Flower girls were Carol Lambert, Kay Hancock, John Mahurin, Patsy Mahurin, Laquita Smith, Mary Ruth Hobdy, Dorothy Locke, Martha Simmons, Fay Bradshaw, Nadeen Blair, Mildred Furlow, Nila Ray Furlow and Geraldine Randal.

Mr. Atkins was universally liked by everyone of our community; our sympathy to the loved ones.

FREE SHOW MONDAY AT HIGH SCHOOL

Three most interesting pictures will be shown in the school auditorium Monday night beginning at 8 p. m. The leading sound picture will be "Outlaw of the Cameron", the chasing and capturing of mountain lions on the Rio Grande. The capture and shipping of deer in South Texas and a ten minute reel show a road runner killing a rattlesnake will be included. The pictures are free and supplied by the Game Dept. of Texas. The lion film at Austin's Zilker's park drew 3,000 people. The program is most educational and O'Donnell is to be congratulated on securing them.

Dedicated To Idle Talk

There's so much had in the best of us, and so much good in the worst of us, that it hardly behooves any of us to talk about the rest of us.

Miss Florence Carpenter left Thursday for Nolan for a visit with the Owen Egger family and carry Landa home.

The Index appreciates the thoughtfulness of J. J. Hodnett in bringing us a big sack of home grown peaches from his orchard

Letters To Editor

Dear Friend,
 Guess you will be surprised to know I am in Dallas again after having been in Iowa for the past 5 months. After my short visit to O'Donnell I went on out there and liked it there so much, I stayed there for a while but as I am back here for a while I decided I had better have the Index and keep an eye on the things that happen out there. Hope the dry weather is broken and you folks are having cooler weather. My best regards to you and all the folks of O'Donnell.

UNITED EVANGELISTIC MEETING OF TEXAS METHODISTS SET

Texas Methodism is going "all out" for Christ in October. The Southern half of Texas will hold revivals simultaneously Oct. 5th thru 14th with all Methodist ministers of Northern Texas assisting them. From Oct. 26th thru Nov. 4th North Texas Ministers will have a revival simultaneously with the South Texas Ministers assisting. Thus every Methodist church in Texas will have had a revival in progress at some time during October. Extensive preparation is being made to reach every person possible for Christ and the church. More detailed announcements will be made as the date of our meeting approaches.

The vacation season now being past, there is a noticeable increase in church attendance. Interest is picking up in all departments and the fall months promise a healthy growth in Church work.

Persons looking for a church home are urged to attend the services. We hope you will like so well that you may become a regular attendee. Each division of the Sunday School is well manned with teachers and the necessary officers. Our Methodist Men and Young Adult Fellowship groups have interesting programs monthly. The Woman's Society Circles meet each week with increased interest.

Mr. and Mrs. Roy Line and daughter and her father, G. V. Cobb visited relatives in Louisiana and Texas as last week.

Mr. and Mrs. F. M. Jones and her parents, Mr. and Mrs. Wesley Caswell visited relatives in East Texas over week end.

Mr. and Mrs. T. L. Leach visited Supt. and Mrs. John Morris Sunday.

Mrs. L. R. Carter of Ponder, sister of L. E. Robinson, passed away at a Denton hospital and funeral was held Monday of this week; Mr. and Mrs. L. E. Robinson landed in York last Tuesday and are now at Ponder; Mr. and Mrs. Lynn Birdwell are also there.

THE WASHINGTON Merry-Go-Round

BY DREW PEARSON

(Ed. Note—While Drew Pearson is on a brief vacation, the Washington Merry-Go-Round is being written by several distinguished guest columnists, this one by Mr. Henry J. Anslinger, the Treasury Department's commissioner of Narcotics and the U.S. Representative on the United Nations Narcotic Commission.)

The Narcotic Peddler

THE narcotic peddler does not kidnap your children; he destroys them.

In extreme distress, parents brought their 16-year-old boy to my office. The lad quivered like the leaves of the aspen. He was suffering the dreaded withdrawal syndrome of drug addiction. He was one of those who used bravado to gain admission to the delinquent gang.

"Tell me where you get heroin," I said. "I will send you to the hospital for a cure."

We used an undercover agent to buy from the "pusher," who led us to the wholesale peddler. Then by progressive steps we graduated to one of the big traffickers who controlled a nation-wide syndicate. We trapped him like a rat. It took men, endless patience, long hours of vigilant surveillance, and infinite detailed corroboration. Now, where did he get his supply? From a country which signed the Geneva Convention of 1931 to limit the manufacture of narcotic drugs to medical needs, and then estimated its heroin consumption at ten times its actual medical needs.

We first picked up the international leakage when the Los Angeles county sheriff turned over to us a peddler with ten ounces of heroin. He got it from a ship's steward traveling between New York and Trieste. In Trieste, the Allied military authorities had inadvertently repealed narcotic laws. Diversion in Italy provided a ready source, with the connivance of the Mafia. Wheels within wheels. The narcotic traffic is intricately interlaced and skillfully interwoven.

Bureau Is Model

We have 195 agents; less than 2 per cent of the federal enforcement personnel. These men account for 10 per cent of the federal prison population, and their convictions average 95 per cent. Our force is about as large as that of the police department in a place the size of Tampa, Florida.

The whole world regards the U. S. Treasury Department's Bureau of Narcotics as a model. The work is dangerous, nerve racking, round-the-clock, yet there is something which makes crusaders of all who engage in it. They respond beyond the call of duty.

Our enemy is artfully cunning. The seller is satisfied, and the user won't tell. There are no complaints as in crimes like robberies and kidnapping. Not one witness before the Senate Crime Committee would reveal his source of supply, through fear of consequences. We work completely undercover, and must come up with the corpus delicti (evidence) at the conclusion of the investigation.

We need a law which will put the peddler away longer than 16 months. The House of Representatives passed such a bill. It is pending in the Senate.

UN Seeks New Plan

Harold Normandale is an addict with over 100 arrests, including one for rape, murder, and many for narcotics. He peddled narcotics to take care of his own addiction. This type creates addicts. There are thousands like him. They have no sense of moral responsibility. They would, without hesitation, shoot heroin into the radiant veins of your 15-year-old daughter, and send her into prostitution to get money for the heroin they pump into her innocent body, yet such peddlers get off with suspended sentences.

The addict must be quarantined in the city hospitals. Baltimore has the distinction of being the first city to set aside 10 beds for the detoxication and rehabilitation of drug addicts.

Limitation on manufacture of narcotic drugs and control of international distribution have been accomplished through eight treaties. The United Nations is now working on a plan to limit opium production to world medical needs.

Traffic Grows

About 1947 we had the traffic under control. Prison wardens reported an absence of addicted criminals. The population of our Lexington Narcotic Hospital had fallen to such an extent that a move was under way to abolish the hospital. I urged all to stand by and to prepare. We could feel it coming here and abroad. Warnings went unheeded. In the past two years it rolled in like an engulfing surf.

