O'DONNELL, LYNN COUNTY, TEXAS, FRIDAY, MAY 17, 1929

NUMBER 34

Scouts Court of Honor Monday Night

Boy Scouts under the direction of Scout Master Clyde Ash, their first court of honor at the High School Auditorium on Monday night, at 7:45. Master Clyde Ash urged that everyone, men, women, girls, and all who are interested in Boy Scout work, to attend this court of honor. A number of Merit Badges to Scouts of this district. Several local scouts will receive their Eagle Badges. Arthur Singleton, his Eagle Badge brought to this court of honor. The number of Eagle Badges the whole Lubbock district and Arthur Singleton congratulated upon having won a distinction in Scout

School Year Closes Friday, May 17th

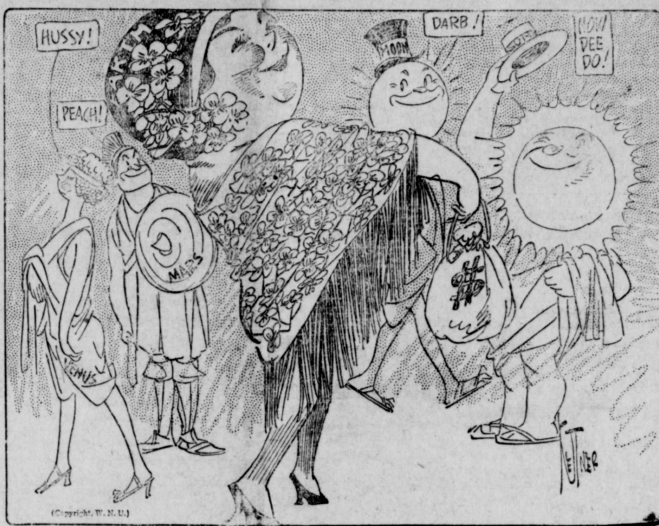

The school year of 1929 will close Friday evening at the High School Auditorium when our twenty-two graduates receive their diplomas. This has been in many ways, the most successful year O'Donnell Schools have had. A corps of teachers fully fitted for their positions and an interested student body have worked together for the betterment of the morale of the school. There are still some imperfections, of course, but a few more years like this one will work wonders. The Commencement exercises promise to be the most interesting we have ever had. Come out and show the class we're proud of the members.

Co-Operative Spirit Builds Lamesa

LAMESA—A spirit of cooperation has built and is building Lamesa. In 1885 about one and one half miles North West of the present townsite of Lamesa the first water well was drilled. Here a windmill was erected and the place served as a headquarters for sheep and cattle for a number of years. A little settlement was here located. This was headquarters for what was known as the "OTO Ranch." Later it became a Postoffice and was styled by the United States Government as Chicago, Texas. This location and name dominated, and there was no other town or city in the county or section, until 1902 when a little settlement and town sprang up about one mile east of Chicago which was named Stemons. About this time Chicago died and Stemons began to grow and prosper. Here also was located a Postoffice, or rather the postoffice at Chicago was moved to Stemons. In the mean time a little town and community named Lamesa was being organized on the present site of where stands Lamesa. In fact the first business erected at Lamesa was in 1903 and it stood where the Lamesa National Bank now stands. Lamesa grew and in 1905 when the county was organized and a county seat was required. Only two towns being in the county the race lay between these two, Stemons and Lamesa. The big election to decide the county site and a large list of officers for the various county offices was held on March 20, 1905. The total vote was 167, Stemons receiving 81 and Lamesa 86. All Lamesa was gals. A big Western cow boy dance was given in celebration of the victory. The Stemons citizens stood at a distance and wondered what would become of their business and little town. Soon the Lamesa Citizens observed the situation and quickly a group of Lamesites formed a committee and started to invite the Stemonsites over to live and do business with Lamesa. The Stemonsites met them half way and a glorious reunion took place.

The rest of the celebration was everybody's and a by stander, if there were one, could not have told which was Lamesa and which was Stemons citizens. The very next day Lamesa citizens went over and helped Stemons citizens move their homes and places of business to Lamesa. This is the story of the beginning of the present Lamesa. She has since that day kept forward with this spirit of co-operation and now she boasts of some six following people. At this time they are also living here at the time of the above writing. J. E. O'Quin, Dr. F. C. Warwick, O. E. Dunlap, Mrs. G. D. McSpadden, M. C. Lindsey, S. L. Woodson, and R. E. Simpson. Each year the old timers hold a reunion and get together again thus depicting again the original spirit of cooperation. This year's all citizens who have been here for the past twenty years will hold a big barbecue May the 30th, and at this time will issue a program fitting to the occasion of old days and history of this section. Mr. Roy Gibson left Monday morning for Austin, where he will attend state Trunkers' Association.

Blossom Time

Actual Work Begun On Methodist Church

It gives us much pleasure to report that work has actually begun on the remodeling of the Methodist Church. At the time of writing, not much showing has been made, but the workmen have been on the job only a day or two. In a few more weeks we will have a modern stucco building with walks on the needed places, a dining room, class rooms, and a larger auditorium.

36 Additional Streets Be Paved in Lubbock

The Lubbock City Commission in recess session Friday night ordered the paving of 36 additional blocks in this city, part of a program for distribution in pavement over needed sections, as provided for by \$25,000 of the bonds voted here September 24, 1928. Much of the paving program, outgrowth of the bond election, has already been authorized. Streets which will be hard-surfaced are the following: Avenue S, from 19th street to the city limits, 15 blks; Avenue K, from 16th street to 19th street, 3 blocks; 14th street from Avenue Q to College Avenue, 7 blocks; 14th street, from Avenue G to Avenue H, 1 block; 14th street, from Texas Avenue to Avenue M, 4 blocks; Avenue T, from Broadway to 19th street, 7 blocks. The paving on Avenue T will touch the campus of the present high school on the east and will also touch on the east campus for the proposed high school on 19th street.

