Discover the difference in the  
'65 Chevrolets (As different from other cars  
as they are from each other)

CHEVROLET—As roomy a car as Chevrolet's ever built. Chevrolet Impala Sport Coupe

When you take in everything, there's more room inside  
this car than in any Chevrolet as far back as they go. It's  
wider this year and the attractively curved windows help  
to give you more shoulder room. The engine's been  
moved forward to give you more foot room. So, besides  
the way a '65 Chevrolet looks and rides, we now have  
one more reason to ask you: What do you get by paying  
more for a car—except bigger monthly payments?

CORVAIR—The only rear engine American car made. Corvair Corsa Sport Coupe

You should read what the automotive magazines say  
about the '65 Corvair. They're wild about its ride. They  
think there's nothing else this side of the Atlantic that  
can touch its styling. They say if you haven't driven a  
new Corvair Corsa with a 180-hp Six Turbo-Chaargaed!  
you just don't know what you're missing.