RURAL LIVING

Writer Tells His City Friends Why He Likes It in the Country

(Editor's Note: The following article, "I Live in the Country" by Alan Devoe, was published in the September issue of Coronet magazine. It is reprinted here with the permission of that magazine.)

By ALAN DEVOE

IT IS QUITE CLEAR that most of my city friends feel sorry for me. The reason is that I live in the country. While they pity, they also wonder, and this reveals itself in certain perpetual questions.

What on earth do I find to do in the country? What is there to see? How do I fill my time?

They feel sorry for me because I have no radio or television, and because 11 miles separate me from the post office. They speak with sympathy of how very "dull" my life must be, and marvel that I am content to "stagnate" here.

I receive these commiserations with scorn. For I extract from this life of "isolation," as my friends term it, a deep and endless delight.

The house in which I live is very ancient and somewhat askew; but from this ancientness and crookedness I derive continuous solace. Here in this tiny dining room the china dogs on top of the old pine corner-cupboard have watched three generations at their feeding; in the great spool-bed upstairs have occurred both births and deaths.

There clings in these low-ceilinged rooms—with their faded flowered wallpaper, their horsehair sofas, a n d wideboarded uneven floors—an aura of the stalwart tranquility, the hard-toiling patience, of that succession of homely Dutch-

men who were our predecessors. Near the middle of the last century, one of these Hollenbecks (for such was the name of the sturdy family which tenanted this homestead) deserted the plow for a life of seafaring. When he was an old man, and had voyaged to every quarter of the globe, he came back to this house to eke out a living by mending stone walls.

So much for the house. It is like that tattered sampler in the hayloft of our barn which reads, "Sweet Rest in Heaven," and like the crooked path that untold thousands of footsteps have worn through the clover field to our well—a link with the simple, earthly lives of those good souls who are vanished.

In every direction, as I look from my windows, are the green wooded hills, untenanted by living man. They lie—these carved and molded masses of rugged earth—brooding in an ageless silence, baking their hummocked backs in the hot summer sun, shouldering the cold white weight of countless snows, existing eternal while the oaks and firs upon their slopes wither and die, and are born and live again through the passage of seasons.

My friends who speak of "loneliness" and "isolation" take no heed of the deep companionship of trees and rocks. Yet it is easy to discover, in lichen-covered boulders and in the cool smooth trunks of maples or the rough, fragrant trunks of firs, an essence of being with which it is very easy for a man to commune.

These high hemlocks are my fellows upon earth; together we face the elements, together struggle for sustenance, together are set upon by plagues and pestilences, together will return, when we die, to the eternal embracing earth of this planet. And it is possible for me to walk upon the black leaf mold in which these hemlocks have their roots and to draw from that contact a profound tranquility of spirit.

This relaxed contentment is a far better antidote for turmoil and vexation than my city friends can possibly receive in the diversions afforded them by the movies, the theater, the radio or television—of which they deplore my lack.

THIS COUNTRY life of mine, far from being barren of things to do and see, is crowded from Jaybreak until nightfall. My personal routine of eating, working, sleeping, and performing chores is sufficiently simple. But the details of the lives that surround mine and demand my attention—the lives of chipmunks and phoebes and woodchucks and of the very buttercups that grow profusely in our pasture—are so vastly absorbing as to require all my hours. It is inconceivable that I could possibly be "bored," even if I had nothing more to occupy me than the contemplation of the meadow upon which I look out as I write this.

In such a rural district as that in which I live, neurosis is impossible. That sickly "turning inward" which makes wretches of city victims has no opportunity to enter here. All man's thought and energy and time are taken here, as they were in the beginning, in a constant coping with the problems presented by the earth and the elements. And living thus in daily contemplation of the vast swing and surge of the eternal cosmic machinery, man's minor woes assume an utter insignificance.

BLONDE Marion Marshall has her best role so far in "That's My Boy," starring Dean Martin and Jerry Lewis, at Paramount. But she piled up an impressive list of credits at 20th Century-Fox before she left that studio. She was a model when 20th signed her, sent her to dramatic school for a year, then put her into "The Snake Pit"; after that came "Sitting Pretty"; "Apartment for Peggy"; "I Was a Male War Bride," for which she spent six months in Europe, and others. It was the test she made

Republicans Must Woo Dixiecrats to Win in 1952

By Wright A. Patterson

AS A MEANS of stealing the show from their opponents in the 1952 presidential campaign the Republicans should insert state rights as a major plank in their platform, so stated as to leave no possibility of its being misunderstood or misinterpreted.

To be effective it cannot be expressed in political weasel words, one of those "heads I win, tails you lose" kinds of statements that can be twisted to meet whatever occasion may present. It must be as explicit in its meaning as were those of Thomas Jefferson, the father and patron saint of the Democratic party, and the original states' righter.

Every piece of Fair Deal legislation the President has been able to force through congress has taken something away from the constitutional rights of the states, and something from the liberties of the people.

All of the Fair Deal legislation the President is so insistently demanding that congress enact is of the same anti-state rights character. Each bill, should it become the law of the land, would take away some rights that are now enjoyed by the states under the provisions of the constitution, some things on which the states now have the say-so.

At its convention, the Democratic party must either approve or condemn the actions of the Democratic administration. If it

endorses such policies, it is approving a limitation of the constitutional rights of the states. That would be objectionable to the members of the party in the southern states.

With the Republicans proposing to protect the rights of the states it would give the Dixiecrats a place to which they could turn, and might result in the Republicans carrying some of the Southern states as did Herbert Hoover.

The Republicans have joined with the southern Dixiecrats in opposing the anti-states rights legislation the President has asked for, and the adoption of such a plank would be but an endorsement of the party's policies during the last two sessions of congress. The party, as such, must either endorse such actions, or apologize for them.

The opportunity the situation presents for a "squeeze play" would seem to have been made in order for the Republicans. Will they improve it, or will they "muff" it as not needed to win that 1952 political battle?

Undoubtedly a strong states' right plank in the Republican platform would insure some Democratic votes for Republican candidates in many states.

Thanks to the brilliant military mind of the late Admiral Sherman, at the time chief of naval operations, and to his ability in the field of diplomacy,

THE FICTION CORNER

EPICUREAN ERROR

By Isabelle Snyder

LAURA FENTON viewed the rutted road dubiously. "Are you sure this is the road, Amy?"

"Oh yes—third road on the left—just as you wrote it in the notebook when Mrs. Edwards told us about it... a wonderful country home that serves divine food. Hurry, I'm starved. And it sounds so divine!"

Laura turned the carefully-cared-for coupe into the narrow road, guiding it cautiously up the steep grade.