OPERAETTA PLEASURES LARGE AUDIENCE

The Grammar School operaetta, which was presented in the auditorium of the High School building Monday evening was a spectacular success. The costumes were brilliant, the music was more than creditable, and the little folks are splendid dancers, and if there were any mistakes they only added to the charm of the performance. Between act features were unusually good. Wray Guye's song with Mrs. Gary at the piano and Travis Everett handling the saxophone, was well rendered, and the dances were very attractive. We regret that we failed to get the name of one of the small dancers, so will refrain from mentioning the others as well. The teachers are to be commended for their faithful and untiring efforts and the children praised for the quality of their work. Jack Veazey, who has been located at Sonora with West Texas Utilities for several weeks came home for Mother's Day and commencement week.

O'Donnell Defeats Tahoka in Game

The local baseball nine defeated the Tahoka aggregation in a well played game on the local field last Tuesday afternoon. The score was 12 to 7 in favor of O'Donnell. Batteries for O'Donnell were: Stevens and Harris.

The local club is very anxious to have a meeting called at an early date for the purpose of organizing and electing a manager. O'Donnell has some very fine baseball material and with the proper management and support by the home folks would prove to be almost unbeatable.

JOHN R. BURKETT LOCATED WITH CORNER DRUG STORE

John E. Burkett who was formerly located with the Corner Drug Store up until 1924 doing general watch repairing and all kinds of jewelry work is again with the above store working at his old trade. His many friends are glad to see him back at his first love.

DISTRICT LEAGUE CONFERENCE MEETS HERE MONDAY

One of the most important events of the year for Methodist folks is scheduled to take place here Sunday. The Epworth League of Lubbock District will hold their meet. here. A splendid program has been arranged. Every one is invited to come to the church, bring your dinner and your family and spend the day.

Local Girl Receives Diploma in Nursing

Miss Oma Fairley was one of a class of nine girls who received diplomas from the Lubbock Sanitarium Tuesday evening. Rev. H. L. Mungler, pastor of the First Methodist Church delivered the address. Alumni members were present, among them Mrs. C. P. Tate, who is well known to O'Donnell people. Class colors, red and white, and the class flower, red roses, were used lavishly in decorating. Dr. W. R. White, pastor of the First Baptist Church preached the Baccalaureate sermon Sunday evening. Miss Fairley is the daughter of Mr. and Mrs. A. C. Fairley, and numbers her friends by her acquaintances. She is a graduate of O'Donnell High School.

DISTRICT ATTORNEY T. L. PRICE MOVES TO TAHOKA

District Attorney T. L. Price who has been residing at Post, is moving to Tahoka this week according to information given the Index. Judge Price states that his only reason for moving to the capitol of Lynn County is that he will be more centrally located in his district which will enable him to better serve his people. We welcome Judge Price to Lynn County and hope he will never have cause to regret making the move.

Boren No. 4, May Be Pay Producer

The Justiceburg oil field has reached another high peak, this week as the reports from there, give the Boren No. 4, located in the northeast corner of section 135, of the Emerald lease, as flowing quite a bit of oil. This well has been on a pump for several weeks. According to the drillers, the well was pumped dry several weeks ago and no excitement has been created until the first part of this week, when it began to seep oil around the casing. The well has set idle for several days and it has been found that gas heads have formed and caused the well to flow at times. It is reported to have flown fifty five barrels night before last. Large storage tanks are being built this week and it is thought that the oil will be stored for sale purposes.

Room Mother Is Hostess at Picnic

The children in Mrs. Shaw's room were guests last Friday afternoon at a picnic at the home of their room mother, Mrs. John Etter. A series of outdoor games had been planned by the hostess, and the little folks thoroughly enjoyed every minute of the time. A beautiful picnic lunch of sandwiches, jolly pops, candy and chewing gum was spread for their pleasure, and that was the end of a perfect party.

MISSIS RODGERS HONORED AT MISCELLANEOUS SHOWER

Misses Alta and Leta Rodgers, whose engagement was announced Saturday afternoon, were the guests of honor Tuesday afternoon when Miss Roxie Hancock complimented them with a miscellaneous shower at her home.

The reception rooms were decorated with pink and orchid sweet peas and fern sprays in bowls and vases, carrying out the colors selected by the brides-to-be as their wedding colors.

The guests were grouped according to age and each one was given a white quilt block, while every other one had either a pink or an orchid block also. Each couple worked together, sewing the blocks and embroidering their names. When completed, two complete tops were the results of the afternoon's efforts.

The gifts were presented in a most novel way. A toy automobile was fitted up with a trailer, which was divided into two compartments, one bearing the name Alta, the other, Leta. Both car and trailer were covered with frilled pink and orchid crepe paper. Master Sonny Gibson, in full dress suit of the fashionable groom, was at the wheel, and his companion was little Miss Alta Deax Fortner, niece of the honoree, dressed in a pink wedding gown with orchid flowers holding her veil in place. The number of lovely gifts was so great that the moving van had to make two trips for them.

