week end generally saw a good business however a number of harvest hands have left.

Fatal Truck Mishap Near Here Saturday

Leonardo Zapata, 52, a Mexican National breero, was killed instant-ly at about 1:15 Saturday afternoon 10 miles east of here when a truck loaded with cotton and 24 other workers overturned. His body was taken to Stanley Funeral Home in Tahoka. All in the truck were injured but 21 were released by Dr. Joe Lehman after treatment. Three remained in a more serious condition. The men were riding in a ton and a half truck owned by Billman Jackson of near Draw and were harvesting on his farm. It was not known which of the 25 was driving. The truck was traveling east in Farm Road 2053 and attempted to make a left turn on Road 1054 and the truck over turned. The truck had seed cotton in it and was enroute to Draw gin. BIRTH RECORD IMPORTANT

Can parents of an adopted child get a birth certificate for that child on which they are shown as the natural parents? Yes, says State Registrar W D.

Carroll. Furthermore, the new birth record will bear no evidence of the adoption.

If the mother and father of an illegitimate child marry after birth, can a new birth record be issued showing the child to be legitimate? Again yes. These and other facts of life and death will get thorough going-over December 1-2 when city and county registration officials and vital statisticians gather in seminar at the Texas State Depart-ment of Health

One of the most important items to be covered at the meeting will be the necessity for requiring complete documentation before amending a birth record. Without such documentation, Carroll says, birth records lose some of their value as evidence.

Birth certificates are routinely called for to prove a person's age parentage, and citizenship.

So confidential is the nature of vital registrations that all em-ployees of Carroll's office are sworn to secrecy about the details of their daily work. Even discarded correspondence is specially burned, rather than being hauled with regular trash collections