Amy giggled like a girl. "It's a good thing it isn't much farther, Laura. I'm starved!"

Laura smiled gently at the exaggerated speech of her flighty friend who refused to grow old, gracefully or otherwise. "I believe the food will be worth the long drive of our main route. Mrs. Edwards is most discriminating."

"There's the place," announced Amy coughing from the thick dust. "Just look at all the cars in the yard—the food must be wonderful."

Laura turned the coupe into the crowded farm yard and carefully selected an ample parking spot.

Amy pouted. "The food may be perfect but we'll have to wait ages to get in—just look at all those others waiting!" She bounced from the car like a child and stood impatiently while Laura fastidiously changed driving gloves for fresh white ones before leaving the car primly.

"Goodness, Amy Bowen, straighten your hat," Laura scolded as they walked to the house. "It seems strange that they don't have a sign on the road or out front," she com-

"Oh, outside, please," answered Amy warmly. "It's much too nice a day to stay inside."

mented as they ascended the steps to the veranda where other people already waited.

THEY were greeted by an unsmiling woman in black. "Would you care to come inside or will you wait here on the porch?"

"Oh, outside, please," answered Amy warmly. "It's much too nice a day to stay inside." She continued to chatter of the weather and the lovely view while they found chairs in the shade. Then she turned to the woman next her. "Isn't this a lovely place?" she asked enthusiastically.

Her enthusiasm apparently was not transmitted by her speech. In fact, Amy had the peculiar sensation that comes to one who has committed a grave social error.

The woman murmured something polite and turned away but Amy was not to be denied. "I'm Amy Bowen and this is my friend, Laura Fenton. We are school teachers from over in Ohio," she said.

The woman looked at them in a puzzled way, acknowledged the introductions briefly and changed her place.

"Well, really!" Amy said in disgust before turning to Laura to say in a whisper, "Where do you suppose they feed folks, Laura? I don't smell any food nor hear any dishes."

Laura answered quietly. "Don't fret so, Amy. There are so many flowers around that you couldn't smell food."

Amy squirmed around in her chair, peering curiously into the house. "Goodness," she said, "the place is banked with flowers." "Oh," she gasped, turning an odd greenish white. "Laura, I'm going to be sick," she cried.

Laura moved quickly, grasping the smaller woman by the arm to help her to the car. As they passed the open door, Laura glanced inside, then stifled a cry with a white-gloved hand. Reality had arrived with abrupt suddenness.

Not till the two women were safely in the car and ready to turn onto the paved highway did either speak. Amy wailed, "Oh, Laura, that horrible place! We'll never live this down."

Laura stopped the car and looked at the directions in the notebook. "Third road on right," she read. She turned to her stricken companion. "Amy Bowen," she said sternly, "maybe this will teach you to read the directions as they are written and to follow them carefully. The idea of taking us to a funeral instead of a restaurant!"

World Citizens

Lesson for September 23, 1951

DO YOU belong to the human race? It isn't as large as you might think.

Hendrik Willem Van Loon once figured out that you could make one box, half a mile long, half a mile wide and half a mile deep, and you could put into that box every man, woman and child in the entire world, packed in like sardines of course, and then you could nail that box up and tip it over into the Grand Canyon.

With the human race no bigger than that, isn't it stupid for us not to get together? If you ever read Mark Twain's fascinating tale, "Captain Stormfield's Visit to Heaven," you will remember how that mariner got lost on his way to heaven and arrived at the wrong gate. Since no one at that gate had ever heard of "the earth," the captain finally identified himself as from the Solar System.

Still no one had heard of it. Finally some one discovered it, a tiny dot on an enormous map. The Captain was considerably taken down when he learned how small the earth is in the immense starry universe; and so might we all be.

Passengers on the Same Planet
IN THE EYES of God and his angels, this earth and the people on it do not fill up the big place they fill in the eyes of us mortals. This does not mean that we are unimportant to ourselves, or of no concern to God.

Saint Paul gave us the Christian reason—always the best reason—why human beings ought to realize how close together we really are. Speaking to the university crowd at Athens, he quoted from a Greek poet to prove his point: "We belong to His race." (Acts 17: 28, Moffatt's translation.)

God made all peoples "from a common origin." In him we live and move and have our being. Remember that Paul was not speaking in a Christian church. Of course Christians are brothers in an even warmer and more loving sense; but Paul could say, even to men who were not Christians as he was, that he and they were alike offspring of God, that they all had their being in the same Creator and Father.

The Importance of Being Human
IF WE would only just stop pinning our little tags on people! We call them "foreigners" or "farmers" or "Canadians" or "college boys" or "Chinese." So they are; but the most important fact about Chinese, or fishermen, or farmers or any other class of mankind, is that they are human beings.

What we have in common, as human beings, is infinitely more important than the variations which sort us out into different races, classes and groups. The Christian will be a loyal citizen of his own land; but he will also remember that he is a world-citizen too. And as a world-citizen, he will always remember certain truths about all his fellow human beings.

One is that since we all have a common humanity, we all stand in need of God. It is not much exaggeration, if any, to say that to be human is to be helpless.

Scholars write books with titles like "The Human Predicament," which is a short way of saying that if you are human you are in a mess. You need God, whoever you are. But if you know that, then also remember that all other members of the human race need him too, quite as much as you do.

Our Lost Brothers

REMEMBER, too, that while all are summoned to the same destiny (as Paul said: "God commands all men to repent"—not just some of them!), many and many a man (must we say, alas, most men?) misses that destiny.

There is a broad road leading to destruction, Jesus said, and many are traveling that road. How can a Christian be indifferent about a thing like that? Every man on the dark road is a man who might be a Christian.

From the dead-end road of selfishness, hatred and pride he might come over to the highway of God... if some one took the trouble to go after him. But we shall not bother ourselves much, we shall not bother ourselves enough, about our lost brothers, unless we have the world-citizen's eye and the world-Christian's heart.

It's Wonderful the Way Chewing-Gum Laxative

Acts Chieffy to REMOVE WASTE —NOT GOOD FOOD

Here's the secret millions of folks have discovered about **FEEN-A-MINT**, the mod- ern chewing-gum laxative. Yes, here is why **FEEN-A-MINT**'s action is so wonder- fully different!

Doctors say that many other laxatives start their "flushing" action too soon... in the stomach where food is being digested. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy. You feel weak, worn out.

But gentle **FEEN-A-MINT**, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food. You avoid that typical weak, worn-out feeling. Use **FEEN-A-MINT** when you feel "peppy," energetic and get **FEEN-A-MINT**. No increase in price—still 25¢, 50¢ or only 10¢.

Pork Loin Roast Gives Good, Economical Meal (See Recipes Below)

LOOKING FOR WAYS to have meat on the menu and still live within an economical food budget? Proper preparation of even the thrickest cuts makes them simply delicious. Along with eating hand- somely of these nutritious cuts, you may also want to take a few bows for keeping the budget straight- laced.