The refreshments carried out the color scheme, being pink and orchid brick ice cream and angel food squares iced in pink or orchid. Plate favors were tiny parasols in the same colors. Guest list included Mesdames Sorrels, Stark, Jordan, won't knock, McLaughlin, Smith, Fortner, Sikes, Bowlin, Rodgers, Bradley, Martin, Kendall, Shumake, Mansell, Whitsett, Harberger, Johnson, Shumake, Gooch, Ray, Edwards, Sutton, Champion, Homer Hancock and Mrs. W. Hancock, Misses Christine Mills, Jessie Sargent, Clarice, Ruth Nichols, Alice and Jeanette Thomas, Velma Whicker, Grace Harville, Aline Line, Jessie Gary, Lulu Rice, and Mary Dean Preston. Many others who could not be present sent good wishes and gifts.

J. D. FAIRLEY ATTENDS CONVENTION, MINERAL WELLS

J. D. Fairley of the firm of Fairley and Haynes, local insurance agents, attended the convention of Local Fire Insurance Agents held at Mineral Wells on May 10 and 11th, returning Friday night. J. D. reports a splendid time and was fortunate enough to be presented with six golf balls during the registration contest. He is now wondering what to do with the prize.

Mr. and Mrs. D. A. Edwards and Miss Grace Harville were in Lubbock shopping Saturday.

Living Room Contest Closes

Mrs. J. E. Weightman, Lakeview, and Mrs. S. M. Clayton, O'Donnell Win First Places

The Living Room Contest has created quite a bit of interest in Home Demonstration work this year. The County Home Demonstration agent and a committee of judges composed of Mrs. Taylor White and Mrs. M. B. Hood of Tahoka, completed the final scoring last week.

The decision is made on this basis: the one receiving the largest number of points in proportion to the cost. There are two classes; class one is where the expenditure is below \$50 class two is where expenditures is over \$50.

In the county this year we had only two ladies in class two and the remainder were in class one.

Winners in class one are: First—Mrs. J. E. Weightman, Lakeview Club, Meadow, Texas, Route 1.

Second—Mrs. D. G. Cook, Draw Redwine Club, Draw, Texas.

Third—Mrs. J. H. McCarley, T-Bar Club, O'Donnell, Texas, Route No. 2.

In class two the winners were: First—Mrs. S. M. Clayton, O'Donnell Club, O'Donnell, Texas.

Second—Mrs. R. E. (Bob) Finley, Wilson Club, Wilson, Texas.

There is no cash prize given, the award to the winner will be a trip to the A. & M. Short Course this summer.—Lynn County News.

SINGLE VARIETY COTTON COMMUNITIES ON INCREASE

College Station—More than a quarter million acres are devoted to growing of single varieties of cotton on the community standardization plan this year, this acreage being divided among 8318 farmers in 115 communities in 26 Texas counties. This information on the progress of the move to increase cotton growing profits by concentration of varieties has been gathered by E. A. Miller, agronomist in the Extension Service, from questionnaires sent county agents.

"The decline in quality of Texas cotton brought about by increases in planting seed of poorer grades and staples will seriously affect the cotton farmer unless checked," Mr. Miller declares. "It is difficult for an individual farmer to secure a pre-

mium for superior cotton, but when an entire community grows one good variety enough volume is obtained to permit pooling and sale according to grade and staple. Last year premiums from each cotton averaged about \$6.85 per bale.

"The acreage in standardized community cotton has almost doubled this year over last. Data from county agents show that there are now 37 gins in the state devoted entirely to the ginning of a single variety, and that 41 gins plan special gin days for the standardized cotton. This is important in order to avoid admixture of seed and cotton from inferior varieties and to reduce the losses from gin cut cotton. The advantage of keeping seed pure and reducing gin cut cotton are almost as important gains from standardization as the premiums obtained.

"This year 29 communities plan to pool their cotton for sale, and 17 expect to market partly at least through the Texas Farm Bureau Cotton Association to obtain prices based on quality."

Aim to Develop Better Rural News

College Station—As an aid to county and home demonstration agents in gathering and writing constructive news of farm and home demonstrations for their local newspapers, an Extension News Writing Contest is announced by W. H. Darrow, editor of the Extension Service. The contest is to begin August 1st and last one year, during which time the contestants will be given various aids from headquarters designed to sharpen the nose for news. Exhibits of printed material in the six classes of competition will be made at A. & M. College in the summer of 1930 and judged by a group of editors.

The contest is a recognition of the local newspaper as an important medium for extending the results of demonstrations to the entire rural public. The Extension Service is encouraging the closest co-operation between its agents and newspapers, not for the sake of self-seeking publicity, but to make demonstration work effective on more farms and in more homes.

BROWNFIELD GAS LINE WORK BEGINS

Surveyors began surveying out the

proposed gas line from Tahoka to Brownfield on Tuesday morning, according to M. O. Bridges, local manager of the West Texas Gas Company. This line will run from the main two miles west of Tahoka almost due west to Brownfield. Mr. Bridges was unable to say just when the work of excavating the ditches and laying the pipe would begin but it is expected to begin soon. Brownfield will have natural gas before cold weather returns.

Directors of County Fair Are Named

All Sections of the County Represented on Board; Plan For Big Fall Event

Recently it was decided by the board of directors of the Tahoka Chamber of Commerce that a county-wide fair association should be organized, and that this association should have the full and sole authority to direct and manage the fair to be held next fall, entirely apart from the local Chamber of Commerce.

A committee was thereupon appointed, consisting of the president and the secretary of the Chamber of Commerce, the County Farm Agent, the home demonstration agent, and one or two others to nominate a board of directors for the fair organization. This committee met and made its recommendations back to the board of directors of the Chamber of Commerce and its report was adopted and ratified.