Some of the really economical cuts of meat are scarcely heard about, any more. Many of the butchers don't stock them because the demand is low, but usually they're happy to get them simply for the asking.

Salt pork, for example, was an old-time favorite and grandmother knew how to prepare it deliciously. Pork hocks are another tempting dish and so are lamb shanks.

Try some savory liver dishes, using beef or pork liver because they're more economical. Stretch inexpensive roast pork with clever dressing sticks and vegetables. All these will make a difference in how much more you get out of the meat dollar!

Salt Pork and Cream Gravy (Serves 4)

- 1 pound salt pork
- ½ cup cornmeal
- 2 tablespoons fat
- 2 tablespoons flour
- 2 cups milk
- Salt and pepper

Have salt pork cut in slices, ¼-inch thick. Cover with hot water for a few minutes, then drain. Dip each piece in cornmeal and brown slowly in fat, in skillet.

Drain off all but 2 tablespoons of the fat and mix in flour. Cook 2 minutes, stirring well, then add milk slowly and cook for 5 minutes. Add salt and pepper, if needed. Serve with onion slices, marinated in French Dressing and potatoes cooked in their jackets.

Pork Hocks, Sauerkraut (Serves 4)

- 4-6 fresh pork hocks
- 1 tablespoon lard or drippings
- 2 medium onions, sliced
- ½ teaspoon salt
- ½ teaspoon pepper
- 1 cup boiling water
- 1 No. 2½ can sauerkraut
- ½ teaspoon caraway seed

Brown pork hocks slowly in lard or drippings. Add sliced onion, salt, pepper and boiling water. Cover closely and cook slowly for 1½ to 2 hours, or until meat is tender. Add sauerkraut and cook until heated through. Remove to hot platter. Sprinkle caraway seed over sauerkraut be- fore serving.

Pork Loin Roast (Serves 4)

- 3-5 pound pork loin roast
- Salt and pepper

Have backbone removed from pork loin. Season with salt and pepper. Place fat side up on rack in open roasting pan. Insert meat thermometer so the bulb reaches the center of the thickest part. Be careful that the thermometer does

not rest in fat or on bone. Do not cover. Roast in a moderate (350°F.) oven until meat thermometer registers 185°F. Allow about 30 minutes to the pound for the roasting time. Serve with lima beans, onion rings and these dress- ing sticks:

Dressing Sticks

- 4 cups soft bread crumbs
- 2 tablespoons finely cut parsley
- 3 tablespoons finely chopped onion
- 1 teaspoon salt
- 1 teaspoon celery seed
- ½ teaspoon pepper
- ½ teaspoon thyme
- ½ teaspoon paprika
- 1 egg, slightly beaten
- 3 tablespoons hot water
- 3 tablespoons melted lard

Toss the dry ingredients together lightly. Stir in beaten egg, hot water and melted lard. Press dress- ing into shallow 5x7 inch pan and chill. Turn out on greased cookie sheet and cut into sticks 1x3 inches. Bake in a moderate (350°F.) oven for 20 minutes.

Swiss Style Liver (Serves 6-8)

- 1½ pounds beef or pork liver
- Flour
- 2 teaspoons salt
- ½ teaspoon pepper
- 2 tablespoons lard or drippings
- 2 onions, sliced
- 2½ cups cooked or canned tomatoes

Buy liver in one piece. Dredge with flour mixed with salt and pepper. Brown liver in lard or drippings. Add onions and tomatoes, cover closely and cook in a moder- ate (350°F.) oven or simmer gen- tly on top of range for 1½ hours.

***Liver Roll-Ups (Serves 4)**

- 4 slices beef or pork liver, cut ¼-inch thick
- Salt, pepper, nutmeg, thyme
- 4 sausage links
- 4 slices bacon
- 2 tablespoons lard or drippings
- ½ cup boiling water
- 3 tablespoons worcestershire sauce
- 1 small bay leaf
- 1 whole clove
- 1 small clove garlic, minced
- 1 small onion, sliced
- Flour for gravy

Remove any membrane from sliced liver. Sprinkle slices with salt, pepper, nutmeg and thyme. Roll sausage link in each slice, then wrap with a bacon slice and fasten with toothpick. Brown the rolls on all sides in lard. Pour off drippings. Add water, worcestershire sauce, bay leaf, clove, garlic and onion. Cover and cook slowly for 30 min- utes. Thicken liquid with flour for gravy.

LYNN SAYS: Busy Days Require Easily Prepared Meals

Use leftover sliced meat with potatoes in gravy; heat these to go over toast. Add buttered beans, orange salad and prune whip for a snappy dessert.

When you're going to be away from home most of the day, pre- pare food in advance or select quick-cooking foods that require little time. Here are suggestions that help you get meals in no time:

While you broil fish, cook lima beans or reheat canned ones. Par- boiled potatoes fry in the skillet in drippings while you toss some greens for salad. Open a can of fruit or serve fresh fruits with cookies from the jar.

Put canned baked beans in a casserole and top with frankfurters and bake to heat through. Tomato aspic prepared in advance can contain bread and butter pickles. Baked apples can be cooked the night before.

Predicts Intensity Polio Cases for 1951

ANN ARBOR — Approximately 27,000 cases of polio will occur in the United States during 1951, a University of Michigan school of public health statistician has pre- dicted.

"There are a number of reasons for supposing that 1951 will be a far less severe year for polio than the record year of 1949 during which about 43,000 cases were reported," Dr. Fay M. Hemphill in- dicated.

Dr. Hemphill's "guesstimate" is based on figures supplied to him through the National Foundation for Infantile Paralysis, Inc., by the United States public health service which receives weekly re- ports from the various state health departments throughout the nation.

Since June, 1950, he has been making a continuous statistical study of the areas and number of polio cases occurring in the United States. His studies are sponsored by grants from the National Foundation for Infantile Paralysis, Inc.

MRS. CAMERON FINDS RELIEF FROM HER STOMACH DISTRESS

HADACOL Helps Folks Who Suffer Stomach Distress and Sleeplessness Caused by an Upset Stomach, If Due to a Deficiency of Vitamins B1, B2, Niacin and Iron

Life is wonderful when you feel well. And in order to feel well, folks just must get a good night's sleep, but that is sometimes pretty difficult when you suffer from stomach distress. Mrs. Evelyn Cameron of 1344 48th Avenue, San Francisco, California, says this used to be her problem. She suffered with stomach distress and bloating which prevented her from getting a full night's sleep. Then she heard how folks who suffered from these ailments when due to deficiencies of Vitamins B₁, B₂, Niacin and Iron were being helped by today's great **HADACOL**. Mrs. Cameron started taking **HADACOL** and soon felt so much better. Now she says that she thinks **HADACOL** is marvelous and is more than happy to recommend it.

Here is what she says: "I used to have such stomach distress—I would have so much bloating after meals. This was not only very uncomfortable but prevented me from sleeping. I would go to bed and then not be able to sleep. I started taking **HADACOL**—I had heard so much about it. Well, after just a couple of weeks I felt so much better. I was no longer bothered with my stomach, and I could sleep so wonderfully well. I go to bed now and get a full night's sleep. I wake up in the morning feeling so fresh and rested. **HADACOL** is certainly marvelous and I am more than happy to recommend it."

Yes, **HADACOL** makes it possible to actually relieve the REAL CAUSE of stomach distress and sleeplessness due to an upset stomach when due to deficiencies of Vitamins B₁, B₂, Niacin and Iron in the system.

AND EVEN MORE IMPORTANT! Continued use of this great **HADACOL** not only gives continuous complete relief but helps prevent these ailments from returning when due to such deficiencies. Now, that's the kind of product you have been waiting for. That's the kind you should buy and start taking at once. And **HADACOL** is so easy to take—comes in pleasant liquid form and is so easily and quickly absorbed and assimilated in the blood, ready to go to work for you immediately.

HADACOL Is So Effective
Because **HADACOL** helps build up the hemoglobin content of your blood (when Iron is needed) to carry these precious Vitamins and Minerals to every organ and to every part of your body.

You may have tried other Vitamin preparations or other Vitamin and Mineral preparations, so we make you this offer. Try a bottle of **HADACOL** today if you need Vitamins B₁, B₂, Niacin and Iron. You be the judge. If you do not believe that **HADACOL** is the best Vitamin and Mineral preparation you have ever taken, we will gladly send you back your money. That's our positive money-back guarantee. You take no chances.

So be fair to yourself. Don't put off finding relief another day. If you are suffering from these deficiency-caused ailments, you owe it to yourself to start taking **HADACOL** today.

Refuse Substitutes
And remember! There's only one **HADACOL**. Don't let anyone tell you something else is "just as good." Insist on genuine **HADACOL**. You risk nothing because **HADACOL** is sold on a strict money-back guarantee.

Sold at all drug counters. Trial size, \$1.25, but buy the large family-size, only \$3.50. If your dealer does not sell **HADACOL**, order direct from The LeBlanc Corporation, Lafayette, Louisiana.

"I'm sure glad you converted me to the '50,000 Miles-No Wear' oil," writes Albert E. Lentz, Rancher, Delta, Colorado. "I really barreled my Mercury over the highway on a recent trip, and all I could hear was a motor purring like a kitten."

"50,000 Miles-No Wear!" Proved Here:

After a punishing 50,000-mile road test, with proper drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence; in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000!

School Children Should Have Physical

"Children are not ready to enter school until they have had a complete physical examination," Dr. Geo. W. Cox, State Health Officer reminds parents. "All boys and girls enrolling in the kindergarten or first grade classes of Texas schools should be taken to their physicians or to a public health clinic for a physical checkup if they have not had such an examination in recent months. It is important to act as promptly as possible. This is recommended in order to allow time for medical treatment or corrections that may be necessary before school becomes far advanced. No youngster should be permitted to begin a school career with less than the best possible physical equipment.

As most parents know, vaccination against smallpox is necessary. Those who receive this immunization in infancy should be vaccinated again in order to assure a high degree of immunity and those who have never received this protection should be vaccinated without delay. Diphtheria immunization is also an important safeguard for all boys and girls about to enter school.

Other immunizations that the physician may recommend are: whooping cough, typhoid fever and tetanus.

Texas over 17 years of age must have hunting licenses providing, of course, they hunt beyond their own home county. All residents entitled to hunt in their own home area without a license must have an "exempt license" before hunting deer and turkey on the land of their residence.

Farm Scrap Iron Is Needed for Defense

The steel industry is asking for more scrap iron to keep its furnaces running full blast. Old worn out and broken machinery, no longer usable on the farm should be sold as scrap and once more put into use in the defense program. A scrap clean-up program not only helps our defense preparations, but it also cleans up possible accident hazards. Scrap iron produces ready cash.

Trench, Pit Silos Advantages Listed
Biggest Disadvantage Amount of Food Spoiled

In this year of near record crop and cattle production, farmers in many areas will need a larger amount of silage. Many of them do not have adequate silos. These farmers may make profitable use of trench or pit silos, which have a number of advantages, but at the same time a number of disadvantages. The trench silo is easily and speedily filled. The relatively low cost of construction is another of the advantages. And they can be

The trench silo (above) may be the answer to the farm's storage problem in time of high production, but it can also be a source of trouble if carelessly filled and maintained. emptied as easily as filled. As for size, they can be made to fit the crop. However, one great disadvantage stands out. A great amount of feed can be spoiled if carelessly filled, compacted or covered. But due to construction costs, a tower silo is a major project on most farms these days. Many farmers might find it profitable, therefore, to investigate the construction and maintenance of a trench or pit silo. The local county agent, no doubt, can supply complete instruction. And they should be investigated thoroughly before any farmer undertakes to build one.

Threat of Inflation Increases As Price Index Hits a New High

INFLATION THREAT—With the government's report that the consumers' price index rose to a record level last month, the dangers of inflation took first place in the week's news.

The bureau of labor statistics reported the index figure went from 185.2 to 185.5. This means the retail prices of goods and services bought by moderate-income families averaged 85.5 per cent higher than the average between 1935 and 1939. This is 9 per cent above the level before the Korean war.

It also means that more than 3,000,000 workers who have cost-of-living escalator clauses in their contracts will receive automatic raises of approximately 1 cent per hour.

A Beautiful Shoot

Gen. James A. Van Fleet reports UN forces will be able to withstand any new Communist attack. He said a new Red offensive would "play into our hands. If we can get them out into the open, we will have a beautiful shoot."

Industry member of the wage stabilization board, who recently approved escalator clauses in union contracts, warned that the new index figures were announced that the arrangement is not based on sound economic principles. "Putting all workers, manufacturers, farmers and merchants on escalation may easily prove the first step to national bankruptcy," the group warned.

The average home townner seems to have the feeling that runaway inflation is dangerously near. If each group in the nation's economy continues trying to get ahead of every other, then the economic situation may explode into a mad race that can lead to ruin.

Food and rent prices are credited with pushing the index figures to the new high. Food prices averaged 12.1 per cent higher than in June, 1950, just before the Korean war. There are indications of further increases. Large dealers are reported demanding boosts of 1 to 6 cents an item for well known brands of flour, breakfast cereals, canned fruit and vegetables, vinegar, mayonnaise and spaghetti.

PRICE CONTROLS—While the average home townner views the price picture with increasing fear, President Truman asked congress for three major changes in the new price controls law.