This report suggested the following names as directors of the fair association, and they were thereupon duly appointed. The list is as follows:

Low: New Lynn, E. B. Terry; Magnolia, J. E. Morgan; Gordon, J. W. Young; Morgan, Clyde Shaw; Grassland, Claude Thomas; Edith, Mrs. T. L. Hammonds; Redwine, Bob Traweck; Draw, Mrs. John Berry; Midway, I. M. Draper; Joe Bailey, Tom Brewer; Wells, M. L. Taylor; Pride, Dave Haynes; New Moore, C. W. Switzer; T-Bar, J. C. McCarley; Three Lakes, G. W. Hickerson; New Home, S. J. Kitchens; Joe Stokes, B. E. Medford; Dixie, A. F. Pitts; West Point, C. T. Tankersley; Petty, D. C. Baker; Lakeview, S. L. Williams; Wilson, R. E. Finley; Mrs. A. L. Faubion; O'Donnell, E. M. Wilder; T. J. Yandell, Mrs. J. L. Earles; Tahoka, J. K. Applewhite, Claude Wells, Chester Connolly, S. R. Kemp, Taylor White, Emory Nance, Mrs. R. W. Fenton.

These directors will be called together at some early date to organize and make plans for the fair this fall.—Lynn County News.

Mr. and Mrs. Ome Brewer left Sunday for Fort Worth, where they will make their home.

For Good Cultivating in Wide or Narrow Rows

JOHN DEERE NF CULTIVATOR

Because it is simpler to operate; because it does thorough job of cultivating, this John Deere Two-Row NF will do good work in your cotton, corn, potato, or other fields, whether you have planted with a one-row or two-row planter.

Some of the advantages that make the NF such a wheeling favorite are:

1. The easily-operated, conveniently-located spacing drive, which enables you to instantly space gangs in or out of gear, keeping shovels the desired distance from each other in all the varying conditions.
2. The tilting lever, which permits changing set and shovels without stopping team.
3. One master lever, which raises or lowers all rippers necessary at end of rows.

You can get the NF with three-horse or with four-horse hitch with tongue truck. Any style of rigs you prefer.

Come in and ask to see this famous cultivator.

Rock Business Man Endorses Orgatone

Beneficial for the Health and Happiness It Has Brought to My Home

One of the happiest men in the world is I just want to tell all my what Orgatone has done for me," said Mr. J. T. South of 14th Street, Lubbock, Texas, who owns and operates the J. T. South Company.

"I have suffered so for the past years," he continued "with trouble and indigestion that almost given her up. She had the appetite and her stomach eat would stay in her stomach make gas and misery for my nerves went all to pieces got weak and run down and was to lie down and rest during the day while trying to do her work. She was very restless and hardly sleep, lost weight and dependent and down hearted time. Her liver was in a condition and she never found relief until we found Orgatone."

After getting wonderful results from both think Orgatone is the medicine in the world. Her trouble and indigestion is of the past now and she has her appetite that she can hardly eat. She sleeps every night and is enjoying life as she has in a long time. She is grateful for the happiness Orgatone has brought to my restoring my wife's health. I believe it will help anyone."

Orgatone may be obtained from O'Donnell, Texas at the White Company.

It is said to be covered with anyone who wants to use it will find us willing to chance in this office.

New Paper Money Will Soon Be Out

The new paper money which the government will distribute about July 1, will look surprisingly small. Bills only six and 5-16 inches long, and two and 11-16 inches wide, will not seem as if they could do much work at the grocery store.

Before the war old Dollar Bill looked quite respectable, as you offered him to the tradesman. But now, does he do a decent day's work when you send him after your food and clothing? He does not, and he can not complain if he is required to occupy less space in your limited purse.

Pictures of our most famous statesmen will decorate the new money. We must pay some respect to Dollar Bill, since George Washington is not too proud to occupy the seat of honor on his face. Every Republican will gather in all the two dollar bills he can find, though they carry the picture of Jefferson, founder of the Democratic party. And no

Democrat will decline to accept your fiver with its cut of Abe Lincoln, arguing that the boy who rose from the log cabin proves the truth of democratic theory.

These great men would ask if we are spending our money in a way to keep our country and O'Donnell true to their ideals. Do we use it to create the honest industry and the open door of opportunity, which they struggled and sacrificed to hand down to us?

'CHINA'S CONTRIBUTION TO WORLD CULTURE' IS SUBJECT OF MAJOR HUANG

AUSTIN, TEXAS, May 17.—"China's Contribution to World Culture" is the subject that will be discussed by Major Tien Lai Huang, when he lectures before the student body at the University of Texas on August 9 as part of the summer enlightenment program, according to a. H. L. Clark, the chairman of the lecture committee. Major Huang is one of the most notable of the modern Chinese, the group that is re-

building the Chinese nation, Dr. Clark pointed out. He is a leader in the educational, health, good roads and other national movements of the country, besides being the Chinese delegate to the League of Nations. Major Huang was educated at Columbia University and speaks English fluently.

The automobile industry is said to support 10 per cent of the people, while the remaining 90 per cent are kept busy jumping out of the way of the product thereof.

S. T. PRICE, The O'Donnell Index, O'Donnell, Tex.

A stooping posture is said to be unhealthy, though that kind of posture over Father's knee is the woodshed used to be called wholesome.

It costs very little to recondition a MODEL T FORD

The Ford Motor Company is making a new car, but it is still proud of the Model T. It wants every owner of one of these cars to run it as long as possible at a minimum of trouble and expense.