The President asked repeal of: (1) The provision requiring that price ceilings reflect rises in business costs that have occurred since Korea. ("An economic booby trap," Truman called it.); (2) The amendment giving wholesalers and retailers their customary percentage markups; (3) The amendment banning the OPS livestock-slaughter quotas, under which each slaughterer was told how many animals he could handle.

No one can predict how congress will react to the President's requests, but the average small town American, whatever his political views and his beliefs concerning the cause of higher prices, wants something done about it. He realizes the nation is in as much danger today from its internal economic picture as from external enemies; he feels it is time for personal interests and politics to take a back seat to the nation's welfare.

WESTERN POLITICS—Democratic party representatives from 15 midwest states, as far east as Ohio and as far west as Wyoming, the great farm belt that came to President Truman's rescue in 1948, met at French Lick, Ind., to discuss possibilities for 1952. Their conclusions were startling to the average home townner.

Briefly, they concluded that President Truman will be a candidate for reelection and that he can defeat Sen. Robert Taft. Should Gen. Eisenhower seek the office he could have had in 1948, then Mr. Truman's chances would not be so good.

As a basis for these startling conclusions, the democratic leaders believe the President would get a large farm vote as he did in 1948 because farm prices have been high during his administration. A continued high level of domestic prosperity without inflation would also add to his chances, they concluded.

They also pointed out that Truman was denied New York's 47 electoral votes by the candidacy of Henry A. Wallace and those of four southern states by the Dixiecrats. This is unlikely in the 1952 campaign.

The big question, of course, is Gen. Eisenhower. The general is a midwesterner, and it would not be difficult to sell a national hero to the people in the home towns.

THE NEW FEAR—The latest news from Korea would indicate the Chinese Communists are beset with a new fear, that of world condemnation for breaking off the Kaesong peace talks. It is the only reasonable conclusion since the Reds announced the talks can continue if the Allies will admit a plane tried to murder the Communist delegates by dropping explosive bombs and jellied gasoline near their quarters.

Gen. Matthew B. Ridgway, who previously rejected their charge as a fake and a fraud, is unlikely to accede to their demand. Ridgway has informed the Reds that their neutrality-violation charges are nothing more than malicious lies, deliberately manufactured for propaganda effect and unworthy of reply.

As long as both parties maintain this attitude there is little hope for a resumption of talks. And even if they should be resumed, other incidents will be manufactured by the Reds to further their propaganda aims. Peace in Korea will not be restored until one side or the other is thoroughly and completely defeated.

JAPANESE TREATY—On Tuesday 34 nations gathered at San Francisco to sign the proposed peace treaty with Japan. Russia is represented, but no one expects her to sign the document which is sponsored by the United States. To the contrary, she will do everything in her power to wreck the treaty negotiations and eventually will present her own versions of a pact.

The big news at the conference opened was India's boycott of the meeting. That country's denunciation of the treaty was in direct line with Moscow propaganda and will have many repercussions in this nation's foreign aid program. It may lead to a tougher U.S. policy toward India and a reduction in aid given her in recent months. It may also mean that a number of other countries will suffer as a direct result of India's stand.

From now until the conference closes, the people in the home towns of the country can expect a flood of Soviet propaganda against the treaty. In fact, one of the greatest propaganda slanders the world has ever seen is about to begin.

Eva Peron, wife of President Juan Peron of Argentina, often called the most powerful woman in the world, has been nominated to be her husband's running mate at Vice-President in the November 11 elections. The election is only a formality under Argentina's dictatorship. She would be the first woman in history to hold such a high office in the Americas.

THIS IS CHINA

Peiping Demands Life Data on Everyone

The Communists in China have demanded a combination confession and autobiography for millions of persons in the country whom the Reds find necessary to re-educate in the new attitudes of Chinese communism. It is a complete record and repudiation of the past life of the individuals concerned.

The document serves as a domestic passport that must be pro-

duced whenever the possessor seeks a new job, wants to move from one part of the country to another, or from some other reason, comes under official scrutiny.

The person under examination may have made money on the stock market or gone to a U.S. university. Whatever it is, these must be confessed and branded as bad and wrong.

HISTORICAL DOCUMENTS

Two American Documents To Be Enshrined on Constitution Day

America's most precious historical documents—the Constitution of the United States and the Declaration of Independence—will be enshrined permanently in hermetically sealed glass enclosures at a ceremony Monday, (Sept. 17) Constitution Day.

The ceremony, in which President Truman and Chief Justice Vinson are scheduled to participate, is expected to be one of the most impressive ever held in the history of

In a test sealing, Dr. Roy W. Wampler, assistant director of research for Libbey-Owens-Ford Glass company; Alvin W. Kremer, of the library of congress, and Dr. G. M. Kline, of the national bureau of standards, show how the original documents of the constitution of the United States and the Declaration of Independence will be preserved permanently in helium-filled glass cases.

the parchments, particularly since this will be the last time the documents will be touched by human hands. Scientists say the enclosures will preserve the papers "for as long as man can foresee."

After the ceremony the sealed leaves will be replaced in their Shrine in the Library, where they have been viewed by an estimated 20,000,000 persons in the last 27 years. The display of the single page of the Declaration and the five leaves of the Constitution is expected to attract even greater throngs of sightseers after the ceremony.

Plans for preserving the original engrossed and signed manuscripts are the result of studies and experiments made during the last 10 years by the national bureau of standards at the request of Luther H. Evans, librarian of congress. During the last two years the library and the NBS have been assisted by thermopane technicians of the Libbey-Owens-Ford Glass Company, who perfected the special metal-to-glass seal used to keep the glass cases air-tight.

"Every resource of science and technology has been applied in the effort to make these precious documents as permanently secure as the principles they proclaim," said Dr. Evans.

DR. EDWARD U. CONDON, director of the national bureau of standards, explained that exhaustive tests were conducted before the NBS scientists and the library decided this was the best method of protecting the documents and at the same time making it possible to continue to exhibit them publicly.

The glass enclosures, basically the same as the thermopane insulating glass used in thousands of American homes, will be filled with helium, an inert gas, as a further measure of protection for the documents. Even the relative humidity inside the cases is controlled to prevent the parchments from expanding or shrinking.

The early history of these documents was dramatic and—especially in the case of the Declaration of Independence which is 175 years old this year—involved much rough handling during the Revolution and the War of 1812. During the last generation, however, the library has protected them carefully and this latest improvement in the method of display is expected to preserve them intact for future generations of Americans.

Star Dust

DOROTHY Sarnoff, currently giving a delightful performance in the Broadway musical, "The King and I," still finds time for many guest performances on radio, to which she owes her first big break. Some years ago she auditioned for Menotti's radio opera, "The Old Maid and The Thief," at NBC, won the role, and was enthusiastically received all

DOROTHY SARNOFF

over the country. This autumn may find her on the air regularly on a new program. In her very limited spare time she creates hats, paints a landscape occasionally and recently has begun designing traveling bags—her latest, made of plastic, will soon be on the market.

Bill Holden is looking for a new hobby, one fitting for a man with three children and not much time. He's given up building model airplanes with motors—almost lost a finger at it, just before starting "Force of Arms," at Warners'.

Hollywood loves Murray Sices, leading designer of suits for small women—so many of the stars are about the size of Wanda Hendrix, who's five feet two. With little time to shop, they used to find it almost impossible to find clothes that would make them look the way their fans expect them to.

In the beginning, 12 years ago, "Mr. District Attorney" was patterned after the legal career of an ace prosecutor, Thomas E. Dewey. It switches from NBC to ABC on September 21, and October 1 will also be seen on television.

Star Bill Johnstone of the CBS Radio Network's "The Line-up," and his son Ronald, a Los Angeles drama student, are building an elaborate model theatre, 41 inches by three feet by three feet. It will be operated entirely by electrical power, and they are doing all the work themselves—but they're letting Mrs. Johnstone make the costumes, sets, etc.

There Is a Way To Repeal Income Tax Amendment

By Wright A. Patterson

THE FEDERAL CONSTITUTION provides two methods of amending that document.

The one method with which we are familiar calls for the passage of a resolution by Congress calling for an amendment, followed by ratification of the proposed amendment by the legislature of three-fourths of the states.

The other provides for passage by any state legislature of a demand for an amendment and then ratification of that demand by the legislatures of two-thirds of the states.

The second method bypasses Congress entirely. The Los Angeles Times referred to this method of amendment as a "club provided for the states for the protection of states' rights."

It is now being considered as a method of repealing the amendment that made possible the levying of federal income taxes. This would force the national government out of the field of tax revenue and leave it to the states to provide for state expenditures and would stop the "grants in aid" that now represents the largest of the national government out of federal taxes in exchange for which the states surrender much of their sovereignty.

It took a long time to secure the enactment of the 16th amendment, the income tax amendment, by the needed three-fourths of the state legislatures, even when the amend-

ment was backed by the powerful influence of Theodore Roosevelt.

Twenty-one states have voted for the calling of a constitutional convention. A vote of 32 is necessary to call one.

When such a convention meets it can propose such an amendment, or amendments, and then three-fourths of the states must ratify the proposed changes to make them effective.

Limit to federal taxation is bringing action from the states. The proposal has been made to repeal the 16th amendment and substitute one that would limit the federal to 25 per cent, leaving a share for state and local governments.

With the federal government now owning a large portion of the land within the state boundaries and withholding it from state and local taxation and with the seizure of tide land oil, the federal government is depriving the states of a source of revenue. There are more and more sources of state revenue being jeopardized.

Many officials fear there will be nothing left on which to levy state taxes unless a way can be found to halt the grabbing of the source of state tax revenue.

When state and local governments can no longer finance their operations, they must, of necessity, pass out of existence, leaving all government functions to Congress. A new concept of taxes on a national basis is needed. Certain ev-

THE FICTION CORNER

LUCKY LESLIE

By Helen Longworth

THEY CALL ME Lucky Leslie—not because I'm so lucky but because of my wife Celia and her phobia. Sure, lots of people believe in luck, omens and that stuff. But you could cover half the country before you'd find anyone the equal of my Celia for ideas on luck. It's not ordinary garden variety luck that Celia talks about either—not four leaf clovers, new moons and a rabbit's feet. Oh, no! Celia goes in strong for lucky numbers. In her book, 7 is the luckiest, 3 is a fair number and 6 you skid by with eyes shut and hands clenched.

Celia believes if you have good fortune doing a thing a certain queer way once, then if you repeat it—bingo!—you're fortunate. If Celia were to find a diamond on the corner of Main street on the 7th of the month and while wearing a red rain coat; she would believe that next month, come the 7th, she could do the same rain coat (no matter if the sun was blazing), go back and find a ruby. The queer part of it is—Celia would.

When we were married in those unpleasant days of '43, I had leave from the 15th of one month to the next. We had known each other for a couple years, Celia and I. If I'd had my way we'd have been married the 16th. But Celia said, "The 7th—that's the day for luck." Even reminding her that that date was a century away and that we would be married but a few days before I went back into action wouldn't swerve her. The 7th it was; To this day Celia believes the reason I wasn't amongst the 166 killed in our regiment was because we were mar-

But Celia said, "The 7th—that's the day for luck."

ried on the 7th. And maybe she's right!

Take our son—the doctor said David would be born on June 26th. Celia said she chose July 3rd. The doctor snorted. "Choose!" But David was born on the 3rd of July at 7 o'clock—just like Celia had predicted.

Her strongest belief is that things happen in 3's. If there's a 2 big train wrecks, Celia expects the third. When David had measles and chicken pox inside of 2 months, I thought it enough. Celia said there would be more. He came down with the mumps on the 6th. If we have unexpected company 2 nights in a row, Celia makes a batch of cookies and waits for someone to drop in without warning. They always do!

BUT even Celia couldn't find enough lucky omens or charms to counteract the 6th of the month that was rushing at us. Old Crawford, head of Crawford Corporation said business was so bad that half the office crew would be through on the 6th. I was one of the last taken on.

The 6th was coming and I had a good idea of who was going to get a pink dismissal slip in their pay envelope. Celia said she would try to think of something. Ha! We both knew we were whistling in the dark.

Early the morning of that fateful day David woke with a stomach ache. Two hours later he stomached to the hospital for an appendicitis operation. I know, operations aren't unusual. But it was blow number one—of three. At breakfast our toaster popped sparks and smoke instead of toast. Celia chattered about the low cost of repairs. But I knew she was thinking to herself "the second trouble."

Like they had gone into deep mourning, that's the way the office force looked. I tried to write up orders like it was just any day, instead of the 6th. Celia telephoned to say she had dropped her wrist watch and broken it. Now why was a trivial thing like that worth a telephone call? Women!

Then the pay checks came. Mine didn't have a pink slip. I could have danced on my desk top. I rushed home to tell Celia the good news and that her theory was wrong. She took it casually. "Remember my watch," she asked blandly. "That was the third blow. See?"

But do you know something funny? She said she dropped it. I found her shoe on the dresser amidst some bits of broken glass, and some glass was stuck in the heel. You don't suppose the heel of her shoes met that watch on purpose—or, do you?

Tempt the Family with Well Seasoned Vegetables (See Recipes Below)

Flavorful Vegetables

THERE ARE COUNTLESS ways to vary the flavor of vegetables and thus make them more interesting to the palate. But how often homemakers fall into a rut, serving the same vegetables year after year, always seasoned the same way, butter, salt and pepper!