Because of this policy and because of the investment that millions of motorists have in Model T cars, the Ford Motor Company will continue to supply parts as long as they are needed by Ford owners.

So that you may get the greatest use from your Model T, we suggest that you take it to the nearest Ford dealer and have him estimate on the cost of any replacement parts that may be necessary.

You will find this the economical thing to do because a small expenditure now will help to prevent costlier repairs later on, increase the value of the car, and give you thousands of miles of additional service.

For a labor charge of only \$2.60 you can have your generator put in first-class condition. A new universal joint will be installed for a labor cost of \$3. Overhauling the carburetor costs \$1.50; steering gear, \$3.50; radiator, \$7.50. A complete overhauling of the rear axle assembly runs between \$5.75 and \$7 for labor. An average price of \$22.50 covers the overhauling of the motor and transmission.

These prices are for labor only because the need and number of new parts depend on the condition of each car. The cost of these parts is low, however, because of the Ford policy of manufacturing and selling at a small margin of profit.

FORD MOTOR COMPANY

Does your MOTOR SING or POUND?

STOP in the middle of a good substantial hill and listen to the various sounds coming from motors which are climbing it. Some glide along like song birds—others hellow forth like jazz-crazed saxophones. Why the difference? Simply this—the fuel.

With Conoco Ethyl Gasoline in the tank, your motor literally sings along because Conoco Ethyl delivers a steady, even flow of power—up hill or on the level. It won't knock. Hence, it eliminates that pounding noise—so hard on the ears as well as on the motor.

Being a proper admixture of Conoco, the extra miles motor fuel and Ethyl Brand of Anti-Knock Compound, Conoco Ethyl is the acknowledged pace setter for summer driving. It keeps the engine cool at all speeds—delivers maximum power and assures smooth, quiet running.

And best of all, it more than saves its slight extra cost by reducing wear and tear and by giving you the greatest motorizing satisfaction you have ever enjoyed.

Try Conoco Ethyl today.

CUPID TOO HASTY

One expects modern young folks to be fairly rapid, but some of them are exceeding the speed limits with their premature love affairs, too early marriages, and runaway matches.

There are 11 states where girls 12 old can marry if they have the consent of parents, and 36 where they can marry at ages under 16. Even where the regulations are stricter, some youngsters are contemplating marriage at ages when they have scarcely finished playing marbles or dolls.

Parents often consent to very early marriages, feeling their children might run away if thwarted. Sympathy should be felt for families in this predicament, but if they could stiffen up a bit and give a little demonstration of discipline, there will be a better chance for a prudent marriage, also more likelihood that these young folks will bring up children who will be popular in the neighborhood.

The community often has to care for the children of imprudent unions, so its will for marriage laws to be fairly strict. And these young folks who are so impatient for the sweets of matrimony that they get married first and tell the Old folks afterwards, hit quite a blow at loving hearts.

WHY CITIES GO AHEAD

If one analyzes the reasons why some cities and towns go ahead, while many remain stationary, two leading causes appear for such progress.

Some cities have gone ahead because they had exceptionally able

business men, who pushed new enterprises on to success. They developed new ideas, they organized large industries, they drew in many workers, and the whole town profited.

The average run of people can't do those things. They lack the capital, the training, the initiative. But there are many communities where that average type of people have pushed their town ahead, simply by the high standards they maintain in everything they do.

In such communities, people do not approve of disorder, decadence, or shabbiness. If a man owns a business building, he looks it over critically. If he sets up a reasonable standard, he has it improved, or he builds a new one. He considers it poor judgment to try to do business with inferior equipment.

The householders have their standards. You can see them out on their grounds, in these bright spring days, raking up the winter's litter, planting flowers and shrubs, improving their dwellings, making their homes spots of brightness and beauty.

Such a town may have no great wealth, but it is going ahead. The homes will look tasteful and attractive. The business center will look neat and efficient. The streets will look clean. People who pass through will say they would like to live there, and the place will acquire a reputation as an attractive home town. It will then draw a fine type of people, and gain in public advantages and business property.

MARKETS FOUND FOR HOME PRODUCTS

El Paso—Supplying a chain of El Paso grocery stores with yeast roll dough for sale to city housewives who have outside employment is an activity of Mrs. Venson of Hollyhook Farm in El Paso county as a part of the general program of home demonstration clubs in home industries and marketing. This enterprise is making money for Mrs. Venson and enabling the busy city housewife to mold dough into rolls, let it rise for a short time and at a minimum of time and expense serve her family excellent biscuits.

Rose conserve made from the petals of fragrant American Beauty roses is manufactured by another home demonstration club woman here. Mrs. Graves, and the six-ounce jars sold for \$1.00. Other home marketing activities reported to the Extension Service by Miss Irma Sealy, home agent, are commercial flower growing, sales of home made candies, and the merchandising of home canned fruits and vegetables.

CLASSES OF 1929-30 OF UNIVERSITY OF TEXAS WILL MEET FOR FIRST TIME

Austin, Texas, May 17.—Classes of the 1929-30 long session at the University of Texas will meet for the first time on Monday, September 23, according to the new catalogue which is just off the press and is available at the office of the registrar. Registration will start Friday, September 20. No student may

register for credit during the first semester after October 15, while September 28 has been set as the last day for taking up first semester courses.
Examinations to absolve admission requirements will begin on Saturday, September 14, while postponed examinations, for advanced standing and examinations to remove course conditions will be held on Monday, September 16.

SEVENTH GRADE HOLDS FAREWELL PARTY

Friday evening of last week, T. A. Greenwood and Vernon Kirkland gave the High Seventh grade a farewell party.

The guests gathered about 8:30 and began the evening's fun. There was just the right size crowd to have a good time. They played until everyone was tired, but the amusing part of the whole party was the sight of Georgin Mae Smith rooting a penny out of flour. After a lot of fun,

Enterprise Builds Great Service
DAWN, high noon, dusk, midnight! All around the clock men give their best efforts to the Texas Electric Service Company service. Hour in and hour out they work hard to maintain an ideal of service to which this Company has held ever since its organization.
Enterprising citizens. They take their responsibilities seriously. They realize that at any minute of the day or night some home, some store, some factory, some school or some church will push an electric button and demand electric service for an emergency. They must be ready. Power must be there to meet that demand.
That is their life. In making this power possible they get their greatest thrill. They accept their work as a great human service, and perform each task accordingly.
Enterprise makes this possible. These men and women of the Texas Electric Service Company have a definite goal. They are industrious. They are proud of the work they do.
In more than 40 Texas cities and towns you will find these men and women. Their high noon may come at 6 a. m., 12 noon, 6 p. m. or at midnight; but whenever it comes you find them happy, alert and eager to serve. Such enterprise makes possible a great service.

Dix Color Film New Screen Epic

Love Theme Is Enacted Against Brilliant Background of Scenic Southwest

A love theme as tender as the story of Romeo and Juliet, enacted against the majestic background of the little-known American Southwest with all the brilliant coloring and beauty of the country revealed on the screen, which will show Sunday, 19th and Monday 20th at the Lynn Theatre. It is Richard Dix's new epic of the American Indian "Redskin."

"Redskin" is the drama of a race of people, clinging to old traditions yet seeking to adapt themselves to the new. It is the struggle of youth against the caution of age; of youth seeking release from the chains of tribal custom. It is the romance of a boy and a girl of rival tribes, separated by generations of ill-feeling between their ancestors, who learn to love and rise above the restrictions of their environment.

Richard Dix plays the leading role, with beautiful Gladys Belmont, a new-comer to leading parts, opposite him. Dix has a dramatic role and the picture is a perfect vehicle for him. Hundreds of Indians appear in the picture and some of them play small parts. The cast contains many well known names such as that of Tully Marshall.

The color effects are marvelously real and beautiful. The scenic backgrounds are inspiring and the gripping drama is well conceived and particularly well acted. It is a new epic of the American screen.

Mrs. Brewer Complimented With Shower

Mrs. Ome Brewer, bride of last week, was the much surprised guest of honor at a charmingly arranged miscellaneous shower on Wednesday when Mesdames Roy Gibson and R. C. Willis entertained at the home of the latter.

The spacious living room was beautifully decorated in a color scheme of pink and white, with hearts in these colors decorating the windows, low bowls of pink and white roses on tables and mantel, and streamers of crepe paper radiating from the center light.

As guests entered, they were served with fruit punch and directed to a lovely handmade cook book decorated with heart and cupid motif, made by Mrs. Gibson. Each one wrote a favorite recipe and added a good wish for the bride.

Little Miss Leona Holman, dressed as a fairy with a coronet of pink hearts around her dark hair, presented the gifts, bringing them in a fairy's garb. Mrs. Brewer made a short but gracious speech of thanks. Victrola music and readings by Misses Morene Huff and Mary V. Shook were features of the program, which preceded the dainty refreshments, which carried out the theme of the occasion also. Pink ice cream and angel food squares were served to the guests, plate favors being pink hearts tied with white Ribbons and bearing the names of the bride and groom. Those who called during the afternoon were Mesdames W. E. Singleton, Hal Singleton Jr., Cecil Hubbard, Boyd Fortner, P. L. Welch, Dallas Vaughn, R. W. Gary, E. C. Merritt, W. C. Petty, W. R. Gibson, Guy McGill, Chas. McConall, E. D. Holman, W. R. Heathington, J. W. Gates, and Mack Garner, Misses Effie Vaughn, Gladys Gibson, Mary V. Shook, June Gary, Novelle Ratliffe, Morene Huff, Beatrice Wheeler, Jessie Middleton, Ethel Dent, of Post, Ina D. Everett, Alice Joy Bowlin, Mary Jo Gates, and Audys Ratliff.

The Cost of Good Roads

The American people enthusiastically favor good roads, until they get their tax bills for them. There many have their doubts. Of course money is often spent extravagantly for this purpose. Many cities are still paying

on bond issues for highways long since worn out.

Reasonable expenditures for good roads is different from most outlays. A fine public building advertises the progressiveness of a city, but it does not reduce tax bills. Usually these increase, because such a building needs additional care.

But when a good road is built, automobiles run over it with less gas, tires wear longer, cars need less repairs. Time is saved to the farmers truckmen, business concerns. Many towns that think themselves economical, are really extravagant, because of money wasted in driving over rough roads, which tend to discourage people from coming there to trade.

Opinions differ as to the best method of raising good roads money. Taxation of gasoline is regarded by many as the fairest and most practical. Like the dentist with his local anesthetic, who gets that aching tooth out before you know it, this tax has a way of reducing the taxpayer to unconsciousness, before he is aware that he has had to give up his money. And then he glides over the new road as happy as the man whose toothache has been stopped.

We are taxed for our roads whether we improve them or not. If we allow them to deteriorate, we do not realize the taxation. But it is there, in the form of lost time, increased trucking charges, repair bills, injury to a town's business. And so like the man with the bad tooth, the best way when the road gets too bad, is to have those rough surfaces out, and get over our taxation pains as soon as possible.