Then comes a day when the family refuses to be tempted by vegetables any longer. They continue to appear on the menu, but most often are the only food left on the plate. Rather than have this waste, it's better to offer the family such well-seasoned vegetables they cannot refuse them.

Here's an old-fashioned way to prepare cabbage, simple but delicious:

Pennsylvania Dutch Pepper Cabbage (Serves 6)

- 1 small head cabbage (2 pounds)
- 1 teaspoon salt
- 1 medium onion, gated
- 1/2 cup sugar
- 1/2 cup cream
- 1/2 cup cider vinegar
- 1 green or red pepper, chopped

Chop cabbage fine. Add salt, onion and sugar. Let stand 1 hour. Blend cream and vinegar. Pour over cabbage. Add pepper and mix well.

Sweet-Sour Beans (Makes 6 cups)

- 2 pounds green beans
- 1 1/2 tablespoons salt
- 3 tablespoons butter
- 1 medium onion, sliced
- 1/2 cup cider vinegar
- 1/4 cup water
- 1/2 cup sugar

Wash beans and slice diagonally 1/4-inch thick. Cook until tender in a small amount of water. While hot, add salt and butter. Cool. Add onion, water and sugar; pour over beans. Store in covered jar in refrigerator. These beans will keep for weeks.

*Pickled Eggs and Beets (Serves 6-8)

- 1/2 cup distilled white vinegar
- 1/4 cup juice from canned or cooked beets
- 1/4 cup water
- 1 tablespoon mixed whole spices
- 2 tablespoons sugar
- 2 cups whole beets
- 6 hard-cooked eggs

Combine vinegar, beet juice, water, spices and sugar. Let boil for 2 minutes. Strain and cool. Pour over cold beets and hard-cooked eggs. Stir occasionally so that eggs will color evenly. Allow to stand in refrigerator for several hours before serving.

Tomatoes with Spinach (Serves 6-8)

- 8 medium tomatoes
- 1/2 cup thick cream sauce
- 2 tablespoons bread crumbs
- 2 cups cooked spinach
- 4 tablespoons grated cheese
- 2 tablespoons butter
- 1/2 teaspoon basil, if desired

Cut off a thin slice from each tomato, hollow out part of center,

LYNN SAYS:

Use your Leftovers In Sauces, Dressings

Wise cooks never throw away even small amounts of food like a tablespoon or two, left in a bottle or a jar. Use them with white sauce or mayonnaise to dress up other foods.

Tartar dressing for fish is easily made from a tablespoon of capers, another of chopped parsley, 2 tablespoons of chopped olives and 2 tablespoons of pickle relish added to 1 cup of mayonnaise.

LYNN CHAMBERS' MENU

- Meat Loaf frosted with Mashed Potatoes
- *Peas in Squash Nests
- *Pickled Eggs and Beets
- Apple-Grape Salad
- Wheat Bread Beverage
- Lemon Meringue Pie
- *Recipe Given

sprinkle with salt and invert. This seasons the tomato and draws out excess water. After half an hour, turn hollow side up and fill with spinach which has been cooked with basil and mixed with cream sauce. Sprinkle with crumbs and cheese, dot with butter and bake in a hot (400° F.) oven for 15 minutes.

Eggplant Souffle (Serves 6-8)

- 2 tablespoons butter
- 2 tablespoons flour
- 1 cup milk
- 1/2 cup gated cheese
- 1/2 teaspoon marjoram
- 1 large or 2 small eggplants
- 2 teaspoons minced onion
- 2 eggs

Salt and pepper to taste

Peel, dice and cook eggplant in boiling water until tender. Drain and mash. Cook the minced onion in butter until nearly tender. Add flour and marjoram, blend, add milk and cook for about 4 minutes or until thickened. Add eggplant, cheese and beaten yolks; stir thoroughly. Season lightly. If desired, this mixture may be refrigerated for 6 hours, to ease preparation. Then, season lightly and fold in beaten egg whites. Place lightly in ungreased baking dish and bake in a moderate (375° F.) oven for 40 to 50 minutes.

*Peas in Squash Nests (Serves 4)

- 2 acorn squash, halved and baked
- 1 package quick-frozen peas
- 1/2 cup pea liquid
- 3 tablespoons butter
- 2 teaspoons flour
- 1 chicken bouillon cube
- 1/4 teaspoon lemon juice
- 1 tablespoon chopped chives

Before you bake squash, place 1 teaspoon butter and 2 teaspoons brown sugar in each squash half. Sprinkle with salt and pepper.

Cook the quick-frozen peas as directed on package. Drain, reserving 1/2 cup liquid. Melt butter in saucepan. Add flour and blend. Add pea liquid and bouillon cube. Cook and stir until thickened. Add lemon juice, chives and cooked peas. Work brown sugar and butter mixture into squash meat with fork. Arrange squash halves on platter and fill centers with peas. Serve with bacon curls.

Red Cabbage (Serves 4-6)

- 1 red cabbage
- 4 tart apples, pared and sliced
- 1/4 cup brown sugar
- 1/4 cup basil-vinegar

Shred cabbage very fine and place in heavy kettle with all remaining ingredients. Cover tightly and simmer for 1 1/2 hours. Add 1/2 cup water and continue to cook slowly for 1/4 hour longer.

Celery dressing makes use of the last of the celery stalk. Add 1/4 cup of finely chopped celery and 1 tablespoon of chopped green pepper to one cup of mayonnaise.

To one cup of white sauce, medium, may be added 1/2 cup of any of the following for a delicious sauce: mushrooms, lobster or shrimp.

Thousand Island uses the last 1/4 cup of chili sauce in your bottle with a tablespoon each of chopped green pepper and chopped stuffed olives in 1 cup of mayonnaise.

This Nebraska Farmer Says: "FIRESTONE OPEN CENTERS FOR ME"

"I farm 320 acres of bottom land. Sometimes it gets pretty dry and hard, and other times it gets soft and sticky. I like the Firestone Open Centers for my farm because, no matter what condition the ground's in, I can always depend on them to do a good job. In my opinion they're the best all-around tires a farmer can use." Glenn Stauffer, Meadow Grove, Neb.

AMONG THE OPEN CENTER BUYERS MORE AND MORE FARMERS CHOOSE

Firestone CHAMPIONS

FROM across the road all open center tires look about the same, but from a tractor seat farmers soon see why the Firestone Open Center outpulls all other open center tires.

Watch a Firestone Open Center in operation. You can see how the sharp taper of its bars makes them bite their way into the ground... You can see how the curved design of the bars makes them cup the soil for a stronger hold... You can see how the Flared Openings between the bars let the soil fall free to keep the tread clean. You'll find the Firestone Champion the best open center tire you can use.

Of course there are over a million farmers who would rather have a traction center type of tire, and if that's the kind you prefer, get the one and only Firestone Traction Center.