Slaton C. of C. Raps Income Tax Bill

At the quarterly membership meeting of the Slaton Chamber of Commerce, held Tuesday night at the Club House, direct action in opposition to the proposed state income tax bill, now pending before the Texas legislature, was taken by unanimous vote of those present.

Telegrams and letters from the Slaton Chamber and Board of City Development were authorized to be sent to Representative Carl Roundtree and Senator Pink L. Parrish, who represents this territory in the state legislature, these letters to urge them to oppose the bill and seek to bring about its defeat.

The Slaton Retail Merchants' Association also joined with the other bodies signing the messages to the legislative officials, and the telegrams and letters were forwarded to Austin on Wednesday, bearing the signature of the civic bodies, and of many individual citizens here.

COMPARE the delivered price as well as the list price in considering Chevrolet's delivery prices. Delivery prices include only reasonable charges for delivery and financing.

If you are considering the purchase of an automobile, you owe it to yourself to check the new Chevrolet Six against any other car—value for value and price for price!

Here, in the price range of the four, is offered a smooth, powerful, six-cylinder valve-in-head motor—which delivers better than 20 miles to the gallon of gasoline—and whose smooth, quiet, velvety operation, with its complete lack of drumming and vibration, is a revelation. Here are beautiful bodies by Fisher—with fittings by Tensstedt... rich, deep-tufted upholstery and adjustable driver's seat. And throughout the entire chassis are found numerous examples of advanced engineering—such as quiet, non-locking 4-wheel brakes... ball bearing steering mechanism... and automatic acceleration pump.

But no mere recital of features can give you any conception of Chevrolet's value leadership. So we urge you to come in and see for yourself why over 500,000 people have chosen the new Chevrolet Six since January 1st!

RAYBURN CHEVROLET CO.

A SIX IN THE PRICE RANGE OF THE FOUR

ORDER AND NOTICE OF ELECTION

CITY OF LYNN, CITY OF O'DONNELL

On the 6th day of May, A. D. 1929, the City Council of O'Donnell was convened in special session in regular meeting place in the Hall of the City of O'Donnell, with all of its members present, to-wit: E. M. Wilder, Mayor, G. A. Haney, City Secretary, C. L. Davis, and J. H. Berger, Aldermen, and W. A. Noes, Secretary.

RES. application having been made by certain citizens of said City Council, requesting the passage of a law prohibiting the keeping of hogs within the corporate limits of said City of O'Donnell, for the purpose of protecting the public health, it was moved by G. A. Haney, and seconded by R. C. Carroll, that the same be called upon said question that there be submitted to the qualified voters of said City of O'Donnell, the following proposition:

Ordinance Prohibiting the Keeping of Hogs Within the Corporate Limits of the City of O'Donnell, Texas.

Section 1. Be it enacted by the City Council of said City of O'Donnell, Texas, that the following proposition be submitted to the qualified voters of said city, to-wit: AYES, G. A. Haney, Mayor, City of O'Donnell, Texas. ATTEST: W. A. Tredway, City Secretary. (SEAL)

six months next preceding the date of said election shall be entitled to vote at said election.

All voters who favor the proposition shall have written or printed on their ballots the words, "FOR THE PROHIBITING BY ORDINANCE OF THE KEEPING OF HOGS, HEREAFTER, WITHIN THE CORPORATE LIMITS OF THE CITY OF O'DONNELL, TEXAS."

All voters who are opposed to the proposition shall have written or printed on their ballots the words, "AGAINST THE PROHIBITING BY ORDINANCE OF THE KEEPING OF HOGS, HEREAFTER, WITHIN THE CORPORATE LIMITS OF THE CITY OF O'DONNELL, TEXAS."

A copy of this order signed by the Mayor and attested by the City Secretary of the City of O'Donnell, Texas, shall serve as proper notice of said election. AND the Mayor and City Secretary are hereby authorized to cause such notice of election to be posted at the hereinbefore named polling place in said City of O'Donnell, Texas, for thirty (30) full days prior to the date of said election, and also cause such notice to be published in some newspaper of general circulation which has been regularly published in said City for at least one year before the date of such election, the date of the first publication thereof to be not less than thirty (30) full days prior to such election.

E. M. WILDER, Mayor, City of O'Donnell, Texas. ATTEST: W. A. Tredway, City Secretary. (SEAL)

won yet, but steady improvement is noted from year to year, home demonstration authorities of the Extension Service say. Indeed, it is not too much to expect, they think, that the fly may soon be almost entirely excluded from houses due to the constant screening of more and more homes. Last year 4100 homes were reported by home demonstration agents to have been screened, or flies, mosquitoes and other insects controlled in various ways, or sanitary out-houses built. The country is a naturally healthful place to live if simple precautions are taken, but lack of information, agricultural distress, and high costs have combined to retard sanitation measures.

Terrace By Level And Not by the Eye

College Station—"Trying to run terrace lines by the eye instead of the farm level invariably proves disastrous, yet instances are reported nearly every month of the attempt being made," according to M. R. Bentley, farm engineer in the Extension Service. "A Tarrant county farmer tried it the other day and succeeded in drawing the water to the center of the field at the rate of

a three-foot fall in 250 yards. M. C. Counts, county agent, straightened the mess out at a cost to the farmer of seven days' work, worth, as he expressed it, the price of two levels.

"In Concho county last year Roy Terry, county agent, located three terraces on a field belonging to J. M. James, running the lines uphill, according to the boy who was helping. Lack of time prevented the building of terraces on the rest of the field, but when the rains came the boy discovered to his amazement that the terraces were true, and when harvest time came Mr. James gathered 23 bales from the 85 acre field. He estimated that half of it came from the terraced portion. A neighbor on similar unterraced land made only 27 bales from 160 acres.

"With thousands of farm levels scattered over the state and with hundreds of men besides county agents trained to use them, there is no need of botching up a field by running lines by the eye. It just can't be done," Mr. Bentley says.

Miss Hester Gates, who is attending Teacher's College at Canyon, spent Friday and Saturday with her parents, Mr. and Mrs. J. W. Gates. She reports a busy and interesting year, and is looking well and happy.

CHEVROLET DISMANTLED

AFTER SOLD TO PURCHASER

It became necessary a few weeks ago, for the first time in the history of Chevrolet Motor Company, to dismantle a car after sale in order to deliver it to its purchaser. This interesting incident occurred in Acheen, northern Sumatra, an outpost typical of numerous forsaken corners which Chevrolet has been pioneering for years. One for the last provinces of the Dutch East Indies to submit to Dutch rule, Archeen has never been totally free from recurring outbursts of trouble. As a result, progress has lagged. Because it is rich in oil and endowed with fertile soil, steps have been taken by the government to penetrate it with roads.

Not long ago, the Chevrolet dealer at Langa received an order from the Department of Public Works for a Chevrolet truck to be delivered to a point where the authorities were busy with a road which is to run from Sigli on the north coast of Sumatra to Meulaboh on the west coast, a distance of about 220 miles. From Meulaboh a road already existed up to a point about 50 miles inland. It was from here that the road was to be cut through the jungle to link up with a similarly short road running inland from Sigli.

Ships do not call at Meulaboh so that it was impossible to transport the Chevrolet truck by this means. There was only one solution—the truck had to be dismantled and carried overland by coolies to the scene of operation. The work of dismantling was carried out by the dealer and the weary task of transporting the parts was started.

Without doubt it was the strangest caravan ever to move across this section of jungle land. A coolie, lugging a wheel, marched a little in advance. The cylinder block was in the custody of a particularly husky pair. And so on. The heavier parts were carried in shifts to divide the work equally.

Whole Family 50c**

The route led through almost impenetrable jungle, along narrow mountain paths and over ravines and rivers. On one occasion in the trek, a stream, spanned only by a cable line, blocked the route. Nothing daunted, the expedition chiefs dispatched the coolies with the parts for which they were responsible across the stream "on the wire."

Nearly a month was required to complete the jaunt. The day the last of the parts arrived the truck was assembled by the dealer's mechanic. The next day was doing Trojan duty as Chevrolet trucks have done many times before in pioneering enterprises.

170 Changes of Attire In Clara Bow's Picture

A corps of dress-makers, beadworkers, cutters and fitters worked double shifts at the Paramount studios in Hollywood preparing the more than 170 changes of feminine attire needed for Miss Clara Bow's intalk starring picture, "The Wild Party," which comes to the Lynn Theatre for a 2 day run on May 28th and 29th.

The garments used in the production range from dainty step-ins and other flimsy lingerie to exotic black and white sequin creations for a dress carnival ball.

Each of the costumes, which clothe the red-headed star, the twelve beautiful flappers of her "gang" and more than 100 extra girls employed for the production, was designed by Edith Head, assistant to Travis Banton, chief designer of modern wardrobe at the Paramount studios. Miss Bow herself has twelve changes of dress in the picture.

"The Wild Party" is an ultra-sophisticated story of the modern college girl. Dorothy Arzner, only woman director in the film industry, was fourth, says Travis Banton, the man who designs the costumes Clara Bow, Esther Ralston, Nancy Carroll, Mary Brian and other feminine stars wear in their pictures.

Instead she must shop for one complete outfit at a time. Gown, hat, shoes and accessories must be parts of a harmonizing whole. Each outfit must, in other words, be a complete unit, separate from all others.

Banton has always used this system in designing the wardrobes of

Paramount's famous stars. A most recent example of method of outfitting his changes has been in "The Wild Party," a Bow picture dealing with romance and flaming youth, which comes to the Lynn theatre soon.

ANNOUNCEMENT OF DOUBLE ENGAGEMENT AT DOUBT

Announcement was made last afternoon at a lovely party at Miss Christine Millers and Mr. Shook of the engagement and approaching marriage of Miss Leta Rodgers to Messrs Harold and Claude Malone. More than fifty friends were present to happy news and to offer good wishes. The lovely home of Mrs. Malone was beautifully decorated with flowers, roses and larkspur and linating. Ten tables were placed forty-two and a number of were played. The hostesses refreshing punch during the of the playing.

The announcement was made in a clever manner when the refreshments were brought in. Miniatures covered in moss formed the pieces for the ten tables, with hearts as buckets. On the hearts were the names of the two. And that was the secret in the tom of the well. Plates favoring tiny brides' bouquets of ferns and with streamers of blue. Refreshments of ice cream and food squares were served to Misses Whitsett, Bradley, Bell, Sikes, Johnson, Goch Street, Mansell, Edwards, Harer, Sutton, Martin, Bowlin, Jordan, Garner, McGill, Champion, Miels, Crunk, Deak, Knight, Foster and Misses Velma Winkler, Themer, Jessie Sargent, Alina L. Hancock, Irma D. Palmer, Burk, Grace Harville, Jean, Clarie Ruth Nichols, Alice, Mary V. and Hope Shook, honorees.

Mr. and Mrs. A. C. Felt to Lubbock Tuesday evening attend the graduating exercises daughter, Miss Oma. See count of the proceedings a part of the paper.
